

### PARK TRAVEL IS CONGESTED

### Short Line Overworked to Care For Tourists.

FIVE TRAINS IN ONE NIGHT, RECORD FOR LAST WEEK.

Regular Park Train, Being Run in Sections, Park Camping Company Refuses Patrons.

The last few nights demonstrated one of the heaviest local traffic nights in the local history of the Short Line. Insofar as park travel was concerned, there were five trains to the park and they totaled fifty-two cars, and after leaving Ashton eighteen engines were required to haul the heavy trains. There were eleven steel cars in each of the three sections of the Shriners' special, and three engines hooked onto each section out of Ashton. The regular trains were also loaded, the sections of No. 16 coming out of the park.

Very slow time was made in coming back, as the southbound train had to sidetrack every switch in order to give right of way to the park-bound trains. The only regular stops are made at Ashton, Idaho Falls and Blackfoot and no tickets are sold for local traffic at the latter places. At the other two points it is necessary for the individual to buy tickets before boarding the train, and the major run of passes will not be accepted aboard park trains. The local train out of Idaho Falls is expected to look after that sort of business.

### NEW HEAD OF CLUB

Mrs. B. E. Morse Elected to Fill Vacancy in 5th Century Club.

At the regular election of officers for the Twentieth Century club at the close of the year Mrs. Martha Spangler was chosen president and it was with regret that her resignation was accepted at a called meeting recently held. Removal from the city being her reason for resigning. At the same meeting Mrs. P. W. McRoberts tendered her resignation as the vice president, being unable to assume the duties of president, which therefore fell on Mrs. B. E. Morse. An election was, however, held and Mrs. Morse was unanimously chosen to the office. Mrs. McRoberts was then re-elected first vice president and Mrs. M. J. Sweeney second vice president. It is anticipated counts for anything the year will be an exceptional one along both literary and social lines.

### RASPBERRIES FOR CANNING

The famous black cap raspberries are now ripe on our ranch. People who have money by coming to the ranch and picking berries for their preserves. W. S. Starr, Kinsey, Box 4, 4 miles east.

### ABDUCTOR MAKES CONFESSION

Admits Abduction of Ensey For Purpose of Ransom.

In the Blingham county jail at Blackfoot yesterday, L. M. Dean, abductor of Ensey, signed a long, written confession of his crime in the presence of County Attorney Ralph W. Adair, Sheriff A. H. Simmons, deputy sheriff and a notary. In the statement he declared that for the purpose of ransom he abducted Mr. Ensey, took him to a lonely place in the hills, and sent a note to his father demanding that \$6000 in gold be delivered to himself, in a white sack at a secluded place in the canyon. He stated that he knew what he was doing and was of sane mind and in a normal condition.

When questioned by the authorities concerning what disposition he intended making with Ensey in case the ransom had not been forthcoming, he stated that he had planned to send another note giving ten days more, and in the event that at that time the gold was not delivered to him, he would have fired him securely to a tree, given him an axe, knife and made him escape while his captive slowly cut himself free.

"Why did you go to the Cumerhill ranch, did you not know the man was taking Ensey?" was a question put to him during the quiz.

"Yes," he replied, "I know I was taking Ensey all right, but I just wanted to see who was there."

He stated that when he was being captured at the Cumerhill ranch, Mrs. Cumerhill held a gun and demanded that he raise his hands above his head. He raised them a short distance, but not far enough to satisfy the woman holding the gun, and when he demanded he refused to get them higher she shot a hole through his hat, knocking the latter off.

After signing the confession, yesterday Dean demanded that he be provided with an attorney. When someone asked why he desired a lawyer, who he had already signed the incriminating statement, he replied that he was entitled to one and that the county was obliged to furnish him with counsel at its expense.

Though his preliminary hearing will not occur for a day or two, he was this morning taken before the probate judge and bound over to the district court.

### PIANO RECITAL

Pupils of Miss Edith Ramsey to Give Program Friday Evening.

The pupils of Miss Edith Ramsey, having completed the summer term of music, will give a piano recital, looking July 30, at eight o'clock at the Presbyterian church. Parents and friends are cordially invited.

### HANDY WITH GUN

Bill Fakis Tries to Run Bluff on Section Foreman.

### MACHINERY FOR CONTACT CAMP

### Big Tractor Passed Through Twin Falls Thursday.

EQUIPMENT FOR POWER HOUSE ON WAY TO COPPER CAMP.

Force on the Nevada Company's Property Is Increased. Large Bodies of Ore Blocked Out.

Much work and development is now going on in Contact.

Carloads of machinery and supplies for the development of the Contact mining district are passing through Twin Falls daily, enroute to Contact via Rogerson. The long expected tractor is now on the side track in the yard and is quite a novelty, being of the caterpillar type and manufactured by the Kaiser Coal Co.

A large part of the machinery now on hand is equipment for the power house which is under construction, the site having been selected and located in the original townsite. This will be rushed to completion. The work is being done with all possible speed and will provide the city with the most modern of conveniences, including electric lights and water.

### POWER OF THE STREET

Great Story in Two Acts at the Orpheum Theatre Last Three Nights.

For the last three nights of the week at the Orpheum theatre the management will offer a grand story of finance and penology in two acts, entitled "The Power of the Street."

A splendid Keystone comedy will be presented by the Orpheum management, being one of the best laugh producers of the Keystone company. "The Mutual Weekly" always phrases because it shows all of the latest happenings of the world. Gale and Gale can be seen in a splendid vaudeville sketch, with comedy, singing and dancing.

### PUPILS' RECITAL

Recital Given in Filter Wednesday Evening.

Wednesday evening, July 28, Raleigh Drake gave a cello recital at Filter in Turner hall, assisted by Miss Margaret Showers, violin and Miss Phyllis Averett, soprano. Miss Pauline Alfonsi, of the string department of the Music and Art studio of this city, of whom Master Drake and Miss Showers are pupils, contributed a violin solo which was received with pronounced applause. Miss Sarah Higgins went with the party from this city and acted as accompanist for several of the numbers.

Master Drake, although but 14 years of age, displayed much talent, drawing a splendid tone from his instrument and his technique was very good and his interpretation of all the several numbers was musical. Master Drake's numbers number several of the numbers.

Miss Averett, who furnished the vocal numbers on the program, sang very well, revealing a voice of unusual purity, coupled with splendid enunciation, which made her numbers a treat to every ear.

A very large crowd was present and enjoyed every one of the several numbers on the program, which follows:

### TRAVELS IN STYLE

Minnepolis Party Traveling Through Country Enroute to Fair.

### TRAVELING PARTY

One of the most up-to-date auto outfits to pass through the city, was here for a day or two the first of the week. The party was that of E. J. Sawyer of Minneapolis, Minn., and included his wife and family, two lady friends, with chauffeurs and a French chef, in all fourteen in the party. The party came in the canyon for a day, viewing the wonders of the mighty falls. They are traveling from their home city to California in two large passenger autos and a truck, which is used to haul their baggage. They carry a complete camping outfit, with a special electric lighting system. At night the big truck is converted into sleeping quarters for the ladies of the party.

### FOLTS MOTOR COMPANY MOVES

Occupy West Half of Smith Block on Shoshone.

### SALMON DIRECTORS HOLD MEETING

The directors of the Salmon River Scullers association held a meeting Tuesday in the office of Assessor J. W. Beachamp. Considerable business was transacted, with a report on the association. The following officers and directors were present: A. F. Caldwell, J. E. Fohlman, J. E. Edmondson, V. H. Brown, W. J. Hansen, J. H. Beachamp and H. M. Sims, secretary.

### TELEPHONE

### RUSSIANS CHECK GERMAN DRIVE

### Fighting on the Eastern Front Is Frightful

GERMANS LOSE HALF MILLION MEN IN TWO WEEKS.

Fate of the Eastern Campaign Hangs in the Balance and Warsaw Is Still Untaken.

London, July 28.—Though the Germans now hold a great line from the Gulf of Riga sweeping southwestward around Warsaw and thence encircling that city and stretching away to the Galician frontier near Sokal, it is estimated that they have lost 500,000 men, perhaps more, in this, the most ambitious movement of the war, and in spite of this loss the Russian front is not yet broken.

On the Narow river, north of Warsaw, the Russians have made a stubborn show of resistance, holding Field Marshal von Hindenberg, for the time being in check. To the south the Russian front is being pushed forward, struggling to seize the Lublin-Cholm railway, have been for days on the threshold of success without being able to achieve their goal.

The fighting on the latter front has been resumed with great intensity and the Teutons claim to have improved their position on the extreme right, which is resting on the Bug river. Immediately west of Warsaw comparative quiet prevails. It is along the latter front that the German forces in the Narow river region that it is believed a crisis will be reached.

### TRAVELS IN STYLE

Minnepolis Party Traveling Through Country Enroute to Fair.

If I spend my Dollars out of Twin Falls and you spend your Dollars out of Twin Falls, and all the People spend their Dollars out of Twin Falls, WHAT IN THE THUNDER WILL BECOME OF TWIN FALLS?

THINK ABOUT IT

Twin Falls Commercial Club

The fencing off of the Eighth avenue ditch with five-meshed wire that will prevent little children from getting into the ditch will relieve the minds of many mothers, who should give the present city administration credit for the speedy performance of its election promise. While the bare fence is no ornament to that street, the Times would suggest that the property owners have a possibility of making it into a haven of beauty by the planting of climbing roses, sweet peas, woadline and ivy. It will be worth the attempt at least. Several property owners have already indicated their intention of thus beautifying their portion of the fence.

**SHOULD UNITE FOR BETTER CONDITIONS**

The Twin Falls county Automobile Club was organized last fall for the purpose of getting the united support of the automobile owners for better roads, better conditions of travel and for the suppression of road hogs, and daredevil drivers. The club has a membership of about one hundred, fifty or only twenty-five per cent of the auto owners in the county. The Times would urge that all owners join the association for the sake of getting results on the highways. It must be apparent to those who travel over the county roads that fifty per cent at least of the county road money is spent without regard to economy or permanency of the roads. In other words, fifty per cent is wasted each year in work done having no logical value to the taxpayer. If the six hundred auto owners in this county will become united, they can then because of the number of taxpayers represented insist upon conditions that will cut off on waste. The criminal speeding of some drivers can also be regulated better within the club than any other way. If you are not a member send in your money to the secretary and thus show that you desire efficiency in road work, safety for all

travelers upon the public highways, and economy in expenditure of funds. Six hundred individual owners can do nothing. Six hundred organized have a strong leverage upon the persons, who, through politics, have charge of county funds.

**NATIONAL DEFENSE**

The extreme pacifists of this Nation have always contended that development of national defenses encourage a war-like policy on the part of the people and the nation as a whole. But in view of the fact that a real danger now confronts the nation some of these extremists are beginning to change their cry to one of better defense. There is no question but that President Wilson has the whole nation with him in his firm stand for American rights. There is no question but what he will have the whole nation with him when asking for more ships, more arms and a better equipped standing army. America has had a large amount of good luck owing to her isolated position, but we should not depend upon luck. Billions of resources are at present open to despoliation from an invading army. The wealthy American could in a few short months become as poverty stricken as little Belgium. Preparedness will deter other nations from meddling. The cost of defense is good insurance against loss of all national wealth and the safety of its people.

**CROP OUTLOOK OUR BEST WAR ORDER.**

A marked tone of satisfaction is to be noted in editorial comment on the government's crop report of July 1. We are to have the largest wheat crop in the history of the country, surpassing even the phenomenal yield of last year, a corn crop that should be the largest since 1912, and an oat crop that outmeasures any in recent years. In the main, however, observers are more occupied in discussing the market provided by the European war for this exceptional production. As the New York World says, "with the prospect of the world's supply depleted by war, and harvests in Europe everywhere short, this country has reason to look forward again to a season of prosperity." As a matter of fact, the press informs us, this market was anticipated by American farmers, who planted record acreages of all the principal crops. And this expansion of crop area is described by the Boston News Bureau as "the feature of this year's farming—a natural response to the history of farm products and prices since the war broke out." Last year, for instance, "there were reaped in corn, wheat and oats 190,000,000 acres; this year there are now 209,000,000 under the same crops." This Journal adds:

"How generous in volume are the indicated yields of the major grains this season may be briefly shown, in the following (in millions of bushels). Only the phenomenal corn crop of 1912 prevented a new record in this respect:

1915	1914	1913	1912	1911
Corn 2,814	2,672	2,447	3,125	2,531
Wheat 963	891	763	730	621
Oats 1,209	1,141	1,121	1,418	922
Barley 284	195	178	225	160
Total 5,384	4,899	4,509	5,496	4,234

"Even with the recent recession in cereal prices, the four crops here cited are selling at a market valuation of \$3,800,000,000. Their market future is wrapt in many contingencies, in other countries; in any event, there is apt to be little depreciation from this handsome appraisal."

As to the war-time consumption of our food-stuffs, the statement of the department of commerce shows an increase of \$300,000,000 in the past year we learn from the New York Journal of Commerce; which adds:

"The share of the United States in feeding the world . . . was disclosed by the statement of the department that foodstuffs exported during the eleven months ending June 1 were valued at \$724,000,000. This was the principal factor in the nation's billion-dollar foreign trade balance.

"The effect of this war is seen in the enormous increase in the value of food stuffs, compared with the export figures of the same eleven months a year ago, when the total was \$443,000,000.

"Wheat formed the biggest item in foodstuffs sent abroad. In all, 249,576,000 bushels were exported, an increase of 164,000,000 bushels. It was valued at \$319,961,000, showing an increase over the previous year of \$239,138,000.

Oats valued at \$51,669,000 were shipped, an increase of \$51,028,000. There were 86,428,000 bushels, an increase of almost 85,000,000 bushels.

"Flour showed—the next largest increase, with a value of \$87,660,000 or \$37,638,000 more than the previous period. Almost 5,000,000 more barrels were sent this year, the total being 15,677,000 barrels.

"Corn exports were valued at \$34,542,000, an increase of \$28,551,000. There were 43,718,000 bushels exported, an increase of more than 35,000,000 bushels."

"America's best asset," the Springfield Republican calls the good crop outlook, which can not be affected by "diplomatic notes and European war-woes." And this Journal goes on to say:

"It is the best of war orders, because it comes from the Almighty. On July 1, according to the department of agriculture, the composite condition of all crops of the United States was 2.64 per cent above the ten-year average. Corn, our most valuable crop, has suffered from unseasonable weather, but the increased acreage, especially in the south, at present forecasts a crop of 2,814,000,000 bushels, which is above the ten-year average by a hundred million. The forecast of a bumper wheat crop of 963,000,000 bushels is dependent somewhat on a quick change in the weather in the West, for harvesting to the best advantage requires warm, dry days. Oats promise a record crop, but they too now need drier weather. The forage crops as a whole are excellent and heavy yields are indicated, and the forage crops are of supreme importance to livestock interests. Even less wheat the coming year should be exported from the United States on account of the increased production of Canada, India and South America. The prices paid for our surplus abroad would still yield large profits to American producers."

In marked contrast to this is the remark of the New York Times that war profits are "illusory"; and it points out that "in spite of the high excess of exports, the total of our foreign trade on account of the war actually has been reduced." Our import trade has been "diplomatically interfered with," and when imports fall "there must be a corresponding unemployment of labor."—Literary Digest.

JOHNSON SERVICE

Phone 50

hat is only half a woman. Economy is not a disgrace; any fool can spend money and waste it, but it takes judgment to spend wisely for value received."—Mrs. Arthur G. Leonard.

The following is not a piece of summer fiction but an actual conversation, the names alone being fictitious:

"Dear me! I do feel so happy," said Mrs. Collins as she dropped down into a chair in Mrs. Whitmarsh's parlor. "I've just been down town shopping. I stopped at the bank and deposited my month's savings. I had ten dollars to deposit."

"I declare!" exclaimed Mrs. Whitmarsh. "I don't see how you do it. Your husband doesn't give you a cent more than nine gives me, there aren't any less in your family and you seem to have everything I do. But as for my saving? Why, we are always behind on some bill or other. How in the world do you do it?"

"Well, you see," said Mrs. Collins, modestly, "my father and mother taught me to save when I was a girl. I began then to put my nickels into a little savings bank. Now whenever I think of a way of saving I always put the difference between what I might have spent and what I do spend right into my bank. It's only five cents in it goes, and if it's two dollars I make myself put that in, too."

"But where do you save?" interrupted Mrs. Whitmarsh.

"Oh," answered Mrs. Collins, "I'm always on the watch for chances

That's part of the secret. Just the other morning it struck me—for the first time, strange to say—that breakfast cereal might be cheaper by the half dozen. There is only five cents difference when you buy six boxes, but then you save the bother of ordering the six separately.

"I try to make my household expenses for each month come within a certain limit, too, and if at the end of the month I have spent less than I expected, the sum saved goes into my bank. I buy some cheap cuts of meat for instance, a hunk of beef to boil and press, or pot roasts. You can make ever so many good soups out of the scraps, too and John is very fond of soup. I make cream soups out of milk and the water in which vegetables are boiled. I dry vegetables, too. Do you know that dried celery leaves make almost as good a soup as the fresh celery itself?"

"Potatoes and onions and such

things I buy in a supply of in the fall. We have a good vegetable cellar, you know. This last year I put down forty dozen eggs also. My butter I buy direct from the maker."

"Can you save much on your clothes?" I think I save most there by going without things. So often when you think you simply must have a new dress or a new hat you find you really can get along without pretty well. If you do need a new suit it's a good plan to buy it in the off season when things are really marked down. Well, I have talked as if I were the best planner in the world, haven't I? Probably my neighbors wish I would spend more on my clothes, but it does make you feel real rich to have something already in the bank for the future."

### PRESS BULLETIN

Typoid Worse In Country Than In Cities

Typoid fever is our most accurate indicator of insanitary conditions. Its prevalence shows more clearly than any other single thing, that something is wrong in the public health control of the community.

It is a sort of tradition that country districts are especially healthful. They are not. No community which depends upon "natural means" of water supply and sewage disposal can be safe. This is frequently shown in resorts and summer camps even in the most isolated places.

The government mortality figures show that the country has more typhoid deaths than cities.

These same figures also show that small towns are less healthful and more insanitary than actual rural communities.

The towns of from several hundred to a few thousand have the congestion of people without any of the safeguards thrown about such congestion in cities. There is no protected water supply; no sewer system; no public health supervision. Privy vaults and private wells cannot exist in the same manner in a community without danger of trouble.

With all of the elements which may bring about sanitary "explosions"—privy vaults, shallow wells, breeding manure piles, non-existent garbage disposal—these small towns require more competent public health supervision than any other communities.

Generally, however, the health officer in a mere name. The general tendency is to trust to luck—and the luck is often miserable.

It is unfortunate that calamity does not always follow violation of rules of health. There is a chance that one may do a fool thing and avoid the penalty and the gambling instinct is strong among us.

### State Laboratory Facilities Open to the Public

The state board of health laboratory makes free examination of any matter having a bearing on the public health. Water is examined for sewage contamination; milk for butter fat; water dilution and general cleanliness.

Examinations are also made for tuberculosis, diphtheria, typhoid, of pus, etc. Mailing containers may be obtained from the local health officers or from the state board of health at Boise.

It is a violation of the postal laws to send matter of this kind through the mails except in the specially constructed containers supplied by the board of health.

### The Public Paying for Disease

It seems eminently proper that the nation or state should pay stockmen and farmers for cattle slaughtered to prevent the spread of disease.

Suppose, as a valuation of this plan, cities and villages should pay for human lives unnecessarily sacrificed through failure to protect the public health.

It has been said that a case of typhoid fever is conclusive evidence of criminal neglect for which some one should pay the penalty.

Suppose the courts should decide that a human life is worth \$10,000.00 cash money, that each individual bears the family at this rate for deaths caused from typhoid fever when it was shown that the disease was contracted by conditions which the health authorities could control. Suppose the courts accepted as conclusive evidence of public liability such things as these:

Polluted water supply.

Existence of manure piles and other breeding places of the "typhoid fly."

Careless sewage disposal.

Existence of privies and wells in communities where sewer system and water works are practical.

Suppose a town having any of these conditions and having, say, ten typhoid deaths a year, had to pay \$100,000.00 a year for the slaughter of humans.

How long would it take for the public officials to get busy?

A farmer living near Freepport, Ill. has been bound over to the federal grand jury and placed under \$50,000 bail for taking a hog out of quarantine. His act endangered other hogs. What should be the penalty for violating human quarantine?

Many a house with a swill front has a swill back. Take a look at the back yard and the alley.

Bathe the body daily—an active and clean skin relieves the lungs and kidneys of much work.

Build your reputation for civic pride in your back yard.

It is easier to retain than to regain health.

## We will Place an Electric Range in your Home for \$11 Down with \$4 Monthly Payments

This surprisingly liberal and unprecedented offer should place an Electric Range in every home of the city.

Buy an Electric Range for the difference between what your monthly fuel bill *is* and what it *should* be. The Electric Range is not a complicated piece of mechanism. It is the easiest and cheapest way to cook, and is free from the ever attendant danger—dirt and flame.

## Think It Over:

Will you prepare your food the clean, convenient and economical way, or will you employ unsanitary, antiquated methods? \$4 per month and the range is yours.

Call at our office or phone 95 for demonstration.

### ENTHUSIASTIC ON DRY FARMING

Senator Brady Tells of Development in the Arid Regions.

After an extended tour of Idaho by automobile and having visited the site of the proposed park in the Sawtooth range, Senator James H. Brady, accompanied by Mrs. Brady and Mrs. George M. Moore and her two daughters, Misses Georgia and Francis, arrived in Boise last night. After a few days here, Mrs. Brady and daughters will leave for the exposition via Seattle, where they will visit Dr. and Mrs. Suzzallo. Senator James H. Brady's daughter, Mrs. Moore and recently located in Seattle, Dr. Suzzallo having been elected president of the University of Washington.

When seen this morning, Senator Brady announced his readiness to talk on the greatest thing in Idaho, which he said, was dry farming. "So one can realize the wonderful development in this industry in Idaho, unless a trip is made by automobile over a large portion of the farming region of southern Idaho," he said. "For instance, the Camas prairie section, which but a few years ago was only a pasture for sheep, became one of the rich agricultural sections of the state."

"All along the line from Pocatello to Boise, the dry farms show what is being done by scientific agriculture and while the water in the canals is the lowest in years, still the spring rains have had a great beneficial effect on dry farm crops and Idaho, which this year will produce millions and millions of bushels of grain without any irrigation whatever."

That portion of the Sawtooth mountains should be a national park is the opinion of Senator Brady, who states the scenery there is equal to the Yellowstone park as a whole, although not as many wonders are to be seen. He states that with a proper road system laid out it would be a heaven for tourists and if the road system came on to Boise, thousands of tourists would visit the park and drive to Boise from Pocatello, although it would require one day longer than the present route.

Asked relative to the Yellowstone park robbery, Senator Brady was not inclined to talk. The robbery, he stated was pulled off around a sharp bend in the road and the robbers secured between \$500 and \$1000. It was an exciting time for the party, he stated. They were robbed quickly and they claim the robbery was very cool. As fairly good descriptions have been secured of the men he believes their capture is likely. (Capital News.)

TWIN FALLS

Local and Personal

Mrs. Mildred Parker is spending the week with relatives in Shoshone.

Mrs. J. W. Tanner and son, Teddy, were shoppers in the city Thursday.

H. A. Brown is in the city from Pocatello looking after business matters.

Charles Johnson, of Burley, transacted business in Twin Falls Wednesday.

Attorney M. J. Swezey transacted legal business in Buhl Wednesday afternoon.

W. H. Craven, the Hollister banker, transacted business in Twin Falls Wednesday.

W. L. Crozier and family and Miss Lois Taber are spending a couple of weeks in the mountains north of Ketchum.

H. O. Brown transacted business on the north side Wednesday of this week.

A. F. Craven was a business visitor in Twin Falls Wednesday from Hollister.

Mrs. Harley Butler is in the city from the Salmon tract, visiting with relatives.

Tramaster J. J. Powers, of the Oregon Short Line, was in the city Wednesday looking after business matters.

T. M. French left Thursday morning for Burley, where he will spend several days looking after business matters.

E. H. Heinicke, manager of the Hollister Lumber company, spent Wednesday in the county seat transacting business.

Mrs. E. C. Lavering and son, left Wednesday morning for Caldwell, where they will visit with relatives for some time.

Mrs. T. C. Wilson was a shopping visitor in the county seat Wednesday from Kimberly.

C. F. Clark and son are in the city from Cedar Rapids, Iowa, visiting with David Clark.

J. W. Tanner, editor of the Miller Journal, transacted business in the county seat Tuesday.

C. M. Hill and Stuart H. Taylor returned Friday from Fairfield, where they attended the celebration.

A. N. Sprague, of the Book Store Pharmacy, of Burley, was in the city for several days of this week.

Chase Leighton was a visitor in the city for a day the middle of the week from his farm on the north side.

Dr. and Mrs. George R. Dean and family departed for their home in McPherson, Kansas, after a visit with Urban Tracy and family.

W. E. Sanger and family returned the first of the week from the Shoshone basin, where they had been camping for a week or ten days.

W. M. Van Houten, who is engaged in farming near Kimberly, was a business visitor in the county seat for a day the middle of the week.

J. Garry, superintendent of the Owyhee Stock and Land company, transacted business in Twin Falls Wednesday from his headquarters in Roger, Mo.

Harley J. Hooker and John M. Conner arrived in the city Wednesday from the east. They will spend some time here looking after business affairs.

F. C. Bacon was in the city Wednesday from the Wood River country, where he is ranging his sheep for the summer. He was accompanied by his father, O. F. Bacon, of Boise.

E. S. Larned, Russell Ostrander and C. M. Booth returned Tuesday from Goody Mountain, Nevada, where they had been for a week on a hunting trip. They report very good luck.

The Loyal Women's Bible class of the First Christian church plied at the Shoshone falls Thursday. The class was taken to the falls in an auto truck. The day was very pleasantly spent.

Dr. C. A. Emes and family returned to Twin Falls the first of the week after an absence of two years in the east where the doctor has been superintendent of a hospital. They will make their home on the farm near town.

Mr. and Mrs. Warner Patterson were visitors in the city for a day or two this week. This is Mr. Patterson's first visit to the city and tract and he is highly pleased with the prospects here. Mr. and Mrs. Patterson live on the Dietrich tract.

J. A. Leighton, one of the money order clerks in the post office will leave in about ten days for Helena, Arkansas, where he has accepted a position in the office of that city. Mr. Leighton has made an exchange with the clerk of the southern city.

E. J. Ostrander and son, Eugene, and A. J. Peavey left Sunday morning for California, where they will visit the fairs. They made the trip in Mr. Ostrander's car. The first day the party made the run to Battle Mountain, Nevada, a distance of 256 miles from Twin Falls.

Rev. C. R. L. Vawter and family were in the city for a short time this week on their return to the east. Rev. Mr. Vawter will be remembered here, having held a series of special meetings in the Christian church this spring. He is so pleased with Twin Falls and the country surrounding that he brought Mrs. Vawter here on purpose to see the country.

The funeral of Russell Emery, the young man who lost his life by drowning near Hansen Sunday, was held from the Crosby chapel, Thursday afternoon. The services were conducted by Rev. C. L. Bent, pastor of the First Methodist church. The father, mother and brother of the deceased arrived from Ruff, Washington, on the noon train Thursday to be present at the funeral.

Edward S. Chudwick, manager of the Idaho Life Insurance company, spent Wednesday in the city looking after business for his company.

Mrs. Elizabeth Bates left for her home in Indianapolis, Indiana, Wednesday evening after a visit with her daughter, Mrs. J. Clyde Lindsay.

John Skilton, departed Thursday morning for his home in Boise, after spending several days on the tract looking after his stock interests.

A marriage license was issued Wednesday by the county auditor to Chas. A. Wiedler, of Prescott, Arizona, and Miss Rachel H. Worthington, of Oakley.

Mrs. C. J. Hahn and children departed Thursday morning for Fremont, Nebraska, where they will visit with relatives for several weeks. They were accompanied as far as Minidoka by Mr. Hahn.

W. M. Peairs is able to be out again after being confined to his home with blood poisoning in one of his fingers. Mr. Peairs bruised one of his fingers, the bruise developing into blood poisoning.

Mr. and Mrs. D. B. Knight departed Thursday morning for the coast, where they will visit the fairs before returning to their home in Marysville, Kansas. Mr. and Mrs. Knight are the parents of A. L. Knight of this city.

L. R. Kelly, who has been spending the past year in Nebraska, returned the last of the week and has started his business again in Twin Falls, having purchased the motorcycle shop of L. C. Maxwell, on Second avenue east.

J. J. Kinney, of Sterling, Colorado, and an uncle and business partner of Ed. Kinney, of this city, left last week for his home after a ten day visit in this city. Mr. Kinney is a prominent stockman of Sterling, but is convinced of the future of this section.

### MILEAGE BOOKS FOR O. S. L.

Probable. That They Will Soon be Used Instead of Scrip.

It is very probable that within a short time the public utilities commission will receive notification from General Passenger Agent Fort of the Union Pacific System, through D. E. Burley, general passenger agent of the Oregon Short Line railroad, that mileage books will replace scrip for travel over the Short Line's roads in this state. A conference on the part of the public utilities commission with Mr. Burley at Salt Lake indicated this change would be made. It has not yet been definitely decided, however, and will not be until Mr. Fort has had an opportunity to look into the matter fully.

On our recent visit to Salt Lake, said Commissioner Fredrick, who is back from the commission's recent trip. We took the matter of making this change up with the Short Line officials, particularly General Passenger Agent Burley. Our proposal was to substitute interchangeable mileage books in place of scrip. Those who travel over the Short Line system quite extensively, object to the scrip in the first place, they say the \$30 investment required is too large. The exchange of the scrip for tickets is inconvenient. There is a lot to be said for the proposal. It is particularly inconvenient to traveling men. The commission also objected to the objection raised to Mr. Burley. Interchangeable mileage was urged as a substitute. This will only require an investment of \$50 for a 200-mile mileage book. The mileage will not have to be exchanged for tickets but can be presented by the holder to the conductor, which makes it much more convenient to the traveling public. The possibility of the change was indicated but there was nothing definite decided upon and will not be until Mr. Fort, general passenger agent of the Union Pacific system, has had time to consider the matter and pass upon it.

The question of a change in some of the freight rates was also presented to the Short Line officials but no definite action taken. The commission held four formal hearings and a large number of informal hearings on a trip which was I believe, of as much benefit to the public as it was to the commission. Just a few days prior to the trip of Mr. Scott to the city of St. Joseph, Mr. Scott was before the commission at the hearing held in that city on telephone and power rates. A hearing was also held here on the gas and water rates and at McCammon on the question of water supply under the Parkersburg system. The commission inspected the water works system at Mackay and went as far north as Ashton, where, two miles out of that place, it inspected the 500-horsepower electric plant being erected together with the dam. "President Ramstedt went north in connection with matters at Spokane and Winchester. Commissioner Graham stopped over at Victor and Springs with his family." Capital News.

### DEMOCRACY CRITICISED

John Sharp Williams Democrat, Makes Cautious Remarks.

Washington, D. C., July 26.—That the Democratic party is incompetent is the statement made by Senator John Sharp Williams, of Missouri, in an address to the United States senate.

"The poor, dear, old foolish Democratic party, is going through the same game that she can generally be trusted to go through," said Senator Williams in his denunciation of the party. "You cannot govern the country. You are incompetent." Some measure of that incompetency has been referred to in the articles pointing out specific errors in the tariff bill due to inexcusable blundering. Mistakes in other laws have been discussed in more recent articles. A brief resume of these mistakes is given herewith, to be followed by other instances of other faulty legislative legislation.

No. 8. The provision contained by the Democratic congress to build up the American marine utterly failed to achieve its purpose and conferred the proposed benefit upon other competing vessels of other countries, giving to foreigners the profits from high freight rates, according to the decision of the court of customs appeals in the five per cent rebate case.

No. 9. The Democratic congress blundered in enacting a law to provide greater safety for seamen by naming two conflicting dates for the time it should take effect.

No. 10. The "war tax" law was inaccurately drawn, was not based upon correct estimates and failed to provide the money needed; necessitated expensive litigation; and adequate preparation for its enforcement was not made, causing great delay, annoyance and confusion.

No. 11. The executive branch of the administration is at war with the legislative branch, and has asked the supreme court to declare inoperative the law allowing a five per cent reduction in the tariff on goods imported in American bottoms.

No. 12. The most vital error a legislative body can make was the corporation in the "war tax" law. Congress having given two conflicting dates as to the time schedule B should begin to operate.

No. 13. Congress invited litigation over schedule B of the "war tax" law by failing to clearly express the meaning of the provision to tax "essentials" and the matter is now in the courts.

No. 14. Thousands of dollars collected from trust companies under the "war tax" law may be refunded because congress failed to make clear whether or not they are subject to the tax—a question that has been taken to the courts for determination.

### A COMMUNICATION

Follow Citizens: As citizens of this nation we have the solemn duty to advance every trade and occupation that would serve to perpetuate the government, and, on the other hand, to raise our voice against every unrighteousness that would tend to undermine it.

At the present time colossal exportations of munitions are made to the belligerent countries of the Old World. Factories in which shrapnel is made are flourishing and concerns, heretofore engaged in the manufacture of implements for peaceful pursuits, are now making deadly bombs and spearing in terms of high praise of their death-bringing qualities. Acres and acres of ground in Europe are covered with shot and shell manufactured in the United States. The average citizen, figuring with a few hundred dollars at hand, can little conceive of the magnitude of these sales running into the millions. If but two per cent of the shrapnel be effective, hundreds of thousands of young men are being slaughtered by ammunition made here.

It is said that this exportation cannot be stopped because it is not opposed to international law. International law is a flexible term. It did not mean the same thing a hundred years ago that it does today, nor will it mean the same thing a hundred years hence. But the international law does not make such prohibition, the moral law does. At present, no doubt, the moral law of the people stands on a higher plane than that of the international law, as upheld by this nation. The men and women, throughout the width and breadth of our land, whose moral sense has not been blunted by reason of the almighty dollar they wish to gain for themselves by such traffic will calmly say, "That is not right. We are not thrifting for the blood of hundreds of thousands of young men." This sale of deadly implements will not result in ultimate good for this nation. We thereby gain neither the respect nor the love of the belligerent nations. The Yellow Race is viewing this self-extinction of the White Race with no small degree of satisfaction. Neither will it do us good. What the rich wish to have done with their powder mills when the war is over? This exportation is enriching the rich and impoverishing the poor. The laboring man is getting no more of the daily bread. The gap between the rich and poor is thus daily becoming greater and the way of the downfall of our nation hastened on. Let us not go back to the old damnable principle: To sell the poor for a pair of shoes. The question now is not "What custom law precedent established with whom do we sympathize, but, is it moral for us to keep up and prolong the struggle?" Will it not be said in the great future that the American capitalist helped to prolong this dreadful carnage and the people nequ coasted to the condoning? Thousands, millions of others are doing it. The voice of the people is: "The exportation of munitions is immoral and should be stopped. Yours for righteousness, J. A. SCHLICHTING.

### ORDER TO SHOW CAUSE

Why Application for Leave to Sell Real Estate Should Not be Granted.

In the matter of the guardianship of Alfred A. Ault, and John Carroll Ault, minors.

M. G. Ripley, the guardian of the estates of Alfred A. Ault and John Carroll Ault, minors, having this day been presented to this court and filed here-in, his petition, duly verified, praying for an order of sale of certain real estate belonging to the said minors, for the causes and reasons therein set forth; and it appearing to this court from the said petition that it is necessary and would be beneficial to the said minors, that the said real estate described in said petition and the whole of it shall be sold.

It is hereby ordered that the next of kin of said minors, and all persons interested in their said estate, appear before this court in the court room thereof in the county of Twin Falls, State of Idaho, on the 13th day of August, 1915, at 10 o'clock in the forenoon of said day, to show cause why an order of sale of certain real estate belonging to the said minors, for the causes and reasons therein set forth, should not be granted. And it is hereby further ordered that a copy of this order be published at least once a week for three successive weeks in a newspaper printed and published in the county of Twin Falls, State of Idaho. Dated July 22nd, 1915.

J. M. SHANK, Probate Judge

When the mouse you cough: to be living in now is vacated unexpectedly and is for rent, you'll get the news through the classified columns.

Misses Beulah and Iva Mounce and Carl Hogan dined to Twin Falls yesterday morning to visit with their father, who is in the hospital there. Mr. and Mrs. Frank Hebel and son,

# Find "Yours"

Get all the smoke-pleasure you pay for. Find the right cigarette—a SENSIBLE one that fits your own likes and dislikes.

## It may or may not be Fatima

—but this will help you find it.

Tastes differ—in fashions, foods and pretty girls. Also in cigarettes. A cigarette that started out to please every man's taste would end up by pleasing none.

Most of us like our cigarette smoke deliciously cool and refreshing. The Mexican likes his hot and dry, with a nice little peppery sting in it.

Some men like a cigarette wholesomely, fragrantly mild. Others of us hunt for a cigarette almost as heavy as a black cigar.

Most of us want an "easy" cigarette—a SENSIBLE one, so that no matter how steadily or how many we smoke, we'll feel as fit as a fiddle. Other men, though, don't care about that. They smoke only a few—so they want a kick like a mule's in each puff.

All of us want our smoke "full-bodied"—it must satisfy that smoke-hunger. But the cigarette that just fills the bill for you may not do at all for your next-door neighbor.

Somewhere—among all the brands on the market—is the one just-right cigarette for YOU!

Maybe it's the very one you have now in your pocket—but are you SURE! Maybe it's some entirely "different" cigarette—it may or may not be Fatima.

But "find it!" Until you do, you're cheating yourself out of a whole lot of smoke-pleasure. Also you're wasting some money.

### How to Find "Yours"

To avoid blindly trying too many different cigarettes, ask yourself, first of all, this question:

"Just what do I like in a cigarette?"

If you smoke only a few every day, you may prefer a cigarette which is rather rich or heavy and "oily." Or you may like one which has a rather strong "oriental" taste with a pungency almost like perfume. Or you may want a cigarette with that noticeably "sweetish" Egyptian

flavor. But if you smoke quite often—if you would like to smoke whenever you feel like it and without any effect on the tongue or throat or any fear of a heavy or "heady" feeling afterwards—then you should choose some cigarette such as Fatima, a cigarette composed of all-pure tobaccos of considerable aroma, mellowed by being aged and carefully blended to produce a fragrant and wholesomely mild, yet "full-bodied," smoke. And the smoke must be noticeably COOL. For otherwise your tongue or your throat will soon signal you to stop smoking so often.

If you will ask any Fatima smoker, he will tell you that Fatimas never make him "feel mean"—no matter how many he smokes.

That is why Fatimas are considered the most sensible cigarette by such a large majority of smokers. And that is probably the main reason why hardly any Fatima smokers ever switch! They like a sensible cigarette—and one with a good, pure taste to it.

### But the Taste is up to You

All cigarettes are pure, but when it comes to the taste, nobody can help you choose. You simply have to decide for yourself.

Of course, Fatima's taste may not appeal to you. But most men who try Fatimas like the taste so well that they seek no further—otherwise Fatimas could never have won and held their enormous and growing leadership amounting to over one and a half BILLION cigarettes a year.

The one purpose of this advertisement is to ask you in a fair and square way to give Fatimas (20 for 15c) a good trial. If they don't happen to suit your taste, you'll quit smoking them of course. But if you like Fatimas as well as MOST men do, you'll be mighty glad you read this advertisement—and ACTED ON IT!

Below are two simple tests which you can easily make and which may help you find your sensible cigarette.

It may or may not be Fatima. But be fair to yourself and find "yours."

Liggett & Myers Tobacco Co.

Largest cigarette manufacturer in the U. S. as shown by Internal Revenue reports.

Two TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco journal—is up to the smoker. But there are other qualities that you should look for in the cigarette that you are going to smoke. Here are a couple of tests that may help the average smoker to choose more wisely between different kinds of cigarettes.

The first test is for coolness, which means more comfort to the throat and tongue. Light any cigarette. Draw in a cloud of smoke—a small, ordinary puff is not sufficient for a few seconds. Let it in your mouth against your tongue and throat. Now blow a high grade of mild tobacco leaves, combined in just the right proportion, it will always feel cool and smooth both to your throat and to your tongue.

On the other hand, if the cigarette contains inferior grades of tobacco or hidden strands of rank, oily leaf, you will find a "stinging sting" at the tip of your tongue or that "sandpaper-like" in your throat. Test number two—How do you feel after smoking all day?

If the proportion of mild grades—and if all of the various grades have been properly mellowed by age—and if they have been so blended as to bring out the best qualities in two of the different types of tobaccos, you will be able to smoke quantities in two or three times as much as you feel like it through the day without feeling any effect from it. But with an other cigarette in which the blend is less skillful, even though the tobacco is of the highest grade, you will find along towards the end of the day that you are likely to have had feeling of having "smoked too much."

Clip out these tests and try them on Fatima

FATIMA was the Only Cigarette Awarded the Grand Prize at the Panama Pacific International Exposition.

L. E. Griffith, the Haco-man drank Tuesday evening for their home in north, was a caller at the George Aud- Iowa, after a two weeks' visit with by him today. He was on route family. On Monday evening Mrs. northwestern Utah. Mrs. E. M. Anderson, of Deep Creek, her sister, Mrs. Chas. Snyder and Mrs. J. M. Chapman and son, who have been visiting for the past few days with her sister, Mrs. A. R. Hutson and family, left Monday for Gooding in the automobile and spent Monday night with friends on the Monday for a visit with his sister, Mrs. A. V. Mounce and family. Sunday afternoon Mr. Hogland was taken suddenly sick and on Monday was taken to Twin Falls where he was operated on for appendicitis. He is improving nicely at this time. They were en route to the coast where they intend visiting the fairs as well as all important coast cities. Mr. and Mrs. J. C. Gates, Miss Esther Gates, Mrs. Seward King and Mr. and Mrs. G. L. Coleman and family comprise a party who left last Saturday forenoon for an outing in the Shoshone basin. The ladies of the party went "the Ford way" and the men folks trailed along via the good old-fashioned two-horse outfit, carrying tents, cooking utensils, bedding and other impediments, paraphernalia, etc., necessary to the back-to-nature stunt. They expect to be gone about ten days.

CLARK

Edna Fleck is visiting her cousin and friends here. She is from Hazelton and expects to stay for several weeks.

Charley Huddle is the latest victim of the car fever, so they say. It isn't a "road issue," for two sports are an old tin can, or as some people call them, "a darned little Ford." It is a Buick, which he has ordered to be delivered soon.

The Oaks corner club gave an ice cream social at the home of Henry Copenhaver Sunday afternoon. A full attendance was there and a social time made a good time.

"Grandpa" Clark from Iowa, is visiting with his son and family, who live in Clark station here. Mr. Clark is on his way to the exposition in Ft. Leoco and San Diego, this being his second visit to the tract since its birth.

Mr. Quartz, the berry grower, is busy disposing of his fine crop of berries, finding a ready market for all he has to sell.

Little Charley Valentine said the other day, "Guess it's going to rain, my dog's eating grass, and it just caused thunder."

Joe Martin and his mother, and Amos Martin, his wife and Bernard, autoped up to the Basin Friday, looking after their interests. They both have cattle and sheep up there, grazing in the summer range.

Mrs. Hunt and Miss Fay, were shopping in Twin Falls last week. Farmers are cutting their second crops of alfalfa and starting "the song of the reapers in many fields." The best crops are looking especially fine.

Charley Newbery, wife and baby, were down to hear the band play in the park at Twin Falls, Thursday evening. Also Mesdames Copenhaver, Van Cleve and Miss Margaret, daughter of Mrs. Copenhaver.

Frank Wilson, wife and Kathleen, and Franklin Brown and wife autoped up to the foothills over into Nevada last week, returning home Sunday night. They report the route in the mountains terrible for car traveling and experienced half a dozen blow-outs. They camped on Big creek the first night out and here the snowmobile company had just completed a big ranch house. The cowboys gave a house warming that night and an invitation to a grand supper was served, a calf being killed and barbecued for the occasion. A better time was never had, there with these generous, free hearted citizens of the hills.

A prairie fire was also seen burning up in the Basin, and one woman and her babe being rescued only after heroic efforts of a nearest team, the fire crawling and licking up the grass to the very door of the ranch, but this house was saved after a hard fight.

Paul M. Clark and wife from Cedar Rapids, Iowa, are guests of the D. F. Clark home. They stopped off on their way to California to the fairs.

S. H. Hahn, an farmer of the outskirts of Twin Falls, was looking after his crops here last week. Also Messrs. Price and Brasfield of that place.

Bert Strain returned home from the Goose creek country, where he has been gone for a week with a bunch of chicken hawks.

Charley Shroll, wife and baby and Edna Fleck, were guests to supper at the Brown home Thursday after which they motored down to hear the band play.

George Wise, the well driller of Twin Falls, drove out to our town last week looking for well sites. He will commence a well in the David Clark place next week. Several of the farmers are planning on having wells dug. Charley Shroll having one started last Friday.

A party of young folks, including Ray Cuchran and Miss Nellie Rauch, of Twin Falls, are to see the roses at Roselaw, for which it is famous. The bungalow is a complete mass of blossoms, pink, red, white and considering the fact that Mr. and Mrs. Wilson have only taken it from the claim of the sage 6 years ago, they are deserving of considerable praise.

This bungalow is considered one of the prettiest little homes on the tract, pictures of it appearing every now and then in different county papers, showing what can be done if one tries and takes pride in the love of home.

IN THE PROBATE COURT  
Of Twin Falls County, State of Idaho,  
Before the Hon. J. M. Shank, Probate Judge.

In the matter of the estate of Clinton B. Ault, deceased, order to show cause why an order of sale of real and personal estate should not be made.

It appearing to the satisfaction of the court from the verified petition of M. G. Ripley, administrator of the estate of Clinton B. Ault, deceased, on file herein, that it is necessary, and a benefit to said estate to sell the whole of said estate of said Clinton B. Ault, deceased.

It is ordered by the court, that all persons interested in the estate of said Clinton B. Ault, deceased, appear before the Probate Court of the county of Twin Falls, State of Idaho, at the court room thereof, in said county, on the 21st day of August, 1915, at 10 o'clock in the forenoon of said day, then and there to show cause, if any they have, why an order, as prayed for in the petition, should not be granted to said petitioner to sell the whole estate both real and personal at private sale, according to the terms and conditions mentioned in said petition, and to the parties mentioned therein, for the purposes mentioned in said petition.

It is further ordered, that a copy of this order be published at least once a week for four successive weeks, in the Twin Falls Times, a newspaper printed and published in said county. Dated this 22nd day of July, 1915.

J. M. SHANK,  
Probate Judge.  
July 23-30 Aug. 6-13

A repetition of your want ad—and again if needed—may be good business sense if you're looking for work

This is a pretty good  
time to do that fixing  
up around the place  
which has been pro-  
fised to your wife for  
so long.

The lumber and the  
nails are ready at our  
yard.

Gen. State Lumber Co.

NOTICE OF SHERIFF'S SALE

Notice of Sheriff's Sale on Foreclosure of Mortgage, and Order of Sale.

Bank of Hollister, a corporation, plaintiff, vs. E. G. McKenna, Edith McKenna, and C. D. Blankenship, defendants.

UNDER AND BY VIRTUE OF an order of sale and decree of foreclosure, issued out of the District Court of the Fourth Judicial District, State of Idaho, in and for the County of Twin Falls, on the 13th day of July, 1915, in the above entitled action, wherein the Bank of Hollister, a corporation, the above named plaintiff obtained a decree against E. G. McKenna, Edith McKenna and C. D. Blankenship, defendants, on the 13th day of July, 1915, which said decree was, on the 13th day of July, 1915, recorded in Judgment Book 2 of said Court, at page 549, I am commanded to sell all that certain lot, piece or parcel of land situated in the County of Twin Falls, State of Idaho, and described as follows, to-wit:

Lot eleven (11), Block Seventy (70) of Hollister, Townsite, Twin Falls County, Idaho, together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in any way appertaining.

NOTICE GIVEN. That on the 10th day of August, 1915, at 10 o'clock a. m., of that day, in front of the Court House door in the City of Twin Falls, County of Twin Falls, Idaho, I will in obedience to said order of sale and decree of foreclosure, sell the above described property, or so much thereof as may be necessary to satisfy plaintiff's decree with interest thereon and costs, to the highest bidder for cash, lawful money of the United States.

FRANK M. KENDALL, Sheriff.  
By W. G. THOMPSON, Deputy.

Dated July 14, A. D. 1915.  
July 15-23-30.

SUMMONS

In the District Court of the Fourth Judicial District of the State of Idaho, in and for the County of Twin Falls.

Mary L. Brower, plaintiff, vs. George W. Brower, defendant.

THE STATE OF IDAHO SENDS GREETINGS to George W. Brower, defendant.

YOU ARE HEREBY SUMMONED AND Required to appear in an action brought against you by the above-named plaintiff in the said District Court and to answer the complaint of the said plaintiff, filed therein, within twenty (20) days exclusive of the day of service, after the service on you of this summons, if served within this Judicial District, or if served elsewhere within forty (40) days. That the said action is brought for the purpose of dissolving the bonds of matrimony heretofore and now existing an between yourself and the said plaintiff, upon the ground that you have failed, for a period of more than one year last past, to provide the plaintiff with the common necessities of life.

And you are hereby notified that if you fail to appear and answer said complaint as above required, the said plaintiff will apply to the court for the relief demanded in her complaint on file in the said cause.

Attest my hand and the seal of the District Court of the Fourth Judicial District of the state of Idaho, in and for the county of Twin Falls, this 23rd day of June, 1915.

By H. H. COGGINS, Deputy.  
E. V. Larson, attorney for the plaintiff, Twin Falls, Idaho.

### MEDLEY ON BRIDGE

Edon Man, Who Investigated Matter Gives Interesting Data.

On Wednesday of last week W. B. Medley, of Edon, was in Hansen and made several statements regarding the settlement there is on the north side in favor of the Hansen bridge and the work that is being done there to bring about its construction. Mr. Medley spoke with authority for he is a member of the association appointed on the north side segregation to investigate the condition of the canals there and the work that is being given to the water users, and in connection with those duties he visits every farmer on the tract. He finds that since the publication of the guaranteed estimate of the high bridge the talk is entirely in favor of the Hansen bridge, and the farmers state that they have favored this bridge all along if it can be constructed at the reasonable figure of less than \$300,000 to each side. Authority for the Hansen bridge is being secured for the farmers here since reason to credit the prejudiced guess of an inexperienced engineer over a guaranteed estimate of a reliable bridge company, whose business it is not to make estimates but to stand behind those estimates with enduring structures. Mr. Medley has been in this country since the earliest settlement and has heard a constant demand for a rim-to-rim bridge. A grade bridge has not been mentioned in the summer of 1914, and it is not likely to be mentioned in the future. It is not merely a bridge that north sides want; they want a place to cross where they can haul a load of grain, logs or any other commodity they wish to sell. And how much of a load could they haul up and down a three hundred foot grade? Their present loading station is around the skeleton bridge. Now suppose a bridge with the grades was put in, what would be the difference between selling up and down those grades and pulling around the skeleton bridge? Would there be any inducement to haul this way? Mr. Medley says the people over there and that those who favor the other site are the five percent who have laid right at the other crossings, and who put their selfish interests above the good of the majority. Those people helped spread the tale of the high cost of the Hansen bridge and when the guarantee came out they were discredited and their motives laid bare.

The people of that highway district are now working as a whole to make their share of the cost available, and are looking to Twin Falls county to meet their half way. They are having weekly meetings to discuss bridge matters, and are taking steps to bring about a bond vote on the Hansen rim-to-rim bridge. Mr. Medley declares this vote will carry by a good majority, as the need and demand for the high bridge is so great. They have been watching with interest the growing favor which the high bridge is gaining on the south-side, and hope to see the decision definitely made in favor of the Hansen bridge. Already there have been some options taken

on north side real estate which are dependent upon the success of the Hansen bridge for the closing.—Kimberly Call.

### SOCIETY NOTES

Society items for this column will be gladly received by The Times.

The Wednesday Auction Bridge club met Wednesday Mrs. L. E. Morse and Mrs. A. P. Schlar captured the prize Mrs. Green received the guest's prize.

Mrs. Sherman was hostess to the Cozy 500 club Wednesday afternoon at the home of Mrs. F. R. Cox. The prize for high score was won by Mrs. Moore.

The Mothers' Surprise club met last Wednesday with Mrs. Jackle. Following an enjoyable program the hostess served delicious refreshments. The next meeting of the club will be with Mrs. Earl Bryant.

Miss Margaret Means, of Lewiston, Ida., was the guest of honor at a pretty reception given by the Misses Helen and Catherine Pilegrim Tuesday, July 20th. About fifty guests gathered during the afternoon. The hostesses were assisted by Misses Grace Bolger, Lesley Williams, Frances Bolger and Burt Wall.

Mrs. C. H. Robbins very pleasantly entertained her Sunday School class Wednesday evening at a very nice party. Refreshments were served. The affair was given as a reward of merit for perfect attendance and covers were laid for Misses Truth Milner, Mattie Gorral, Ada Avant, Winifred Spouner, Anna Hudson, Frances Ripley, Olive Smith and Catherine McCannous.

Honoring Keith Ferguson, Mr. and Mrs. J. B. Ferguson delightfully entertained Wednesday evening at a "Cabaret" dance. The affair was of purely cabaret style in every detail and music was furnished by Friedman's orchestra. Songs were sung by Wilton Peck, also clever magic stunts were performed by the magician at the Orpheum theatre. After enjoying the entertainers, the party repaired to the lawn where they found tables set with the aid of candle light. A party of a dainty three-course luncheon. Dancing was again resumed and continued until the wee small hours. Present to enjoy this unique affair were Misses Margaret Wilson, Burt Wall, Vesta Thomas, Lesley Williams, Fern Costello, Fannie Hart, Margaret Conway, Mary Goodall, Beatrice Ostrander, Dorothy West, Measrs. C. Simpson, Wilton Peck, T. McDermot, Johnson, Whitehead, D. Gardner, Cass Fargo, H. Flintoff, T. Cummings, K. Ferguson and Mr. and Mrs. Edward Walker.

A repetition of your want ad. in the course of your quest for a cook, may be good policy.

### U. S. WILL INCREASE MILITIA

Wilson, Garrison and Daniels to Solve Problem of National Defense.

Washington, D. C., July 27.—Pending President Wilson's return from Corinish, N. H., when he will formulate with Secretary Garrison and Secretary Daniels what the White House has announced would be a sane, reasonable and practical program of national defense, army and navy officers are busy assembling the information upon which the new military policy will be founded.

So announcements have been made as to what the army and navy have at work on the needs of the respective services have concluded, but it is definitely known that navy plans contain-

naval zone, Hawaii and Philippines, Alaska and Porto Rico, will be considered separately. Army figures arrived at in these studies and from the ratio of regulars to militia in the first line army will be derived the recommendations to be urged for any increase in the standing army.

Great attention will be given to fully presenting to the president the material problem. Army officers hold that, simple equipment of field guns, rifles, machine guns and heavy field ordnance must be prepared in advance.

### FOR TRADE

FOR TRADE—Twin Falls lots for horses. For particulars, write "V. X. N. 2" care T. F. Times, July 30 Aug. 3-6-10-13-17

### LATERAL IS BEING FENCED

Eighth Avenue Ditch Enclosed With Stout Wire

The city under the direction of Street Commissioner Porter is this week completing the work of fencing off the eighth avenue ditch, so that the children of the section will be amply protected. While the fencing is not so inconspicuous as it could be wished, it will serve the purpose until the time for permanent covering.

It is not hard to understand the popularity of the pigpen day cafeteria after one becomes accustomed to taking his meals in one. It is difficult to visualize the prized bill of fare in the average restaurant, and one never knows what he is getting until the waiter serves it.

But in the cafeteria all the food is displayed right before you, and you can make your choice of your meal intelligently.

Thompson's Cafeteria, on south Shoshone St., has as good service as is to be found in the city, and the prices are reasonable.—Adv. July 30.

When the finest home-buying chance in years is open to you, you'll get the news in the "Real Estate For Sale" ads.

plate a big increase in submarines, the building of thirty and perhaps fifty being recommended; that several battle cruisers will be urged and at least four dreadnoughts, and that a big increase in the auxiliary fleet and in navy aircraft will be sought. Several additional small navy yards to serve as submarine bases will also be suggested. It is thought.

Such a program would carry with it a necessary increase in the navy personnel and probably the enlargement of the naval academy at Annapolis, where many officers are trained. Army plans look to the building up of an army of 500,000 men, regulars and militia, within territorial United States.

To make the plan efficient it is believed some scheme to federalize the militia will be advanced; and also that methods of building up reserves for both the regulars and militia will be proposed.

This general plan contemplates, it is understood, only the mobile forces. The coast artillery, garrisons for the
