# MENTION HODGGIN FOR HIGH PLACE

Political Story in Boise Paper Says Former Mayor Being Boosted for Governorship.

"Down in the Twin Falls country men are mentioning the name of Bob Hodgkin, a possible candidate for governor," says an article in Thursday morning's Idaho Statesman, in a feature entitled "Political Pot in Idaho Boils."

"Hodgkin, recently mayor of Twin Falls, has been aligned with the liberal wing of the party," continues the article, "but it is argued that the liberal wing is not involved this time, but the direct primary campaign may not be brought up and that Hodgkin has a chance of being elected. He is big enough and deserving enough to be honored. There is furthermore some hope in the southwest part of the state, according to the gazette, that southwest and north might combine on such a man as Hodgkin."

# COUNTRY DOCTOR FREED OF MURDER CHARGES

Conviction and that it slimmered down towards the end to a point where a single juror was holding out to convict."

Prosecutor Stone saw in the action of the jury judge a victory for law and order.

"These men, as a body, declined to put the steps of approval on this sort of crime; they declined to state that Hodgkin would condemn these types of killings and it will serve as a warning in the future," he declared.

"I moved for a dismissal of charges because I do not believe any jury could agree on a verdict and because I believe the people's will has been accomplished without the further expenditure of their money for another trial."

# CROP REPORTING PLANS DEFENDED

### Secretary Jardine in Letter to Senator Pepper Upholds Methods Used in Department

WASHINGTON, Nov. 12 (AP)—A general defense of the agricultural department's crop reporting system and suggestions for changes in reporting practices have been made by Secretary Jardine in a letter to Senator Pepper, republican, Pennsylvania.

The letter, made public tonight by the department, dealt at length with the cotton reports which have brought numerous complaints from southern members of congress. With respect to other crop forecasts, he said there was some question as to the ability of the government to make interpretations of conditions as far in advance of harvest as is now done. Some of the early forecasts dealing with grain, potato and fruit crops, he added, probably will be omitted next year.

**Gives His Views**

Asserting that the interests of the cotton growers demanded that the government continue to report the condition and probable yield of that crop, the letter pointed out that if the government withdrew from the field, the crop reporting business would be left to private interests alone. The present accuracy of these private estimates, the secretary said, is probably improved by the government's issue of official estimates.

"In my judgment," he wrote, "it is very important that some uniform agency, such as the department of agriculture, shall make preliminary estimates of crop production prior to the harvesting of any crop. Such estimates, made by a disinterested agency, help to insure a proper relation between supply and prices and, thus, the farmer in preparing to market his crop and furnish a sound basis for bargaining."

He called attention to the fact that there had been an average difference of only 17 per cent between the department's July forecast and the final findings reports during the last two years, and that in three of these years the difference was less than 6 per cent. The widest difference that has ever existed, he said, was 25 per cent.

# PUBLISHERS END ANNUAL PARLEY

### Three Day Session of American Association Closes in West Virginia.

WHITE SULPHUR SPRINGS, W. Va., Nov. 12 (AP)—The annual meeting of the American Newspaper Publishers' association ended its three-day session today. LaFayette Young, publisher of the Bee Tribune, presented the motion, and his suggestion that some middle western city be chosen for next year's November meeting was taken under advisement by the board of directors.

"Better advertising" was the keynote of the final business meeting. It was urged by speakers that publishers take more care in adding local merchants to yellow advertising and typographically pleasing advertising copy. Among the speakers on the advertising topics were J. H. Ridge of the Indiana Apple News; William Donohue of the Chicago Tribune; Louis Wiley of the New York Times, and R. E. Lent of the Dallas Daily News. Mr. Wiley particularly emphasized the need of having department store advertising contain bona fide advertising matter and urged publishers to encourage this feature in advertising.

## CLASH BREAKS OUT AT NEW YORK CONVENTION BETWEEN TWO FACTIONS

NEW YORK, Nov. 12 (AP)—The clash between the scientific and religious interpretation of modern life flared into the foreground at the annual meeting of the national committee for mental hygiene today at the Pennsylvania hotel, when the Rev. Carl Johnson, pastor of St. George's Protestant Episcopal church, criticized many of the foremost psychiatrists in America attending the meeting for "ignoring the spiritual."

Previous speakers had stressed the danger of inexact practitioners acting themselves up as authorities on mental hygiene and declared this the greatest need in the field of science was the training of more physicians.

"I am not nearly so much concerned about the nature as I am about the experts," Dr. Holland said. "The experts are ignoring the spiritual to a dangerous degree. Experts in medicine will have to give greater attention to the connection between the psychological and the spiritual and recognize that there is a very great factor which meets here in the field of morals."

### Improvement in Cattle and Hog Market Seen by Babson

Noted Statistician Optimistic Over Future of Livestock and By-Products of Industry; Tells Why.

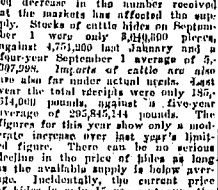

**BABSON PARE, Wash., Nov. 12 (Special to The News).**—Two weeks ago Mr. Babson discussed the sheep and wool situation, giving conditions and figures for his opinion. Today he has been asked for his opinions regarding the cattle and hog industry together with conditions.

In late 1920 cattle and hogs suffered an exceptional setback in the Chicago market. The price of the hog rose to 25 cents, but fell to 20 cents. Hogs also fell 20 per cent. In both cases the price level was accepted by the market. For four consecutive years conditions were adverse to a steady price in cattle and hog raising, and as a result serious and important changes have taken place.

Take cattle, for example. In 1907 there were over 25,543,000 head on the open range. This was followed by a downward tendency to a low of about 18,000,000 in 1912. The following years showed an increase but since 1918 there has been a steady decline in the number of our farm raising.

In the year 1924 the number of hogs in the United States was 11,600,000. In 1925 the number of hogs in the United States was 11,600,000. In 1926 the number of hogs in the United States was 11,600,000.

# CANAL COMPANY LEVY FOR 1926 IS FIXED AT \$2

### Directors Approve Budget In- creasing, Appropriation for Drainage and Debt Reduc- tion;

Twin Falls Canal company directors at an adjourned meeting here today, approved a budget appropriation providing for expenditure of \$440,000 for the year 1926, involving increase of approximately \$42,000 as compared with actual disbursements for the year 1925 in the total sum of \$397,488, and fixed the 1926 levy at \$2 per acre as compared with last year's levy of \$1.50 per acre.

The levy is to be payable in two installments, the first payment of \$1.50 per acre being payable on March 1, and the second payment of 50 cents per acre being payable on October 1.

Revenue to be raised by the 1926 levy, according to estimate, is \$406,000. It is estimated that miscellaneous revenue during the year will amount to \$40,000.

The budget provides for increased expenditures for drainage and sewage work and for debt reduction, and for reduced expenditures for water delivery, capital outlays and repair replacements and upkeep.

#### Comparative Figures.

As compared with 1925 expenditures of \$397,488 for drainage and sewage work, the budget provides for expenditure of \$440,000, an increase of \$42,512 for this work, but no comparison with 1925 expenditures of \$110,071 on account of debt reduction, the budget provides appropriation of \$125,000 for this fund, an increase of \$12,230.

The budget provides for reduced expenditures next year as follows: Water delivery, reduced \$7750 from \$12,743 to \$5000; repairs, replacement and upkeep, reduced \$15,000 from \$115,204 to \$100,000; capital outlays reduced \$100,000, from \$131,401 to \$31,401.

The directors' vote on approval of the budget, and on fixing of the 1926 levy was unanimous.

### American Falls Reservoir Dis- trict No. 2 Tells Plans for Reclamation.

Directors of the American Falls reservoir district No. 2, recently organized to include approximately 150,000 acres in the vicinity of Gooding for delivery into custody of the irrigation water to be impounded in the American Falls reservoir, for permission to install a headgate above Milner dam on Snake river, through which to divert 1000 second feet to a proposed canal that is to carry this water to the district's lands.

The Twin Falls board took no action on the application, but it was arranged that a joint meeting of the directors of the Twin Falls Canal company and of the North Side Canal company, joint owners of the Milner dam, should be held next week in person for consideration of the request.

Under the reservoir district's plans, American Falls water will be used to form a supplemental supply for approximately 55,000 acres now under irrigation, and for reclamation of approximately 55,000 acres.

Representatives of the district at the meeting here Thursday were John Thomas and W. Gooding and E. H. Sutphen.
