TWIN FALLS, TWIN FALLS COUNTY, IDAHO, FRIDAY, MARCH 17, 1916.

SUBSCRIPTION \$2.00 PER YEAR

EMPLOYMENT

AGENCY FOR CITY

Mayor Sweeley Calls Council Thursday Night to Create One

TOO MANY MEN CROWD TO CITY ON ACCOUNT OF WILD REPORTS.

Law Requires City to Create and Operate Such Bureau—Outside Workers to Be Barred Away.

"I shall call a meeting of the city council together Thursday night for the purpose of passing an ordinance creating a city employment agency for the getting of the unemployed job to the jobless men and the issuing of an official warning to idle men—nowhere not to crowd into Twin Falls in hope of securing jobs when we have none for them," said Mayor E. M. Sweeley Wednesday morning to a TIMES reporter.

"We are confronted with a serious unemployed problem in this city," he continued, "at a time when there is more work here in the country in general than ever before, because the idea that there is employment for an unlimited number of men in Twin Falls has been spread broadcast and men from distant parts of the United States are out of work are flocking in this direction."

"Last night the police rounded up a bunch of 20 men and put them into the city jail. I went down this morning and looked them over and ordered them released without any money to the police court, because they all looked to be honest workmen and I did not feel that it was the proper thing to do. I did not feel that it would help either their character or the community, to have them arraigned like criminals, convicted of vagrancy and then pardoned with leave to quit the city. Of course, I told them that they would have to move on, because their presence here, however honest they might be personally would prove a cover for dishonest men and sneak thieves who really did not want work. Two more houses were broken into last night. If necessary we shall have to establish a police and arrest men for vagrancy and put them to work on it, but we do not want to do that because a man who is really seeking work and who is not a sneak thief, is deprived of a chance to seek a job while on the rock pile, and is injured in his chances of getting a job when his time expires, not to speak of the injury done to his self respect. I suppose

HUNDRED THOUSAND DOLLAR APARTMENT

Articles of Incorporation For Company Have Been Forwarded to Boise—Capital \$100,000.

Articles of incorporation have been drafted and forwarded to Boise for a company organized in this city with a capital of \$100,000 for the erection of a large, modern apartment house at a point yet to be selected. The names of the incorporators and stockholders have not yet been made public, but a gentleman connected with the organization informs THE TIMES that they include a number of the leading citizens and business men of the city.

Speaking of the matter yesterday, he said: "It is gratifying to note that Twin Falls is exhibiting substantial growth and progressiveness of building a new and clean city, morally, has not been neglected in the past. Here and there throughout the wide-awake metropolis is construction work representing the erection of modern office and business buildings and homes that would do justice to any city, the work of geniuses, investments by men of experience and far-sightedness. That Twin Falls presents a high standard of stability is no longer a dream but an actuality. Its future will be a reproduction of its past on a larger scale. It seems proper therefore that to the building should be added an apartment house, not the common, ordinary apartment house, but one of that type which represents an architectural design that is modern and up-to-date. This class of building is an asset to a city, to its taxable valuation and represents a permanent investment of security and dividends to its investors."

HOGS GO HIGHER THAN

FOR SEVERAL YEARS
Hogs are now bringing \$7.25 on the local market, the highest in several years. Other prices about the same as follows: Steers, \$5.00; cows, \$4.00; hogs, \$10.00; lambs, \$12.00; chickens, \$1.50; turkeys, \$1.50; potatoes, \$1.50; whites, \$1.00.

LAWYER'S BANQUET PLEASING AFFAIR

Splendid Banquet and Many Interesting Discussions Besides Plenty of Good Music on Hand.

An elaborate seven-course dinner, prepared and served in the best hotel, was enjoyed by the Twin Falls County Bar association Tuesday evening. Nothing was lacking to make the affair enjoyable and long to be remembered. C. M. Booth, who had previously been selected by the committee on arrangements as toastmaster, was elected president, and Taylor Cummins secretary, for the ensuing year. The incoming president delivered his inaugural in a characteristically eloquent style, and then as toastmaster introduced the several speakers. Taylor Cummins presiding, the following subjects were discussed: "The Psychology of Confessions," John Marshall was enquired of in a thoughtful address by Frank L. Stegman, who handled the subject of the subject of a strong plea for the confirmation of the new supreme court appointee by County Attorney John T. Taylor. Mr. Taylor, who was the subject of a presentation of the other point of view by Mr. Guthrie. There was plenty of good thought and good feeling in the extemporaneous remarks of Judge W. C. Babcock, who followed this interesting discussion. "Ignorance of the Law Excuses Everyone," was filled with a mixture of the sublime and the ludicrous as presented by Guy L. Kinney. Judge James R. Bothwell of Shoshone, closed the speaking by an address of rare wisdom and insight. The music by Beck and Coburn was among the most pleasing features of the occasion.

LITTLE DANGER OF FIRE AT AUTO SHOW

What would be the result if a fire should break forth at the tabernacle where the automobile show is being held? The question was asked by a fireman who was in the building a fire would be disastrous in several ways, especially to the insurance companies. But the auto show management and the various exhibitors will be fully prepared for fire. All over the tabernacle fire extinguishers will be placed. The fireman who was in the building said that the decision over gasoline. Many times Pyrene has saved the lives of automobiles and drivers who were caught fire while traveling at a ninety or one-hundred mile an hour clip. A couple of squirrels of Pyrene and the fire is out. "So, we will be well protected at the tabernacle during the show and no motors will be run except by electric power. As a result of all these precautions the danger from fire will be entirely eliminated. Since the dates for the show have been changed to April 24, more space has been secured for the show and all indications show will be a tremendous success."

SALMON RESERVOIR REPORT.

Manager C. M. Hall of the Salmon River Canal company, was in from Hollister Wednesday and reported to THE TIMES that the water in the Falls Creek Reservoir is seven feet; the available supply of water, 10,000 acre feet. The rain for the ending March 11th, was 1,000 acre feet. Mr. Hall reports that many of the settlers are asking for domestic water, but that in view of the fact that the Deep Creek reservoir is rapidly filling, and the possibility of obtaining overflow water from that source for domestic use, the company has deemed it advisable to postpone a run of domestic water.

BOOTH PRINCIPAL ORATOR AT DAVIS CLUB IN POWER COUNTY

C. M. Booth of this city, was the principal orator at the organization of the Davis Club in American Falls, Thursday night. The new organization, which is intended to start the ripples outward from Mr. Davis' home, has a membership of more than 500.

BOY SCOUTS GET BUSY ON SATURDAY

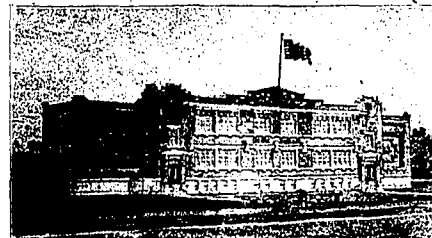

Thirty boys were at work Saturday on the eight and a half acre tract of ground near the city which has been selected for the raising of a new building for the boys' camp. The boys are working on the building this year. They will be out with two crowbars and a plow Saturday.

THOMPSON TAKES VACATION.

Deputy Sheriff W. G. Thompson has taken a few days vacation. He has had since his appointment and has gone to Omaha, Nebraska, to visit old friends and relatives.

FARMER GOES INSANE.

Fred Eschgruber, a farmer living near this city, was adjudged insane Wednesday and sent to the hospital for treatment. He was laboring under a hallucination that someone was following him.

A NEW ELECTION will be held in Kimberly, March 15th, for the purpose of voting on the issuance of \$40,000 bonds for the construction of a new high school building. The new structure, should the bonds carry, as it is generally believed that they will, will have eight class rooms and other connected apartments. The building will have a lavatory, furnace room, coal room, janitor room, storage room and gymnasium. The gym will not be completed at once, but provision will be made for its arrangements when needed. There will be four class rooms, principal's room, teachers' room, boys' and girls' lockers and auditorium on the first floor. The second floor will have four class rooms, library, directors' room and lockers. It is estimated that the cost of the structure itself will be \$38,000, while \$2000 more will be required to properly furnish it. The aim is to erect a building which when finished will be a credit to the town and the district, and will be in keeping with the needs of a growing and progressive community. The present school is generally admitted to be too small for the needs of the community at this time.

It will be noted that the style of the proposed building is modern and handsome and that it will add much to the appearance of the community.

BURGLARS ROB TWO MORE RESIDENCES

Homes of Dr. F. C. Beebe and Claud Grimes Entered by Thieves—Considerable Loot Secured.

Burglars entered the residence of Dr. F. C. Beebe at the corner of Third and North and Fifth streets, and the home of Claud Grimes across the alley in the same block Tuesday night, making good hauls in both instances and escaping without detection. The thieves, who were evidently the same ones that robbed the Behrmann and Grimes houses last week, used much the same methods as on previous occasions, except that they smashed a window in the front of the Grimes house and used electric lights in the Beebe home. They entered Mrs. Grimes' gold watch, some other jewelry and money and two revolvers belonging to Mr. Grimes. In the Beebe residence they succeeded only in looting the rooms of Miss Leonard and Cunningham and entering that of Dr. Beebe when they were evidently frightened away by the return of the occupants, but while there they succeeded in securing a gold watch, some other articles of jewelry and four dollars in money belonging to Miss Cunningham, from whom they also took a dainty box of chocolates which had been purchased as a present for a friend in Idaho by Mrs. Leonard. Several rings and gold pins and a few dollars in change. The only thing missing from the room of Dr. Beebe was a money bag, although the thieves entered the room. They entered the Beebe house by unlocking the back door. The police say that the thieves follow large meetings like that being held by Dr. Oliver here and watch people as they leave in the evening. All the robberies so far have been committed before 10 o'clock. In all cases matches were burned for lighting but in the Beebe home the curtains were pulled down and the lights turned on in some of the rooms.

TWIN FALLS SPUDS TO PRINCETON N. J.

Successor of President Wilson at Head of University Wants Them For Seed.
M. A. Thomsett shipped four boxes of Twin Falls spuds to President John H. Brown of Princeton university for use as seed. The shipment was made through the Twin Falls Commercial club. The reputation of the Twin Falls spud is so wide that it has reached across the nation, and all university men as well as chiefs are familiar with it.

PROPOSED SCHOOL GROUND IS VALUED AT \$50,000

A committee consisting of W. H. Eldridge, C. M. Sweeley and J. S. Keel met yesterday as appraisers for the land in Block 1, in the Jones addition held at a sale by the school board, at its meeting Monday night. The ground contains 4200 feet or just a shade under an acre and a half. The appraisers valued it as follows: Lot one, \$1750; lot two, \$550; lot six, \$500; lot seven, \$400; moving building, \$100; total, \$3400.

JUDGE SHANKS TO GO TO BURLINGTON

ABOUT THE FIRST OF APRIL.
Judge Jacob Shank planned to go to Burlington April 1 to take charge of the Switzer Mercantile company warehouse, which he has purchased and will conduct hereafter.

AUTO LEVER DRIVEN THROUGH RIGHT HAND

G. A. Tobey Suffers Painful Accident While Returning From Elks' Reception on Tuesday Night.

The upright lever on the door of an auto belonging to W. A. Flower was driven through the right hand of G. A. Tobey, which was resting upon it preparatory to opening it. Tuesday night, by the tongue of a buggy attached to the Elks' minstrelns, was taken to his home at 130 Fourth avenue East in the Flower car after the rehearsal. As Mr. Flower was making the turn and was opposite to the Elks' building the Methodist church, Mr. Tobey laid his hand on the lever in order to be ready to open it, when a team either running or almost running, came out of the alley and up to the buggy. The animals jerked suddenly and this threw the lever upward for a second and then let it down. It struck squarely on the top of Mr. Tobey's hand, which was crushed over it. Fortunately no bones were broken, although the hand was completely penetrated. The tongue of the buggy was broken and it was left on the street over night and removed Wednesday. Mr. Tobey said yesterday that he had not learned the name of the owner and that the whole thing happened so quickly that he did not positively say that the horses were running. Someone told him that they saw a man untying a team attached to a buggy in the alley just before the accident. It is possible that the animals got under headway before their owner could pick up the lines, but he was uncertain about all the details.

ELKS' MINSTRELS TO BE SOME FUNNY

Three Parts Each Moving Will Be Put on March 20, 30, for the Cyclone of Mirth.
A swirling hurricane of fun will sweep into this city March 30, when the Elks' Minstrels put on their acrobatic and musical program. They will be an old time minstrel, with the latest songs and dances and jingling music to match. In this part 20 men and women will participate, while the orchestra will be made up of all-star musicians. The second part will consist of a skit, a play, a farce, a comedy, a song, a dance, and a variety of other things. The last act will be a tableau, blood-curdling melodrama put on by eleven men, 10 years of age and warranted to freeze the veins of the most rash and to melt the heart of the meekest.

COMMISSIONERS MEET WITH THE CANAL BOARD ABOUT RIDGES

A meeting of the county commissioners with the Twin Falls Canal company directors was held Tuesday afternoon, for the purpose of discussing certain changes on the bridges on the high line canal which it is intended to raise. The proposed changes will necessitate the shifting of some of the bridges. Manager J. C. Porterfield suggested that in such cases the old bridges be replaced with steel structures, but the suggestion has not yet been acted upon.

HIGHEST PRICES OF THE ENTIRE SEASON

Hogs Go to Highest For Years and Cattle Follow Very Closely—Sheep Firm and Wool Quoties.

All classes of livestock are today at the highest point of the season. A new top for fat steers was made when a bunch of four cars went at \$8.10. Packers were very keen bidders in the cattle division. The rapid advance in the hog market is little short of phenomenal when it is remembered that only a short matter of three or four months ago prices were at the lowest ebb ever reported on the Portland market. Today's Eastern markets are all a shade lower according to early telegraphic reports.

The cattle market was very much better today than for any time this year. Outside buyers sent considerable aid to the trading which was concentrated very early in the day. In general the market was a good quarter higher in the steer end; cows were on a steady basis with a feeling of strength.

Current quotations for steers are: Choice grade and pulled-off, \$8.00; \$8.10; choice may feed \$7.50; good, \$7.25; 7.00; medium, \$7.00; \$7.25; \$7.00; \$6.75; \$6.50; \$6.25. General quotations for hogs: Prime light, \$9.00; prime strong weights, \$8.50; good heavy packing, \$7.50; 8.00; pigs and skips, \$7.50; \$8.00; current quotations for lambs and sheep are: Choice lambs, \$8.50; \$8.25; choice yearlings, \$7.50; \$8.00; good yearlings, \$7.00; \$7.50; good ewes, \$6.50; \$7.00; \$6.50; \$6.00; \$5.50; \$5.00; \$4.50; \$4.00; \$3.50; \$3.00; \$2.50; \$2.00; \$1.50; \$1.00; \$0.50; \$0.00.

ADVANCE CASH FOR GOOD ROADS CAUSE

Business Men of Mountain Home Invest on Road Improvement. Glenn Ferry in the King Also.

MOUNTAIN HOME—Active work on the betterment of the highways which radiate from Mountain Home will begin as soon as the new machinery ordered by the town and county arrives. The shipment on the way and is expected to be here about March 15. This machinery, it should be understood, is not for the purpose of the first commissioner's district, as it was stipulated at the time of its purchase by the commissioners that payment for the same was to be made out of the road fund appropriation to that district, and that the other districts were not to share in its use or cost.

The purchase of the machinery, consisting of a 20-40 Case oil tractor, two portable graders and a scarifier, was made possible only by the efforts of the business men of Mountain Home, who in a short time raised the sum of \$500 to pay the freight on the outfit.

A few people struck, too, while the iron was hot with the result that the preliminary work for the creation of a highway district, which was started by the town at Blue Lakes, is finished. —Mountain Home Republican.

SPEAKS HIGHLY OF BURLY

The government in a bulletin just issued, has many nice things to say of the schools at Burling and Rupert, on the government's project east of the city.

The bulletin reads: "The school system is one of the best in the country. Rupert, Burling and the other schools are well equipped by both town and country children, and Rupert enjoys the distinction of having the first, and probably the only, public school in the state. Burling is completing a similar institution. In fact the Mindoka project, which has been conceived by the government, is being carried out by the town and country. The surplus energy is used by towns, corporations and individuals for municipal, manufacturing, heating, lighting, and other purposes. Most of the residents of the town and an increasing number of farmers are using the electricity from the big dynamos from Mindoka for cooking, heating and lighting their homes and running various equipment, and the alfalfa meal mill, beet sugar factory, grain mills, printing press, etc., are operated by the same force. The project embraces 120,000 acres of irrigable land, of which 71,000 acres are under the gravity system and 49,000 acres under the pumping unit. The headquarters of the reclamation service are located at Rupert, with Mr. Harry Dibble in charge as project manager."

POPULAR HILL TO HOLD LYCEUM

There will be a lyceum program given at the Poplar Hill school house on the evening of March 24. The address will be by Mr. E. E. O'Connell, of Harmon. There will be readings by Misses Jungate and Latta and songs by Ernest Benoit.

PERSIAN WALNUTS. WEALTH PRODUCERS

Successful Cultivation Here of Tremendous Importance

TREES PLANTED AT BLUE LAKES ARE PRODUCING WELL.

Eugene H. Grubb, World Famous Potato Authority, Talks of Possibilities of the Twin Falls Tract.

"Eight years ago I made the statement at a banquet in Twin Falls that this constituted the largest, richest and most attractive tract of agricultural land that no language of mine could begin to give any adequate idea of its wealth and possibilities," said Eugene H. Grubb, premier of the Kingdom of Fieberland and superintendent of state for the great King, Murphy of that favored realm, to a TIMES representative at the Perrine hotel yesterday.

"Eight years ago I was instrumental to securing six of these specimens for Mr. Perrine and five of them are now bearing, having produced a few walnuts two years ago and a large number last year," he continued, "and finding that they will thrive and produce here, I am convinced that the wealth that will result from their cultivation, in spots where the soil is sufficiently deep and water sufficiently plentiful, is simply incalculable. Some of the members of the committee on food production with a number of leading economists of that country, the minister of agriculture said to me that the English or French walnut tree properly matured would produce as much human food in a year as could

(Continued on Page 4)

WILL REMAIN ANOTHER WEEK IN THE CITY

Report That Revival Meeting Will Close Next Sunday Proves To Be Erroneous.

The Oliver revival meeting will continue, according to Dr. Oliver, at least, for another week, at least. It was reported recently this week that they would close Sunday, but this proves to be incorrect. Great interest is being manifested by the members of the church and there is a general feeling among those attending that they should be continued as long as possible.

OLIVER ETANGELISTIC PARTY GUESTS AT BLUE LAKES

Monday was recreation day for the members of the Oliver-Butler party. Upon invitation of Mrs. I. E. Perrine, all the members of the evangelistic party have traveled extensively in this and other countries and they state that the Blue Lakes ranch and its varied and numerous attractions occupies a place by itself in all the scenic attractions they have visited. Although the day was wet and dusty everywhere else, at Blue Lakes there was no dust and practically no wind penetrated the sheltered nooks and retreats of the ranch. In the party were: Dr. Oliver, Mr. E. E. O'Connell, Mrs. Anna E. Oliver, Mr. E. E. O'Connell, Miss Anna MacFarland, Albert G. Fath and George Redden of the evangelistic party. The party was accompanied by Mrs. Charles Butler, and little daughter, Getters, Mrs. E. E. Perrine and little son, Gene, Miss Stella Perrine and Miss Jessie Ward. The party was accompanied by Mrs. Charles Butler, and little daughter, Getters, Mrs. E. E. Perrine and little son, Gene, Miss Stella Perrine and Miss Jessie Ward. The party was accompanied by Mrs. Charles Butler, and little daughter, Getters, Mrs. E. E. Perrine and little son, Gene, Miss Stella Perrine and Miss Jessie Ward.

COMMISSIONERS TO POCAHELLO.

The entire board of county commissioners, accompanied by Dr. O'Connell, representing the medical fraternity of Twin Falls county, went to Pocatello Wednesday to look over the county hospital at that place. The commissioners, who returned on the noon train Wednesday, stated that they found the hospital at Pocatello to be a fine institution, especially well kept and satisfactory and that they were informed that it had been run at a profit of \$3000 last year. They expect to be in the city and would give out a formal statement to the board at its meeting to be held, probably Friday, pending which no action would be taken in the matter.

DAVIS SAYS PLAN OF OTHER IS POOR

Captain Analyzes "Taxless State" Figures of American Falls Banker

"HAS MILLION DOLLAR 'REMITTANCE' BACKED OFF BOARD."

Applied to the Quackery of the Financiers of Idaho.

MERIDIAN, Ida.—At a well attended meeting here Friday night addressed by Captain R. G. Davis, Republican candidate for governor, the speaker took occasion to analyze the "taxless state" proposal of D. W. Davis, the American Falls banker, one of his opponents in the primary. He declared that "a choice bit of political quackery" it "has the million dollar reduction in the cost of state government backed-off the board." He said on this subject:

"One of my competitors, Senator D. W. Davis of American Falls, is making his campaign for the nomination of governor on a plan he has elaborated for making Idaho a taxless state. He first gave publicity to his ideas and figures at a meeting of the State Bankers' association at Webster, in June, 1913, and he has frequently, since that time, addressed various gatherings on the same subject. Speaking generally, this plan contemplates the sale, within a period of 10 years, of all the land and timber belonging to the state, meeting the current cost of our schools with a part of the income, and re-investing the surplus."

"According to a statement contained in the Webster address, the state was, in 1913, the owner of 2,934,000 acres of unsold land. Senator Davis would amend the constitution so that all this might be sold as fast as opportunity offers. He estimated that purchasers could be found for three hundred thousand acres per year, and that the whole could be sold within

LLOYD-GEORGE'S CHAUFFEUR

David Lloyd-George believes that every well-bred Englishman should be working for his country, either at home in the making of war material or in the trenches fighting the enemy. For this reason the "Strong Man of England" has no longer employed men in his household. His present chauffeur is a Miss Marsh, with whom he is well satisfied.

In years for not less than \$29,340,000. True, his figures are based upon the minimum price of \$10 per acre, but it is also true that he supposed it all sold, regardless of legal and other difficulties, and regardless of the fact that much of the land owned by the state may not sell for \$10 per acre within a century. Remembering that the state is now at liberty to sell the timber on any of its lands, but that purchasers are not forthcoming, it is a safe conclusion that the state would have to offer its resources at bargain-counter prices to sell them all within 10 years and that, so sold, they could not be expected to bring much, if any, more than the amount assumed.

Senator Davis seemed to assume that none of the interest on amounts received from this forced sale would be used for current school expenses during the 10 years. He said, for the states that at the end of the period our working capital, after adding the amount on hand in 1913, \$3,500,000, would amount to \$5,407,500. He said: "We are now offering our eleventh year with earnings of \$3,241,000 (6 per cent on the assumed working capital). Now counting the cost of our school at two million dollars per annum, it leaves us a surplus of \$1,241,000 which would increase each year by reason of keeping the annual surplus employed." He said further: "We would enter our twenty-first year with a fund of \$70,775,000; our thirty-first year with \$99,075,000; our forty-first year with \$173,075,000; our fifty-first year with \$241,325,000; our eighty-first year with \$648,175,000; and our ninety-second year with \$936,913,000."

"The interest on these enormous amounts was expected to pay not only our state taxes, but county and municipal taxes as well, thus making Idaho an absolutely taxless state. But why stop with taxes? These colossal figures are now increasing so rapidly that in a few years more than may be made to provide for all our public and private charities, build and furnish our churches and libraries, and, over and above all, return to each taxpayer something in the nature of a dividend on his rights and immunities as a citizen."

"These figures, so advanced, seem to have been generally accepted as correct, and such discussion as I have seen in our newspapers have related not to the economic soundness of the plan but to the policy of its adoption."

"It is now time, however, to puncture this financial bubble by showing the extremely erroneous assumption on which it is based. If you have never checked these figures, take your pencil and do so now with me."

"Owing to the necessity of amending the constitution, Senator Davis' 'eleventh year' could not possibly begin before January, 1929. It will be noticed that for this 'eleventh year' he assumed that the total cost of our schools would be only two million dollars."

"Here is the fatal error lying at the base of all his calculations, for even in 1913 the cost of our schools, as shown by the report of the tax commission, was more than double this amount, to be exact \$4,099,441.57, of which amount \$3,702,018.47 were raised by direct taxation and \$397,423.10 were derived from interest on the permanent endowments. Senator Davis assumed in his calculations that the cost of our schools would increase for the state as a whole at the rate of fifty thousand dollars per year. Owing to the rapid increase in our population, this amount may not be unreasonable. Assuming this increase for the years following 1913, the estimate cost of our schools for the year 1929, the earliest possible 'eleventh year' of the Davis plan would be, not \$2,000,000 as he assumed, but \$4,829,441.57. After applying his estimated income for that year, \$2,241,000, in part payment of this sum, we would have, instead of a surplus of \$1,241,000, as found by Senator Davis, an actual deficit of \$1,588,441.57."

"The senator's assumption of a surplus was, therefore, fundamentally incorrect, his calculated accumulation was based on error and was fictitious, but the cost of our schools, due to increase in population and other natural causes, will continue to climb."

"By the 'ninety-second year' our capital, instead of being \$936,913,000, would still be only \$54,017,000. The earnings, at 6 per cent, would still be only \$3,241,000, but the expenses of the schools of the state would have reached, at his estimated rate of increase, the enormous sum of \$5,049,441.57. After applying the income of \$3,241,000 the taxpayers of that distant day will still have to raise for school pur-

poses, by direct taxation, \$4,808,441.57, an amount considerably greater than was so raised in 1913. They may be well justified in refusing to believe that they are living in a taxless state. "It may be easily calculated that if we are to be fortunate enough to break even on our 'school' expenses for the 'eleventh year' of this new financial plan, we must have for that year an additional capital over that estimated by Senator Davis of \$27,640,692, and even then the taxpayers living in the 'ninety-second year' would still have to raise, by direct taxation for school purposes, the sum of \$3,150,000, almost as much as at present."

"The mere statement of these facts, detached from the senator's figures, after substituting from the records the actual present cost of our schools for his erroneous assumed cost, is sufficient to show the utter fallacy of his conclusion."

"Senator Davis originally made his great mistake nearly three years ago and since that time he has been almost continuously expanding the problem in which it enters without once, apparently, discovering his basic error. These facts must be weighed in their true bearing upon the value of his taxless state delusion as the basis of a campaign for the governorship."

"I am not criticizing Senator Davis personally, but only his ideas which it is my right and duty to do. Neither am I denying merit for the plan in question, which has been advocated in one form or another from a time antedating the advent of Senator Davis as a citizen of the state. He seems to have added little, if anything, except the delusion I am attempting to correct."

"If the resources of the state are properly administered there is every reason to believe that they will one day provide, in large part, for the maintenance of our schools, and reduce our taxes to that extent, but no one wishing to avoid dealing in political humbug can safely promise more."

"The state is the owner of a great deal of valuable riparian timber which is able to sell before it burns or rots, and again it may not. It has much of its lands tied up in forest reserves which it may get released or exchanged within a reasonable time, and again it may not. No one can say how much these resources will ultimately bring and one guess

may be just as good as another. No one can tell when purchasers may be found for them all and here again all guesses are of equal value. The only vital point about the whole matter is that our resources should be converted into cash or its equivalent, as fast as can now be done at fair market value and to meet legitimate demands. In order that our schools may be made as nearly self-supporting as possible as we go along, I am more interested in seeing that those who are living in Idaho today get some relief from the burdens of taxation than that those who may be living here ninety or a hundred years from now shall have none at all."

"At the next election the voters will pass upon a proposed constitutional amendment authorizing the sale of one hundred sections of school land instead of 25 as at present. There being no present restriction on the sale of our timber, it may be that the adoption of this amendment will secure the sale of our resources fast enough to meet all legitimate demands for the present. No one should advocate anything beyond this."

"As a choice bit of political quackery this taxless state nonsense has the million dollar reduction in the cost of state government backed off the boards."—Boise Statesman.

GOODING COLLEGE CAMPAIGN OPEN

Time Limit Set Forward Two Days—Noted Workers to Take Part—Annuity Bonds to Be Sold.

At a recent meeting of Gooding college trustees, some very important matters were inaugurated. The time limit was set forward from April 11, to April 13, as Dr. Tanner, assistant secretary of the board of education of the Methodist Episcopal church, wired that he could give two days extra service to assist in closing up the campaign.

The trustees congratulated themselves and Gooding's friends, on some expert work done by Dr. H. E. Todd, of the college of Puger Sound, who gave ten days valued service.

It is planned to have other noted expert workers, and if possible a bishop or bishops, who will give addresses,

40 For Sale

3 1-2 miles from Filer, 3-4 mile from Peavey.
If sold during March will take \$115.00 per acre.
\$1500 cash, balance to suit. Or will sell north 20 for \$115 and south 20 for \$125 per acre. 2 room shack. All hog-tight fenced. SEE THIS.

For sale by owner, E. B. Ripley, Filer, Idaho, or any Twin Falls real estate man.

STORE NEWS

I wish that it were possible for someone from this store to call and tell you all about the splendid new things we have in ladies' coats, dresses, waists and skirts, so that you might know just what an attractive collection of the very best there is in these lines that we have here in this store, with new things being added nearly every week. As this can hardly be arranged for, I want to say just a few words with the thought that you might feel so much interested as to want to come some day soon and let us show you the many pretty things we have.

Spring is surely coming, but like Easter, it seems to be a little late this year. With the thought that "Spring" might be late in coming, I sent word to the manufacturers to delay my orders for suits and coats, so as to include the latest, newest, and smartest styles in this Spring's wonderful creations.

A splendid selection is here for your inspection.

"La Vogue" coats and suits are so well known that they hardly need a word from me to tell you of their splendid qualities. The newest and brightest from the manufacturer of these garments will be found in this store.

An express shipment just in brings a number of these wonderfully smart creations that are a delight to look at. You are invited to come in and see them. Buy, if you wish, but come in and give us the pleasure of showing them to you. We will not urge you to buy.

No other store in Twin Falls will have this season's new styles of coats and suits, bearing the famous "La Vogue" trade mark. Look for the worn label.

You will not be asked as much for "La Vogue" creations in this store as in other stores, but, like all other goods I carry, my prices on these will be right.

WE ARE TRUSTEES

In making its loans and investments, the officers of the Twin Falls Bank & Trust Company realize the fact that they are simply trustees for other people's money, and cannot take too great care in handling those funds.

Whether you come to the bank to place your own funds in safe-keeping or to borrow funds held by the bank in trust, you will find that every precaution is used to safeguard the interests of all concerned.

TWIN FALLS BANK & TRUST COMPANY

SILCO EXCURSION TO BUHL IN SHORT TIME

County Agriculturalist Asks All Interested to Let Him Know—Many Stipulations Given.

The county agriculturalist, W. N. Buck, is planning a silo excursion for about April 1, exact date to be published later. The plan is to start out from Twin Falls in the morning and proceed to Buhl and return, visiting silos on the way. There will be automobiles from Buhl to join in the excursion. The county agriculturalist, and probably others, will expect to accompany Twin Falls people to Buhl and return. The best part of this will be that anyone considering a silo will have an opportunity to talk with owners of silos, make over their herds and judge what the silage is doing.

The county agriculturalist will appreciate it if all who care to take this trip will, in the next few days, telephone him (phone 712) or write him at Twin Falls, in order that he may estimate the number who will want transportation. He will especially appreciate it if owners of automobiles who can so will notify him in advance, and carry some others who have no machines. Every one who expresses a desire to take in this trip will receive a special notice of the date so that no one may be left at home.

Speaking on the subject of silage, Mr. Buck says: During the last two years the yield of silage corn in Twin Falls county has been from six to twenty-two tons, the average being twelve and a half tons per acre. Only one man furnished data regarding cost of production. He gave each acre \$3.55 worth of labor, and produced 12.5 tons, making an average cost per ton of 52 cents. The cost of filling the silo has varied from 56 cents to \$1.32 per ton, the average being 82 cents per ton. It happens that the man who grew the silage at 52 cents was the same one who filled at 56 cents, so that his silage when in the silo owed him \$1.08 per ton for labor. No account was kept here of rent, water or taxes, as they are about the same for all crops. It is understood that some silage is being produced and stored at a total cost under \$2.00 per ton and one can reasonably expect to keep this cost under \$2.00.

In one instance this feed increased the herd's products, valuing skim milk at 25 cents per hundred and butterfat at 25 cents per pound. \$2.18 per ton of silage fed. At the same time it saved 320 pounds of mixed grain and one cent per pound and hay at \$4.00 per ton, we have a saving of \$4.95 worth of feed. Adding increased production we find a ton of silage worth \$3.13. That appears to be a high price, but just suppose it had been, saving \$1.25 grain and \$10.00.

This is probably the best record in the county, but nearly every man who owns a silo will say that he would not consider doing without it. Besides the saving of other feeds, the silage keeps cows in good health, and is convenient to feed. There is no hauling in bad weather. It helps to balance the ration with the alfalfa and clover which are so abundant in this section.

The following figures taken from the records of the Buhl Pioneer Cattle Feeding association are worthy of notice. The first column shows the total number of cows feeding 40 pounds or more of butterfat per month. The second shows the number of those on the silage farms. The third shows the per cent on silage farms.

No.	Total	On Silage	Per Cent
Oct.	45	25	55
Nov.	51	25	49
Dec.	51	32	62
Jan.	64	41	64
Feb.	41	29	71

It is probable that the silage was fed in October, and little in November, but it is worthy of notice that the percentage of silage fed cows is larger every month in the county. The percentages are that the silage fed cows are getting a ration that they enjoy, one that balances nicely with hay. They are not tired of winter feed as the dry fed cows, and as a consequence are keeping up their production better.

There is not space here to go into the matter of silage for other than dairy cows, but it may be said that it is excellent for breeding and fattening sheep, young cattle, beef cows and fat feeding steers.

E. V. Ellington, professor of dairying at the university, in compliance with a request made by the county agriculturalist, has authorized Carl A. Harder of Twin Falls, to test for advanced registry in this locality an opportunity to get advanced registry tests at a considerable saving in cost. It is possible to have a cow tested to pay if a tester were brought in a distance.

PROSPECTS BRIGHT FOR MINING CAMP

Better Road, More Mills and
Plenty of Ore In Sight

MUCH DEVELOPMENT CARRIED
ON DURING WINTER MONTHS

Camp Survived Severe Winter. Mills Were Forced to Close. Highway to Twin Falls Only One Kept Open.

Jarbridge is pushing steadily towards the front as a mining camp; possibly not with sensational speed, but slowly and surely. During the past winter development work on different properties was pushed as it never has been before; arrangements are being made for better milling facilities, and highways will be improved to meet the increasing demands for better transportation facilities. Such is the state of the Jarbridge camp, as a communication to THE TIMES from a special correspondent at Jarbridge.

The communication follows: JARBIDGE, NEVADA, MARCH 7.—The outlook for the future of Jarbridge camp is very promising. There is little doubt that all the mills in the district will be running full capacity as soon as the weather conditions will permit. The development of ore reserves during the winter has been most satisfactory and it is expected that those properties which have mills will make a good showing of bullion this season, while other mills will be built and contracted for.

The winter has been the most severe experienced in the camp; a large amount of snow has fallen which has been piled up in places by a very severe wind. The roads have been in bad shape, necessitating considerable shoveling. The road between here and Twin Falls has been kept open all the time for delivering freight into camp but the roads up to the mines and mills were too badly drifted to permit trying to keep open. All the mills depend on oil fuel for power and as it costs too much to get oil to the mills they have all been closed down for awhile.

Except during the winter months Jarbridge has road connections with both Elko and Twin Falls; the road from Elko through Jarbridge to Twin Falls is a most scenic interstate road. It crosses the Humboldt range and there is considerable talk of making this the main artery for automobile travel between Yellowstone National Park and the Yosemite. Elko county has spent a large amount of money to build and keep in repair the road from the county seat to Jarbridge, the road passing from the beautiful valley of the Humboldt river, up through pleasant valleys, past some of the most imposing summits, around rough and rugged crags, high above the surrounding country, with magnificent views of unspoiled distances. In the camping places with fine fishing and hunting are among the other attractions of this route. Both Elko and Twin Falls counties are planning to spend considerable more money on road and make it a favorite, if possible with the traveling public. It is expected that the mine operators of the camp will co-operate with the county officials in the consideration of long-talked-of new location of road from the town of Jarbridge down the river and up on the mesa that will avoid some of the snow drifts that are a trouble during the winter on the present road. Charlie Winter, who has a cattle ranch on the island about eight miles north of town and who has been supplying the mesa market with beef for the past year has been going over the proposed route of this new road and has located all the snow drifts that will have to be moved. Josh Zacharias, who has a small vegetable and milk ranch on the river bottom has watched the slide this winter and agreed with Mr. Winter. The new road will make a safe route with easy grade that can be kept open during the winter with little trouble and it can be built for about the same sum as would be required to put the present road in good shape. This road will also give an outlet for the ranches and cattle men in this section of both Idaho and Nevada. With the growing business of the camp, the necessity of better roads is apparent.

The development of the Long Hike property is demonstrating what practical and systematic work will do and makes the future outlook for Jarbridge very bright. The Long Hike vein was discovered and opened up on the surface near the upper part of the Long Hike ground, and a tunnel run for a short distance with encouraging showings; then another tunnel was run in about 150 feet lower down to intersect the vein which was drilled on for some distance with somewhat better showing than was found above; then a tunnel was run another 150 feet further down the hill, where the showings were still better. Here the drift ran for 250 in good ore with a width in places of 15 to 20 feet and average values of \$20 to \$25 per ton. A fourth tunnel is now being run 150 feet further down the hill which will give nearly 600 feet of backs, which is just getting into the vein. When this drift is run through the ore body and the different levels connected, values exposed will reach up into the millions. With this there will be ample warrant for the expenditure of large sums of money for power and mill equipment. Record progress has been made with the tunnel work on the Long Hike, the average being eight to ten feet per shift; one week recently, with three shifts the tunnel was advanced 22 feet.

The Flaxie company installed a three stamp prospecting mill late last fall and have been running through some of the high grade ore, but the results with this small mill have not been very satisfactory as it is only possible to handle the best grades of ore. It is probable that a larger mill will be arranged for this summer

which will enable the whole body of ore to be treated. Considerable development work has been done on this mine and a large amount of ore has been located. The average value of the ore is about \$15 per ton, although the high grade streak shows much picture ore variety that this mine has always been noted for.

The Legitimate mine is being extensively developed and a fine chute of ore has been exposed on the 100 foot level. The average value of the ore is about \$15 per ton, although the high grade streak shows much picture ore variety that this mine has always been noted for.

The Alpha mine is being worked by a number of miners under lease and the results are of the most satisfactory nature. A considerable amount of ore has been opened from which a very substantial profit is expected as a result of their winter's work. A short mill run was made on this ore which yielded sufficient gold to pay the expenses.

The O. K. property has been quite extensively opened up and is making a creditable showing. This mine is under the same management as the Long Hike.

The Bourne mine is being operated by a new company under lease and bond. A change was made in the mill and five stamps were installed. The mill is now running on \$12 to \$15 ore and considerable quantity of ore is in sight in the mine, while considerable development work is under way; a new tunnel from the level of the top of the mill which is about 150 feet should soon be in ore and will give about 200 feet of backs.

On the Elmore about five feet of vein matter has been opened which pans well.

The Buckeye is showing up some rich ore and the ore chute has been raised on and the two tunnel levels are nearly connected. The leasage of this mine will have a nice body of ore to run through their Arrastra as soon as the weather conditions permit.

At the Success very little new work has been done but the main has been kept up in good shape and several hundred thousand dollars worth of ore are estimated in sight in the several ore chutes already opened. This is one of the promising properties of the camp. It is understood that several parties who have had examinations made are favorably impressed with some. If a good strong company takes hold of this mine there will soon be another mill in line for the camp.

The Bluster Consolidated Mines company closed its mill when the conditions of the roads made the expense of hauling in fuel too great; besides the cold weather made it hard to hold the mill open. The weather, however, expenses and losses that made it advisable to close the mill until the weather conditions were more favorable. It was also considered most advisable to install the cyanide addition to the mill before treating more ore and thus save much of the loss that has been accumulating in that tailing pond. Development work has been prosecuted in the mine, some rich ore having been encountered in the past workings.

The leasages on the Pick and Shovel after making a very successful short run with their mill, closed the mill down owing to the difficulty of hauling the ore from the mine down to the mill; the development work in the mine has been pushed and several ore chutes are well opened up so that a very satisfactory amount of ore is in sight ready for the mill when it becomes practicable to start it again. A snow slide occurred on the Bonanza

which will enable the whole body of ore to be treated. Considerable development work has been done on this mine and a large amount of ore has been located. THE TWIN FALLS TIMES

TWOICE-A-WEEK

Published Tuesdays and Fridays by the
TIMES PRINTING & PUBLISHING COMPANY, Ltd.

TWO DOLLARS PER YEAR IN ADVANCE

NOTICE: DISCONTINUANCE: Many subscribers prefer not to have their subscriptions interrupted in case they fail to remit before expiration. Notwithstanding this, it is not assumed that continuous service is desired; still, subscribers are expected to notify us with reasonable promptness to stop if the paper is no longer desired.

Entered at the Twin Falls postoffice as second class matter as a twice-a-week publication, October 18, 1910.

EXIT ALL TRADING STAMPS.

We can not help but feel that the merchants of this city acted wisely in discarding the trading stamp idea, as reported elsewhere in this issue of THE TIMES.

The "Something for Nothing" fallacy has been punctured so many times that comment on it seems superfluous. The ending is always the same; disappointing alike to purchaser and seller.

The average man or woman buys a thing because he needs or wants the article to be purchased; and he is willing to pay what he regards a reasonable price. He does not need nor he does not want the premiums that he is obliged to buy along with the article he does want. He would take them as a gift, to be sure, but he knows very well that they are not being given to him as a gift; on the contrary, that he is simply being forced to buy them along with his other purchases.

Competition in all lines of business is a great leveler of prices. The public perhaps benefits by the trading stamp policy when first inaugurated, but only a short time elapses before the retailer adjusts his prices to include the additional expense the premium or trading stamp plan entails. This is inevitable.

That local merchants gave the plan a fair trial is an indication of their enterprise. That they have now abandoned it after a fair trial and after it had been demonstrated unsound by actual experience is an intelligent and progressive act.

It might be added that THE TIMES backs up this opinion by practice. We do not obligate subscribers to pay us for scissors, maps, plates or calendars when they come in to buy a year's subscription to our paper. We sell them what they want, and much prefer to put the cost of such articles as some newspapers sell with subscriptions, into the paper itself, making it, as far as we are able, a bigger, better and brighter paper.

NEGLECTANCE AND THE PUBLIC HEALTH

Somebody has evidently been remiss in the performance of duty in regard to the order of the county requiring the muzzling of dogs. From the informal discussion at the court house the other day between the clerk of the board of county commissioners and the county attorney, wherein it developed that the county attorney had refused to prosecute owners of dogs who refused to obey the order on the grounds that he had been unable to discover any record that the county board of health (the same as the board of commissioners) had ever passed such an order.

This matter, like all pertaining to the public health, is of paramount importance. The case of the Douglas hares at Haggardt and the recent invasion of Rogerson by a mad coyote is indication enough that hydrophobia is still rampant in the county. The situation will probably continue serious until the coyotes have been exterminated either by the efforts of the county or as the result of the ravages of the disease. Failure to keep dogs muzzled may have disastrous consequences to men, women and children, and to cattle as well.

In view of the terrible results that might follow from the failure of any one to comply with the muzzling order, it is unfortunate that the records appear irregular in this matter. It is to be hoped that no serious results will follow this unfortunate circumstance. Probably none of the dogs whose owners refused to comply will go mad; and if they unfortunately should it is to be hoped that they confine their activities to their misguided and arbitrary owners.

In the city of Twin Falls owners of dogs must keep their dogs muzzled or prosecution will follow. As Mayor Sweeley informs us that the city's records are entirely complete and regular, and that the ordinance is being and will continue to be enforced.

Incidentally we would suggest that until the present situation is relieved that farmers refrain from using their dogs to assist in the handling of stock.

The Theatres

PEEPS AT THE FOUR HUNDRED.

The New York "Four Hundred," as they dress and amuse themselves in their luxurious and expensive life, are depicted in the new live-triangle drama, "The Conqueror." It is coming to the Orpheum theatre next Monday, the twenty-first. Flashed in the business, dinner and ballroom attendants, beautiful women wearing the latest low-cut models and sparkling with jewels and diamonds, more than enough to rival in magnificence those of "The Arabian Nights." All manner of elegant furniture of all periods, hangings and bits of ancient handicraftsmanship, the finest work of the old masters in oil or marble, all the things that delight the eye are shown in the interiors of fashionable homes in "The Conqueror." In contrast to the suave manners of the well born is the contrast of William Mack as "Wolf of Wall Street." He pays no attention to the little amenities and turns his back on society men and women with perfect unconcern at their displeasure.

CAMERA MAN RISK

LIFE TO MAKE PICTURE

The most daring feat ever performed by a movie camera man is credited to Rial Schellinger who photographed many of the scenes in the William Fox production of "The Wolf of Wall Street." He was in the theatre Monday and Tuesday evenings. One of the "locations" chosen by Director Frederick Thompson was a narrow cleft which had worn its way for some distance into the face of a huge rock formation on the shore. Only by placing the camera on the narrowest part of the recess, which practically amounted to a cave, could the desired result be obtained.

Even at low tide the water rushed into the opening with such force that a man could not stand on the bottom and keep his feet, and no tripod had ever been built which could have withstood the sea's fury at that particular spot.

Making use of what material they had at hand, the carpenters with the company built a light framework, fastened the moving picture camera to it and then lowered the framework until it

theatre, commencing Thursday, March 23rd, states as follows:

"In its fourth week at the Savoy theatre the Lorenz 1916 Road show has been the Zone of the exposition is still playing to crowded houses, and in last night's performance Mr. Henry Geo. Lorenz, the eminent American opera singer, who has been the life of an audience of capacity proportions that he is full measure, pure wool goods in his chosen line of endeavor—opera. Though his time limit on the bill was all too short, it was filled to brimming with great features, practically all of which were staged with a view of putting the audience in good humor. Dr. Lorenz stages his work efficiently and artistically, leaving the audience watching thoroughly imbued with the notion that the master mind had a lot of good stuff in reserve.

"Turtill," the sensational male Voleska Shurt, again was a different genus of gorgeous colors and the then dances of East India and Egypt as presented by this famous dancer, continues to be a feature of the Lorenz attraction.

PERSIAN WALNUTS WEALTH PRODUCERS

(Continued from page 1.)

he produced in mutton from the pasture of the best acre of pasture land in England. I do not know how to put the thing more strongly. Language could not convey the idea more graphically. Now, consider the situation. English and French walnuts grow well in this country only in a narrow strip in California. Consider the amount of food that can be produced from a walnut that will grow in this northern climate and produce such fruit as has been grown on the Blue Lake farm. The Persian walnut is grown largely in China, where it produces well in the cold country north of Peking. It has rich, sweet meat, with a firm and moderately thick shell and is a beautiful nut. I took two of them to Luther Burbank and gave them to him, asking him to try them. He ate one and said that it was the best nut that he ever tasted and that he would not take \$20 for the other one as he intended to take it home and plant it. It is a tree that is free from pests and requires no spraying, is strong and healthy, has a firm bark, requires no boxing, and is a heavy producer. Thirty-two trees

can be grown on one acre of ground, and when the statement of the French scientist in regard to the food producing qualities of a single tree is compared with the best acre of English pasture is recalled, you begin to get some idea of what its culture would mean. It could be planted along ditches and in waste places useful for no other purpose, where the soil is deep enough.

"The market for walnuts is unlimited, and there are practically no Persian walnuts grown in this country, as indicated by the fact that the agricultural department has applied to Mr. Burbank for buds. I consider it one of the greatest wealth producers that could be cultivated on the Twin Falls tract, where the soil and water are both so abundant."

"Another product recently brought to the tract through the experiments of the department of agriculture is ladino clover. You will not find the name in any book on agriculture in this country. It is an importation from the European plateau regions, and grows exclusively in Switzerland and Italy. It is the most palatable of all clovers and produces 500 pounds of seed to the acre in this country. Over 100 acres have already been planted and as it grows to more than twice the height here that it does in its native country its successful cultivation on the tract is no longer a matter of doubt."

Of course, Mr. Grubb is at home in discussing the potato but his experiments with the spud is an oft told tale. He has written a book on the subject which has been translated into many tongues and is quoted as authority everywhere. Mr. Grubb has traveled around the world several times visiting the leading agricultural institutions of all civilized lands, consulting and being consulted. He is now on his way home to his famous tuber, which he has been growing at the completion of a special trip through California teaching the leading dining car chefs how to select and prepare potatoes as an expert of experts. He is still devoted to the potato which he declares is the food that may win the war for Germany unless there are enough in the United States to go from the favorite adopted home of the potato to the battle front. He says that one pound of potato furnishes as much wholesome and nutritious human food as eight eggs, and quotes leading physicians to endeavor to show that the denunciation of the potato which was taken up by the medical fraternity some years ago and

which has discouraged its cultivation in this country, is a mistake. But to hear Mr. Grubb on potatoes is an education in itself and justifies cannot be done to the subject within the limits of a single newspaper interview. Mr. Grubb has two farms on the North Side, one at Eden and one at Hazelton, and has also a farm on the Salmon tract.

A. E. Weller, G. H. Slement, W. H. Smith and D. Welby, were in the city from McCallister Tuesday.

"QUALITY ALWAYS"

Good Will Steadily Spreading

Dodge Brothers have built and delivered thirty-eight million dollars worth of cars in the past thirteen months.

The car has now reached the stage where its sales are almost automatically increased.

By this we mean that one sale is almost certain to result in one or two other sales.

The simple truth about how the car stands with the public is hard to put into words because it sounds like boasting.

It is a common occurrence with dealers, everywhere, to have a man walk in and drive out without wasting time asking questions.

The fact is that the average owner is not merely satisfied, but almost extravagantly enthusiastic.

You must have noticed that the first thing said about the car, in ordinary conversation, is almost always a direct reference to its quality.

People have arrived at the conclusion that the Dodge Brothers give the manufacture of the car an unusual degree of personal attention; and that the car is right, down to the smallest detail.

There is a widespread feeling that they take an intense personal pride in perfecting the product that bears their name.

Both of these conclusions are correct.

As we have said before, the Dodge Brothers are the actual, active superintendents, engineers, managers and owners of this business.

Before they began to build their own car they had built the parts for more than half a million other cars.

All of this experience, and all that followed it—coupled with intense pride in their own product and love of the work itself—keeps up a continuous process of improvement. They have concentrated on one car, and one car only, in a determination to make it as good as a car can be made.

For every part and every process that enters into it they have personally established a standard.

The work done and the materials used in each part, and each process, in every car, must conform to that standard.

The factories now cover 60 acres of floor space—and are still growing—but there is no department so remote that it does not feel the influence of the Dodge Brothers personal direction.

This intense watchfulness accounts, of course, for the remarkable things you hear about the performance of the car.

In its first year it has acquired a wonderful hold on the good opinion of the American people—and it has not developed a single fault worth talking about.

That it will steadily grow better under the Dodge Brothers' generalship goes without saying.

It will be well worth your while to examine this car at the Show

PRESS SAYS LORENZ 1916 ROAD SHOW IS BIG HIT

The San Francisco Examiner, in reviewing the Lorenz 1916 Exposition City Road show, which comes to this city for three days at the Lavering

To my dear Daughter:

You should be satisfied now, after urging me for a year for my picture; I had it taken at **The Bisbee Studio** yesterday morning.

Mrs. Bisbee has been wanting to see my Irish crochet for so long and she told me to take it down yesterday. There was a fire in the grate in the posing-room and I sat down in the big rocker near it to show her the different patterns of lace. Mr. Bisbee said he would focus the camera while we were looking at them. I had my crochet-hook in the little pearl edging—the one you wore on your white sash dress, do you remember?—and as I was rounding the scallop, Mr. Bisbee took my picture!

He says a fine portrait must combine ease of pose with the natural expression of the subject. Perhaps that's why I like this one. I felt as if I were back in the old farm home in the '30's—with you in your little bed listening to me sing "Just a song at twilight." It did not seem as if I was having a picture made. Let me know how you like the proofs.

MOTHER.

The "Only One Mother" Series—No. 8.

SOCIETY NOTES

Society items for this column will be gladly received by The Times, Phone 124-W. The Society Editor.

Mr. and Mrs. Frank Wilson and daughter, Kathleen, were dinner guests Thursday evening at the home of Mr. and Mrs. Sam Sherman, of Moherley, Missouri.

The Wayside club met Thursday at the home of Mesdames Griffith and Valentine. "Home Travel" was the subject discussed and refreshments were served by the hostesses.

Miss Georgia Maxwell and Miss Jane Maxwell were business to the Emanuel club last Saturday night. A theatre party at the Isis was followed by a supper at the Maxwell home.

Mrs. Henry Brown entertained the Priscilla club Thursday of last week. A large membership was present and the afternoon was a great success. Light refreshments were served.

The regular weekly meeting of the Wednesday Cozy club was held at the home of Mrs. Brough last week. A silver pie knife was the first prize and was won by Mrs. H. Hunter. A very dainty two-course luncheon was served later.

An interesting program and a social afternoon were enjoyed last week at the meeting of the Kimberly Road club at the home of Mrs. Al Coburn. Mrs. Schuster was a guest of the afternoon. Mrs. Rexroat conducted the program, which was very interesting and instructive. The subject was "Things Beautiful."

Mrs. Wright was hostess to the Blue Lakes Boulevard club last Friday. The following program was given: Piano solo, Miss Dorothy Wright; reading, Miss Frances Smith; nursery story, Miss Wilma Hankovcni; solo, Miss Dorothy Wright. Mrs. Wright, assisted by her daughter, served dainty refreshments after the meeting. Mrs. Moomaw will be the next hostess.

The regular meeting of the Mothers' Surprise club was held Wednesday afternoon of last week at the home of Mrs. C. E. Duke. The subject under discussion was "Gardening." Each member responded to roll call with some appropriate selections. Two very helpful papers were read on the subject of "Sweet Pea Culture" and "Efficient Gardening." At the close of the meeting the hostess served a dainty luncheon. The club will meet in two weeks with Mrs. Davis.

In honor of her sister, Miss Fannie Coates, who is hostess, Mrs. C. E. Duke on Sixth avenue, entertained a few guests at a very pretty dinner party last Saturday evening. Green and white were the motif of the decorations and the St. Patrick's idea was also much in evidence. The place cards bore shamrock designs and the centerpiece was a beautiful fern. The favors were corsage bouquets of white sweet peas tied with green ribbon. There were eight guests.

One of the prettiest luncheons given for the Luncheon club was that over which Miss Jane Maxwell presided last Thursday. Mrs. How, a sister of Mrs. Everett-Sweeney, was the honoree. Pink carnations formed the centerpiece of the table and pink and white suggestions were found in the menu and place cards. Mrs. Sweeney and Mrs. Cios had high score in the bridge game and were each presented with silk hose. The guest of honor found her place marked with a corsage bouquet of violets. The members present were Mesdames, Fanning, Peavey, Ostrander, Cios, Sweeney, Robbins, Rosa and Miss Georgia Maxwell.

The following concerns two ladies, Mrs. C. M. Hill and Mrs. B. Newblitt, now residing in Boise, who will soon make their homes in Twin Falls. Both are known here. Mrs. C. M. Hill has visited Mr. and Mrs. Wilbur Hill. Mr. C. M. Hill is a brother of Mr. Wilbur Hill, the former editor of the Times. Mrs. B. Morgan Nibbel was the honoree guest at a number of informal gatherings during the past two weeks, prior to her departure Monday next for Twin Falls, where she will make her future home.

"Friday evening Mrs. Graveley, Mrs. Polts and Mrs. Hansen, entertained in honor of Mr. and Mrs. Nibbel at the Hansen home. The dinner table had an effective centerpiece of carnations and covers were laid for 12. Cards followed later in the evening.

The members of both chapters of the P. E. O. entertained at the home of Mrs. Hackett Monday evening for Mrs. Nibbel, the affair being only for ladies and taking the form of a Kensington.

"Wednesday evening Mrs. B. P. Shawnee entertained a few ladies informally with cards for Mrs. Nibbel. Sixteen were present.

"Mrs. Charles Underwood entertained seven friends with cards Thursday afternoon complimenting Mrs. Nibbel. Supper was served at small tables.

Complimenting Mrs. Hill.

"Mrs. H. H. Miller gave a pretty luncheon of 20 covers on Tuesday last for Mrs. C. M. Hill, who leaves on Tuesday for Twin Falls. The guests were seated at one large and several smaller tables. A big cluster of carnations formed the centerpiece. During the afternoon Mrs. Hill was the recipient of a shower of "friendship" cards from the guests.

"The members of the Priscilla club gave a dinner in honor of Mr. and Mrs. C. M. Hill at the home of Mrs. William Mitchell Wednesday evening which was enjoyed by 13 couples. Two tables were arranged for the company. In the evening the men trimmed Easter bonnets for the women and many amusing games were played.

"Grandmothers Ways and Ours," as discussed in the program at the Twentieth Century club Tuesday afternoon.

DR. F. C. BEBEE

Central Building, Phone 484.

led to pleasant thoughts of other days and to the question whether the present generation may not be benefited by heeding many of the old time customs and manners.

Mrs. Deake, who was leader of the day, introduced "grandmothers' quartet," which proved to be Mrs. J. C. Henty, Mrs. A. Baker, Mrs. Smithson and Mrs. Kautz, who sang "Auld Lang Syne" in a way greatly approved by the critics of today. How the pleased their audience was evidenced when prolonged applause brought them out again and they caused much amusement with the old time round "Three Blind Mice."

In a well written paper Mrs. Deaky then made comparisons between grandmothers' ways and ours, which was most entertaining as well as instructive.

"Grandmother's Deaky" was the title of the paper which was written by Mrs. Kunkley for her grandmother many years ago, and read by her on this occasion.

Further comparisons, entertainingly gotten up, were made by Mrs. Deake in her paper read as the closing number on the program.

During the afternoon, beside the president and incoming president, the following were elected as delegates to the state federation, which meets in Twin Falls in September: Mrs. W. F. Pike, Mrs. J. A. Bradley, Mrs. K. A. Packard, Mrs. A. D. Norton, Mrs. M. W. Kunkley, Mrs. P. W. McElbert, Mrs. E. E. Chamberlain and Mrs. R. R. Pichean.

Delegates to the district federation in June are the incoming president, Mrs. M. G. Ripley, Mrs. Willet Hanes, Mrs. A. Gubert, Mrs. J. W. C. Deake, Mrs. J. B. White, Mrs. Schreider and Mrs. Edwards.

Club members were unanimous in their decision to change the hour of the club breakfast until evening and to avail themselves of leap year privileges by securing their husbands or sweethearts to the banquet hall on that occasion.

Mrs. Archie Craig gave a surprise party Tuesday evening in honor of her sister, Miss Marie Wood. During the early part of the evening the young ladies were invited to the "movies." On their return a four-course dinner was served. Those invited were Misses Marie Wood, Grace Fowler Corinne and Helena, Abner, Mahol Banks, Fern Gates, Jennie Walker, Ruth Glasgow, Cora Hartigan, Fern Ames, Pauline Field, Florence Hill, Lucille Wolf, Emily Walt.

The Misses Mota and Martha Sells entertained Saturday evening at the home of Mrs. Mota. The invited guests were Misses Agnes and Ester Anderson, Oleon, Snyder, Edna Bunnell, Hattie Bunnell, Rosamond Bunnell, Ruth Ames, Foss, Holderman, Beck, Oleon, Anderson, Snyder, Goolby, David Graves, Charles Graves and Newman. The evening was spent in playing games and dancing. A two-course luncheon was served.

A quiet wedding took place at the home of the bride's mother, Mrs. Amanda E. Overfield, 437 Third Ave. N., on Saturday, March 11, 1916, when the bride of Harry E. McAlley, of Churchill, Idaho, at 8 o'clock on the evening of March 11th, Rev. C. L. Bent officiated. The bride and groom were accompanied by the bridesmaids and groomsmen. After the ceremony a three-course luncheon was served.

Miss Overfield has taught the kindergarten the past year. Mr. McAuley is a prosperous young farmer. After April 1, they will be at home to their many friends at their ranch home near Churchill, Idaho. That they may enjoy a long and prosperous life together is the wish of all who know them.

CHURCHES

Ascension Episcopal.

Sunday school every Sunday at 10 a. m.; morning service and sermon Sundays, 11 a. m.; Vesper services at 4 p. m.; early eucharist third Sunday every month at 10 p. m. Do not forget us into the Lord. Let us worship Him in the beauty of holiness. Specially good singing. A cordial invitation to all. Rev. E. B. Frank, Rector; residence, 215 3rd Ave. N. Church, corner 3rd Ave. N. and 2nd St.

First Presbyterian.

Sabbath school at 9:30 sharp. All the workers and all members of the men's and women's Bible classes are urged to be present for further conference. Session noon at 12:15. For reception of any who have fully decided for this church. Come to the study door. J. F. Shepherd, D.D., Minister.

Lutheran Church.

Divine services at the Lutheran church next Sunday morning at 10:30. Sermon subject: "Flory Serpente." Among the children of Israel. In the evening service a special sermon will be preached with reference to the passion history. "Peter, the Disciple, Denying Christ." Sunday school begins at 10:00 a. m.

Preaching at Clorin in the afternoon at 2:30. Bible class after services. Come and worship with your family. J. A. Schlichting, pastor.

First Church of Christ, Scientist.

Sunday services at 11 a. m. Subject of Bible lesson for March 19, "Matt." Sunday school convenes at 10 a. m. Wednesday evening meetings at which testimonies of healing are given, begin at 8 o'clock. A reading room, where Christian Science literature may be read, purchased or borrowed, is open in the church building between the hours of 2:30 and 4:30 p. m., except on Sundays and holidays. 230 Third avenue East.

First Christian Church.

Regular services next Lord's day at the usual hours of 11:00 a. m. and 7:30 p. m. Morning sermon theme: "Some Characteristics of the Primitive Church." Evening sermon theme: "He That Disbelieve Shall be Condemned." Bible school at 10:00 a. m. An exceptionally large attendance was present last Sunday. The aim for next Sunday should be "bigger and better." The ideal class will have full charge.

Six Choice Farms For Sale and Three Choice Farms For Rent FOR SALE

FARM NO. 1.—First-class 160 acres, good buildings, good fences, the finest quality of land, all under cultivation and mostly seeded. Only four miles from Jerome on main road. Price with improvements \$100.00 per acre.

FARM NO. 2.—A "Money Maker" 80-acre place from the start, no fencing to do, no buildings to build, no ground to work over or nothing else to do but go ahead to make money, because everything is ready. Three miles and one-half from Jerome. Price per acre on reasonable terms \$100.00 per acre.

FARM NO. 3.—The most reasonable buy of its character in Southern Idaho. Contains 80 acres which is partially cleared of brush. Has excellent location five and one-half miles out. Neighbors all around it. This eighty will sell for \$100.00 per acre more in five to ten years from now. Terms \$600.00 to \$800.00 down with balance on time. Price per acre \$40.00.

SUNDAY TIMES

THE POWERFUL OLIVER SERMON DELIVERED AT THE TABERNACLE SUNDAY MORNING

Copyright 1916 by Dr. Erwin E. Oliver.
Published in THE TIMES by Special
Permission.

I ALL of the kings of Europe were assembled in London tonight and I should answer the question, "Do you think Jesus Christ will return to earth soon?" I think not. If our President should call the two legislative bodies into a conference and have the governors of all the states and mayors of all of the great cities as guests and the question, "Do you think Jesus Christ will return to earth within a short time?" should be presented, the consensus of opinion would be hastily stated. They would say, "We think not." I will go further; if all the ministers of the Gospel were called together in one gigantic conference and were asked the same question, I think the majority of them would say, "We do not expect Him."

But the text I have chosen for this address which is recorded in Matthew 24:44, says: "Therefore be ye also ready, for in such an hour as ye think not, the Son of Man cometh." It is pathetic when you consider the fact that the second coming of Christ is mentioned about five times to where His first coming is mentioned once, that the majority of the people who believe that He comes as a Man of Sorrows and died on the cross to save sinners are not only in the dark concerning the fact of His return, but many of them bitterly oppose every effort to bring Him back and a glorious return.

Nevertheless, He is coming. "Behold He cometh with clouds, and every eye shall see Him, and they also which pierced Him, and all kindreds of the earth shall wail because of Him" (Rev. 1:7). But before He returns to inaugurate the Millennium, to execute judgment upon the Gentile world-system, which is owned root and branch by the Devil, He is coming secretly to call His saints, and His call of the saints will inaugurate the beginning of the missing week of Daniel's prophecy, or the seventeenth week, which is so vital in moment, as the beginning of trouble and bloodshed. (Dan. 12:13.)

Lack of Vision

Christ's reference to the condition of the church at His appearing is made very clear in His parable of the Ten Virgins—five were foolish and five were wise. It seems to indicate the lack of vision and spiritual uncleanliness on the part of the blind leaders and the blind followers of churchianity, who have substituted formality for regeneration and mere and unedified religion. The current phrase on the part of modern religious leaders has been worn threadbare, the statement, "I am an optimist; the world is getting better." It has been worked overtime. There is such a thing as intelligent optimism, but it is absolutely different from blind and consummate ignorance. I heard of a man in New York not long ago who was a noted optimist. He fell from the fifty-sixth story of the Woolworth Building. Somebody asked him as he passed the thirteenth story, "Everything is perfectly lovely so far," and that seems to indicate the optimism of the false religionists of our time. They are dropping into the blackness of death, and do not know their danger. When I ask men and women for proof that the world is getting better, they mention "Peace-conferences" and refer to the great strides of education as an indication as the world is getting better and point to the marvelous achievements of modern education. I desire to say that the beer-soaked theologians of Germany have done more to preach infidelity in the form of the Higher Criticism into the world during the past forty years than all other educators combined.

Education Falls

I had a letter from the highest authority in one of the great denominations in regard to the condition of the colleges of our country. He said that in spite of education, in spite of the advance in science and philosophy, art, literature and all learning, crime was increasing at a greater rate than ever before in the history of America. The current idea concerning the Millennium is that as the process of evolution the world is to be made better gradually, that the Gospel is the lever that leaveneth the whole lump and the world is the lump, and the process will ultimately end in the complete conversion of all men and women of the earth and it will become so righteous that Jesus will be drawn back to earth to establish His Kingdom.

The Bible does not teach anything bordering on this current theory. It teaches absolutely the opposite; the authority of Jesus Christ is the best authority in the universe. I will enter His testimony: "And many false prophets shall rise and deceive many, and because iniquity shall abound, the love of many shall wax cold, and this Gospel of the

Kingdom shall be preached in all the world for a witness unto all nations, and then shall the end come" (Matt. 24:14-14). The Gospel only uses the term "leaven" in the sense of uncleanliness; the process is a process of disintegration. It is not a process in chemistry of preservation. Certainly the Son of God was not an ignorant in regard to the process of leaven in its action. The leaven of the Pharisees was a destructive principle which absolutely ruined spirituality and caused them to become bitter assassins. The Scripture says very plainly that "Seducers shall come, covetous, headstrong, proud, blasphemous, disobedient to parents, unthankful, unholty, without natural affection, true breakers, false accusers, incontinent, fierce, despisers of those that are good, traitors, heads, high-minded, covetous of pleasures more than lovers of God; having a form of godliness, but denying the power thereof: from such turn away." This prophecy is fulfilled in our day. There are false teachers and apostate preachers who substitute the form of godliness for the power thereof. They build dance halls in connection with their churches, and make a trade out of hell out of the institution they call the church. Such churches are religious garbage cans. Such preachers are ecclesiastical huzzards constantly searching for those who are too rotten to repent and be converted and live clean lives!

The Record

Look at the record made by those who have deliberately rejected the revealed truth of the Bible concerning the deity of Jesus Christ and redemption through His atoning and precious blood. Consider the religious record of any number of English and German and American preachers whose utterances have been infinitely worse than those of Thomas Paine, Voltaire or Robert Ingersoll. Take the present state of the church membership in America; the majority of churches seem to have reached the Laodicean period. They are neither cold nor hot. They have settled down into the nauseating, lukewarm condition described in the third chapter of Revelation.

Persecution purified the church. When the church traveled through fire, or through water, or through blood, her testimony was clear; when the church became rich and said she had need of nothing, then she lost her power and the Head of the church, Jesus Christ, declares He will wipe the church out of His mouth. He is not referring to those who are clean and pure in heart, but He is referring to that tremendous multitude of unregenerated, unspiritual, godless people in the church who refuse to be led into a knowledge of the truth.

The majority of church members in this city never try to lead a soul to Christ from one year's end to the other. They remind me of a northern man who bought a plantation in Georgia. One of his friends visited him and he said, "I understand there are natives down here whom you call 'crackers'." Can you show me one of them, or tell me their peculiarities? The planter pointed to an object in a distant field and said, "Do you see that brown object? That may be a stump or it may be a 'cracker.' You stand here and watch it for thirty minutes— if it moves, it is a stump."

In Atlanta some time ago they had a plague of smallpox and they vaccinated all of the negro school children. The doctor called them to one little boy and asked him if he had been vaccinated. He answered, "Yes, sir, I've been vaccinated and baptized both, but I didn't take." And that is the trouble with the godless crowd in the church. They are willing to run the gamut of forms and ceremonies. They have a form of godliness but they deny the power thereof.

Christ says in regard to the moral condition of the world at His coming (Matt. 24:37-39): "But as the days of Noah were, so shall also the coming of the Son of Man be. For as they were eating and drinking, marrying and giving in marriage until the day that Noah entered into the ark, and knew not until the flood came and took them all away, so shall also the coming of the Son of Man be."

Christ holds out absolutely no hope that the Gospel which is preached for a witness will be accepted by all men, but He definitely teaches that multitudes will reject it (Matt. 25:43). "Then shall He say also unto them on the left hand, Depart from me ye cursed, into everlasting fire, prepared for the Devil and his angels."

Marriage a Joke

The frightful degeneracy evident in the world in high society, in shops and stores and offices; in the dancing parties, where the young people follow every conceivable phase and process of moral degradation in

the category of crookedness, marriage has become a joke; a divorce diet dominates a great number of the leading citizens of many communities. The world is better in spots, but it is worse in other spots. God's true people, who can follow the leadings of the Holy Spirit, are purging their consciences from dead works to serve the living God. Those who are drunken with pleasure and sensuality are asleep in the daylight, morally and spiritually speaking. The saints are better, and the sinners are worse. Paul prophesied in 2 Timothy the fourth chapter, third and fourth verses, that the time will come when they will not endure sound doctrine, but after their own lusts shall they heap to themselves teachers having itching ears and they shall turn away their ears from the truth, and shall be turned unto fables.

Breath From Hell

False religions are prospering as never before in the history of the world. Eddyism, or so-called Christian Science, which is the advance agent of the Antichrist and comes as a breath from hell, has left its stamp and left a trail of blood and carnage, but has hoped guilty promulgation in other parts of the world. Its propaganda declaring that there is no sin, is a warrant for every conceivable kind of immorality that the Devil can suggest to men and women. Theosophy with its occultism and mysticism is equally devilish in character and soul-destroying in its effects. My friend, Dr. Hayes, of China, told me that the Simon-pure teaching of Theosophy in the Orient demands that the women shall not only leave the feet of their husbands as an indication of their humility, and subordinate position, but further demands that they shall drink the water. The Devil has swung the pendulum to the other extreme from formalism to frightful fanaticism wherever it has been possible. Holy Rollers and Holy Jumpers have devoted their time to the wildest kind of emotional outbursts; with others, mattering incoherent sounds, have claimed the Gift of Tongues and some of the poor dupes who have gone to other countries, thinking they could practice a Gospel found that they had no message which the hearers could understand, and they have been thrown into despair and doubt. Spiritism, in places where it was introduced by a number of English scientists. Sir Oliver Lodge has recently declared the veil between this world and the next to be worn away in places. In 1857, when the doctrine of atheism to pantheism and has also attempted to palm off the Deification of man as a something worthy of the name of God, and the worship of Him men worshipping themselves and saying we are accountable only to the god within; and with the judgments they outlined in the midst of these poor dupes of perdition the prospect is not encouraging.

Increase of Crime

Crime is on the increase. Murder and suicide are both running rampant throughout the nation. In 1892 there were 1597 murders in these United States; in 1892 there were 5000 murders in this country; in 1896 there were 10,000 murders in our country; in 1900 there were 12,000 murders in our country, and in 1913 there were nearly 20,000 murders and suicides. Lawlessness is officially entrenched throughout the nations of the world. When the duty of Jesus Christ, can be elected to the presidency of our country, it shows that something is radically wrong with the entire nation. Any number of church members crucified Jesus Christ at the polls when they voted for the Unitarian president. The man who was elected in 1908 did not help the nation. The State legislatures have voted no effort immunity to the criminals if they would divide the spoils, and they sent him to the State prison. The political grafters and henchmen makes bad reading. New York's murder trust does not clarify the atmosphere. Chicago's officials do not help the nation. The State legislatures investigated by a prominent detective, furnished material in the line of evidence which sent several of them to the State prison. The State legislatures are the world getting better very fast. The complete failure of man in his governmental system is a reality. The Gentile world-system is doomed.

Human government is a colossal farce. The peace conferences are a huge joke. Hyperbolic sweeps the nations, for those who are the greatest knowledge of the highest civilization have been bitten by the mad dogs of war. The bloody battlefields of Europe give the lie to the boasted claim that the world has outlived the days of savagery and war. Science has helped the nations of the earth to populate hell at a rapid rate, and athletic evolution has done little for the earth when it pretends to have evolved man from the protoplasmic monkey onward and upward through the monkey kingdom, via the missing link, into his present supremacy. We are his superior. He has murdered millions upon the battlefields of apostate Europe, as well as the frightful carnage of the victims of the hands of the nation of both sexes.

Take the race as we find it, and I tell you doubt and godlessness have done nothing to help humanity. The influence of the Devil has been borrowed or stolen from the light of the Bible. The din and clatter of the raucous voices of the multitudes, the greatest knowledge of the confusion of Babel. The defense of the advocates of the present beauty of the age in which we live is based on the fact that earlier, woe and bloodshed and carnage, and as bad or worse than they are now. Conditions have been horrible ever since the fall of man, and have been steadily growing worse. Consider the light of the present-day, educational, advantages when the majority of the people can read and write, and do not have to go to a priest to have a letter written or read. I tell you according to the widespread knowledge of our age, compared with the ignorance of past generations, the world is getting better very fast. The "washing of regeneration by the Holy Spirit" magnetizes the spirit, soul and body. The blood of Christ touched the earth upon which the church is built, and the church is to appear. Suppose I place thousands of steel needles and brass pins in the ground

and I hold a magnet over them. The needles will instantly respond to the power of the magnet, and the pins will not move. The regenerated sons of God will instantly rush forth from the dust when Jesus Christ comes for them. The body will not be subject to mutation or weariness. "We shall be like Him, for we shall see Him as He is." The wicked dead shall not be raised until the end of the thousand years of the reign of Christ upon the earth. "The rest of the dead lived not until the thousand years were finished." (Rev. 20:5.) The Holy Spirit will no doubt be the active agency in taking the blood washed through into the air to meet Jesus Christ. When He, the Holy Spirit, leaves with the Church, then all restraint will have been removed from the earth, and wild, frenzied, blood-thirsty anarchy and nihilism will shake this world from one end to the other. Hear me, ye pusillanimous peace propagandists! The present European war is a mere Sunday-school progress or sham battle compared to what shall be when Jesus Christ comes. Then all restraint will have been removed from the earth, and wild, frenzied, blood-thirsty anarchy and nihilism will shake this world from one end to the other. Hear me, ye pusillanimous peace propagandists! The present European war is a mere Sunday-school progress or sham battle compared to what shall be when Jesus Christ comes. Then all restraint will have been removed from the earth, and wild, frenzied, blood-thirsty anarchy and nihilism will shake this world from one end to the other. Hear me, ye pusillanimous peace propagandists! The present European war is a mere Sunday-school progress or sham battle compared to what shall be when Jesus Christ comes. STATE OF IDAHO, County of Twin Falls, ss.

Public notice is hereby given that a special meeting of the stockholders

of the Bank of Rogerson, a corporation, organized and existing under and by virtue of the laws of the State of Idaho, will be held at its office in the Village of Rogerson, County of Twin Falls, State of Idaho, on the 15th day of March, A. D. 1916, at the hour of 2:00 o'clock P. M., for the purpose of voting upon and determining the following questions, to-wit: To increase the capital stock of the corporation, Bank of Rogerson, from Fifteen Thousand (\$15,000.00) Dollars divided into 150 shares of the par value of \$100 each, to Twenty-five Thousand (\$25,000.00) Dollars, divided into 250 shares of the par value of \$100 each, and to transact any other and further business in connection therewith.

Rogerson, Idaho, 7th Feb. 1916.

J. S. RUSSELL, Secretary.

ALIAS SUMMONS.

In the District Court of the Fourth Judicial District of the State of Idaho, In and For the County of Twin Falls.

J. J. Filgerian, an individual, doing business under the style and firm name of the Twin Falls Supply and Lumber Company, Plaintiff, vs. G. H. Turner, Idaho Land and Improvement Company, a corporation, and M. F. Albert, Defendants.

The State of Idaho sends greeting to G. H. Turner, Idaho Land and Improvement Company, a corporation, and M. F. Albert, the above named defendants.

You are hereby notified, that a complaint has been filed against you in the district court of the Fourth judicial district of the state of Idaho in and for the county of Twin Falls, by the above named plaintiff, and you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons if served within said judicial district, and within forty days if served elsewhere.

This is an action brought to foreclose a certain mechanic's lien filed by the plaintiff in the above entitled action in the recorder's office of Twin Falls county, state of Idaho, covering the following described property: Lot 20, in block 88, in the city of Twin Falls, state of Idaho; said mechanic's lien being for the sum of \$223.30, with interest thereon from July 1st, 1915, at 10 per cent per annum; for \$75.00 attorney's fees and costs of this action, including \$3.50 paid for verifying and filing said lien.

And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint, a copy of which is hereto attached and herewith served upon you.

Witness my hand and the seal of

said district court, this 14th day of March, A. D. 1916.

E. J. FINCH, Clerk. (SEAL.) By E. A. SANDON, Deputy.

LONLEY & WALTERS, Attorneys for Plaintiff, residing in Twin Falls, Idaho.

ALIAS SUMMONS.

In the District Court of the Fourth Judicial District of the State of Idaho, In and For the County of Twin Falls.

E. D. Kinney, Plaintiff, vs. W. Darrow and H. W. Harrington, Defendants.

The State of Idaho Sends Greeting to W. Darrow and H. W. Harrington, the Above Named Defendants.

You are hereby notified, that a complaint has been filed against you in the district court of the Fourth judicial district of the state of Idaho in and for the county of Twin Falls, by the above named plaintiff, and you are hereby directed to appear and answer said complaint within twenty days of the service of this summons if served within said judicial district, and within forty days if served elsewhere.

The said action is brought to seek a decree of this court for the foreclosure of a certain tax delinquency certificate described in said complaint, being delinquency certificate number 257, issued by the county of Twin Falls, state of Idaho, bearing date the 12th day of January, 1914, for delinquent taxes duly levied and assessed for the year 1913, on lot six (6), block one hundred sixty (160), in the city of Twin Falls, county of Twin Falls, and the improvements appurtenant thereto; that the premises covered by said tax delinquency certificate may be sold, and the proceeds applied in payment of the amount due the plaintiff, and that said defendants, and all persons claiming under them, or any of them, may be barred and foreclosed of all rights, claims or equities of redemption in said premises and every part and parcel thereof, and for other and further relief, as will more fully appear by reference to the complaint on file herein.

Witness my hand and the seal of the said district court, this 7th day of March, A. D. 1916.

E. J. FINCH, Clerk. (SEAL.) LONLEY & WALTERS and TAYLOR CUMMINS,

Attorneys for Plaintiff, Residing in Twin Falls, Idaho.

Two Score Years of Telephony

Forty years ago, Alexander Graham Bell spoke over the feeble instrument he had invented, to Thomas A. Watson—only two telephones in the world and a hundred feet of wire. Recently the same men spoke to each other from the Atlantic to the Pacific over the Transcontinental Line—more than fifteen million telephones in the world and nine million in the Bell system. Twenty-one million miles of telephone wire connect every state in the union, and the wireless telephone has extended speech across our ocean boundaries. A chorus of twenty-eight million Americans is brought into perfect union daily by the Bell System, that unifier of the nation and harmonizer of distant peoples, which bridges distances, outraces time and makes a whole nation one community.

TRIANGLE MASTER PLAYS

The FIVE FAULTS of FLO

THE SUPERB HEROINE OF THE MILLION DOLLAR MYSTERY

FLORENCE LA BADIE

In a drama of a Woman's Soul, revealed in Five Acts. How FLO Was Cured of Pride, Envy, Jealousy, Fickleness and Extravagance

The unusual standard of excellence Triangles have established, makes the use of superlative adjectives inadequate and unnecessary. The star and the play are presented for

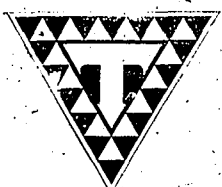

THEIR OWN STERLING VALUE.

FLO overhears her husband talking with a confidential friend: "My wife," he says, "has no faults." But the young wife knows he is mistaken. A story very interesting with a brilliancy and charm due to the fine character work of Miss LA BADIE.

EMPLOYMENT AGENCY FOR CITY

(Continued from Page 1.)

that there were some professional trades among the men round the last night, but they did not show it. I told them that as far as possible I would keep in touch with jobs and with them after they left the city. If there were any openings, which I doubted, I would let them know. I am sure that 85 per cent of them were honest workmen.

"The fact is that the number of men who can be employed on the tract at best is limited. At the maximum there will be a few hundred employed on the sugar factory construction, many of them skilled laborers. Great numbers of men cannot get work here. Now, if we establish a municipal employment agency, we can have the number of jobs reported and of men wanted published through your columns twice a week. Laborers in the country can find out by visiting the agent, or by telephoning him or writing to him where there are jobs vacant and whether it would pay to go to seek positions at a certain place or not, and it will furnish a means for hitting idle men elsewhere know that there is no room for more laborers at Twin Falls. This will involve a lot of work for the municipal agent, but it will probably relieve the situation and put us in front of banks and other agencies. If some sort of arrangement wide in scope could be made which would enable laborers to get definite information in advance of where positions could be secured, the number of men wanted, and when, and how the vacant places would be filled, so that no more men would be needed, except a few floaters, the situation would be greatly relieved. There seems to be here or an effective organization among all classes of people except common laborers. If such system as suggested could be worked out in nation, state and locality, either by the national state or municipal government or by some such men as Rockefeller, who have wealth enough to finance it, it would prove very beneficial to a class of men who are unable to form an effective organization themselves.

There has legislation abolished all private employment agencies which charge for services throughout this state, on account of evidence of grafting on the part of a number of them, and enacted a mandatory law to the effect that all municipalities should create and maintain a municipal employment agency. Until recently there has been no demand for this sort of agency here. However, City Attorney George Herriott has been at work on a form of ordinance for some time, and he and Mayor Sweeley have gone over the matter carefully in order to get a law that would hold water. Some minor towns are said to have attempted to comply when the law was first passed and failed to get the law straight but Boise is said to have an excellent ordinance which complies with constitutional requirements.

There is at present a department of farm markets located in the state house at Boise through which the effort is being made to connect laborers with farm jobs. For the past several years the United States department of labor in connection with the postoffice department has been endeavoring to work out a plan to keep workmen in touch with their situation throughout the country. It is thought that the new city bureau by getting in touch with both of the above agencies may be able to add to the efficiency of its work here.

WILLARD MACK STARS

IN "THE CONQUEROR" A powerful characterization is that of Willard Mack in the stellar role in "The Conqueror," the Ince-Triangle play, shown at the Orpheum theatre Monday, one day only. Mack plays the part of an implacable Wall Street magnate, who meets all the cajoleries of society with frowns and insults. What adds a great deal to the impressiveness of Mack are his height and muscular frame. His strong face and piercing eyes dominate the more polished wordings with whom he is thrown in contact at receptions, dinners and balls.

Mack has had a distinguished career both as an actor and author. He played these dual roles in such plays as "Kick In" and "So Much For So Much." He has shown in such plays as "Triangle plays as 'Aloha Oe,' 'The Edge of the Abyss,' 'The Conqueror,' and this present production, 'The Conqueror.'

Enid Markey, who plays the part of Viva Madison, society girl in "The Conqueror," was prominent in social circles in Denver before she commenced her stage and screen career. Her parents intended sending Miss Markey to Leland Stanford university, but the lure of the stage intervened. Just at that time a traveling company showed in Denver in "Forty-five Minutes From Broadway" and Miss Markey and several of her intimates were selected from many candidates to appear in that production. Some of her notable appearances have been with Dustin Farnum in "The Iron Strain" and with William S. Hart in "Between Men."

DODGE BROTHERS PLANT
AMONG FIRST FOUR
New buildings just constructed at the plant of Dodge Brothers, Detroit, makes the total amount of floor space approximately 60½ acres. This makes the establishment one of the largest motor car plants in the world. The buildings are of steel, concrete and brick, and constructed along latest engineering plans, with ample light and ventilation.

Few people have realized the immensity of the institution of Dodge Brothers. Although the first Dodge Brothers car was turned out in December of 1914 and actual deliveries to owners started in January of 1915, the concern now ranks among the first four in automobile production.

More than forty-three million dollars worth of cars have already been delivered and a large production is scheduled for next year.

A striking feature of this immense enterprise is that the business is owned entirely by John F. and Horace E. Dodge. This is very impressive when it is known that only 14 years ago Dodge Brothers opened their first ma-

chine shop in Detroit in which they employed 11 men and both worked at machine and bench themselves.

LOCATED PERMANENTLY.

A good many of the citizens of Twin Falls have expounded their doubt in regard to the Twin Eilers Music House establishing a branch here permanently.

We wish to assure the people of Twin Falls that the Eilers Music House has established a branch store here at 137 Shoshone St. North, and their plans are to stay in Twin Falls permanently. We will carry a line of the finest high grade pianos at prices and terms which will make it possible for every home in the Twin Falls country to have a piano. We also intend to carry a good stock of talking machines and records.

It will give us great pleasure to have you call and allow us to show you one of the finest stocks of musical instruments in the west.
