

SHERIFF ARRESTS. HORSE THIEF

Arrest Made in Raft River Valley.

THIEF OF NEVADA LIVE STOCK TRADED BY SHERIFF KENDALL

Alleged Hunter by Name of Adams, Taken Back to Elko County to Stand Trial.

A clever bit of detective work was done by Sheriff Frank Kendall and Deputy Sheriff W. G. Thompson last week as the result a man by the name of Adams with fifteen head of horses has been taken back to Elko Nevada, the man to stand trial for the alleged theft of the stock and horses to be turned over to their rightful owner.

MORE CHOLERA AMONG HOGS

New Outbreaks in Widely Separated Sections of Project.

Hog cholera has again broken out in several widely separated sections of the project. The disease was found the first of the week by Dr. Henderson and his associates in the herd on the "Big" farm at Arthur Miller's farm.

ALSINK THIEVES AT WORK

Taking Seed From Kimberly Fields After Threshing.

Thieves are invading the alkali fields owned by Kimberly and stealing the precious seed after it has been threshed. From one to five sacks each worth in the neighborhood of fifteen dollars, have disappeared from fields.

WHEAT DESTROYED BY FIRE

Five Hundred Bushels Burned Near Buhl.

More than 500 bushels of wheat in the shock was destroyed in the field of George C. Watt, near Buhl, Thursday afternoon by fire from an engine of the afternoon Oregon Short Line passenger. The fire started in several places after the train had passed and was with the utmost exertions of Mr. Watt that the flames were confined to about one-third of the field—Buhl Pioneer.

NOT IN SAME CLASS

Halley Ball Players Made Poor Showing Here Sunday Afternoon.

That the ball team from Halley is not in the same class with the Twin Falls Commercial, was shown Sunday afternoon, when a one-sided game was played at the ballpark. The visitors were shut out to the tune of six to nothing. The team from the Wood River city, claimed that it was not in good condition, as the long auto trip had tired the players out.

WITHDRAWS REQUEST

Great Shoshone Company Will Not Raise Heating Rates.

The utilities commission formally issued its order today permitting withdrawal of the application of the Great Shoshone & Twin Falls Water Power company to increase its rates for electricity for heating. The order follows: "It is ordered that the request of the Great Shoshone & Twin Falls Water Power company for an increase in the rates for electricity used for all classes of heating services by means of electric air heaters, or by means of steam or hot air heating plants or similar appliances used for such purposes be and the same is hereby granted, and that the above entitled cause be, and the same is, hereby dismissed."—Capital News.

ATTEND BANQUET AT SHOSHONE

Congressman Smith Will Speak at Banquet of Methodist Church.

Congressman Addison T. Smith is in Shoshone to attend a banquet to be given by the members of the Methodist church of the junction town. The banquet is given in honor of the raising of the debt from the church building. Besides Mr. Smith, Senator W. E. Bailey will be one of the speakers at the dinner.

LOOKING AFTER PROPERTY

Mr. and Mrs. Hoy W. Hanna Just Back From Germany.

Mr. and Mrs. Hoy W. Hanna arrived in Twin Falls Monday and will be here for some time, while Mr. Hanna is looking after his property interests here and on the North Side. Mr. and Mrs. Hanna returned in July from Germany where Mr. Hanna is superintendent of a factory, the main place of business being in the east. The spouses were compelled to stop down of the work in Germany, so they will remain in the United States until the trouble in Europe is settled.

ARRESTED FOR CHANGING BRAND

Bud Lewis and Orville Johnson Alleged to Have Deified Brands.

Deputy Sheriff W. G. Thompson and Special Deputy V. H. Ormsby made a trip to the western part of the county the last of the week to arrest Bud Lewis and Orville Johnson, who are charged by the name of Lewis and Johnson with changing the brand of several horses of which he is the owner. The men were brought to this city, where they are being held to await their preliminary hearing, which will take place before Probate Judge J. M. Shank, Wednesday or Thursday of this week.

Bushel Baskets of Elberta Peaches

At all stores or orchard 1 1/2 miles north and 2 miles west from northwest corner of Twin Falls. Larger crop this year than ever before. Ready about Sept. 7th. It pays to wait as it requires less sugar, in cool weather. Prices in reach of everybody. BAIKCH ORCHARDS.

SCHOOL WORK OUTLINED

Superintendent Blue Makes Plans For Increased Enrollment.

Thirty-seven Instructors Employed For Entire School System. One Rural Wagon Added to Equipment.

The school year of 1915-16 will open Monday morning, September 6. The first week will be given over to the annual Teachers' Joint Institute which will be held in the high school building and in which the teachers are required to attend. The school work will actually begin Monday morning, September 13. The first day of elementary grades and the high school will be definitely organized. The first day—Monday, September 13—will be given over largely to enrolling, classifying and organizing.

The following is a list of the teachers and their building and grade or subject assignments:—These assignments are, in a measure, tentative and may be changed at the discretion of the superintendent. High school: C. H. Downman, principal; M. C. Mitchell, history and economics; Gary Benson, mathematics; Helen Porter, English; Grace Hartman, English; Jane Hobbs, history; Florence Sharp, Latin; Walton B. Clark, chemistry and physics; L. C. Angel, general science and biology; Ira T. Brown, manual training; Naomi Schorn, commercial; Grace Butolph, German; Mary McGib, mathematics; Ruth Letts, English; Mary T. Hunt, domestic science; Gladys D. Coulter, English and history; Pauline Platt, English; Louise Calver, French; E. J. Lauranson, commercial and general science; R. H. Musser, agriculture. Lincoln school: Elizabeth M. Stowell, principal; Clara Osbott, arithmetic and geography; Elizabeth Powers, reading and penmanship; Myrtle Hulth, history, civics and physiology; Clara Peterson, grammar and writing; Cornelia Fraser, sixth grade; Edna Welch, sixth grade; Georgia Coulter, seventh grade; Zula Ballenger, fifth grade; Elizabeth Trebbe, fifth grade; Elizabeth Hamilton, fourth grade; Christine Hemmingson, fourth grade; Ruth Hewett, sixth grade; Marie Metz, sixth grade; Frances Adams, fifth grade; Edith Draper, fifth grade; Margaret Grove, fourth and fifth grades; Martha Snyder, fourth grade; Helva Worsan, first grade; Grace Franck, third and fourth grades; Katherine Kautz, third grade; Lucille Wolfe, second and third grade; Margaret Williams, second grade; Nina C. Strable, second grade; Sonja Faris, first grade.

Elementary grades, H. S. Smith, principal; Helva Worsan, first grade; Lucille Wolfe, second grade; Nina C. Strable, second grade; Sonja Faris, first grade. The following is an interesting item of comparison between the school year 1913-14 and the school year 1914-15, relative to teachers leaving the service of the Twin Falls school. At the close of the school year of 1913-14, 21 teachers withdrew from the Twin Falls schools. Some withdrew to be employed in other parts of the county elsewhere, and others to live elsewhere. At the close of the school year 1914-15, 19 teachers withdrew upon the request of the following: 12 withdrew to be married, 7 to accept better positions elsewhere, 1 to live on the coast, 2 gave no reason. 2 because of reduction in salary, 1 to rest a year and 1 because of non-employment. This is in every way a most favorable comparison with the preceding school year. Of these 19, 13 withdrawals at the close of last year as compared with 21 of the previous year reflects most favorably upon the stability of the local teaching force. In recognition of the splendid work rendered in the local schools, the Board of Education acted favorably upon the request of the following teachers for leaves of absence until (Continued on Page 4.)

MCCOLLUM BLOCK BURNED

Frame Structure and Business Stocks Damaged.

The McCollum building on Main avenue south in the heart of the business district, was practically gutted by fire early this morning and the McCornick building adjoining, somewhat damaged. The fire was finally controlled by the fire department. The stocks and fixtures of the New York Candy Kitchen and H. O. Wilson, the tailor, were completely damaged, while the clothing stock of Straus & Glauber in the McCornick building, was damaged by smoke and water, the whole interior being filled with a dense smoke which came through the hole burned in the side next to the flames. The fire started Tuesday afternoon at 10:15. The alarm was turned in at one twenty, this morning and was not generally known by the business men of the city until standing to their places of business. The New York Candy Kitchen was insured for seven hundred dollars, but had no insurance. Straus & Glauber had about \$18,000 insurance on stock and fixtures, but had not placed any on the building. The Board of Fire Commissioners, Mr. McCollum had some insurance on the building. The Booth Mercantile company had stock in the city and were at one time the headquarters of the First National bank and the Twin Falls Bank & Trust company. The two buildings involved in the damage are among the oldest in the city and were at one time the headquarters of the First National bank and the Twin Falls Bank & Trust company.

NEW CLASSIFICATION

Postoffice Department Makes New Rate For Parcel Post.

Commencing September 1st, the postoffice department will package a new rate on parcel post packages. The rate is to cover the first and second zones where the third zone rate will apply. This is done by the department where the distance by air line is not short, but by star route or railway, the distance very long. From Twin Falls, Idaho; unit No. 4763. Idaho: Arbon, Black Pine, Bonanza, Bust, Cedarhill, Clayton, Crystal, Curlew, Custer, Ellis, Glimmer, Glen, Halbrook, Junction, Juniper, Leader, Lehigh, Marshall, Mayfield, Mayfield, Nelson, Pauline, Roseville, Stanley, Streetville, Tule, Yellow Jacket. Nevada: Arbon, Arbon, Arbon, Buhl, Cedarhill, Clayton, Crystal, Curlew, Custer, Ellis, Glimmer, Glen, Halbrook, Junction, Juniper, Leader, Lehigh, Marshall, Mayfield, Mayfield, Nelson, Pauline, Roseville, Stanley, Streetville, Tule, Yellow Jacket. Nevada: Arbon, Arbon, Arbon, Buhl, Cedarhill, Clayton, Crystal, Curlew, Custer, Ellis, Glimmer, Glen, Halbrook, Junction, Juniper, Leader, Lehigh, Marshall, Mayfield, Mayfield, Nelson, Pauline, Roseville, Stanley, Streetville, Tule, Yellow Jacket. Utah: Belle, Elm, Dreese Creek, Joseph, Lander, Park Valley, Rosette, Wendover, Vest. Wyoming: Auburn, Elm, Freedom, Thayne. Oregon: Jordan Valley.

STATE TENNIS TOURNAMENT

Invitation Issued to All Players to Participate.

State tennis tournament to be held in Boise beginning Labor day. Under the auspices of the Y. M. C. A. and Y. W. C. A. Entries are open to all residents of Idaho. The games will be played off on the Y. M. C. A. and Y. W. C. A. courts. The events will be: Men's singles, men's doubles, ladies' singles, ladies' doubles and mixed doubles. The fees for entering the tournament will be: Men's singles, \$1.50; ladies' singles, -1.00; mixed doubles, \$1.50; men's doubles, \$2.00 (for two); ladies' doubles, \$1.50. Fees must accompany all entries. E. A. EHRENBERGER, Chairman, Publicity Committee.

MOVED TO NEW BUILDING

Twin Falls Conservatory of Music Occupies New Quarters on N. Main.

The first of the week the Twin Falls Conservatory of Music moved to their fine, new quarters in the new building on N. Main, which will be occupied by the Model Shoe store, on Main avenue north. The Conservatory will be fitted up in the same style for the opening of the fall term.

POCATELLO MAN ARRESTED

Alleged to Have Deserted His Wife in the Gate City.

On a telephone request from the chief of police at Pocatello, Chief of Police William Taylor, arrested Ray Thomas Monday, who is said to have deserted in the Gate City for wife desertion. An officer arrived from Pocatello Tuesday and took the man back with him to the same evening.

MANY TEACHERS HERE NEXT WEEK

Annual Institute For Five Counties Begins Monday.

PROGRAM CONTAINS MANY NOTABLE ADDRESSES

Supl. H. G. Bluo In Charge of Institute Secures Noted Educator from Boston, Mass.

The annual teachers institute for five counties of Twin Falls, Cassia, Lincoln, Gooding and Minidoka, will convene in this city next week, when it is expected that over four hundred instructors will spend the week in the city. Superintendent Hine of the local schools, will have charge of the institute and has arranged a splendid program of helpful topics for the week. In particular is this institute fortunate in securing the presence of Mr. H. G. Bluo, of Boston, who will give a number of addresses on various forms of school endeavor. One feature of the program which Mr. Bluo desires to call to the attention of the people of this city, is that of the evening programs, consisting of musical numbers and well chosen lectures by Dr. Hovarty and Dr. Hall-Quest. The town people are invited to attend these evening lectures. The program for the week follows: Monday, September 6th. 9:30 a. m. Enrollment of teachers by counties. 10:45 a. m. General session. Dr. Hovarty, "The Ideal Teacher." 1:15 p. m. The school session. Dr. Hovarty, "The Art of Teaching." 2:00 p. m. Rest. 2:30 p. m. Departmental sessions. High school, room 21. "The Art of Supervised Study—Teaching Children to Study and to Think." Dr. Hall-Quest. Intermediate and Grammar, room 12. "Illustrative Language Lesson in Intermediate Grades." Dr. McMurtry. Rural, room 18. "The Modern Department of Our Public Schools." Prof. Werner. Primary, room 11. "The Three R's Versus The New Thought in Education." Mrs. W. H. Thomsen. 3:00 p. m. Personal conferences. Special sessions, music, room 11. "Primary Grade Methods." Mrs. Pauline Anderson, room 2. "Drawing." Prof. Smith. Palmer Penmanship, room 15. "General Methods and Practice." Prof. Von Court. 3:45 p. m. Roll call. Tuesday, September 7th. 8:15 a. m. Special sessions, Music, room 11. "Primary Grade Methods." Mrs. W. H. Thomsen. Art and Design, room 2. "Construction Work." Prof. Smith. Palmer Penmanship, room 15. "General Grade Methods." Prof. Von Court. 9:00 a. m. General session. Dr. Hovarty, "The Secret of Success in Teaching." 10:00 a. m. Rest. 10:10 a. m. Departmental sessions. Superintendents and Principals, room 22. "The School and Community Survey." Dr. Hovarty. High school, room 21. "Methods of Studying—Use of Books, Note Books and Outlines." Dr. Hall-Quest. Intermediate and Grammar, room (Continued on Page 4.)

"THE DIAMOND FROM THE SKY"

Chapter Eight Now Running at the Orpheum Theatre.

Chapter Eight of "The Diamond From the Sky" is now running at the Orpheum theatre. The continued popularity of this story is the result of all the theatre going public of Twin Falls. The eighth chapter is entitled "A Mind in the Past" and is one of the best of the series so far produced. Don't fail to read the story in the Friday issue of the Times.

If I spend my Dollars out of Twin Falls and you spend your Dollars out of Twin Falls, and all the People spend their Dollars out of Twin Falls, WHAT IN THE THUNDER WILL BECOME OF TWIN FALLS?

THINK ABOUT IT

Twin Falls Commercial Club

The road Simon-pure, dead, dyed in the road... The withdrawal of the applications for raise in heating rates by the Great Shoshone Power company, was a wise move in the face of the manifest disapproval shown by the numerous consumers in Southern Idaho.

Twin Falls has been extremely fortunate in the fires which have occurred in the past three months in having no serious conflagrations. The numerous frame buildings inter-mixed with substantial brick blocks in the business district present a peculiar problem in fire fighting.

The withdrawal of the applications for raise in heating rates by the Great Shoshone Power company, was a wise move in the face of the manifest disapproval shown by the numerous consumers in Southern Idaho. It also shows that the Public Utilities Commission is doing a vast amount of good in discouraging excessive rates among all utilities.

LOYALTY TO WHAT NATION?

The Times has a peculiar circumstance confronting it this week in the action of a hypothetical German-American citizen, who stopped his pen because he did not like a certain war editorial. This man stated that the Times had no right to criticize Germany.

Did this man among the countless numbers who have come from foreign shores, leave the land of his nativity with the purpose of making a fortune and then returning, or did he with the rest fully intend to become a part of the Great Republic. Upon these pertinent questions rest the basis of American government.

It is a matter of vital interest and bringing it up the Times has nothing but good will toward the man who thus sought to show his disapproval with no thought of what his own action indicated to the rest of his fellow citizens.

KNOW THY COUNTRY

III—Telegraph and Telephone

Our transportation facilities are the most perfect product of this great commercial age and the telegraph and telephone systems of this nation crown the industrial achievements of the whole world.

They are of American nativity and while warm from the mind of the inventive genius have, under American supervision, spun a network of wires across the earth and under the seas.

No industry in the history of the world has ever made such rapid strides in development and usefulness, and none has ever exerted a more powerful influence upon the civilization of its age.

The industry was peculiarly fortunate in having powerful inventive intellect at its source and tremendous means to direct the organization and growth. It is the most perfect fruit of the tree of American industry.

Ambitious youth can find no more in which he has now become a part through his sworn oath. His place is not in America, but on the firing line in Europe, striving to uphold the country which has his affections.

THE WOOING OF BULGARIA

The Russian collapse has rendered the intervention of the Balkan powers a matter of great moment to the Allies. We are told that the forcing of the Dardanelles is of vital importance for without the possibility of passing arms and ammunition through the strait the recovery of Russia is likely to be delayed until her assistance will be too late to be of service.

The diplomatic situation is formed of three elements: hatred of Serbia, lack of credit of the actual diplomat, and failure to perceive the vast horizon opening out in the East.

It is to be hoped that he did it without any mental reservation about the Fatherland which would this man do in case of war with Germany? It is a fair question that he should ask himself in a quiet analysis of his own mind.

It is a matter of vital interest and bringing it up the Times has nothing but good will toward the man who thus sought to show his disapproval with no thought of what his own action indicated to the rest of his fellow citizens.

A brief statistical review of the industry brings out its growth and magnitude in a most convincing and unforgettable manner. The telephone service of the United States is the most popular and efficient and its rates are the cheapest of the telephone systems of the world.

We are the greatest talkers on earth. We send 60 per cent of our communications over the telephone. The world has about 16,000,000 telephones and of this number the United States has approximately 2,500,000.

The total world wire telephone mileage is 33,203,000 miles divided as follows: United States, 20,245,000; Europe, 10,335,000; and other countries, 2,623,000.

The annual telephone conversations total 24,600,000 divided as follows: United States, 15,600,000; Europe, 6,800,000, and other countries, 2,200,000. The total world wire telephone mileage is 33,203,000 miles divided as follows: United States, 20,245,000; Europe, 10,335,000; and other countries, 2,623,000.

Those who have "arrived" are as likely to need an emergency or opportunity fund as are their employees. Any business man, personally, may have need of a little extra private capital some day, available in cash, outside of his business, unknown to others and ready for any call.

Build a personal reserve. Have a business reserve, too. Don't argue that you can use your money to better advantage in your business. A reserve may be your financial salvation some day.

You will never earn enough money to spend all you want to before you begin to save anything.

with themselves is as follows:

WILL become a "WEEKLY Saver" and will deposit \$..... every week for at least 52 weeks to my credit in a savings account at the bank.

This seems like a very good idea. The object of the plan is threefold— 1. To demonstrate to depositors that in a year they can make 52 regular weekly deposits of at least a certain sum—no matter how small.

2. To show them that by adhering to their resolution for 52 weeks they form a habit, through which it will be easier for them to keep on saving than to stop.

3. To acquire a cash capital with which to grasp opportunity, realize an ambition or be ready for sudden and unusual expenses.

The advantages of such a method of building up a reserve fund are brought out, by implication, in the words of a banker in the Lemport Valley of California, who says:

"The last two years, particularly the last one, have been what we call 'short' years in this valley. The rainfall was below the average and consequently the crops were short. For several years previous to 1912 our crops were exceptionally good, and everyone seemed to feel that it was making money and that this condition would continue indefinitely, instead of paying off their mortgages and other indebtedness, a great many added to their land holdings, bought automobiles, etc., and when the short years came they were unprepared."

A systematic method of saving is of benefit not only to farmers, wage-earners and satisfied persons, but business men would do well to consider it seriously as a plan to build up reserve capital.

Those who have "arrived" are as likely to need an emergency or opportunity fund as are their employees. Any business man, personally, may have need of a little extra private capital some day, available in cash, outside of his business, unknown to others and ready for any call.

Build a personal reserve. Have a business reserve, too. Don't argue that you can use your money to better advantage in your business. A reserve may be your financial salvation some day.

You will never earn enough money to spend all you want to before you begin to save anything.

FILER NEWS

(From the "Star Journal") A boy was born Tuesday to Mr. and Mrs. Bert Amari.

Scott and Chas. McCherry are in Idaho this week taking in the Round-up.

Larry Hanover and Mr. Wetzel left last evening for South Dakota to attend the annual meeting of the Beaver Millers left Tuesday for Lava Hot Springs where he will take a position in a garage.

Miss Miff spent Sunday with Filer friends. She will accompany her parents to conference next week.

Rev. Mr. Parker, of Twin Falls, the district superintendent of the M. E. church delivered a very fine sermon here Sunday.

Mrs. E. A. Reynolds was taken to the hospital at Twin Falls last week for an operation. She is doing nicely at this writing.

The Filer ball team will play the M. E. church on Sunday. A good attendance will doubtless be present as a good game is a certainty.

Art Boehm returned from the Filer camp on Sunday. He is doing nicely with his cousin, Miss Guff, and Miss Roof and Mrs. Mesole.

Shant's Bros. owned by Franklin & Cooper, of Harlan, Iowa, this week.

The Old Fellows will hold a picnic at the Filer camp on Sunday, Sept. 2nd at 2 o'clock. All Old Fellows and their families are expected to be present with well filled baskets.

H. R. Combs has joined the Doolley ranch for the present and will move there at once. Mr. Combs will be in charge of the ranch and will probably move to Twin Falls here he will be closer to his work on the Doolley proposition.

Miss Roof is visiting friends in Salt Lake this week.

E. C. Gray has bought Hammerquist's Apperson six.

Wm. Matthews has sold his pool hall to C. C. Small.

The bank has sold its 160 acres.

Fall Silks and Dress Goods

Never before have we shown such a complete line of Fall Silks and Woolen Dress Goods. Don't overlook this display—come and we'll be glad to show you all the new weaves.

Silks from 50c to \$3.50 yd.

Dainty new silks in taffetas, in plain colors also plaids, satin stripe taffetas, crepe de chine, crepe fancy, georgette crepe, messalines, and satin finish eye silks, in plaids, etc. Poppins, marquisette nets in dainty shades, in fact every desirable new silk is shown.

PORTLAND MARKET REPORT

Portland, Aug. 24, 1915. The receipts for Monday are: Cattle, 1124 calves, 2; hogs, 2081; sheep, 1534.

Cattle. Eleven hundred cattle opened the market Monday morning. All offerings were quickly taken by the packers.

Two thousand hogs were received over the unloading chute today. Some very good loads of hogs went at \$7.50 for tops. This price was 5c over last week's close. A few hogs sold at \$7.50.

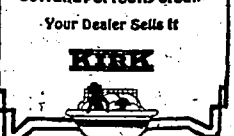

Only a handful of about 100 sheep were in the sales pens. The lamb market especially has shown good strength. They readily sold up to \$6.00.

The following sales are representative: 25 Steers.....1081 \$7.00 261292 6.75 271111 6.65 281234 6.50 6 Cows.....1022 5.50 361150 6.25 2 Stags.....1133 4.75 1 Bull.....1450 6.50 221 Hogs.....218 7.50 -96132 7.50 178172 7.40 100176 7.50 116 Lamb.....70 4.50 13471 6.25 3 Year.....100 5.50 51 Bull.....100 6.50 O. M. LUMBER, Stock & Team Portland Union Stock Yard

Save Time! Most toilet and bath soaps must be rubbed and rubbed to get a lather, particularly when the water is hard.

KIRK'S JAP ROSE SOAP lathers instantly and freely in hard or soft water, rinses away like magic, leaving the skin soft and perfectly clean.

TWIN FALLS BANK & TRUST COMPANY
TWIN FALLS, IDAHO

TWIN FALLS' LABORERS

You are lucky to live where there is as much work as there is here. If you have a job now, save as much of your wages as you can to help carry you through a time when work may be harder to get.

Every time you are paid, take out some of the money at once to deposit in a savings bank account at this safe State bank where it will draw interest and be always ready for you when you need it.

OPINIONS AND SUGGESTIONS

Member of Interstate Commission Makes Interesting Report.

Chicago, Aug. 25.—The "Supplemental Opinion and Suggestions" of S. Thumston, industrial expert in public here today in connection with the reports of the United States Commission on Industrial Relations. In addition to other things says: "The commission shall seek to discover the underlying causes of dissatisfaction in the industrial situation and report its conclusions thereon."

The causes of industrial unrest may be put under five main groups:

"First—Low wages.

"Second—Unemployment, through seasonal occupations, periods of depression, accidents and sickness.

"Third—The development of large industries.

"Fourth—Long working hours and insanitary conditions.

"Fifth—Unsatisfactory rural conditions.

"I will analyze each of these groups separately.

"First—Low wages with all the attendant evils. I consider the prime cause for industrial unrest.

"One of the chief factors in the wage depression is undoubtedly the encouragement of unskilled and untrained immigration, which has brought to our shores millions of unskilled workers in the last few years. These immigrants come from various countries where vastly lower wage rates prevail, develop in America a wage competition of which the employer naturally takes advantage.

"The European war will probably relieve this immigration situation for the next few years, but it is a question to which our government must give serious consideration in the near future.

"Inefficiency of the unskilled laborer is also a contributory cause of low wages. The average education for work is irresponsible and untrained.

"With all our vaunted free school system, our industrial education is deplorable. In our large cities, they are beginning to consider the question seriously, but our rural schools are inefficient and untrained. This inefficiency, which tends to lower the whole standard, can be corrected only through improved educational facilities.

"Government assistance should be given to aid in the establishment of vocational, trade and continuation schools, as part of our public school system.

"The gravitation of industries into large units has caused the skilled worker to be supplanted by the unskilled, who occupies merely a cog in the wheel of the great machine, performing the monotonous duties that anyone could easily do after a few weeks practice.

"The wages of the unskilled laborer are so pitifully small that it is almost impossible for him to maintain a family even with the most rigid economy.

"I suggest as the only remedy for low wages due to these conditions, the enactment of a national minimum wage law.

"Second—Under the second cause of industrial unrest—unemployment—we have seasons of idleness, such as for example, ice cutting and logging in winter, harvesting and fruit picking in summer.

"This problem will always be with us, and should be dealt with through an efficient system of national employment agencies, to be administered by the federal government.

"Private employment agencies have proved inadequate, have even in many cases been used to exploit the worker. I, therefore, recommend that all employment agencies be managed by the government.

"We have also unemployment due to periods of depression. The federal employment agencies would take care of these cases, bringing, when possible the man and the job together, but in periods of long depression, when no work is to be found, government, state and municipal work, which had been held in reserve for this purpose, should then be provided.

"Should all these resources be exhausted and there still remain unemployed workers, there should be government concentration camps where work with a small wage would be provided, supplemented by agricultural and industrial training.

"The fear of unemployment because of accident or illness fosters a feeling of discontent which tends to cause industrial unrest.

"Workmen's compensation laws and sickness insurance, with proper restrictions, would be the proper correctives here.

"Workmen's compensation laws thus far developed protect the man only when accident occurs during working hours, and this is paid for entirely by the employer. If an accident occurs causing injury to a man just before entering his work place the consequent loss to his family is as great as though he had been hurt five minutes later within the factory walls, and yet he receives nothing.

"I therefore, recommend that the workmen's compensation act should provide insurance against accident, wherever, and whenever caused. This insurance, however, should be paid by the man himself, his employer and the government jointly. The same idea should apply also to sickness insurance.

"The worker himself should feel these responsibilities and should always share the expense of such insurance.

"We have as the third cause for industrial unrest, the development of large industries with their ownership in a few hands. If properly controlled, is an economic benefit, but the very size makes coordination between the employers and workers. There is no direct personal contact, hence a lack of sympathy and understanding.

"Write a few cents per day in the wage of the individual workman means hundreds of thousands of dollars annually to the business, and where there are so many units that the man cannot be replaced by another to maintain the cost of production at the lowest possible point,

the natural tendency is to depress the wage.

"As to the remedy, I would suggest that all corporations doing interstate business be required to take out a national charter that will contain certain responsibilities, and possibly grant certain immunities from state control.

"This charter should not allow over capitalization. Each board of directors in addition to its other committees, should have a labor committee; whose duty it should be to be acquainted with the general conditions of the business, and make regular reports thereon to the board. These reports should be published with the financial and other reports and thus give the stockholders a thorough understanding of the business.

"Long working hours and insanitary conditions are additional factors in the problem of industrial unrest. Nothing affects the man's physical well being and consequently his earning power, more than these.

"The remedy will be found in publicity and legislation, with factory inspection by competent government officers.

"Personal experience for a number of years convinces me that in continuous occupation, workmen will do more work in a year than in an eight hour basis than on twelve, and that one day in seven for rest must be allowed if the man is to develop the fullest degree of efficiency.

"I, therefore, favor a national eight hour law for continuous labor.

"Sanitary conditions of work I have found to be a paying proposition to the employer, as well as just and beneficial to the worker.

"Unsatisfactory rural conditions:

"I view with real concern the fact that our small landowners are becoming tenants, while the small farms are passing into the hands of a few.

"Everything possible should be done to aid and encourage our farmers. The United States government should see to it that the proper distribution of our agricultural products, and for a rural credit system, as it is practiced today in some foreign countries.

"Unsatisfactory rural conditions which make it difficult for the small farmer to earn a decent livelihood for his family, cause many poorly equipped young men and women to flock to the cities. As a rule, they are thoroughly inefficient and lamentably ignorant of the conditions of city life and are rarely able to earn a living wage.

"Life on the farm should be made sufficiently attractive and lucrative to induce these boys and girls to remain there. This can be done only through our rural schools, which are now most inadequate.

"The education of country children must fit them for country life. No grade of the beautiful, no patriotic literature in his country for his education can be felt by the child who spends weary months in uncomfortable hovels, where he receives impractical and frequently useless instruction.

"Our government should aid the states in establishing comfortable rural schools with longer terms, better paid and better equipped teachers.

"In every rural school there should be departments for "household" arts, manual training, and agriculture. These schools should be open for agricultural instruction throughout the year. In addition, they should be made an experiment station for the neighborhood. The school house should be the social center—the meeting ground for instruction and social pleasures.

"In order to satisfactorily carry out the suggestions contained in this report, it would be necessary to have a non-partisan commission in charge of industrial questions, as suggested by the majority report of this commission.

"This would require large additional revenue, which must be derived by some form of taxation.

"The fairest of all taxes are the income and inheritance tax. This question, however, must be carefully studied and weighed, since the tax by one class, while the benefits are largely enjoyed by another.

"Care should be taken that it does not become confiscatory, and thus stifle individual incentive and effort.

"In addition, I believe that every individual should pay his proportion, no matter how small it may be. It will inspire in him a feeling of citizenship and make him an integral part of our nation."

NOTICE FOR PUBLICATION.

Notice is hereby given that I, Glen E. Massey, convicted of the crime of forgery, at Twin Falls, on the 25th of November, A. D. 1914, in and for the county of Twin Falls, state of Idaho, and sentenced on the 27th of November, A. D. 1914, to serve a term of not less than two years nor more than fourteen years in the Idaho State penitentiary, situated at Boise City, Ada county, state of Idaho, will appear in person at the honorable State Board of Pardons at its next regular meeting, after the expiration of the legal publication of this notice for a full and complete pardon.

SCHOOL WORK OUTLINED

(Continued from Page 1.)

September 1, 1916.
Jesse McMillan, to study a year in the University of California; Laura Younger, to visit a year, Marion Blasco, to spend the year in California. These teachers still belong to the local schools and are not considered withdrawals.

During the summer, the janitors have been busy putting the buildings in excellent shape for the opening of the school year. By the time work begins, everything will be in splendid shape. A new boiler is being installed and the whole heating plan will be very much improved. A plan of ventilating, that will make a splendid improvement, will be installed. Additional toilet facilities are being provided which will double the toilet facilities in the Bickel school. The auditorium is being fitted up for the seventh and eighth grades. Two rooms in the old frame annex to the Bickel school will be used again next year. Before the year opens, these rooms will be very noticeably improved. Nearly 50 per cent. more lighting space will be provided. Ventilators

will be placed in every room. The walls will be fitted inside with a ceiling that will tend to diffuse light. The roof will be repaired and two 2x2x8 inch transoms will be placed in each end to aid in lighting and ventilating facilities. Early in the summer it was planned to abandon the shack and use a frame portable school. A committee was sent to Docentello to investigate the 15-portable schools in use in that city. This committee found that the portable schools in use in Docentello were very little, if any, improvement over the wooden annex that has been used at the Bickel school for some years. In the light of this judgment, it was felt that an investment to place the frame building at the Bickel school in better condition would be better than to make a greater investment to buy portable buildings that offer very little improvement over the wooden building now in use.

Because of the crowded conditions of the school wagons last year, the board of education found it necessary to add another wagon to the number used last year. This will make a total number of 22 school wagons which will be used next year to transport rural children to the local schools. The following is a list of

the wagon drivers selected to drive the wagons:
J. B. Lechiller, route 3; Mark Brincol, route 5; Roy Leedom, route 6; Gladstone Woodhead, route 7; Dillard R. L. Shaw, route 8; L. S. Apple, route 9; Adolph Roy, route 11; C. F. Patz, route 12; P. M. Field, route 13; L. S. McCracken, route 14; R. H. Foster, route 15; W. Smith, route 16; H. N. Osborn, route 16; H. O. Kelsa, route 16; J. T. Winkle, route 17; J. W. Stepp, route 18; E. M. Tranter, route 19; J. A. Swanson, route 20; Charles Newby, route 21; William Sample, route 22; W. A. Jenkins, route 23. Route No. 1 is the Twin Falls Electric Railway company. The superintendent has been in his office letters from several boys and girls who need employment in order to continue their education. These students are worthy in every particular and every step should be taken to give them the opportunity to finish their education. These students will work in homes, in shops on farms, and other places for their board and room. The superintendent would like to cooperate with the people of the Twin Falls and the surrounding country in finding locations for these ambitious students. He will be very glad to furnish names to anyone interested. He will be glad to file in his office the names of any persons who can offer out-of-school employment.

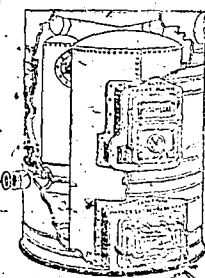

Several teachers are writing and asking for desirable rooming and boarding places. It is the wish of the superintendent that persons who are interested in boarding and rooming teachers file their names and description of their rooms with him. He will be very glad to accommodate both the teachers and the people.

It is going to be difficult during the school year to adhere rigidly to the boundary lines separating the Lincoln and Bickel districts. This is because of the crowded conditions existing in practically all of the class rooms. For the purpose of organization, Shoshone street will be accepted as the dividing line between the Lincoln and Bickel districts. Boys and girls will go to the school located in the district in which they live. The first and second grade rooms in the high school building will be for the use of beginners and second graders who live nearer the high school building than they do either the Lincoln or the Bickel buildings. These are matters that will need to be adjusted when the school year opens. The principals will always be act without any discrimination whatever, to deal justly in every case and to try to give the best advantage to every child. Parents are very kindly asked to give over the names of their children with the superintendent and the principals. Every attention will be given to them.

It is always advisable for mothers to come to the building the first day with the little children and help in getting them classified and enrolled. This means everything to the little pupils. It is very essential that parents come with the high school pupils, particularly those just entering the high school, to aid and counsel them in their selection of courses. A circular bulletin has recently published that will give a great deal of aid to parents and high school students. These bulletins may be secured at the office of the high school principal. Because of the teachers' institute, it will be impossible to enroll high school students before Monday, September 13, the day actual school work begins. First grade beginners who will be 6 years old on or before Monday, October 25, 1915, must enter school at the beginning of the first semester, Monday, September 13. Beginners who will not be 6 years old until after October 25, must wait until the beginning of the second semester in January. No first grade beginner will be permitted to enroll for the first semester after Monday, October 11. Pupils who do not enroll by October 11, must wait until the beginning of the second semester in January.

Front Rank-Steel
Furnace

To be an economical heater, a furnace must have a large amount of radiating surface in comparison with the size of the fire, and this surface must be arranged so that the air in passing upward must come in close contact with every part of it. It will be observed that the FRONT RANK STEEL FURNACE is built on STRAIGHT VERTICAL lines, thus causing the air in its ascent to pass directly over its entire surface. Call and see us show you this furnace.

Announcement New Fall Styles at Booth's

The thing a woman most wants is a garment with individuality—one that has that indefinable thing called style and yet one that is suitable for her particular figure—one that lends attraction to her natural grace. That particular feature is the one end to which we work—in buying and in selling—bearing in mind that our patrons are entitled to the latest modes. That is the reason we show styles that are newer and different—you've noticed it yourself. It required large assortments but we have them. Now we want to introduce you to Fall 1915.

Ladies' and Misses' Suits \$14.65,
\$17.50 and Up.

Latest Creations in Coats—Most Reasonable.

Fall Millinery in Profusion—Very Newest.

Dresses of Silk, Serge, and Combination
Silk and Serge priced \$7.50, \$10 & up

The very latest dress fabrics and silks chosen in
New York by Mr. Booth—representing the best on
earth and very specially priced all through.

BOOTH MERCANTILE CO.

Copyright, 1915, Michaels, Sterg & Co.

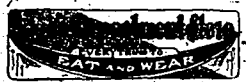

Men's Fall Suits \$12.50 and Up

Suits that are honestly tailored and absolutely guaranteed by us—garments that we know will give positive satisfaction. Because we know how they are made and that the materials used are all wool. Knowing the conditions that these suits are made under is why we can guarantee them without a moment's hesitation. You will find superior fitting qualities too. Let us sell you your fall suit and we know you will be satisfied.

Men's Fall Hats \$3 to \$5

We are showing all the new shapes in novelty and staple styles. Exclusive designs for the world famous Knox hats. Also new styles in Gordon and Stetson hats.

Complete Showing of Boys' Furnishings, Caps, Hats, Etc. for School Wear

BOYS' SUITS FOR SCHOOL

This is generally an important question. Buying clothes for the boys. That question can easily be settled here. We know our boys' suits are bound to give complete satisfaction. We are showing a special suit for school wear, with two pair of pants at \$5.00. Other suits range from \$3.50 to \$12.50.

Howells, of Oakley, spent Saturday in Twin Falls, looking after important legal business. Mr. and Mrs. Stuart B. Roush, who have been guests at the W. B. Roush home, left for Payette, Sunday morning, where Mr. Roush will be an instructor in high school. E. B. Heinicke and party were in the city Saturday on their return to their home in Hollister after an extended camping trip in the mountains north of Ketchum and a trip through Yellowstone park. Kenyon Green returned Saturday from Nebraska, where he has been for the past year. While away Mr. Green was obliged to submit to several serious operations but has recovered in a satisfactory manner. Howard Thomas and wife of Chicago, who have been visiting at the W. J. Tapper home, have located in Twin Falls, where Mr. Thomas will engage in his profession of piano tuning. —Richfield Recorder. F. W. Schwamb, who owns one of the finest farms in Sucker Flat, arrived in the city Saturday from his home in Blue Island, Nebraska. He will remain for some time looking after his farming interests. The following marriage licenses have been issued by the county clerk in the last few days: William A. Thompson and Hazel Shriver, both of Buhl; Robert Jacob and Mary Trumpler, both of St. Louis, Mo. J. C. Cook and family were in the city for a short time the last of the week from Jarbidge, Nevada, on their way to their home in Fremont, Nebraska. They have been spending the summer in the mining camp, where Mr. Cook is interested in several promising mining claims. DR. F. C. BEEBE, Dentist, Phone 426, Central Building.

Rev. B. F. Shoemaker, of Burley, was in the city Monday, calling on friends here and looking after business matters. Mrs. J. M. Wall returned Saturday from points in the south, where she had been visiting with relatives for several months. H. H. Alfred, who is engaged in the mercantile business in Buhl, spent Friday in Twin Falls, looking after business affairs. J. B. Steele, the Three Creek cattleman, spent a few days of last week in the city, being called here to look after business affairs. Attorney C. L. DeLong returned Sunday from Butte, Montana, where he had been for the past week looking after legal business. Mr. and Mrs. R. Marsh will leave Wednesday morning for eastern Kansas where they will visit with relatives for several weeks. E. C. Lavering, of the Lavering Furniture company, returned Friday from Kansas, where he had been called by the illness of his father. C. F. Schenk arrived in Twin Falls Monday from Maroa, Illinois, and will be on the track for some time looking after his property interests. G. Gridley, who is engaged in the stock business in the Hagerman valley, returned from his home in Idaho for one day the last of the week. Dr. and Mrs. T. C. Hirt left Sunday for their home in Denver, Colorado, after spending several months in Idaho visiting their son and daughter. Mrs. Harry Rhodes, who has been visiting with her parents, Mr. and Mrs. R. P. Logan will leave Wednesday for her home in Kansas City, Mo. Mr. and Mrs. J. W. Fuld were in the city Sunday from their home in Halsey to see the Twin Falls ball team before the team from their home town. C. D. Thomas with a party of friends left Monday morning for the Stanley basin, where they will spend the next two weeks in the quest of big game. T. B. Bendle, who is engaged in mining in the Jarbidge district, was in Twin Falls Monday looking after business pertaining to his mining properties. Mrs. Thomas Doherty and daughters returned Tuesday from the east, where they had been visiting for some weeks. Perry Moon and family returned Sunday from the Yellowstone park, where Mr. Moon had been driving an auto stage since the opening of the park to auto travel. Mrs. George W. Heine is in the city visiting with her brother-in-law, County Treasurer Howard Heine and family. Mrs. Heine is on her way to her home in Hooper, Nebraska, after visiting the expositions in California. C. H. Doxle and Robert Logan returned the last of the week from California, where they had been visiting the falls for several weeks. The return trip was made from Los Angeles, in M. M. Murtough's automobile. T. B. Brush, who is engaged in the banking business in Richfield, on the Idaho Irrigation tract, was in the city Friday, accompanied by W. M. Brock, of the same tract. The gentlemen were viewing the great crops on the Twin Falls tract. Mr. and Mrs. S. C. Stewart and family and Dr. and Mrs. Charles Wetherby of Buhl, left Sunday morning for the Wood river, where they will spend the next ten days or two weeks enjoying the cool breezes of the mountains. On Saturday evening at six o'clock at the home of Rev. and Mrs. H. W. Parker occurred the marriage of Wiley Hirt, of Popperon, to Miss Florence Dudley, of Hollister. The ceremony was performed by Rev. T. C. Hirt, D. D., father of the groom, and one of the pioneer ministers of Methodism in the Rocky Mountain country. The wedding was witnessed by the relatives of the contracting parties. The newly weds will make their home on the ranch of the groom near Rogersden. CLOVER SEED J. A. Steel, buyer for Albert Dickerson Co., Chicago, one door east of Twin Falls City Ice Co. Phone 191. Adv. Aug. 10 th CARD OF THANKS We wish to express our heartfelt thanks to the Twin Falls friends and neighbors for their kindly assistance and tender sympathy during the illness and death of our darling Francis William Heald. JOHN WHEALDON AND FAMILY.

A CHOICE 80 Near Hansen In fine neighborhood and on the new State highway. This place is near the main canal and has no coulee, lateral or rock. 40 acres in red clover; 30 acres alfalfa. This is the kind of land we like to show. Do not buy until you have seen this. The price is only \$125.00 per acre on easy terms. Sanger Realty and Investment Co. 143 Main Avenue East

BOARD OF EDUCATION BULLETIN

Regulations for School Buildings and Grounds.

Regulations

- All plans and specifications must be approved by the state board of education and the state board of health before contracts are let. Plans and specifications must be sent direct to the state board of health, Boise, for approval. The board of health in turn submits them, to the department of education. Full information concerning source and location of water supply, location of type of outhouses, and a description of the heating and ventilating system must accompany each set of plans.
- All contracts for buildings shall be in writing.
- All buildings in common school districts shall be inspected and approved by the county auditor and the public instruction before full payment is made therefor.
- Windows must be "banked," that is, placed close together, and should reach as near to the ceiling as possible; this prevents dark spaces and shadows.
- Floor area must equal not less than 15 sq. ft. for each pupil, in addition to space for teacher's desk.
- Buildings must not be more than two stories in height.
- Light must come from the east or the west. North windows get practically no sunshine; south windows get too much and a glare is the result.
- Stairways must be at least five feet in width with hand rails on each side. They must be located at opposite ends of the building and lead directly to exits.
- Floors must be open outward.
- The school house must be made as nearly fireproof as possible, due precautions being taken to separate the heating plant from the rest of the building by fire proof walls, ceilings, and doors.
- Basements or cellars must be well ventilated.
- Separate privies for the sexes must be provided. They must be placed at least fifty feet apart and screened from view and be at least one hundred feet from the well or other water supply.

Advisory

The following suggestions are not mandatory, but are earnestly recommended to school trustees:

- Privies or outhouses should not be placed on building. Money spent for this would be better spent on building or equipment.
- Buildings should provide for work rooms where manual training and domestic science may be taught.
- Schoolroom colors: the best color for the schoolroom in relation to lighting are: ceiling, white and light cream. Walls, light gray, green.
- Plaster should be painted so that it may be washed. The paint should have no gloss and when put on should be stripped to prevent cracking. This should be a smooth finished that they may not catch dust and that they may be easily cleaned and kept sanitary.
- Blackboards should be placed across the room back of the teacher's desk; if more are needed, they may be placed on the wall opposite the windows. See also Rule 39 State Board of Health.
- School grounds: (a) Size. For the school-house and playground areas is good, but is better. The grounds should be divided into four sized and well proportioned play grounds. "The playground is a luxury, but a necessity. A school without a playground is an educational deficiency and presents a gross injustice to childhood."
- Arrangement. The school building should be set back and near the center, leaving an open space in front for lawn and flower bed (not in the middle of the ground as that interferes with the best use of the whole area.) The school grounds should have trees, plants and shrubs grouped with artistic effect but without interfering with the children's play ground.
- Ventilating and heating: The schoolroom should always receive fresh air coming directly from out of doors. One of the following arrangements: (a) Through wide open windows in mild weather. (b) Through window board ventilators under all other conditions except when a furnace or one of the modern school room heaters is installed.
- Facilities for washing: Children in all schools should have abundant facilities for washing hands and face. Individual clean towels should always be available as they are the cheapest and most practical. The common towel is as dangerous to health as the common drinking cup.
- Furniture: School seats and desks should be hygienic in type and adjusted to the size and needs of growing children. Seats and desks should be individual, separable, adjustable and clean.
- Books and other materials of instruction should not only be sanitary, but arranged so as to stimulate a wholesome response from the pupils.
- Cleanliness: The school house and surroundings should be kept as clean as a road housekeeper keeps her home. (a) No dry sweepings or dusting should be allowed; use sweeping compounds. (b) Floors and furniture should be cleaned with damp sweepers and oily cloths.

Three Cigarette Faults to Avoid

First, avoid cigarettes that don't just suit your own taste.

Second, avoid those that bother your throat or tongue.

Third, avoid those that make you "feel" mean after smoking all you want.

If Fatimas, for instance, seem to you to be guilty on any one of these three counts, we say, avoid Fatimas.

We mean what we say—for, when it comes to the taste, Fatimas can't possibly please everybody—no cigarette can do that. But Fatimas do please more men than any other cigarette costing over 5c.

That's one reason why you should try them.

Another reason is because they are so SENSIBLE—so free from any "after-feeling."

If you want to know exactly what a "sensible" cigarette is, try Fatimas by these two tests. Do that little thing today—you'll be glad.

TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according to a leading tobacco expert—is up to the smoker. But there are other qualities that you should look for in the cigarette that you are going to smoke. Here are average smokers who have been asked to give their own tests for a good cigarette.

1. The best test is for smoothness, which means more comfort in the throat at all times. Light any cigarette and if it is not smooth, make this test. Let it rest in your mouth for a few seconds. If it "goes" against your throat, it is not smooth. If it will always rest in your mouth, it is smooth. This is the right proportion both to your throat and to your tongue. If the proportions are not right and if the cigarette contains

Interferes grades of tobacco or hidden strands of rank, you will feel the nip of the tip of your tongue nipping at the "back" of your throat. That sandpaper? Is this in your throat? Test number two—How do you feel after smoking all day?

If the tobacco in the cigarette includes a correct proportion of mild grades, you will feel allowed to bring out the best in you. If the tobacco is of the poor quality and to be sure, the unpleasant qualities in it will be sure to show. You will feel like a "throat" with another cigarette in which the blood is low, the throat is raw, and the end of the tongue is sore. You will feel like a "throat" with another cigarette in which the blood is low, the throat is raw, and the end of the tongue is sore. You will feel like a "throat" with another cigarette in which the blood is low, the throat is raw, and the end of the tongue is sore.

Go to the other end, if the proportions are not right and if the cigarette contains

Clip out these tests and try them on Fatima.

FATIMA was the Only Cigarette Awarded the Grand Prize at the Panama Pacific International Exposition.

FATIMA THE TURKISH BLEND

FATIMA Cigarette

20 Distinctively Individual FATIMAS 15c

(c) Scrubbing and airing are better than any form of fumigation.

The School house and outhouses should be absolutely free from all defacing and obscene marks. Pupils if properly trained, will take pride in the enforcement of this rule.

11. Drinking Water should be available for every pupil at any time of day which does not interfere with the school program.

Every rural school should have a sanitary drinking fountain located just inside or outside the school entrance.

The Waterman Waterbury and the Smith Company both have good fountains suitable for country schools.

Drinking water should come from a safe source. Its purity should be testified by an examination by the state board of health or by some other reliable authority.

A common drinking cup is always dangerous and should never be tolerated. Individual drinking cups are theoretically all right, but practical experience has proven that, in many cases, individual cups to be used more than once are unsatisfactory and unhygienic; therefore, they are not to be advocated nor approved for any school.

SHERIFF'S SALE

Notice of Sale of Real Estate Under Execution.

Criss Erickson, plaintiff, vs. J. W. Redd, defendant.

BY VIRTUE OF AN EXECUTION issued out of the District Court of the Fourth Judicial District of the State of Idaho, in and for the County of Twin Falls, wherein Criss Erickson, plaintiff, and J. W. Redd, defendant, upon a judgment rendered the 10th day of August, A. D. 1915, for the sum of TWO HUNDRED SIXTY-ONE and 25/100 DOLLARS (\$261.25), lawful money of the United States, do come and interest, I have this day levied upon all the right title, claim, and interest of said defendant, J. W. Redd, of and to the following described real estate, to-wit:

Lots Fifteen (15) and Sixteen (16), Block Seventy-Two, (72), Twin Falls, County of Twin Falls, State of Idaho.

PUBLIC NOTICE IS HEREBY GIVEN that I will, on Thursday the 8th day of September, A. D. 1915, at 10 o'clock A. M., of said day, in front of the court house door in the City of Twin Falls, County of Twin Falls, State of Idaho, sell at Public Auction, for lawful money of the United States, all the right title, claim and interest of said defendant, J. W. Redd, of and to the above described property, or so much thereof as may be necessary to raise sufficient money to satisfy said judgment, with interest and costs, etc., to the highest and best bidder.

Dated August 18, 1915.

FRANK M. KENDALL,
Sheriff of Twin Falls Co., Ida.
By W. G. THOMPSON,
Deputy.

Aug. 20-27 Sept. 3.

Are you a good guesser?

The General says:—No man living can take three different kinds of Roofing and determine in advance by any tests as bending, twisting, tearing, or smelting, how long each will last on the roof. The best you can do is to make a guess. That is why

Certain-teed Roofing

is guaranteed by us 5, 10 or 15 years according to whether the thickness is 1/2 or 3/4 ply. Most roofings look alike, and even trained chemists can judge roofing quality only by the raw materials that are put into the roofing and not from the finished product. The responsibility of the biggest Roofing and Building Paper Mills in the world stands behind our guarantee and this makes it unnecessary for you to take the risk of guessing. Certain-teed Roofing has made good on the roof throughout the entire world. Ask your local dealer for further information. He will quote you reasonable prices.

PRACTICAL HINTS PICKED UP IN ORCHARD

Wonderful Japanese Cherry Trees, Noted for Their Beauty.

Do not have the trees come until you are ready to put them in the ground. When they arrive, soak the roots a little while in cold water, then examine carefully, and cut off every damaged root. All dead wood or imperfect growth should be cut off just before the first outbranching rootlet. Cut from under side in a slanting direction, so that the exposed surface will come in contact with the ground. In trimming the trees, do not leave any branch more than eight inches long. The practice of cutting back to within two or three feet, particularly on young trees, is growing and usually gives very satisfactory results. In western Washington where fruit growing now has become a great industry, yearling trees are planted more than any other. They are cut down to about one-third of their growth, and are every year trimmed to grow low-spreading branches. Most of the apples in that country are picked by men standing on the ground—ladders seldom being necessary.

Professor Bailey says that vigorous pruning does not injure the growth of the tree. Of course this does not mean indiscriminate slashing of roots or top, but pruning made with care and good judgment. If the weak roots and branches are cut off, more strength goes to the sound ones, and better results are obtained. Probably the best results come from pruning the orchard rather vigorously every two or three years, but if one is not an expert at pruning, and cannot obtain the right sort of help, better let the trees alone until they can be properly pruned, even if it can be done only once every three or four years.

Peach trees which get frozen badly, sometimes can be saved by cutting off below the snow line, allowing them to sprout again. If you have not properly protected the young trees from rabbits and mice a walk through the orchard about this time may give you some unpleasant surprises.

Oyster shell bark louse attacks apple trees mainly. Sulphur fumes should be used when the leaves are off the trees. If this spraying is ineffective, use kerosene emulsion, or whale oil soap when the eggs hatch. It will facilitate the work of planting on the orchard if the land is laid out in straight rows the distance apart the trees are to be planted.

The distance apart that trees are set is governed by the kind and variety to be planted. Wounds on trees heal from the downward flow of sap from the leaves, and not from the upward flow of sap from the roots. Pick up and burn all twigs and

FAIRM STOCK

NOTES FOR SWINE BREEDERS

Success With Pigs Cannot Be Attributed to Luck—Model Farm Should Have Natural Shade.

Progression is the order of the day, and in no direction is there more progress made than in the breeding and feeding of swine.

The time is past when we can consider a man's success in swine growing based upon luck. It is essential on the hog farm, and no amount of the or artificial draining will take the place of good natural drainage.

White hills and valleys make an ideal place for a hog farm, the herd should be kept as near to the source of the water as possible because of the danger of the stock becoming afflicted with cholera and other diseases caused by the stream being contaminated by swine further up stream.

A model breeding farm should be provided with a timber lot or large grove, there is no shade like natural shade, and trees soften the cold winds during the winter. Their value cannot be overestimated when properly utilized by the swine grower.

The breeder who would be successful in this age of close competition must have the most keenest discrimination of what is necessary to constitute an animal of individual merit, or more properly he must have firmly fixed in his mind the exact contour of a perfect pig. Then he must have an idea of the kind of breeding stock required to produce such a pig.

There are numerous breeds of pigs, varying not only in size, color, shape, feeding qualities and general characteristics, but also in the quality of their product. It is not the great big fat pig that brings out the money, but the pig that will weigh from 200 to 300 pounds at from six to ten months of age that captures the top prices.

The breeding animals of the herd should receive the very best care and attention at all times, but with all of our knowledge of breeding and feeding, the science of swine growing is yet in its infancy.

KEEPING SWINE IN WINTER

Profit Can Be Made in Feeding Home-Grown Feeds, Such as Clover, Alfalfa and Ensilage.

It is a common question to be asked if it will pay to winter swine. I can see but one way to winter swine at a reasonable cost, and it is to winter them on sheep feed as is possible, and make home-grown feeds, clover, alfalfa and ensilage, form a prominent part of the ration. If we can winter an animal in this way and feed out only a small amount of grain I think we can make it profitable to keep a number of pigs through the winter and make fairly good gains, but it is a common occurrence

SELECTING DRAFT STALLION

Soundness should be the basis in the selection of a draft stallion.

GOOD COMBINATION

Poultry and fruit make a good combination.

Winter Comfort for Little Ones.

To go onto a farm in the spring and see 100 hogs which will weigh the same in May as they did in December, and all of the corn ribs empty. Something is wrong when we see that kind of hogs, but no one will dispute the fact that the average feeder either feeds out more feed than can be fed with a profit or else has a bunch of scrub pigs in the spring.

There is one advantage in wintering pigs, we have them in time to feed out and reap the benefits of a good summer market, and in that manner receive considerable more money than we would if we were compelled to market them while the market was overstocked in November or December.—J. M. D.

PACKING HOUSE DEMANDS

The demand for hogs is increasing for leaner pork and smaller weight hogs. The feeders must cater to these requirements by feeding less corn and more protein feeds and shortening the fattening period.

GIVE PIGS A VARIETY

Feed fall pigs during winter a moderate ration of corn and supplement with bran, shorts and such other nitrogenous feeds as you have on hand to give variety to the ration.

MATURE BREEDING STOCK IS FAVORED

Pork From Small and Undeveloped Animals Is Too Fat to Meet Market Demands.

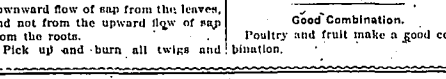

(By R. G. WEATHERSTONE.) Early maturity for the pork barrel is one thing and early maturity for breeding purposes is quite another, yet the two are closely related and it is deplorable that we consider them together. The tendency must come from the small or dwarf varieties.

But we may produce pigs with an inherited tendency to make a rapid growth from birth to the time they are fit for market and at the same time attain the size and vigor of our matured breeding stock.

Another difficulty I have observed in producing pork from the small and undeveloped breeding animals is that the pork is too fat to meet the market demands, which call for a carcass that will furnish pork that is well-marbled with fat and lean meat, and this kind of meat comes from pigs that are from matured parents and that have the inherited tendency to make growth rather than to take on too much fat at the period when they are being finished for market.

The pigs from a well-developed 600-pound sow will make more pork in less time than those from a young, immature sow. If this is not the case, why are all of the phenomenal weights made by the leading show animals in the under-year class made by pigs that come from matured sires and dams?

GRAIN LOUSE DOES CONSIDERABLE DAMAGE

Winter Comfort for Little Ones.

Excellent Results From Well-Cared For Field.

(By LEONARD HASEMAN, Missouri Experiment Station.) The common grain louse is now coming in for its share of attention along with the army worm, the chinch bug and the Hessian fly. It is a small green or yellowish-green louse which collects in the head of wheat. The mature louse has wings. It attacks wheat by sucking the sap. Injury to ripening wheat is usually quite slight even though the pest may be abundant. This is not the much-dreaded green bug which comes early in the spring and which attacks the stems and leaves of wheat completely killing the plant. The grain louse develops very rapidly and when the weather is favorable for its development and unfavorable for its enemies, it is able to do considerable damage to wheat.

HOW MANY INDIANS IN IDAHO

Washington — How many Indians are there in Idaho? Nobody seems to know. The census bureau has just completed and published its report on the Indian census taken in 1910, and says that the total Indian population of the state in that year was 3488. The Indian bureau statistics for 1910 show 3988 Indians in Idaho. It would naturally be presumed that the census bureau would find more Indians than the Indian bureau, inasmuch as it undertakes to enumerate all residents, whereas the Indian bureau deals only with Indians under its own jurisdiction, but as a matter of fact fewer Indians, taking the country as a whole, than did the Indian bureau. Can it be that the Indian bureau is padding its rolls to get more money out of congress?

Census Bureau Figures.
 Of the total number of Indians found in Idaho by the census bureau, 2564 were full bloods, the remainder mixed.
 There were in 1910 2704 Indians in Idaho 10 years of age or over, and the other 1607 were fillettes. This is 62.4 per cent. The Indian schools, however are getting in their work for back in 1910 there were 5425 fillettes. Indians in Idaho more than 10 years of age, or 76 per cent of the total of that age. Of the fillettes, 484 were unable to speak English.

A goodly proportion of the Indians of Idaho more than 10 years old are reported as engaged in gainful occupations, the balance being taxed and 52 per cent, or 65 per cent of the males over 10 years and 4 per cent of the female. This seems to disprove the old idea that the squaws are supporting the burks in Idaho.

Of the Indians in Idaho, 1234, or 35 per cent are now taxed; in 1910, 1923, or 45 per cent were taxed and 52 per cent were fillette.
 The census report shows the classification of the Idaho Indians by tribes. The great bulk of Indians in Idaho belong either to the Nez Perce or Shoshone tribes, but a great many other tribes are represented. The classification follows:

Bannock	363
Brathern	4
Cayuse	4
Cherokee	8
Coeur d'Alene	234
Colville	17
Delaware	6
Flathead	6
Kalispell	2
Kootenai	107
Modoc	1
Mohawk	1
Nas Perce	1026
Nez Perce	1026
Okinawa	1
Pavlovso	152
Piegans	1259
Shoshone	1259
Spokane	96

RIGHT FEEDING FOR CALVES

Flaxseed Jelly is Excellent Substitute for Fat or Cream—Give Some Bran and Whole Oats.

There is no need of feeding the ordinary calf for a longer period than one week on whole milk. Of course the change to sweet skim milk should not be made suddenly, nor without substitutes for the fat or cream. To replace the fat that has been removed from the milk, as well as to furnish additional protein, there is nothing that can take the place of flaxseed jelly. This jelly should be added in small quantities at first and slowly increased. Begin with a dessertspoonful in each feed, and gradually increase until about a cupful is being fed night and morning to the three-month-old calf. To prepare this jelly steep one pound of whole flaxseed in water almost boiling, until a thick paste results. It should be kept cool and sweet until fed, in addition to the flaxseed jelly a little dry bran and whole oats should be fed. Some clean, sweet hay will be found a valuable addition to the ration at a very early age.
 Large, clean cotton rags wanted at Times Office.

RIGHT FEEDING FOR CALVES

Flaxseed Jelly is Excellent Substitute for Fat or Cream—Give Some Bran and Whole Oats.

There is no need of feeding the ordinary calf for a longer period than one week on whole milk. Of course the change to sweet skim milk should not be made suddenly, nor without substitutes for the fat or cream. To replace the fat that has been removed from the milk, as well as to furnish additional protein, there is nothing that can take the place of flaxseed jelly. This jelly should be added in small quantities at first and slowly increased. Begin with a dessertspoonful in each feed, and gradually increase until about a cupful is being fed night and morning to the three-month-old calf. To prepare this jelly steep one pound of whole flaxseed in water almost boiling, until a thick paste results. It should be kept cool and sweet until fed, in addition to the flaxseed jelly a little dry bran and whole oats should be fed. Some clean, sweet hay will be found a valuable addition to the ration at a very early age.
 Large, clean cotton rags wanted at Times Office.

Model Store Company

**It Pays to Buy New Styles
 While They Are New**

There is much more pleasure in wearing a new suit while it is brand new style. Then, too, you have so much longer wear from a suit bought early in the season.

To wait until late in the season to select your Fall Suit is only to deny yourself the pleasure of being stylishly dressed when the styles are fresh and most attractive.

You'll pay no more for a Wooltex suit now than six or eight weeks later. You'll get all the additional pleasure and service without additional cost.

Suits Range from \$15.00 to \$37.50

Silk and Wool Dresses from \$13.50 to \$27.50

Fall Skirts \$5 to \$13.50 Dresses for School Wear

A most comprehensive display of new styles and finest skirts shown in every reasonable style and material, and we make a specialty of extra sizes to those who are hard to fit. You can easily find garments here that will fit you and they have the same exclusive style qualities that the smaller garments have. Let us show the many new ideas on display, priced from \$5.00 to \$13.50

School time will soon be here and now is the time to buy school dresses. We are showing a multitude of new styles and every possible wash fabric, in a great variety of patterns, etc. They come in all sizes and we can fit any child. Dresses that are finely made and have that tailored appearance so hard to acquire in home sewing. Don't overlook these pretty offerings. Dresses range from 50c to \$5.00

ORDER TO SHOW CAUSE WHY AN ORDER OF SALE OF REAL ESTATE SHOULD NOT BE MADE

In the Probate Court of the County of Twin Falls, State of Idaho.

In the matter of the estate of Clinton B. Ault, deceased, as appearing to this court, by the petition thereto presented and filed by M. G. Ripley, the administrator of the estate of Clinton B. Ault, deceased, that it is necessary to sell the whole or some portion of the real estate of said decedent to pay the debts of decedent and the expenses and charges of administration.

It is therefore ordered by this Court that all persons interested in the estate of said decedent appear before the said Probate Court on the 22nd day of September, 1915, at 10 o'clock a. m. of said day, at the court room of said court, at the Court House in the city of Twin Falls, Twin Falls County, State of Idaho, to show cause why an order should not be granted to sell the said real estate as shall be necessary and that a copy of this order be published four successive weeks in the Twin Falls Times, a newspaper printed and published in said county.

Dated August 31st, 1915.
 J. M. SHANK,
 (Seal) Judge of the Probate Court.
 Aug. 31 Sept. 7-14-21

ORDER TO SHOW CAUSE WHY ORDER OF SALE OF REAL ESTATE SHOULD NOT BE MADE

In the Probate Court of Twin Falls County, State of Idaho.

In the matter of the guardianship of Alfred A. Ault and John Carrol, Ault, minors.

As appearing to this court, by the petition thereto presented and filed by M. G. Ripley, the guardian of the estate of Alfred A. Ault, and John Carrol Ault, that it is necessary to sell the whole or some portion of the real estate of said minors in order to pay off the mortgages, liens and taxes against said estate.

It is therefore ordered by this court that all persons interested in the estate of said minors appear before the Probate Court on the 22nd day of September, 1915, at the hour of two o'clock p. m., of said day, at the court

room of said court, at the court house in the city of Twin Falls, County of Twin Falls, State of Idaho, to show cause why an order should not be granted to the said guardian to sell so much of the said real estate as shall be necessary and that a copy of this order be published four consecutive weeks in the Twin Falls Times, a newspaper printed and published in said county.
 Dated August 31st, 1915.
 J. M. SHANK,
 (Seal) Judge of the Probate Court.
 Aug. 31 Sept. 7-14-21

STORE NEWS

I have said very little about Suits and Skirts and Winter Coats, so perhaps you folks are under the impression that I am making no special preparation to take care of you in this line of goods for the coming fall and winter. But really it has been so warm for the past month or six weeks that I thought perhaps it would make you uncomfortable to even think about heavy goods; but I just want to say in a few words that I shall be ready for you when the time comes with a very choice line of good quality, well made, new and stylish Suits, Skirts and Coats for Ladies', Misses' and Girls.

These are now beginning to come in and we shall be receiving them from time to time. They will not be extreme in style but the very latest and newest styles. Just the kind that it will be safe to buy with the assurance that they will not go out of style over night as is sometimes the case with extreme styles.

All of these will be here at my usual right prices. It will not be my aim to start in with a great big stock but with a few of a good many different kinds, with more coming all the while so as to keep up with the newest and latest things that are being brought out.
