Barton Reveals Human Side of Nation's Chief

Noted Writer Prevails Upon President of United States to Break Long Established Precedent by Granting Personal Interview.

(On the eve of his departure from White House camp last week, President Coolidge sat down with Bruce Barton, a personal friend and confidant, in an interview which was the most intimate and revealing of the human side of the chief executive that his visitor prevailed upon him to depart from precedent in this single instance and allow himself to be quoted to the American people directly.)

By BRUCE BARTON (Copyright, 1926, by The Associated Press.) A PATIENT and persistent father was waiting for the president and I left the White House building that had been the summer office headquarters of the government. He had stationed his youngest daughter on the steps and looked for just long enough to trust her bunch of wild flowers into the president's hand when he came out of the building.

Christina has been the object of a determined search by district attorney officers for several days. He is believed to be in the vicinity of Chicago where indirect and unsuccessful efforts looking toward immunity in return for testimony in the disappearance case have been made to Keyes.

Third Woman to Appear. Mrs. Lorraine Wiseman-Schiff, whose confession that statements she made concerning the identity of a woman companion of Christina at Cornell University, just after the evangelist disappeared, were untrue, precipitated the crisis in the McPherson case, hearing will have her preliminary hearing Monday.

Keyes said he intended to present evidence to a new grand jury to be impaneled next Tuesday and ask for an indictment against the former Angeleno tempo radio operator, Mrs. W. J. Gilbert, attorney for Mrs. McPherson, declined to indicate when she would appear.

Every Punch Traded by Jack Dempsey, world's heavyweight champion, and Gene Tunney, challenger, will be megaphoned to Twin Falls fans in front of The News office this evening.

SELF-IMPOSED SENTENCE TRIES NEBRASKA JURIST. HARTINGTON, Neb., Sept. 22.—After three days of his self-imposed "sentence" on bread and water to "atone" for a crime of "disrespect and insolence," county Judge W. E. Bryant, 75 years old, one of the best known jurists in Nebraska, has decided to go to jail for 30 days.

COAST PHYSICIAN TO GET EARLY HEARING. SEATTLE, Wash., Sept. 22.—While the prosecutor and the judge of Indian county were in Seattle today pressing arrangements to try Dr. Paul H. Moore of Sequim, Washington, and his wife, the sheriff here received a writ of habeas corpus for the doctor, charging him with practicing medicine without a license.

ACCEPTS COMMISSION. WASHINGTON, Sept. 22.—After changing his mind several times, Midshipman Earl B. Zirkle, of Kansas, has accepted today as an ensign in the navy. He first received the commission upon graduation from the naval academy last June.

PROSECUTION READS TO JURY. HIGHLY INCRIMINATING CORRESPONDENCE BETWEEN MRS. CRUMROY AND HER DAUGHTER. (By the Associated Press.) CHICAGO, Sept. 22.—As a climax to the prosecution of Mrs. Crumroy for the first degree murder of her second husband, Carl Crumroy, the state today read to the jury a letter which was the first correspondence between the defendant and her daughter, Mrs. Myrtle Ann of Springfield, Illinois. These letters, copied by Milledune county officials from the original intercepted correspondence, may prove to be the connecting link in the chain of evidence which will establish the guilt of Mrs. Crumroy as the poison moulder of her former husband.

OPPOSES ADMITTANCE. Judge T. Insley Lee's admission of the correspondence between Crumroy was met by a vigorous protest from defense counsel and objection to the ruling was taken.

MECHANIC WILL BE HELD FROM SCENE OF SHIP'S DISASTER. WESTPORT, N. Y., Sept. 22.—(Associated Press.)—A mechanic who worked on the ship that was under the shadow of grief today.

TO BURY VICTIM OF PLANE CRASH. NEW YORK, Sept. 22.—(Associated Press.)—A man who had worked peacefully for weeks preparing the huge Sikorsky biplane for an attempted nonstop flight from New York to Paris, Monday, was today buried in a cemetery, remembering the fatal crash and destruction of the plane yesterday on its attempted landing which resulted in the death of two men. A fitting monument to the disaster will be given to the family of the mechanic, Jacob J. Isamoff, mechanic, one of the two men killed in the crash, will be taken from the wreckage here and carried to the Sikorsky hangar where funeral services will be held. He will be buried in the Mohammedan cemetery in Brookline.

LISTENS TO LETTERS. This same daughter, who yesterday denied purchasing a bottle of poison solution for her father, in contradiction to her sworn affidavit, also had made the purchase, today told the jury, as follows: "My mother, you write me about what to say on a separate paper and tell me everything you can. My mother has known me since I was a child and she would not want to do anything in my power to help you."

Half Million for Florida Relief Is West Coast Quota

(By the Associated Press.) SAN FRANCISCO, Sept. 22.—The headquarters of the Pacific division of the American Red Cross announced today that it has been allocated \$500,000 of the quota that is being raised by the organization nationally for the relief of the Florida hurricane victims. The 200 chapters of the division in the western states and Alaska were notified and asked to raise all available funds.

NEED FIVE MILLIONS. WASHINGTON, Sept. 22.—The Red Cross today announced that it needs \$5,000,000 as the minimum required for immediate relief work in the storm areas.

PLAYED BASEBALL. "Did you play tennis, baseball, and swim in the old swimming hole?" "I played tennis and baseball. Around where I lived there was an old swimming hole. I have played golf only a little. I think it is a fine game. I like it. I can get out on the street at any time and I think a good break with it is unexcelled as a form of relaxation and recreation. It starts the circulation into the usually evenly distributed channels and relieves any part of the system that has been overtaxed by exertion."

LIKING FOR POETRY. "I have always liked to read poetry. My own mother was very fond of it, she read Trueman a great deal and I, in my boyhood I found the poems of Keat very interesting and read them as much that I could read long passages from them. Later I found a great deal of the poetry of Bryant and I read it as much as I could. My grandmother could give me a complete set of Shakespeare, which I read and I studied some of his works while in college. Milton always had a fascination for me, and for many years I read some of his works."

FIGHT MAD CITY OFFERS THRILLS

Excitement Runs High in Philadelphia on Eve of Greatest Ring Event in History.

PHILADELPHIA, Sept. 22. (AP)—While the last injunction move was being fought in court and the last bids were being driven into the screeled rows of pine seats at the Municipal tennis stadium, Philadelphia tonight became the center of the most feverish fight furore in boxing history.

Nothing in the last three decades of glove fighting has ever approached the excitement and enthusiasm aroused on the eve of the second battle to tomorrow night in which Jack Dempsey, king of the heavyweight division for seven years, will defend his crown

against the attack of the former middleweight champion, Gene Tunney.

The fact that Dempsey is an overwhelming favorite, quoted at odds of only 7 to 1 in brick betting, has not dampened public interest. Philadelphia, entertaining the greatest sporting event in its history, has gone "fight mad" on general principles.

The incoming thousands, most of them from the big east and middle western centers of population, but others from such far away points as Australia and South America, testify to the worldwide attention drawn to boxing's classic event.

The first heavyweight championship bout in three years will have the most dramatic and spot-on setting in the annals of boxing or probably any other sport. If the expectations of promoter Tex Rickard are fulfilled, and they seem likely to be, approximately 125,000 spectators will pay something like \$1,500,000 to see Dempsey and Tunney match their skill and stamina in a struggle that cannot last more than 20 minutes.

Previous records were established in 1921 at Buckle's (now-called Jersey) City, when 60,000 saw Dempsey hammer George Carpentier into submission in a bout of 41,226,000.

The experts are nearly unanimous in picking Tunney to win, but supporters, chiefly moral, for the challenger come from all walks of fortune. Tunney's near record, his engaging personality, on the eve of which he has fought himself into 21 title-contending position, will have made the popular fancy.

Those most hopeful of Tunney's

proprietors base their conviction that he has at least a fighting chance upon several factors. These have to do first only with Tunney's excellent record, and unquestioned ruggedness and defensive ability, but a belief that Dempsey will not be the same champion who battered Willard, Carpenter, Elizo and others into defeat. These critics, while conceding Dempsey to be the heavier puncher, doubt that he has regained his best condition or that his legs will carry him through if the fight is unexpectedly prolonged.

WINNING DOG SPENDS DAY AT SANITARIUM

HOT LAKE, Ore., Sept. 22. (Special to The News)—Promoter Commacke Duane, pointer who took first in the Open All Age Southern Idaho Stakes Sunday at Jerome, spent Tuesday at the Hot Lake Sanitarium. Though the winning dog is resting for the day for all in Corvallis, September 25, he was put a patient at the sanitarium. Dr. W. T. P. By, owner and director of the institution, owns the dog jointly with J. J. Carr, business man of La Grange. Marie Ware of Twin Falls, now training him, stopped here on his way to the Willamette valley. From Corvallis he plans to take the dog to events in Walla Walla, Washington; Lewiston, Idaho, and Vankina, Washington, before returning to Boise for the National Pleasant champion meet in Boise.

Challenger Turns in Best Score on Eve of Big Bout

STROUDSBURG, Pa., Sept. 22. (AP)—Gene Tunney spent this afternoon on the eve of his championship bout with Jack Dempsey, applied the acid test to his nerves. He played 18 holes of golf over the course of the Shawnee Country club and was hitting his shots so well he turned in the best score he has made in a year. He was only two over five for the official layout.

"This day's golf gratified me exceedingly," said Tunney after he had finished the round. "A man whose nerves are not all right can't play golf. I remember just before the Gibbons fight I was jumpy and when I tried to ease the strain with some golf, I dulled almost every shot. I was playing with Billy Gibson and he gave me the razz. I wish I had had faith out there today. I would have handed him his razzberry back with interest."

The score of 92 for the well-tripped Shawnee course was made more remarkable by the fact that the boxer had never played over the Shawnee layout before.

No Other Exercise.

The golf was the only exercise of the day and tonight Tunney spent chatting with friends who arrived to day. The latest arrivals included one of the challenger's family, Tom Tunney, a New York motorcycle police-

man. One of the visitors from a distance was Carl Farley, who drove an automobile from his home at Amarillo, Tex., to join Tunney well before he goes to the battle ground. Farley is another of the contender's overseas friends. The Texan was an accomplished wrestler when he was in the service.

King Pin of Heavyweights Plays Checkers and Takes Car Ride; Promises Action.

ATLANTIC CITY, Sept. 22. (AP)—Jack Dempsey stretched his million-dollar frame beneath the sheets in his cozy room at the Waldorf-Astoria hotel supremely confident that he will knock out Gene Tunney in their world's heavyweight championship fight in Philadelphia tomorrow night.

The bronzed and windburned titleholder went to bed early after a day in which he had little to do but sit on the front porch of his bungalow, play checkers and go for an automobile ride, Dempsey said he was down to 170 pounds and he expects to weigh about that figure at ring time tomorrow night.

As a result of a special arrangement with the Pennsylvania boxing commission, Dempsey will weigh in at 2 o'clock tomorrow afternoon in the back yard of the Waldorf-Astoria hotel.

Bruins Ready for North Side Squad

Final scrimmage in preparation for the football game Friday was the order of the day at Lincoln field last night. The Bruin squad, hampered somewhat by minor injuries, was victorious over the North Side team.

EVANGELIST TO FACE COURT NEXT MONDAY

of the school prayer prohibition, the pastor exclaimed: "I wish to state that for me, it goes to show that troubles may come and troubles may go, but we will believe in water, come what or when."

After 17 years of effort, you don't think I would be an ass and throw it all over, do you? Do you? Mrs. McPherson seemed to have completely recovered from last week's illness and was radiant in personality as she took up her check.

Women's Allure

no longer imperiled under ALL conditions. Sheer gowns worn without a second's fear, any time, any day!

Eight in 10 better-class women now employ "KOTEX" as a new way, 5 times as absorbent as ordinary cotton pads.

Absorbent and deodorizes at the same time, thus ending ALL danger of offending.

Heavyweight Tilt Is Not Yet Out of Legal Wilderness

PHILADELPHIA, Sept. 22. (AP)—The Dempsey-Tunney fight is not yet out of the legal woods, but there seemed little prospect, after another day of court maneuvering, that any of the proposed barriers would prevent the bout from being held tomorrow night.

Whatever chance remains of blocking the fight depends upon the outcome of a decision tomorrow morning in one-man plan court on the application for an injunction brought by J. C. Clements, Chicago attorney, who claims to hold a prior contract with Dempsey for a match with Harry Wells. The decision is expected at 10 a. m.

Democratic Victory Foreseen by Gerry

WASHINGTON, Sept. 22. (AP)—Senator is certain to be democratic after the approaching election, Chairman Gerry of the democratic senatorial campaign committee said today upon his return to Washington.

"The people are sick of inefficiency and are turning to the democracy for the intellectual ability and the moral courage that is needed to handle the present crisis," he added.

"The textile industry is in a severe depression along with agriculture. Mills are closed or are running on half time and we may expect another bleak winter if the unemployment continues. The farmer is demanding constructive legislation and his protest will be loudly voiced at the polls in November."

Miami Appeals for Aid: Huge Relief Sum Needed

MIAMI, Sept. 22. (AP)—Miami appeals for aid from the rest of the United States because of the damage done by the hurricane. The city is in a state of chaos and the people are suffering.

The Miami Daily News tower was leaning at an angle of 23 degrees. That was reported by the city engineer, who said that the tower is in a state of danger.

Additional bodies were found yesterday at Miami, Moorhaven, Fort Lauderdale and other points as the flood waters receded and rescue parties were augmented.

GIRL RESERVES DRIVE MARKED BY ENTHUSIASM

Twin Falls District Campaign Launched With Inspirational Luncheon Meeting, to Close This Evening.

The committee in charge of the Girl Reserve campaign expects the luncheon about yesterday's opening luncheon to carry over until this evening when the final reports will be made. "Over the top for our town" was the slogan for the occasion. Miss Eber, Hazelton and Twin Falls carried with them to help them succeed in their respective campaigns. They will all meet again at the closing dinner tonight at 8:30 at the Presbyterian church in Twin Falls. A committee of women of this church, with Mrs. O. W. Witham, chairman, will serve the dinner.

Enthusiasm Beginning

The opening luncheon yesterday was a most enthusiastic meeting, with over 60 earnest workers in attendance. A high school committee was organized as an appropriate grace, led by Miss Eva Damagan. They also sang all during the service of the opening luncheon. Girl Reserve songs and glee were enthusiastically chosen for the various leaders. The girls who helped with this important part of the campaign were: Katherine Larson, Norma Niska, Alpha Piers, Mary Provost, Elva Rowberry, Charlotte Simpson, Helen Warner, Berrie Weaver, Marcelle Wilson, and Fern Worth.

Miss Will Gibson of Boise, chairman of the Southern Idaho district, presided. Among other things she said that she was glad to see that some of the women of high faith who helped to start the work two years ago were still their efforts. She was interested in the girl reserve work. Mrs. J. M. Maxwell, chairman of the Twin Falls section, was toast mistress. The first speaker was Mrs. Helen Flack, secretary for Southern Idaho, who gave a brief review of the year's activities. She said that the number of girls interested had doubled during the last year, and gave several instances of individual girls who had been helped and encouraged. Her inspiration to meet their difficult problems. Miss Virginia Beck, president of the Girl Reserve of South Idaho, who lives in Idaho, brought several messages from the girl themselves, and expressed the great appreciation of the girls for the work they were doing to make possible so many fine opportunities for them. She said, "You know that in a few years we will be the ones who will have this finance work to help the girl of the next generation."

Important to Community

Asher B. Wilson, president of the committee, said that the girl reserve work was as important to the progress and welfare of a community as a chamber of commerce. That besides increasing salaries and educational opportunities they should be character building organizations. Congressman Addison C. Smith emphasized the double value of the work by making your purpose in life include an individual service for others, and bring the greatest joy and satisfaction to yourself.

Lulu Gordon, national Y. W. C. A. secretary, urged the workers to get a vision of big work they were helping to do, not just get money from people for to get them to invest in opportunities for girls.

Life's Span Extended

In 1901 the average length of life was thirty-three years. In 1925 it was forty years and in 1926 it was fifty-eight years. Actuaries of the insurance companies report that within the last 50 years the span of human life has been lengthened ten years. The great work of the death rate is due primarily to the better preservation and care of infant life, but the actual longevity of man has been advanced. According to a study the vitality of man has also been extended over a longer period.

AVOID WASTE IN MINERAL FIELDS

Geologist Outlines Practical Development Program Before American Mining Congress.

DENVER, Colo., Sept. 22.—(AP)—Any development program as applied to the mineral resources of any region, whether a coal field in Montana, an oil field in Wyoming, or a gold district in Colorado, should be made in accordance with the practical engineering of the government engineer in order to verify his employment.

That is the message of the geologist's survey of the department of the interior, today addressing the western states convention of the American Mining Congress.

Speaking not only the present but the future America is the purpose of governmental activities, whether state or local, Mr. Smith told the convention.

The landed estate remaining in public ownership includes resources which are being developed in the most practical manner possible, Mr. Smith said.

Paternalism in government is something to be avoided, Mr. Smith said, and urged that emphasis should be placed where it belongs—upon a human development rather than an mere material development.

Paternalism without a vision of future needs is not the kind of paternalism that inspires Washington, Franklin and Jefferson, he said.

Here in Colorado mineral wealth is a right regarded as the foundation of prosperity. As has been pointed out by Mr. Henderson in his history of mining in Colorado, the state's first great valuation of the state from its earliest days actually coincides with the early days of production of the five metals of gold, silver, lead, zinc and copper.

Your citizens who are so eager to promote the future welfare of the state, and in such an effort the federal government can well afford to contribute an important part of its resources to the people of the state, Mr. Smith said.

It is not a question of the government's ability to do this, but of the ability of the department of the interior to be directed toward giving the industry which will bring us deposits and opening up mines. It is obvious that a geologist cannot in a short time give an estimate on a mountain of a wide angle operator has gained over a period of years, but the geologist has the ability to find out what is there and thereby he can aid in the search for the hidden treasure. Besides the

Too Much "Acid?"

Excess Urine Acid Gives Rise to Many Unpleasant Troubles.

AUTHORITIES agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands realize their kidneys are at such times by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!

TUNNEL ASKED FOR DRAINAGE

Landowners Apply to Canal Company for Bore in Canyon Wall to Lower Water Level.

Proposals involving construction of a drainage tunnel some 400 feet in length to be driven into the wall of Block creek canyon to drain lands south of Twin Falls were laid before the directors of the Twin Falls Canal company in session here Wednesday.

The proposed tunnel would be some distance southeast of the tunnel contemplated by the canal company about two years ago to drain lands on the west side of the canyon owned by H. S. All and others.

Inspection of the district proposed to be drained and of the proposed tunnel site will be made by the directors before reaching a decision in the matter, it was stated.

The directors at this meeting devoted some time to consideration of problems of Snake river water distribution with respect particularly to delayed delivery of waters credited to the Twin Falls company.

He has purchased the William Price dairy and will be in possession October 1 to supply all Filer citizens.

WITNESS TELLS SHOOTING STORY

John Hufford, on Trial for Assault With Deadly Weapon, Hears Alleged Victim.

John Hufford, Pasadena, California, shooting gallery operator, on trial in district court here Wednesday on felony charges of assault with a deadly weapon, heard Thomas J. Clark, former Idaho Falls jail warden who is the complaining witness in the prosecution of the allegation that culminated in the alleged shooting of Clark in the left arm in a Twin Falls tourist parlor, on the evening of August 21 last. Clark was undergoing re-examination by Judge E. A. Walters of defense counsel after the evening testimony of the other witnesses for the prosecution was introduced by J. W. Taylor, prosecuting attorney.

Other witnesses for the prosecution who testified early in the day were J. H. Linabury and Mrs. J. H. Linabury, guests at the tourist park at the time of the shooting, and Dr. H. E. Lamb, who traced the course of the .38 caliber revolver bullet through Clark's arm.

Clark appeared in the court room with his left arm in a sling. Mrs. Hufford, wife of the defendant, sat at the accused man's side during the day.

Relates Circumstances

On direct examination Clark related that he and Linabury had entertained a group late on the evening of the shooting. Shortly afterward, he said, he found Linabury and Hufford in the tourist parlor, the latter displaying a gun. Clark intervened, he said, speaking three times to Hufford and requesting that he desist from use of the deadly arm. Hufford's reply, Clark stated, was an indication to step out side the camp with him. Clark said that he followed Hufford to the rear of the building, where Hufford turned, Clark said, and struck at him three times with a gun. Clark said that he struggled with Hufford for possession of the weapon and that it was exploded during the struggle. He said that he did not have his hand on the gun.

On cross-examination, Clark said that he had frequently talked out

of the notion of fighting him. He denied that he had ever been the aggressor in such situations and explained that he was "a good natured" that people got sore at him." Cross-examination of Clark will be resumed when court reconvenes this morning. The prosecution will introduce testimony of a number of additional witnesses before resting its case.
