Boys

OFFICERS

Mrs. Kennedy Packard, Chair-
man.
Mrs. E. J. Ostrander, Vice-
Chairman.
Mrs. C. H. Kreggie, Secretary.
Mrs. W. H. Dwight, Treasurer.

Realizing the urgent need of organ-
ized effort on the part of the women
of the community in assisting inter-
ested people in the work of supplying
the boys of Company D, I. N. G., of
Twin Falls, with the little necessities
and conveniences of army camp life,
five women met Friday and took the
initial steps toward forming a branch
of the National Red Cross society.
The meeting was held at the home of
Mrs. C. H. Kreggie, wife of Capt.
Kreggie of the I. N. G., and the women
present were: Mrs. Kennedy Pack-
ard, Mrs. P. W. McRoberts, Mrs. W.
E. Dwight, Mrs. E. J. Ostrander and
Mrs. Kreggie. Officers were elected
as previously stated and the general
plans of Red Cross work, both na-
tional and local, were discussed.

EXPLAINS USE OF CHLORINE GAS IN THE CITY WATER

Experience of Dozens of Plants Using
Same System Thoroughly In-
vestigated Before Instal-
lation

By way of Explanation of the
proposition of water purification
by means of chlorination
and as a means of allaying the
apprehension of those not fa-
miliar with the process, the fol-
lowing account of the manner
in which the work is performed
has been prepared for publica-
tion by Mayor Sweeley:

To the Citizens of the City of
Twin Falls:
Because of the reckless state-
ments made by uninformed and
misinformed persons concerning
the city water supply, and the
natural uneasiness thereby caused
in the mind of the public—for
which there is no real foundation
—and believing that such state-
ments, unless the true situation
is disclosed, will work a further
unmerited injury to the city of
Twin Falls, the city council at the
regular meeting of Monday, Au-
gust 7th, 1916, instructed the
mayor to prepare and have pub-
lished a statement of the facts,
and, in accordance with such in-

CANAL BRIDGE TAKES TOLL OF AUTO SPEEDERS

TRAVELING MEN MISS BRIDGE AND PLUNGE THROUGH RAIL

Sam Christensen of Salt Lake Killed
Instantly—Leaves Wife and Two
Children—H. B. Sackett
Suffers Injuries

One man dead and one in-
jured was the toll taken by a
bridge, set square with the canal
but at nearly right angles with
the road, on the Low Line, two
and one-half miles south of
town, about 6 o'clock yesterday
evening.

Driving in from Rogerson
over the Salmon River road at
a speed said to have been about
18 miles per hour, Sam Chris-
tensen and H. B. Sackett, two
traveling men for Southern
Idaho territory, missed the
bridge and plunged with their
machine a light Oldsmobile,
into the waters of the canal.

According to the statement of men
who were on the ground first, the
tracks of the machine showed that
the men were driving on the left
side of the road before they reached
the bridge, and as they approached
a pile of rock they swerved their ma-
chine to the right and directly to-
ward the edge of the bridge. The

ANNOUNCE MOVE TO DEFEAT PLAN OF DIVISIONISTS

TWIN FALLS PARTY LEAD- ERS WILL INDORSE CANDIDATES

Movement Under Way to Concentrate
Strength on Anti-Division Can-
didates of Both
Parties

Now that the list of candidates
is complete and the last day for
filing a thing of the past, a
well-defined movement is de-
clared by party leaders of both
parties to be under way look-
ing to a crystallization of senti-
ment on the part of the voters
of the various precincts on the
subject of county division.

Locally it is generally accepted that
an organized effort will be made in
the west end to elect at least one
county divisionist, notwithstanding
the fact that one of the two Demo-
cratic newspapers of Buhl practically
indorses the candidacy of S. P. Atherton,
one of the two Republican pri-
mary candidates for the state senate
on an avowedly anti-division plat-
form.

Will Spare No Effort

Notwithstanding this evidence of
sharp division of sentiment on the
subject in the town of Buhl, party
leaders of Twin Falls say they ex-
pect to leave no stone unturned to
secure the election of a full anti-
division legislative ticket from state

"WHAT ARE WE GOING TO DO?" IS ANSWERED

SECOND IDAHO INFANTRY IS MOVED TO FORT HUCHUACA

Break Camp at Nogales Today—Three
Weeks Will Be Spent in Tar-
get Practice—New Cooke
for Company D

CAMP STEPHEN LITTLE,
Nogales, Ariz.—The Second
Idaho Infantry regiment will
break camp here today and
march to Fort Huachuca, 68
miles northeast of here and 20
miles from the border, where
three weeks will be spent in
target practice.

Announcement of the move, made
this week, is the principle topic of
interest among the Idaho soldiers, and
is the immediate answer to their con-
stant query, "What are we going to
do?" They feel themselves ready for
any duty that may be required of
them and, while practically without
exception all would welcome orders to
return home, there would not be a
moment's hesitation were they sent
across the border of a hostile nation.

Whether or not the Idaho regiment
will be returned to Nogales after the
target practice is a subject of in-
terested debate among the men. Opin-
ion is about evenly divided, each side
quoting what is purported to be ex-
cellent authority.

Inspected by Gen. Bliss
That the Idaho regiment is the most

SIGN CONTRACT FOR A SPLENDID LIGHT SYSTEM

FIFTY PER CENT MORE LIGHTS AT FIVE PER CENT MORE COST

City Council at Special Session Con-
tracts With Idaho Power Com-
pany for New Lighting Sys-
tem—58 New Lights

Within 90 days the city of
Twin Falls will have an en-
tirely new lighting system of
street series nitro-filled lights,
with 58 new units installed, ac-
cording to a ten-year contract
signed last night with the Idaho
Power company at a special
meeting of the city council.

The cost to the city will be
\$4817 per year, an increase of
\$240.50 over the cost of the
present system, after next Jan-
uary, when the present no-
charge contract for the park
lights expires. The cost of
changing every street light in
the city and the installation of
the new system will be borne by
the power company and will
amount to nearly \$10,000, ap-
proximately two years' revenue.
It will mean also an increase
of 10,000 candle power in the

(Continued on Page Four)

MUCH BUSINESS TRANSACTION BY CITY COUNCIL

BIG CRIST ORDINANCES PASSED AT REGULAR MEETING

Mayor is Authorized to Set Facts Concerning the Reservoir Water System and Chlorine Plant Before the People

Because of the unreasonableness of many Twin Falls citizens over the water situation, caused by reports circulated last week, the City Council at their regular meeting Monday night passed unanimously a resolution authorizing the mayor to make an official statement of the facts concerning the reservoir, the water system and the chlorine plant.

With every member present and a number of citizens of the town in attendance, the meeting was a record breaker as regards ordinances passed, reports received and general volume of business transacted.

Following the reading of the minutes of the last three meetings, which were approved as read, an ordinance was introduced by Councilman Smith, seconded by Councilman Behler, relating that portion of the alley in block 1st which is surrounded on both sides by property owned by the Twin Falls Milling & Elevator company. Manager L. L. Brockmeyer was present to represent the company and spoke briefly on their need of room for expansion. He mentioned, incidentally, that the greater part of the railroad right-of-way on that alley, ties, steel rails and all, is owned by his firm, and represent an outlay close to \$8000. Following a supplementary motion moving for the city a right-of-way along the alley for sewer and water mains, the ordinance was passed.

Francis Owners Present
In compliance with a former resolution of the council, the representatives of the owners of the gas and street railway franchises met

with the council at this time. J. A. McMillan was present to speak for the former, and stated that his company had just gotten a set of plans drawn up preparatory to getting estimates on the cost of building their gas plant, when the cost of all kinds of structural iron and steel suddenly shot upward and has been rising ever since, until it is now 30 to 40 per cent higher, making the cost of building a gas plant prohibitive, even if it were possible to get such material. which, it is almost certain, could not be done. Upon motion of Behler, the mayor was authorized to instruct the city attorney to draw up an ordinance granting a year's extension from last June.

The street railway company was represented by Attorney Harriott, who informed the council that the road was about to be leased to parties in the East, and that their representatives would be here soon. A motion was passed postponing consideration of the matter until the next regular meeting of the council.

New Bonding Method
Much favorable comment was aroused among the city fathers upon the reading of the E. M. Park and Senior addition sewer ordinance as prepared by the city attorney, due to the incorporation of a section providing for the payment of the bonds in ten annual installments. This is a somewhat new departure, and it is felt sure will be a popular one, as the old custom was to make one payment for the entire amount, forcing a comparatively heavy burden upon the man who happened to own several lots in the proposed improvement district. The ordinance was passed as read, and Mayor Sweoley immediately proceeded with the appointment of a district sewer committee, to be composed of F. O. Potter, for one year; E. J. Finch, for two years, and W. A. Minnick, for three years, all residents and taxpayers of the district, and who, together with the city clerk as ex officio committee clerk, will have complete charge of the building of the new sewer addition. The appointment was ratified by the council.

Set Date for Protest
August 28 was set as the date upon which protests against the construction of the sewer will be heard. The assessment roll for the district, as made up by the city engineer, totals \$8208.

Frank Healy appeared before the council with a request for the extension of city water to his lots in the new school addition. Water Commissioner W. F. Porter stated that to build to the Healy property would necessitate the laying of 300 feet of pipe, without supplying any property in the intervening section. The matter was turned over to the water committee with power to act.

George F. Rauch was present at the meeting on behalf of several property owners living on Seventh avenue east, asking that sidewalks be ordered in certain parts of that street. It was suggested that he appear at the next council meeting with a signed petition regarding the matter. A sidewalk petition from property owners living on Tenth avenue east, however, was taken up by the council, was approved, and sidewalks will be ordered in, with due process.

Carnegie Library Matter
Regarding the proposed Carnegie library, a letter to Mrs. B. F. Morse from James Bertram, secretary-treasurer of the Carnegie Library association, was read, in which Mrs. Morse is requested to ascertain just what the council would do about providing permanent revenue for the support of the library, and a suitable site. The matter was turned over to the city clerk, with instructions to determine the proper form in which the application to the Carnegie corporation should be made.

The report of the street commissioner favored making the railroads put gravel or plank between their rails at crossings in preference to paving.

Attractive Rate on Chlorine
Upon reading of a letter from the California Jewel Filter company, the council took action upon the matter and voted to sign the contract as submitted. Up to this time the county had supplied the chlorine under their agreement entered into at the time the filter was purchased, and the contract will be continued that agreement until next June, the city getting the chlorine at 15c per pound, a very attractive rate, considering that chlorine has gone up several times since the first negotiations with the California company.

Reed Williams gave the report of the city employment agency for the month of July, showing 55 applicants for jobs as against 62 calls for help. All through the month there have been more jobs than men. The city treasury was enriched to the extent of \$37.50 as a result of the work of the agency.

Fire Situation Discussed
Several improvements in the fire situation were suggested in a letter from the Underwriters' association, whose surveyor recently made an inspection of Twin Falls. Among their recommendations was the laying of an additional water supply pipe from the canal reservoir to town; more hydrants, particularly in the southeast part of town; a better fire alarm system, and fire drills and fire inspection by members of the fire company. With regard to the latter, it was stated by Mayor Sweoley that the city had a plan which made each man familiar with all entrances to buildings, locations of gas-line tanks, etc.

The leave of absence for the month of August granted by the Mayor to J. M. Chambers, city inspector, was confirmed by the council, as was also the appointment of Alex Murray to serve during that month. The report of Fire Chief Carlson

was a model of brevity and conciseness. He said: "There was one fire in July."

Boys to Lose Old Standby
In the matter of selling the big iron water tank now decorating the southeast part of town, the usefulness of which practically ceased when Twin Falls quit using Rock Creek as a source of water supply, the council instructed Clerk Williams to take up the matter with a prospective purchaser who had recently written to J. A. McMillan.

The final business of the council was to pass the annual appropriation bill, based on the budget as estimated and published.

INTRODUCES THE LICORICE BALL

Christian Treats Kimberly Fans to a Surprise in the Way of a Rival of the Spitalball

STANDING OF THE CLUBS			
	Won	Lost	Pct.
Twin Falls	3	1	.750
Burley	3	1	.750
Jerome	2	2	.500
Shoshone	2	2	.500
Rupert	2	2	.500
Kimberly	0	4	.000

Not since the spitalball startled the spectators at the big league games, back in the first few years of this century, have the patrons of the great American game been so dumfounded

as were the Kimberly rooters when Christian introduced the licorice ball on the Kimberly diamond Sunday afternoon and kept the Kimberly aggression tied to the home plate through eight solid innings, not one of them getting a hit. First base until he walked a man in the last half of the ninth.

While used upon occasion in some leagues the licorice ball was a new one at Kimberly, and Christian used it to perfection, to the complete bewilderment of the home team, who batted away savagely, only to have the ball go straight up in the air on every foul.

Meanwhile Christian chomped on. Before the end of the sixth inning his jaw was going with two cylinders missing, and by the end of the ninth the exhaust when he took a chew could be heard at home plate. His pitcher's arm was going fine, however, for it had taken only an average of about nine throws to an inning to send the Kimberly men back to the field.

Bob Whitel played the star batting game for Twin Falls, knocking a home run in the fifth and later a two-base hit with one man on.

Christian pitched a good ball, with the exception of that ninth inning, when Kimberly took advantage of the breaks and ran up three scores. Twin Falls had the game safely tucked away, however, by the score of 4 to 3, thus taking a place at the head of the league together with Burley, with whom they are tied.

BUSINESS GIRLS ON JOLLY PICNIC

LARGE CROWD MOTORS TO SHOSHONE FALLS FOR GOOD TIME

Enjoy Bountiful Supper on Rocks at Brink of Falls by Moonlight—Sit Around Big Bonfire and Sing

Forty-five business girls left the Ridgeway hotel corner at 8:30 Monday evening in automobiles and two big motor trucks for Shoshone falls on one of their jolly picnics. On the way out to the falls a brief shower fell, with raindrops about the size of dollars, but not a girl suggested returning home or stopping anywhere for shelter.

Upon arrival at the falls, each girl took one of the many packages of good things to eat and a long procession wended its way from the road down the winding trail to the bare river bed at the brink of the falls. Here a big tarpaulin was laid and the luncheon spread upon it. Practically nothing was omitted from the picnic menu; even lemonade with ice was served.

Have Big Campfire

One of the most beautiful sunsets one may see anywhere was viewed from the picnic spot. Many went to the brink of the falls, where they could see the soft reflections of the sunset colors in the river. 200 feet below. Several of the girls enjoyed a motorboat ride up the river. When the shadows deepened with the dusk a big campfire was built; the tarpaulin was spread near the fire and a bonfire of logs and brush was kindled. The campfire light as the girls sat themselves around the fire and upon the big rocks close by, in the setting of huge rocks, boulders and the grim old walls for a background. Soon the moon rode out clear and bright from behind a big, dark cloud and the canyon was flooded with moonlight for an hour or more as the girls sang about the fire and sang old, familiar songs.

The party reluctantly left the falls about 10 o'clock and singing and laughing, rode back to town, declaring the picnic one of the best they ever attended. Another such gathering will probably be held the latter part of September.

CHURCH IN THEATRE LARGELY ATTENDED

New Idaho Playhouse is Filled Sunday at Regular Baptist Church Services

The novelty of attending church services held in a theatre was experienced by large audiences at both the morning and evening services held last Sunday in the new playhouse by the First Baptist church. The sermons delivered by the Rev. O. T. Anderson of Marley, Ill., proved most interesting, convincing and wholly pleasing, and the music by the choir, of which Miss Edna Graham is chorister and Clarence N. Beatty is leader, was excellent.

Although handicapped by lack of those conveniences which a regular church building has, and which, naturally, are not provided for in theatres in a theatre, the services of the day proved successful and the members of the church have expressed themselves as pleased and encouraged by the outlook.

Despite the fact that he is a stranger in the city, that the church to which he has come is at present more or less unsettled by the move just made from the church building to the theatre, and that he is accustomed to speaking in a church, the Rev. Mr. Anderson adjusted himself to these conditions admirably.

Regular church services will be held in the Idaho next Sunday, with Sunday school at 9:45, preaching at 10:30, B. T. P. U. at 7 and preaching at 8 o'clock, as usual. The primary classes meet Sunday in the temporary chapel on the rear of the church building lots, at the corner of Sixth and Shoshone, where prayer meeting services are held each Wednesday evening. The Rev. Mr. Anderson will be the acting pastor during the month of August.

FIRE ALARM FOR CLOVER FIELDS

Buhl Has Two Fires in Fields Belonging to E. A. Milner—Freight Engine the Cause

Tuesday morning, about 11 o'clock, says the Buhl Herald, the fire department was called out to the field just south of the railroad tracks, near the elevators, where weeds along the track had caught fire and were threatening to burn the clover field belonging to E. A. Milner. The equipment of the department was not put in use, the fire being beaten out with wet weeds and old grain sacks. No damage to amount to anything was done by the fire.

The fire alarm was turned in Thursday, the second time during the week, and to put out a fire which started from the same cause each time. The morning freight engine belched some live sparks that set the clover field on fire across the tracks from the depot. The local fire company responded with all the equipment and the flames were put out with one of the chemicals. No serious damage was done.

GET HANDSOME NEW MOTOR EQUIPMENT

Firm of Grossman & Emes Receive Modern Combination Ambulance and Funeral Car

The firm of Grossman & Emes, morticians, this week received a handsome motor vehicle, combining ambulance and hearse. In appearance the car is one of the most attractive of this kind of machine made. It has a dull gray finish, nickel trimmings and bevel plate-glass doors and windows. At the side windows are gray silk curtains, harmonizing with the general color of the car. Between the

main part of the car and the front seats are rich purple velvet curtains. The interior of the car is in rich mahogany finish. The car has a depth of over five feet, so that when used for a hearse, with the flower racks arching over the casket, only the bed of flowers is visible through the windows of the car. With the electric lighting system and all conveniences, it is easily converted into a comfortable ambulance.

CARD OF THANKS

We wish to thank our neighbors and friends for their kind remembrance in helping us in our loss, caused by the death of our son, Mr. and Mrs. R. L. Wright.

HUMAN INTEREST AT THE IDAHO

Human Interest is the supreme keynote to the very remarkable story of "Pasquale." George Deban has achieved a triumph in artistic production by his marvelous interpretation of the character of "Pasquale," the proprietor of a small-town grocery store, who, after years of the most absorbing devotion to his business, finally saves an amount sufficient to repay his friend, Martinelli, the local banker, the loan which enabled him to become a merchant.

The great sacrifice made by Pas-

quale that his Margarita might be happy with the man of her choice, and the wonderful revelation of his strong principles of right and wrong in saving Mrs. Martinelli to her husband, and thereby finding the happiness he craved, make a story teaming with human interest, with community spirit and the things which every man, woman and child hear and encounter in their own local circles.

ANNOUNCEMENT

The American Episcopal church choir will give a benefit concert on Friday evening, August 25, 1916, in the Parish hall. Refreshments will be served. Everybody welcome. Announcement of the program will be made later.

WILL HAVE SIX WEEKS' OUTING

W. W. Wallace, cigar manufacturer, formerly located in the city, but now a resident of Twin Falls, says the Wood River News-Miner (Haley), arrived in the city yesterday afternoon in his automobile, accompanied by his wife. They left home yesterday morning and pulled through the city intending to make camp at the Fleming sawmill by evening. They came here by way of the great Shoshone falls and Jerome. Their son and daughter both having married, Mr. and Mrs. Wallace now say they are all that belong to their family. They come prepared to remain camped out for six weeks.

GOOD WORK WELL DONE

THOSE who are not familiar with the proposition of the purification of water for drinking purposes by means of chlorination will do well to read the statement of Mayor Sweeley, to be found on page one of this issue of The News.

Any lingering doubt as to the efficacy of this form of treatment and the entire absence of any element of risk whatever should be set at rest by the Mayor's statement. Probably nothing further will be needed to convince the most skeptical of the harmlessness of the process from the standpoint of the users.

Incidentally, Mayor and Council are to be congratulated upon the work of cleaning and repairing the reservoir just completed. So far as known, this is the first time in the history of the city that a thorough renovation of the plant has been attempted, and the good results of the work are already to be seen in the improved condition of the water.

Those who still regard the Twin Falls water supply as a sort of constant menace to life and health will probably have to stretch their imagination to a rather liberal extent in order to justify their suspicions.

WELL KNOWN YOUNG
PEOPLE ARE WED

Miss Thelma Senior Becomes Bride
of E. A. Beck at Pretty
Home Wedding.

A pretty home wedding took place at 3 o'clock Wednesday afternoon at the home of Mr. and Mrs. Allen P. Senior when their daughter, Miss Thelma, became the bride of Earl A. Beck of Strathmore, Alberta, Canada. The Episcopal wedding ceremony was performed by the Rev. L. B. French, of the Ascension Episcopal church, in the presence of twenty relatives and friends. As the strains of the wedding march played by Miss Rebecca Sanger, were heard, the young couple took their places, attended by Miss Mildred Jenkins as bridesmaid and Harold Goldworthy as best man. The bride wore a beautiful dress of white net and carried a shower bouquet of white and pink. The bridesmaid was in pink and carried a large bouquet of pink and white sweet peas. Pink and white were the predominating colors used throughout the wedding. The bride wore a pink and white flower everywhere. Immediately after the ceremony a dainty two-course luncheon was served by the Misses Margery and Audrey Baker, and Mr. and Mrs. Beck left on the evening train for Strathmore, where they will make their home. The car in which they drove to the depot was gallantly decorated with cow-bells attached to it.

Both young people are well known throughout the community. The bride came to Twin Falls with her parents ten years ago and attended school here. She would have graduated this year and she was popular and only in her school life but with the young or social set in the city. The bridegroom, who is at the head of the Canadian Pacific Demonstration farms near Strathmore, was for five years connected with this line of work in this vicinity for the United States government. They are followed to their new home with the best wishes of a host of friends in the community.

Letter from C. E. Booth

Head of Booth Mercantile company, now in East on buying trip, says: "We will have the best to be had, and at reasonable prices!"

The force at "Booth's" has just received a very interesting and attractive letter from C. E. Booth, who has been in New York for the past two weeks on his fall buying trip. He says: "We will have the best to be had, and at the most reasonable prices. Now buying the largest stock of coats, suits and dresses we have ever had, and the goods will begin to come by the time you receive this letter."

Mr. Booth will probably be in New York a week or ten days longer, but some of the new things at the store now, and the force will be glad to show them to you.

Board to Hear Advers—According to the terms of a letter received from the state land board by General Manager Hall of the Salmon project, who sent some hours in town on business this week August 15 has been set by the board to hear the settlers of the tract on the question whether it is the best policy of the state to have the tract settled or not. A receiver asked for the project.

MEN WANTED—Threshing crews, pluckers and men for the fall season. Municipal Employment Office.

THE PRIMARY

CERTAINLY the primary field should satisfy every shade of political preference over both Twin Falls County and the State as a whole. Let us hope the weeding-out process is not too painful among either candidates of public.

As a matter of fact, neither party need be ashamed of its field. The names of good men in plenty will come before the people for selection by the members of each opposing faith. Both primary and election promise to be hard fought.

Probably the result just achieved here is fairly representative of the result over the State. In a number of instances the best men for the positions have come forward for nomination. Each has two elections ahead of him. Conditions in the case of those offices where an issue exists are not in any manner different from those where there is none. This year, too, the members of the County Central Committee will be elected by the voters of each precinct through the writing in of names. Each candidate may, of course, operate his own campaign should he not be satisfied with the public choice.

All in all, as a means of breaking up party regularity, introducing petty points of difference into the public good, and generally adding to the defeat of the result sought—the greatest good to the greatest number—the Idaho primary law is a magnificent piece of statesmanship.

Recently the petrified body of a cat was found by workmen beneath the bench of a New York courtroom. This is the best evidence in a number of years of the inherent dryness of the law and its administration.

TWIN FALLS BOY
WEDS AT SCHOOL

Ralph L. Morse, Well Known Young
Man, Is Married in
Albion

The pretty school romance of Ralph L. Morse of this city and Miss Lois Swan of Mountain Home culminated in Albion with their marriage at the close of the six weeks course in the summer school, at the home of Mrs. C. E. Beck. Ralph is the son of Mr. and Mrs. Burton E. Morse of this city and the bride is the daughter of Dr. and Mrs. Swan of Mountain Home. The latter has been teaching and was a student at the summer school at the state normal in Albion, where she met Ralph Morse, who has been attending school there for the past two years. Their mutual regard deepened into love and forgetting their plans to complete their education they decided to marry. The wedding was given by the parents of the bride, that Mr. Morse finish his schooling at Moscow this year and secure his degree in philosophy. They were married. They will arrive in Twin Falls the latter part of next week and will spend the summer here. Mr. Morse is a graduate of the University of Wisconsin and will spend the year with his parents, Mr. and Mrs. Morse, in this city.

COUNTRY HOME SCENE
OF PRETTY WEDDING

The country home of Mr. and Mrs. Robert Fleming, on the Shoshone falls road, was the scene of a pretty wedding last night, when their daughter, Miss Thelma, was united in marriage with Thaddeus Patton. As Miss Emily Wall played the wedding march, the young couple took their places, and the bride wore a beautiful dress of white net and carried a shower bouquet of white and pink. The bridesmaid was in pink and carried a large bouquet of pink and white sweet peas. Pink and white were the predominating colors used throughout the wedding. The bride wore a pink and white flower everywhere. Immediately after the ceremony a dainty two-course luncheon was served by the Misses Margery and Audrey Baker, and Mr. and Mrs. Beck left on the evening train for Strathmore, where they will make their home. The car in which they drove to the depot was gallantly decorated with cow-bells attached to it.

Both young people are well known throughout the community. The bride came to Twin Falls with her parents ten years ago and attended school here. She would have graduated this year and she was popular and only in her school life but with the young or social set in the city. The bridegroom, who is at the head of the Canadian Pacific Demonstration farms near Strathmore, was for five years connected with this line of work in this vicinity for the United States government. They are followed to their new home with the best wishes of a host of friends in the community.

ANNOUNCEMENT

I wish to announce my candidacy for the nomination for commissioner of Twin Falls county, subject to the action of the Republican primary, to be held on Sept. 6, 1916.

ALAN P. SENIOR.

CANAL BRIDGE TAKES TOLL

(Continued from Page One)

turn of the road on the south side of the bridge is not sharp and why the driver did not turn toward the approach of the bridge is one of those unaccountable instances that so often characterize such accidents. Instead of turning his car toward the approach straight toward the edge of the bridge and the canal.

A two-by-four rail extended from the corner post of the bridge to a heavy post set in the ground at the corner of the bridge. The machine struck this heavy rail, which evidently went through the windshield, struck the driver's head, and he continued straight toward the edge of the bridge, breaking his neck and at the same time throwing him from the front seat toward the back, and as the car sank upon its side in the water, half a dozen or more heavy sample cases in the back seat of the car fell upon Christensen, pinning him beneath them.

Evidently Sackett, his companion, was thrown from the car into the water at the edge of the canal, after his hands had been badly lacerated, evidently by having them plucked through the glass of the windshield. Sackett stated that he held to the side of the car and felt around in the front of the car for the body of his companion, but was unable to locate him. He then started along the road for help.

On the road he met D. E. Ryan of Berger, who called to St. John Skinner, who lives nearby, to get a rope and hurry with him to the bridge, that a man was drowning in the canal. Skinner secured the rope and called to W. J. Conley, who lives across the road, to help them. Conley phoned to Twin Falls for aid and rushed to the bridge.

Some 15 minutes were spent in locating the body of Christensen. As soon as he all the sample cases were moved, his body could be seen plainly by the rescuers. His head and shoulders were clear of the cases, which were evidently moved and the body brought to the surface.

Physicians had arrived upon the scene and the pulmotor and other efforts were resorted to, but it was the opinion of the doctors that the man was almost instantly killed before he struck the water. Coroner Crosby, who was also summoned to the place, after hearing the testimony of the men present, declared that death evidently was accidental and that no investigation would be necessary. The body was brought down to the morgue and C. E. Lind went out later and brought the car to town.

Sackett's Companion Injured—Sackett was brought to town by one of the doctors who arrived shortly after the accident, and he was taken to his room in the Rogerson hotel, although it was soon seen that he was in a bad condition. His condition was not improved by the catastrophe and he was unable to give any clear account of his case. When brought from the car, both of his hands had been broken, his right hand being nearly cut through in places and the fingers of his left hand being badly lacerated by the glass of the windshield. He was given medical attention and a nurse took care of him throughout the night. A torn artery was tied up, but he would not allow any stitches taken. It was reported in the morning that he was much better and that his mind was becoming clearer.

Was Shoe Salesman

Christensen was a shoe man for the

Z. C. M. I. of Salt Lake and registered at the Rogerson Tuesday, having come in on the noon train. His company was notified and they replied that they would be glad to have him on the noon train today to take matters in charge, and that they would get word to his family, a wife and two children living in Salt Lake City. He has many friends in the southern territory.

Sackett travels for the Cudahy Packing Co., and registered in Monday at the farmhouse on Shoshone. The machine was owned by Christensen.

Marriage License—Licenses to wed were issued the past week to the following: W. A. Cornell and Lois Bush, both of Hollister; Neal McCole and Audrey Acrea of Twin Falls; Earl A. Beck, Strathmore, Alta, and Thelma Senior, Twin Falls; Thaddeus M. Patton and Marjorie Fleming, both of Twin Falls.

SIGN CONTRACT

(Continued from Page One)

juice to be furnished by the company.

New System Demonstrated

Under the old system, there were 57 cluster lights, 21 cluster lights, many of them throwing most light toward the sky than on the ground. In the new system the cluster lights will be retained and the balance will consist of 115 lights on uniform center spans. Samples of the new ultra-violet lights were displayed by the power company on the fourth of July and explained by the manager of the Falls Bank & Trust Co. and other business buildings on Main street.

Among the new locations of lights, especially important to the citizens of the town, are the ones to be installed at the Bickel school, the new Washington school, one near the Rock creek bridge at the southwest end of Main, one at the corner of Main and Shoshone street and one a half mile south at the Ostrander corner at the northwest end of Main, one on Gum avenue and four in the center of the alleys of the four blocks directly in the center of town, where Main and Shoshone cross.

Work Will Be Pushed

The installation of the new lights will be rushed as fast as possible, the contract setting November 15th for beginning operation under the new system. Manager E. B. King of the power company completed the exchange of the final papers with City Clerk R. M. Williams this morning and the city is now in a position to mail to Boise, where he will get in touch with the purchasing agent of the company tonight, so that the order for the supplies may go east with all due dispatch.

Before leaving, Mr. King stated that, in his opinion, Twin Falls would now be one of the best-lighted cities in the state. The city is now in a position that the lights were correctly installed, kept up in good shape and that in many ways it would have the new system of lighting. The contract for the new lights was let by Salt Lake City, decided bested.

The resolution empowering the signator of the check was passed unanimously, the mayor and members of the council, with the exception of R. E. Bobler, being present.

ANNOUNCE MOVE TO DEFEAT

(Continued from Page One)

senator down, and that a definite endorsement will be given those candidates who are in the judgment of the leaders, are sure of election and whose sentiments are known to be out and against county division. Also, a definite endorsement will be given to those in the judgment of the leaders, are sure of election and whose sentiments are known to be out and against county division. Also, a definite endorsement will be given to those in the judgment of the leaders, are sure of election and whose sentiments are known to be out and against county division.

Michigan Picnic—Extensive plans are being made for a picnic to be held in the city park August 15 by the former residents of Michigan. The picnic is being made to entertain a large crowd. The picnic will be held at 1 o'clock to enjoy an excellent program, which will occupy the early part of the afternoon, the remainder of the time being spent in visiting until 6 o'clock, when a bountiful picnic dinner will be spread.

Sorority Meets—Miss Veva Amos entertained the members of the Kappa Delta Sigma sorority at her home Saturday evening. A theatre party was given in the early part of the evening. The remainder of the evening's entertainment was in the nature of a kitchen shower in honor of Miss Grace, whose marriage to Paul G. Taber is being celebrated. Refreshments were served by the hosts at the close of the busy and most enjoyable evening.

For Miss Barker—A Kensington and Union shower was given at the home of Miss Carmen Cox Tuesday afternoon. The shower was given by Miss Barker. Delicious refreshments were served by the hostess at the close of the afternoon, which was given over to needwork.

EXPLAINS USE OF CHLORINE

(Continued from Page One)

struction, I submit the following facts. Frequent flushings have been given the system, without which the conditions might have been more serious. The fact that they were given with the hole in the screens, the flushings, while

other substances in the water supply, particularly during the summer months. When the city assumed the management of the system, it was impossible to drain the reservoir without cutting off the water from the city for an unknown period. Before any steps could be taken to cure the trouble, means of keeping up the supply of water had to be provided, and on Monday the 20th day of June, six weeks after the city assumed control, the council instructed the waterworks inspector to procure the necessary pipe to carry the supply around the reservoir to install the same, drain the reservoir, clean it thoroughly and to make such provision as would prevent a recurrence of the trouble. The inspector, after procuring of the pipe, digging the trenches, laying the pipe, draining the reservoir and cleaning consumed time, but the force of the water, under the force of means taken to expedite the work.

Screen Found Damaged

When the reservoir was drained it was found that the screen over the intake was punctured and otherwise damaged and required repair. This condition was remedied by installing a double screen system set in concrete, which will prevent any further entrance of foreign matter into our mains, and is soundly constructed for permanent showing. Photographs of the old screen and the hole through which fish gained entrance to the mains and the new structure, showing the double screen construction, were taken, and are submitted as a part of this report.

Cleaning the Reservoir

We have no records of when, if ever, the reservoir was last cleaned, but its condition indicated that it was in need of such treatment. The moss and silt were carefully gathered into piles and removed, and the reservoir placed in thoroughly satisfactory condition. The screen over the intake was repaired, showing the piles of moss and silt on the floor, and also showing the floor after cleaning, the screen was submitted as a part of this report. The reservoir is now in such condition, both as to cleanliness and safeguards against the entrance of foreign matter, that it is believed it will make it free from bona fide objection.

The Chlorination Plant

To insure the city against an epidemic of water-borne disease, the chlorine plant has been installed a thoroughly up-to-date and efficient chlorination plant, from which every drop of water entering the city is treated with chlorine gas. Before the purchase was made the chlorine gas method was carefully investigated, and the results were found to be generally accepted by water works experts, and adopted in the most progressive cities, as a safe, efficient and effective method of water purification. It was also found that it was practically impossible to get sufficient chlorine gas into the water, no matter how conscientiously it was used, cause the slightest unfavorable results, or even permit of its detection by the most delicate of chemical tests thirty minutes after the chlorine water was added. We are using an amount of chlorine gas per million gallons of water sufficient to insure the destruction of every germ that may be therein, and some cities are continuously using twice the amount we use, and more, per million gallons of water, without the slightest unfavorable results.

After the chlorination treatment the water has to come through the mains about two and one-half miles before it can be used, and the distance is covered every possibility of danger from the gas is eliminated.

Chlorine Changes in Form

The reason for this is that the action of chlorine gas upon the water is to form new chemical combinations with the salts it carries. It does not remain free in the water; if it did, it would be valueless. The process is not one of "poisoning" the germs, but of releasing any state of chlorine oxygen released by the chemical reaction. The salt which the chlorine forms in the water are common salts that are used on your table every day, and are entirely harmless in their nature, and so small in amount as to defy detection. The chlorine process is simply an increase in the presence in our water of any disease germs; as such it is invaluable to the water user. The gas is released from the water by a specialized, automatic and easily controlled apparatus, which does not require the services of an "expert" to set it to work. It is run to run, would only result in a waste of chlorine, without rendering the water harmful in the least degree. Any state of chlorine released by the chlorine process as used by the city are founded on ignorance, or willful and reckless disregard of the facts.

Flushing the System

Frequent flushings have been given the system, without which the conditions might have been more serious. The fact that they were given with the hole in the screens, the flushings, while

drawing out the water from the mains, simply served to draw in more foreign substances, probably without changing the situation materially. Because of the draft of water during the daytime, these flushings have had to be made at night, from midnight to 8 o'clock in the morning. The installation of the new screens makes flushings effective now, and the work will be continued until the system is thoroughly cleaned. The cleaning and repairs were completed on Thursday, August 3, and the quality of the water has shown immediate and pronounced improvement. The work required four months to remedy a condition which has existed for years, and to accomplish a permanent cure. We regret that the necessity existed, but confidently believe that all except a selected few will understand the situation. We would have preferred in this matter not to speak for ourselves, but we do not feel justified in permitting the water users to be disturbed without cause, nor further strain the jury done to our city. Respectfully submitted,

E. M. SWELEY, Mayor.

"WHAT ARE WE GOING TO DO?"

(Continued from Page One)

solidly and best prepared, and that it is likely to be one of the first at the front in the event of hostilities. The city will play an important part in whatever course may be pursued by the United States in relation to Mexico. It is a statement credited to Gen. T. H. Bliss, who, at this time, is in the city, that the inspection of the National Guard inspection now on the border.

The fact that construction work on the Hualahuilla dam is now being done on the Y. M. C. A. "hut" continues without interruption is cited as evidence that the Idaho regiment will be returned here for an indefinite period. The dining hall for the company is planned. Nio are now under construction. Work on the dining hall for Company D has been started.

Carry Fully Equipment

The country to be traversed by the Idaho regiment en route to Huachuca is mostly mountainous. The march will probably proceed at the rate of about 12 miles a day. Each man will probably carry his full field equipment, including blanket, "water" poncho, bed sack, canteen and haversack containing mess outfit, besides his rifle and sidearms, weighing in all about 60 pounds.

"Pup tents," made with the "shelter halves," each accommodating two men, will be pitched when the regiment goes into camp on the march. Special attention is being directed toward the care of the feet. Yesterday medical corps inspected the feet, shoes and socks of each man. The medical corps will provide shoes for each man as needed upon.

During the week those men whose first smallpox inoculation failed to take effect, received a second. Two-thirds of the regiment required the second vaccination. This inoculation, it is understood, will be administered in the morning. The vaccination is successful. For the first time, arms might hinder them in the march to Huachuca was the best-most frequently expressed as the men lined up for the inoculation in the hospital quarters for vaccination.

Afternoon Drill Continues

Afternoon drill has not been eliminated by the new program, which went into effect Monday. Beginning at 2 o'clock in the afternoon, one hour is spent in drill. The drill is of a slighting and aiming drills with the rifle and in squad drill. Two periods of squad drill, company drill and calisthenics are given. The interval of rest, occupy the forenoon from 1 o'clock until 11.

Preparatory to the "long hike" to Huachuca, the Idaho regiment was assembled this morning and afternoon about four miles. Similar marches, increasing in length each day, it is understood, are to be made by the regiment during the morning until the day of breaking camp.

Health Improving

Health of the men in camp is improving as they are becoming accustomed to the change in their manner of living. The medical corps is rendering splendid service, especially in the matter of enforcing sanitary regulations. Fly traps and "lanterns," obtainable for several days now, are rendering a fly pest to a minimum in those companies not yet provided with screened kitchens. Company D reported none sick today. Weather conditions are good, though not unpleasant. Showers fall frequently.

King Will Leave

James H. Barnes of Preston, Idaho, is the new first cook of Company D, succeeding Charles H. King, who is expected to receive his discharge soon. In order that he may properly care for his family, King has been cook for Company D for the past two years. In this capacity he has won signal recognition among army officers and others who have inspected his kitchen or dined at his mess.

Barnes enlisted in the company at Boise and is regarded as one of its most reliable members. He was a time a cook with the British army in East Africa during the Boer war, and his experience gained then stands him and the company in good stead now.

Cook Scott P. Stuart, formerly with Company D, has transferred to the medical corps, where he takes charge of its kitchen, opened this morning. E. Ritchie is his successor with Company D. Ritchie has transferred from Company D to the supply company.

Local Briefs

Gives Kensington.—Miss Beatrice Ostrander entertained a number of her friends on Wednesday afternoon at an enjoyable Kensington.

Entertain at Kensington.—Mrs. William Graham and daughter, Miss Edna, entertained 15 ladies at a delightful Kensington Friday afternoon from 2 to 5 o'clock.

Visit Stanley Basin.—Fred Ramsey and Dr. Harstad, accompanied by their families, left Sunday for a camping trip in the Stanley basin, near Red Fish lake.

Two Cars of Haynes.—Magel Bros. the Haynes representatives for Idaho, received one carload of machines Monday and another carload is expected before the end of the week.

Mrs. Oleson Entertains.—The members of the Excelsior club were pleasantly entertained by Mrs. Henry Oleson Monday afternoon at her country home, on Blue Lakes boulevard.

Service Representative Here.—On Thursday and Friday of last week Service Representative McGee with the Maxwell corporation was in Twin Falls, making the acquaintance of Maxwell owners.

Home From University.—Miss Jessie McMillan has returned from Berkeley, Cal., where she has been attending the state university for the past 14 months. Miss McMillan will teach in the public schools of Twin Falls the coming year.

A Theatre Party.—Mrs. A. R. Steele, who lives on Blue Lakes boulevard, entertained her friends in the community with a delightful theatre party at the Idaho Thursday. Refreshments were enjoyed at Herbst & Rambo's after the theatre.

Returns From Park.—Sheriff Frank Kendall and family and P. J. Pringle and family returned Sunday from a vacation trip through Yellowstone park, the former driving a Maxwell, and the latter a Volvo. They report no car troubles at all.

Returns to City.—J. F. Stranahan, an architect, formerly a resident of this city, has returned to Twin Falls, after several years' absence, to accept to reopen an office in this city. Mrs. Stranahan and the children will remain in their home in Washington for some time.

Outing at Hagerman.—A pleasant day's outing was enjoyed in a pretty picnic spot in Hagerman valley Sunday by the following parties: Mr. and Mrs. G. M. Simpson, Mr. and Mrs. D. R. Churchill, Mr. and Mrs. E. P. Dunlap and daughters Margaret and Harriett, Mr. and Mrs. J. M. Riley and daughter Genevieve, and Miss Hannah Scott of Davenport, Neb.

Here From Oakland.—Mrs. W. H. Barnes, for many years a resident of Twin Falls, but now living in Oakland, Cal., spent several days in the city the latter part of the week, renewing old acquaintances and looking after business affairs. Mrs. Barnes left Saturday for home, being joined at Pocatello by Mr. Barnes, who has been on an eastern trip.

Lawyer Home Again.—Attorney E.

Before school opens have me examine the children's eyes. Should glasses be necessary, have spectacles fitted.

W. R. PRIEBE

JEWELER-OPTICIAN

Bank & Trust Bldg, Twin Falls

My Life Study Has Been Optometry

I am a graduate of the Best School in the Country. When I prescribe Glasses for you, you get the benefit of 18 years' experience in this work.

DR. ROBERT A. PARROTT
115 Main Ave. East
Phone 219-J.

Ashton returned the latter part of the week from a two-weeks' visit with his brother, T. D. Ashton, who is farming about 10 miles east of Spokane. He reports a splendid trip and declares there is some beautiful country around Spokane. The brother is well known to Twin Falls people as he has visited here several times while he was connected with Shrieves, the Tiffany's, of San Francisco.

New Clerks at Courthouse.—William M. Hoover, brother of George W. Hoover, the real estate man, and Miss Jennie Walker are assisting with the extra work at the courthouse this month.

Enjoyable Social.—At the Scranton house, on Fourth avenue east, the Presbyterian Christian Endeavor society held a largely-attended and most enjoyable social Tuesday evening of this week.

Install a Parts Room.—During the past week Magel Bros., state agents for the Haynes motor car, have installed in their garage on Second avenue north, an up-to-date parts room, with several hundred boxes fitted up to take care of the parts for Haynes cars. The innovation will be a convenience to Haynes owners, as it will save the time now taken up in expressing parts from the factory. A caretaker will be installed to have complete charge of this branch of the Haynes business.

Mrs. Brose Entertains.—Mrs. Robert Brose entertained seven Twin Falls friends at her hospitable country home near Rock Creek. The guests, including Mrs. Albert Putzier, Mrs. Henry Oleson, Mrs. A. R. Steele, Mrs. A. Gilbert, Mrs. J. L. Busby, Mrs. F. E. Chamberlain and Mrs. C. Harder, motored to the Brose home in Mrs. Putzier's car and spent the entire day the guests of Mrs. Brose.

Leaves for Texas.—T. C. (Frog) Walters, center fielder for the Twin Falls baseball team, left last week for San Antonio, Texas, where he will visit with parents and friends. He will be there during one of the biggest of the Texas county fairs, held annually at San Antonio. Walters' place on the team is being filled by Bob Whitel, whose position at shortstop is being held down by Harold Dykes of Idaho Falls, who has been playing on the Logan, Nev., team. Dykes is a brother of J. A. Dykes of this city.

Jolly Bathing Party.—A jolly party of young people enjoyed a bathing party on a beach of the lower entrance to Devil's Corral Sunday. Picnic luncheon was served on the beach late in the afternoon. The party consisted of the following: Misses Veva Amos, Gladys Dwight, Lesley Williams, Beatrice Ostrander, Margaret Putnam and Alma Benoit; Messrs. Albert Putzier, Eugene Hart, Harry Benoit, Claude Mickelwait, Neil Schettler, Charles Des Rousseaux, Charles and Zach North, Truman Boyd and Sidney Graves.

Party for Miss Neer.—A delightful surprise was given Miss Florence Neer on Friday evening. While she was making a home for her friends, the members of the darkened porch of the Neer home. The lights were flashed on as she entered the porch, and the surprise was complete when she found the group of friends. The pleasant informal evening was closed with the serving of dainty refreshments. Mrs. Neer was assisted by Miss Genevieve, who was entertaining the guests, who were Misses Beth Hamilton and Jessie Warrington, Mrs. Weeks of Cuba, John Gourley, and Mr. and Mrs. DeWitt Young.

Off for Salt Lake.—On Sunday morning Mr. and Mrs. Henry Oleson and daughter, Miss Frances, and Miss Anna Scott of the Oleson family, and Mr. and Mrs. Albert Putzier in their car, leave Twin Falls for Salt Lake. They expect to stop at the Robert Brose home, near Rock Creek for breakfast, and at 6 o'clock, accompanied by Mr. and Mrs. Brose and son and daughter in the Brose car, will continue their drive, expecting to reach Salt Lake that night. The party plans to spend the week in Salt Lake and, returning, will bring the Putzier children, who are visiting with relatives in Iowa.

JOLLY SOCIAL IN NEARBY COMMUNITY

Forty young people of the Baptist church of Twin Falls motored to Knoll Friday evening, where they were royally entertained by the young people of the Baptist church at that place. A program, informal entertainment and various amusements made a full evening of pleasure, which was concluded with the serving of refreshments.

On the evening of the 29th the Baptist young people of Twin Falls will entertain the young people of Knoll at Odd Fellows' hall. The evening's entertainment will be in the nature of a musicale of an informal character. A jolly time is planned for and a big attendance anticipated.

Troops Carry Heavy Packs

Through the information given by Corporal Riley, it was learned the boys carry some 60 pounds with them upon the march. Corporal Riley was at one time stationed at Huachuca, had traveled over the line of march to be taken this week by the National Guard and had many interesting things to relate of the country. Much valuable as well as interesting information was given the women present and they were encouraged to proceed with all possible haste in sending the supplies. It was also suggested that a case or two of honey be sent in the very near future, as well as canned fruits, jellies, etc.

As he left the meeting, Corporal Riley said that he was a fortunate company in the kind of captain it has. Captain McRoberts is an exceptionally fine captain, not only as a

The Little Red Cross Nurse and The Jolly Pull-a-way Boys

have had their pictures taken—
such lovely pictures
that it really seems all little children
should be invited to see them.
So the pictures are, hanging in some
pretty windows—windows
little folks like to see—
The Bisbee Studio
of course!

AUXILIARY TO NATIONAL RED CROSS

(Continued from Page One)

Speaking of the work, the secretary, Mrs. Krengle, says:

"For years there has been no city of any size in the United States which has not had a Red Cross society. Since the horrors of the European war have brought to public notice the need of preparedness, and especially since the mobilization of the National Guard at the border, many cities and even small towns all over the country have formed Red Cross auxiliaries. Up to the present time Twin Falls has had no such organization."

Company D Association to Help. "The first definite work to be undertaken by this auxiliary will be the supplying of needed articles to Company D. Mayor Sweeley, president of the Company D association, has expressed himself as heartily in favor of this movement and has pledged the support of the association."

"Kits to contain various toilet articles are to be made in the near future and sent to Company D. During next week a barrel of canned fruit is to be sent, and later other boxes of fruit and jolly will be sent. Anyone who is willing to contribute is asked to bring the fruit to Hickler's Cash Store, where it will be packed. Fruit should be in quart jars. For health reasons, the boys have been ordered not to eat fresh fruit, so the canned fruit will certainly be welcome."

"Various hospital supplies will also be made and sent to headquarters at the border. The Red Cross has many classes in first aid may be formed. "It is not the purpose of this organization, however, to work only while the National Guard may need assistance. The work of the Red Cross is as useful in times of peace as in war. It is not necessary to wait until the National Guard is called into organization in other communities. It is hoped that in Twin Falls much may be done to bring about better sanitary conditions and to raise the standard of health, as well as to help in any emergency."

"An urgent appeal is now made for members. Membership may be obtained by payment of \$1. Funds so received will be used for relief work undertaken by the society. Anyone who desires to join is requested to notify one of the officers."

Lays Plans for Work
On Tuesday morning a second meeting was called at the home of the secretary, Mrs. Krengle, for the purpose of discussing the making of the kits. Cloth had previously been ordered by President Sweeley of the Company D association was examined and found to be satisfactory for the kits."

A report was also given by Mrs. McRoberts telling of the status of Company D. Mrs. McRoberts stated that she had just received a letter from her husband, Capt. P. W. McRoberts, of Company D, stating that the boys would be on strike camp at that place for ten days and would then return to Nogales, reaching the latter place about the first of September.

The question of the weight of supplies which each boy must carry was then discussed, and it became so vital that Corporal Riley of the regular army, who is in charge of the recruiting office in this city for the regular army, was invited by phone to speak to the women gathered, on the questions being discussed. He at once graciously agreed to do so, and upon his arrival at the meeting he was besieged with questions along the lines under discussion.

Troops Carry Heavy Packs

Through the information given by Corporal Riley, it was learned the boys carry some 60 pounds with them upon the march. Corporal Riley was at one time stationed at Huachuca, had traveled over the line of march to be taken this week by the National Guard and had many interesting things to relate of the country. Much valuable as well as interesting information was given the women present and they were encouraged to proceed with all possible haste in sending the supplies. It was also suggested that a case or two of honey be sent in the very near future, as well as canned fruits, jellies, etc.

As he left the meeting, Corporal Riley said that he was a fortunate company in the kind of captain it has. Captain McRoberts is an exceptionally fine captain, not only as a

man but as an officer. His previous experience is invaluable to his company. Many of the companies have officers who are absolutely inexperienced. Company D will profit in every way through the practical knowledge and experience of its captain. I know these things, because I have been through it all; I have been in the army for 20 years."

Another meeting of the newly-formed Red Cross society was called at the home of Mrs. Krengle Tuesday evening, after committees had visited Mayor Sweeley and had secured a place wherein the society might meet and work.

Will Meet to Sew

According to the plans made at that meeting, the making of the kits will begin Friday afternoon at 2 o'clock at the Parish hall. An effort was made to secure the name of every woman who has husband, son or brother with the National Guard at the border, that she might be given an opportunity to assist in making the kits. Fine sewing machines will be ready for use at the Parish hall, and while some are cutting the cloth for the kits and trims, threads, etc. As fast as the kits are finished, Mayor Sweeley will have them delivered to a harness shop, where heavy cord will be stitched on them for tying the kits, which will then be shipped to the boys as soon as all are finished. Every effort will be made to have the 100 kits shipped Monday evening. If they are not completed Friday afternoon, a second "sewing bee" will be held Saturday afternoon, and if necessary, the work will continue Sunday.

On Monday the kits will be filled with the articles which the Twin Falls people wish to give the boys. The kits will include two Turkish towels, two washcloths, a bar of Ivory soap, paper of toilet pins, pocket comb and package of gum. Small mirrors may also be added. The kit, when made, will be twelve inches wide, seven inches high, with a two-inch flap folding over envelope style. The kit is then stitched down at certain stated places, and is then packed in which the personal effects of the boys are placed. The kit is then laid on the blankets, rolled up in them and carried in the roll across the soldier's shoulder.

The kits which the Twin Falls women will make will be of cloth, heavy cloth, with a flap of which the boys' shelter tents are made, and will be both serviceable and convenient.

The work of the newly-organized Red Cross society are extremely gratified by the quick efforts of Mayor Sweeley and other officers and members of the Company D association to co-operate in this work. The financial part of the work, Company D association now has on hand some \$100, and it has generously offered to pay for the cloth of which the kits are made and for the supplies which are to be placed in the kits. It is estimated that the cloth will cost over \$80, the towels and washcloths \$35 to \$38, and, with the pins and other little articles, the total cost will be something like \$130 to \$140.

The intention of Company D association to secure such outfits for the boys, and they have expressed great relief and satisfaction over the organizing of the women for this work and the mutual benefit which may be derived by the co-operation of the Red Cross society and the Company D association along these lines.

NOBODY HURT WHEN KING 8 TURNS OVER

All safe and sound, but still unable to extricate themselves, was the unusual experience of a party of Hill City people, who turned completely over in a King Eight on the grade along Jarbidge canyon.

This is the second turnover which has happened in the canyon since the time of the accident the car was being driven by a Jarbidge man and carried a party of five, including three children. It was being driven very slowly, but veered off the grade when one of the children seized the steering wheel. The unusual part of the incident, that none was hurt, is laid to the fact that the free part of the machine became impaled upon a huge boulder, thus preventing the top from crushing in, but not high enough to allow the members of the party to crawl out without assistance from the outside.

WANTED—Strong young man for heavy warehouse work. Address Q. care News.

Sleeping Porches

Your doctor advocates them, Comfort indicates them, Health demands them, and we can provide them.

It isn't necessary to tear the house to pieces—there are ways and means for producing the desired effect that are very simple when you know how.

NARROWLY ESCAPE SERIOUS INJURY

FOUR MEN HAVE THRILLING EXPERIENCE ON FALLS GRADE

One Horse Crowds the Other—Team and Buggy Go Over Steep Embankment—Men Jump and Escape Injury

Four men, driving down the grade near Shoshone falls, Monday evening, experienced an accident that might have proved serious, but from which they escaped uninjured. They were in a single buggy, with K. P. Marquis of Eden driving. The names of the other three men were not learned, but two of them had just arrived in Twin Falls from Council Bluffs, Iowa, and were on their way to Eden, near where they expected to work.

As they were driving along the grade between the old barn which belonged to the hotel property and the ferry, the horse on the inner side crowded the other off the road, and buggy and horses started on a mad rush down the steep side of the embankment toward the rocks below. The men jumped at once, one lighting astride the tugs and extricating himself with difficulty from the line just in time to escape going down with the buggy. The horses were compelled to run, but when some distance down the embankment they freed themselves from the buggy and turned up toward the road. The buggy rolled on for some distance, and from the crashing, breaking sounds it was thought by onlookers that the vehicle was completely demolished. However, it was little damaged and the horses were caught before they had gone very far. The men brushed off the dirt from themselves and discovered that they had miraculously escaped injury.

The accident was witnessed by the big picnic party of business girls and the drivers of the trucks, who stood far below, with bated breath, awaiting the finish of the accident and expecting to run up and find four badly injured men. Finding four whole and uninjured men, however, the girls invited them to join the picnic party, which two of them did, while the others repaired the buggy.

The accident happened at the point where Robert Rogers was injured a few months ago, when his car backed off the grade and rolled over and over some 75 feet down the steep embankment.

ELEVENTH-HOUR MAN TO RUN FOR SHERIFF

Phil Herriman Announces His Readiness to Make Hard Race

The nomination of P. O. Herriman as a candidate for sheriff on the Republican ticket was a surprise and came as the result of the urging of a number of prominent local Republicans into Saturday. Mr. Herriman stated it had not been his intention to enter the lists as a candidate, but

P. O. HERRIMAN

was finally induced to permit his name to be filed, and his acceptance followed on Monday. Mr. Herriman made a splendid showing for the office two years ago against the present incumbent, being defeated only by a small number of votes.

He is well known throughout the county, both as a citizen and as a peace officer, having lived here seven years, four years of which he served as chief deputy under Sheriff Van Anden. He has had a wide and varied experience in work as a peace officer and is known throughout the southern part of the state for his careful and conscientious work in law enforcement.

Mr. Herriman's entrance into the race for the nomination for sheriff on the Republican ticket materially changes the situation and serves to increase interest in the campaign. Mr. Herriman's terse comment on the situation was that "if nominated and elected, I shall enforce the law, and in doing so I shall know neither friend nor favorite."

SPEND SUNDAY WITH THE FOLKS. They'll be glad to see you! Half fare excursions every Sunday; also low rates, Saturdays to Mondays. See O. S. L. agents for details.—Adv.

Councilman Smith introduced the following Resolution and Moved Its Passage:

WHEREAS, Block one hundred and fifty-four (154), Twin Falls Township, as the same is platted and made of record in the office of the County Recorder, is composed of the following lots, and "others" One (1) to Twelve (12), inclusive, and Seventeen (17) to Twenty-two (22), inclusive; and

WHEREAS, Lots One (1) to Ten (10), inclusive, front on Shoshone Street with an alley running and abutting upon the rear of said lots from Fifth Avenue South to Sixth Avenue South, thereby giving all of said lots means of ingress and egress from the alley so referred to; and

WHEREAS, The Twin Falls Milling and Elevator Company, a corporation, is the owner of all of the remaining lots in said block, being lots Eleven (11) and Twelve (12), and Seventeen (17) to Twenty-two (22), inclusive; and

WHEREAS, The said Elevator Company may have extensive and valuable improvements upon Lots Eleven (11), Twelve (12), Twenty-one (21) and Twenty-two (22), and expect to erect a storage and elevator building upon either Lots Seventeen (17), Eighteen (18), Nineteen (19), and Twenty (20), or some one or all of said lots at a cost of approximately \$30,000.00;

WHEREAS, The said Twin Falls Milling and Elevator Company is the owner of all of the lots on both sides of the alley, beginning at the northwest corner of Lot Eleven (11) and Seventeen (17) through to Second Street South, and

WHEREAS, It is necessary for the said Elevator Company to secure the vacation of said alley, and beginning at the northwest corner of Lot Eleven (11), thence at right angles to the alley line of Lots Eleven (11), and Twelve (12) across the alley as now platted, to the southwest corner of Lot Seventeen (17); thence following the alley line to the southeast corner of Lot Twenty-two (22); thence south-west along the west side of Second Street South to the northeast corner of Lot Twelve (12); thence along the lot line of lots Eleven (11) and twelve (12) to the place of beginning; and

WHEREAS, To enable the said Elevator Company to construct the building desired, and use the same beneficially and advantageously, the vacation of said alley as described is necessary, as the highest and best use of said building so to be constructed will be interfered with in case no vacation is granted or permitted; and

WHEREAS, No use or right of the public or of any individual will be interfered with or trespassed upon by reason of the proposed vacation of said alley, and no one will sustain or suffer damage of any kind or character by reason of the vacation of said alley, it is, therefore,

RESOLVED, by the Mayor and City Council of the City of Twin Falls, State of Idaho, That the portion of the alley running northwest and southeast through Block One Hundred and Fifty-four (154), heretofore de-

scribed, and beginning at the northwest corner of Lot Eleven (11), thence across said alley to the southwest corner of Lot Seventeen (17); thence southeast along the alley line to the southeast corner of Lot Twenty-two (22); thence southwest along Second Street South to the northeast corner of Lot Twelve (12); thence northwest along the alley and lot line to the place of beginning, be, and the same is hereby declared to be vacated, reserving, however, the right to construct, reconstruct, maintain and operate such sewer and water pipes and service as are now laid or as the City may hereafter deem necessary or expedient to lay, construct, maintain and operate upon, over and across said alley. Be it further

RESOLVED, That upon the passage of this resolution, all of the right, title and interest of the City of Twin Falls in and to said alley as vacated shall cease and determine, except the reservations heretofore made, and that the Mayor and City Clerk of said City shall make, execute and deliver a deed on behalf of said City to the Twin Falls Milling and Elevator Company of the property so vacated, said deed to recite, however, that such conveyance is subject to the reservations heretofore mentioned. Be it further

RESOLVED, That the vacation of said alley shall take effect and be in force from and after the passage of this resolution, there being an immediate necessity therefor.

Motion was seconded by Councilman Bracken, and being put to vote by the Mayor, each councilman voted as follows: Smith, aye; Bracken, aye; Bohler, aye; Parrott, aye.

Whereupon the Mayor declared the resolution duly passed and signed and approved the same.

E. M. SWEETLEY, Mayor.

How Motor Trucks Saved the American Army in Mexico

By HENRY FARRINGTON.

MOTOR trucks made possible the Punitive Expedition into Mexico. Without motor transport the United States military authorities would have been compelled to purchase many hundreds of additional four-mule army escort wagons and thousands of animals. There would also have been over a thousand extra mule drivers. The expense of purchasing and operating this equipment would have been simply enormous, and the mobility of the Expedition would have been seriously impaired.

It is practically a certainty that if motor trucks had not been available there would either have been no expedition into Mexico or the United States and Carranza would have been at war long before this. For it would have been necessary to seize the Mexican railroads in order to make any appreciable progress in the chase after the outlaw bands of the bandit Villa. And that would almost certainly have meant war.

TRUCK SUCCESS DUE TO BUSINESS MEN

America owes what success the Mexican Expedition has had to her progressive business men. In European countries, especially Germany, Austria, France, and Russia, it was due to the foresight of the military authorities that motor trucks were available when war broke out. This was brought about by the various systems of motor lorry subventions that obtain to a greater or less degree in practically all European countries. In the United States there is no subsidy for motor wagons. Hence, when the Washington government decided to go after Villa, the business demand for motor trucks had put the American motor truck manufacturers in a position to furnish on very short notice large quantities of motor trucks suitable to a greater or less degree for military transport work.

It must not be thought, however, that the military men themselves were at all backward. On the contrary, they did wonders with the niggardly funds placed at their disposal by the successive congresses at Washington for the purchase of military motor truck equipment.

MILITARY TRUCK TEST IN 1912

Although experiments with motor trucks were made by American army officers as far back as nine or ten years ago, the first serious experiment toward improving military road transportation was made in the summer of 1912, when a competitive test of various makes, types and capacities of motor trucks, loaned for the purpose by truck manufacturers, was made between Dubuque, Iowa, and Sparta, Wisconsin.

This experiment was not at all conclusive, except in two important particulars. It was shown beyond the shadow of a doubt that while the ordinary truck of commerce was a very efficient and economical machine for use on a fairly good road, it failed completely under army service conditions in the field when it was required to travel through hub-deep mud or sand and over steep grades and rough country. It was also proved to the satisfaction of the military officers that a motor truck having a load-carrying capacity of 11-2 to 2 tons was the most serviceable size for use under bad road conditions.

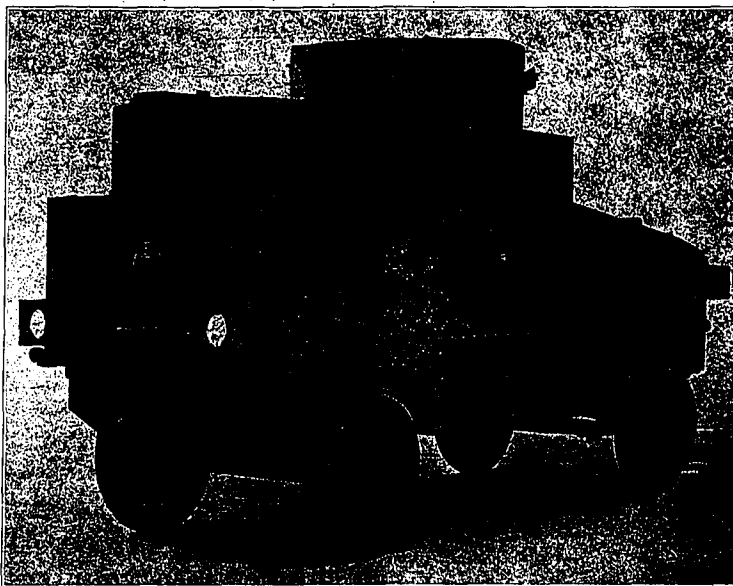

The test was very successful and unquestionably resulted in many improvements being made in motor truck design and manufacture within the following two or three years.

WHERE THE ALL-DRIVE TRUCK EXCELS

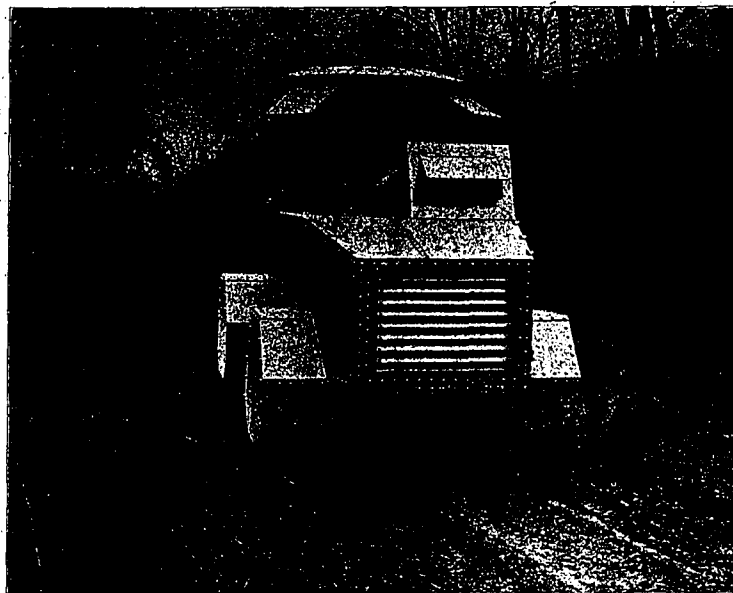

There are two distinct types of motor trucks available for military and commercial purposes. The first is the ordinary rear-drive truck of commerce. The other is the truck that drives, brakes and steers on all four wheels and which, in addition, possesses the remainder of the features referred to above. The latter type of truck is equal in every way to the rear-drive truck on good roads, and in addition is able to travel successfully under practically all kinds of bad road and weather conditions.

Hundreds of trucks of this type are operating successfully in commercial service in the United States and in 23 foreign countries. That such a truck has been proved successful and even indispensable in military operations is obvious. For in war an army may have to cross and recross roads and roadless country, rutted by hundreds or thousands of vehicles of all types, and possibly damaged by artillery

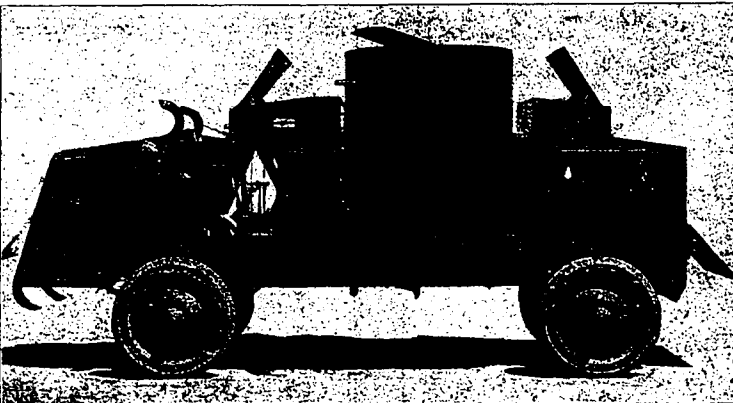

These monsters of the automobile world are today familiar sights along the Mexican border. Problems of transportation are no longer an uncertain quantity. Co-operation between War Department and manufacturers gives splendid results. Cuts used by courtesy of the Jeffery Motor Car Company, manufacturers.

This armored motor truck has two revolving gun turrets. The armor plating was designed and manufactured at the Rock Island arsenal.

The armor plating and fixed octagonal gun turret were designed and manufactured by the Bethlehem Steel company.

An armored motor truck with a revolving gun turret, equipped with outfit for barbed wire. This machine has provision for a driver at each end and can run with equal facility in either direction.

fire. Over territory of this kind it is only courting trouble to operate a rear-drive truck.

The United States Army has already over 200 of these trucks in service. They were first used on active service in the recent Expedition into the island republic of Haiti, W. I., which was a far more important military undertaking than most people imagine. It was completely overshadowed at the time by the greater war in Europe. As a matter of fact, in one battle in Haiti the American Expeditionary Force killed over 800 of the insurgents.

The roads in Haiti are as bad as any that can be found in this country, and this is a statement which is as strong as it is possible to make. The Haitian Expedition was served by a fleet of 15 motor trucks of the type that drives brakes and steers on all four wheels, and these were the only transport vehicles used. They proved themselves to be efficient substitutes for the once-famous four-mule escort wagons, and were called upon to do many things that the mule teams would have been totally unable to do.

TRUCK VINDICATES U. S. ARMY

In Mexico at the present time there are 172 of these remarkable machines operating from Columbus and other points on the Texas border to the furthestmost American army camps in Mexico. There are also a number of rear-drive trucks used in similar work, but in the deep mud and sand and up the 'Hairpin Turn' south of Casas Grandes, the all-drive trucks are called upon to tow the rear-drive machines. They are the only trucks sent out in bad weather when the torrential rains of Mexico turn the rutted trails into a veritable sea of mud.

They continue to operate through hub-deep mud and sand and over grades where no four-mule army escort wagon could carry the same load. Their tire and maintenance economy has been the subject of special report by newspaper and trade paper correspondents, and by the special representatives of tire and other accessory companies having service depots on the border. In other words, these machines, which were originally designed to meet the needs of a military motor truck, have entirely vindicated the judgment of the American Army officers.

There are no armored motor trucks being used in Mexico by the United States Army, although the Rock Island Arsenal and the Bethlehem Steel company have designed and built several types of armored bodies for the truck that drives, brakes and steers on all four wheels. The experience of the European armies and various experiments in this country tend to show that an armored motor truck has a very limited use in active service, being too heavy and cumbersome.

The early types of armored motor trucks were found to be vulnerable to the modern high-velocity rifle bullet and totally inadequate against artillery fire. Better steel and thicker material increased the resistance of the armor plate, but the additional weight made the armored cars practically unmanageable except under ideal conditions, and mechanical trouble was likely to develop in consequence of the inevitable overloading of the truck chassis.

A PROGRESSIVE NATIONAL GUARD

The New York State National Guard has evolved a lighter type of armor-plated truck which seems to be a big improvement over the turret types of motor land battleships. These machines are built on the open police patrol lines and carry on their sides a pair of I-beams that can be used as trackways over bad spots in the road and weak bridges or culverts. There is no protection from shrapnel or overhead fire of any kind, but the armor-plated sides afford excellent cover against direct rifle or machine gun fire.

Most of the motor trucks used by the United States military forces in Mexico are equipped with flareboard box bodies similar to those used on the regular army escort wagons. These trucks are employed in carrying provisions, camp supplies and ammunition to the base and temporary camps and to the troops in the field.

Besides these, there are a number of other interesting body types, including tank wagons for carrying gasoline, lubricants and water, trouble or repair trucks equipped with machinery and parts for effecting repairs in the field, and containing among other things an oxy-acetylene welding outfit and bench equipment, etc. There are also being developed army motor field kitchens, pontoon wagons and other special motor vehicles.

REPORT OF BUHL PIONEER COW-TESTING ASS'N

HONOR ROLL INCREASES DURING MONTH OF JULY

Young Grade Jersey Belonging to A. Carlson Leads, Producing 66.4 Pounds Butterfat

There were 422 cows milking in the association during the month, a decrease of 33 over the previous month. The honor roll, however, contains 62 names, this being an increase of six over the previous month.

The average production for the 422 cows for the month was 29.66 pounds butterfat. The herd honor roll has 13 herds this month, as against 11 for the month of June.

Two new members have been added to the association this month, they being David Rees and Carl D. Irwin, they filling in the vacancies caused by the disposal of the herds of C. H. Krieger and C. V. Biggs. This again brings the total number of herds up to 28.

As an example of persistency, mention should be made of "Ebony," a grade Jersey owned by A. Carlson. She freshened on October 5, 1915, produced 43.7 pounds butterfat for October and has produced over 40 pounds butterfat every month since, 10 months, including the month of July, during which she produced 45.6 pounds.

Gustav Kunze has installed a five single unit, mechanical milker, which is giving entire satisfaction. Assistance has been given several dairymen in the care of milk and cream during the hot summer weather.

Assistant has also been given in the organization of a retail dairymen's association at Twin Falls.

Following will be found a list of the list of the honor roll cows, their owners, breed, production, etc., and also the herds that made the requirements for the honor roll.

PROCEEDINGS OF THE BOARD OF COUNTY COMMISSIONERS

10 A. M. June 26th, 1916.
The Board of County Commissioners met at this time as a Board of Equalization as provided by law. Present: O. E. Carlson, chairman, T. E. Moore, D. P. Albee, and E. J. Finch, clerk.

Whereupon the following proceedings were had, to-wit:
The Board at this time proceeded to the examination of the assessment rolls until the hour of 5 p. m., when recess was taken until 10 a. m. June 27th, 1916.

O. E. CARLSON, Chairman.
Attest: E. J. FINCH, Clerk.

10 A. M. June 27th, 1916.
The Board of Equalization met at this time pursuant to recess. Present, all members and the clerk. Whereupon the following proceedings were had, to-wit:

The Board at this time proceeded to the further examination of the assessment rolls and recess was taken at 5 p. m. until 10 a. m. June 28th, 1916.

O. E. CARLSON, Chairman.
Attest: E. J. FINCH, Clerk.

10 A. M. June 28th, 1916.
The Board of Equalization met at this time pursuant to recess. Present, all members and the clerk. Whereupon the following proceedings were had, to-wit:

The Board proceeded to the further consideration of the assessment rolls. At this time C. F. Persons appeared before the Board and asked reduction on assessment on the Northwest Quarter of Section 25, and the Southwest Quarter of Section 25, T. 12 S., Range 15, stating that his reason for requesting said reduction was that experience had shown that dry farming could not be successfully engaged in each year, and this year he would suffer an entire loss of his crop. He further stated that while this land was not assessed any higher than the lands adjoining, it was his opinion that all the lands in what is known as "Deep Creek" should be reduced. The Board not being fully advised in the matter deferred action at this time.

Recess was then taken at 5 p. m. until 10 a. m. June 29th, 1916.

O. E. CARLSON, Chairman.
Attest: E. J. FINCH, Clerk.

June 29th, 1916.
The Board of Equalization met at this time pursuant to recess. Present, O. E. Carlson, chairman, T. E. Moore, D. P. Albee, and E. J. Finch, clerk.

Whereupon the following proceedings were had, to-wit:

The Board proceeded to the further consideration of the assessment rolls, and there being no protest against the present assessment, the Board adjourned at 5 p. m. until 10 a. m. June 30th, 1916.

O. E. CARLSON, Chairman.
Attest: E. J. FINCH, Clerk.

10 A. M. June 30th, 1916.
The Board of Equalization met at this time pursuant to recess. Present, all members and the clerk. Whereupon the following proceedings were had, to-wit:

The Board at this time proceeded to the further examination of the assessment rolls, until the hour of 5 p. m., when recess was taken until 10 a. m. July 1st, 1916.

O. E. CARLSON, Chairman.
Attest: E. J. FINCH, Clerk.

10 A. M. July 1st, 1916.
The Board met at this time pursuant to recess, as a Board of County Commissioners and as a Board of Equalization. Present, O. E. Carlson, chairman, T. E. Moore, D. P. Albee, and E. J. Finch, clerk.

Whereupon the following proceedings were had, to-wit:

The minutes of the previous meeting were read and approved. The Board then proceeded to the consideration of the claims against the Current Expense and Road Fund, and having completed the consideration ordered warrants drawn in the following amounts:

In the Matter of the Petition for the Organization of New School District No. 59.

This being the date set by the Board for hearing on the petition which had been regularly filed with the County Superintendent of Schools, and there being a number of parties at interest present, the Board listened to the remarks in favor and in opposition to the creation of said district, and it appearing to the Board that the petition was signed by the required number of parents or guardians living within the

proposed new school district, which is bounded and described as follows: Commencing at a point one-half mile north of the corner common to Sections 9-10-16 and 16 of Township Ten (10) South of Range Fourteen (14) E. N. M., and running thence west one-half mile (1-1/2) to the center of Section Eight (8), thence south one-half mile to the center of Section Twenty-one (21), thence east two (2) miles to the center of Section Twenty-eight (28), thence north one (1) mile to the center of Section Twenty-one (21), thence east one-half (1-1/2) mile to the section line between Sections Twenty-one (21) and Twenty-two (22) and thence north along said line to the point of beginning, all of said territory being in and a part of Township Ten (10) South of Range Fourteen (14) E. N. M.

The Board then proceeded to the further examination of the assessment rolls until the hour of 5 p. m., when recess was taken as a Board of Equalization until 10 a. m. July 6th, and as a Board of County Commissioners until 10 a. m. July 6th.

O. E. CARLSON, Chairman.

Attest: E. J. FINCH, Clerk.

10 A. M. July 3rd, 1916.

The Board met at this time pursuant to recess as a Board of Equalization. Present, all members and the clerk.

Whereupon the following proceedings were had, to-wit:

The Board continued the examination of the assessment rolls and adjourned at the hour of 6 p. m. until 10 a. m. July 5th, 1916.

The Board met at this time pursuant to recess as a Board of County Commissioners and as a Board of Equalization. Present, O. E. Carlson, chairman, T. E. Moore, D. P. Albee, and E. J. Finch, clerk.

Whereupon the following proceedings were had, to-wit:

The Board proceeded to the further examination of the assessment rolls and adjourned at the hour of 5 p. m. until 10 a. m. July 6th.

O. E. CARLSON, Chairman.

Attest: E. J. FINCH, Clerk.

REGULAR APRIL SESSION

10 A. M. July 6th, 1916.

The Board met at this time pursuant to recess as a Board of County Commissioners and as a Board of Equalization. Present, O. E. Carlson, chairman, T. E. Moore, D. P. Albee, and E. J. Finch, clerk.

Whereupon the following proceedings were had, to-wit:

The Board proceeded to the further examination of the assessment rolls and adjourned at the hour of 5 p. m. until 10 a. m. July 6th.

O. E. CARLSON, Chairman.

Attest: E. J. FINCH, Clerk.

The minutes of the previous meeting were read and approved. The Board then proceeded to the consideration of the claims against the Current Expense Fund and the Road Fund, said having completed such consideration ordered warrants drawn in the following amounts:

O. E. CARLSON, Chairman.

Attest: E. J. FINCH, Clerk.

July 8th, 1916.

The Board met at this time, pursuant to recess, as a Board of County Commissioners and as a Board of Equalization. Present, O. E. Carlson, chairman, T. E. Moore, D. P. Albee, and E. J. Finch, clerk.

Whereupon the following proceedings were had, to-wit:

In the Matter of Annexing School District No. 50 to School District No. 55:

10 A. M. July 10th, 1916.

The Board met at this time pursuant to report of the County Superintendent of Schools that School District No. 50 is lapsed, having failed for a period of more than one year to maintain school in said district, and upon her suggestion, the Board being fully advised, authorized that the territory embraced in School District No. 50 be attached to School District No. 55.

The Board proceeded as a Board of Equalization to the consideration of the assessment rolls; adjournment was taken at 5 p. m. until 10 a. m. July 10th, as a Board of Equalization and as a Board of County Commissioners.

O. E. CARLSON, Chairman.

Attest: E. J. FINCH, Clerk.

10 A. M. July 10th, 1916.

The Board met at this time pursuant to recess as a Board of Equalization and as a Board of County Commissioners. Present, all members and the clerk.

Whereupon the following proceedings were had, to-wit:

The Board proceeded to the examination of the assessment rolls until the hour of 12 m., when recess was taken until 2:30 p. m.

2:30 P. M. July 10th, 1916.

The Board met at this time pursuant to recess as a Board of Equalization and as a Board of County Commissioners. Present, all members and the clerk.

Whereupon the following proceedings were had, to-wit:

In the Matter of Awarding the Contract for the Construction of Twin Falls County Hospital:

In this matter the Board, having caused a notice to be published in the Twin Falls Times, calling for sealed bids for the construction of a County Hospital, in accordance with plans drawn by E. H. Gates, architect, located on Block 7 and 7 Holladay, Addition to Twin Falls, and such bids having been opened on the 6th inst., and action at that time having been deferred, said bid being considered the lowest and best bid.

In the Matter of Awarding the Contract for the Plumbing in the Twin Falls County Hospital:

In this matter it appearing that an error had occurred in the joint submitting bids to one of the bidders, and it further appearing to the Board that the plans and specifications for the heating plant were not completed in time to permit bids being submitted, the Board being fully advised rejected all bids and ordered that sealed bids be called for to include the plumbing and heating, as soon as the plans and specifications for heating plant were on file.

There being no further business to come before the Board, recess was taken as a Board of Equalization until 10 a. m. July 11th, and as a Board of County Commissioners, adjournment was taken this day.

O. E. CARLSON, Chairman.

Attest: E. J. FINCH, Clerk.

REGULAR JULY SESSION

July 11th, 1916.

The Board met at this time in regular quarterly session as provided by law, and as a Board of Equalization. Present, O. E. Carlson, chairman, T. E. Moore, D. P. Albee, and E. J. Finch, clerk.

Whereupon the following proceedings were had, to-wit:

The minutes of the previous meeting were read and approved. The Board then proceeded to the consideration of the claims against the Current Expense Fund and the Road Fund, said having completed such consideration ordered warrants drawn in the following amounts:

DREAD DISEASE IS SPREADING THROUGH WEST

CASES OF INFANTILE PARALYSIS IN MONTANA AND CALIFORNIA

City Sanitary Commissioner W. F. Porter issues Description of Symptoms and Directions to Parents

That poliomyelitis (infantile paralysis), the dread disease which has been taking such heavy toll along the Atlantic seaboard the past month, has already found its way into the western states, several cases being reported in Montana and a number in California, was the statement made yesterday by City Sanitary Commissioner W. F. Porter.

Although he does not anticipate that the epidemic will ever reach Twin Falls, nevertheless its rapid spread wherever it has gotten a foothold makes advisable the issuance of the following description of symptoms, and directions to parents.

Symptoms Described

Poliomyelitis is a disease of the spinal cord or its extension into the brain. It is manifested by fever, sometimes convulsions, digestive disturbances, vomiting and diarrhea, and followed by a weakness or paralysis of one or more groups of muscles, usually of the arms and legs. Thus are some of the symptoms resembling acute meningitis, including rigidity of the neck. There may be difficulty in swallowing. Pain and soreness along the spine and the affected muscles are frequently present. The onset may be very sudden or gradual. Infants and young children are most often affected; older children and adults less frequently so.

The disease is caused by one of the smallest organisms known. It can not be detected with the ordinary microscope. However, when these organisms are grouped together, the mass may be clearly seen.

Easily Spread

The disease is contracted by a person susceptible to it receiving from the nose and throat infected discharges from the nose, throat, bowels of persons ill with the disease, convalescent from it, or who are healthy "carriers" of disease germs by direct contact or through the intermediary of fingers, household utensils, handkerchiefs, towels and possibly household pets and flies.

When the organism has once gained access to the nose or mouth, it grows rapidly and soon invades the brain or spinal cord through the passages in the upper part of the nasal cavity. The walls of the blood vessels supplying the nerve cells are invaded, their caliber constricted and the blood supply of the nerve cells partially or wholly cut off, resulting in the degeneration of the nerve cells and the corresponding nerves, together with paralysis of the muscles through which the nerves are distributed.

The infective agent is quite resistant to carbolic acid, which is therefore of little or no use in disinfection.

Directions to Parents and Caretakers

1. When the symptoms above described appear in a person of your household summon a physician immediately. Keep other members of the family away from the affected person.
2. Protect your family by sending the patient to a hospital or the family physician approves this course. If hospital accommodations are not available, the patient must be isolated at home, at your physician and the health officer will direct.
3. If the child is attending school, you should notify the principal of the school. If the child has recently been to Sunday school, notify the Sunday school teacher, so that he or she can inform the parents of other children that they may have been exposed. If the patient is employed, the employer should be informed.

Complete Isolation

4. Complete isolation of the patient for six weeks must be maintained, and those who have been in contact with the patient must be isolated and under observation for two weeks.
5. The proper disposal of the discharges from the nose and throat, not only of the patient but of all in isolation, if the greatest importance in preventing the spread of the disease. Pieces of cloth should be provided in abundance to receive all such discharges. The cloths after using should be placed in a paper bag and subsequently burned. Treatment with carbolic acid is not effective. Excreta from the bowels must also be treated with boiling water for 15 minutes before being deposited in a privy vault. The hands of attendants must be frequently washed with soap and water and thoroughly rinsed.

6. It is often difficult to keep children in isolation, unless something is available to occupy their minds. A pamphlet on the subject, "Amusements for Convalescent Children," may be obtained from the state department of health upon receipt of a 2-cent stamp.

7. Physicians and health officers are required by law to perform certain duties. In the interest of public health, parents should give every possible assistance and not cherish ill feelings toward them on account of the inconvenience and discomfort which may be caused by quarantine measures.

Cure for Cholera Morbus

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Sidney Simms, of Haven, N. Y. "Since then other members of my family have used this reliable medicine for colic and bowels troubles, with good satisfaction, and I gladly endorse it as a remedy of unquestionable value."

This is our Clearance Time in our Women's Ready-to-Wear Section. Come.

BIG SEED PLANT NOW READY FOR SEASON'S CROPS

COURTEEN SEED COM- PANY OPENS FOR BUSINESS

Milwaukee Firm Has Splendidly-
Equipped Branch—Four Big
Cleaners—Efficiency
Emphasized

Electrically equipped through-
out, with the newest and most
modern devices for caring for
clover seeds with the greatest
possible efficiency, the new
Twin Falls plant of the Cour-
teen Seed company is rapidly
nearing completion, and marks
a new era in the seed-growing
industry in the Twin Falls dis-
trict. Except for a portion of
the hardwood flooring on the
main floor, and clearing away
of the odds and ends left by the
carpenters, the new plant was
practically complete on Satur-
day and is now ready to clean
the first alfalfa and white clover
crops, which will be soon com-
ing in.

The new building is 65x100 feet,
one story and basement, with a clean-
ing tower 35x20 feet, three elevators
in which are already installed
four of the largest Clipper cleaners.
These cleaners are all driven by elec-
tric motors, clean with the smallest
possible percentage of waste, and in
a rush could clean several carloads of
seed per day. The tower also contains
the elevating machinery and a com-
plicated assortment of cleaning and
sacking bins, together with a complete
system of spouting that takes care of
the clean seed and the screenings just
as they come from the cleaning ma-
chines.

Efficiency emphasized
Everything about the new plant
tends toward the one idea of obtaining
the highest possible yield from the
time the seed is received from the
grower, at the south side of the build-
ing, and emptied into the elevator leg,
until it is cleaned, sacked and ready to
go into cars, on the north side of the
building, all that is necessary to be
done is to manipulate the directing
levers and the power.

Established in 1912 by S. G. Cour-
teen, this old Milwaukee business
house, operated for 21 years under
that name, until in 1913 the Courteen
Seed company was incorporated under
the laws of the state of Wisconsin,
with a capitalization of a quarter of
a million dollars, and a completely
equipped, 10-story, reinforced concrete
warehouse and seed-cleaning plant
was erected at Milwaukee.

The erection of the Twin Falls
branch has been under the personal
direction of F. W. Kellogg, vice-pres-
ident of the company, but as his work
is nearly finished he expects to return
to Milwaukee soon, and W. A. Lohr,
local manager, will assume complete
charge. Mr. Lohr has had considerable
experience in the eastern and western
business of the company and should
have little difficulty in making the
firm here to the complete satisfaction
of both the company and its custom-
ers.

Indiana Banks First

In an interview Saturday several in-
teresting facts were given out by Mr.
Kellogg with regard to the seed busi-
ness of the country. He ranks the
greatest clover-producing states in the
following order of their importance:
Indiana, Ohio, Wisconsin, Michigan
and Illinois. He believes Idaho will
take an important place among the
great clover-producing states, but
deems it somewhat early to say just
where it will rank. Clover and alfalfa
seeds are produced in many of the
countries of the world, but the trade
is governed entirely by the law of
supply and demand. Mr. Kellogg men-
tioned a shipment of alfalfa seed com-
prising several hundred tons received
by his company from Russia last sea-
son.

Italy and France produced abundant
crops of red clover last year, about
250,000 bags coming to America from
those countries last winter and this
spring. When this seed began to come
in at the Atlantic seaboard almost by
the shipload, the market began to
decline and did not stop until seed sold
in eastern markets this spring for
three to four dollars per bushel less
than some of the Twin Falls growers
received for their crop of red clover
last fall. As to the prices to prevail
this fall, neither Mr. Kellogg or Mr.
Lohr were able to make any definite
statement, owing to the strong proba-
bility of good crops throughout the
eastern states. With regard to Can-
ada, Mr. Kellogg stated that Eastern
Canada is one of the best-producing
sections for alfalfa in the world.

Liver Trouble.

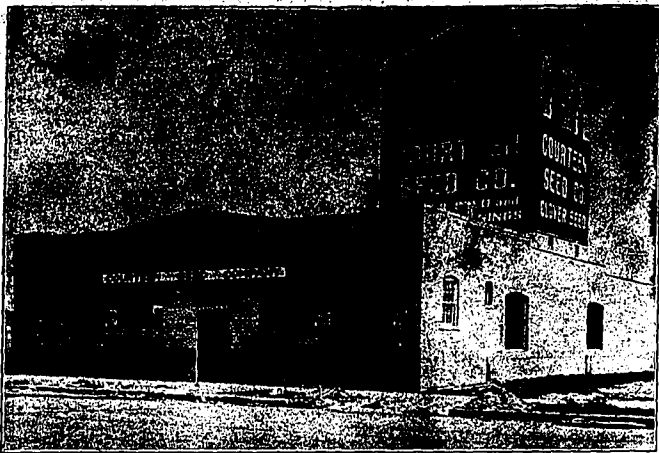

"I am bothered with liver trouble
about twice a year," writes Joe Ding-
man, Webster, City, Iowa. "I have
pains in my side and back, and a
awful soreness in my stomach. I
heard of Chamberlain's Tablets and
tried them. By the time I had used
half a bottle of them I was feeling
fine and had no signs of pain." Ob-
tainable everywhere.—Adv.

Substantial brick structure, just erected, to help take care of the seed business of the Twin Falls Country

TO HOLD SPECIAL EXAMINATIONS HERE

Idaho State Board of Examiners in
Optometry Will Be in Twin Falls
August 17-18

Plans are being made by the Idaho
state board of examiners in optometry
to hold a special examination here
August 17-18.

The board is holding this meeting
with a two-fold purpose. First, to ac-
commodate some applicants in this
section of the state; and second, to
become better acquainted with the
members of the profession in the Twin
Falls country.

Drs. Parrott, Evans and Allen will
act as a committee on arrangements,
and all optometrists in this part of the
state are invited to be present. The
officers of the state association are:
President, W. W. Scott; vice-president,
M. D. Fleming; secretary, E. S. Owen.

PROGRAM FOR BAND CONCERT TONIGHT

Following is the program for the
regular weekly band concert tonight:
1. March, "Robinson's Grand En-
tree" King

2. Overture, "Bride's Rose" Lavallo
3. Intermezzo, "La Pepita" Tobani
4. Patrol, "American" Meschem
5. Waltz, "Visions of the Past" Rollick
6. Song Hits of 1916 Remick
7. Tone Poem, "Apple Blossoms" Roberts
8. March Song, "Little Grey Mother" Cobb
9. March, "Stars and Stripes For-
ever" Sousa
10. "Star-Spangled Banner"

WAR BONNET ROUND-UP

Idaho Falls, Idaho, Sept. 4-5-6-7-8,
1916

Thousands of cowboys, cowgirls, In-
dians, high-diving horses and hun-
dreds of other attractions will be
seen. Biggest of its kind in the world,
and it belongs to Idaho.—Adv.

14, via "Wylie Way." See O. S.
L. agents for details and folders.—Adv.

ELECTRIC RAILWAY THROUGH BRUNEAU

Idaho Capitalists Would Connect the
BrunEAU and Grand View Valley,
With Capital City

At a largely-attended mass meet-
ing called to meet last Thursday
evening at the Idle Time theater, says
the Owyhee Nugget, the people of
BrunEAU and the valley were enlight-
ened as to the proposals and pur-
poses of the Boise delegation, headed
by W. E. Pierce, and which included
Messrs. Shaw, Hodgins, Franklin and
Miller, the latter of the well-known
brokerage house of Kansas City, en-
trusted with the task of floating the
big bond issue for the Wickahonee
Land & Irrigation company. These
gentlemen each addressed the audi-
ence upon the projected electric rail-
way line from Boise into the BrunEAU
and Grand View valleys.

M. E. Remick, as chairman, called
the meeting to order and introduced
the speakers, from whose remarks it
was learned that Mr. Pierce and as-
sociates sought nothing asked noth-
ing but the good will and co-opera-
tion of the people of BrunEAU and
Grand View valleys, these to find
expression by active support of the
project in the matter of procuring
concessions for right-of-way, depot
sites and yards. A cash outlay of ap-
proximately \$250,000 to \$350,000 will be
necessary, showing from surveys the
route, sources of revenues, estimates
of cost of construction and equip-
ment, etc., before the proposition can
be intelligently submitted in concise
form to the state, where the bonds
will be placed and money obtained.

Emphasis was given the declaration
that in no event would the Oregon
Short Line be permitted to exercise
its influence, now or in future, upon
the activities of the promoters or to
ever acquire control or interest in
the property. But it was definitely
forehadowed that the Western Pa-
cific, now reorganized and freed of
the receivership for some time di-
recting it would likely become the
dominant factor ultimately in the
line's future further extension and
development.

SETTLERS WILL MANAGE CANAL

Farmers on Minidoka Tract Vote to
Take Over Project—Uncle Sam
In the Background

Tuesday, August 1, was a quiet day
at Rupert, says the Pioneer Record.
Farmers betook themselves quietly to
the polls, where four to one cast their
ballots in favor of taking over the
project. A total of 672 votes was cast.
The matter of taking over the project
had been thoroughly threshed out
before election and was thoroughly
understood by the voters. Through
the results of the election, settlers on
the Minidoka partly unit will take
charge of the project on January 1,
1917. They will control operation and
maintenance, with Uncle Sam stand-
ing in the background watching to see
that everything goes smoothly and to
the benefit of both the settlers and
the government.

THE SHAMROCK CLUB

The Shamrock club met for a so-
cial session last Thursday afternoon
at the home of Mrs. J. P. Cordes. An
excellent program, consisting of music
and readings, was rendered, and at
the close of the pleasant afternoon
the hostess served tea and cake. The
club will meet with Mrs. J. S.
Dallas on August 17.

Lake City.

Tell The Truth and Shame The Devil

The Facts About the Defunct Marnon Music House

The stock of the Marnon Music House, which has supposedly been taken over by the Eilers Music Co., never was the property of the unfortunate Marnon. He was handling pianos on consignment from the house which is now in charge.

At the time of Marnon's departure there were on the floor only a very few pianos, but since then there has been a carload placed on the floor to be offered to the public at a "Sacrifice" price as Marnon's stock.

Moral---Why Sacrifice So Much?

PIANO PRICES SLAUGHTERED

The Middle Man's and Consignee's
Profits Clipped Off

Throughout America "this brand," this delusive snare to beguile the unwary only to mock them, has awakened a determination among honorable business men to stamp out the pest and protect a business which aims at lofty ideals from onslaughts that are perpetrated by fake advertising.

The ammunition in this defensive battle is publicity and education.

This delusive advertising is only a bait to attract; ridiculous in its claim, but persuasive in its insinuation. It implies that pianos have a fictitious, inflated value that is quickly condensed when somebody is "overloaded," "selling out," "reducing stock," or any other name that can be distorted into an excuse for the conspiracy against the prospective purchaser.

The "ad" is read; it often attracts and the victim appears with the bait in his mouth. Does he find the wonderful bargains he expects?

No! He's in! That's enough. The bait has worked. Now, all hands on deck to land him. Sometimes the victim becomes suspicious, asks questions—pointed questions; the net begins to tear—the victim has dared (?) to exercise his prerogative of "I want to know," and escapes.

It costs money to tell this story, but our reputation has been built by twenty years of struggle to conduct a piano business free from the taint of anything that suggests questionable methods; there's not an inflated value in our store; nor has there ever been one. We sell new pianos at \$275, and tell you why. We sell them at \$200, and tell you why. And we also endeavor to explain why one piano costs more than another.

We resent any but honorable competition; we resent any "delusive advertising" or "devices" to delude the piano purchaser; and we have the moral courage to say so.
