SALMON COMPANY DENIED NEW TRIAL

Plea For Rehearing Refused in Federal Court.

SETTLERS WIN IMPORTANT VICTORY IN SUIT

Judge Dietrich, in Federal Court, Decides Against Salmon River Land & Water Company.

Moscow, Id.—In a decision handed down in the federal court Judge Dietrich, the Twin Falls-Salmon River Land & Water company was denied a new trial in one of the largest irrigation suits ever brought in Idaho and involved more than 75,000 acres of land owned by settlers whose rights to sufficient water were involved in the case.

The plaintiff, A. E. Caldwell and the settlers of the defendant company's project, brought an action to compel specific performance of terms of contract upon which the lands and water in this Carey act project was sold.

The settlers alleged that they were not furnished sufficient water or as much water as the terms of their contract of purchase called for and that they were thereby greatly damaged.

Judge Dietrich held for the settlers and also held that the company had sold more water than it had and also held that the company should be restrained from disposing of any more water to other purchasers.

Memorandum decision on application of defendant to reopen case. A. E. Caldwell, et al., plaintiffs, vs. Twin Falls Salmo Land and Water Co., a corporation, defendant.

FIRE DESTROYS HAY

Burns Large Stack for J. H. Seiver Near Castletford.

Fire, which started from an unknown source, but which is believed to have been set by some hobo who slept in the stack the night before, burned a large stack of hay last night, containing about 25 tons for J. H. Seiver, whose farm lies adjoining Castletford, about 7 o'clock Saturday morning. The fire started in a haystack near the field from which a clover seed crop was threshed a few days previously, and they were checked by the fire which was blowing around the interior of the field. The cause of the fire is unknown, but it is believed that a hobo slept in the stack of hay, but it was not ascertained accidentally in that way. However, the flames were discovered about seven o'clock Saturday morning by Mr. Seiver, who is believed to have started the fire to keep it from spreading.

MORE STORAGE RESERVOIRS

Impound Water of the Big Wood River Near Halley.

A. E. Cahoon is going to make two reservoirs. One will be near the junction of the north fork with Wood River, some seven miles north of Ketchikan and the other will be on the Big Wood river, about half a mile above Guyer Inn. These reservoirs are intended to impound or store water for irrigation purposes, each to be of sufficient capacity to hold enough water to irrigate 10,000 acres or double that area for both. The water will be conserved during the winter and early in the spring when needed will be turned into Wood River at its nearest point to the reservoirs and taken out where wanted. Mr. Cahoon intends to proceed for himself near the Core ranch and to sell the remainder to settlers in the Big Wood River valley. There will be no lack of demand for the water, as there is a demand for much more water than can be given were there a storage reservoir every few miles. Mr. Cahoon has been in the application for permits for these reservoirs with the state engineer and as that official is likely to approve of the plan Mr. Cahoon is getting preliminary work in order to get it completed before snow flies. Floyd Angell, C. E. E. H. of Halley is the engineer, and Mr. Cahoon is engaged in surveying and mapping the sites during the past 10 days.—Halley News-Miner.

SPARLING SENT TO PENITENTIARY

Sentence Pronounced on Noteworthy Foreigner.

PRISONER NOT IMPRESSED WITH AMERICAN JUSTICE

Jury After Hours of Deliberation Find Sparling Guilty of Obtaining Money by Fraud.

On Saturday afternoon, A. L. Sparling, who was convicted by the district court for obtaining money by false pretenses, was brought before Judge W. A. Babcock for sentence. When asked if he had anything to say why sentence should not be passed, Sparling made quite a speech. He seemed to think that he was convicted because he was an educated man. The prisoner also tried to show the judge that he did not live beyond his income, stating that he had lived in the United States for four years and had only bought one suit of clothes. After he had concluded his talk, his honor pronounced sentence, which was that he be confined in the state prison at Boise for not less than one year nor more than fourteen years. It is understood that Sparling had a wife and child in the western part of the state.

ARM CAUGHT IN GRINDER PULLEY

Build Man Plunged Between Pulleys One Hour.

Dale Gilmore, son of Mr. and Mrs. W. S. Samuels, who live on the Park or place southeast of Buhl, had an accident which was extremely painful and which came near resulting in his death. While he was at work between two iron pulleys and held him there for an hour. One bone was broken in his arm just about the wrist joint, and the other between the knuckles on the back of his hand, so that they stood away from the hand altogether. He was alone at the time and was not helped until he had fast until Mr. Samuels could be called in from the field to get him home. It required a half hour's work after help arrived to free his arm from the pulleys.

A gasoline engine is used to run the feed grinder and Dale Gilmore reached between the drive belt to oil some rollers and was caught between the drive belt and hand between two of the drive pulleys on the feed grinder. The engine was stopped and the pulley on the shaft and his hand was between the two wheels, which nearly took each other. The gasoline engine was stopped and the pulley on the shaft was caught, and it was fortunate for Mr. Gilmore, or it would have pulled his arm loose from his body. The engine was run for two to three hours until the machinery could be taken apart so as to get his arm loose. He came to town where he was well known as one of the boys and he was taken to the hospital in the above city came last week and close upon his heels the sad news of his death after a few days of illness.

The success of the special dinners and musical programs Saturday and Sunday at the Rogerson Cafe has decided the permanence of these features, according to Mrs. Arrol, manager of the cafe. GEN STATE PURCHASES-YARDS

Merrill Company Buys Out Property at Nampa, Kuna and Melba.

For approximately \$50,000 the three yards of the Lloyd Lumber company, at Nampa, Kuna and Melba, were transferred to the Gen. State Lumber company. The purchasers, whose headquarters are at Pocatello, will take possession some time in January. The Gen. State Lumber company is a concern with heavy financial interests in the lumber business throughout the intermountain country. Merrill and his associates were here to close the deal for the purchase of the Lloyd Lumber company holdings. His health is assigned as the reason for his absence. The property of F. E. Lloyd the proprietor, has been inactive for a number of months, leaving the management of the business to his son, Whittor. In all probability the younger Mr. Lloyd will be retained as manager of the Nampa yards. It is also said that E. C. Lloyd will be kept in charge of the company's business at Kuna. The Lloyds came to Nampa in 1913, having sold the Independence Lumber company. Immediately they instituted a policy of expansion, establishing first a branch house at Kuna and later on at Melba.

WALNUTS IN IDAHO

English Variety Can be Successfully Grown in Southern Part of State.

Proof that English walnuts can be successfully grown in certain sections of southern Idaho was furnished by the first crop of nuts which was in the Tuesday with some excellent samples from his ten-acre walnut ranch near Halley. The nuts were from trees not yet a year old, but the quantity is larger by one-third than the California product. Professor Lacey's walnut ranch in Halley was the first ranch of this kind to be established east of the Cascade mountains. It was planted two years ago and while some of the trees have died, the quantity now it will not come into full bearing for two years yet. Although the present varieties of English walnuts cannot be grown everywhere in southern Idaho, there are many sheltered districts where they can be made a very profitable investment. The nuts are produced in Idaho in a similar way to those of the Snake river basin and some of the best lands near the foothills of the Nampa Leader.

MANY FORD MACHINES

Ford Company Has Turned Out 1,000,000 Autos.

On October 1, The Ford Motor company, since the first car was completed June 15th, 1903 had manufactured and sold 1,000,000 cars. That statement, which has been made during a period of about 12 years and 190 days. This is a record, not only far surpassing of course, anything in the history of the automobile industry, but unique in the history of the industrial world. Nothing approximating it has ever been recorded, and probably never will be. This total of 1,000,000 cars, is the joint output of the Ford Motor company's factories in Detroit, Walker, and Dearborn, Michigan. The twenty-five Ford assembling plants in this country.

THINK ABOUT IT Twin Falls Commercial Club

The note of protest by the allied nations against the interference with neutral shipping is said to contain teeth. It is to be hoped that it will convince England of our intent to defend American rights. It looks as though the ideal chance of this government has come to make good, England and France are worried over the Balkan situation. They have their hands full without any added trouble. They need every possible assistance to carry on the war which is broadening its scope daily. America can and should insist that unless England and France treat neutral commerce with proper respect that this country will withdraw any assistance and will forbid the further shipment of arms and munitions of war. It will be a body blow and one that will not wait the approval of the whole nation.

SHOULD SYSTEMATIZE GIVING OF CHARITY

It must be apparent to the people of this city that much of the generous giving of the Twin Falls people is along lines that do not promote the best results. Outside people come in and make home in house campaigns for funds to carry on work projects in Boise, possibly in Salt Lake City or possibly to assist some greater who deserve nothing from the good people of this city. Such has been the case ever since this city became large enough to attract attention of the outside world. The Salvation Army gets mighty good support out of this city. The other organizations for carrying on work among the poor are also supported very liberally here. The result is that the proper organization for carrying on the local work comes in last for the giving and is often times neglected when the donations are made by the citizens.

The Times would urge the people of Twin Falls this year to make a good big contribution right now to the Associated Charities. Give to the home needs first and if there is any prosperity left over give it on to Boise and Salt Lake. If any citizen has clothing which can be utilized by the organization send to W. J. Younes' office on Main avenue east, where it will be stored. Contributions of cash can be made to

Mr. Young or to Superintendent Blue. Above all, the citizens should not give to every solicitor who comes into the city. Make an iron clad rule to see that the solicitor has the recommendations of the proper officers of the local Associated Charities. Your duty is first to the poor of Twin Falls and until they are cared for not a penny should be sent outside.

TALKS ON THRIFT

IN WAR TIME

'Years of great prosperity are before us, and the continuing habit of thrift among the people will fortify America in its new role of world banker and assure the prosperity of the nation indefinitely.'—Seattle Post-Intelligencer.

Strange as it may seem the greatest amount of saving does not take place in most prosperous times. Conditions such as have arisen in some parts of this country as a result of the war in Europe are often the signal for a return to a simpler scale of living and an increased proportion of saving.

It will not take a very large increase of savings per capita to make radical increase in the amount of capital available yearly and that increase will be necessary to keep the factories the railroads and the mines going.

With the great European nations out of the market as lenders of money there is greater need in America for the cultivation of the saving habit among the people to accumulate capital with which to finance not only the growing demands of this nation, but also of those portions of the world that remain at peace.

If Americans respond to this new duty there will be no lack of capital for all the needs that are likely to be felt.

But will they? The trouble is that as the prosperity of the country has grown, most people have taken on more costly habits of living. It is easy to let the dimes and dollars slip away into new ways of spending and tippy hand to return to former frugal habits.

This is a time for men in moderate circumstances to get away all false pride. They should not no longer even if they do cook their own dinners, shave their own shoes, shovel their own snow and carry their own suitcases when traveling.

The life insurance companies advertise the fact that only 5 per cent of those who leave an estate. Ninety-five men make money, only five adequately save only 5 per cent of their gross income and out of this 5 per cent who leave estates, much more than one-half are found among the poorer class of people.

Many who live in fine houses and ride about in limousines, are constantly in debt and have a very hard time to make both ends meet. They leave no estates. It is noticed that the habit of saving has increased among the common people in the last few years, while among those who are often deemed rich it has decreased.

R. P. Schwenin On the Seamen's Bill

The American seamen are interested in sea commerce. It is expensive and likewise humiliating to have to salute a foreign flag every time a farmer wants to ship a bushel of wheat, a bale of cotton or a pound of farm products across the ocean. The American farmer is entitled to the protection of his flag in sending his products across the sea, and Congress should give such encouragement to shipping interests as is necessary to meet foreign competition in ocean commerce.

The bill provides that no ship of any nationality shall be permitted to depart from any port of the United States unless she has on board a crew not less than twenty-five per centum of which in each department thereof, the keel competition of these rival nations who are another. The Oriental sailor is obedient and competent and in the cheapest sailor in the world. It is therefore manifestly clear that if this law applied to all nationalities in the transpacific traffic, all would be on the same economic basis, but it works a simple hardship to all the ships of the world, except the Japanese and American ships, and with the latter it works two hardships. With the European, the cost of constructing a ship is no higher than the cost of constructing a Japanese ship, but if they had to provide European crews, while the Japanese operated with Japanese crews, the condition of competition would be such that they could not overcome the handicap and they would be driven off. But the American ship would have to contend not only with the tremendous increase of cost of wages in the substitution of the European crew for the Chinese crew, but also the greater initial cost of the ship. As the Japanese have now done away with their European officers and Japanese crews, all of whom speak a common language, there is no difficulty for them to comply with all the conditions of the bill and continue their Japanese crews with Oriental wages.

The law, therefore, instead of assisting the American ship, adds another heavy burden, while it places none whatever upon the Japanese ship, but, on the contrary, turns over to the Japanese the traffic of the Pacific Ocean, which the American ship is forced to forego by act of Congress of the United States.

The Whinnery horse beat the Lilly horse by its own length last Saturday afternoon at Filer. There was considerable interest taken in the outcome of the race.

Messrs. S. R. and A. W. Fawcett, and their families came here from Clover Valley, Nev., where they have been living on homesteads. They expect to make this their home if they can find a suitable location, by either buying or renting farms for next summer. S. R. Fawcett said that he was over this tract fifteen years ago, when the building of farms here was un-

heard of. He owned the Thousand Springs ranch at one time and laid the first water pipe across the river. Mrs. L. W. Hay called at the Herald office Monday to subscribe for the Herald and incidentally said that they, Mr. and Mrs. Hall, liked this country better than any place they had been. Mr. Hall purchased the Andy Wilson place southeast of Buhl about three weeks ago and they moved onto it last Saturday. They had visited at the home of R. G. Kimbrough, Mrs. Hall and Mrs. Kimbrough being sisters, and after spending a time looking for a location in California, came back and decided that this is the best place they have seen. They had lived a year at Alturas, Cal., from which place they moved here, though they had spent a year in Alaska.

M. L. Brown, brother of John A. Brown and his son, Walter, left Monday evening for Rockwood, Tenn., where he has 200 acres of rich coal and timber land which he is desiring to sell. Mr. Brown and his family have been spending the summer on a farm south of the town of Rockwood of the family preceded him to Tenn. about two weeks ago, where they expect to spend the winter. Mr. Brown subscribed for the Herald before leaving because he said he wanted to keep informed about the news around Buhl. He said that if he can dispose of his interests in Tenn., he will come back to Buhl and buy a farm next spring.

THEATRICAL NEWS

THE ORPHEUM THEATRE

Fine Bill for all the Week at This Popular House.

For all of the week the Orpheum is offering an exceptionally good bill in vaudeville and motion pictures. For the first half of the week the Rowland and Laywell trio are pleasing the theatre goers with their classy and clever variety of comedy, novelty and acrobatic dancing. This act is one of the best. In motion pictures, Chapter 16, of the romantic novel, "The Diamond from the Sky," is being shown. The title of this chapter is "The Charm Against Harm." The management is also showing two other splendid pictures.

picture, and were especially designed for William Fox by a celebrated artist of the ultra-modern school.

FAMOUS MAY IRWIN HERE

Famed Comedienne in Her Greatest Comedy, "Mrs. Black is Back."

The hundreds of thousands of people who have laughed at May Irwin's comedy powers on the stage have a joyful surprise in store when they see her in her first motion picture appearance, which occurs Thursday night at the Lavering theatre. This gifted comedienne has been presented in a four-part Famous Players-Paramount feature production of her greatest success, "Mrs. Black is Back," by George V. Hobart. "Mrs.

It could be on the stage. All those who are familiar with May Irwin's amazing ability will be anxious to see her in her first film performance; all those who have never seen this comedy artist on the stage will undoubtedly grasp this opportunity to witness the country's greatest comedienne in her foremost success. The production will be at the Lavering theatre one night only Thursday, November 11th.

CHAPLIN NIGHT AT ISIS

"Shanghaied" Will be Seen Tuesday and Wednesday Evenings Only.

For tonight and Wednesday evening Manager Margal of the Isis will present Charlie Chaplin in his latest great funmaking act. For these two evenings the funmaker will be seen in "Shanghaied," two fine reels of nothing but laughs. This is the latest production and has never been seen in Twin Falls before. "PEG O' MY HEART"

Return Engagement Starring the Popular Kitty O'Connor.

When a play of real human interest that appeals to the masses as well as the cultured is scheduled for presentation in this city it is a pleasure to patronize it. In this instance the commendation goes for the engagement of Kitty O'Connor's play of charm, "Peg o' My Heart," which comes to the Lavering theatre on Tuesday, November 16th.

Probably no play produced on the stage in the past decade has created so much favorable discussion from people in all walks of life as Hartley Manners' amusing comedy. This has been emphasized most conclusively by the large attendance accorded this attraction, when last presented here, and by the glowing tributes in the press. The action of the play which takes place in England, tells of a little carelessly raised Irish girl, who when she is transplanted into an aristocratic home of unknown relatives, meets with a chilly reception. She is unwelcome and tolerated simply for the income they derive through her, a legacy left her by the will of a wealthy uncle, she finally overcomes their dislike and wins for herself a titled husband.

I have eastern money to loan on improved farm lands or business properties.

If you are going to have a public sale see me. I am prepared to clerk the sale and purchase your paper.

Orpheum has been able to secure two of the best vaudeville teams on the circuit. The headliner is the Pepper Twin Brothers, in a singing, dancing and musical novelty act. The brothers are Canada's recognized bagpipe players and Scotch dancers. They appear in complete Scotch costumes, making a very pleasing appearance. If you care to see and hear Scotch singing and bagpipe duets with the Highland fling thrown in for good measure, do not fail to be at the Orpheum one evening the last of the week. Vail and Marjole will also be seen in a high class English novelty act, something artistic, refined and graceful. "The Zinc Lake Mystery," is an entertaining story in two acts wherein an outlaw poses as his own twin brother, featuring William Greenwood, Charlie Chaplin will be seen in a Keystone comedy entitled, "Caught in the Rain." The Mutual Weekly is always a popular feature at the Orpheum.

"Black is Back" is a rollicking, cheering, gay comedy of a young widow's difficulties, and as portrayed by the inimitable May Irwin, is one of the most laughable subjects ever produced in motion pictures.

Of the star and play, little need be said, for both are known countrywide, and in the film adaption the popular story is produced more effectively than

FASHION PLATE OF PROFESSION

Valeska Suratt, Star of "The Soul of Broadway," at the Isis.

For Thursday and Friday evenings of this week William Fox will present the "Soul of Broadway" at the Isis Theatre.

Valeska Suratt, the most discussed woman of the stage or screen, is as is known to theatregoers, the country over, the fashion-plate of the dramatic profession. Her gowns have made millions gasp by their beauty and daring as well as by their dazzling lavishness of design. In making her screen debut in "The Soul of Broadway," the latest of the great William Fox photodramas, Miss Suratt has outdone all her previous efforts in gowns and millinery, fashioned by famous modistes. Her gown, some daringly and uniquely simple; others that are calculated to make the feminine portion of her spectators break into astonished exclamations when they see them. It is estimated that in the course of "The Soul of Broadway" Miss Suratt changes her garments with every few feet of film. Many of them are designed to match the "acts" of "The Soul of Broadway," which latter in themselves are quite unlike any thing yet seen in a motion

STORE NEWS

There are some who have been under the impression that this store is not a man's store. To those who may still think that this is so, I want to say that I have quite a many kinds of goods for men and boys as I have for women and girls, and there are just as big savings for you men, as there are for the good women who have become my customers. Sometimes I think that we have more men customers than women. Just ask any man who trades here how we take care of him.

During the first two months after I came here many asked me to put in everyday shoes for men, and school shoes for boys and I finally decided to do so, and true to their promise those who asked me to do this came in, and bought shoes for themselves and their boys, and many have sent their friends. Some one said the other day, "Why don't you advertise shoes? My friends have asked me if you carry shoes." So I want to say to you that I do carry shoes, and like all other lines, I can save you money in making your purchases; about 15 to 25 cents a pair on boys' shoes, and 25 to 50 cents a pair on men's shoes, made of leather all the way through, even in these days of high priced leather, and all kinds of substitutes for leather.

This is the time of year that most men are interested in buying shirts for winter wear, and we are ready to take good care of you in this line. There are three qualities of shirts that are usually sold at a dollar, a dollar and a quarter, and a dollar and a half. We have one lot in a large assortment of patterns and colorings, in the quality that sells for a dollar and a quarter, and a dollar and a half in other stores, that we sell at one dollar each, 3 for \$2.75, or 6 for \$6.25. Stop our window display.

Collars are so largely worn now-a-days that nearly every one is interested in them. I carry a line of correct fitting collars, in an extra good quality, the equal of any that are sold at fifteen cents or two for a quarter; but like most other merchandise that I handle, the price is lower than you can buy them for in other stores; my price is 12 cents each, or 6 for 65 cents, 1 dozen for \$1.25.

When it comes to Duck or Canvas coats, for men and boys and Moleskin coats for men, and Mackinaw coats for men and boys, or Sheep lined coats for men, I am in a position to offer you the best makes and the best kinds at lower prices than you will find them elsewhere.

Come in and see our men's good quality, Duck Coat, with wide corduroy collar, double breasted, with patent buttons that hold; the kind other stores ask \$2.00 for. Our price is only \$1.69.

Ask us to show you our men's heavy Duck or Canvas Coat with wide corduroy collar, corduroy throat protector, double breasted, with patent buttons, and slicker interlining; (not rubber cloth that cracks.) Others ask a lot more, our price \$2.00. See our big window display.

November 1, 1915.
Cattle.
A small run with steady prices is today's market in the cattle division; steers went fast at \$1.50 to \$1.75 for best grades; cows sold at \$1.25 with heifers going at \$1.25 to \$1.25.
Hogs.
The largest run of the season (over 6300 head being counted in) with a weaker market constituted the day's business. Buyers were very slow to take hold but finally got together and hogs began to move rapidly at \$1.75 for tops. Bulk at \$1.60 to \$1.65. With the winter months coming on the hog runs are expected to be larger than usual.
Sheep.
Not enough sheep came forward to make the market, 240 being the total number received; prime lambs are

bringing \$7.35, ewes \$5.50 and yearlings \$6.00.
