DIFFICULTY IS EXPERIENCED IN OBTAINING JURY

Trial of William D. Shepherd for Murder at Chicago Still Held Up by Lack of Jurors to Hear Evidence.

CHICAGO, May 27.—Extreme difficulty was encountered today in efforts to obtain a jury to try William D. Shepherd for the alleged feeding of fatal gases and poison to his millionaire foster son, Wm. Nelson Ed. Clontock and at adjournment examination of twenty-four veniremen had produced no additional jury.

Three jurors were temporarily passed by both prosecution and defense and eight veniremen who had not been interrogated were locked up. Apparent ill feeling between the prosecutor, Robert E. Crowe and chief of defense counsel Wm. Scott Stewart, indicated in clashes since Crowe ordered an investigation of jury fixing fined today.

The prosecutor once demanded Stewart be reprimanded after Stewart had objected to the state's examination of a venireman and appealed for protection of the court.

Needs Protection

"You will need it" and "you no longer are on the bench, and Judge Lynch will make the rulings in this case," Stewart retorted.

The only tangible charge of jury tampering was held in abeyance today when Judge T. J. Lynch gave counsel for James Callan an additional 24 hours to prepare replies to 23 interrogatories as to whether Callan had represented himself as employed by Stewart and tried to "fix" a venireman.

Prosecutor Crowe looked towards New York tonight for the arrest of Robert White, missing witness claimed by both state and defense, although New York detectives reported that they had been unable to trace White beyond a fictitious address.

PERFECTION IS AIM OF DODGE MANUFACTURERS

The slogan, "Better and Better," which recently appeared on poster boards and in magazines and newspapers everywhere, following closely the slogan of the manufacturers of Dodge Brothers by Dillon, Read and company, has aroused renewed comment regarding one of the outstanding policies of Dodge Brothers, Inc., according to H. P. Magel of the Magel Automobile company, local Dodge Brothers dealers.

"Constant improvement of a basic design has been the established policy of Dodge Brothers ever since their first car was offered to the public," he said, "and will continue to be under the new ownership."
Magel's figures for last year show clearly the wide recognition which has been accorded this sound policy. Totals for the United States show that Dodge Brothers made a gain of 25 per cent against a loss of 11 per cent sustained by the industry as a whole. This year, year after year, all sales for corresponding periods of previous years have been exceeded by an amount.

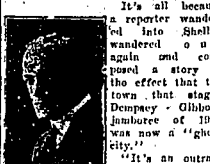

Bird Beasts the Sallow.

The old-time miller was a master workman in making knots, splicing rope, etc., but even he would probably take off his hat to a Baltimore oriole whose nest was recently secured from a felled poplar in Ann Arbor, Mich. This nest, it is believed, was made from a single bit of wood which the bird artisan manipulated into a pouch 5 1/2 by 3 1/2 inches in size. It is described as very firmly and compactly knitted together and securely attached to its supporting branches. The intelligence and ingenuity of the mother bird that constructed such a nest might be appreciated by anyone who should try to make a similar nest with a single piece of card several hundred feet long.—From the Outlook.

What's What in The Sport World

Copyright, 1925, King Features By FRANK G. MENKE

James A. Johnson has lost his temper. And a fair sized portion of Montana has done ditto.

Frank G. Menke

It's all because a reporter wandered into Shelby, wandered a couple of miles out of town, and came back with a story to the effect that the town that staged Dempsey-Gilbona's lumber of 1923 was now a "ghost city."

"It's an outrageous lie," declared Mayor O'Neil. "Thousands of Montanans, plus an array of indelible facts, back up the statement that Shelby is booming now as never before, that land values there are rapidly on the increase and that the little frontier town of two years ago is now the gateway to an oil field that gives promise of becoming one of the greatest in America."

Johnson took the razing and the jacking of a hundred reporters in 1923 with a smile and a toss of his heavy blonde head.

In those days when he was an amateur fight promoter—a very, very amateur promoter—all the gipsies and druggies that were originated at his expense never caused him to lose his temper nor to grow wrathful or spiteful.

"I had all that's coming to me," Johnson told me when I met him last summer while razzing in Glacier national park, Montana. "The newspaper boys called me a fight promoter; I was. Just that, so I took it all with a laugh."

The article declared that Shelby has only one brick building in town, that Main street is practically empty, that the electric light plant has been dismantled, that the town has only one operating hotel and that despite the demolition work it is a ghost town. Why that reporter discovered in Shelby what I discovered while there last fall are discoveries radically different from the one that plant in Shelby was not shut down and it is not shut down now. It is operating 24 hours per day. The town had then, and still has, 17 brick buildings. Tom Capelli, who runs the big hotel in town, is doing so prosperous a business that he is adding another story to his structure.

Other hotels are operating in Shelby and all seem to be doing capacity business.

The reporter seems to have discovered pigeons roosting in one or another of the alleys that served as a dance hall built for purposes of entertaining the fight crowd of 1923. Such unbecoming action on the part of pigeons perhaps created in his mind the thought that the town was a pigeon roost. If that boy ever gets to Philadelphia and finds pigeons roosting in the city hall perhaps he will die of grief.

Shelby is whizzing along and zipping along faster than any town in the Pacific northwest. True, the tooth and the frisk and the carnival crowd of July, 1923, long since have gone. Main street, no longer so jammed with tourists. For Shelby has settled down into a quiet, serious little city which in two years has made progress in every way beyond that of any other small portion.

Many geologists insist that the Shelby district is likely to become an unvarnished oil producing center. Up to this time the drilling has been only for shallow depth oil, ranging down from 1500 to 2000 feet. In most oil countries oil rarely is struck below 3000 feet. Yet the entire Shelby neighborhood is dotted with wells that are producing quantities of oil from shallow sand.

Only a short time ago one of the oil companies operating on the edge of Shelby brought in its test well which is averaging about 8000 barrels daily. Last week another well was struck that looks as if it will top the other. Within six or seven weeks something like 15 wells have been brought in.

Two O'Neil boys, John and Tip, established a refinery in the Shelby district about ten months ago. Before it had been in operation a month it was found necessary to double the originally anticipated capacity. The refinery is operating 24 hours a day and cannot handle all the business demanded of it.

Another refinery, this one on the edge of Shelby, is in process of construction now. New pipe lines are being laid all through the district and the oil boom in northern Montana grows greater with each week now.

Prospectors, geologists and oil men from all parts of the world are drifting into Montana, and are making Shelby their headquarters. New business houses are coming into existence in Shelby with each new week. Work has just been started on a \$15,000 brick building garage. In face of all these facts which in blame Jim Johnson, mayor of Shelby, and the town folk of Shelby and countless thousands of loyal Montanans for revealing little or no article which pictures Shelby as deserted and as a ruin.

DRINK WATER TO HELP WASH OUT KIDNEY POISON

If Your Back Hurts or Bladder Bothers, You Begin Taking Salts

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which helps to remove the waste. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithin, and stimulates clogged kidneys; also neutralizes the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink, which everyone should take now, then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

Legitimate Protest.
Next discussing a "fivever" the chief postime novandyns is the efforts of restaurant proprietors to encourage certain kinds of food to put them over with the trade. So when we saw "Chicken jamballa" on the menu, we were puzzled. The subsequent investigation showed that "chicken jamballa" is a new way of disguising chicken necks. But by any other name a chicken neck is still a chicken neck.—Detroit Saturday Night.

Fire which started about 5:30 o'clock Friday morning between the roof and ceiling on the second story of the block at the corner of Main avenue and Second street east, the first floor of which is occupied by the Golden Rule store, burned the ceiling and wood work in two rooms at the east corner on the second floor, caused damage to water and smoke to merchandise in the Golden Rule store.

SOCIETY AND CLUBS

Edited by Mrs. E. R. Williams, Room 202. The M. S. and K. club entertained the members of the Leola-Rigid club with a very delightful "get acquainted" meeting Wednesday afternoon at the home of Mrs. Charles H. Eldred, with Madames Monte, Jordan, Kramer and Storch assisting hostesses. The home was attractive with the floral decorations artistically arranged. The meeting opened with the singing of "America," and roll call was answered with humorous replies. During the business session the rural club was extended an invitation to meet with Mrs. M. J. Sweeley on June 13 for a silver tea to assist the club club. A splendid program followed, consisting of a vocal duet, "I'll Be Dressed" by Miss Daisy Linn and Mrs. Newman, with Miss Constance Sturgeon at the piano. Mrs. Westfall in a pleasing manner read a paper on "What Constitutes a Good Church Member," a piano duet by Mrs. Sturgeon and her daughter, Constance, piano solo by Mrs. Victor. Humorous reading entitled "Talk About a Farmer," given by Mrs. Mentel. A guessing contest, giving the names of movie stars, caused much mirth, the winner being Mrs. Nell; piano solo, "Dressed to the West," by Miss Adelaide Eldred. Delicous refreshments were then served to the 67 present.

THE FORUM

POTENTIAL FEARS Editor, The News, Dear Sir: When we get a foothold of baseball championship, we have baseball fans and make a lot of fuss in Twin Falls. And these rarely bring into action more than 12 or 15 high school boys. Track is something that uses fifty or more and gives stimulation and exercise to many others. In fact every vacant lot has its miniature track team. The world's college and professional record in the javelin throw for a number of years was 386 feet and this year we have an Idaho high school boy throwing it 150 feet 9 inches. Each year high school boys are moving up into the college class. If we can get seventh and eighth graders enthusiastic now by holding our own in the javelin, then Twin Falls will develop some athletic peers within the next decade. It will do lots to put athletics in Twin Falls on the basis the good citizens have long wanted them to be on—namely one in which all can take part. If the present opportunity to encourage a clean sport of track is taken advantage of by rewarding two outstanding locally developed track men with a trip to Chicago. This is not all useless flattery either. It is the best kind of publicity for Twin Falls. BOOSTER.

PARADE LOOMS AS POSSIBILITY OF ENCAMPMENT

In the past ten years a sum probably reaching into the millions of dollars has been cheerfully shipped out in return for goods sold at the doors of Twin Falls County homes. Still farther enormous sums have been joyfully parted with to salesmen of stocks of various kinds, practically all of which has ever returned a penny of principle of interest to the buyer. In the year 1920 there were in this County alone a sufficient installment in Liberty bonds to defray the total cost of construction of the Twin Falls-Wells Railroad and build a bridge across the Snake River in Gilliam. It would be interesting to know what proportion of these bonds were returned for worthless stocks.

Lever's Wondrous Power

Achilles said: "Give me a lever long enough, and a prop strong enough, and I can stagger the world." He was, of course, speaking figuratively. What he meant was to emphasize the enormous lifting power which the principle of the lever makes possible. This principle is one of the most important in mechanics, and it is utilized constantly in all sorts of ways.

It raises the question, for instance, whether religion is going to "run the schools," if science is not. It raises the question, too, whether such fundamentalists as Mr. Bryan are getting correct in saying that religion is "antiskating religion." To a dispassionate neutral, the answer is plain. It does not seem to be anything much about religion. The last generation of scientists did that. In this generation, it seems to be the religionists that are attacking science. The scientists are usually disposed to mind their own business.

People Must Have Joint-Ease Says Druggist

"You can't stop people from buying Joint-Ease for sore throats, pleurisy, backache and cold in throat," writes one of our druggist friends. "They say it is the best ever."
We know that, of course, but please remember that Joint-Ease is for stiff, swollen, painful joints, whether rheumatism, or sprain, or its transference into that purpose proved that it is the one joint remedy that gets the most satisfying results.
A tube costs 50 cents at druggists everywhere. Just rub it on and in a few seconds it disappears through skin and flesh right down to the ligaments and tendons of the joints—then relief follows instantly.
Always remember, when Joint-Ease gets in joint agony gets out—quick—adv.

THE SPORTS OF A DAY

ATHLETES' TRIP SEEMS ASSURED

Few Dollars Needed to Complete Fund to Send Alvord and Timm to National Meet.

As a result of effort launched Wednesday to raise sufficient fund, Felix Plasiano, Twin Falls high school athletic coach, stated Wednesday evening, it seems assured that the Twin Falls athletes, "Doc" Alvord, high point man in the Utah-Idaho Interstate meet, and Judson Timm, high point man at the state meet will compete in the national meet at Chicago. Comparatively small amount remains to be raised today, it was stated.

In support of the undertaking it is suggested that the success will be in which a much greater number participate than in other athletic contests, and that it will bring beneficial results to Twin Falls. "By all means get these boys to Chicago," was the advice of Coach Homer Christensen, as he left, returning to Salt Lake after the interstate meet here last Friday. "I hope would be glad to have those two fellows at Princeton," said Coach Hutchinson, Princeton coach for the Idaho Technical Institute. "Don't fail to send them to Chicago."

E. M. Swerlow, Michigan '02, said Wednesday such chances for participation at Twin Falls and Idaho on the map don't happen twice in a lifetime. Comparative figures.

A comparison shows that Alvord's record of 22.2 at the low hurdles equals the high school record made at Chicago last year and better than the old state record at 23.9 the Utah high school record at 25.0, and the Rocky Mountain college record at 25.0. Alvord's record at the high hurdles, 16.4; took eight seconds off the old state record. Both old state records were made by Mitchell at Parma in 1924.

Timm's record of 0.9 for the 100 yards is better than the 10.4 record at the interscholastic meet at Chicago last year, and the old state record of 10 seconds flat being set by Doc in Busby in 1923, and by Logan of Rupert. Timm's record of 1.7 for the 200 yards also is better than the 22.8 record of the interscholastic meet at Chicago last year, and the old state record of 23 flat set by Doc of Rupert in 1922 and by Long of Rupert in 1924.

Best in Idaho.

All of Alvord's and Timm's time has been made on dirt tracks and it is a known fact that a cinder track is faster than an all-weather track. These two boys are the best in the state of Idaho in the high hurdles, low hurdles, the broad jump, the hundred yard dash and the 200 yard dash.

Alvord was caught by three athletes in 23.4 on the 200 on a curve track, in spite of the fact that he had not made in the event except in the relay. He holds the new state record in the 200 hurdles, 9 seconds faster than the record established last year by Mitchell at Parma. Twenty-five points were scored in competition against Nott and Utter. West high, both of whom are being sent to the Chicago meet, or five first places out of six starts, is Alvord's record in the mile and a half day. Nott and Utter placed first and second at the Utah state meet just before invading our territory.

Preserving Book Bindings
The bureau of standards advises that the application of a thin coating of egg albumen to the leather binding of the books will prevent decay. The use of ammonia for detinting and preserving the leather should be avoided, but the whites, after a thorough beating, may be made antiseptic by the addition of a small quantity of camphor, thymol or some essential oil. Vaseline is also satisfactory in some cases as preservative for leather book binding.

Extreme Humidity
The Paris islands in the Atlantic ocean, north of Scotland, experience about 300 days out of the year lying in the Gulf stream the climate is mild, although very humid.

EDEN BASEBALL NINE DEFEATS WENDELL TEAM

WENDELL, May 27.—(Special to The News)—The Eden baseball team took sweet revenge on the Wendell team here Sunday by defeating the locals in a hard fought game of ten innings of good sized hits. The visitors held the long end of a seven to two score at the close of nine innings of good sized hits. The Eden team secured 9 hits, which included three triples, three doubles, and one home run on the part of the visitors, led by Wendell team down with seven singles which were well scattered. Ed Johnson, pitching for the visitors, led the Wendell team down with seven singles which were well scattered. Five of the errors were made on long drives to the left field. Veneman whiffed six and walked three while Johnson struck out eight and passed only one batsman.

NEW RECORDS EXPECTED AT CONFERENCE MEET
Seattle, May 27.—Exceptional records undoubtedly will be made at the Pacific coast conference track and field meet to be held at the Washington stadium May 30. This meet is expected to be the greatest in the history of conference competition.

In addition to the powerful Stanford aggregation which is expected to take the meet, there will be 14 man teams from O. A. C., Washington, Idaho, Montana, Oregon and W. S. U. with such names as Hartnuff, Sweet, Miller, Letner, Flannigan, Richardson and Charteris on the program. It seems probable and quite probable that some conference records will be broken.

A program of 15 events is scheduled and with the competition as heavy in each, it is probable that some of the trials will be held on Friday.

POLO TOURNAY AT BOISE WILL BE HELD SOON

Three Army, One National Guard and Boise Teams to Compete for Ninth Corps and Northwest Championships.

Boise, May 2.—From May 30 to June 10, inclusive, are the dates set for the annual polo tournament to be held in Boise this year. Three crack army teams, and one national guard team will compete in the tournament for the ninth corps area championship, and these teams, together with the Boise team, will contest for the northwest championship cup.

According to the Boise polo club this tournament promises to be the best one ever staged at the capital city. The army teams that will participate are Fort Shafter, which has a stronger team this year, being reinforced by better players as well as faster polo ponies; the Prentiss of San Francisco team, which is one of the fastest aggregations on the coast; the Camp Lewis team, reported to be one of the strongest championship contenders and the national guard team, which is made up mostly of veteran polo players and a good string of ponies.

The Boise Polo team has been greatly strengthened this year by the addition of several new ponies. The men, captained by Herb Kemp, have been practicing vigorously for many weeks and will be on their toes when the tournament opens to keep the championship laurels in Idaho.

Preparations are well under way to provide for a record breaking attendance at the games.

BIG MUNN GETS ROUGH IN TRAINING MATCH

MICHIGAN CITY, Ind., May 27.—Joe "Toots" Mondt, cowboy wrestler, made a hasty exit from the training camp of Wayne "Big" Munn today following a stiff clash between the two which had nothing to do with Munn's preparation for his match with Ed (Strangler) Lewis here Saturday.

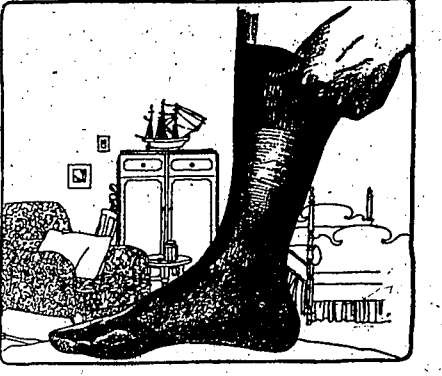

The two were engaged in a sparring bout before a crowd when the cowboy backed Munn in the forehead, opening a gash over his right eye. Munn cowered with a right to Mondt's head which put the cowboy down and beat.

HAZZELTON LOSES TO DELOE

The Hazelton baseball team met defeat at the hands of the first DeLoe team at Idaho, last Sunday afternoon. DeLoe landed on G. Lindaway in the seventh inning and run up a large score which had stood 4 to 3 for the greater part of the game. At the close of the ninth DeLoe had scored a total of 15 runs, while Hazelton had crossed the plate for only three runs.

There's No Sock Like a Pure Thread Silk and No Value Like Allen A—75c

There's no compromise in this sock. It's pure thread Japan silk, where you want silk. And the foot is double-reinforced with heavy lisle where the rub comes.

Pure thread silk always keeps its good looks. Heavy lisle gives the long wear. You can't beat that combination. Ask for No. 325 at 75c the pair.

Volume of water in Jackson Lake reservoir for the first time this year is greater than for the corresponding date last year, according to report made public Wednesday through the bureau of reclamation at Burley. On Saturday last, according to the report, there was stored in Jackson Lake a total of 474,620 acre feet of water, compared with a total of 459,420 acre feet on the corresponding date last year. The difference was 15,200 acre feet in favor of this year's record. On Monday, the report stated, the difference had mounted to 27,180 acre feet, storage records for that day showing a total of 509,520 acre feet as compared with 476,370 acre feet on the corresponding date last year. Inflow during the period from September 1 to May 23, last, amounted to 471,210 acre feet as against an inflow of 416,500 acre feet for the corresponding period a year ago. Precipitation thus far this season here has been nearly double that of last year.

ROTARIANS HERE HOSTS TO DISTRICT GOVERNOR

Charles Dinwoody of Idaho Falls, Utah, Idaho Rotary district governor, attended and addressed a meeting Wednesday of Twin Falls Rotary club at which newly elected president and secretaries of the Rotary club of Burley, Rupert and Jerome were guests. Dr. John E. Carver of Ogden, district governor-elect, who had expected to attend the meeting, was unable to do so and will visit the local club at a later date. Visiting executives held a session following the general meeting at which plans for bringing about closer cooperation on the part of the communities represented were discussed. Club executives in attendance were Dr. J. H. Murphy, president, and Frank Rhoads, secretary, Burley; Iret Gudmundson, president, and William Hoper, secretary, Burley; Paul R. Martz, president and Harvey W. Harlehaus, secretary, Jerome; C. DeMay, president, and Jack Roper, secretary, Rupert; E. M. Sweeley, president and Stuart H. Taylor, secretary, Twin Falls.

SIXTY MINERS ARE TRAPPED UNDER GROUND

(Continued from Page 1) filled with gas but merely was blocked with debris. Two New Explosions The two subsequent explosions were believed to have occurred between the second and third explosion came at half hour intervals, after that at 2:30 o'clock which had cut off escape. Mine authorities said the six miners whose bodies were recovered apparently had died only a short time before they were rescued. This section tonight presented a scene of sorrow with women and children, families of the entombed men gathered near the scene waiting and praying. While two parties of troops from Fort Burgin were sent to the scene, their services were declined.

REALTORS HEAR TRADE LEADERS

Executive Officers of Northwestern Association Confer With Local Land Dealers.

Twin Falls Realtors' association members, at a meeting Tuesday evening in the Elks club rooms, were addressed by H. A. Bonnar of Seattle, president, and T. W. Zimmerman of Portland, secretary, of the Northwestern Realtors' association, and by Ira E. High and Clyde J. Brown, local visitors, who discussed methods and objectives of the Northwest real estate association and told advantages of the multiple listing system that has been adopted by it. C. D. Thomas, president of the Twin Falls Realtors' association, stated Wednesday that it seemed probable that the multiple system would be adopted by the local organization. The main contention of the realtor is deemed the legal action is carried on by the association as a whole.

SUGAR BEET INSECTS SUBJECT OF CIRCULAR

LOGAN, Utah, May 27.—The Utah agricultural experiment station has just issued a circular on insects injurious to the sugar beet. This publication is entitled "The More Important Insects of the Sugar Beet in Utah," and is by I. M. Hawley, station entomologist. The circular considers the insect pests of sugar beets under two main divisions. The first group are treated as those insects that feed on the tops of foliage of sugar beets, while in the second group are placed those insects that feed on the roots of the beet. In the first group are included the sugar beet leafhopper, sugar beet webworm, sugar beet army worm, grasshoppers, beet leaf-miner, false chinch bug, fleas, and hiller beetles. In the second group (those insects that feed on the roots of sugar beets) are included the sugar beet root aphid, sugar beet root maggot, and wireworms. Each insect is described in detail with a complete life history and methods of applying control measures. Pictures to help in the identification of the different insects are given. Copies of this publication will be sent without charge to all those requesting copies. The publication is listed in the Experiment Station Circular No. 64, and can be obtained by addressing Publication Division, Utah Experiment Station, Logan, Utah.

Twin Falls county's citizens who in 1917 and 1918 waged or assisted in numerous campaigns in support of the men who on the firing line overseas are in action under an work of loyalty and mercy with the attainment of the county's \$2000 quota of the American Legion endowment fund for their objective. Leaders and workers in many of the war drives in this county met Monday evening with members of the American Legion posts of the county to outline plans for the new campaign which is being started. It is probable will present the last call upon citizens for assistance in the task of caring for the men who were injured and disabled as a result of service in the world war and for relief of orphans of world war veterans. Measure of Appreciation. Under leadership of Thad L. Hoelgen, former mayor of Twin Falls, and president of the Twin Falls Chamber of Commerce, with municipal leaders for each of the county's municipalities, in accordance with the plan outlined at the meeting, an opportunity will be presented next Wednesday to citizens of the county to contribute to this cause. No quota for individual contribution has been assigned under the plan and voluntary offerings are to be requested in amount proportionate to individual appreciation of the service rendered by "those who gave the most." It is anticipated that the goal will be attained in a few hours after work begins next Wednesday. Headquarters will be established in the chamber of commerce rooms here, and persons who desire to contribute may be overlooked by the workers in the brief time to be devoted to the work are invited to bring or send their contributions to H. A. McCormick, vice president of the chamber of commerce and treasurer of the organization. Organization Personnel. W. H. Hoelgen, former mayor of Twin Falls, has accepted the chairmanship of the campaign in Twin Falls. Those assisting in the work are: For Burley, W. M. Bunce is chairman for Filer, John W. Hardin is chairman for Hagerman, J. J. Galtier, Twin Falls mayor, is vice chairman of the county organization, and the county executive committee includes C. B. Chappel, Twin Falls; Alan G. Fisher, Twin Falls; E. A. Walters, Twin Falls; Arnie L. Stephens, Twin Falls; J. W. Taylor, Twin Falls; Everett M. Sweeley, Twin Falls; W. Orville Creel, Twin Falls; P. C. McArthur, Filer; H. L. T. McManama, Twin Falls; Dr. J. H. Murphy, Burley; Rev. C. E. Heiman, Burley; Carl Estabrook, Burley; W. M. Bunce, Filer; W. P. Shian, Filer; H. G. Muxson, Filer; Guy Swearey, Filer; Rev. Charles D. Fletcher, Kimberly; W. G. Galtier, Kimberly; John W. Hardin, Kimberly; James Matthews, Murtagh; C. E. Hollister, Hagerman; J. Miller, Castleton; Rev. Tom Hodgett, Hansen; Stuart Bergman Hansen, American Legion Posts of Twin Falls, Burley, Filer and Kimberly are operating in the undertaking. Dr. F. Stock of Twin Falls serving as chairman of the Legion committee. Purpose of Fund. The purpose of the endowment fund is to endow in perpetuity the work of the American Legion by providing for the care of disabled veterans of the world war, their families and orphans and to assist in the work of the world war from the fund is to be used, the fund remaining intact for all time. Accounting for the fund is to be made by the American Legion to congress by which it is chartered. It has been ascertained that the total amount needed, \$2,000,000, is sufficient to solve the problem. In its work for the disabled veteran the legion endeavors to obtain for him the benefits of laws passed for his welfare by the United States government. It assists him in a timely advice and encouragement; to find him employment to the end that he may become a self-supporting citizen. Less than one-half of these veterans have been able to connect their disabilities with the service. Therefore this fund will, in part, be used to supplement the government agencies. The county family already provided for would have no call upon the benefits under this fund. Help is to be given veterans' orphans by placing them in "billets" where they can receive the care and attention that may be necessary to their characters and personalities to the fullest extent, after which period they will be made ready to have them adopted into real homes. This applies to the child who has been left an orphan and an orphan. These billets are fully equipped and donated to the American Legion, and consist of several small cottages, each under the direct supervision of a house mother. There are now two such plans in operation, one at Otter Lake, Michigan, and one in Jersey, and a third nearly completed in Kansas. As the need develops more will be accepted.

AMICABLE SETTLEMENT REACHED DURING TRIAL

Amicable settlement was reached in district court here Tuesday in the case of the Nibley-Channel Lumber company against Bull lodge, I. O. O. F., when the lumber company accepted an offer made on the witness stand by H. C. Welch to exchange his own secured claim against the lodge for the lumber company's judgment for \$1200 against the lodge. The lumber company in this suit sought to get aside a deed and mortgage counterclaim on property of the lodge was transferred to A. H. Baldwin, a member of the lodge. The lumber company judgment was based on claim for payment for building material furnished to the lodge. The trial began a few hours after work begins next Wednesday. Headquarters will be established in the chamber of commerce rooms here, and persons who desire to contribute may be overlooked by the workers in the brief time to be devoted to the work are invited to bring or send their contributions to H. F. W. BECKWITH NAMED NEW HOSPITAL HEAD

Under a plan for reorganization of the administration of Twin Falls county general hospital, the county commissioners, Executive F. W. Beckwith, named F. W. Beckwith of Twin Falls to be superintendent of the institution. Mrs. Beckwith has been resident of Twin Falls for about 12 years, being employed throughout that time in the office of the Twin Falls Canal company. One of the first tasks ahead of the new superintendent is the employment of a superintendent of nurses to succeed Miss Lucy Walters, whose resignation of that position to become effective June 1, next, was submitted to the commissioners several weeks ago.

CELEBRATION PLANNED TO BE TYPICAL OF IDAHO

In Ten bands, including the Twin Falls band; Indian tribal ceremonial and a barbecue for 20,000 persons, will figure in the program for the American Falls reservoir project celebration to be held July 1. The celebration will be managed by the American Falls, according to John W. Graham, member of the committee appointed by the state legislature to arrange the celebration, who returned Friday from a meeting of the committee in Pocatello. Celebration plans as outlined, Mr. Graham stated, are subject of financing of \$150,000, and will be arranged by expenditure of \$15,000.

DEATHS

PICKETT—Mrs. Lois Ann Pickett, wife of C. E. Pickett, pioneer citizen of Twin Falls, died at 7:30 o'clock Wednesday evening at the family residence northwest of Twin Falls, following several weeks' illness. The body was taken to the funeral home for interment. Arrangements for funeral services await word from relatives elsewhere. Mrs. Pickett was born September 22, 1858, near Grant Park, Illinois. She came with her husband and family to Idaho in the early days of Twin Falls, when Mr. Pickett, who had served as president of a college, was engaged to teach in schools here, but through his own preference entered began gardening and established the market gardening business which he has since been identified. Mrs. Pickett was the mother of several children, two of whom, Carolyn E. Pickett and Miss Vera Pickett, reside in Twin Falls. TUTORING CLASSES for grades 1 to 6 inclusive, \$10 per month payable in advance, June 8 to July 10, Call Miss Alma Ludwig, 208, on or before June 6.

WAR MOTHERS WILL DO PART

Only Voluntary Contributions to be Asked in Twin Falls for Legion Endowment Fund.

War Mothers of Twin Falls will be stationed next Friday at convenient places in Twin Falls business district to receive voluntary contributions to the American Legion's endowment fund for the relief of disabled service men and for making possible a square deal for veterans' orphans. The War Mothers will thus give their assistance to an effort to raise in Twin Falls county \$2000 for the total fund of \$2,000,000 that is to be raised for this purpose throughout the nation. No arbitrary figure has been fixed as the measure of individual contribution, but it is expected that the most liberal appreciation of the nature and service of "those who gave the most" in the cause of humanity in the world war will serve as a guide in determining the amount to be given by each contributor. The effort to raise Twin Falls \$2000 quota, it was announced Wednesday, will be confined to the work of the War Mothers on Friday. Campaigns to raise the share of other communities were launched Wednesday in Filer under leadership of H. C. Welch; in Burley under leadership of P. C. Meredith, and in Kimberly under leadership of John W. Hardin.
