

SENIOR BORAH LARGES CAUTION PROCEEDURE

Idahoan Warns Government to Guard Against Being Tricked Into Intervention in Nicaragua; Others Air Views.

(By the Associated Press) WASHINGTON, Dec. 29.—Warning that the United States should guard against being tricked into intervention in Nicaragua was coupled today by Chairman Borah of the senate foreign relations committee with a statement expressing his apparent conviction that American efforts in that country now are being confined to the protection of American life and property.

His views, made public after a conference with Secretary Kellogg, in which he went over the book of Admiral Julian Lambert, in command of American forces in Nicaragua, ran counter to those of Senator Wheeler, Democrat, Montana, who would introduce a resolution in the senate calling for the withdrawal from Nicaragua of all American troops.

Promises Bourbon Support A third senator to enter the lists, Senator Brandel, Democrat, Louisiana, asserted democratic support would be given the administration policy "in standing behind the Diaz government in Nicaragua."

Along with his own statement, in which he expressed the hope that American interests would be taken from the Central American republic, Senator Borah gave out a telegram from Alvaro Obregón, former president of Mexico. Obregón approved the Borah stand on Latin-American subjects and spoke of "violence inflicted against the sovereignty and rights of the Latin-American countries with the sole purpose of prostrating, or having strangled, the life of the people."

No Move to Intervene Senator Borah's statement said that he understood it "the administration is confining its efforts to the protection of American citizens and property, that there is no intention of intervening in the affairs of Nicaragua."

NATIONS FORGET AMERICA'S PART IN WORLD WAR

Australian Prime Minister, in New York Address, Declares Europe Sees America Only as Hard-Fisted Creditor.

(By the Associated Press) NEW YORK, Dec. 29.—Europe has forgotten all that America did during the world war and sees the United States chiefly with regard to what it is holding every country in ransom, Prime Minister of Australia told members of the Pilgrims club tonight.

The prime minister, who arrived from England yesterday, spent a busy day in New York. He was guest of honor at a luncheon given by Sir Hugh Dore, son, high commissioner of Australia, meeting among other financiers and leaders in industry, Thomas L. Lamont, Otto H. Kahn, George F. Baker, Jr., George W. Wickersham, Dwight D. Morrow, Theodore D. Pount, Robert H. Wood, Marshall Field, Bernard Baruch and Henry W. Taft.

Guest at Reception From the luncheon, Prime Minister Bruce was welcomed in a reception given in the honor of himself and Mrs. Bruce by the English Speaking Union, where he made his speech of the day.

In both addresses, the prime minister stressed the importance of the attitude of Great Britain and America in international affairs, saying that on the policies of these countries rests the fate of mankind.

"I regard America as I do," he told the Pilgrims, "the understanding in Europe with regard to your nation is not a matter of deep regret. That may be said, but it is a matter of regret that Europe's failure to appreciate America's history, her traditional policy and her democratic aspirations and ideals, Europe still regards herself as the whole world. She forgets that America's money and materials had the world going and that she was assisted."

Europe forgets the decisive effect of America's help in the world war, only that America, enriched at the expense of her allies, cluttered with the world's goods, is bent on building every other nation down.

"America, on the other hand, does not attach sufficient importance to the aid and material afforded by Europe, the ancient feuds and antipathies, she understands fully what tragic sufferings came to Europe in a world war, she regards the European states as helplessly effete units who have brought themselves to the verge of ruin."

WILBUR THOMAS DOWN REQUEST OF COMMITTEE

Secretary of Navy Flatly Refuses to Submit Copy of Gleaves Report to House Members; Willing to Testify.

(By the Associated Press) WASHINGTON, Dec. 29—Secretary Wilbur today flatly turned down a request by members of the house naval committee for a copy to be kept in conference of the report on possible dangers in the Pacific ocean area, made several years ago by Admiral Gleaves while in command of the Asiatic fleet.

Representative McClintock of Oklahoma, democratic member, said that Butler at his suggestion made the request on the day of receipt of Albert E. Fall, former interior secretary, and Edward C. Bohney, former attorney, in a charge of conspiracy in the leasing of naval oil lands with which was linked the construction of storage tanks in Hawaii.

Defense Stressors Report During the trial defense counsel stressed the expert testimony of the prompting the leasing of the EIA EIA reserve in California to Bohney, and through Secretary Wilbur at that time refused to make the report, frequent reference was made to the document as conveying a warning of a grave national emergency in the Pacific.

McClintock, however, intimated the navy department was unwilling to give out these reports, but would not substitute its oil leasing policy.

Advices Do Not Coincide It was intimated some time ago, "high ranking officer in the navy that these so-called Japanese reports contained no information which would show a legitimate motive on the part of Japan and that the department could not afford to allow any number of congressmen to see these reports, but that they would show that the secret policy of the navy with respect to the oil leases and the building of tanks was not justified.

It is recalled in his opinion the "Japanese secret" is now "put forth to promote a new naval ship building program." It will be remembered that this report, he continued, "has been made the excuse for the secrecy in disposing of our naval reserves and in the construction of the oil tanks in Hawaii. It also will be remembered that one of the Japanese agents' statement in which the Japanese secret and this report were given as a justifiable reason for the verdict which convicted them from any wrong doing."

Reach Accord on Water Allotment to Basin States

LOS ANGELES, Dec. 29. (AP)—Charles P. Squires, of Nevada, chairman of the tri-state conference on Colorado river problems, announced here today that delegates from Nevada, Arizona, and California had reached an agreement on the question involving allotment of water to the lower basin states, after proposed development of the international stream.

The agreement is tentative to the degree that it is dependent on an agreement on power revenue problems, Squires said, which will be taken up by the conference by Nevada, Arizona and California. It is felt by most of the members of the commission that it is fair and will fully meet the needs of all three states. However, one member of the Arizona commission is not fully in accord on the proposal, but he is expected to yield to the majority.

Charges Against Mrs. McPherson May Be Dropped

LOS ANGELES, Dec. 29. (AP)—Dismissal of conspiracy charges against Aimee Neel McPherson, her former radio engineer, Kenneth G. A grand jury investigation into the ex-magician's mysterious disappearance, Krues declared the charges of conspiracy to obstruct justice in the slaying probably would be dropped due to the "collapse of the testimony of the principal witness, Mrs. Wisconsin, who has confessed to prearranging a 'carmel' 'Miss X' hoax in the case, the district attorney told the grand jury. "The 'carmel' and 'perjuror,' saying she had told a 'different story every day."

WHEAT VALUES AVERAGE LOWER

Persistent Selling of Bread Grain Sends Prices Down; Market Closes Unsettled.

CHICAGO, Dec. 29 (AP)—Wheat prices averaged lower today, influenced largely by persistent selling on the part of the traders who sought to liquidate wheat deliverable on December contracts. Closing quotations on wheat were irregular, at 5c net decline in the advance, with No. 2 soft off 1/4c, No. 1 soft 1/8c to 1/4c, and provisions varying from 10c to 15c a cask of 50 lb.

Wheat deliveries here today on December contracts totaled 300,000 bushels, although the contract was filled in all two days to run. Talk of prospective increasing shipments of wheat from Argentina and Australia during the next month especially, is counted also as a bearish influence, and so likewise did the fact that nearly all of the wheat here for today was surplus is still on hand undipped. Only such circumstances may delay or prevent here for today, with the season's bottom level, with July meanwhile establishing a new low price record for the crop.

Commission House Buying Commission house absorption of December wheat, which began a feature nevertheless in the last part of the day and helped to make the market more unsettled. In this connection good deal of notice was given of the announcement that the German wheat crop is officially estimated at 2,200,000 metric tons, last year, with the German crop also heavily short. Latest figures on the crop for 1926-27 in the North American zone were 55,000 metric tons.

Some showed stubborn resistance to new advances, but because a feature was better, unless being the largest in some time. A little buying proved sufficient to rally oats.
