OPENS FEB. 7TH**

### Prominent Speakers of Extension Department on List

WIDE RANGE OF SUBJECTS ARE  
TO BE DISCUSSED

**Local People to Assist in Program  
Dates for Twin Falls Institute Not  
Yet Set.**

The dates have not been set for the holding in this city of the Farmers' Industrial Exposition, by the extension of the department of the interior, the national school, the national department of agriculture and interested organizations. The meeting of the state horticultural society will be held in this city on February 2, 3 and 4. The week following the institute will be held in this city. The following is one held in later. The society will postpone the meeting here until later in February and it will be necessary to see when arrangements can be most satisfactory made before announcing the program. There will be considerable local talent worked into the program.

with its seating capacity of 3000 will begin on the chautaquga grounds Monday morning and by Tuesday night the building will be finished and ready for the training of the two big choirs of

400 voices each that under Professor Butler, the world's greatest choir leader will lend inspiration to the Oliver meetings which begin on February 13. The tabernacle will be dedicated a week before the beginning of the evan-

gellistic services. George H. Reddin, advance man was in the city a couple of days within the past week making preliminary arrangements for the event.

great meeting. There will be an adult choir of 400 and a children's choir of 400. The training of these voices will be largely in the hands of Mr. Heddin, who will return to the city in a few days to remain until the beginning of the meetings.

The big tabernacle will be heated with stoves and will be made entirely comfortable.

## TAX RECEIPTS LESS THAN ONE YEAR AGO

Removal of Penalty Where Half Is Paid Makes Difference. Number of Receipts Greater.

Although there has been a material increase in the number of tax receipts issued by the county treasurer this year over last, the amount collected is almost \$50,000 below the tax collected last year, obviously an account

of the fact that there is no penalty attached to the last half of the taxes if not paid until June. The total collected this year is slightly in excess

of \$300,000 while last year it amounted to something over \$350,000. The Oregon Short Line and several other big corporations took advantage of the

corporations took advantage of the law to pay only half. The sum held out by the Short Line alone amounted to about \$20,000.

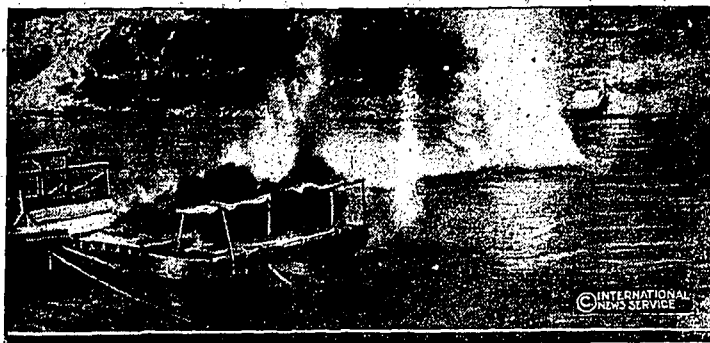

### MERCHANTS ELECT DIRECTORS

The Merchants' Protective association at a meeting in the Commercial club rooms last night elected the following directors: L. T. Wright, H. M.

Following directors: E. J. Wiggins, H. M. Skeels, E. J. Jenkins, V. H. Decker, B. L. Bronaugh, G. W. Shrout, P. W. McRoberts, M. E. Jennison and H. E. Barber. The officers of the association

will be selected from the directors by the directors.

## EDUCATIONAL CLUB ORGANIZED IN BUHL

Purpose is to Help Solve All Sorts of Local Problems. Farmers Union Meeting.

The Buhl Community Educational club was organized in the west end city Monday evening, declaring in its constitution that "it shall be the purpose of this organization to co-operate in the solution of the problems which arise in the educational, social and civic life of the community." All citizens of the school district in which Buhl is located and all having children attending in such school are eligible to membership. Officers elected were C. G. Manning, President; Mrs. C. E. Ingelsby, vice president; Mrs. A. M. Stangle, recording secretary; K. H. Corant, corresponding secretary.

The Farmers Union met last week and elected a board of directors for the coming year, consisting of John Mowhen, Matthew Scully, Albert Winters, C. G. Manning, and Harry Winters. An eight per cent. dividend was declared.

Buhl will have city carriers after the first of July. The postal receipts for the past year having increased enough to insure that result.

C. H. McQuown, for seven years police judge of this city has resigned and his place has been filled by the appointment of L. C. Washburn.

The corral at the west end of the city are being removed on account of the proximity of the hog yards to the town.

J. E. Lacey has filed suit for divorce with a man sharing the appropriate cognomen of Stillman. Lacey charges that after Stillman had proved the right to his name, he changed it to Sullivan to hide the identity of himself and the runaway wife.

## MAY EXTEND FROM BUHL

A crew of O. S. C. civil engineers and surveyors, arrived in Buhl the first of the week and are making surveys from Buhl to Castleford, presumably with a view of extending the railroad from Buhl to Castleford, says the Buhl Herald. They made surveys from a point seven miles south of Twin Falls, on the Hollister branch, west through Clover and to Castleford last week.

## PLUG CHEWING A WHOLESOME HABIT

In No Other Way Can You Get All the Richness and Flavor of the Leaf

## "SPEAR HEAD" BEST CHEW

Many prominent physicians declare chewing to be the most wholesome way of enjoying tobacco.

"I began chewing some years ago," said one, "and I soon found that it is the only way to get the benefit of all the rich juices stored up by nature in the tobacco leaf. I refer, of course, to the plug form of tobacco, which is the most natural and the cleanest form." "Chewing good tobacco like Spear Head makes the salivary glands more active, which in turn has a beneficial effect on the whole system. Add to this the sweet, mellow, delicious flavor of a chew of Spear Head, and you have the highest possible degree of tobacco satisfaction."

"I mention Spear Head because I have found that this brand is exceptionally pure, being made in a factory free from any tobacco residue."

Spear Head is made of sun-dried Burley, which is selected to be the richest, mildest, finest flavored tobacco leaf in the world. And it is produced by the latest processes, which develop the quality and flavor of the choice Burley to the supreme degree.

A chew of Spear Head has a wholesome relief that is found in no other chewing tobacco. Try a 5c or 10c cut.

## HOLSTEIN AND THE JERSEY RUN CLOSE

Contesting Association Figures Show Little Difference Between the Two Breeds.

The race between the Holsteins and the Jerseys in the Contesting Association is close enough to be interesting. The first month the Holstein men rather felt they had the best of it and it appears some of them felt a little too sure. In the second month the Jerseys came in for a bigger share of the honors, but evidently not enough to put the Holstein men on their mettle. The third month (December) C. E. Long with his seven Jerseys carried off enough of the honors to show the Holstein owners that Jerseys can do good work in Twin Falls country.

Mr. Long's herd captured first place in herd average and in the individual cow record, he can claim the second and third prizes.

The giving of the greatest amount of butter-fat for the month was a grade Holstein owned by A. A. Stauffer. She gave 63.6 pounds, which by the way, makes her high cow for December, but puts her in first place, as the cow giving the butter-fat in any month. It is also interesting to note that she is only a grade. This is the first time a grade cow has been able to win the blue ribbon. Some of the men who have a few Holsteins are beginning to look to their Jerseys. Another interesting circumstance is that a large per cent. of the cows making the honors are to be found on the farms as the silos. Here are the figures: October, 25 cows on farms with silos; 20 on farms without.

November, 24 cows on farms with silos, 18 on farms without.

December, 32 cows on farms with silos, 19 on farms without.

It is probable that most of the silos were not opened in October, but the point is that the silos and the best herds are on the same farms, as an average. It is true that some of the best herds have no silos, but most of their owners are giving the silo serious consideration. Another feature worthy of note is that of the 19 cows which were on the honor roll for all three months, seven are being fed hay. It appears that the silage must have some good effects on the yields of these cows.

While considering testing associations, it might well be to consider results obtained in seven herds in the first association organized in the United States, and which is still in operation. The first year, 1906, the cows averaged 231.1 pounds butter-fat, which yielded \$22.23 more than cost of feed. The last year's record averaged (1913) was \$24.72, giving returns over cost of feed of \$61.63. The least profitable cow had been disposed of. No man will keep a bonder cow if he knows it, and the testing association is one of the best means of knowing.

Mr. O. T. Koester, the tester for the association, is making names of dairymen who wish to join such an association. His address is Box 141, Buhl, County Agriculturalist, W. N. Birch, is also making a list of those interested. If the two of them succeed in finding enough dairymen to justify another association. They request that all eligible hand in their names.

## PRIVATE USERS OF AUTOS NOT TO BE TAXED

Proposed Federal Revenue Bill Hits Manufacturers of Machines and Not the Owners.

WASHINGTON.—The proposed federal tax on horsepower of automobiles will be imposed on the manufacturer and not on the owner, according to a statement issued Monday night by Secretary McAdoo.

"No yearly taxation of automobiles and factory cars similar to the license taxes of states and municipalities is contemplated," said the statement. "The tax will be levied on the manufacturer of a motor vehicle, and a federal tax will be imposed on automobiles in use by private owners. Legislation to provide the federal government with additional revenue will be considered. It is said, at a conference of Democratic leaders at the home of Secretary McAdoo Saturday night.

## SNOW DEEP IN SOUTHEAST

POCATELLO, Ida.—Monday night Pocatello and southern Idaho was visited by a snow fall of from 9 to 11 inches. The heaviest snowfall in 10 years. It means thousands of dollars to the farmers. The train on the Victor branch of the Short Line was held up by snowdrifts as deep as 16 feet. The road to Mackay was kept clear, although 20 inches of snow fell.

## STRIKE AT YOUNGSTOWN IS DECLARED OFF

State Mediator is Successful in Ending Strike. Will Attempt to Adjust Other Troubles.

YOUNGSTOWN, O.—Fred Croxton, state mediator, announced Tuesday night that the strike of tube workers at the plant of the Youngstown Sheet & Tube company had been declared off. The men at the mass meeting Tuesday night voted to accept the company's offer of an increase in wages amounting approximately to 10 per cent and will return to work on Wednesday.

The plant employs ninety-five hundred men, not all of whom, however, have been on strike, although they were compelled to quit work. Mediator Croxton is endeavoring to settle the strike at the plant of the Republic Iron & Steel company and conferences of representatives of the company and the men will be resumed Wednesday.

Announcement was made at headquarters of Brigadier General John C. Spinks in command of the two regiments of Ohio national guard now here, that as a result of the change in the situation an order for the withdrawal of the militia probably would be issued Wednesday.

Announcement was made Tuesday night by the Republic Iron & Steel company that the company's plant at Lansingville, near here, will resume in full Wednesday. The strike, which tied up the operations of that company, originated at that point and affected seven thousand men.

The East Youngstown and Struthers plants of the company resumed in all departments Tuesday according to an official announcement.

John D. Rockefeller, in a telegram received late Tuesday, denied charges made by Thomas H. Flynn, general organizer of the American Federation of Labor, that the Rockefeller family had been in any way interested in the proposed merger of big, independent steel interests or were responsible for the siting in East Youngstown last Friday.

Mr. Flynn had charged that the plot was part of a scheme to depress the price of stock of the Youngstown Sheet & Tube company, so that control could be obtained and a merger effected with several other companies in the district. The Rockefeller family company was to be included. When the telegram was received, Mr. Flynn at once replied that he would, if Mr. Rockefeller desired, submit to him the source of his information.

## THREE MILLS ARE DESTROYED IN DAY

Powder Factories in Wilmington, Delaware, Wrecked. May Have Been Incendiarized.

WILMINGTON, Del.—Following the explosion of the Du Pont powder plant, Carney's Point, N. J., early Monday, in which three workmen were killed, two mills blew up at the Carney's Point plant here Monday afternoon. In one of the latter accidents one workman was slightly burned.

Three explosions within one day have had the effect of making the secret service and police departments of the Du Pont Powder company unusually active in looking for possible clues indicating "outside influence."

A press mill blew up at 3 o'clock Monday afternoon with a loud report. It was in this explosion that the workman was hurt. Ninety minutes later a mixing mill near the press mill also exploded. It contained five hundred pounds of powder. No one was injured. Both mills were blown to atoms, the shocks being heard for at least a mile.

The disaster at Carney's Point was due to an explosion of a "leakless powder," while at the Upper Hagley yard it was black powder that went off. Up to a late hour Monday night there were no developments as to the causes of the three explosions. While expressing the belief that all the blasts were due to accidents, officials of the company have issued instructions for a searching investigation.

## HAMBURG-AMERICAN SECRET SERVICE CHIEF IS MISSING

LONDON.—The police searched today for Paul Koening, the so-called chief of the Hamburg-American secret service, who is at liberty on bail of \$50,000 on a federal indictment charging him with conspiracy to blow up the Welland canal. A warrant for Koening's arrest was issued yesterday by a magistrate, charging him with conspiracy in influencing Fredrick Schmidt, formerly a clerk in the National city bank, to deliver letters and telegrams to Koening. Schmidt was arrested and released on bail.

some time ago. The new charge against Koening is a misdemeanor which carries a maximum penalty of three years in the penitentiary. The police say they were unable to find Koening at a hotel where he was supposed to be living.

The federal grand jury continued today its investigation of alleged alien plots. It is said only the edges of the conspiracy have as yet been touched by federal authorities. Other indictments may be returned against persons whose names have not been publicly mentioned in connection with the alleged conspiracies.

## VAN DEUSEN WILL RUN ON DEMOCRATIC TICKET

Progressive Candidate of Two Years Ago For State Auditor. Will Be Candidate.

Charence Van Deusen, the man who is generally credited with making the dummy loan exposures in the state house which led up to and resulted in the discovery of a shortage of over \$22,000 in the state treasury, will make the race for the nomination for state auditor on the Democratic ticket and has authorized a statement to that effect. While Mr. Van Deusen will not start an active campaign for some time he wishes it known generally over the state that he proposes to conduct a vigorous one for the nomination. He has received assurances from all sides that he will be given hearty support. Mr. Van Deusen is the first Democrat to announce his intention of running for the nomination to state office.

That Mr. Van Deusen will be a formidable candidate for auditor is evidenced from the strong race he made for the same office as the nominee of the Progressive party ticket at the last general election. He led the ticket with a vote of 17,331. The Democratic candidate received 24,235 and the Republican candidate, 40,661. It is claimed by the ardent backers of Mr. Van Deusen that should he receive the Democratic nomination and poll say, where near the Progressive vote he did at the last election as well as the full Democratic vote he will be the next auditor of the state. Mr. Van Deusen is a vigorous campaigner and is familiar with the problems confronting the state in the renovation which is said to be even necessary of the several state departments.

## ABUNDANCE OF WATER IN SIGHT FOR NEXT SUMMER

The amount of snow on the ground in the watershed of Idaho streams at the first of the year was considerably above the average, with the exception of the Bear river drainage in the extreme southern portion of the state, says the Boise Statesman. But even in this locality there was much more snow on January 1 than there was one year ago, according to reports made to weather bureau headquarters in Boise.

the reports for December are highly encouraging to the farmers who irrigate. It is worthy of mention that January has already contributed a generous amount of snow so that conditions are extremely favorable for a plentiful supply of water next irrigation season.

The Weiser drainage is well above the average in the matter of snowfall. There was on the ground December 31, at Bear 28 inches; Cuprum, 26 inches; Heath, 10 inches; Hornet, 24 inches; Landore, 43 inches; and Smith Mountain, 88 inches.

The Payette watershed is well supplied for this time of the year. Reports to the weather bureau show 25 inches of snow on the ground at Kirkham, 29 inches at McCall and 24 inches at Pile creek.

Big Wood river will carry plenty of water next spring when the snow melts. There were 10 inches on the ground at Halley on New Year's Day and 22 inches along Soldier creek.

Arrowrock reservoir should have an abundance of water for the Boise project farmers in 1916. Boulder mine reported 30 inches on the ground at the end of the year. Cottonwood creek 15 inches, Grimes Pass 26 inches and Rattlesnake creek 10 inches.

Aggressive use of the classified cuttings will rent good properties, in or out of season, and practically cut out losses from vacancies.

## ALLIES ABANDON POSITIONS ON GALLIPOLI PENINSULA

Turkish Guns Prevent Holding Trenches Longer. Only One Man Wounded in Withdrawal.

LONDON—The remaining positions held by the allies on Gallipoli peninsula have now been abandoned with the wounding of only one man among the British and French, according to a British official statement issued last Sunday night.

Renewed activities of various kinds noted by the Turkish official communications in the past few days, has presumably been in the nature of preparations for the final act of the Dardanelles tragedy. Sunday night's Turkish official statement covering the period from Thursday to Saturday, records the increasing effectiveness of reinforcements of the Turkish batteries which have been drawing in and concentrating on the allies' remaining positions.

Another pang to the British public will be caused by the announcement Sunday night of the loss of the battleship King Edward VII., which has been blown up by a mine. The British official statement on this subject does not reveal the cause of the action and merely says that the disaster occurred in a heavy sea despite which the entire crew was saved before the ship went down.

The King Edward VII. represented an investment of nearly £1,600,000 and was one of the finest of the last class of pre-dreadnoughts, corresponding in general to the American ships of the New Jersey and Nebraska type and was only slightly older than the Natal, which was sunk by an internal explosion about a week ago.

## COW TESTER REPORTS GOOD RESULTS FOR BUHL SOCIETY

At the close of the first quarter's work the members were beginning more than ever to realize the immense good resulting from the work of the association, to both their herds and the dairy industry in Idaho.

At cows in the association meet the requirements for the honor roll during the month of December, 40 pounds of butterfat per month.

Nubbins, a grade Holstein owned by A. A. Stauffacher, securing first place with a record of 1795 pounds of milk, 3.9 or a total of 69.6 pounds of butterfat for the month, while a registered Jersey, owned by C. E. Long, secured second place with 1094 pounds of milk, testing 5.4, producing a total of 69.0 pounds of butterfat. She was Cassillan Lady No. 266,628.

Third place was captured by Lada Bright Light No. 266,608. She is also owned by C. E. Long. She produced 1175 pounds of milk, testing 5.0 or a total of 58.9 pounds of butterfat for the month.

In the high herd butterfat average for the month, C. E. Long secured first place with his herd of registered Jerseys. The average being 42.1 pounds of butterfat.

Fred Reed's grade Holsteins captured second place with an average of 36.1 pounds of butterfat.

Third place went to H. H. Stryer, his registered Holsteins averaging 31.5 pounds of butterfat.

As a result of the work of the association, three cows have already been sold to the butcher as unprofitable for milk production and 8 more are slated to follow.

That persistency in our herd has not been overlooked is proven by the fact that there were 10 cows on our honor roll in December which were also on the roll for October, which is unusually good for this season of the year. The association now has 27 members who own a total of 575 cows; twenty of these herds are headed by registered sires while seven herds have grade sires.

Besides keeping a record of the cows of the association, we also keep a close check on the cream separators owned by members. Investigations have been made in regard to the prices of linseed meal in car lots and the figures are now on file with the tester.

The herd tester desires to express his appreciation of the co-operation extended him in his work by the secretary of the Buhl Commercial club, the Buhl newspaper and the newspaper at Twin Falls. At the Commercial club rooms in Buhl a desk of the tester and he now has a permanent place for business when in Buhl, where he can prepare his reports and attend to his correspondence and also has been extended the use of the rooms for holding meetings of the association.

On Friday afternoon, December 31, the members of the association and their wives were entertained at luncheon by the Buhl Commercial club. A nice lunch was served after which the guests were entertained by an exhibition of beautiful colored stereoscopic views of the herds, barns, farms, and homes of the Buhl country. County Agriculturalist Birch and Secretary Bradley of the Commercial club made short addresses complimenting the association on its progress. It was decided to hold these meetings monthly in the future so that feed questions and other matters of importance could be discussed.

Tester.

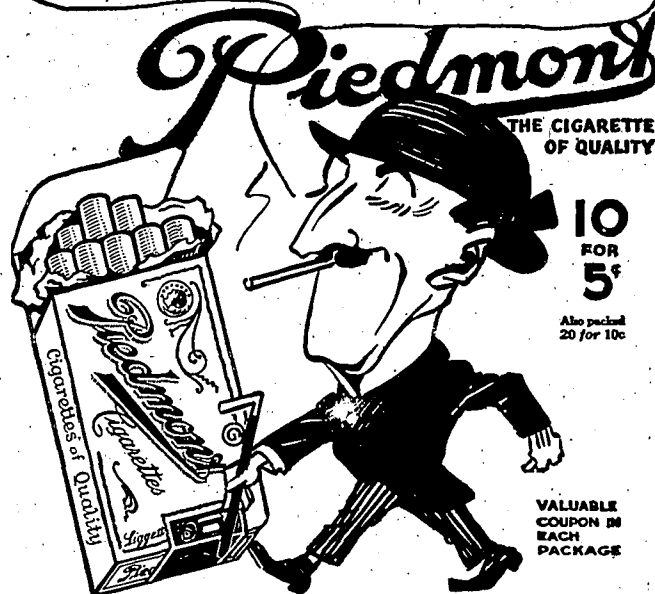

## TALKS ON THRIFT

Every man should be jealous of two things: his good name and his credit. A good name helps his credit and good credit helps a good name. He should value his reputation as his choicest possession, and he should guard his credit equally well, if not better than he guards his money. He can protect his good name by keeping good company, avoiding questionable places and bad habits in general. His name is what he chooses to make it. He can court—borrowing and paying as he goes—buying on time and paying on time.

The greatest force in the business world is credit—the power to borrow, to get trusted; to obtain the property of another to use as our own on a mere promise to pay. "Credit," says

## BUILDING JUST THE HOME YOU WANT.

¶ In speaking of the home you want to build one writer has said:

¶ "The house he is to build is the house of his hopes and dreams, probably the fruit of long years of work and study and contemplation; it is to be a home for his soul as well as his body, a little corner of the world that is essentially his own."

¶ In other words, to be just what you want, your new home must be vastly more than an example of practical construction of good quality materials. Its whole makeup, interior and exterior, must interpret and express you—it must harmonize with your individuality.

¶ The floor plans and sketches comprising our "Cottage Home" Plan Service are chock full of sensible suggestions which the architect or builder can carry out at a modest outlay.

¶ The home of your hopes need not be an expensive home.

## GOODWIN'S ON MEXICO

Goodwin's Weekly, one of the most brilliantly edited Republican publications in the west, in discussing the latest Mexico outrage, places the blame where it really belongs, when it declares that the men who were killed should never have been sent out without a sufficient guard to protect them, and denounces the "mining companies who sent their officers and men to resume work without first taking means to protect them."

This criticism is the fairest that has yet been made by critics of the president. If a mining company in this country at the close of an Indian war had sent foreign workmen into the Indian country while predatory hands were still roving abroad without securing military protection for them, and the men were killed, deplorable as the incident might be, the foreign powers of which the men killed were citizens, would hardly have been justified in demanding intervention.

Goodwin's criticizes President Wilson for not invading Mexico on the assassination of President Madero and insists that after such intervention an election should have been called by the United States and a president chosen, when we should have retired without demanding any territory or pecuniary advantages. As Taft was president at the time that the murder of Madero occurred, the censure should have been directed against him, if against anyone, for failing to follow the course outlined. In fact, President Wilson simply followed Taft's precedents in regard to the Mexican situation. But Goodwin's admires Taft and therefore throws the blame on Wilson, though it does have the fairness to exonerate him from the charge of cowardice that small politicians have made. It says: "The hardest thing that can be said about President Wilson is that he has no natural aptitude, no training, no experience to fit him to cope successfully with assassins and thieves who have for the time being obtained places where they can prey upon their fellow men." The critic acknowledges by implication that the representatives of South American nations are equally at sea.

However erroneous the opinion of Goodwin's may be on the incidental question as to whether Taft or Wilson managed the Mexican trouble as well as it might have been managed, it does well to call attention to the men who are to blame for the latest outrage, the great mining companies that sent miners into a lawless district without providing for their safety. They should have applied to the Mexican government for a sufficient guard and if that could not have been obtained, they should have stayed out of the danger zone until normal conditions were restored.

## WE WOULD LIKE SOME FIGURES

Before accepting too readily the implied strictures on the post-office department by Congressman Smith for the regrettable charge in the design for the Twin Falls postoffice, it might be well to remember that in order to provide for preparedness, retrenchment is considered necessary and that all the departments are trying to curtail expenses as well as possible. In some instances, as in this case, suggestions for curtailment will be made where there should be no reduction, and there is no doubt that on a vigorous protest from Twin Falls people the original plan will be adopted. But when it is finally adopted it is pretty certain that the Statesman will have one of its periodic "porkbarrel" cartoons on the front page censuring the department for extravagance and appealing to the voters to defeat the Democrats for wasting the people's money. A reasonable respectful but firm protest should be sent to the department against its change of design. Congressman Smith expresses the belief that the sort of structure in marble in accordance with the original design, would be little more than the cost of the building in brick under the new design. It is unfortunate that Mr. Smith was unable to spare time from his duties to learn approximately how much that small difference would amount to before he wrote as a protest. Good would be made more intelligently if he would, more effectively were such information at hand. Perhaps if he will apply at the department he can secure the estimated cost of both designs.

## PRICES MAINTAINED IN STOCK MARKET

Late Trains Bring Small Loads But Market in Portland Holds Up Well in All Things.

Sheep today are conspicuous by their absence, none whatever being unloaded. All grades are quoted strong. Best lambs at \$3.25, best ewes \$2.00 and yearlings at \$1.75. \$7.00, says the Portland Live Stock Reporter.

Hog undertone has been steady to strong with but few arrivals. Shipments, as was expected, are falling short of past two months. North Portland is again enjoying distinction of being the best Western market.

Only a few hogs were on the market today with the bulk of the run reported in at 4 o'clock, too late for today's market.

All live stock trains are late and but little stuff is on the market today. A few cars are reported for late this afternoon. With exception of steers of off grade, which seem to be possibly a dime to fifteen cents under last week prices are maintained.

Best steers are quoted at \$7.50 with good ones at \$7.00 to \$7.75, hay-fed, \$6.50 and \$6.75; off grade steers, \$5.00 to \$5.50. Cows are at \$6.25 for tops.

# Last Call

Saturday of this week will mark the close of our January Clearance Sale. Decidedly it has been a "Sale Worth While," almost Conspicuous in fact, forcing people to buy at low prices, as a matter of self defense against the next few years of high prices which are most certainly coming.

## Preparedness Applied to Curtain Goods

Preparedness is indeed no empty term as applied to the two tables of curtain goods on display in our store. On one of these 25c and 35c goods are cut to 19c. On the other 20c and 25c goods are being sold for 15c. Prepare for Spring by buying now at these prices.

## Steam Roller in the Shoe Dept.

Broadly speaking, we did in fact, run the steam roller through our shoe department, driving more than five hundred pairs of high grade shoes to the bargain counters. During the past week their friends, the buying public, have been carrying them away by the score, and we expect these last few days to clean them out entirely. With absolute disregard to cost, these shoes are lumped into two lots to go at \$1.69 and \$2.19.

## Children's Shoes at Cost

We are definitely closing out our stock of children's shoes, and everything we have in this line, is being sold out now at cost and below.

## Last Call on Children's Coats

While in our store, ask to see our children's coats. Goods that you will pay dearly for next season, we are selling now at tremendous reductions.

## Preparedness in Sweater Coats

Sweater coats are useful eleven months in the year, and as good next year and the year after as they are this. We bought heavily in these goods last summer, preparing ourselves against the rise in wool which we felt sure would come. In this sale we are offering all of this advantage to you. Anticipate your own future by buying now.

## Bargains in Woolen Goods

On display in the center of our store you will find a splendid lot of woolen piece goods, at prices which we believe were never before equalled in Twin Falls. Values running from 50c to \$1.75, to be sold at prices ranging from 39c to \$1.15.

## Night in The Show

Chaplin is found in an entirely new role. First time in town. It is largely this element of surprise that makes his fun of the top notch variety. You expect to see one thing and you are confronted with an entirely new phase of the mysterious Chaplin. But the surprise is always pleasing, as the fun is always there.

## DAY MAKING COPIES

Edwin N. Day, who was secretary for the meeting of the canal company stockholders at their meeting last week is preparing neat copies of the minutes of the meeting for the newspapers and the company for publication or future reference. Mr. Day, who for four

years was county stenographer and deputy court reporter, proved to be an ideal secretary. He is now located at room 7 in the Idaho Department store building and is ready to serve all who wish a stenographer.

## PICKPOCKET BOBS M. J. MACAULEY ON PULLMAN

A nimble fingered thief relieved M. J. Macauley of every thing that he had in the way of money, papers and the like in the Pullman, while he was snowbound between Glendive and Billings, Mont., on his return journey from Crookston, Minn., this week, where he went to attend the funeral of his mother-in-law, Mrs. Barrette. The train was snowbound for 18 hours at the point named and Mr. Macauley, who wraps his purse in his underclothes on retiring, was surprised at missing it when he awoke after a good night's sleep. The thief got \$20 in cash and an unopened note, besides some keys and trunk checks. Mr. Macauley had to borrow from time to time his way home being delayed by snow for 48 hours near Spencer. He arrived in this city Monday afternoon with his wife, declaring that she was the only valuable possession with which he returned.

Sunday—G. A. Griggs, Bloomington; Mrs. J. C. Barlow, Chicago; H. H. Pocatello; R. R. Drefin, Salt Lake;

where the family, as well as the girl, are living. There is a scene in the room, where the father starts to get the girl to give up his son. Instead of that, the older man becomes infatuated himself. By agreement he comes to a cafe, and they are having a great time dancing until his wife and son appear on the scene.

The married couple next appear in their apartments, where the wife is packing her handbag to leave. The son acts as peacemaker and reconciles his parents, and his father in turn agrees to his son's marriage. The clerk comes on the scene with a bill for the girl's room rent. There is a violent quarrel, which a lamp is upset, the room set on fire and the father thrown out of the window. He is saved from death by catching on a hook at the third story. He falls in a big scene where the firemen arrive with engines and ladders. The girl drops down a rope and chops the father loose from the hook with an ax. He falls in a water barrel; the girl gracefully slides down a rope, and the wedding takes place as the firemen turn the hose on the blaze.

**LAYERING ACTS PLEASE**

**FIRST NIGHT CROWD**

The movie fans who complain because the handsome hero invariably wins the fair lady at the end of several reels of intrigue and narrow escapes can have a taste of an ending of another character by seeing "His Conqueror Self" at the Layering the first half of the week, for in these beautifully photographed films the innocent young maiden is beset by conspirators who succeed in undermining her respect for her fiancée and win her for one of the conspirators. While the villain is man enough at the end not to humiliate his victim and to marry her, the hero is lost in the shuffle, thereby perhaps pleasing the people who delight in something different.

In the vaudeville line Wilson and Schneider are real headliners and fully live up to the advance agent's promise of "mildspitting acrobatic feats." Both members of the team have mastered a new variety of flops, somersaults and a dozen or more other stunts, which must be seen to be appreciated. Lots worse acts have broken into the big vaudeville circuits, and Layering patrons can depend upon their money's worth of amusement from this act alone.

The Lloyd Sisters did not disappoint with their musical act Monday evening, but won the audience with their selections on guitar, cornet, violin and basso. The young lady who performed on the violin is especially well received.

The other act shown at the Layering, including a Bray animated cartoon, were up to the usual standard.

## NEW TRIANGLE-KEYSTONE

**IS LIVELY COMEDY**

Ford Sterling's comic facial expressions and bodily contortions will be seen at their best in the new Triangle play at the Orpheum theatre next Friday and Saturday. As a would be stern parent he is ludicrous enough, but Sterling is almost killing when he yields to the charms of his boy's sweetheart.

## THEATRICAL NEWS

**LAYERING ACTS PLEASE**

**FIRST NIGHT CROWD**

The movie fans who complain because the handsome hero invariably wins the fair lady at the end of several reels of intrigue and narrow escapes can have a taste of an ending of another character by seeing "His Conqueror Self" at the Layering the first half of the week, for in these beautifully photographed films the innocent young maiden is beset by conspirators who succeed in undermining her respect for her fiancée and win her for one of the conspirators. While the villain is man enough at the end not to humiliate his victim and to marry her, the hero is lost in the shuffle, thereby perhaps pleasing the people who delight in something different.

In the vaudeville line Wilson and Schneider are real headliners and fully live up to the advance agent's promise of "mildspitting acrobatic feats." Both members of the team have mastered a new variety of flops, somersaults and a dozen or more other stunts, which must be seen to be appreciated. Lots worse acts have broken into the big vaudeville circuits, and Layering patrons can depend upon their money's worth of amusement from this act alone.

The Lloyd Sisters did not disappoint with their musical act Monday evening, but won the audience with their selections on guitar, cornet, violin and basso. The young lady who performed on the violin is especially well received.

The other act shown at the Layering, including a Bray animated cartoon, were up to the usual standard.

## NEW TRIANGLE-KEYSTONE

**IS LIVELY COMEDY**

Ford Sterling's comic facial expressions and bodily contortions will be seen at their best in the new Triangle play at the Orpheum theatre next Friday and Saturday. As a would be stern parent he is ludicrous enough, but Sterling is almost killing when he yields to the charms of his boy's sweetheart.

Another finds out his son's infatuation through a quarrel between the youth and the landlord of the hotel

where the family, as well as the girl, are living. There is a scene in the room, where the father starts to get the girl to give up his son. Instead of that, the older man becomes infatuated himself. By agreement he comes to a cafe, and they are having a great time dancing until his wife and son appear on the scene.

The married couple next appear in their apartments, where the wife is packing her handbag to leave. The son acts as peacemaker and reconciles his parents, and his father in turn agrees to his son's marriage. The clerk comes on the scene with a bill for the girl's room rent. There is a violent quarrel, which a lamp is upset, the room set on fire and the father thrown out of the window. He is saved from death by catching on a hook at the third story. He falls in a big scene where the firemen arrive with engines and ladders. The girl drops down a rope and chops the father loose from the hook with an ax. He falls in a water barrel; the girl gracefully slides down a rope, and the wedding takes place as the firemen turn the hose on the blaze.

## Prince Albert fits your taste!

Meets the fondest wishes of any man who likes to smoke because it has the *right flavor* and aroma and coolness. It's the most cheerful tobacco you ever did pack in a jimmy pipe or roll into a cigarette. And it's so good you just feel you never can get enough. The patented process fixes that—and cuts out bite and parch!

### Listen:

It's easy to change the shape and color of unsuitable brands, but it is impossible to imitate the flavor of Prince Albert tobacco. The patented process protects that!

When you fire up your first smoke you'll decide that you never did taste tobacco that hits your fancy like

### LEGAL PUBLICATION

CITY OF TWIN FALLS, IDAHO, COUNTY OF TWIN FALLS, IDAHO, DECEMBER 27th, 1915.

The City Council of the City of Twin Falls met in its regular session at the regular meeting place of said board to-wit: in the Commercial Club room in the Boyd Block on Main Avenue in the City of Twin Falls, Idaho, on Monday, the 27th day of December, A. D. 1915, at the hour of 8 o'clock.

The meeting was called to order by the Mayor, and, upon roll-call, the following members and officials were found to be present:

- Mayor: E. M. Sweeley,
- Councilman: C. M. Smith,
- " F. F. Bracken,
- " R. E. Bobler,
- " R. A. Parrott,
- " R. M. Williams,

Constituting the entire City Clerk's Board.

Also present: George Herriott, City Attorney; H. E. Rouse, City Treasurer; W. F. Porter, Street Commissioner; J. M. Chambers, Plumbing Inspector.

The following, among other proceedings were duly had and taken, pursuant to law:

Thereupon Councilman Smith moved: that

"All proceedings of a regular meeting of the Council, held on November 15, 1915, and all previous affirmative action had and taken by the City Council, relative to the proposition of issuing bonds for the acquisition of a waterworks system for the City of Twin Falls be expressly confirmed and ratified."

seconded by Councilman Bracken. The Mayor said motion to the Council, and vote upon said motion resulted as follows:

Councilman Smith, Aye  
Bracken, Aye  
Bobler, Aye  
Parrott, Aye  
Williams, Aye

The Mayor thereupon declared said motion unanimously carried and duly passed, adopted and approved and ordered the proceedings of the regular meeting of November 15th to be properly published together with the publication of the proceedings of this meeting.

Councilman Bobler introduced and moved the adoption of the following ordinance, which ordinance was read in full by the Clerk:

"ORDINANCE NO. 171. AN ORDINANCE PROVIDING FOR THE SUBMISSION TO THE QUALIFIED VOTERS OF THE CITY OF TWIN FALLS, IDAHO, AT A SPECIAL ELECTION TO BE HELD ON THE 3RD DAY OF FEBRUARY, A. D. 1916, THE QUESTION OF AUTHORIZING THE CITY COUNCIL OF SAID CITY TO ISSUE \$50,000. IN BONDS OF SAID CITY, DUE 20 YEARS FROM DATE, TO BEAR A RATE OF INTEREST NOT EXCEEDING 6 PER CENT. PER ANNUM, FOR THE PURPOSE OF ACQUIRING BY PURCHASE THE EXISTING WATER SYSTEM OPERATING IN SAID CITY, TO BE OWNED AND OPERATED BY SAID CITY AND TO PROVIDE FOR THE PAYMENT OF THE INTEREST AND PRINCIPAL THEREON BY SAID CITY."

WHEREAS, in the opinion of the City Council of the City of Twin Falls it is necessary and expedient to furnish to its citizens necessary protection from fire and for the furnishing of water for domestic and commercial purposes, the City of Twin Falls is hereby authorized to issue bonds for the purpose of acquiring by purchase the existing waterworks system within and near said City, to supply said City with water for fire, domestic and commercial purposes, said system to be owned, maintained and operated by said City.

ANSWER IN FAVOR of issuing bonds to the amount of Fifty Thousand Dollars (\$50,000), for the purpose stated in Ordinance No. 171.

AGAINST issuing bonds to the amount of eighty thousand Dollars (\$80,000), for the purpose stated in Ordinance No. 171.

IMPORTANT INSTRUCTIONS The voter will place an (X) in the space opposite and to the right of the answer to the question above submitted, which indicates his choice.

Said ballot shall be cast by each voter marking said ballot by placing an (X) in the square opposite his answer to the question above submitted for voting by the municipal and general election laws of the State.

SECTION V. No ballot for or against the question herein submitted shall be received from any person who is not a qualified elector of the City of Twin Falls and a taxpayer in said City of Twin Falls, as defined and defined by statute. Said vote shall be canvassed as in the manner

should be owned and operated by said City, and that the question of the acquisition of said water works system and the issuance of bonds therefor, should be submitted to the qualified electors of the City of Twin Falls, and

WHEREAS, the City Council does deem it advisable at this time as may be possible, to have the qualified voters and electors of the City of Twin Falls determine by election and vote upon the waterworks system should be acquired by said City, by authorizing the issuance of \$50,000. in bonds, to defray the expense of acquiring and installing the complete water works system aforesaid for said City, according to the provisions of a resolution of the City Council of said City, passed on the 4th day of October, A. D. 1915, and approved by the Mayor on the 5th day of October, A. D. 1915, and published in the official paper of said City on the 26th day of October, A. D. 1915, which said resolution and offer of purchase was duly accepted on the 9th day of October, A. D. 1915, by the present owners of said water works system, the Twin Falls Waterworks Company, Limited, a corporation organized and existing under the laws of the State of Utah and authorized to do business within the State of Idaho.

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND THE CITY COUNCIL OF THE CITY OF TWIN FALLS, IDAHO, IN AND FOR SAID COUNTY, STATE OF IDAHO:

SECTION I. That a special election of the voters of the City of Twin Falls, Idaho, for the purposes above set forth, is hereby called for Thursday, the 3rd day of February, A. D. 1916.

SECTION II. That at said election, the voters qualified to vote on the said proposition, shall be: those duly qualified electors of said City who are taxpayers under the law and who have paid a property tax in said City in the year next preceding said election; and

said election shall be held on the 3rd day of February, A. D. 1916, at which election, there shall be submitted to said qualified voters, the question of acquiring the existing waterworks system within the City of Twin Falls, including all existing and incidental rights, franchises, property and interests therein, for the purpose of supplying said town of Twin Falls and its inhabitants with water, for fire, domestic and commercial purposes and to provide for the payment therefor by the issuance and sale of bonds of said City, to the amount of fifty thousand dollars (\$50,000), to be hereafter issued pursuant to ordinance to be hereafter passed by the City Council of said City of Twin Falls, in manner, form, and terms as by law required; and

said bonds to mature twenty years and become optional, ten (10) years from issuance, not to interest and not to exceed six per cent per annum. The City Council of said City of Twin Falls shall provide by ordinance for the levy and collection of taxes and to pay the interest thereon as provided by law; provided that no action for collecting the same shall be taken until the City Council of said City of Twin Falls shall have approved the application of any or all of the net surplus earnings of said water works system to the payment of the interest on said bonds, when such application of said earnings seems advisable.

SECTION III. ## EDITOR A. J. GLOVER ABLY CHAMPIONS THE DAIRY COW

Find Address of Editor of Hoard's Dairyman Before the Twin Falls Commercial Club, and Invited Guests.

(Specially Reported for the Times.)  
TWIN FALLS, Commercial Club in living up to its duties and opportunities, frequently tries to bring the business men of the community— which, of course, includes the farmers and ranchmen— into touch with current events of thought and action in the great outside world. A very successful attempt of this character found fruition last Thursday evening, when a well attended talk was given by Mr. A. J. Glover, associate editor of Hoard's Dairyman, a widely known periodical published at Ft. Atkinson, Wisconsin. Happily introduced by Mr. Van Tassel, of the Sterling Creamery company, Mr. Glover said, in part: "Have seen a part of your great country. It is a fine thing that almost every community has something of which to be proud, since local pride stimulates both enthusiasm and effort. But I do not think I have ever visited any place so full of promise and hope as I am finding in this country. I can not yet see how it has been possible to develop this country as I now see it in the time occupied. Any country that can grow alfalfa as I see here, need have no fear. It has been said that water and good society are all that are needed anywhere, including Texas and hell; but you have already achieved both."  
Here the speaker referred to having seen Mr. Bradley's views and heard his words on this occasion before coming here, and it really seemed so extravagant as to remind him of the quartette of farmers who were traveling together in the talking about alfalfa. "I saw the man from Kansas," he said, "who raised eighteen inches of alfalfa in 18 days, and harvest two tons to the acre. 'That's a great thing,'" said the man from Texas. "We have cucumber, squash and pumpkin vines that grow so fast that we have to put skids under the fruit to keep it from being worn out as it drags along the ground. "And even that ain't much," said the man from southern Illinois, "corn grows so fast that our soil that when my kid tried to climb a stalk; it took him up so fast he was afraid to let go; and when I came with the ax to cut the stalk down, I couldn't make it by one lick, and could never hit twice in the same place because it grew out of reach between times. We were kind of alarmed about the youngster at first, but when he began throwing down cobs, with the corn gnawed off, we knew he was alright." The man from Kentucky scratched his head a little but finally said, "let me tell you something; my wife hung two towels, made from Kentucky hemp, out to dry; but they at once began to grow and for two weeks she cut an extra towel off each of them every day." At this juncture a stranger across the aisle said, "look here man, you've explained one text of scripture I never understood before—And Ananias came so (with)." "Resuming his main purpose, the speaker said no matter how rich the soil is anywhere, it will deteriorate without intelligent care. The single crop system will kill any soil. Citing southern Illinois, where past careless

years have sapped the productive life of the soil—where with little or no stock and no systematic rotation of crops, the farmers are all poor—land impoverished as this land will be, rich as it is, without care. The chemical action of legumes upon the soil was explained and the necessity of live stock to go with them.  
This brought us to the speaker's particular hobby—the dairy cow. "Just think," he said, "of the productiveness wrapped in the hide of a 1200-pound cow, who in one year furnishes 1,000 pounds of butter! It is worth while to breed such a cow as that. To excel brings enthusiasm and success is in itself the greatest pleasure in life. It is, then, that land must be stocked; and here is the chance for the business men and bankers. No dairy land with ordinary judgment on dairy stock was ever lost; but time must be considered. A fairly good cow will pay for herself in a year, but the owner must live meanwhile. Denmark, northern Wisconsin and parts of Minnesota were cited in detail as showing the redemption of poor or worked-out land by dairy farming. Land in Wisconsin worth \$10 to \$15 in 1872 is now worth \$75 to \$200; and the dairy products valued in the year first named at one million dollars have now risen to over one hundred millions! In my country, at the present time, thirty-six thousand people own forty-one thousand dairy cows.  
"The dairy cow is without doubt, the most economical producer of wealth in the world. She is also the foster mother of more than half the whole human race. With the advent of the dairy cow and the abandonment of single crop farming, any country will prosper and improve. Cities and towns are only prosperous when the contiguous territory prospers and the situation demands that business men specialize themselves with country conditions and necessities and use every endeavor to meet the one and improve the other."  
Generous applause greeted Mr. Glover's conclusion, after which Mr. J. M. Bradley, secretary of the Buhl Commercial club, was introduced. Mr. Bradley reiterated with emphasis the attack made on the single crop system. He explained how much Buhl was ahead in that her (he called it "my") Commercial club was largely composed of farmers; and advised the Twin Falls club to take a tumble to itself and try and get on speaking terms with the ranchmen and farmers! Now we know Secretary McMillan was an aristocratic, unapproachable old cuss, but we didn't really suppose it was as bad as that. However, after the wind-pressure run down a little, Mr. Bradley began the exhibition of his stereoscopic views, which constitute an exceedingly fine and interesting exemplification of the Twin Falls tract, from the sage brush to the present time. These pictures make a magnificent advertisement and it is planned to exhibit them widely for that purpose.

## BURKE GOT JUDGMENT

A jury in the justice court of W. J. Smith in this city Friday gave judgment of \$167.50 in a case in which John M. Burke sued John Warren White for \$250 alleged to be due for overhauling and repairing numerous details and certain questions of recollection, the main issue was with reference to the terms of the contract, under which Burke was working on White's paper, the Buhl Pioneer. White introduced a telegram from Burke for the purpose of attempting to prove that the latter tried to do all the work in the office for \$25 a week. Burke claimed that he was to work eight hours a day at the rate named and that it was understood he was to get union rates of time and a half for overtime, and that the telegram was based on misconception of the amount of work to be done and did not bind him to do an unusual amount of work for wages which was somewhat below the union scale. The issue of mathematical accuracy over the amount of overtime that he would have coming under his understanding of the agreement, or whether he actually worked full time.  
The jury took a neutral view to the apparent dissatisfaction of both parties.

## MISS PORTER PASSES AWAY

Louise Ida Porter, aged 46 years, died at her home on Fifth avenue north in this city, Friday and was interred in the Twin Falls cemetery the following day. She leaves a sister, Miss Helen Porter, who is a teacher in the high school here. Miss Porter was of rare intelligence, attainments and scholarship, and was at one time teacher of Greek in Western college of Oxford, Ohio. Following a stroke of paralysis, her health gave way and she was compelled to retire. She never fully recovered and has been an invalid for a number of years. The funeral services were conducted by Rev. C. L. Bent, of the Methodist church, of which she was a faithful and consistent member.
