### International Radiophone Now Able to Stand on Own Financial Legs, Figures Show.

NEW YORK, Feb. 9 (AP)—The infant international radiophone is able to stand upon its own financial legs. One month's operation of the Trans-Atlantic radiophone service between New York and London and their adjacent areas has proved it to be a commercial success-officials of the American Telephone and Telegraph company said today.

The newest youngster in the public utility which bridges by wire and radio the gap between England and America is already paying its operating expenses with something besides. Exact figures cannot be quoted until the end of installation and the month of experimentations have been ascertained.

### Americans Principal Users

Americans take more use of the radiophone than do their cousins across the sea. Checks of radiophone calls show there are eight outgoing calls from America to five from England.

With the talk for trans-Atlantic radiophone at \$25 a minute, the expected high connections would be of brief duration. It has been found out by the company's figures which indicate that the average call has been four minutes and 40 seconds.

Officials of the American Telephone and Telegraph company decline to give out the names of the users of the radiophone and the character of the business conducted over the new service. Their only concession is to say that they do not intend to violate as ever the land lines. Company engineers are still working to perfect devices to prevent any tapping in on the radiophone.

Stagnant or burning passages of kidney excretions are other signs of improper kidney function. Locals Will Attempt to Even Score With North Side Aggregation in Play Tonight.

The Twin Falls Bruins will journey to Gooding tonight for a double-header basket ball game. The Bruins met at the hands of the North Side aggregation last week in one of the fiercest games seen on the local court this season. The game tonight is expected to be equally fast and exciting.

Haines fits into the forward position in nice shape but cannot count for the backside as could Bertsch. ## OPPONENTS OF RACING BILL FORESTALL VOTE

SALT LAKE CITY, Feb. 9 (AP)—Fear that the absence of seven members from this afternoon's session of the state house of representatives had reduced the strength of opponents of continued racing in Utah too greatly for victory in a final clash, prevented action on the bill repealing the racing act, under which horse racing has been carried on for the past two years.

Advocates of racing vainly fought to prevent evasion of the constitutional struggle, knowing that if their opponents were unable to rally a constitutional majority it would be impossible to wipe the racing law from the statute books. Following a motion which was adopted, the house adjourned until Thursday afternoon.

## DRAFT DISPUTE AGAIN TO FORE

Possibility of Major Leagues Severing Relations With Minors Seen in Situation.

NEW YORK, Feb. 9 (AP)—The possibility that the major leagues may cut off relations entirely with the three classes of "A" minor leagues—American Association, International, and Pacific—was again to the fore today as a result of the present revival of the draft controversy.

To consider what course they will take and as evidence of the gravity which they regard the situation, a joint meeting of the American and National league club owners will be held in June, probably in New York. This was agreed today at a session of the joint "steering committee" of the two leagues at the offices of John A. Heydler, president of the National league.

The fresh crisis in the major-minor league affairs has been brought about by the rejection of the proposed new draft agreement by the International and Pacific Coast circuits. The American association is expected to adopt the same attitude while the Western league, a class of "A" circuit also has rejected the plan.

Princes' Mentor to Quit After 40 Years

OXFORD, Feb. 9 (AP)—Sir Herbert Warren, who is about to retire from the presidency of Magdalen College, Oxford, has been at the head of that school for more than 40 years and has imparted much of social distinction to the institution.

He managed to get the Prince of Wales for a snapshot, in spite of the fact that the Prince's grandfather went to Christ Church College. More recently Prince Chichibu, of Japan, elected Magdalen at his college and took the very rooms the Prince of Wales occupied.

OUR INTEREST IN CHINA

David Lloyd George, back in control of the Liberal Party of Great Britain, says a mouthful when he makes this comment on the Chinese situation: "Our real interest in China is trade and the most valuable asset of trade is good will. The real struggle is between our traders and the traders of Japan, Germany and the United States."

\$75,000 Deal Is Consummated

Here; Woodward Cash Stores of Oil and Twin Falls Sold

Purchase of the entire stock and fixtures of the Woodward Cash Stores of Twin Falls and Elgin, by the Ting-Wood Floors, Incorporated, was announced here Monday evening by A. W. Tingwood of Glensia Ferry, president of the company. Approximately \$75,000 is involved in the transaction. The Woodward Cash Stores were operated by J. E. Wood, A. B. Wood and John E. Wood. The Tingwood people will take over the business at the end of the month. The Tingwood company opened its first store in Glensia Ferry in 1914 and has since that time expanded its operations to other parts of the state. It is expected that the main office will be established in either Caldwell or Twin Falls in the early part of the month. The store was opened in King Hill; in 1924 two stores were opened, one in Elgin and another in Glensia Ferry. In 1926 another was added by the purchase of holdings of a large company in Elgin. The Tingwood company has not yet been chosen by George Andrews, formerly treasurer of the Woodward Cash Stores, to be retained as manager of the Elgin store. It was announced by Mr. Tingwood. The company here will carry a complete line of dry goods, men's furnishings, shoes, women's ready-to-wear goods, groceries, and meat.

## Agreement Brings Calm After Storm In County Offices

A misunderstanding and animated discussion stage that for delay of officials at the court house here Wednesday afternoon led to an agreement subsequently reported in greater detail probably will be made in the future by the sheriff's office to the county auditor.

Harvey Coggeshall, deputy auditor, discovering a check for delay of the jail matron and finding in his office no record of woman prisoners during the period covered by the entry claim, submitted to the county commissioners that something must be wrong. Mrs. M. E. Finch, wife of the sheriff, is the jail matron designated by the county commissioners and has served in that capacity for more than four years with a salary of a dollar a day when woman prisoners are held in the jail.

The sheriff and the deputy auditor met in the commissioners' room, where the question raised by the deputy was explained by the county commissioners, including the two republican members of the board of commissioners, a stormy argument, completely satisfied the county auditor, and in a quiet moment of the board, a democratic member of the board, in quest of information and explanation of the auditor, became involved in the wretched discussion, as reported, and the three democratic office holders were going along when the auditor, who is the jail register and the probability that it might disclose additional and pertinent information.

The register showed that for many months the county jail has not been without one or more women prisoners, most of whom have been sent here under sentence imposed in federal court, and for whose keep here the county is compensated by the federal government. The list of prisoners registered at the county office heretofore has contained only the names of county prisoners. In the future, under terms of the understanding reached Wednesday the auditor's office probably will be advised of the names of all prisoners delivered into the jailer's custody.

BURLY, Feb. 9.—Mrs. E. R. Dayley, 80 years old, an early pioneer of the west, died Sunday evening at the home of her daughter, Mrs. E. J. Parker, here, after a long illness. She had been suffering with pneumonia, which developed from a cold.

Mrs. Dayley, nee Genesette Cudler, was born in Toronto, Canada, December 20, 1846. With her father she came west in 1848 as one of the early pioneers and settled at Grantsville, Utah. She was thereafter married there to Enoch R. Dayley, to which union eight children were born, seven of whom are living, two of them living in Burlly, her son, Charles W. Dayley and her daughter, Mrs. Parker. In 1880 the Dayley family removed from Grantsville to "New Basin" near Oakley in this county, at which place Mrs. Dayley was left a widow in 1891. Until of late years she remained upon the old homestead, but as old age brought its infirmities, she consented to come and live with her daughter, with whom she subsequently resided almost continuously until her demise.

Funeral services will be held in the Basin Thursday at noon and the body will be laid at rest in the Basin cemetery.

Extra Quick STARTING PILS

Of course, High-Test Conoco Ethyl Gasoline gives you a super-quick start. It is refined for that very purpose—but that isn't all. It follows through with smooth, sustained power. In fact it makes the carbon deposits on your cylinders a source of power—and it keeps the engine purring on those grades where you used to get a "knock."
