MODEL STORES NEW HOME

Commodious and Well Lighted Block Credit to City.

The Model Shoe Store, which has had a splendid growth since starting in this city five years ago, is now located in its new and commodious building on North Main avenue.

The new building with increased floor space over the old quarters, is one of the best lighted store buildings in the city.

In addition to the above, the Model will have some very modern display cases.

The Model shoe store, starting from a small room in one corner of the Hotel Perline, has had a steady and substantial growth.

BREAK IN FOREIGN EXCHANGE

English Pound Sterling off More Than 5 Per Cent.

New York, Aug. 31.—Foreign exchange rates reached a most serious stage, with an overnight break of 2 1/2 cents in sterling.

The big break means that English buyers, in addition to the top market prices already paid by them in this country for American products, will be called upon to pay a premium of 2 1/2 cents on every pound's worth of purchases, or more than 5 per cent.

Not an American contract has yet been cancelled, it is said, but the English premium which has been paid gives every indication that cancellation will follow unless rates are rectified soon.

THINK ABOUT IT

Twin Falls Commercial Club

The Times promised some time ago to give to its readers some of the inside political activity of the present county commissioner, Carlson and his colleagues with regard to the expenditure of county funds. Some time ago The Times showed where the

county commissioners whose term ended last January spent three hundred dollars unnecessarily, with additional Democratic papers. Carlson is the only member of that board who remains in office. Although the statement of the Times was the subject of derisive editorial on the part of the editor of the Chronicle, yet not a single one can deny the truth of the Times' statement in that case.

This week The Times will show another phase of political activity of some of the Democratic officials in which county funds were wasted for saving Democratic newspapers.

During the administration of Commissioners Strunk, Zuck and Taylor, the county printing was given without bids to the Twin Falls Chronicle. The two years that followed were not satisfactory to the commissioners, who were compelled to carefully audit every item turned in by the Chronicle in that time, employing some disinterested printer to fix charges for printing. As a result, the three Democratic commissioners elected the next two years, Taylor, Zuck and Carlson, each individually stated to the editor of the Times, that they would not consider Dowsery in the printing contract for their term of office. The contract was therefore made (again without bids) to the Pler Journal, which was supposed to make a sub-contract with some Twin Falls paper, and chose the Times. However, when any job work was done where formerly it was given to the Chronicle without any question of price, because it must be done by Republican papers, bids were demanded on nearly all work.

Here is where the Democratic waste of county funds was for the time being stopped, while the commissioners worked out their punishment of Dowsery of the Chronicle. The job of printing the official ballots for the primary was let by bid and was awarded

to the Twin Falls News, the lowest bidder at a price approximately ten dollars per thousand.

But between the primary and the general election to promote Democratic harmony and help their own campaigns and that of the party, it was evidently decided to call off the embargo on the Chronicle. For at the same rate the printing of the official ballots for the general election was let to the Chronicle, again without general bids and when the bill went in for over double what the News bid on practically the same job for the primary ballots, the commissioners allowed the bill. In other words more than two hundred dollars of excess cost was stacked up against the county for the sake of saving a Democratic sheet. For there is no question but what if let to the lowest bidder, the two jobs would not have been thirty dollars apart.

What do you think of it, Mr. Taxpayer? Does it look as though your interests had been safeguarded by the Democratic commissioners? The same condition is taking place in the matter of public printing under the present county commissioners composed of two Democratic members and one slightly damaged Republican county divisionist elected by Democratic votes.

ORDINANCE NO. 162.

An Ordinance Declaring the Intention of the City of Twin Falls, State of Idaho, to Construct a Sidewalk in Certain Territory in Said City to be Designated as Local Sidewalk Improvement District Number 21, Defining the Boundaries of Such Proposed Improvement District and Stating the Estimated Cost of Such Proposed Improvement and That Such Cost Must be Assessed Against the Property Included in Said District and Benefited Thereby.

Be it ordained by the mayor and Council of the City of Twin Falls, State of Idaho.

Section 1. That the City of Twin Falls, hereby declares its intention to construct a sidewalk in certain territory within the corporate limits of said city hereinafter specified and for that purpose to establish in said city a local improvement district to be designated as Local Sidewalk Improvement District Number 21.

Section 2. The general character of the improvement to be made within said district is the building of a cement sidewalk five feet in width upon eight avenues west in said city in front of Lots 2, 3, 4, 5, 6, 7 and 8 in block 17, as the same are platted upon the official plat of record, in the Records office of the said county in book one of Plats at Page 7, said sidewalk to be built upon the established grade and under the specifications adopted by said city and on file in the City Clerk's office for the construction of sidewalks.

Section 3. The boundaries of such proposed sidewalk district shall be as follows:

To be composed of said lots 2, 3, 4, 5, 6, 7 and 8 in said block 17 and the sidewalk space in front thereof on said Eighth avenue.

Section 4. The estimated cost of such sidewalk and improvement as shown by the City Surveyor's estimate is the sum of \$22,500 dollars.

Section 5. The cost of making such proposed improvement is to be assessed against all the property included within such sidewalk improvement district, the said assessment to be made upon the lots aforesaid fronting on said Eighth avenue, every lot to be separately assessed for the full cost thereof in proportion to the benefits to be derived by sidewalk improvement.

Section 6. The 20th day of September, 1915, at eight o'clock P. M. is hereby designated as the date on which the mayor and Council of said City will meet and consider protests against said proposed improvements. All persons affected by the same are hereby notified that protests against said proposed improvement must be filed in the office of the city clerk of said city on or before that date.

Passed by the Council of the City of Twin Falls, this 15th day of August, 1915.

A COMMUNICATION

Editor Twin Falls Times, Twin Falls, Idaho.

Having been chosen by the socialist local of this city as a candidate for school director, I kindly ask permission to use foggy through your columns one of the reasons why Socialists everywhere are insistent on gaining representation on school boards.

It is because they are uncompromisingly opposed to anything of a military nature entering the school in any form. We find that some very influential men are advocating the injection of militarism into our schools. Various schemes for such action have been suggested. One is that high schools and colleges be included or, if necessary, compelled to include military training for all male students. Another suggestion is the inauguration of a nation-wide Boy Scout movement in connection with our public schools to be used later as a stepping stone to a system similar to the present military system of Switzerland. There may be danger of this one gaining favor with the public for they can see its lamb-like appearance but fail to hear the voice of the dragon back of it. The war dians of the country have heard the roar of the cannon across the ocean and are barking, barking, barking, and will continue to bark until they have attracted unto themselves every man and woman of their kind.

Delays Are Dangerous.

Arouse ye lovers of peace! There is work to be done! There is work that must be done now or suffer an indefinite postponement of the day of peace and good will among men. The dawn of a new day is breaking wherein old things are destined to pass away and all things become new. Man has at last begun to open his eyes to the fact that the human family is one great mass of brothers, and injury to one is the concern of all. In this new day the spirit of brotherhood must supplant the spirit that creates militarism. To get ready for that day we must concern ourselves with the children, for among them is to be found the best material from which the new world is to be made. In preparation there must be held before them the ideals of a Christ-like patriotism, a patriotism based on the brotherhood of man and as broad as the confines of his habitation. They should be stimulated with a realization that their sacred duty is to good, their minds and hearts should be saturated with a concern for the welfare of all men. Such patriotism can NEVER know the spirit that creates militarism.

As to Militarism.

Just a word of explanation of militarism and the spirit that breeds it. Both are always found in any industrial system which places individuals at the mercy of the law of the survival of the fittest. In capitalism today (private ownership of industry) as in feudalism of old this law predominates. The system of private ownership of industry, creates forth sharp competition between individuals, between classes and between nations. Concentration in industry, creates the concentration of all the mental and physical energies of man to the accumulation of the material things of life. It fosters a spirit of selfishness, stifles brotherhood, it deadens the moral senses, permitting the shrewd and strong to fill their coffers with wealth, and the weak and unfortunate. Private ownership of industry has led men to change the ethics of Christ to conform with the unscrupulous action of gathering an earned increment to the tune of millions, and deceived them into the belief that they are His disciples, while with Him there was nothing more immortal than the strong living at the expense of the weak. It places money above life; for where the treasure is, there is the heart also. It nurtures a patriotism based on property rights and incites men to commit murder in its name. Our system of private ownership of industry makes the world money mad and drives nations to tug robeat parts of the earth in search of markets. It creates envy between competing nations, causing them to build and maintain large armies and navies at great expense to protect these markets.

A Line of Contention.

The home of contention between the U. S. and Japan is the markets of South America. The encroachment of Japan on our markets has made of the Japanese the "yellow peril" and the time will come when Uncle Sam will be asked "in the name of humanity" to drive "the yellow peril" from the American continent. We are now getting ready for that drive. The wild shrieks of the Japs are becoming more fierce every day. The contention for preparedness is heating and thousands are flocking to the recruiting offices. Preparedness consists not only of a large army and navy, but the spirit of envy is also essential to military equipment. To stir up this spirit the capitalist press has for years past been creating in America, fear and suspicion of Japan. Hate always follows in the trail of fear. Hate and fear are two of the chief assets of militarism. The nations of Europe realize the importance of these spiritual assets have for years been busy with press and platform creating a large supply in the hearts of the common people. This militarism grew so strong that the foolish act of a fanatical boy was the means of breaking the peace of all Europe as we labor under the great burden of "preparedness for peace!"

To Follow Europe's Lead.

We are getting ready to follow in the footsteps of Europe. The people of this nation do not realize the great significance of this agitation for preparedness. "Whence comes war?" From the lust of the flesh. These are the words of the beloved disciple, James. Are we going to allow our young men, the hope of the future, to be sacrificed on the altar of Mars that the greed of the money lords may be gratified? Such is the inevitable result if we allow capitalism to stand. Capitalism must have foreign markets, for without foreign markets there is no place to dispose of the toll taken from labor, toll which represents a large part of the nation's power has been paid scarcely enough to feed shelter and clothe him. This

is the hire of the laborer that James, the half-brother of Jesus, said was kept back by fraud.

Under capitalism it is gathered through the channels, viz: rent, interest and profit.

Capitalism has grown so rapidly (by virtue of modern machinery) that the surplus (toll) is greater than foreign markets can buy. Because of this we have been experiencing for several years a world-wide panic. So great is this panic that, notwithstanding the increased productivity of man, the loss numbers are felt by charity, and not for the European war many of our industries that are running today would be closed, causing hundreds of thousands that are now working to be counted among the unemployed. Yes, capitalism must have foreign markets or die. And capitalism, rather than die, will go to war for markets. So long as we have capitalism we will also have wars. Wars and rumors of wars are inevitable under private ownership of industry. We may cry peace until we are black in the face, but there will be no lasting peace until capitalism is overthrown.

The Panacea.

There is but one thing that will establish permanent peace among the nations, and that one thing is an industrial system based on the principle of the brotherhood of man, a system that is in harmony with the teachings of Christ. That system is public ownership of industry. It is gratefully managed for the benefit of all. It will deal justice to all men, giving to every worker the full social value of his toil, keeping back just enough toll to replace worn out machinery, enter into new enterprises as the genius of man will from time to time devise, build and maintain schools, sanitariums, parks, highways, etc., etc. Public ownership of industry will cause the welfare of one to be the concern of all for their interests will be mutual. It will take from man the temptation to live off the toll of his fellow man, for service will be recognized as of greater value and therefore become the coveted thing of honor. "The love of money" which is the root of all evil" will die a natural death, and the selfishness of the vacancy created man will be enabled to hear the voice of Jehovah speaking to his inmost soul. His moral senses will respond to that voice as does the grass of the field to the sunshine and rain. Latent powers that now lie dormant will germinate and man will grow into the fullness of stature. He will "go on to perfection even as God is perfect." Generosity will take the place of greed for there will be plenty for all and to spare. No one will need to look anxiously to the morrow concerning what he shall eat or what he shall wear.

The Power of Truth.

Why should man worry about the future? It is a truth that the force which brings a thing into existence also provides for its maintenance for there will be plenty for all and to spare. No one will need to look anxiously to the morrow concerning what he shall eat or what he shall wear.

SOCIETY NOTES

Society items for this column will be gladly accepted by The Times.

The Cozy Sing-club enjoyed a delightful session last Wednesday with Mrs. Bohler, as hostess. Mrs. Adams won first prize for high score. The guests of the club were Mrs. Bess and her sister, Mrs. Cox, and Mrs. Kinney, of South Dakota.

The ladies of the Modern Primitiva Sewing society spent the afternoon last Thursday with Mrs. C. E. Allen. In the evening they were joined by their husbands. The guests enjoyed a delightful picnic supper during the evening, about forty guests were present.

Miss Martha Stearns was hostess at a pretty lawn party last Thursday afternoon to about forty young people. The hostess served a dainty luncheon. Present were Winifred Spencer, Estina McKinstry, Laura Hillier, May Ross, Lois Baller, Jennie and Lottie Ross, Anita McKeven, Gertrude Kunkel, Mary and Ethel Wood, and Lois Eas.

Honoring Miss Wanda Hoag, Misses Pearl McShen and Ethel Dillendroffer were hostesses at a party given Monday afternoon. A feature of the afternoon was a modern romance in nine chapters, written and arranged by the guests. A dainty two-course luncheon was served the guest. Besides the guest of honor were, Misses Elsie Dillendroffer, Fayuga Oat, Mary McShen, Alice Goodall, Harriett McShen, Fern Goodall, Florence Goodall, and Mrs. A. Parks. A color scheme of yellow and white was used in the decorations, and in the refresh-

ments. The guest of honor received a number of useful and pretty gifts.

Miss Thelma Conover was hostess at a house party last week at her pretty country home, near Rock Creek. The guests joined in a dance at Rock Creek Saturday evening, afterward returning to the Conover home. After doing full justice to an enjoyable dinner, the guests returned home Sunday evening. Present were Misses Rosalyn Putnam, Margaret Putnam, Mary Goodall and Thelma Conover, and Messrs. Eugene Hart, Leslie Eppler, M. McDonald, and Lyle Devery.

A PLEASANT PICNIC

Golden Rule Sunday School Enjoys Day at Griffith's Grove.

The annual Sunday school picnic of the Golden Rule Sunday school, was held in Mr. Griffith's beautiful lake grove, on Wednesday, August 25, 1915. It was an old-fashioned all day's picnic, and proved to be a very enjoyable affair to about one hundred and thirty men, women and children. Most of the crowd arrived before noon and after spreading table cloths on the grass under the shade of the trees, the ladies soon set before eyes such a tempting array of toothsome delights as can only be imagined and never adequately described. Suffice it to say that it was topped off by twelve gallons of lemon cream and that every one present did ample justice to the delectable repast. After dinner the children played various games and enjoyed the swings which had been erected for their especial pleasure, while the older folk catwaded in Billie group under the trees and chatted an only happy, neighborly country folk can. Later in the afternoon several baseball games were taken of the picnic party. An evening drew near the group began to break up and after the usual scramble to get our belongings properly stowed away again, we wended our way homeward and leaving it back a lovely picnic and having to enjoy many more such pleasant times together.

CHECK ARTIST IN RUPTURE

Passed Several Bad Checks Drawn on Local Bank.

Local merchants are mourning the visit of a gentleman calling himself Ross Franklin, who floated several checkable checks around town and then got away with the proceeds. Franklin started work here a couple of weeks ago, buying a car, and his motor cycle for \$200 and giving two checks on the First National Bank of Twin Falls. The Golden Rule was caught for \$175.00, and all the checks were returned with the notation "No account." The sheriff is looking for Mr. Franklin. Another case came to light this week, but as it involves a lady who has suffered enough, we forebear the details.—Rupert Democrat.

BUCKEYES ATTENTION

Annual Picnic at Waters' Grove, Saturday Afternoon, Sept. 11th.

Every person on the Twin Falls tract, who was born in Ohio, or who lived there as much as five years, or who is married to such a one, together with their children and friends are urged to come with well-filled buckets, to Waters' Grove, one mile north of Twin Falls, Saturday afternoon, September 11. The Hon. Addison T. Smith, of the Buckeye Club, will speak at 4:30. Dinner promptly at 5:30. All are invited to come and get acquainted and have a good time.

Handling the bull on the ranch is a matter of much importance to the dairy farmer and stock growers in general, especially to those handling the dairy breeds which have a tendency to be more vicious than the beef type.

Some keep a young bull until he shows signs of viciousness, then dispose of him, replacing him with another young animal, with detrimental effects to the herd.

As a means of restraint it is advisable to dehorn the bull and put a good ring in his nose. At the first signs of viciousness, hobble him with a strong pair between his hocks, between the hump and fetlock joints, on the hind. Restrained in this way, his viciousness is not inspired, and even a child can keep out of his way. Always, all, bear in mind that a bull is never really trustworthy.

MINING ENGINEER KILLED

Professor C. E. Hayden, Well Known Known at Twin Falls.

Bellingham, Wash. — Professor C. E. Hayden of this city, a mining engineer, was killed last Sunday afternoon 20 miles north of Harrison Lake. B. C. when a shotgun carried by J. B. Ellinger, another member of the party, was accidentally discharged, the loads of both barrels entering Hayden's side. Death was instantaneous. Ellinger in telephoning here said that Professor Hayden was killed in a slide. News of the accident was reported by Provincial Constable Barber at Alton.

The scene of the accident is about 18 or 20 miles from the head of Harrison lake. In all there were four members in the party and the trip to the Elliot district had been made for the purpose of inspecting certain mining properties. The party was returning on horseback and it was when Professor Hayden attempted to pass Mr. Ellinger on the narrow trail that the hummers of the double-barreled gun which Mr. Ellinger was carrying across his saddle caught in the horn of the saddle, discharging both barrels.

While two of the party remained to guard the body, Mr. Ellinger rode the 20 miles to Harrison lake and thence by boat about another 30 miles to Agassiz, arriving at the latter place Monday morning. Acting upon instructions given by Chief of Provincial Precincts Smith, Provincial Constable Barber left for the scene of the tragedy with coroner Elliott. It is intended to hold an inquest on the spot if a jury can be secured. The body will be brought here for interment.

Mr. Hayden was born at Ottumwa, Ia., 66 years ago. He was graduated from the University of Iowa and for several years was professor of mineralogy in that university. On going

STORE NEWS

These cool nights and mornings will remind you men folks of heavier underwear and we are ready to take care of you with three good numbers of union suits that will come in just right for this kind of weather.

One is an ecru color, fine ribbed in a medium-heavy weight; cut over a full pattern, with wide flap in the back, making it particularly comfortable for men who have to bend or stoop in their work. This has large, extra quality of pearl buttons, elastic neck, and extra good quality of cuffs on the sleeves and legs. The kind that other stores are selling for \$1.25 and \$1.50. You can buy them here at \$1.00 each.

Another is a cream color, soft and fleecy on the inside; wool finish; made with closed crotch. Extra good quality of large pearl buttons and very handsomely trimmed. Looks and feels like a \$2 garment. Our price 98c each.

Also a light gray or silver color; soft and warm without being too heavy. Double elastic collar band; bound fronts. Our price on this number is but \$1.00.

We also have some splendid numbers in boys' union suits.
