

IDAHO SENATORS PASS SIX BILLS DURING SESSION

Two Appropriation Measures Among Lot Approved by Senior House at Boise; Confirm Governor's Nominations.

By The Associated Press BOISE, Feb. 16.—Senators today passed six bills, including one appropriation bill providing biennial funds for administration of state government, and confirmed three gubernatorial nominations.

Appropriation bills passed provided for general government and \$22,755 for administration of the department of public works. These bills bring the total appropriation for the biennium to \$26,170, including legislative expense and provisions for general government contained in the Idaho appropriation bill.

Senators today approved a bill providing that where an injured workman is being treated in a hospital, his wages shall be paid to him by the employer.

Senators Nelson, Campbell, Callahan, Shoshone, and Pogue, however, urged killing the measure.

A third appropriation bill provided for the purchase of land for the state.

Coroner and Fresno Newspaper Men Return From Scene of Edison Camp Disaster.

FRESNO, Cal., Feb. 16.—The death list in the Big Creek avalanche which killed 12 men and injured 12, was learned with the return of Coroner J. Herman Kennedy and Fresno newspapermen.

John Watves, 37, clerk tender; Alphonse B. Quere, 35, clerk tender; Jim Stewart, 28, clerk tender; and Arthur W. Stinson, 27, clerk tender.

Watves, Quere and Stinson are believed to have lost their lives while endeavoring to rescue the bodies of the first slide, as they were seen after that slide occurred.

FRESNO, Cal., Feb. 16.—The bodies of George B. Hanks, of Bart, Michigan; W. J. Harvey, of Bart, Michigan; and Fred Albert of Fresno, three of the known dead in the double snowslide disaster yesterday at the Southern California Edison camp at Big Creek, arrived in Fresno this afternoon.

While reports of survivors reaching Fresno led to the hope that the death toll might be increased to 18, the official death list as received here this afternoon stood at 12.

The avalanche, which killed the bodies of the Edison company, occurred early yesterday morning.

NEW ABERDEEN, Cal., Feb. 16.—A tale of almost unbelievable disaster in the heart of the Sierras, the men who carried the message of disaster from Camp 72 to Big Creek yesterday after the first avalanche which swept down the mountain.

Without snowshoes, Goff had to crawl most of the distance. He made one mile an hour and at 3 a. m. a party of 25 men was immediately formed and started on its way to the camp.

1600-POUND PIE SERVED AT WASHINGTON DINNER

WASHINGTON, Feb. 16.—A 1600-pound pie, said by its makers to be the largest ever baked, was served tonight at the annual dinner of the California State society. The serving knife was wielded by Secretary Hoover, a "nervous son" five feet across the top and was carried by eight waiters, was made with prunes from the California ranch of Representative Free, and was baked under the supervision of Mrs. Walter Johnson, a Californian and wife of the late Washington editor.

THREE FLIERS DIE IN CRASH

Mid-Air Collision of Two Planes at Camp Stanley, Texas. Claims Lives of Trio.

SAN ANTONIO, Texas, Feb. 16.—Lieutenant Benedict A. Cagle, Capt. John W. Green and Private Harold Johnson were killed in an airplane crash at an altitude of 10,000 feet at Camp Stanley Wednesday afternoon.

Both ships came to the ground in a spin and the flyers were killed instantly. Lieutenant Cagle was killed on his return to Kelly field when the accident occurred, and apparently both pilots crashed into each other before they realized what was happening.

Men Killed Instantly Both ships came to the ground in a spin and the flyers were killed instantly.

Private Bartel is survived by a sister, Mrs. L. W. Howell, Detroit, Michigan. He enlisted July 27, 1925.

ATTORNEY THINKS WRONG BODY SHIPPED TO COAST

ST. JOHNSVILLE, N. Y., Feb. 16.—Demand for the return of the body of George Hilliges, native of this place, which was supposed to have been buried by mistake from a hospital field in Forest cemetery, Utica, and removed to California, as the body of Dr. George Hilliges, missing for a long time, will be made by Attorney William J. Crangle, who has been retained by the family of Dr. Hilliges.

Mr. Crangle, as supervisor of this case, has advised that the body of the general hospital at Utica for a long time. He plans to communicate at once with Fred C. Peterson, who claims to have identified the remains, as those of the missing physician, and accompany the body to Oakland.

RESCUERS WORK HARD TO SAVE FOX HOUND

WINDYBRIEF, S. C., Feb. 16.—The fight to save a foxhound, which was caught in the flashlights, rescue squads, using dynamite and drills, succeeded their efforts in the rescue of the foxhound, which was buried under a large pile of lumber, and was buried under a large pile of lumber.

Rescuers worked for hours to save the foxhound, which was buried under a large pile of lumber.

Engineer Rescues Lodgemen Trapped In Berthoud Pass

DENVER, Colo., Feb. 16.—Fifty persons trapped by a blizzard on the summit of Berthoud pass, were reported as being rescued by a party of men who were working their way through the storm back to Idaho Springs.

The party was enroute to Westport for a large initiation and celebration in honor of the opening of the power house of the Moffat tunnel when a blizzard came up suddenly, catching the party by surprise.

James Craig, resident engineer at Westport, took teams of horses, and started the rescue through 12 miles of snowdrifts, reaching the marooned party and took them to Westport.

Coolidge Proposal for Naval Conference Likely to Be Turned Down by Mussolini

Japan Earnestly Favors Program To Reduce Arms

TOKYO, Feb. 16.—The Japanese government is strongly in favor of President Coolidge's proposal to reduce the naval armaments of world powers and will do everything in its power to aid in the work.

Prime Minister Watanabe made this statement in an exclusive interview given to President Coolidge's proposal for a conference of world powers to bring about a reduction of naval armaments.

Open and Above Board "Our attitude in this matter of disarmament is not ambiguous, nor is it cloaked in diplomatic technicalities."

"The day of closed diplomacy and secret treaties is past and Japan is not one of the last nations to discard antiquated measures of dealing with international agreements. As you Americans say, 'Our cards are on the table.'"

"I must express my admiration of President Coolidge's sincerity in proposing a new five-power conference. His human mind is one that Japanese thoroughly can understand."

"We are not thinking of America particularly when he proposes a reduction of auxiliary naval strength. It is well known that America is the first country in the world, can build 10 times the number of auxiliaries that it is possible for any other nation to construct."

"Japan is not now nor has it been arming for war with any other country in the world."

"The figures regarding the strength of her army and navy are open to any one to observe."

"There is no new building program in making effective the first two articles of the treaty."

"There is no new building program in making effective the first two articles of the treaty."

"There is no new building program in making effective the first two articles of the treaty."

UNITED STATES AWAITING WORD

Italy's Official Reply Not Yet Received in Washington; Speculate on Program.

WASHINGTON, Feb. 16.—Speculation as to the course President Coolidge may follow in seeking further naval armament limitations in view of the rejection by France of the Geneva conference plan, was handicapped tonight by failure of the Italian reply forecast in Rome as also a rejection to put in an official appearance.

Secretary Kellogg would not expand on his formal statement of last night as to French answer, and presumably would not be able to discuss with Italy's attitude before taking up with the president, whatever further steps the Washington government may deem it expedient to take.

Four-Power Pact Probable The industrial faction rejected served to put tentative consideration of the possibility of a four-power substitute plan of the picture for the present at least. Such a program was based on information that Italy was inclined to look favorably on the American proposals.

Unofficially, speculation turned again to the old three-power plan first put forward by France before the preparatory commission on disarmament met, and contemplating an auxiliary treaty limitation agreement between Great Britain, the United States and Japan.

In some official quarters there was an inclination to doubt that any immediate step by this direction was probable.

COMMISSIONER'S OPINION UPHeld BY HIGH COURT

BOISE, Feb. 16.—Idaho's supreme court today concurred in the commissioner's opinion in the first two articles of the Geneva conference plan.

The opinion of the court was rendered by Justice J. L. Lewis and K. S. Peters and Frank G. Leachler on a charge of unbridled conduct in the Twin Falls county district court.

Justice Lewis was convinced of unbridled conduct in the Twin Falls county district court.

Justice Peters was convinced of unbridled conduct in the Twin Falls county district court.

Self Protection Plea of Italians In Rejecting Plan

ROME, Feb. 16.—Italy's refusal to accept President Coolidge's proposal for a conference on supplementary naval disarmament is clearly fore shadowed in a semi-official communique issued tonight.

The reply itself, dealing directly with the American memorandum has not yet been made public, but this is a matter probably of merely local interest.

Small Ships Necessary The attitude of the Italian government is explained in authoritative quarters in Rome as having been taken on the ground that Italy could not accept any limitation of her small ships, which are absolutely necessary for her own defense.

In view of her prominent position and the length of her coast line and the need to protect her traffic and also communications with her colonies.

Any other attitude, it is declared, would be tantamount to a declaration of what is one of the chief points in the recent program—readiness for any event, not for aggression, but for defense and in order that Italy shall be accorded the respect.

Infer Fear of France This position is considered to have been strengthened by the refusal of France to accept the Coolidge proposal, however reluctant Italy may be to accept limitation of her fleet, she would be doubly so if France's navy were not similarly limited at the same time.

The Italian note is being put into final shape; it may be delivered tomorrow or at the latest Friday.

Commenting on the action of the government, the Tribune writes: "I think the United States, Italy cannot take a view of the question as it relates to the broad ocean. Entirely concerned with the Mediterranean, and the great colonial interests connected with it, we must consider the problem from the angle of the Mediterranean viewpoint."

CRUISERS AT HONOLULU AWAIT FURTHER ORDERS

WASHINGTON, Feb. 16.—The cruisers Cincinnati, Maclachlan and Richmond, which arrived in Honolulu today from Nianang, have been ordered to remain there to await further orders from Admiral Williams, commanding the Asiatic fleet at Shanghai.

The cruisers were originally dispatched to Asiatic waters for the disposal of the Navy department was advised today by the commandant of the Yangtze patrol that conditions along the river were unchanged.

BURGLARS ENTER NEW YORK STORE AT BURLEY

BURLEY, Feb. 16.—(Special to The News)—The New York store, a mercantile establishment of this city, was entered and burglarized at about 10 o'clock Tuesday night.

Police say the entry was made through a rear window and the burglar had broken through the glass, escaping by the same avenue, after taking about \$15 from the cash register.

Suspicion having been attached to a local young man, whose name officers refused to divulge, a warrant of arrest was issued out of the justice court this afternoon upon a criminal complaint signed by A. H. Cunningham, city postmaster, charging the party concerned with first degree larceny.

Newsman had been made upon the defendant at a late hour this evening.

FARM AID BILL LIKELY TO PASS

Supporters of McNary-Haugen Measure Confident of Victory as Final Drive Nears.

WASHINGTON, Feb. 16.—(Special to The News)—Confident of victory, house farm leaders supporting the McNary-Haugen relief bill today whipped into shape plans for a final drive to pass the measure in identical form to that already approved by the senate.

Representative McNary, republican, one of those leading the fight for the proposal, predicted that the house would give it a majority of 55 votes while a poll conducted by the House yesterday indicated the margin at 57.

Struck for Day Sideroaders today to give other legislation first priority, the McNary-Haugen bill will be taken up to-morrow with a schedule expected to include McNary's bill.

McNary-Haugen bill will be taken up to-morrow with a schedule expected to include McNary's bill.

McNary-Haugen bill will be taken up to-morrow with a schedule expected to include McNary's bill.

McNary-Haugen bill will be taken up to-morrow with a schedule expected to include McNary's bill.

INHABITANTS OF GOLDEN STATE BATTLE GAMELY

Southern Californians Fight Floods, Wind and Rain in Effort to Aid Stricken; Death List Mounts to 17.

By The Associated Press LOS ANGELES, Feb. 16.—Frenzied Tehachapi to the Mexican boundary, in the California section, by broken communication lines, fog, floods, wind and rain tonight.

The death list, including snowslide losses in the high Sierra territory of the Southern California Edison company, stood at a total of 17.

Many families have been driven from their homes could not be estimated tonight, but reports continued in pour in of ranchers and town residents, abandoning their holdings and taking to high ground.

More than five feet of water in the Mission valley back of San Diego has forced farmers there to quit their homes.

Long Beach Under Water The city of Long Beach estimated that 30 inches in the northernmost section were under water, with about 2,000 persons driven from their homes.

Amherst had approximately 20 blocks under water and Fallbrook about 40 blocks inundated and many residents had temporarily left for the high land.

Various suburban areas were flooded and in some low-lying districts the floors of residences and places of business lay under several inches deep under muddy floodwaters.

Human Risk Deepened, three feet of water 5th street, Beverly Hills, and other streets were under water, and many of these were said to have flooded above the swollen Santa Ana river.

Move to High Ground At Greenview everything was said to be under water with inhabitants and their families fleeing to high ground.

In the small hotel section of Venice, a beach resort near here, a snowslide field check showed 100 persons and approximately 100 residences rendered uninhabitable by the floods.

Large numbers of people are said to be staying in the Hollywood district, which was waterlogged and home owners there, however, are being rescued.

RESCUES VIVID TALE OF SLIDE

Lucky Jump Saves Life of John Utterbach, Survivor of California Mountain Disaster.

ON BOARD THE BIG CREEK PNEUMATIC TRAIN, Fresno, Cal., Feb. 16.—A lucky jump saved the life of John Utterbach, who struggled early Tuesday morning to rescue rescuing men and women who had been buried in the Big Creek avalanche.

Five other men who were battling at his side jumped the wrong way when the avalanche struck, and three are missing today.

Utterbach is giving the rescue party a full report of the tragedy, which occurred three hours of slide victims rolled down from the Sierras toward Fresno today.

Hurted Out of Bed "I was asleep in a bunk house," Utterbach explained. "The first avalanche hit my bunk and I rolled over two or three times. I could hear the machine then and know what it was. The edge of the slide was about 10 feet from me."

"I was carrying a six foot long pole and I was holding it over my head and I was holding it over my head and I was holding it over my head."

"I was holding it over my head and I was holding it over my head and I was holding it over my head."

"I was holding it over my head and I was holding it over my head and I was holding it over my head."

Swartz, 1927, by The New York Tribune, Inc.

THE SPORTS OF A DAY

BRUINS TO MEET FILER WILDCATS

Locals Must Win Game Next Friday in Order to Compete in District Tournament.

Keen interest attaches to the basket ball contest to be staged Friday night between the Twin Falls Bruins and the Filer Wildcats on the court of the latter team. The Twin Falls team is home to the Bull Indians from Filer in order to compete in the district tournament held in the latter city.

The Wildcats had a narrow escape at Kimberly Tuesday but are a strong quiet and are hard to beat, especially on the home court. Smith and Harmon have been carrying the burden of the Wildcats' offensive while Shindane and Schoenley have been the defensive. Kline is centering his going in nice shape all season giving the Filer quite a large well balanced team.

Brins Lead Teamwork

The Bruins did not show to advantage against Bull early in the week. They lacked a concerted offense and with shooting out. The Bruins the game with the Indians. Kelly has not been going of late and does not seem to fit in the team. Haines has returned in fine shape and is showing improvement. Martin and Ward are both rather steady players and the number of baskets each game. Nelson is fast becoming a real guard under the basket but still lacks the finesse that only experience can give him.

The game Friday will be a real contest and a large crowd of fans will journey to the neighboring city to witness the contest.

INHABITANTS OF GOLDEN STATE BATTLE GAMELY

Continued From Page One

Gaming handlards were moving out. Several main residences already were being vacated.

Communicate by Sea

The sea today offered the only source of communication for southern California.

Electric and auto lines here were paralyzed by washouts and three railroads in the Southern California section of the Pacific coast were in similar plight. The Southern Pacific reported one line at work but working faultily. That was the coast line which offered no means of exit at all from Los Angeles, or ingress to that city.

Lands today that are the hub of Southern California found a highway bulletin showing nearly every main thoroughfare out of Los Angeles to be impassable to automobiles.

Pavements Undermined

Pavements are undermined and torn away by the rush of waters in many places and in others the great floods and yards were covered deep under great slides of silted soil.

Highway bridges and railroad trestles on a number of main arteries north, south and east of the city had been washed away by the turbulent floods pouring down the usually dry arroyos.

While most of the affected districts found their troubles centered in rain and flood, the West of the city to the north, reported high winds last night and today that laid flat 50 oil well derricks.

Oil also complicated the inundation at Anaheim. Near there an 8,000 gallon storage tank undermined by the storm, spilled its contents on top of the flood and streets and gardens were covered by the grove tide.

Relief crews were sent into the Los Angeles forest near Pasadena today to rescue three men forest rangers believed to be marooned. Twenty rangers were marooned in Santa Anita canyon have and been heard from in 24 hours while other crews have been cut off by flood and handholes in the canyon are being sought.

The Southern Pacific bridge at Santa Ana was damaged when it stranded several cars and trucks in heavy traffic garages and threatened to eat through orange groves.

Eight automobiles were reported to have been swept from the highway near San Capistrano when the waters of San Juan creek flooded the road. A family of five persons were taken from their machine by rescuers just in time to see their car carried out into the ocean.

San Fernando, Owen'south and Clatsworth in San Fernando valley were completely isolated tonight as bridges went out and streets were cut. Flood waters inundated poultry ranches and rabbit farms through the north and thousands of baby chicks perished from cold and dampness.

The farming communities of Bunnymede and Boreas are inundated, water being more than 10 feet deep in many places.

Burkland, protected by a number of dams built in the water last summer, was said to be the only city in the valley which did not suffer serious damage.

STORM HITS ARIZONA

PHOENIX, Ariz., Feb. 16 (AP)—While Tuesday's rain swept into the Pacific coast, the hinterland to the east is suffering from an almost unprecedented rainfall which is washing streets, damaging crops and trying to cut off rail and wire communication in central and western Arizona.

Grande creek, which runs through

SIX TEAMS PLAY IN SUB-DISTRICT MEET

GOODING, Feb. 16. (Special to The News)—The sub-district basketball tournament will get under way at the college court in the morning. Jerome and Wendell will open the meet, with Shoshone and a team from the Bailey district will tackle. Hills and Gooding will finish a real battle of the day. The Hills squad has been registered over Gooding early in the season and the locals will not doubt have a hard battle.

Two teams from this meet will go to the district tournament at Hild in March. Those teams will also compete in the regional meet at the Gooding school in the logical winner of the local competition.

Present, 125 miles north of Phoenix, is at the highest stage of any time in the country. It is now 25 feet of its bank, destroying a road north of Prescott and was threatening the hospital. Electric power lines had been swept away and the hospital transformer house was expected to fall into the street at any moment.

Traffic Tied Up

An unmonitored report said that Date creek bridge, 50 miles south of Prescott, had been washed up north and south traffic on the Santa Fe line. A near tragedy was averted last night when a double headed passenger train was derailed. The locomotive and the baggage car were unscathed and taken across the tracks, while the passenger car of the far bank of the stream were able to reach Prescott late this afternoon.

Five spans of an automobile bridge were washed away by the flood. The north end of the bridge was washed out last night.

CALIFORNIA TOWN CUT OFF BY FLOOD WATERS

BRAWLEY, Cal., Feb. 16. (AP)—Flood water in Brawley today today nearly completely isolated Brawley from surrounding sections. Train service is cut off by washouts above and below. Southern Sierra Power company's lines went down at Yreaville and between here and San Diego.

Automobile traffic north of Brawley has been stopped by washouts and telephone and telegraph lines are down, the only means of keeping in touch with the outside being by a telegraph line to the west.

The state highway department bought all the stock in Brawley, today for use in the work of getting highways north of here to 25 miles. Heavy streams of water from the west waters and the desert have been cutting into highways and the sands filled with earth are used to divert the course of the water.

LEWIS WINS

KANSAS CITY, Feb. 16. (AP)—"Strangler" Lewis took the last two of three falls here tonight from Jack Louker, Kansas City, in a wrestling match in the main event of a wrestling show.

GOLFERS CONTINUE PLAY

DELMONTE, Cal., Feb. 16. (AP)—A smoldering sky and a kind sun today made playing conditions in the Pebble Beach golf course for some a generally pretty fair in last contrast to the conditions and which the qualifying round of the tournament was played Monday.

KAUFFMAN BEATS THREY

PORTLAND, Ore., Feb. 16. (AP)—Kauffman's high heavyweight title fight with Columbus Threy at the Portland, Ore. arena, falls here tonight.

GOLFER MAKES 10 MILES

OKLAHOMA SPRINGS, Miss., Feb. 16. (AP)—Doc Graham, Mobile, Ala., who Sunday started an attempt to hit a golf ball from Mobile to the Pacific coast, drove and chipped about 15 additional miles toward his goal today and arrived here late this afternoon.

BIG MEN READY FOR FISTIC GO

Supporters of Maloney Hint at "Good Big Man" Tradition in Favor of Boston Boy.

NEW YORK, Feb. 16. (AP)—Tradition supports the "good big man" cast its shadow across the training ground of Jack Delaney today as he finished his final workout for Friday's 200-lb. heavyweight battle at Madison Square Garden with Jim Maloney.

Epitaphic history has marshaled an impressive array of records to support the cause of Maloney. The triumph of the "good little man" has been an exception to the rule. But these have been separate and unconnected events and among these have been the sensational triumphs of the 185 pound Jack Dempsey over Jess Willard and Luis Firpo.

Recall Other Battles

Championship contests of the last 10 years were recalled by Maloney's backers tonight to justify their prediction of a Boston victory. Among these were Johnny Kilbane's quick defeat by Tommy Leonard, Leonard's subsequent reversal at the hands of Jack Britton and Harry Grob's decisive victory over Mickey Walker.

The bulk of Maloney's following was gathered in an exciting battle today. Sentiment swung more sharply to Delaney, who jumped from a 6-5 to a 5-5 favorite. Money also was suggested freely and to show that the light heavyweight champion would knock out his heavier opponent.

Maloney's trainers have indicated that they expect a fight of the typical nature of the "big man" boxing in to the attack, and using his 25 pound weight advantage to knock Delaney in the clinch.

HAPPY HUNTING GROUNDS ON EARTH FOR INDIANS

CHEYENNE, Wyo., Feb. 16. (AP)—A bill to extend a happy hunting ground on earth for Indians is introduced in the Wyoming senate today.

Speakers contended that the bill now has been made to offer the Indians the advance of civilization and that some have returned to the ways of their ancestors. "Indians are inclined to believe that wild game was put on the earth for food for them and I am inclined to believe with them," said senator Thomas Cooper.

He moved that the state game and fish bill be amended so that there will be no closed season for tribes which have lived in the state since 1890 and they may hunt and fish the year round. The senate will vote on the bill today.

BUTTE MINES CLOSE

BUTTE, Mont., Feb. 16. (AP)—Two of the oldest mines in the Butte district will be closed tonight "due to the present condition of the copper market." The Avondale Copper Mining company announced today. They are the Madison View and the Silver. From 1924 to 1926 they were affected.

The Printed Word

Every reporter in his time or another number each of his friends and other number of his newspaper game. It is a penalty of the newspaper game. It is a penalty of a disreputable thing as a job. You can state the same thing in print and he takes it as an insult. The most mysterious thing in the world is the printed word, far more so than the spoken word. —The Athenian Globe.

Physicians Declare Against Illegal Practice in Field

Secretary Kellogg Points Out That Constitution Seems to Prohibit Concessions.

CHICAGO, Feb. 16. (AP)—Representatives of 42 state medical boards and thousands of practicing physicians in a resolution unanimously adopted a motion to lead in a new crusade intended to eliminate spurious and charlatanry in the medical arts. This action came at the climax to three days, discussion of illegal practitioners, licensing laws, medical education and hospital care.

By this action the federation of state medical boards is pledged to use every effort to extend the aid of government, members of state legislatures, courts of appeals, public health workers, the press, and leaders of public opinion in all walks of life in the war on the illegal practitioner.

Relates Experiences

Dr. Charles B. Pinkham, secretary of the California board of medical examiners, Sacramento, California, related the experience of his board in granting medical degrees, telling how strict laws had stopped the "Alphama" medicine which formerly was given in state and exposing the various means illegal practitioners resorted to, to obtain licenses. Many got duplicates of certificates of legitimate doctors and either substituted their own names by forgery, or adopted the name of the legitimate owner and practiced under it in some other state, he said.

Not Producers Concerns

The four exceptions either are not producing oil or do not use two fields in Mexico, Mr. Kellogg said, while the remainder of the 58 concerns listed control 90 per cent of the oil producing lands of Mexico acquired before May 1, 1917, and produce about 70 per cent of all oil in Mexico.

The secretary in a letter to President Coolidge, transmitted by the White House to the senate, urged its passage to a resolution by Senator Norris, republican, Nebraska, said that the four companies which had applied for concessions were the Pan-Am Petroleum, Texas-Petroleum and Asphalt, East Coast oil and New England Fuel Oil companies, but he added that he had not been notified whether they had been granted them.

TO INVESTIGATE TRAIN ACCIDENT

State and County Authorities Will Check Up on Wreck of Union Pacific Flyer.

WHITTIER, Cal., Feb. 16. (AP)—Investigation of the wreck of a Union Pacific Flyer, the Los Angeles Limited, which plunged into a flood swollen creek here last night, ending the death of the engineer and the injury of several other persons were launched by both state and county authorities today.

An inquest in the death of Engineer Charles Ireland will be held tomorrow morning.

Several Injured

Additional reports from hospitals and relief workers today showed that several passengers on the train in addition to J. H. Waters of Salt Lake City, a passenger, and five members of the train crew, received minor injuries.

E. H. Bowdler, 48, of Knoxville, Tennessee, is in a Los Angeles hospital with an injured side, possibly a cracked rib. Mrs. Sanders and her mother, Mrs. J. W. Johnson, were sent to the hospital but were not covered by patients since they seemed to be recovering from shock.

Equipment in the wreck was estimated by railway officials at \$150,000. Repairs that will permit use of the line will be completed tomorrow.

Where It Costs

"The average salary in our railroad shops and stores," says a young man \$15 a week. Our boys say it costs \$3 of that to keep company with a girl. The movies, the taxi, the Hines, boot legs, an occasional about-face, and the things—and the boys say it must be done—what we need in this town is a get-together club with the cost of membership \$10.—Women's Home Companion.

Greek Irrigation Tried

Irrigationists in Australia are experimenting with a system used by the ancient Greeks in Theodosia, by which water for irrigation purposes was carried through siphon-like pipes.

CHECK CAUSES STRIKE IN COURT

Slip of Paper Part of Bribe, Government Contention in Daugherty-Miller Trial.

NEW YORK, Feb. 16. (AP)—A scrap of paper on which a government grand made a few almost illegible marks caused consternation in the Daugherty-Miller trial today.

Just before the government rested its case late in the afternoon, Elizabeth Miller, telephone operator in the courtroom, was testifying about a check for \$2,125 which he deposited in his brother's personal account in the Midland National bank, of which Mill is president.

Payment on Note

Mal Daugherty said the check was given him at his home in Washington County, Md., in a building about 30 1922. John W. Smith, Washington Courthouse merchant and handy man to Harry Daugherty, gave it to him, when Mal Daugherty, former attorney for \$2,500 which was Harry Daugherty had loaned Smith.

The check, the government contends represented proceeds of the sale of coupons on \$10,000 of Liberty bonds which Richard Morton, an agent for Thomas W. Miller, former attorney for Metzger, gave the late John T. King, one time republican national committee man from Connecticut, for aid in the purchase of \$10,000 of Liberty bonds transferred to the Soviet State. King was paid a total of \$41,000, of which \$28,000 was in Liberty bonds.

Identifies Check

When Mal Daugherty had been identified from the stand, Richard Morton and Mrs. Miller, she identified the slip of paper as one given her by a grand in the department of justice building. It was dated April 30, 1922, but had been given her a day later by the building guard, who she said operated the switchboard on Sundays and kept a record of the calls made on the board.

Virtually the whole day was consumed in cross and re-cross examination of Mal Daugherty, who did not lose his gently under a severe re-examination by Barker. His testimony was excluded as evidence against Thomas W. Miller, former attorney for Metzger, confidential with Daugherty.

GETS FIRST AWARD FOR UNUSUAL ACHIEVEMENT

NEW YORK, Feb. 16. (AP)—The first award of the W. L. Saunders gold medal given by the Institute of Mining and Metallurgical Engineers for distinguished achievement in mining engineering was presented by proxy tonight to David W. Brantson, Denver, Colorado, at the organization's annual dinner.

Mr. Brantson is in Roosevelt hospital recovering from a minor operation and John W. Finch of Denver, chairman of the Colorado section, received the medal for him.

The award was for Mr. Brantson's work in ore sampling, his invention of the Brantson mining compass and his work in connection with the construction of tunnels, including the Moffat tunnel in Colorado.

TWIN FALLS WEEKLY NEWS
Established 1904

Twin Falls News, Publishing Company, Ltd., Publishers
Issued on Thursday of Every Week
National standard class matter December 12, 1924, at the Postoffice at Twin Falls, Idaho, under the Act of Congress of March 3, 1879.

WHAT GOOD?

It is difficult to see where any good or useful purpose would be served by the enactment of a bill intended to take Idaho houses of representatives by the judiciary committee to require verbatim report of proceedings in cases where juvenile offenders are brought to trial.

It is not often necessary, in cases of juvenile offenses, to go through a trial with its attendant public hearings of sins of omission and commission in which several persons always are involved. During the past year, in at least a hundred cases of juvenile delinquency have been dealt with in the private court of Twin Falls county, and almost without exception the difficulties have been settled on a compromise basis. During the past two years there have been no trials at all in juvenile court here, although all of cases have been reported.

There are two cases in which there has been committed to the industrial training school, defined history of the case has been compiled, to complete the records of the court as well as for the informational and guidance of the probation officer and the school. It hardly seems necessary that any more records of a nature amounting to an errand boy or girl should be required by law.

If it is a virtue to write on the sands the faults of any one, then certainly the first ministry of young boys and girls should be so recorded.

GOOD TALK

There are few "good conversationalists" nowadays for which Heaven be praised! Gifted talkers used to be always monopolizing the conversation when we wanted to talk. It taken long to get a word in edgewise, and then it was only to get you disliked. But at any time, it appears, may become a pleasant and popular program in conversational gatherings, and that is really worth while.

Says a writer in the "Contributors" of "The Atlantic Monthly":
"The first essential is to talk. It is better rather than not speak. Second, avoid detail. A sketch may be brief, inaccurate and badly executed, but it is better than no talk at all. Third, if you do not talk story—and please don't you do not if you can help it—never imitate the mannerisms or intonations of the people you are describing. Fourth, be frank, interested, and, if possible, be interested in what other people say. Do not let your eyes or your hands wander. A good listener is never a bore."

"We cannot all handle folk with skill, but we can all look back, the only way to get on with them, and if we can't be tossed back lightly—no matter how hard the force of our opponent, who will regard us as a partner in the deal game rather than as an antagonist."

"Too many people, afflicted with big egos, are so sure that they are right in every expression, that they are not open to a cooperative discussion, and that they are under moral obligations to prove something every time they open their mouths."

PROFITABLE HOSTESSING
An organization that seems to meet almost all human needs except perhaps eating and sleeping is hostesses, Inc., in New York City. It has done a business of around one hundred thousand dollars in the past year, simply by performing a variety of services for those who wish to help and pay for it.

Among the services rendered are: shopping; furnishing companions, chaperones, and guides; planning parties and decorations for children or adults; doing up special tours for people departing on or returning from vacations and travels; housecleaning; and special services for people who are planning to travel. Hostesses, Inc. is a company of women who are already well known in the city and have a special pilot their through the galleries and foreigners can have a guide who speaks their language, as well as English.

According to the secretary of the organization, anyone can call up about anything and receive service. The profits of this business are used to aid working girls' clubs. This is a worthy philanthropic aim. But what about the business, which is so effecting a service to so many? What do New Yorkers find their initiative and ingenuity doing them as useful?

Make Study of Crime
A large club in London is holding a crime club, which is interested in the study of crime and crime prevention, to discuss every aspect of the subject.

Radio Programs

8:15, Los Angeles 407 Meters

HILLMAN PLAYERS AT ORPHEUM
A. R. Anderson, manager of the Orpheum, announces that he has secured the Hillman Ideal Stock company, which is a special feature of the night show. This well known company of actors will appear at the Orpheum tonight in a new Irish comedy entitled "The Day After Tomorrow." The play is staged with special scenery and there will be a number of yanks and other special features. A five-piece jazz orchestra will furnish special music. The Hillman company numbers 10 people. The show will be played twice, the Idaho and several other nearby towns, and press reports are flattering as to the class of productions offered. There will be but one show, the curtain rising promptly at 8:15.

"A REGULAR SCOUT"
A novel story has found its way to the screen in "Red Thompson's" latest. It is a production, "A Regular Scout," which is being shown at the Idaho today when it begins a three day run. This intimate glimpse of the Boy Scouts, one of the most powerful organizations in the world, is a most interesting and tremendously instructive. National ambassadors appointed Edward H. Frost, scout executive of the Boy Scouts, to lead his assistance during the filming of the picture in order to insure that the play showed the Idaho Scouts in the best possible light throughout the picture. The cast numbers many local favorites.

Forsight
The man who said "I would like to live in a house by the side of the road" is a prediction that some day the value would increase when it was remodelled into a tea room.

Repairs Heating Wires
Repairs heating wires in a electric house in the city of Twin Falls. The wires were found to be broken and were replaced by new wires. The work was done by a local electrician.

Make Study of Crime
A large club in London is holding a crime club, which is interested in the study of crime and crime prevention, to discuss every aspect of the subject.

Synthetic Pain-Reliever
A German chemist has discovered a new local anesthetic which may be used in place of cocaine. It is prepared from some of the inorganic products of the air and is commercialized as "Cocaine."

Add Definitions
A Webster's dictionary which is a best-seller in the world, is being revised. The new edition will include many new words and definitions.

Its Skill Valuable
The hawk is a marine bird found in tropical regions. Its skill is valuable in hunting for fish and other prey.

BOARD MEMBERS AGAIN ELECTED

Superintendent of Twin Falls Schools Re-elected for Another Year With Proviso That Vote May Be Reconsidered

Twin Falls industrial school district board of education, after receipt of the report of the superintendent at a regular meeting Monday night, voted early this morning to re-elect the board members for the year 1927-28 at a salary of \$100 per year, with an increase of \$100 over last year's salary. The third year of their contract is now in effect.

The vote was recorded under agreement that it might be reconsidered at any meeting of the board to be attended by two new members who are to be appointed to fill the vacancies on the board by resignation of R. H. Johnson and W. L. Sackett, as members of the board.

Chairman Votes
All four of the members of the board remaining after the acceptance of the resignation of R. H. Johnson, superintendent, E. E. Crabtree, chairman, retaining his right to vote in connection with the resignation of R. H. Johnson and W. L. Sackett, as members of the board.

Division of sentiment in the community over retention of the superintendent, according to members of the board, was responsible for his resignation, petitions on each side of the issue having induced one member of the board to resign.

Langley Discussion
During the course of discussion that followed for more than two hours until nearly 10 p. m., presiding the vote, Mrs. Sackett and Mr. Bitter indicated their purpose to vote against retention of Mr. Johnson and stated that in their opinion the school would be better served by the school by discharging the superintendent, and that a serious question in the community during the past year. They blamed dilatory and vacillating policy taken by the board in meeting this situation, and that it had a serious effect on the school.

Mr. Bitter, who had indicated his intention to vote against retention of Mr. Johnson, and Mr. Bitter indicated their purpose to vote against retention of Mr. Johnson and stated that in their opinion the school would be better served by the school by discharging the superintendent, and that a serious question in the community during the past year. They blamed dilatory and vacillating policy taken by the board in meeting this situation, and that it had a serious effect on the school.

Twin Falls Pioneer Claimed by Death

James B. Smith, pioneer resident of the city of Twin Falls, died at the age of 79 years, aged in a little cabin on the site now occupied by the highway street station. He had lived in the city of Twin Falls for many years and had been in the city for some time and his demise was anticipated. Among his last immediate surviving relatives are H. A. Smith of Twin Falls, a son; and two daughters, Mrs. Stella Hughes and Miss Opal Smith of Hamilton.

Mr. Smith was born in Canada February 8, 1848, and lived to attain the age of 79 years and 10 months. He was married in 1869 and lived in the city of Twin Falls for many years. He was a member of the Methodist church and was a pioneer settler of the city of Twin Falls. He was a man of many talents and was a successful business man. He was a member of the Twin Falls Chamber of Commerce and was a pioneer settler of the city of Twin Falls.

CITIZENS WANT ASSURANCES ON ROAD TO SOUTH

Twin Falls Chamber of Commerce, Through Legislative Delegation, to Make Sure New Program Provides Highway.

Voicing a question that is uppermost in the mind of many Twin Falls people, Twin Falls Chamber of Commerce, through the county's legislative delegation, will seek assurance that the latest proposed program of the state highway department for the coming two years contemplates construction of the highway from Twin Falls to the Nevada state line. This action was agreed upon at a meeting Tuesday evening of the chamber's state relations committee in order for reporting of the views of Twin Falls citizens with respect to pending legislative action.

Statement Indefinite
First published statements with regard to the new state highway department program, the committee members agreed, are indefinite in regard to the south end, and because of the important nature of the subject, the committee members are desired by Twin Falls citizens.

COURT AFFAIRS JUDGMENT ON EMBEZZLEMENT

Opinion Handed Down Three Years After Conviction Re- quires Peters and Leichter to Serve Prison Terms.

Idaho's supreme court, concurring in an opinion written by Justice George Yant, an embezzler in district court here nearly three years ago that requires K. H. Peters and Frank G. Leichter to serve one to 14 years each in the state prison for embezzlement of between \$1,000 and \$5,000 from the Mutual Building and Loan Association. Copy of the opinion was received Wednesday in district court here.

Peters, who served as general manager of the building and loan association, was reported last summer to have been found dead in his automobile at the edge of Death Valley in California. Both Peters and Leichter, who was secretary for the association, furnished bonds on appeal in the sum of \$4,000 each, after judgment on conviction was entered in district court here, and both thereafter moved to California. Bond for Peters was furnished by Frank Kruger and Robert Schuster. Leichter's bond was furnished by John Wolfenden, who died here last fall, and by H. W. Wilson.

No Prejudicial Error

The alleged embezzlement took place during the period in which Peters and Leichter were misled by the corporation from January 1923, to November, 1923. Trial in district court here was held in the summer of 1924. Attorneys for Peters and Leichter, in perfecting appeal to the supreme court, indicated arraignment of 36 errors in the course of the trial. The supreme court in its opinion holds that there were no errors of prejudicial nature.

Prosecution of the case was conducted by J. W. Taylor, former city attorney, Frank L. Stephan, now Idaho attorney general, and Judge E. A. Walters. Defendants were represented by Roy L. Black of Pocatello, former attorney general, and Homer C. Mills.

Showers Continue To Descend Here

Forecast for today—Clouded with light local rains and snow.

Precipitation in Twin Falls during the 24 hours ending at 6 o'clock tonight amounted to a total of an inch, according to the daily report of M. Manning, in charge of the government weather observatory station. This is the greatest amount of rainfall on record for any one day since February 2. Temperature for the day ranged 13 degrees between the low mark of 32 recorded during the early morning hours, and the high mark of 45 degrees registered shortly after noon.

The sun was visible from this point for about an hour at noon this afternoon, which is unusual for the rest of the day. Showers which fell intermittently during the daytime still continued at a late hour last night.

Dairy School Work Is Completed Here

Twin Falls' two-day dairy school, which opened here Tuesday morning, ended last night and D. L. Post of Boise, extension director, left for Boise, where this morning he will conduct a two-day session for dairymen of that vicinity. The courses touched upon will include breeding, feeding and dairy management. Dr. P. W. Atkinson of Moscow, head of the dairy department of the University of Idaho school of agriculture, who delivered a number of lectures here, will appear on the program at Huhl several times.

Principal speakers at the meeting which was conducted in the Business and Professional Women's club rooms here Wednesday were: W. R. Hahn, district club leader; H. L. Post, Professor Atkinson, and John Peltzhausen of the Twin Falls high school department of agriculture.
