Stabilization of Industry
Through Elimination of Insecurity
Advocated From Federal Policies

(By The Associated Press)
SAN FRANCISCO, Aug. 26.—Stabilization of the livestock industry through elimination of the insecurity and uncertainties of the public lands, with some suggestions as to what will and what will not work in this end, was urged today in a report of the federal land surveyors by spokesmen for a joint conference of cattle and wool men representing these interests in eleven states, at a hearing before the senate sub-committee here today.

Senators H. W. Stanford of Oregon, committee chairman, and Ralph H. Cameron of Arizona; John H. Kendrick of Oregon; and Frank L. Gallagher of Nevada, members, composed the official body before which was advanced testimony prepared by the livestock interests in support of their appeal that the public lands question as it affects this industry be settled finally and definitely within 24 months of uncertain and variant policies. Frank J. Hagenbach, president of the National Wool Growers' association, Fred H. Huxley, president of the American National Livestock association, and H. Marshall, secretary of the National Wool Growers' association, were the witnesses heard.

From National Viewpoint
The case presented today was from the viewpoint of the national organizations and came as a climactic footnote to the senate committee's hearings now in progress in the several public land bills.
Presentation of the case as viewed by western livestock leaders speaking to the senate sub-committee was divided with President Hagenbach discussing the joint resolution on national forest lands, while Mr. Marshall closed the testimony with an analysis of the wool industry and an appeal for a new system of public land administration.
Historically the point was made that there is no foundation in law for assessment of a grazing fee against livestock ranging the national forests. The present bureaucratic process was an assumption of bureaucratic dominion.

Needs Summarized
"What the livestock interests want, believe the witnesses, is
Enactment of a federal statute recognizing, defining and protecting grazing rights as a public trust.
The allotment of grazing privileges on an area rather than a permit to graze now in force and give the permittee sole privileges in his grant for the right to graze his livestock in any capacity so long as he does not do anything detrimental to the public good or to the interests of the state.
Preference and preference at the time of the allotment of grazing rights."

Tense Situation in Canton as Result of Recent Killing

Many Officials of Government Resigning or Leaving the City as Affirmation of Minister's Murder.
SAN FRANCISCO, Aug. 26 (AP)—Canton received her tonight from Chicago. China, some of them considerable delays, indicate that a tense situation exists in that city following the assassination last week of Liu Ching, hotel finance minister of the Chinese government.
Many officials of the government, it is reported, are resigning or leaving the city. The residence of Hu Hou-min, civil governor of Kwangtung province in which Canton is situated, was surrounded by troops yesterday and all other officials were notified. It was reported that Hu contemplated a trip to Tokyo, but his mission was not known.
Troops Occupy Streets
Troops also occupied the streets of the city and the populace was anxiously awaiting developments. Armed forces of rival factions engaged in a battle for the possession of Kongmoo, south of Canton, early in the week. It is said that Canton yesterday saw the troops of the communistic faction attacked Kongmoo and repulsed the heavy losses and had returned to Canton.
Ching Tung Ming, long a contender with Hu in the late Yunnan, chief of Kwangtung, and Yang Hui-min, the commander of the Yunnanese forces, are the main contestants in the Cantonese, are reported to have been unable to watch events from within Canton and the Yunnanese. The Canton party will work to their advantage.

New Bureau Chief to Take Civil Service Examination for Job

Thomas P. Cooper, Appointed by Secretary Jardine Must Pass Tests for Place.
(By The Associated Press)
WASHINGTON, Aug. 26.—Thomas P. Cooper, dean of the college of agriculture of the University of Kentucky, will be required to take a civil service examination before he can be permanently installed as chief of the bureau of agricultural economics, to which he has been appointed by Secretary Jardine to succeed Henry C. Taylor.
This requirement, which was made known today by the civil service commission, is regarded in department of agriculture circles, however, as more of a formality than a severe competitive examination to select an applicant for the post. Mr. Cooper will not be required to pass a written examination, but will be required to pass an oral examination. It is common practice in selecting government officials to require a general knowledge of the basis of his sworn statements as to his training, experience and general fitness.

Man Sought in Woman's Death

San Francisco Police Attempting to Locate Suspect in Connection With Body Found

OAKLAND, Cal., Aug. 26 (AP)—With the surrender today to San Francisco police of Mrs. Jane Pembury, a woman alleged to be the woman in whose death a man was sought for questioning in connection with the alleged murder of Mrs. Jessie Loren, a woman who was found dead in the city, authorities of three San Francisco bay counties entered their efforts today to locate the alleged "middle-aged man of professional appearance" who visited Mrs. Loren in her home at San Francisco hotel on the evening of August 16, and further attempts to locate the missing trace. Only portions of the woman's head have been found in the El Cerrito swamp this far.

Denies Knowledge
Mrs. Pembury denied connection with the alleged murder of Mrs. Loren, declaring she "never had known the woman." She has been found of the man who visited Mrs. Loren at the hotel in San Francisco.
After her identification of the mutilated body, portions of which have been found in the El Cerrito swamp as that of Mrs. Loren, was effected, she stated that she had no knowledge of the body of the upper jawbone with teeth intact, wrapped in a newspaper close to other portions of the head were found. The identification was made by Dr. Lewis T. Corwin, Oakland dentist, who said Mrs. Loren had been known to him for a number of years. Two brothers of Mrs. Loren yesterday identified other parts of the head as those of their mother.

Mother Collapses
Mrs. W. T. Ferguson, mother of Mrs. Loren, was reported in a state of collapse and she denied herself to all inquiries.
Under Sheriff W. M. Vaele of Contra Costa county, said that he is conducting an investigation of the man who had an illegal operation was performed resulting in the woman's death and also of his part of the man who plotted out by the body and attempted to dispose of it in an effort to conceal their guilt.

FINANCIAL AFFAIRS OF MURDERED WOMAN ARE UNDER INQUIRY

LOS ANGELES, Aug. 26 (AP)—The financial affairs of the late Grace Oregon Young, whose husband, Thomas Young, a dentist, is reported charged with the murder of her with other charges, were investigated by a jury here today.
After her disappearance on Feb. 21, last, the husband went to her bank and told officials she was "out of town" for a number of days. He testified for the prosecution, but he made no effort at that time, Grigsby, financial adviser of the bank, to gain access to her account.
Mrs. Young was the widow of the late Patrick Oregon, known as the "Duke King" who bequeathed her fortune when he died in 1921. The fortune, in the opinion of Grigsby, amounted to \$100,000. He said her income from trust funds amounted to \$200 monthly for her support and the maintenance and education of 15-year-old Patrick Oregon, Jr.
Mrs. Dorothea Leopold Mahan, the woman's "sister-in-law" former office nurse to the accused dentist, was too ill to attend court which prevented further cross-examination by the defense.

WAR OF CHINESE TONGS AVERTED

Threatening Country-Wide Strife Between Two Factions Ends With Police Intervening

NEW YORK, Aug. 26 (AP)—The threatening country-wide war of rival Chinese tong has been averted at least temporarily.
After a conference today at police headquarters leaders of the Hip Sing and On Leung tong, principals in the bloody outbreak yesterday that reached from coast to coast, were returned to their headquarters in Chinatown with the understanding that there will be no more killings pending a final meeting in the district attorney's office Friday afternoon.
The leaders replied to questions were substantially polite. Mainly it was a business proposition. Certain lines drawn in Chinatown beyond which a rival should not pass or establish a business had been ignored. Death was the price and it had been exacted in a businesslike manner as the rival leaders showed in their conference with the police.

THREE UNDER ARREST

BAJTIMORE, Aug. 26 (AP)—Three Chinese are under arrest and a fourth is being sought in connection with the fatal shooting early today of Louis Kwang, restaurant proprietor and a member of the Hip Sing tong. Three other suspects, taken into custody today, were later released. The man sought is said to have driven the automobile in which the cyclist escaped after emptying a .38 caliber revolver into Kwang's body.

FAMOUS LAWYER ANSWERS JUDGE ON EVOLUTION

Darrow Accuses Tennessee Jurist of Publicity Stunt in Statement Made at Girard, Kansas.

GIRARD, Kansas, Aug. 26 (AP)—Charles Darrow, out of the scene already in the Scopes evolution trial here today characterized charges of Judge John T. Heathen that defense attorneys were trying to displace him from the bench, as a publicity stunt.
"Heathen is a politician who has himself too seriously in thinking that the attorneys for the defense are interested in him or his campaign?" asked the attorney.
"I am sure none of them would not let him if he did not ask them questions."
Answers Questions
Mr. Darrow, who is visiting at the home of E. Hallock Jullien, Girard publisher, answered Judge Heathen's query as to the conclusiveness of evolution evidence by declaring it "so routine that in the short space of 50 years nearly all scientists and students interested in the question have accepted it."
Declaring that since "all modern civilization is based on science, the truth as to scientific facts and theories always benefits the world," Mr. Darrow denied that evolution weakens the religious faith.
"I am sure that the world would be better off if it had not known the things which science has revealed," he said.
"Evolution is not concerned in any way with the divinity of Christ," Mr. Darrow said. "Millions of evolutionists believe in it. It has no purpose to eliminate the divinity of Christ."
A question submitted by Judge Heathen was interpreted by Mr. Darrow to mean "if the theory of evolution is true should it still be taught, even though it may destroy the religious faith of some people, or would it be better to encourage people to believe what is not true?"
In reply he said:
"This judge must settle this for himself. I notice that the Christian church does not hesitate to send missionaries to help undermine other religious faiths of the world."

JAZZ GIRL GETS JAIL SENTENCE

One to Ten Years Is Judgment of Court for Dorothy Ellington, Who Killed Mother.

SAN FRANCISCO, Aug. 26 (AP)—The case of Dorothy Ellington, 17-year-old girl, who was found guilty of the murder of her mother, was finally disposed of today, as far as the courts are concerned, when the girl, convicted of manslaughter last year, was sentenced to one to ten years in San Quentin penitentiary by Judge Harold Souders. Dorothy had started to trial twice on a charge of murder. She confessed to slaying and killing her mother on the night of January 13, because Mrs. Ellington refused to permit the girl to go to a "jazz" party. The girl went anyway a few hours after the killing and was reported to have been "the life of the party." The next day she was arrested at a lodging house.

Found Insane Once
The first trial on a murder charge was suddenly halted when attorneys for the girl declared she was insane. A sanity hearing was held and the girl found insane. She was sent to Napa state hospital for observation for 30 days at the end of which time witnesses declared her sane.
The former verdict, Jurors said, had much to do with the returning of a verdict of manslaughter in the last trial.
Dorothy took her sentence calmly and declined to make any comment. She will be eligible to parole after a year.

OFFICIALS THINK CON STRIKE IS BOUND TO COME

Government Turns Attention to Possible Effects on Nation of Prolonged Shutdown of Anthracite Fields.

(By The Associated Press)
WASHINGTON, Aug. 26.—Government officials continued their suspension of work in the anthracite fields September 1, is inevitable, have started to consider the possible effects upon the nation of a prolonged shutdown. A tentative estimate today places the anthracite coal supply at a figure sufficient to meet normal demands until December.
Emphasizing their belief that any attempt by any outside agency to prevent a suspension would only aggravate the situation, these officials estimated that the government was at work on a plan to meet the possibility of an actual shortage, but declined to state as to what steps would be taken if the suggestion of immediate government action, declaring the government shut down, were made. "There does not seem to be anything congress can do about it,"

Thinks Man Will Quit
Senator Reed of Pennsylvania, shared the opinion of the officials that the anthracite strike would be closed. He also declared that there would be no anthracite shortage. He said that it was not definitely known what Governor Pinchot might attempt in this direction. There is an abundance of anthracite on the surface, he asserted, to prevent any actual suffering due to the lack of anthracite pending a settlement of differences between the mine owners and the miners.

DEBT SITUATION DECLARED GRAVE

Developments in Settlement Negotiations Abroad Held Likely to Hamper Parley.

WASHINGTON, Aug. 26 (AP)—Developments in the foreign debt situation which are being reported by some sources here are likely to seriously complicate the forthcoming negotiations for funding the debts of France and Italy to the United States.
While officials were loath to discuss the problems involved today, it was plainly evident that they expect France to bring pressure for terms which would be likely to be fatal to the settlement of the debt.
The former verdict, Jurors said, had much to do with the returning of a verdict of manslaughter in the last trial.
Dorothy took her sentence calmly and declined to make any comment. She will be eligible to parole after a year.

COOLING INFORMED

SWAMPSCOTT, Mass., Aug. 26 (AP)—President Coolidge, watching the fuel situation with a view to saving consumers an adequate supply in the event of an anthracite shutdown, met today with a committee of the Massachusetts Board of State Administration, headed by Governor Stone of Boston, who was last administrator for New England during the war and during the anthracite suspension.
Mr. Morrow, assistant that even if the anthracite miners quit work September 1, there would be no shortage on the part of the public for three months at least. There is a good supply of coal in the anthracite fields, railroads in position to move it, unlike the situation two years ago.

READY TO OPEN PARLEY

WILKESBARRE, Pa., Aug. 26 (AP)—Anthracite operators at the close of today's conference with the citizens "to air their grievances" are ready to announce their willingness to resume negotiations with the miners provided the committee arranged to meet. They provided the operators were not expected to abandon their opposition to the anthracite strike.
W. W. Inglis, chairman of the operators' state committee, outlined the committee arrangements and the committee and designed to clarify the operators' position. It read as follows:
"We are ready to open parley on the coal situation with the miners, provided the committee arranged to meet. They provided the operators were not expected to abandon their opposition to the anthracite strike."

NEW YORK, Aug. 26 (AP)—Actors in New York's greatest drama tonight staged a flood of oratory today, but Governor Smith was still in the wings for his first public appearance in the campaign for re-election in Brooklyn.
Most of the day's developments centered about the governor to whom the "financial czar" of the state in his fight to nominate State Senator James J. Walker as the democratic mayor.

IMMIGRATION SYSTEM DECLARED SUCCESSFUL IN PORTS WHERE TRIED

WASHINGTON, Aug. 26 (AP)—The labor department's new immigration inspection system attacked recently in a public statement by Immigration Commissioner Curran of New York, is being tested by Secretary Hoover today to have been successful in the British and Irish Free State ports, where it recently was installed, even in a greater degree than he had anticipated.

The secretary, returning today from a visit of several weeks in Great Britain, said official foreign government had been so greatly impressed with the new system that many of them had sent representatives to the pilot ports. It was in operation, to determine whether they should agree to have it installed in their own ports.
The greatest evidence of the plan's success, Mr. Davis said, lay not only in the approval by officials of the nations where the experiment is being made, but in endorsement by prospective alien employers, who were relieved of their fear that first arrivals in the United States, they would be rejected at Ellis Island and sent all the way back to their homeland.
"Tomorrow night's meeting is for a hand-picked Tammany audience that won't ask embarrassing questions," said Mayor Hylan, Walker's opponent. All criticism in New York, however, is expected to be deflected to a measure announced a turning point in the primary campaign. From tomorrow night on, the controversy will be focused on the fray with his leadership of the state democracy hanging in the balance.

POSTAL RATE HEARING WILL REOPEN TODAY IN MINNEAPOLIS, REPORT

CHICAGO, Aug. 26 (AP)—The joint congressional hearing on postal rates recessed today until tomorrow morning when it will be resumed in Minneapolis. The sub-committee has been in session here a week, hearing cumulative testimony relative to the effect of the increased postal rates on business.
Today E. F. Hall of St. Louis, vice president of the Balacon Durina company, said that the new rates were "a blow to the shipping industry." L. Wilson, sales manager of the Chicago Nestle company, said that postage wage envelopes, closed with flap and sent with a stamp, cost only half as well since the postage on such unsealed matter went up half a cent.

WOMEN HELD ON PERJURY CHARGE

Mrs. Eula Barton and Mrs. Mamie Conner of Filer to Answer in District Court.

Mrs. Eula Barton and Mrs. Mamie Conner, both of Filer, will answer in district court here to charges of perjury in connection with affidavits containing statement that it is alleged to be false, that they had observed Charles E. Jones, a deputy sheriff in conversation with Jerome Taylor, the chief of Post Office, in connection with the burglary of the Golden Rule store here last January.

The affidavits of the two women and of Stephen Bates, who also has been held to answer to a perjury charge, were submitted to the court by T. K. Hackman, attorney for Paul Pate, in support of a motion for a new trial.

Hearings in the case of Mrs. Barton and Mrs. Conner were held Wednesday in probate court here. No evidence was offered in Mrs. Barton's defense and Mrs. Conner waived a preliminary hearing. Each was admitted to bond in the sum of \$2000 which was furnished.

Evidence was introduced at the hearing by prosecuting Attorney J. W. Taylor with view to showing that the statement contained in the affidavits was false. Mr. Hackman appeared as counsel for both accused women.

Paul Pate has appealed to the state supreme court from the judgment of the district court here, and is at liberty under bond.

OPPORTUNITIES FOR A REAL OPENING IN TWIN FALLS

Business Men Give Hearty Endorsement to Suggestion for Holding General Reception for Patrons.

Enthusiastic approval was given by a group of about 20 Twin Falls retail merchants at a dinner meeting Wednesday evening to the suggestion that there be held here an event that would partake of the features of the "Fall Opening," "Fashion Show," and a "Window Shopping Night," that have been held here in years past, and which has been sponsored by G. Booth, George Balch, Kenneth C. Balch, and T. F. Williams was named to work out plans for holding such an affair within the next week or two.

All of Twin Falls merchants and service concerns were expected to participate in the affair with reasonable displays and window decorations and it was stated that most satisfactory results in the past had attended similar affairs in which no attempt was made to sell or receive merchandise during the affair, but invitations had been issued to the public to call and inspect profited wares. It was recalled that 70 percent of Twin Falls business concerns participated in the "Window Shopping Night" two years ago and that brought not less than 5000 persons to town for the evening.

The meeting of retailers that is being held here in the Hotel Perrine was the first of what is expected to be a series of regular monthly dinner meetings for all Twin Falls business men to be held under auspices of the Twin Falls Chamber of Commerce merchants' committee for consideration of their problems and suggestions for betterment. Frank W. Beaumont, newly named chairman of the merchants' committee, presided.

Twin Falls merchants will not deviate from the agreement reached two years ago when they decided to hold their annual business fair on alternating days. Opinion was expressed that the number of patrons who would be increased to a greater extent by this means than by declaring a general holiday.

Business men who attended and took part in the discussions at this meeting included: C. A. Wright of Ogden, general manager, and George Balch, local manager for W. H. Wright and Sons company; C. E. Booth, H. Eldridge, Charles L. Hart, D. F. Detweiler, Claude Detweiler, T. F. Williams, R. W. Gardner, E. J. Stepien, C. E. Nowell.

YOUNGSTERS APPRECIATE SHOW MAN'S INVITATION

Among more than 100 Twin Falls youngsters who availed themselves of Manager Joe-K's invitation to attend a showing of Douglas Fairbanks in "The Thief of Bagdad" at the Hotel Perrine Wednesday, was one small boy who left home early in the morning to be on hand when the performance opened in the afternoon and remained until the theater closed when an older brother approached him on the scene to escort him back to a mother who had grown anxious over his long absence.

Four other nephews who were introduced by Joe-K to a local showman, started in with manifest trepidation to witness their first motion picture show. The experience was too much for them and before the end of the first reel they fled from the show house in a storm of tears.

Joe-K's invitation was extended to all of Twin Falls boys and girls who would if ever see a picture show because of lack of price of admission, and he invited them to see this show as his guests. He suspects that rain Wednesday afternoon may have prevented some of these who had been as his guests from attending that day and so he has renewed his invitation to these youngsters to come and see the show today.

Walker, 416 Sixth avenue east, was shot in the head at "Window Shopping Night" two years ago and that brought not less than 5000 persons to town for the evening.
