COMMISSIONERS VOTE TO BUILD HOSPITAL WALK

County Board Authorizes Construction as Soon as Work of Securing Right of Way is Completed.

Authorization for construction of a sidewalk to the county general hospital as soon as right of way for the walk could be secured was voted by Twin Falls county commissioners at their last regular meeting last week, it was announced Thursday by C. C. Higgins, county auditor and recorder.

At that time, Mr. Higgins stated, the necessary right of way had been secured except across one lot. Injury to pedestrians who have been struck by automobiles on the highway to the hospital has occasioned demand on several occasions since the hospital was built for construction of a sidewalk to the institution. Predecessors of the present county commissioners had under consideration at one time plans for building the walk which were blocked because of inability to obtain right of way without cost on the north side of the road.

Jury Gives Views On Deal for Plants

In answer to interrogatories Thursday by a jury in district court for the guidance of the court in arriving at judgment in the case of W. H. Hough against R. W. Qualls, an action to foreclose a mortgage executed in 1922 to secure payment of a promissory note for about 1200 given in payment for nursery stock purchased by defendant from plaintiff, it is held that 20 of the trees failed to grow through fault of the defendant and were not replaced, defendant sustaining loss of \$25. It is further held that 43 grape vines failed to grow, but that the fault was not that of the defendant and that he sustained a loss of \$25 on that account. Berry bushes that figured in the dispute, the jury found, were blackberry bushes and not dewberry bushes, as contended by the defendant.
