

rans, Colo., who sold two to the board of county commissioners yesterday. The drags have been tried out in the city and county, and found satisfactory.

**POINT INSTITUTE IS
TO BE HELD HERE**

County Superintendent Bertha Noel was in Minidoka yesterday attending a meeting of the county superintendent's association at Twin Falls, Lincoln, Cassia, Blaine and Crofting counties, which was arranged for the holding of the Southern Idaho Institute in this city. The institute will meet either August 23, 24, 25 or 26, and will be in session for a week. The institute is now being held in this city last year.

TRUCK LINE FROM CONTACT AT ONCE

President Marshall of Seattle-
Contact Company Interviewed

WILL SHIP OUT TWO CARLOADS A
DAY OF HIGH-GRADE ORE.

Predicts Building of Western Pacific
as Soon as Reorganization of
the Company is Completed.

"We expect to put a line of high-power trucks in operation within a couple of weeks to haul high-grade copper ore from Contact to Hogerson, so that we can increase the amount shipped from two cars a week to about two cars a day," said President V. A. Marshall of the Seattle-Contact Copper company to a Times reporter yesterday. "Practically all this way, with other officers of the company, to the scene of operations."

"We have a large force at work getting out high-grade ore at present," he continued, "and are down to a place where we can go ahead with assurance of supplying being permanent. We are the only people on the ground who have developed properties so far, though I assume that others will have good mines developed later."

A number of four and six-horse teams are at present hauling our output to Hogerson, and before we can put a truck line into operation between Contact and the railroad, considerable road repairs will be necessary, the character of the road determining the kind of trucks to be purchased. If we can, we will put on carriers that will haul 25 tons to a trip, but it may be necessary to do the hauling in seven-ton vehicles. We have taken for matter up with the commissioners of Twin Falls county with a view of getting the county to assist in the road improvement, though what sort of arrangement will be made cannot be told at this time. We will be at Contact about a week and will canvas the situation thoroughly before our return. The commissioners are not going to accompany us, but I assume they are already familiar with conditions."

"I have no reliable news on the railroad situation, though I believe that as soon as the reorganization of the Western Pacific is completed, the road through Twin Falls and Contact will be built at the earliest practicable moment. I have been interested in Contact for 10 years and have always had the greatest confidence in its ultimate success and believe my anticipations are about to be realized. We do all our banking in this city, which is necessary because of the development of the mining district there."

President Marshall is accompanied by H. M. Casey, E. P. Churemkin and S. L. Moody, all of whom are Seattle-Contact company, and all residents of Seattle.

Asked in regard to road conditions between Hogerson and Nevada Lake, Chairman O. E. Carlson of the board of commissioners said that the Contact road, which was built last year, was in good shape, but that it might be some repairs needed where snowplows damaged the highway. The cost of such repairs, he said, would be very small and the repairs probably not more than a couple of days.

BUILDING ACTIVITIES

IN THE WESTEND CITY

Several Large Business Blocks Are
Now Under Way and Contemplated
in Ruhl.

Ruhl has taken quite a building boom during the last few years, and six new brick and the business houses are under course of construction, or the owners of the lots expect to begin work on them this week, says the Ruhl Herald. The new buildings will be used to conduct nearly as many kinds of business concerns.

Perhaps the largest business house that will be constructed during the coming year will be that of Ruge & Schmidt. It will be erected on the two lots adjoining the Citizens bank building and facing in Main street. The building is to be a two-story brick and the space covering the entire two lots will be 20 by 120 feet. A basement will be put under it, and the main part of the material used will be brick. A red brick front will be put on the main floor will be used by S. S. Arsenault to put in a grocery store. A. Z. Arsenault, contractor and agent for Dr. Lynch, arrived in Ruhl last week to look after the erection of the building.

Dr. Lynch lives in North Yakima, Wash., being the owner of property in Ruhl and a ranch east of town. Mr. Arsenault lives in North Yakima and said that he has no intention of moving to Ruhl, but is merely looking after the interests of Dr. Lynch.

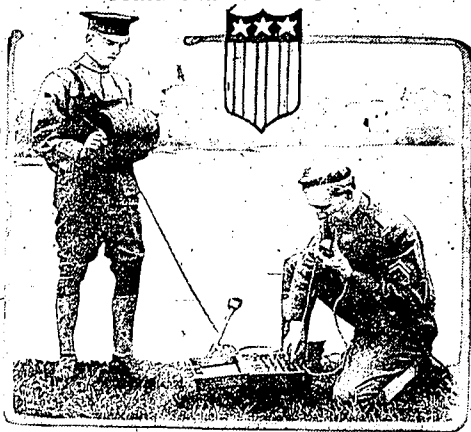

James MacLachlan is contemplating the erection of a building on the two lots adjoining the Ruhl office, on Broadway, though he has not yet decided definitely to do so.

Mr. Koppelman has under consideration the erection of a large three-story brick building facing Main street and adjoining the present Hotel Ruhl building.

**DEMOCRATIC COMMITTEE TO
MEET THURSDAY AFTERNOON**

The Democratic county central committee will meet Thursday afternoon at 1:30 o'clock for the purpose of determining methods for the selection of delegates to the state convention.

USING THE FIELD BUZZER

An important adjunct of the army on the march is the "field buzzer," which is used to connect the front with the commanding officers and with all parts of the line.

SILCO EXCURSION

SET FOR APRIL 19

Coming Auto Show and Ruhl Pioneer Day Causes Postponement of the Event.

Due to the fact that the auto show will keep Twin Falls county automobiles busy during the first week of April, and that Ruhl Pioneer day is set for the second week, it has been decided to postpone the excursion until Wednesday, April 19, the third week in April.

The primary object of this excursion is to give every Rockraiser a special invitation and opportunity to investigate the silo on the ground where it is being used to question owners regarding cost of different kinds of silos, the satisfaction they are giving, cost of machinery, size of silo to build, value of the feed and any other questions that may occur.

There is one half-finished concrete silo, with the forms still on it, which will be visited, and the forms can be seen at the place.

E. J. Fjeldsted of the university extension department, Secretary J. M. Bradley of the Ruhl Commercial club, O. E. Koster of the Ruhl Pioneer Testing association, County Agriculturalist W. N. Birch and probably others will be present for the purpose of answering silo and silage questions, and owners will tell of their mistakes as well as their successes. Delinquent will have an opportunity to visit some of the best herds in the county, to investigate what the testing association has done in the way of sending "boarder cows" to the block and decreasing the cost of production of milk and butter. Several silo owners have fed silage to sheep, and shepherds are especially invited to come and investigate this matter.

While silage is especially good for dairy cows, it is equally good for ewes before and after lambing, and for fattening sheep or cattle will materially decrease the cost of producing a pound of beef or mutton. It is also good horse feed.

Speaking of this work, Mr. Birch said:

"If those who wish to go will not in consultation with any of the above-named persons before the date set for a special effort will be made to see that no one is left behind. If you have a car, bring your neighbor. If you have no car, bring him anyhow and transportation will be provided. The hours of starting will be published in the next week's issue of this paper."

ALFALEA MILL: SOON TO

COMMENCE OPERATIONS

Anchor Hay, Grain & Feed Company Installs Machinery—Will Do Grinding of Hay and Grain.

Part of the machinery is already installed and the rest is on the way for the Anchor Hay, Grain & Feed company, which will start an alfalfa and feed grinding business in the old Kinney warehouse, at 249-251 Sixth avenue west, and the mill will be in operation in a couple of weeks. In the meantime the company, of which John Finke is manager, is purchasing hay and straw and will have a supply of 200 tons on hand when operations begin. The company will also grind oats, wheat, barley and other feed, both as a whole mill and for shipment by the firm itself. In the meantime Mr. Finke will buy hay in carload lots for shipment, as he has already contracted 25 cars for delivery to Washington points.

"There isn't as much hay in the country for shipment as there was last year," said Mr. Finke to a Times representative Saturday, "and it must be put to the best uses. There are more sheep coming in from year to year and they will keep a great deal of the yield at home. In the season 1915-16 I shipped out 1269 cars of hay, but it will not be so large this year. The face value of alfalfa is increased at least 20 per cent by grinding and there is no waste, so that the crop will be mostly ground up in that way to sheep raised on the tract in future."

In connection with our general business, we will sell grinding machinery. I look for a great increase in the quantity of clover grown and for that reason am putting in a seed clean."

Highest market price paid for baled alfalfa hay the year round. John Finke, Twin Falls, Idaho. Telephone 708-W.

IRRIGATION COMPANY

WINS FORECLOSURE SUIT

Motion of Non-Suit Granted, Judge Holding Company Could Enforce Payments by Refusing Water.

MOUNTAIN HOME—The case of the Idaho Irrigation company against Mrs. Annie M. Zeigler, a foreclosure of mortgage on water contract, came to a sudden end Monday afternoon, when Judge Bothwell granted a motion for non-suit against the defendant, who had set up a counter claim for damages against the company on account of lack of water during the season of 1915.

The case, which was regarded as an extremely important one, both by the settlers on irrigated lands and by the survey and engineering companies, has attracted a good deal of attention during the past week. The irrigation company was represented by Oppenheim & Hadden of Boise and Langley & Walters of Twin Falls, while the defendant had as her attorney Guy Bessell of Gooding.

From the evidence submitted, it developed that Mrs. Zeigler and her husband, W. O. Zeigler, had bought land on the North Shoshone tract, and about seven miles north of that place, in the spring of 1910, and had lived on the place since that time, improving it generally. The claim was made by the company and admitted by the defendant that no payments had been made on the water right, nor any payments of interest, except the initial payment, although Mrs. Zeigler had paid her yearly maintenance and operating charges for all the years except 1910, until the water was shut off.

Suit for foreclosure of mortgage was begun by the company on January 15, 1915, and the company on the 1st of April of that year refused to deliver water from its canals for this land. On August 1, 1915, the defendant filed a counter claim for damages on account of such refusal, claiming damages in the amount of \$8700. An effort was made by the defendant to show that the delivery of water during the 1910 season was so irregular that under the contract interest on the unpaid balance of the water right purchase price did not commence to run until April 4, 1911, nor was any deferred payment due until a year later. The other contention of the defendant was that the provision of the water contract under which the company refused delivery of water in 1915 was invalid as being, opposed to public policy. These were the two points which were regarded as most important and about which the trial centered.

ADA AND CANYON

FOLLOW TWIN FALLS

Cow Testing Associations Like the Pioneer Society of Ruhl Have Been Formed.

Ada and Canyon counties are following the lead of Twin Falls county, and have started cow testing associations, according to R. W. Hochbaum, state superintendent of county agents, who was here this week. The first cow testing association in the state was started at Ruhl. Mr. Hochbaum said that he had no news except that Twin Falls looked better to him on each recurring visit.

SOCIALISTS TO CALL MEETING

TO DISCUSS PEACE RESOLUTION
A committee of the Twin Falls Socialists is arranging to call a mass meeting of citizens for April 15 and 16, to discuss a resolution now before the house committee at Washington, calling for a peace congress of the neutral nations.

NEW TRANSFER LINE

J. L. McCracken is starting a new transfer line and today put on a Studebaker truck. His son, N. McCracken, has the work of carrying the mail to and from the depot, and Mr. McCracken will look after this and do handle other transfer business as he can. Preparations for Arbor Day.

Preparations are being made in a county for the celebrated arboreal week of schools throughout the county for the celebration of arbor day on April 14. The suggestions of the state superintendent that rural day be celebrated on the same occasion is being considered.

Muslin Underwear at Less Than Wholesale Cost

Sale Starts Wednesday, April 5th Ends Fri., April 7th

See these wonderful values on display in our window. Never before have we sold Muslin Underwear at such prices. Garments are marked at less than wholesale cost. Surely you can not afford to let this opportunity go by. Be sure and come early Wednesday morning as the best selections go first. Muslin Underwear shown in every possible style and material. Sale starts Wednesday and ends Friday, April 7th. Only three days in which to select these wonderful values.

The Thrill of Achievement

There is nothing quite like the glow that comes to you when you have succeeded in some worthy object that you have set out to accomplish.

This was impressed upon us by the enthusiasm of one of our savings depositors when he announced that he had saved his first thousand dollars and was now ready to carry out a plan that he had been cherishing for years.

TWIN FALLS BANK & TRUST COMPANY

GREAT AVERAGES AND BIG LAMB PRICES

Owyhee Company Has Average of More Than 100 Per Cent, and Sells 17,000 for \$4.75.

The Owyhee Sheep company, of Castleford has turned its flocks out on the range, according to F. M. Duffield, who was in the city Friday. The lambs saved by the company this year exceeded 100 per cent and numbered about 17,000. It is understood that they have been contracted to Jack Doyle for \$4.75, to be paid on delivery taking them just as they will stand at that time. This is considered an unusually good price and makes the sale one of the largest in the history of the range.

W. E. Stockton, who was in the city Friday, said the lambs saved were 127 per cent on the Jerry Becker ranch this year.

FILE HAPPENINGS

(From The Filer Journal.)

The electric light company will put in the service in the country homes along its lines. This should have been done long years ago.

Frank Brown has let a contract for a large barn on the farm occupied by Charles Dryden. Hogenbottam, Ellis & Jamison have the job.

H. G. Munyon returned the first of the week from his trip to Nevada in search of cattle. He didn't get any down there, but had pretty fair luck in getting a number since his return.

Earl Walker is back from California, where he was called on a business matter. He is now busy on the county fair grounds proposition, and he is an optimist, inspires us all with the proposition that "he will put it over."

D. C. Blackford has rented his place and moved onto the farm south of Buhl recently purchased by his sons. He has built a house down there and will attend the chickens and do the fishing for the family.

The officials are renewing their efforts to see that all dogs are muzzled. Another scare has been thrown into the controversy and this time the law will be enforced to a fault. If you have taken the muzzle off, stop, here.

GENERAL ADVERTISING

"SPEAR HEAD" THE WORLD'S GREAT CHEW

Famous for Over a Third of a Century as the Leader Among Plug Tobaccos

Even the man who has chewed tobacco for years gets an altogether new sensation when he bites off a juicy chew of Spear Head.

Its deliciously sweet, mellow flavor makes Spear Head totally different from all other tobaccos.

Chewing is the best, most satisfying way to use tobacco. And for a fresh, pure, genuinely enjoyable chew you want good plug tobacco.

In Spear Head plug you get a pure, healthful high-grade product, preferred by the best judges of tobacco for its unique flavor and uniform quality.

Get a cut from your dealer and try it. You'll say you never tasted such delicious tobacco before. In 6c and 10c cuts.

ten and restore it, or the consequences you must suffer.

Elmer E. Haug has bought the 160 acres from Coffin Bros. at the edge of town farmed by William Haug for several years past. The deal was made by Arvid Johnson through the Graves real estate office. The land brought \$150 an acre, or \$24,000. This is the largest real estate deal ever made in this section.

James McGuffie, a practical tailor, will open a shop in the building formerly used as a pool hall known as the Pastime about April 1. Mr. McGuffie has been in the business a number of years and comes highly recommended as a tailor.

The Oliver meetings will be transferred to Buhl April 8. A large tabernacle will be erected down there and a vigorous campaign started for the redemption of sinners. If Mr. Oliver can get Jack White and Biggs up to the bench at the same time, he will have accomplished a work that will be worth the expense of the meetings and worthy of the great enthusiasm that will accrue to his pious task. Let us hope he will succeed.

Hogenbottam, Ellis & Jamison, a new firm carpenters, have bought the tools and machinery of the Goodpasture shop and will move them to their shop, opposite the Nibley-Chambers yard. The Goodpasture shop and lot have been sold to Arvid Johnson and Jake Mattson. Jake will use the front of the building for a paint shop while Arvid will convert the rear of the building into a garage for his auto.

D. M. Grady, the Seventh-Day Adventist minister, returned last Friday from a two months' visit in eastern Oregon. With the assistance of others, he is arranging to hold a series of meetings at Filer, commencing Tuesday, April 4, at 7:30 a. m.

There is no denying the proposition that Filer has arrived at the stage of her growth when a sewer system is imperative. We have yet to hear of any property owner who does not fully realize this fact. More especially do we need it for our public school for sanitary convenience, as well as for the homes. The school board had Mr. Morse, the Twin Falls architect, go over the proposition some few weeks ago and sound his advice. He has gone over the proposition in company with Charley Mull, civil engineer, and made a rough estimate of the cost. They have considered the lay of the ground and other essentials that go into the installation of an adequate system and will be pleased at any time to take the matter up with our people.

BUILD NEW

(From the Buhl Herald.)

J. A. Sinclair of Twin Falls, one of the successors in the Swanner Mercantile store, was in Buhl on Sunday looking over the field on the west end.

Mr. and Mrs. E. Babcock arrived Monday afternoon. Mr. Babcock has accepted a position in the Holmes barber shop. They came here from American Falls, where Mr. Babcock was married some time ago. He formerly lived in Buhl and was employed in the Holmes barber shop about a year ago.

Stanley Leacey spent Sunday visiting with his brother, A. E. Leacey and family in Buhl, going back to Twin Falls on the evening train.

Miss Bertha Leacey, county superintendent of schools, visited schools in the Buhl country several days the latter part of last week. Incidentally, she planned to have her office acre or chard seeded to white clover. The acreage lies north of Buhl, and across the road from the Chelene home.

Plans are being formulated to observe Decoration day in Buhl. This will be the first time in the history of the city. Nothing definite is yet given out, but the matter will be brought before the National Guard and the local next Monday evening, the idea being to have the program under the auspices of both organizations.

A Snyder, who lives southwest of Buhl had the misfortune to get his left car cut in two by a hay knife sliding down upon his head from a haystack. Mr. Snyder was working on the ranch of A. H. Pember, five miles south of Buhl, and was throwing hay from the stack on a wagon, when he walked too

PAPER MILLS CLOSE DOWN FOR LACK OF MATERIAL—PAPER FAMINE IN SIGHT

DISASTER confronts the paper business from the standpoint of both of manufacturing and distribution. If the war in Europe continues, according to A. P. Spilko, secretary and general manager of Carpenter Paper Company of Salt Lake. Paper factories and paper houses throughout the country are beginning to sense the situation, and many are exerting every possible effort to prevent the waste of paper and rags. Mr. Spilko has announced that his company will purchase old magazines, hard-finished paper and other kinds of paper and rags.

Aniline dyes and caustic, used by paper manufacturers to finish paper with black and sulphite pulp, all extremely essential in the manufacture of paper, are no longer on the market. Mr. Spilko says:

"Still, throughout the country, either cutting down their forces, working only part time, or have shut down entirely," says Mr. Spilko. "The manufacturers of paper are confronted with nothing less than disaster, and conditions are bound to get worse. There is no reason to expect that the United States industries are to be immune from the baneful effects of the war. The materials from which paper is made are scarce, and are becoming scarcer daily."

"The manufacturers of gun cotton are buying rags in such large quantities that the price on some kinds has jumped recently from 1 1/2 to 4 1/2 cents a pound, forcing the price of paper up again in the last four weeks 20

per cent. The prospects are for a further advance. Old magazines and wrapping papers can be sold at the mills for from \$35 to \$40 a ton, and cloth scraps at about \$30 a ton.

"The mills are actually working on a hand-to-mouth basis, and every week shows sharp advances. If the United States cannot purchase abroad sufficient rags, sulphite, pulp, soda ash, coloring matter, caustic and clay, a shutdown is certain. Many American mills are actually refusing to accept orders and are even unable to fill orders already accepted. One mill has recently cut down to two days of operation a week, and three others are completely shut down, owing to lack of materials."

"Aniline dyes, chiefly obtained from Germany, formerly sold at 40 to 80 cents a pound, now are sold at \$15 to \$20 a pound. Blotch, the elements of which are used to make chlorine gas, has jumped from 1 1/2 cents a pound to 15 cents. Sulphite pulp sold for \$40 to \$50 a ton before the war; it now brings twice that amount. Caustic, used for finishing purposes, has tripled in price. It is now even being used for making of cheese for soldiers on the continent. "With this condition before us, it seems certain that prices of paper will go high. There cannot be too much care given to the matter throughout the country of conserving the waste paper. It may save the country from a paper famine. Everybody should assist in a campaign to save it."

near the edge and slid off. The knife followed him and cut his ear.

Work on enlarging the high line canal, which was begun last fall, and

discontinued during the winter months because of the inclemency of the weather, was again resumed the first of this week in earnest, and the contractors estimate that it will take about a month to carry out this construction to its completion. The object of enlarging the canal is to make it carry a larger amount of water to the

Castleford farmers during the growing season of the year. There is rejoicing among the farmers living near the end of the lateral radiating from the terminal of the canal which is being enlarged. The channel did not carry enough to supply the farms in the Castleford country during the busy irrigating season. Better crops and better times are anticipated from the extreme west and southwest part of the Twin Falls south side tract.

The senior class play, a three-act comedy, entitled "Tidying Clara," which was given at the Buhl opera house last Friday evening, was a success from a financial standpoint, as well as from the entertainment part of it. More than \$83 were taken in at the door, and the net proceeds will be larger than of any preceding class play. The graduating class will use the proceeds to purchase a class memorial for the high school building.

Governor Moses Alexander will be in Buhl Wednesday, April 12, and commander in chief of the National Guard of Idaho he will officially inspect the local company. He will address the

Jefferson club in Twin Falls the following night, April 13, and it may be that a meeting will be arranged by the Wilson club of Buhl for the chief executive of the state. Plans have not been carried out for such a meeting at present, though it is probable that they will be.

TWIN FALLS ROADS

PRaised BY COLORADO MAN

That the commissioners and people of Twin Falls county are especially interested in good roads and take pride in their development, is the story told in an interview given to the Greeley

(Colorado) Tribune-Republican by George A. Hodgson, chairman of the board of commissioners of Weld county, Colorado, on his return recently to his home, after a visit to several western states. The state highway, bridge improvements and other things were noted by the visitor while here. The subject of good roads is a live one and more or less discussion is taking place with reference to the question of leasing bonds to still further improve them.

If you are in need of anything, a Times Want Ad. will fill your want.

The Result of 23 Years' Successful Experience in Building Motor Cars

AMERICA'S GREATEST "LIGHT-SIX" \$1485

Flexibility

It is simply wonderful how the HAYNES Light Six, loaded with passengers, will pick up and maintain a speed of 60 miles per hour, then throttle it down and creep along silently and smoothly at one mile per hour—slower than a walk. The car picks up and gets away instantly. It has made 30 miles per hour in 7 1/2 seconds from a standing start. No matter how suddenly you open the throttle, you can't choke the high speed motor of

The HAYNES

AMERICA'S GREATEST "LIGHT SIX"

You can climb hills on high, with turns so sharp that the car must be slowed down, without touching the gear shift lever. At all speeds and under all conditions you get in the Haynes a smooth flow of power. You really control the car with the foot throttle.

The Haynes motor is a high speed motor, but it develops that wonderful pulling power, that ability to hang on at the lower speeds—and that is flexibility.

Don't overlook these qualities. Appearance, upkeep, economy, durability. Haynes "Light Six" does not suffer by comparison with cars of the highest priced consideration. Its upkeep is notably economical. Has averaged 18 to 22 miles per gallon of gasoline, 7500 miles to a set of tires, 400 miles to a quart of oil.

See the Haynes—ride in it—know its flexibility—its performance—its high class in every detail—and we will leave it to your own judgment if it doesn't deserve the name "America's Greatest Light Six."

When may we give you a demonstration?

THE VIEWS OF OTHERS ON THE BOISE RECALL.

We took occasion last week to refer to the efforts of a certain element in Boise to remove the mayor by the recall process, and expressed the belief that Mayor Robinson's opponents, or at least the most active of them, entertained motives other than those set forth in public; that because the mayor's fight on commercialized vice had come uncomfortably close to "large consumers" some of Boise's Most Respectable People again announce their intention of putting a stop to the Invasion of Private Homes in Lawless Raids. Copies of the Boise New Freedom and the Weiser Signal have since come to our desk, each recording quite closely to our views. TIMES readers may be interested in these comments, for which reason we repeat them below:

Boise New Freedom.

"The movement for the recall of Mayor J. W. Robinson is utterly devoid of merit and should fail. The mayor is endeavoring to enforce the prohibition law and the law for the suppression of commercialized vice. And in these efforts he will be upheld by a large majority of our citizens. The liquor traffic is as dead as the historic door nail in Idaho, and commercialized vice is doomed. Make no mistake about these propositions.

"Just why a so-called Municipal Club should have been organized in Boise, with a blaring of trumpets as to the good work it was to do, is now in full evidence. This organization is back of the efforts to prevent the enforcement of the laws dealing with the liquor and vice questions, and the pretense that it was organized for any other purpose is pure tommyrot. We spoke the name was changed when it was shown that the Citizens' Alliance, which it was proposed to organize, was the favorite name taken by the liquor interests wherever they put up a fight, and in Boise it is essential to work under cover. Therefore, Municipal Club instead of Citizens' Alliance.

"It will be found impossible to arouse much indignation over the invasion of 'homes' in the raids which have been conducted in Boise; and those who think that the days of winking at violations of law are to ever return in Boise have another think coming."

Weiser Signal.

"Another effort is to be made to recall Mayor Robinson of Boise. A mass meeting is to be held Friday night to consider the matter, and the chances are Boise is to be subjected to another tennep. It is generally in the smaller communities that factional strife is at its height, but Boise can harbor more turmoil and discord than any town in the United States making the pretensions they do. Business must be mighty quiet in the capital city or there would not be so much time for local gossip."

Filer Journal.

They are recalling the mayor of Boise again. It is about time to change the location of the capitol and get it in some live, up-to-the-minute city. Boise is a pretty fair location for the penitentiary, but that is about all. If the capitol is moved, however, some preparation would have to be made for a poorhouse to take care of the numerous old barnacles who have made the capitol building their meal ticket since coming to the state.

The railroads are busier than they ever were before; the Steel Corporation has the greatest amount of business on hand that it ever had; the greatest trouble of manufacturers is to get labor and materials and make deliveries; and the bank clearings last week approached five billions, being considerably higher than the week before. The business situation moves Dun's Review to say: Only by the use of superlatives can existing commercial and industrial conditions be adequately described. Great as are the gains shown by bank clearings, iron output, unfilled steel tonnage and similar indices, more statistical records no longer fully reflect a situation for which there is no precedent.—Boise New Freedom.

RYAN HAD BOOZE

IN LUMBER WAGON

Recent Resident May Be Indicted In United States Court for Fraudulent Shipment.

Caught Thursday night by Sheriff F. M. Kendall with 81 pints of whiskey in a wagon near the city limits, Mike Ryan, who has lived in this city some months, was heard over Saturday by Justice of the Peace W. J. Smith on a charge of having intoxicating liquor. In his possession contrary to law. He shipped the liquor to Kimberly from Utah. It is thought that charges will be filed before United States Commissioner C. C. Higgins charging Ryan with fraudulent shipment of liquors into the state.

LEGAL PUBLICATION

ANNUAL SCHOOL MEETING AND ELECTION.

Notice is hereby given that on Monday, the 17th day of April, 1916, the Annual School Meeting and Election in and for all the school districts of Twin Falls County (excepting the Independent Districts) will be held at the school house in each of the districts.

The meeting will be held to select a judge and clerk of election, and to determine whether or not the question of a special tax shall be voted upon at the election; to determine the amount of money to be raised by special tax, which shall not be more than ten mills on each dollar of taxable property in the district (joint districts determine the amount of levy in mills); to decide upon the length of school term to be voted upon; and to transact such other business pertaining to school interests as may come before the meeting.

It is important that all patrons and taxpayers in each district attend the Annual Meeting, that they may consider and help solve the various problems connected with the school.

BEUTHA NOEL,
County Superintendent of Schools.

ORDINANCE NO. 181.

An ordinance amending Ordinance Number 71 of the City of Twin Falls, Idaho, by adding thereto new sections to be known as Sections 18C, 18D, 18E, and 18F, said Ordinance Number 71 being entitled: "An ordinance providing for the payment of licenses to the City of Twin Falls, repealing ordinances in conflict therewith, and providing a penalty for the violation thereof."

Be it ordained by the Mayor and the Council of the City of Twin Falls, Idaho:

Section 1. That Ordinance Number 71 of the City of Twin Falls, providing for the payment of licenses to the City of Twin Falls and providing a penalty for the violation thereof, be and the same is hereby amended by adding to said ordinance new sections to be termed 18C, 18D, 18E, and 18F, said sections to read as follows:

Section 18C. Any person, firm or corporation, who, either for himself or as an agent for another, by means of coupons, tickets or part payments, solicits business in Twin Falls, Idaho, pertaining to photography, copying or enlarging pictures, shall pay a license as follows: For the first day the sum of \$25.00; for the second day the sum of \$15.00; and for each and every day thereafter the sum of \$10.00.

Section 18D. The license shall be procured and issued in the same manner as other licenses in the City of Twin Falls.

Section 18E. Any person, firm or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not to exceed One Hundred Dollars (\$100.00) for each offense.

Section 18F. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Passed by the Council of the City of Twin Falls, Idaho, this 3d day of April, 1916.

Approved by the Mayor of the City of Twin Falls, Idaho, this 3d day of April, 1916.
E. M. SWEETLEY,
(Seal) Mayor.
Attest: R. E. S. WILLIAMS,
City Clerk.

"THE SHOOTING OF DAN MCGREW" AT THE ISIS

Robert W. Service's famous poetic masterpiece, "The Shooting of Dan McGrew," has been made into a five part motion picture by the Popular Players and Player company, with Edmund Breese, the powerful dramatic actor, in the leading role. "The Shooting of Dan McGrew" tells in its own red-blooded, big-man way of the loss of Jim's wife by Dangerous Dan McGrew; of his months of struggle across the "flat-bellied" trail; and his final meeting with Dan McGrew—the man who stole his wife and he killed.

Robert W. Service's poems have long been recognized as the most potent of American poetic fiction and include, among others, "The Spell of the Yukon," "The Heart of a Sonnet," "The Parson's Son," "The Call of the Wild," etc.

The shooting of Dan McGrew is in five parts and two hundred scenes and will be shown at the Isis theatre Wednesday and Thursday evenings.

FAIRBANKS HAD STRENUOUS TIME GETTING INTO DAD'S FILM

In the Fine Arts-Triangle play, "His Picture in the Papers," shown at the Orpheum theatre Thursday and Friday, it looked easy for Peter Prindle (Douglas Fairbanks) to get his portrait displayed on the front pages of all the New York papers—yes, it looked almost too easy. Here's where the hero actually did before he put through the proposition, gained a half interest in his father's firm and was awarded the hand of the girl he loved. Wrecked an auto and went to the hospital, was thrown off a train, put out a champion middleweight and fought a losing fight with two husky pugilists. At last he won by fighting off a band of yeggmen and saving a train from being wrecked.

In these days of strenuous advertising, this comedy is interesting as showing how a man eager to attain notoriety may fall down time after time only to attain it when he is not looking for it. Fairbanks makes an attractive picture as a lively youth who prefers good, juicy beefsteak to the desiccated foods that his rich father exploits through the press. He also has a preference for boxing instead of poring over books, so he gets in bad with his system-loving father. Then he meets the girl of his choice in a restaurant. He meets the father, expecting his congratulations on his engagement to the daughter. He is not ruffled at all when the parent tells him first to get a half interest in his father's business. The elder Prindle happens to be worked up over Pete's derelictions and gives him \$100, with the offer of the partnership on condition that he get his picture in the papers. Then the fun starts.

Douglas Fairbanks
in
His Picture
in the Papers

In this corking TRIANGLE PLAY you can see the way Douglas Fairbanks, captures the boxing championship, climbs up the side of a house just to say good-bye to his sweetheart, the real escapee when captured in Atlantic City and other inimitable tricks.

His hard fight to get his picture in the papers keeps you screaming, jumping, laughing.

SHOWN THURSDAY AND FRIDAY AT THE ORPHEUM THEATRE

The New Case 40—\$1090

For 100,000 Miles

The final test of the new Case 40 comes when you put to work those parts beneath the hood. When it comes to a long, hard pull, or to a steep climb, you will realize how faithful this car is. And then after you have owned it a long time and driven it 100,000 miles you will appreciate the Case standard of construction.

Proofs such as these are ALREADY known by Case owners and accepted as a matter of course. They are FAMILIAR with Case ideals, and they know JUST what the Case standard has saved for them in money and how much it has meant in genuine SATISFACTION.

A few years ago men paid \$2300 for the OTHER Case 40, and today

these men are so ENTHUSIASTIC that they say a better car could never be built.

The pleasure will be OURS, if you will let us know when you will come in and go over in detail the new Case 40. Or possibly you prefer ILLUSTRATED description by mail. Familiarity with the new Case 40 will give you NEW standards of comparison.

Mail Card or Phone for Demonstration

Reynolds Motor Company

FILER, IDAHO.

IDAHO'S LEADING GARAGE

A. B. WOOD, Manager J. W. NANCE, Chief Mechanic

Distributors for Twin Falls, Cassia, Minidoka, Lincoln, Gooding, Owyhee and Elmore Counties

ever visited Twin Falls gave the satisfaction that the Lorch company did when they were here in January. Since leaving here the company has been in several of the large towns of the state, and are this week completing a three weeks' engagement at the Flanery theatre, Boise, where they have been greeted with capacity houses during that time, and the press of the Capital city speaks of them in the most flattering manner. They need no recommendation to the people here. Their previous efforts established them in the hearts of the people and on their return next Monday it is almost certain that the Lorching theatre will be picked.

In order to give the patrons an opportunity to get their seats reserved, Manager Lorching has put the seat sale on early at the Rexall drug store.

People living in the country can have seats reserved by calling the store by phone, and the tickets will be held for them till 5 p. m. on the evening of the play by calling at the box office of the theatre.

"The Crooks" is the play selected for the opening on Monday night. It is one of the best and the one that made the big hit with the press and theatre public of Boise. The leading part gives Mr. Lorch opportunities and fits his style of acting like a glove. Yet it is not a one-man play and every member of the company has a chance to prove their ability, and does not let the chance slip. The play is full of interest from start to finish and brings to light the story of the underworld in a way that shows how a man can regenerate himself. Other plays to follow are "The Smugglers," "The Man Who Does Things" (written by Mr. Lorch), and "Wife in Name Only," one that finds Miss Fay in a role delightfully new.

A large crowd saw and enjoyed the "Birth of a Nation" at the Lorching last night. But few seats were left, and Mr. Lorching said this morning that the indications were that they would all be sold out tonight. The scenery is magnificent and realistic, according to those who attended, and gives a vivid idea of the days of the Ku Klux and a dramatic argument for their existence.

SPECIAL MUSIC AT ISIS.
Miss Emily and Laurie Wall are playing at the Isis theatre this week, during the absence of the Isis regular musician, E. A. Ahern. Miss Wall is an accomplished player on the piano and Mr. Wall a trap drummer. There will be special musical program Tuesday evening.

THE AMERICAN TOBACCO COMPANY

THIRTEEN CENT LAMBS-ON MARKET

Higher Prices Paid In Portland For the First Spring Lambs of the Season.

The first spring lambs for the season arrived Wednesday and sold at thirteen cents, says the Portland Live Stock Reporter, Thursday.

Just to indicate the strength of the market a "jackpot" shipment of sheep, consisting of 2 spring lambs and 5 yearling wethers Wednesday morning brought exceptionally good prices. The ewes brought \$8.25, spring lambs \$12 and the yearlings \$10. The month of March will long be remembered by not only the sheep men but other livestock men as a month of exceptionally strong prices at North Portland.

Nothing arrived in the sheep house during the first part of the week and all prices are on a good strong quotation basis.

Local supply of sheep is so short that killers are forced to rely on their own feed lots for their requirements. Sheep feeders are sitting easy these days. They have the supply in their hands and are not worrying any as to future prices. Good to choose cows early not start in numbers until after the lambing and shearing seasons are over.

Stewards of the better grades have shown no change since Monday. All quotations are on a very strong basis with receipts very short. Taking the month that has passed as a whole the steer market is showing up much shorter and stronger than it did last year for the same period.

Only a few cattle have been in the yards since Monday. The only receipts since that time have been in the cow and heifer division. No steers whatever having been received. There is quite a bunch of steers marked up for arrival today that will not be on today's market. Most of these anticipated receipts are from Idaho points.

All during the week the market on butcher stock has shown a fairly active spirit and throughout prices were steady to strong. Good to choose cows have not a ready outlet at the best price of the season. There has also been a good call for the better classes. Even plain, half-fat steers have had a good season and there has not been any dragging feeling.

Bulls and stags have not been in plentiful supply this week to date. Prices are very good and quotations would warrant 6 cents for bulls of good quality.

Eastern markets again report an weakness in hogs. Chicago went off 10 to 15 cents and Omaha nearly as much. This seems to be a reaction from Monday's supply. Hogs in the yards are now averaging around \$2 a hundred more than they were selling at five years ago and at a considerably stronger price than they sold at any year since to date.

Steer quotations are: Choice grain and pulp-fed, \$8.75; choice hay-fed, \$7.85; good, \$8.15; medium, \$7.50; ordinary, \$7.00; common, \$6.50; 7.50. Cow quotations are: Choice, \$6.75; good, \$6.50; medium, \$6.25; ordinary, \$6.00; common, \$5.75; 6.00. Heifer quotations are: Choice spayed, \$7.00; good, \$6.00; other varieties, \$5.00; 6.00. Bull quotations are: Choice, \$4.50; good, \$3.50; medium, \$3.00; 2.50; common, \$2.50; 3.00. Stag quotations are: Choice \$5.00; good, \$4.50; medium, \$4.00; other varieties, \$3.00; 4.50.

Powder quotations are: Best selected, \$50 to 100 lbs., \$5.50; best selected, 700 to 900 lbs., \$5.25; 6.00; choice stock holders, \$1.00; good to choice stock holders, \$1.00; 5.25. Milk quotations are: Jersey heifers, \$10 and up; good grade Holsteins, \$10 and up; good grade Duglans, \$8 to \$10; good Jersey, \$8.00; 8.50. Sheep quotations are: Spring lambs \$12.00; choice lambs, \$10.00; 10.50; common lambs, \$9.50; 10.00; choice yearlings, \$8.50; 10.00; good yearlings, \$8.25; 8.75; choice wethers, \$8.25; 9.00; good wethers, \$8.00; 8.25; choice ewes, \$7.75; 8.25; good ewes, \$7.00; 7.75.

Hog quotations are: Prime light, \$9.25; prime strong weights, \$9.00; 9.25; good to prime mixed, \$8.75; 9.00; rough heavy packing, \$8.00; 8.25; pigs and skips, \$8.00; 8.25.

Public Forum

Editor Twin Falls Times:

In a recent issue of your paper appeared a sermon delivered in Twin Falls by an evangelist in which complimentary references were made to Christian Science and to its founder, Mary Baker Eddy. Were these merely the expression of an unfavorable opinion of Christian Science or dissent from its views, no reply would be necessary. My purpose in seeking space in your paper is to correct what is so obviously a misstatement of its teaching and an unfair criticism of its founder.

Religious discussion among professed Christians ought to reflect that charity which is love, rather than that bitterness which has marred with persecution the history of the churches. Let us hope that those who have undertaken to spread the message of the meek and lowly Savior will learn to observe the dictates of the Golden Rule in discussing the religious convictions of others.

There is nothing in the teaching or practice of Christian Science which even remotely supports the critic's inference that its doctrine is a warrant for immorality. On the contrary, the lives of Christian Scientists show that its entire teaching inculcates a high moral standard.

The fact that the Christian Science movement is a world-wide one, drawing to itself intelligent Christian men and women and ennobling their lives is sufficient to refute the critic's comparison of it to a stain and blight. The moral code of Christian Science is based upon the Ten Commandments and the teaching of Jesus, the Christ. So far from encouraging the indul-

gence of sin, its whole practice is the overcoming of sin, not by the mere declaration that there is no sin, but by the daily practice of pure and holiness—practices made possible by the knowledge that sin is not an irresistible force with which man copes in vain, but that all power and the only power is God whom man reflects. It is the knowledge of the ever-present and omnipotence of God which gives man hope in what has before seemed a hopeless struggle with sin and disease and which enable him to overcome both sickness and sin and thereby prove them unreal.

The tendency toward purity and holiness inculcated by Christian Science was first demonstrated by its founder, whose life of unselfishness, righteousness and purity caused her to be respected and honored in every community where she resided. She is now generally recognized as one of the leading women, not only of the age but of all ages. Her life of achievement has placed her beyond the reach of petty scandal or attempted ridicule. Her wonderful circumstances, the "revelation of lust and crime" referred to by the critic is daily becoming more evident. Only one who misreads her life could regard her in any other light than a spiritually minded woman whose influence was exerted only in the direction of righteousness.

The message of Christian Science is one of peace and healing. It offers to tired humanity the same message of redemption from present ills which brought about the universal recognition of primitive Christianity. Christian Scientists are not so much concerned about a far off judgment day nor an abstract millennium as they are about gaining a knowledge of God who promises to all mankind salvation and freedom here and now from both sickness and sin.

TEN DAYS' FREE EXAMINATION
RETURN IT IF YOU WISH

—The time has come when everybody needs a typewriter. That's the reason we have built a typewriter for everybody. It is the

REMINGTON JUNIOR

The Junior is "Remington" in everything—in name, in manufacture, in quality, in the work it does, in the guarantee that backs it. It is a boiled down Remington, smaller, lighter and so simple that any one can operate it. No lessons needed.

And it sells for \$50—absolutely the first high-grade typewriter at medium price. You can buy it on easy terms—\$5 down and \$5 a month.

Here is our offer. We are so sure that the Remington Junior is just the typewriter

that you need that we will send it on ten days' free examination to any address within the first and second parcel post zones of any Remington branch office.

When you get it, look it over—make sure for yourself that it is everything we say it is—the typewriter you have always needed.

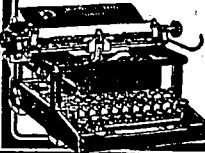

But the first thing to do is to

MAIL THE COUPON TODAY

MONEY PLENTIFUL

AND TIMES GOOD

Representative of Denver Bond House in Optimal-Doubts of Foreign Development' Exist.

"We have half a million dollars that we want to put into municipal bonds," said Charles J. Ide, representative of the Guardian Trust company of Denver, to a TIMES representative yesterday. "Denver banks, like the banks elsewhere, have plenty of money that they want to invest in good securities. Times are good but somewhat slippery, which explains the premium paid for the waterworks bonds. Any bond with

UNITED STATES CAVALRY ON THE MEXICAN BORDER

sound backing if sold for immediate delivery now will command a good premium. We bid \$31,000 for the waterworks bonds, but we would not give the premium if they were to be delivered in 30 days. In the first place if the bonds should take a notion to get ugly, or if Carranza and Villa should suddenly make up and join forces against the United States, it would make a difference in the money market. We do not look for either of those things to happen. The country is prosperous and prospects are good for the future, which is the reason that good premiums are paid on bonds, but banks are the most timid people in the world, and the possibility that things might turn out differently is the reason for not paying premiums where bonds are for future delivery. There is another reason. The late spring and summer are poor times to dispose of bonds even in times of peace, for the buyers are apt to go fishing and not want to bother with the markets."

MINUTES OF MEETING OF TWIN FALLS LUMBER CO.

February 15, 1916.
Board met in regular session, all members present except Kennedy. Minutes of previous meeting were read and approved. Moved by Seaver, seconded by Barker, that water be transferred from part NE 1/4 SW 1/4, NW 1/4, SW 1/4, SE 1/4, 12-50 shares, to lot 1, 22-9-16; and S 1/2 SW 1/4, 12-9-14, to W 1/2 SW 1/4, 33-10-13; and from S 1/2 SW 1/4, 17-11-14, 60 shares, to N 1/2 NW 1/4, 19-11-14. Carried unanimously.
Moved by Barker, seconded by Seaver, that estate of Ement and Taber be allowed \$50 in full for all damages caused by shutting off water from their lands for one week during the season of 1915. Carried unanimously.
Moved by Taylor, seconded by Barker, that the request of Green & Taylor to have his drainage contract cancelled be allowed, provided that all paid, and in the event of the transferring the water right the land be deeded to this company. Carried unanimously.
Moved by Seaver, seconded by Barker, that the president and secretary are hereby authorized to sign on behalf of this company a certain contract with Dr. T. G. Lloyd for the care of sick or injured company employees, said contract to run for one year from March 1st, 1916. Carried unanimously.
Moved by Barker, seconded by Taylor, that this company construct a suitable ditch from lateral No. 19 to the Low Lids canal, across the land of P. W. Monahan and others, provided easements for right-of-way are provided without expense to this company, said ditch to be used as a spillway. Carried unanimously.
Moved by Seaver, seconded by Barker, that no crop mortgages will be taken by this company for maintenance charges for the season of 1916. Carried unanimously.
Moved by Barker, seconded by Taylor, that the manager be instructed to lay off the Armstrong well machines, and the secretary to advise the Armstrong Drilling Machine Co. that their machines are not satisfactory and that this company refuses to accept or pay for same; but, if the Armstrong Drilling Machine Co. are willing to replace these machines with others that are satisfactory, it will be acceptable to this company. Carried unanimously.
Moved by Seaver, seconded by Barker, that where fences cross the canals or laterals of this company, gates must be provided by the owners thereof, so that company employees may pass along the banks in the discharge of their duties. The location of said gates, if questioned, to be determined by the manager. Carried unanimously.
Moved by Taylor, seconded by Seaver, that it be resolved: That the resolution of the previous board of directors of this company, adopted September 14th, 1915, fixing the maintenance charge for year 1916 at \$1 per acre, payable 30 cents on or before March 1st, 1916, and 70 cents on or before September 1st, 1916, and other matters therein specified be and the same is hereby ratified and confirmed and adopted as the action of this board. Carried unanimously.

A Sensible, Thoughtful Gift.

"Speaking of unusual presents, my husband is giving me one which is perhaps very romantic, but thoroughly sensible. It is the kind of thing that shows me that he is thoughtful."

"It is merely an addition that he is having built to our little back porch at home, enlarging it and screening it all in. It will more than double the comfort with which I will be able to do my work, for the kitchen will no longer be my only work-room."

"In warm weather I can get out and away from the heat of the kitchen."

Come to us for assistance in planning porch construction, addition or alteration.

EM STATE LUMBER CO.

H. L. AUSTIN, Manager,
Twin Falls, Idaho.

to purchase a typewriter desk for the office. Carried unanimously.
Moved by Seaver, seconded by Taylor, that the secretary be instructed to take up the matter of repairs and improvements of the Miller dam with the North Side company and ask that they consult with this board regarding same. Carried unanimously.
Whereupon, there being no further business, the meeting adjourned till the next regular meeting.
(Signed):
F. D. BROWN, President,
W. O. TAYLOR, Secretary.

PARENT-TEACHERS' MEETING.
The Parent-Teachers' association held a meeting last Friday night at the high school auditorium. Superintendent Hal E. Hine spoke on the new school system, and Miss Hine gave an excellent address on playground work. A reading was given by Miss Gladys Dwight. There was good attendance, this being the 1st meeting of the central organization for the year.

MAD COYOTES AND DOGS STILL ACTIVE

Deputy Jackson Kills Many Muzzleless Animals—Tells Story of Rabbits in Several Places.

Deputy H. G. Jackson has been slaughtering the muzzleless dogs in and about the eastern part of the county and says that he is connecting the rest of the canines with muzzleless dogs through the agency of their owners. He says that he shot 10 in Kimberly recently. Mr. Jackson has no big hydrophobia stories to tell about his own district, but gives some interesting information about what is happening elsewhere, including the city itself. THE TIMES is indebted to him for the following information on the subject:

While the little daughter of James A. Young, who lives at 422 Sixth avenue east was returning from school Thursday evening, she was attacked by a large dog, which suddenly jumped at her, grabbed a bunch of ribbon on

her hair, threw her down and then trotted away without further molesting her. The child was so much excited that she was unable to describe the dog and the animal was not found. A careful examination showed that the teeth of the dog had not come in contact with the skin and that no injury had resulted from the attack. It is supposed that the animal must have been going mad, or it would not have acted in such an unusual manner.

One evening last week a coyote suddenly appeared at the ranch of Peter Christensen near Rogerson and attacked his dogs so furiously that they were driven over the fence at the house. The coyote cleaned in the gloom. The dogs are still tied up awaiting developments.

Erickson Brothers, in the Rogerson country, reported Saturday that they had lost sheep every day for six days and had killed three mad dogs and three mad pigs. Three dogs on their place had been bitten and were tied up to see whether it would affect them. Albert Fry in the same country, lost two dogs, and had an exciting experience with a rabid cow which chased him for 200 yards. The foreman of the Shocole ranch killed the cow after shooting her six times. It is said that the company has lost 12 head of cattle with hydrophobia. Rabbits are reported to be dying by the hundreds, but whether from disease, poison or rabies is not known. Last Wednesday E. W. Hungerford, a trapper living near Rogerson, was attacked by a mad coyote while unarmed and dispatched the animal with a club without suffering a scratch.

WOULD YOU DO WHAT BIRDS DID?
 If your father were a self-made millionaire and worshipped big game—the very turmoil of a great manufacturing city, even the smoke of the wealth-bringing chimneys, and—

If your elder brother and also your married brother had been efficient after your father's own heart, but the one had been killed in an accident and the other had broken down from overwork, and—

If your father had come down to you, as his last chance, had determined to break you into the shop and the business—you to whom business meant nothing, you who looked for something higher in life than making money, you who longed for quiet in which to think and write poems and essays, and—

If the old man had resolved to make you a director in the pump works, a

CLEAN SEED POTATO PRODUCTION UNDER IRRIGATION IN SOUTHERN IDAHO

THE problem of securing healthy seed potatoes is one of great importance in the irrigated west. Growers of Idaho are warned by specialists of the United States department of agriculture that potatoes grown in the east or foreign countries are no healthier than those grown on their own irrigated tracts, and that there is always the danger of introducing new diseases by planting imported seed potatoes.

Seed potatoes should be grown at home in a specially selected seed plot, land which has never been planted to potatoes, but which has for several years been under cultivation with alfalfa or grain. It is apparently best adapted for growing healthy seed potatoes. Have desert land should be avoided, as it is not well adapted to potato growing until it has first been in cultivation with other crops, especially leguminous crops and grain.

The seed selected for such a seed plot should be wholly free from disease. This can be accomplished in the following manner: Select from your seed potatoes tubers which show no external evidence of disease, such as russet or Rhizoctonia scab, common scab or decay. Tubers having small pockets of storage dry rot may be used, provided the decayed portion is cut out. Tubers externally free from evidence of disease should then be cut into seed pieces. The first cut should

be made across the stem end. The stem-end portion should always be discarded. If there is any deep discoloration at the stem-end, the entire tuber should be discarded; but if apparently healthy, the rest may be cut into seed pieces of the desired size.

After cutting, the selected seed stock should be treated by soaking for two hours in a solution of corrosive sublimate. The formula for making the corrosive sublimate dip is as follows: To each 30 gallons of water add four ounces of corrosive sublimate which has first been dissolved in a little hot water. In making and using the solution, only wooden, glass or porcelain vessels should be employed. Corrosive sublimate is a deadly poison and both the solution and the potatoes treated should be kept out of reach of farm stock.

The seed plot should be given the best possible care, as potatoes poorly cared for are apparently more susceptible to disease attacks than those which are given the best opportunity to grow and mature. Potatoes selected and planted in this manner should give a product comparatively free from disease, though it must be admitted that the planting of disease-free seed on new land is not a guarantee of a disease-free product. A diseased product will mean that the land is infected and that other land should be used for the seed plot another year.

vice-president of the realty company and a vice-president of the trust company and threatened to cast you out if you refused to accept the proposition—

Would you refuse?

Bibbs did.

If you were in love with "the sweetest girl in the world" and happened to learn that she had been compelled to sell her piano and even her furs in order to support her parents, who were poor and very proud, would you give up your dream of literary success and take the job that had been offered?

"THE TURMOIL"
 It is hard to find fit words of appreciation for a story so gratefully entertaining, so genuinely lifelike, as Booth Tarkington's "The Turmoil." After reading this tale, it seems banal

lot 3, NE 1/4 SW 1/4, N 1/2 SE 1/4, 19-10-16.

TALKS ON THIEF

GETTING YOUR MONEY
OUT OF THE BANK
If the bank rendered no other service to the community than to protect its valuable it would render a useful one; but it would be a mouse-trap proposition, you could only go on away; but the bank makes it easier to get money out than in, and in the outgoing process assumes risks and renders benefits. We want our train on the dot or we get impatient. We want our milk and our coal, blizzard or no blizzard. We likewise expect the bank to do our business smoothly, efficiently and without thought of the cost or the risks attending.

When your bank hands you a check book, it gives you license to draw as many checks, in as large or as small sums as you wish, with the only provision (except in certain cases where

a minimum balance is required) that you do not overdraw, and promises to honor your checks as presented as long as your balance is sufficient to pay them.

Whether you want to pay your creditor in the next block, or a thousand miles away, the checking privilege at a bank account permits you to make your payment with ease, safety and dispatch.

When you mail your check your trouble is over and the banks have just begun, for the bank warrants to you three things, all for your own protection and at its own risk. It is, well to know these:

It guarantees (a) that it will pay only the checks you have signed. If your name is forged and the bank pays the check, it cannot charge the amount to your account; (b) that it will pay only in the sum originally drawn. If someone gets your check and raises the amount, making it apparently a genuine check, the bank can only charge the amount in which you originally drew the check. Unless it can show you were grossly careless in so drawing that you invited fraud. Therefore be careful to draw your checks properly; (c) to pay to the party to whom you ordered the amount paid and none other. If the check gets into the hands of strangers who force the indorsement, so that the party to whom you ordered the money paid does not get it, the payment is at its risk, and you are harmed.

All this is ultimately for your good as a depositor. You know that your account cannot be drawn against except on your order. You know that the party you want to receive payment gets it. You get back the most perfect voucher known to the business

world. Many a dispute has been settled and loss and law suit avoided by producing bank vouchers that told in no uncertain way that payment had been made according to the intent of the drawer. Therefore for your own good you ought to keep your money in a bank, and draw it out by check.

CITY WATERWORKS NOW REALITY

(Continued from page 1.)

Mrs. Craig, who now lives at Buhl, came to our rescue with a kettle of boiling water which she poured into the pipe, quickly dislodging the stopper.

"Well, there isn't much to tell after the company was organized and incorporated in 1905, as the rest of the history can be obtained from the records of the water company. Some of these I hope to get a bunch of old-

timers together at a banquet, and if you are present when that takes place, you can get plenty of tales of the early days which have never been printed, but which will make interesting history."

The rest of the story of the company as told by Willard Wyatt, the water superintendent of the company for the past five years, and from the records is interesting if less romantic and amusing. The corporation received its franchise in 1905 and put its system into operation the following

year. The water was at first taken from Rock creek to the present stand-pipe, but in 1909 a contract was entered into with the canal company for water by a gravity system, which is still maintained. Fred Ramsay was superintendent for five years. The first pipe was an eight-inch affair, but in 1910 a 16-inch pipe was added and both remain in use to the present. The people desiring to establish a municipal system, endeavored to put one in after fruitless negotiation with the company, but the public utilities

commission declined to issue a certificate of necessity. Negotiations were renewed and an agreement entered, by which the company sold the system to the city for \$50,000. The people voted the required bonds by an overwhelming majority, the necessary vote was gone through, the bonds were sold at an unusually large premium, the money was turned over and the old company turned over its control to the city.

The first payment of water rent to the city was made by W. B. Enasterly.

Mr. Williams will move to the water company office presently.

GREATEST AUTO SHOW IS OPEN

(Continued from page 1.)

could arrange vault in the jail and the heart of the police judge.

Chairman DeLong then introduced J. O. Gates to accept the keys in behalf of the auto men, with the remark that the automobile makers and dealers were the most progressive in the world, since they were on hand with 1917 cars this early in 1916. Mr. Gates said that they were a lively bunch and perhaps would get into cold storage. He declared the show to be unexcelled, saying that it was better in all things except size than the big show in Chicago, in as much as there were no freak cars and none which existed only on blueprints. Mr. Gates, who represents the Haynes car, had previously declared that the display of the Lind Auto company, a rival concern, was better than anything he had seen in Chicago. Mr. Gates, continuing, said that all the shows were good and all they cost. They gave the dealers a chance to talk to the people, and the people a chance to compare cars and pick out the kind desired. Such shows tended to promote a friendly and co-operative spirit. He closed by proposing three cheers for Boyd H. Fuller and the management, which were heartily given. Then the band struck up, and Miss K. Karryn sang and Buck, the "white magician," put on some nifty stunts, and the show was open in earnest.

Representatives of the car companies say that the show is the largest ever put on between Denver and Portland and are unqualified in praise of its arrangement. It is impossible to mention a few of the cars and pass up the rest without doing injustice, and it would take too much space to adequately describe them all. All give some sort of souvenir.

The Electric Investment company is giving a big cooking display and tonight will turn on the first floodlight ever seen in the state, in front of the tabernacle. This is precisely similar to the one used at San Francisco at the exposition. The new Jeffery Quad, the first of the kind that has ever come to Southern Idaho, arrived this morning from Salt Lake City, carrying two tons of salt. There will be plenty doing every minute for the week.

Several cars have been entered since the list on the program was published. The following is the complete list:

Apperson, Deem & Hammquist, Filter, Briscoe, E. B. Ripley, Flier; Buick, Lind Auto Co., Twin Falls; Cadillac, Triet Auto Co., Pocatello; Case, Reynolds Bros., Flier; Chalmers, C. A. March....."Triumph of Old Glory"

WILBUR S. HILL WILL REMAIN IN TWIN FALLS

Wilbur S. Hill has opened a real estate and rental office at 137 Shoshone street North, next door to the picture shows, and is prepared to handle all sorts of business in that line. Mr. Hill is back from a two months trip, during which he visited a number of projects in the mountain states and in California, and became convinced that there is nothing like the Twin Falls tract to be found, hence he has again cast his anchor here. It would be "carrying coal to Newcasttle" to endeavor to tell the readers of THE TIMES anything in regard to Mr. Hill, who is known to them all, and whose residence of 11 years in Twin Falls makes him especially competent to pass upon the value of real estate in the city and surrounding country. There are many expressions of pleasure voiced by the people over the fact that he has determined to remain in the city with the establishment and growth of which he has been so intimately identified.

Fatty and Mabel's Simple Life

A Komical Keystone

IN TWO PARTS

Fatty and Mabel get married. He buys a Ford automobile—the "darn thing" runs away, imagine the rest. A serenade from start to finish.

Nothing Just Like a Keystone Comedy—They Hit the Spot

AS NEARLY EVERYONE ENJOYS FUN AND MERRIMENT AND THRILLS

The experiences of Fatty and Mabel will tickle everybody's funnybone.

SHOW

TUESDAY AND WEDNESDAY THIS WEEK AT THE

Orpheum Theatre

See at our Salesroom the Car that DETROIT Likes Better than any other in the World

In Detroit, where people KNOW cars, more Studebakers are in use than any other cars listing at more than \$500.

This is significant.

For the simple reason that Detroit is the Home of Automobiles. More than three-fourths of the cars manufactured in the United States are made in Detroit.

In Detroit a BIG percentage of the residents are either directly engaged in the motor industry—or come into DAILY contact with people who are.

They talk cars. They study cars. They hear gossip from all the great factories established in the city. They know the plants and the efficiency of the manufacturing organizations. They know the men back of the cars.

And as a whole, knowledge of automobiles is far more general and EXACT in Detroit than in any other city on the earth.

So when you know that for the entire year of 1915, registrations in Detroit showed MORE Studebakers in use than any other cars selling at more than \$500, it can mean but one thing: that to the people of Detroit, people who KNOW cars and who KNOW VALUE IN CARS, Studebaker offers the top value of the market!

And this fact is all the more significant when you know that Studebaker has only been selling cars in Detroit for about half as long as its nearest competitors have.

In half the time, Studebaker has outstripped them all, and today you go to Detroit, and you find more Studebakers on the streets than any other make of cars costing over \$500.

Be sure to see the new SERIES 17 Studebakers at the show—The Cars of the GOLDEN Chassis.
