

ELECTIONS CLOSE IN TWIN FALLS COUNTY

THIS YEAR'S CONTEST FEATURED WITH UNUSUAL INTEREST

Swedish Mission Fine Race for Attorney Generalship—Returns Are Close

State and County Tickets

Unusual interest and close contests in many offices characterized the primary election in Twin Falls county this year. Candidates for state senator and representatives occupied the middle ring in the political circus, and in the many ups and downs experienced during the evening, shown as the returns were counted from a few precincts at a time, several of the candidates performed real acrobatic stunts.

The contest between S. P. Atherton and Arthur J. Swenson for attorney generalship was especially close, and for some time J. H. Barker, divisional candidate, and Mr. Atherton, state and county tickets, were the only ones in the race. With the defeat of Barker, a number of the bulk voters announced that they would attempt to run J. W. Davis for state senator, and the contest between Atherton, Republican candidate, and W. P. Allworth, the Democratic candidate, was the only one in the race.

Swedish Mission Fine Race for Attorney Generalship—Returns Are Close

The contest between S. P. Atherton and Arthur J. Swenson for attorney generalship was especially close, and for some time J. H. Barker, divisional candidate, and Mr. Atherton, state and county tickets, were the only ones in the race. With the defeat of Barker, a number of the bulk voters announced that they would attempt to run J. W. Davis for state senator, and the contest between Atherton, Republican candidate, and W. P. Allworth, the Democratic candidate, was the only one in the race.

An especially good showing was made by M. J. Swenson in the contest for attorney general. He was elected by a vote of 100 to 80. The number of votes received by any other candidate for that office. This status was maintained throughout the state. Sunderland of Burley, supposed to be one of his strongest opponents for the race, was defeated in the race. The contest between Miss Redfield and Miss Bryden was close throughout and went to the close of the race. The contest between Mr. Dunn and Mr. Rice was also close. Dunn led, with Rice second and Sullivan third.

In the county a number of close and interesting races were run. For representative, Miskell came in first, Nilsen second and Norman third. Three candidates contested on the Republican ticket for commissioner in the Second district, and E. B. Williams was elected.

Good weather prevailed during the day and evening were unusually favorable, as a result of which a goodly number of voters came to the polls. This being a busy season for farmers, however, the number coming into town to cast their votes was not as large as in previous years.

The work of counting the votes was laborious, and in two or three of the city precincts it was not completed until 2 o'clock in the morning. The election, as a whole, was conducted in a satisfactory manner and the fair.

Queen Esther Circle Meets—The September meeting of the Queen Esther Circle was held Tuesday at the home of Miss Helen Strock, on Third avenue east. After the business session an interesting paper was given by Marjorie Black, discussing the work of home missions.

Delicious refreshments were served by the Misses Alice Brown, Gladys Noble and Ethel Stephens. The close of the pleasant afternoon. Present were: Misses Vera Pickett, Fern Peterson, Mary Henry, Lulu Bigger and Marjorie Black. The affair was also in the nature of a social farewell for Miss Gladys Noble, who leaves soon to make her home in Nampa.

PROMINENT YOUNG PEOPLE WEDDED

Miss Grace Barker Becomes Bride of Paul R. Taber in Quiet Wedding

A pretty home wedding of much interest to many Twin Falls people was that which took place at 4 o'clock yesterday afternoon at the home of Mr. and Mrs. H. W. Barker. The bride was Miss Grace Barker, daughter of Mr. and Mrs. H. W. Barker, and the groom was Paul R. Taber, son of Mr. and Mrs. George C. Taber. The words of the ring ceremony were spoken by the Rev. J. F. Shepherd in the presence of only the Barker and Taber families and Miss Fannie Hart and Carmen Cox, intimate friends of the bride. The home was attractively decorated in autumn flowers. The bride was charming in a beautiful and becoming dress of pussy willow tulle and Georgette crepe and carried a shower bouquet.

After the ceremony a delicious three-course luncheon was served and the bride and groom were in dainty pink and white, with a pretty centerpiece, consisting of a large basket of pink and white sweet peas and ribbon. Mr. and Mrs. Taber motored to Kimberly, where they spent the train for Salt Lake to spend their honeymoon.

Both are well known in the community and have a large circle of friends. Mr. Taber graduated from the Twin Falls high school in 1911 and Mr. Taber in 1912. The former is with the Twin Falls Title Abstract company.

After October 1, Mr. and Mrs. Taber will be at home to their many friends at their new home on Ninth avenue east.

MASONIC HOSTS COMING

On Tuesday of next week the Grand Lodge, A. F. and M., will hold its annual convention at the Twin Falls hotel. The convention will be held on Tuesday, Wednesday and Thursday, and a welcome is extended to all Masons.

JUDGE BABCOCK GIVES DECISION IN HOSPITAL CASE

APPEAL AGAINST BUILDING OF COUNTY HOSPITAL IS HEARD

County Commissioners Expect to Continue Plans for Erection of Modern Structure—To Make Extra Levy

After hearing testimony from both sides on Monday and again on Wednesday, Judge W. A. Babcock rendered his decision in the case of the county hospital. In substance his decision was that the county commissioners have not abused their discretion in deciding to construct a county hospital. That there is a necessity existing here for the building of a hospital to care for their indigent sick and poor, and that the expense is not too great for the building to erect such a hospital.

The building planned is to cost some \$25,000, but it is now in the general fund only about \$14,000. Thus, according to Judge Babcock's ruling and interpretation of the law, the commissioners would be within their rights in constructing a building to cost not over the amount now on hand.

However, the law allows county commissioners to levy a tax for the construction of such buildings necessary for the use of the public, and holding to this opinion, the commissioners expect to make the levy next week. In the meantime they expect to continue their arrangements for the erection of the large county hospital originally planned for.

Nebraska Quizzes—W. C. Homhold of Cambridge, Neb., was a guest at the home of Mr. Simpson a few days the first of the week. Mr. Homhold owns some good farming land near Cartersburg.

EARLY MORNING ACCIDENT HAS GRAVE RESULTS

W. S. HARRISON HAS TWO RIBS BROKEN WHEN CAR TURNS OVER

Dog Impedes Fast-Speeding Ford—Miraculous Escape of Young Men In Hospital

Driving up Shoshone street at a fair clip, early this morning, W. S. Harrison, a rancher living five miles south of town, his sons, William and Richard, and little nephew, Charles Brown, were plowed beneath the body of their car when the machine, a Ford, struck a dog and turned completely over.

The older gentleman, a man of nearly 70 years, suffered two broken ribs and a badly lacerated face, while the younger members of the party miraculously escaped with a few bruises. None of them was able to extricate themselves until the arrival of several bystanders, who happened to be on the street.

Mr. Harrison was rushed to the White Cross hospital and at last report was resting easily. The car was somewhat badly damaged, but the dog was apparently unharmed, as he made his getaway during the excitement and when last seen was streaking it for parts unknown.

Dr. Henderson leaves—Dr. L. C. Henderson, who has been working here for some time with Dr. W. A. Sullivan in stamping out hog cholera, has gone to Idaho Falls, where he will take charge of the work there carried on by the government bureau of animal industry. Through the efficient work of Dr. Sullivan and Henderson, the hog cholera in this district is under complete control and is practically stamped out. Dr. Sullivan will remain in charge of the Twin Falls division.

DR. BAUGH WILL ERECT \$27,000 OFFICE BUILDING

CONTRACT IS AWARDED SATURDAY IN BOISE TO E. WHITE

New Structure Will Be Built Entirely of Boise Sandstone—Excavating Work Will Begin Early Next Week

Following an all-day session with his architects, Wayland & Fennell, in Boise, last Friday, Dr. W. H. Baugh, the Shoshone physician who has been the owner for the past 11 years of the northeast corner lot at Main and Shoshone streets, gave the contract for a \$27,000 store and office building to Ernest White of this city. Excavation work will begin early next week, and construction will be rushed in order to complete the structure by the first of the year.

With the water base composed entirely of Boise gray sandstone, identical with that used in the construction of the state capitol, the new building will undoubtedly present a handsome appearance and cover the most prominent void on Main street. It will be two stories in height, with steel skeleton construction and first-story columns.

Hardwood Finishings

On the first floor there will be one large room, with a roomy entrance on both Main and Shoshone streets, and three smaller offices facing Shoshone street. A large stairway will be nine large offices. The stairway will be located about half way the length of the building, facing on Shoshone street. The stairway lobby will have a tiled floor and marble stairs will lead both to the second floor and the basement. The interior finishings throughout will be of hardwood.

Two rooms in the new building are already rented, the big front storeroom to Steele-Wiley and one of the first floor offices to J. B. Reed, who will have charge of the renting.

Special care is to be taken in the basement, facing on Shoshone street, to make the full length of the building and will extend under both the sidewalk and the street, and will be lighted.

In order to rush the work through, Mr. Baugh has ordered the construction of the building to be completed by the first of the year. The building will be finished by the first of the year.

Dr. Baugh purchased the lot from the Twin Falls Traction company in 1905, the price paid for it was \$1000, and its value has since risen to \$25,000, its estimated value.

EIGHTH AVENUE WILL BE PAVED

CITY COUNCIL PASSES DECLARATION ORDINANCE FOR DISTRICT

No Opposition to the Petition—Cost Estimated at \$18,500 for Paving and Covering of the Lateral

No opposition being raised to the petition of the property owners along Eighth avenue for the creation of a paving district, the city council at its regular meeting Monday night passed unanimously a declaration ordinance authorizing the paving of the street between the Eighth avenue ditch, October 2 being set for hearing protests to the city council at 2 o'clock. The meeting was called to order, with Mayor Sweeley in the chair and all members present, with the exception of Councilman E. B. Williams.

In view of his necessary removal from the Baugh lot, at the corner of Main and Shoshone streets, for the new business building to be built there, Kenndy Tackard asked permission of the council to remove his car to the corner of Shoshone street and Second avenue north, onto the space between the sidewalk and the curb, until such time as the new building is completed. His request was granted, subject to his immediate removal upon demand of the council.

In the matter of sidewalks along Eighth avenue, before the city council, the petition presented by Thomas Higgins asking for the action of the city council to amend ordinance No. 12, to investigate and report.

Dr. R. King, representing the Idaho Power company, was present before the council to discuss matters relative to the new lighting contract. Despite increased cost of the contract, the city council gave its approval to the contract, with the exception of the cost of the new lighting contract.

The older gentleman, a man of nearly 70 years, suffered two broken ribs and a badly lacerated face, while the younger members of the party miraculously escaped with a few bruises. None of them was able to extricate themselves until the arrival of several bystanders, who happened to be on the street.

Mr. Harrison was rushed to the White Cross hospital and at last report was resting easily. The car was somewhat badly damaged, but the dog was apparently unharmed, as he made his getaway during the excitement and when last seen was streaking it for parts unknown.

Dr. Henderson leaves—Dr. L. C. Henderson, who has been working here for some time with Dr. W. A. Sullivan in stamping out hog cholera, has gone to Idaho Falls, where he will take charge of the work there carried on by the government bureau of animal industry. Through the efficient work of Dr. Sullivan and Henderson, the hog cholera in this district is under complete control and is practically stamped out. Dr. Sullivan will remain in charge of the Twin Falls division.

IDAHO SOLDIERS IN SHAM FIGHT NEAR NOGALES

ENGAGE CALIFORNIA INFANTRY AND UTAH CAVALRY

Get a Little the Best of It in Their Attack on Fort, Each Side Taking Several Prisoners—Maneuvers Last Two Days

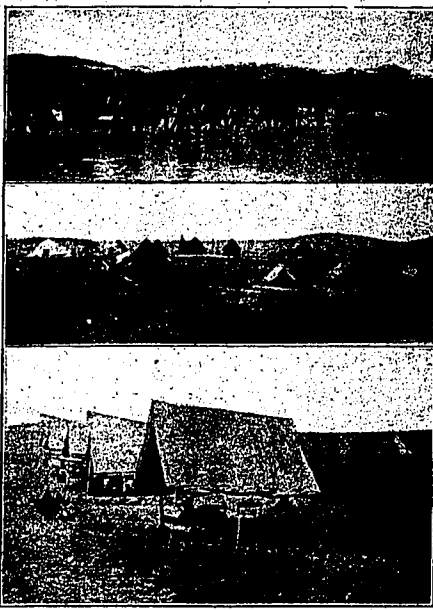

Special to The News.

NOGALES, Ariz.—Concluding its six days' hike from Fort Huachuca with two days' maneuvers on the march and a sham battle in the hills near Nogales, the Second Idaho regiment of infantry returned on Wednesday, August 30, at about noon to its quarters at Camp Stephen Little. Defenders of Nogales in this war game were two regiments of California infantry and a squadron of Utah cavalry. Another squadron of Utah cavalry was assigned to assist the invaders.

A forced march from Patagonia, 31 miles, on Tuesday, put the Idaho troops in possession of strategic points without conflict and won for the regiment the honor of the day. The Idaho regiment moved out of camp at 4 o'clock Wednesday morning with Company D, Captain P. W. McRoberts commanding, followed by Company H of Boise, as the advance guard. The point was under command of Lieutenant R. E. Leighton. At about 8 o'clock the enemy, distinguished by white hat bands, was sighted by Idaho's mounted scouts, under command of Sergeant N. D. Taylor. The advance party and other companies in turn deployed for combat, and skirmish lines were pushed over rocky, cactus and Spanish dagger covered hills. The fight lasted for about four hours. No decision was made by regular army officers acting as referees. Several prisoners were taken by each side. Idaho probably having somewhat the best of it in this regard. No shots were fired in the fight, and there were no accidents resulting in injury to anyone. The sham battle was enthusiastically enjoyed by the simulated combat, and apparently enjoyed it immensely. At 1 o'clock the march was sounded by both sides, and the Idahoans continued the march into Nogales. During the last three days of the march, and throughout the maneuvers Idaho troops carried their blanket rolls, in addition to other equipment, making the total load of each man.

Soldiers and civilians here unite in praise of the achievement of the Second Idaho, the first of the state troops here to make the hike to Huachuca. The men finished the march, braved the exposure and greatly benefited physically by the

Company D on the Hike

Upper Picture—Fording the Santa Cruz river.

Lower Picture—Officers' row.

experience. The number of men dropping out was reduced to a minimum on the return hike. Company D has the distinction of being the only company in the regiment that did not have a man drop out on the hike either way.

Newspaper Comment

Regarding the hike of the Idaho regiment, the Nogales Daily Herald says:

"The Second Idaho Infantry returned yesterday afternoon from their hike to Fort Huachuca, where they have been for the previous 16 days at target practice. The regiment took six days for the return hike and all came in feeling fine and fit for any duty which they might be called upon to do. Not a man had to be hauled into camp, all being right there together. The Idaho men have shown their mettle to be of the best, and the regiment that beats their record to Fort Huachuca will have to go some to do it."

"Colonel Edgubute is justly proud of showing of his regiment and said after their arrival: 'They could do it

over again tomorrow.'

"On their return approach to Nogales the men were ordered to attack Nogales in a 'war game,' which they proceeded to do. The defenders were the Second California and a part of the Utah cavalry contingents. They maneuvered all night in positions, and it is reported that in the first days' it was the Idaho boys had the best of the 'war games,' which will be of much benefit to all of the guardsmen located here."

Outpost Duty

Yesterday all of Company D, together with a squad of Company K, Buhi, was detailed for outpost duty along the international boundary line and at other points in the town of Nogales. This tour of guard duty lasted for 24 hours. Sixty rounds of loaded ammunition were issued to each man. The day passed without incident, although the sentries at one of the posts had been fired upon during the preceding night. Added to the duty, and every man was on his toes all the time.

Dig squad tents and camp cots at Nogales held a powerful lure to Idaho troops on their return from Huachuca and took on an atmosphere almost of home comfort, following the 21-day session spent in "pop" tents. Dig, screened kitchen and dining room buildings for each company in the regiment are entirely completed. Poles have been set for extension of electric connection to the Idaho camp and it is probable that the squad tents in which the men live will be floored and boarded up before long. The Y. M. C. A. hut for the Idaho regiment is nearing completion.

Nothing more substantial than vague conjecture as to the probable duration of their stay here exists among the men of the Second Idaho. As many bets are made that the regiment will be ordered into foreign service within 60 days as that they will be sent home. Possibility of strike duty in connection with the threatened railroad strike apparently affects all similarly. All prefer foreign service to strike duty, but there is no disposition to evade summons for any sort of duty.

Discharges Hard to Get

Affidavits to secure leave of absence while in attendance at school have been filed by a half dozen members of Company D. Applications for discharge of two married men in the company have been denied by the war department. Both men enlisted after the National Guard was ordered to mobilize. They are eligible as applicants for relief to be paid to their families.

P. H. Stowell, who for some time has acted as clerk for Company D, has been appointed to that position with the rank of corporal.

Arrangements with Miss Edith Holcomb for voice lessons, at the Twin Falls Conservatory, after September 20th.

REV. O. T. ANDERSON ACCEPTS CALL HERE

BAPTIST PEOPLE HAVE NEW PASTOR FROM ILLINOIS

Acting Pastor During August Accepts Call as Regular Pastor—Presbyterians Meet in High School Auditorium.

Word was received Sunday afternoon from the Rev. O. T. Anderson of Marlet, Ill., to the effect that after he and his wife had talked the matter over carefully, they had decided to accept the call to Twin Falls instead of the call to a new church in West Virginia. The letter also stated that they would be here to take up their work the first Sunday in October, and that, if a pastor could be secured before that time to take the Marlet church, they would be here soon.

The Baptist people held their first services in their newly-acquired church, the former Presbyterian property, Sunday morning. The Rev. A. B. Minkner, Baptist field pastor for Southern Idaho, preached both morning and evening and will act as pastor of the local church until the arrival of the new pastor. The Presbyterians held their services Sunday in the high school auditorium, where they will meet regularly each Sunday morning and evening until the completion of their handsome new church, the construction of which will begin in the very near future. Upon the invitation of the Baptist people, the Presbyterians will hold their prayer meeting each Thursday night in their former church, now the Baptist church.

HAS WORD FROM BROTHER IN WAR

Brief Message Comes From E. H. Warrington From "Somewhere in France"

Word was received Monday by Miss Jessie Warrington from her younger brother, who is with the Tenth brigade, Fourth Canadian division, in France. The message, the first to be received for two or three months, was brief and to the point, simply stating: "All O. K. and still kicking. Send some cigarettes. Inquiry as to the cigarette proposition proved that a ban has been placed by England upon the shipping from America of tobacco in any form, and in order to send the cigarettes it is necessary to have them purchased in Canada and sent from there."

In due time the cigarettes will probably reach the boy, to be enjoyed by him perhaps in the trenches or elsewhere on the firing line "somewhere in France."

OHIO PICNIC

All Buckeyes of Twin Falls county and their friends are urged to meet for picnic and a general good time at Maple Wood farm, the home of J. E. Bellville, one mile directly west of the reservoir, Thursday, September 14, from 2 to 7 p. m. Bring well-filled baskets and a broad smile. Our own Congressman Smith is expected to be back in time to speak for us. A splendid time is assured.

A CORRECTION

Through an oversight last week in the printing of the statement of the Associated Charities organization, \$25 donations given by the Twin Falls Bank & Trust company was inadvertently omitted. As only three \$25 donations were made altogether, the society desires that full credit be given to each, and this correction is gladly made.

THE SHAMROCK CLUB

The Shamrock club met with Mrs. Dean last Thursday. A delightful social afternoon was spent, at the close of which ice cream and cake were served by the hostess, and the club adjourned to meet with Mrs. Fred Davis, on September 14.

Kimberly Occupies Tall-Order Position—Big Batting Game Played With—Burling Sunday, With—Cals on—Tend—End—

STANDING OF THE CLUBS			
	Won.	Lost.	Pct.
Twin Falls	8	1	.889
Jerome	7	2	.777
Burley	5	4	.556
Robert	5	4	.556
Shoshone	2	7	.222
Kimberly	0	9	.000

With splendid batting on both sides a feature of the game, the local team defeated Burley Sunday by the bare margin of one tally, the final score being 9 to 8. The hard-hitting stars for Burley were Corbin and Biscione, while the expert slugging for Twin Falls was done by Charles and David Graves, with a little help from Hart, who put over a home run in the seventh inning.

Summary

Two-base hits—C. Graves (2), D. Graves, Delong (2), Walker. Three-base hit—Corbin. Home runs—C. Graves and Hart. Bases on balls—Off Hart 2, off Shake 4. Struck out—By Hart 7, by Shake 8.

Defeat Shoshone

On Labor day the crowd was treated to another "batting" exhibition, with all of the slugging in the Twin Falls team put up an exhibition of perfect fielding, not a single error being recorded. Shoshone was badly beaten. The final score was 12 to 4 in favor of Twin Falls.

Local Briefs

Go to Burley—Clyde W. Simpson, son of Mr. and Mrs. O. M. Simpson, left Friday morning for Burley to take up his duties as instructor in commerce in the Burley high school.

Boy Scouts to Meet—All the Boy Scouts of troops 2 and 3 are urged to meet at the home of Dr. Shepherd, 461 Main avenue west, Friday evening at 7 o'clock. Very important.

To Plan Year's Work—Plans are being made by the members of the Twin Falls Chautauque club to begin their work for the ensuing year October 1. Prospective members are asked to notify Mrs. E. H. Giese.

Big Day Trip—Two hundred miles in the span of a single day of 12 hours was the "run" made by three women the first of the week Mrs. J. H. Chambers and daughter, Mrs. Martha Washington, accompanied by Miss Edith Iredale, driving from Nampa, Ore., to Twin Falls.

P. E. O. Society Has Picnic—The opening meeting of the P. E. O. society was enjoyed Monday night at a pleasant picnic at the home of Mrs. T. F. Warner, one of the members. The husbands and a few friends of the members were the guests of the club.

Nebraska Buys Land—George H. Miller of Alexandria, Mo., this week purchased the O. M. Simpson farm, two and one-quarter miles west of town, and expects to bring it out of the forest in the month of March. The farm comprises 56 acres and the selling price was \$180 per acre.

Two Hudsons Come—Occupying one whole freight car all to themselves, two Hudson Super-Sixes rode all the way out from Detroit to Twin Falls. The first of the week, consigned to the Johnson Auto Sales Co. One was ordered for C. B. Sturges of Castleford and one for Harley Miller.

Appointed to Medical Board—Dr. W. P. Pike of this city recently received word of his appointment by Governor Alexander as a member of the Idaho state board of medical examiners. His place carries a six years' term. Dr. Pike was appointed to take the place vacant by Dr. C. M. Cole of Idaho Falls.

Married at Church—On Monday morning, September 4, Miss Clara Marie Navin, daughter of Mrs. P. W. Navin, was united in marriage with Joseph Thomsen, at St. Paul's Catholic church, the Rev. Father N. P. Hahn officiating. A beautifully appointed wedding breakfast followed the ceremony. Immediately after the breakfast the young couple left by automobile for Salt Lake City, where they will reside. The bride's automobile was decorated with old shoes and across both sides of the car were the words "Salt Lake City or Bust." Following them for some distance was another machine filled with their friends, who tracked attention to the young couple by blowing horns and ringing bells. Mrs. and Mr. Thomsen will make their home in Twin Falls.

BERRY PICKERS Wanted at the R. M. Kellough Strawberry Co., 1 1/2 miles north of Addison, on Blue Lake boulevard.

EASTERN FACTORIES WORKING OVERTIME

W. H. Eldridge Says Prosperity Is Evident Throughout the Entire East

William H. Eldridge and bride, formerly Miss Grace Butolph, returned last night as part of the week from a two-months' tour of the New England states, including an extended visit with friends and relatives in Proctor and Middlebury, Vermont.

Commenting upon the remarkable prosperity and changes in various lines of business throughout the East during the past two years, Mr. Eldridge states that the business enthusiasm, energy and activity in all lines of trade has been unequalled there for nearly a score of years. Bridgetown, Conn., for example, Mr. Eldridge says, is fast becoming an American city. "It is a city that has been the growth of that city that there has been a powerful organization of the leading business men to put through plans for building whole areas of new homes, many hundreds at a time, to keep pace with the increasing population, an increase which cannot be taken care of in the ordinary process of home building by means of private enterprise."

Bisbee Portraits Are Superior

Reason Number 2

The Bisbee Studio is the only studio in Southern Idaho able to produce the delicate and exquisite carbon portraits on ivory, on celluloid, on parchment, and on a number of other very difficult mediums. A very small percentage of the photographers of the United States can make genuine carbons; only two in Idaho are doing it; Mr. Bisbee is one of them.

A Border Ballad

By A. N. ONYMOUS

In soldiering, like everything else, much depends on the point of view. Here is the point of view of an Idaho boy, well known in Twin Falls, put up in unique and interesting style:

A non-sufficient officer came dragging home from drill; His steps were slow and slower as he tried to climb the hill— "O hang this army life!" said he, "I'm thinner every day; I'm losing all my morals and my hair is turning gray; I'm going to write to Washington and tell the bosses there They've got to let me out of here in time to save my hair. It surely won't do any harm to write a line or two And let my friends in Washington to see what they can do."

"Dear President and Cabinet and All Who Are Concerned: I'm just a common soldier—boy's as elusive as a dream; I don't know how to ask it in a real official way, But I wish you'd get me out of here, if possible, today. I read the latest orders, and they say that married men Can only get discharges if their wives depend on them— But how about us married men accustomed all our lives To be so overwhelmingly dependent on our wives?"

"Why, honestly, I never knew in all my married life How utterly dependent I was upon my wife; I let her do the ordering, I let her pay the bills, I let her nurse and doctor me through all my little ills; I even let her shave me, because she asked me to— In fact, there wasn't anything I didn't let her do; And when it comes to cooking, say, I'm telling you, old man, That kind of army cooks can't cook are just the things she can."

"And then, there's little Johnny. Why, President, old scout, You'd ought to see him, when I'm home, a-orderin' me about. Of course, he's always 'General,' and I'm his 'cody,' And we act out the famous march of 'Sherman to the Sea,' With me a-playin' on the fife, him beatin' on the drum; And mother singin' 'Jubilee,' and the 'Year of Kingdom Come.' And now I'm gone, his mother says, he often sits alone And wonders where in all the world his orderly has gone."

"Now, President, I've said a lot I didn't mean to say, But can you arrange that order to let me read the other way, And says that every married man, including Johnny Lee, Who finds himself dependent on his wife and family, Can be discharged from service? Why, listen here, old man, I'll wait for you my whole life long, as often as I can; And if you ever have to fight a long and bloody war, I'll pay my way to Mexico to fill one coffin more."

PERSONALS

J. H. Marshall and wife of Jarbidge spent Sunday in the city.

J. O. Andrews of Jarbidge was registered at the Perrine the first of the week.

The Rev. C. L. Bent of Twin Falls will preach at Kimberly next Sunday at 11 a. m. and at Hansen at 3 p. m.

R. R. Stanford, who is now associated with the Albert Dickinson Seed company of Chicago, returned to Twin Falls Sunday, after an extended business trip on the coast.

Mrs. R. L. Johnston and daughters and Miss Emma Rawson, who have been spending the summer here at the home of Mr. and Mrs. Joseph Walkington, Mrs. Johnston's parents, left Friday, Mrs. Johnston for her home in Mound, Okla., and Miss Rawson for her home in Braden.

Miss Stella Montgomery, who has charge of the ladies rest room, has returned from her vacation, spent with her parents on their ranch south of Kootenai, near the Nevada line, and with her sister, Mrs. Stone, in Kimberly.

St. Edward's Catholic Corner of Second avenue and Fifth street east. Rev. N. P. Hahn rector. Sunday masses at 8 and 10:30 a. m. Evening services at 7:30 o'clock. Week day mass at 8 o'clock a. m.

Dr. Evans, the optician, will be at the Perrine hotel next Monday, September 11. We fit glasses correctly and attend each case on a year. J. T. Evans, eye-sight specialist.

CARD OF THANKS Mr. and Mrs. Paulin beg to thank all those who so kindly assisted at the fire on Thursday last. The very generous offers of help were very much appreciated.

BEGINS BIG FALL BEEF ROUNDUP

ROCK CREEK OUTFIT LEAVES FOR THE MOUNTAINS

Wooden Shoe Brand Cattle Will Be
Brought in for the Winter—
Haying Not Yet Fin-
ished

ROCK CREEK.—The Wooden Shoe outfit left Monday for the mountains to begin the fall beef roundup. Some of them were not quite ready, not having finished their haying, but the manager was using the pressure for horses and the outfit had to go to prevent them from feeding it all out before the beef were gathered.

Among those who attended the circus last Wednesday at Twin Falls were Mr. and Mrs. Margaret Larson and children, Mr. and Mrs. L. M. Van Eaton and children, Mr. and Mrs. Nephil Larson, Mrs. H. W. Bond, Miss Pearl Greenfield, C. J. Domrose and Sylvia Van Eaton. Mrs. John P. Hansen and daughter, Edna, H. W. Bond, accompanied C. Peterson on his way to Hansen as far as Excelsior, where they visited for the day with Henry Hansen's family. Mrs. Hansen returned with Mr. Peterson, but Mrs. Bond remained there till stage time Thursday morning when she went on to Hansen for a short visit with her uncle and cousin, L. Hansen and Mrs. D. P. Albore. Mr. Bond will return to his car this Friday and brought Mrs. Bond back here with him. He was accompanied by their daughter, Helen. The outfit left Sunday morning for their home at Welser.

Lee Stettler, the Kimberly butcher, who runs a car out here three days each week, had a little trouble with his car last Thursday. He drove up to the candy store to serve a customer and when he was ready to start his electric starter refused to work. When he got out and cranked and still it refused to move, he examined his batteries and found them dead, so was obliged to send to Kimberly for help. The helping car started and when still some distance away he had a car passing picked him up and brought him on. He and Stettler then secured the necessary equipment to start the car and L. P. Larson took them back to the stranded car. A temporary patch was put on and they came in, finding that they had a flat tire, which it was necessary to repair before they could leave in the heavy motor. The repairs were finally made and the butcher went on his way, having been here from 10 a. m. till almost 4 p. m.

J. F. Tatro of Oakley spent a few days here last of the week visiting with Mr. and Mrs. C. Peterson. Miss Clara Brown went to Twin Falls Thursday to attend a party given by Mrs. De Witt Young. She came home Friday evening.

Mrs. Jas. A. Walker entertained the R. C. L. club her beautiful country home Friday. However, as most of the ladies at this time are very busy with harvest, only three members were present. Two threshers have been busy in this vicinity all the past week. The grain still remains to be threshed. Peter Newman is hauling his grain direct to the elevator at Hansen from his separator and a very large crop is required to handle the crop. Mr. Newman sold his grain some time ago.

Ed Owens went home last week for a visit of a few days with his brother Will and found him so well that he was able to attend to his work. Ed came back at once and arranged his affairs for a long absence and will remain with his brother at Willow Creek till he is again able to attend his work.

Mr. and Mrs. C. Peterson took J. F. Tatro to Twin Falls Saturday and brought home Mrs. Verna Larson, who had been here for several days attending to some business matters.

Howard Larson, accompanied by his two sisters, Miss Helen and Miss Ellen, went to Rogerson Sunday. Miss Ellen remained to begin her school, which opens this week.

Alta Iverson of Cottonwood stopped here a few minutes Sunday to bid her friends goodbye. She went on to Hansen and Sunday evening accompanied by her aunt, Mrs. D. P. Albore, left for Boise, where she will attend school at St. Margaret's this winter.

BERGER FARMER HAS FIRE LOSS

HOUSE AND CONTENTS BURNED TO THE GROUND

C. E. Huddleston Suffers Considerable
Property Damage When Dwelling
Is Burned to Ground—Only
Partly Insured

BERGER.—The house and all its contents of C. E. Huddleston burned last Wednesday, August 30. Mr. Huddleston's two daughters were in Twin Falls and Mr. Huddleston and the boys were in the hay field. Mr. Huddleston went to the house and while there lit his pipe, and he supposed the house must have caught from the match. A new house, which he had almost completed, caught from the other and also burned to the ground. There was \$1000 insurance on the new house, which will partially cover the loss. L. O. Evans took his son Clifford to Twin Falls Tuesday of last week to have his tonsils removed.

William Burness is suffering from an abscess on his hand. The school board is having the schoolhouse kalsomed and the floor oiled this week. School will not commence till Monday, September 11. Miss Rose will teach the grammar grades and Miss Howe of Twin Falls the primary grades. The daughter of Mr. and Mrs. Ralph Foote is dangerously ill of cholera infantum.

KIMBERLY RE-ELECTS SCHOOL TRUSTEES

Big Vote Cast in School Election—
Stamp of Approval on Former
Board Members

KIMBERLY.—School election was held Tuesday at the schoolhouse and 111 votes were cast, 21 of them being by women. There were four candidates nominated: Henry Stevens, W. B. Lewis, A. R. Campbell and F. M. Wilmarth. W. B. Lewis was high number for any one candidate. Both the members re-elected have done efficient service on the board already and the vote given them shows that their work is appreciated. School opened Wednesday morning with full quota of teachers and a large enrollment. The Christian church was secured for use until the new high school building is completed, which will probably be another sixty days. A good term of school is looked for the coming year.

Two hundred votes were cast at the primary here Tuesday. As the farmers were very busy threshing, a full vote was not received, being only about half the ordinary vote for this precinct. Steel-smith was the only home man having an opponent, and he carried this precinct 61 to 5.

Mrs. W. H. Turner, daughter and son of Mr. and Mrs. W. H. Turner, were also left on the same train for a visit to their old home in Iowa. L. S. Tucker expects to hold a public sale in the near future and dispose of livestock and farming tools, household goods, etc. G. A. Jacobs also expects to hold a public sale at his place in about six weeks and dispose of his property, preparatory to going to California to reside.

L. Tonley and family expect to travel overseas in their Ford to Iowa in the near future. The families of N. W. Swearingen, Carl Ridgeway and Harry Wilson have returned from their outing to Alturas lake and other places in the Sawtooth mountains. C. H. Upson also accompanied them on the trip.

The directors of the Bank of Kimberly met Saturday in their regular monthly meeting.

F. R. Barnhill has the contract for putting in granitoid walks in front of the new hardware and general merchandise buildings on North Main street. Most of the market seed has been threshed and the hullers are now starting on the red clover crop. While the yield is not so great in most cases as last year, the price is some better.

A. B. Wilkins is here from Pocatello visiting his father, R. Wilkins, and family.

JARBIDGE VISITORS
Mrs. William Hudson of Jarbridge, Nev., and Mrs. Minnie Hudson of Twin Falls, mother and sister of Mrs. William Wainchope, arrived in Rupert Sunday evening for a short visit, the former leaving for Burley Tuesday to visit with her son, Rupert Pioneer-Record.

Miss Edith Holcomb, graduate of the Lincoln Conservatory of Music, will accept a limited number of pupils after September 24th, at the Twin Falls Conservatory.

NEW DEPARTMENT STORE FOR BUHL

SPLENDID FIXTURES, COSTING \$15,000, WILL BE INSTALLED.

New Plate Glass Fronts Are Said to Be
Largest in Southern Idaho—Open-
ing of Business Will Occur
September 15

The Idaho Mercantile company, Buhl's new department store, will begin business on September 15. If there is no delay in the arrival of the goods, says the Buhl Herald. All the carpenter work is completed on the new building, except some of the interior finishing in connection with the installation of the fixtures. Fifteen thousand dollars' worth of fixtures are expected to arrive the latter part of this week, and when they have been installed the new concern will be one of the largest and most up-to-date department stores in this part of Idaho. It is said that none of the Twin Falls department stores will outlive it. While the new building on Broadway is but one story high, it is substantially constructed, brick being used in the walls throughout, and one more story may be added at any time. Mr. Laird, manager of the new concern, has spared neither time nor money to put up a good building.

The doors were hung, and the windows were put in the latter part of last week. The Pacific Builders Supply company put in the plate glass fronts, and they said these are the largest plate glass windows in the county. The dimensions are 5 feet high and 15 feet wide. The store has a frontage on Broadway and extends along both fronts and a 62-inch prism glass above the 8-foot plate glass makes the interior of the building one of the best lighted in the city.

Mr. Laird expects to put in attractive display windows when he opens the store. They are ten feet deep and will be the largest store windows in the city.

The main floor will be arranged by departments. On the balcony, in the rear, will be the ladies' suit department and rug department. A ladies' vest room, alteration room and a dressing room are built on each side of the suit department. Two large sky windows make the balcony the best-lighted portion of the room. The manager's private office, the bookkeeper's desk and the parcel wrapping counter are on the balcony. The half basement beneath the balcony contains the furnace and heating system, and the large portion of the room will be used as a storeroom.

The store will contain a gent's furnishings department, show department, dry goods department and grocery department. The detailed plans of the store have not been decided upon yet, though Mr. Laird arrived this week and is working on the details. J. K. Huston of Endicott, Wash., vice-president of the company, arrived in Buhl Friday afternoon and will be assisting in putting in the goods as they arrive. Mr. Huston was accompanied by his wife and child. They are here for a few days of the clothing and furnishings department.

GUYER HOTEL STILL HOUSING GUESTS

Hot Springs Resort Will Remain Open
Until October First—Twin Falls
Tourists Pleased!

Wilbur S. Hill, who, accompanied by Mrs. Hill, returned early this week from Geyer Hot Springs, states that, owing to the lateness of the season and the continuing postponement, the Geyer hotel is making preparations to take care of visitors as late as the first of October this year.

Among other guests at the famous resort this week were T. A. Read and G. W. Shroat families, accompanied by their guests, Mrs. A. O. Morse of Omaha, Neb., and Mrs. Del Blakely of Fremont, N. D. The two latter left for home Tuesday morning, after an extensive tour of the West, including California and the canyon Alaskan trip. They were unanimous in declaring the Wood River country to be equal to anything they had so far seen.

POPULAR TEACHER SENDS RESIGNATION

Miss Taylor, Principal Last Year of the
Bickel School, Remains in
Twin Falls

Miss Ethel May Taylor, who was principal of the Bickel school last year, has resigned her position in the Twin Falls schools and will remain near her home town, Harlan, Iowa, with her parents the coming year, having secured a position in the schools at Knoxville, Iowa.

Miss Taylor was one of the popular teachers on the Twin Falls force and many will regret her absence here. She had been appointed to the place of history and English teacher in the Twin Falls high school for this year.

IS AN ADVOCATE OF PUBLICITY IN SCHOOL AFFAIRS

SUPERINTENDENT BLUE ADDRESSES TEACHERS' INSTITUTE

Points Out the Importance of Reporting
Accurately Information Relative to
the Administration of the
Schools

"One of the most characteristic features of public school administration has come to be the published school report," declared Hal C. Blue, city school superintendent, in an address before the teachers' institute in session here last week. "The history underlying the development of this interesting feature is directly traceable to two factors," says Mr. Blue, "the growth of the profession of education and to the universal demand on the part of the public for complete information relative to all public enterprises. Within the last decade or more some of the ideas have come to the field of education. These ideas reveal a better understanding of the business of education. They also reveal an earnest effort on the part of administrators to bring to the management of public education principles that are soundly scientific. Educational science as definite reality has come out of these earnest efforts on the part of school administrators to meet the demands of the public for positive evidence of scientific management relative to public school systems.

"Not so long ago school reports issued by school boards or school committees involved principally statements relative to hiring teachers, building and equipping schoolhouses, visiting schools, etc. At this time, when boards of education told their activities, schools were relatively few and the organization comparatively simple. So, the reports dealt with very little of expert knowledge either of school management or of methods of reporting school activities. In the present day, however, teachers are employed and schools are organized and administered by an educational expert. The public judges the efficiency of the school superintendent in terms of his ability to satisfy any inquiry which may be made concerning the course of study, the teachers and pupils, data relative to factors of retardation and elimination, or the local aspects of the problem with which he deals. Therefore, the relations which may exist among several parts of the whole problem. The major portion of school reports nowadays is prepared under the direction of the superintendent of schools and, therefore, serves as an index of his capacity and energy in directing the educational work of his community. The superintendent of schools today as the educational expert must be an individual of versatile interests and efficiency, capable of satisfying the immediate and ultimate needs of every phase of his field of labor. His work must be motivated by the new science of education, to him that the public looks for tangible and helpful information relative to the mass of machinery operating within the entire system of schools obtaining in the community. He must be an individual having the details that involve the science of education.

Value of Records

"One of the most essential things in reporting is adequately and completely complete information relative to the administration of schools is a concise and complete system of school records. It is only in recent years that any considerable attention has been given to the matter of school records. A few years ago a report of attendance giving the total number enrolled and the average daily attendance would probably have been considered sufficient. In addition to such records, a scholarship record, provided by individual teachers might have seemed adequate. And then, too, it is likely that a very simple statement relative to receipts and expenditures pertaining to only a very few items relating to teachers' salaries, stationery and fuel, etc., would have been thought sufficient. In such reports it was commonly found that a large part of the total expenditure was reported under such heads as 'miscellaneous expense' or 'general expense.' Now, this tendency to report in terms of totals and averages has been superseded by a demand for all the facts. Students of education, as well as those who are interested in public affairs, whether in education or in some other field, have come to realize that it is absolutely essential to know the facts in terms of their distribution, showing the limits or range within which the cases of individual pupils fall. This demand for adequate statistical treatment of school facts is the central feature of the world today by an improved system of records and by more adequate school management. As examples of this development, it is only necessary to cite the cumulative pupils record card and the form for reporting fiscal statistics which have been recommended by a committee of the department of superintendency of the National Educational Association. Six or seven years ago, when probably not more than 30 cities furnished a record of the pupils' school life from the time he entered school to the day he withdrew is only a little way from a remarkable improvement, which shows at the present time more than 400 cities equipped to furnish such valuable data. But a cumulative record will reveal at any time during the pupils' career in the public schools (1) the amount of attendance of individual pupils for one year; (2) classification of pupils by age and grade; (3) classification of pupils according to sex; (4) factors pertaining to retardation; (5) foreign birth or parentage as affecting progress; (6) kind of training as affecting progress; (7) transfers as affecting progress; (8) the effect of attendance or absence on progress; (9) inquiries having to do with individual school management, as well as many valuable and interesting facts about school children.

Distribute Expenses

"A few years ago very few cities could have distributed their expenditures over several important heads, as well as to various departments of the system. It was not then possible to indicate the exact purpose for which money was spent. It was not possible to designate the particular type of institution or activity for which the money was spent. Throughout the land there is a definite movement looking to the introduction of a system of school accounting that will furnish this detailed information. It is the same type of accounting that has prevailed for years in large industrial and business institutions. With such a system of accounting it will then be

come possible to determine to the exact cost the actual cost of education. This is one of the important demands made by the general public and it is a demand to which the educational administrator is devoting his earnest endeavors. In a great many school systems it is found that the introduction of the new type of accounting makes necessary the creation of a new officer. This officer is sometimes called the business agent of the board of education. Such an officer has done a great deal for the new type of school reporting by bringing systematic management to the schools as well as expert business judgment.

Value of Publicity

"One of the underlying causes that have brought about this wonderful development in school reporting is the matter of publicity. The tendency of the present hour to publicize everything is to turn on the light and to reveal to public scrutiny all of the inner recesses of public machinery and management. To meet the desire to give publicity to important school facts, educational administrators are now making reports for public consumption. To make school reports more universally and generally read it is necessary that the reports be attractive. So charts, maps, diagrams and pictures are found in present day reports to give lucidity and attractiveness. In a great many communities the newspapers have been resorted to to give publicity to school facts in lieu of the public school reports. Ofttimes small bulletins are printed at various intervals during the year to acquaint the public with the school facts. These bulletins will deal first with one type and then with another, depending particularly upon the problem that is receiving consistent attention throughout the schools.

Means Greater Efficiency

"It is fairly evident to a sincere desirer of looking into the problem of adequate and efficient school reporting that one of the great results of the plan or scheme is the bringing to the administrative work of a more satisfactory degree of efficiency. One of the most perplexing questions brought to the administrator by the public is that involving the real purpose of the public demands that out of the great hodgepodge of financial intricacies there be a plan to acquire the public with the factor of efficiency demands that the expenditures of public money should follow a certain line of proportion to achievements that have resulted directly from such expenditures. If the line of proportion shows waste and extravagance, the general public has a right to demand that more expert expenditure be introduced. If the line of proportion shows extravagance or a reprehensible excessive frugality, the public has a right to demand that more expert expenditure be introduced. Efficiency demands that these factors give way to expert investment. If these factors prevail in the management of any system of schools, they can be brought to light only through the medium of constructive management reporting. If public school administrators would be efficient, they must seek to give to their constituents complete information relative to the whole range of the public schools.

DESTRUCTIVE FIRE AT PAULIN HOME

Upper Rooms Gunned by Flames—Roomers
Move Out Hastily—Origin of
Fire Not Determined

Fire was discovered Thursday afternoon of last week in the home of Mr. and Mrs. A. S. Paulin, corner of Second and Fourth street north, and burned it has extinguished it, but through the roof and one side of the second story, doing considerable damage. The origin of the fire was not determined. It was at first thought a kerosene stove in the room of Mr. and Mrs. Williams had caught fire, but this theory was not held to when the stove was examined, and also from the fact that a baby's bed stood near the stove and was not on fire when the blaze was discovered. It is thought the trouble started from the electric wiring in the attic. Mr. and Mrs. Williams, who were rooming there, lost practically all their belongings. Other roomers, Mr. and Mrs. Kollins and Mrs. Ellen A. Smith, succeeded in saving the greater part of their possessions. Paulin's loss is covered by insurance. His home is owned by a man named Keltner, who resides in another state.

How to Give Good Advice

The best way to give good advice is to set a good example. When others see how quickly you set your own gold by taking Chamberlain's Cough Remedy they are likely to follow your example. This remedy is in use for many years and enjoys an excellent reputation. Obtainable everywhere.—Adv.

WORK ON TELEPHONE TO SHOSHONE BASIN

LINE BEING BUILT BY GOVERNMENT FORESTRY SERVICE

Will Be Direct Benefit in Fire Prevention Supervisor Campbell in Charge of Construction

Forest Supervisor Campbell has a force of men, working under Forest Examiner Charles D. Simpson, in the construction of a telephone line from Fraser ranger station in Shoshone basin, to Rogerson, Idaho. This line will be of great benefit to the users of the forest in that locality to communicating with the forest officers and also a great benefit to the forest service in fire prevention and suppression as well as in administrative matters. Also in emergency cases the line may be of considerable benefit in supplying a short connection by phone between the Rogerson and Oakley settlements.

Supervisor Campbell has been in the field practically the entire month on special cases. He reports that, owing to the late, cold and backward spring, the range grew very slowly and that the severe frost of June 12 damaged the range to a very great extent. In fact, the range is in poorer condition than for several years. Notwithstanding the unfavorable range range, there are practically no poor sticks to be found on the range and the stockmen report both sheep and cattle to be in very good condition.

Rabies Among Sheep
On August 13 Supervisor Campbell accompanied Dr. W. S. Decker of the state veterinarian's office and Dr. Dill of the state of the great extent of the industry to Trapper, Trout, Piney and other ranges areas on the Western mountains to investigate the report of rabies among sheep and cattle. They found that at least four bands of sheep have had the disease in the past month or more. Owing to the owners' prompt action in killing the affected stock, the disease is gradually dying out. Three bands of sheep are known to have been affected and one was killed near the Hotterter ranger station. Also forest rangers have recently killed rabid coyotes on the Black Pine and Goose-Creek divisions.

Now that the annual appropriations are available, the forest officers are getting busy to get as much of the improvement work finished this fall as possible. A new trail is to be built around the West Eagle mountain, in the Black Pine division. This piece of work has long been needed, as the present old trail is both impractical and unsafe. The Summit springs and the Pine springs on the southerly part of the Black Pine division, are to be fenced and the water piped into troughs, and the work will be of the same permanent, creditable nature as the other completed projects on the Sublett and Black Pine divisions.

On August 10 Engineer J. P. Martin of the district forester's office, in Ogden, Utah; Ranger H. L. Smith of the Goose-Creek division, and Supervisor Campbell of Oakley visited Lake Cleveland. This lake lies about eight miles south of Albion, near the summit of Mount Harrison, and at an altitude of 8170 feet. The lake is evidently formed by a slip of rock from the mountain and is a beautiful body of water, covering an area of about 15 acres. The location and surroundings are ideal for camping purposes, and Supervisor Campbell is in hopes that a good, permanent road map soon be constructed, so that all campers may be able to drive the entire distance.

TWIN FALLS MAN INJURED WHEN TIRE EXPLODES

E. F. McNEW IS VICTIM OF A PECULIAR ACCIDENT

While Changing Tires on Auto the Tire Explodes—Head of Firm Struck—Victim's Head With Serious Results

While returning from an enjoyable outing in the Wood River country with his wife, their two children, also Mrs. McNew's sister, Mrs. E. F. Ashbury of Idaho Falls, and her brother, Oscar C. Painot and wife of this city, E. F. McNew suffered serious injury in a peculiar accident.

Some seven miles northeast of Jerome Mr. McNew stopped their car to change tires. As he was placing the new tire on he accidentally struck it a hard blow with his hammer. The tire instantly exploded with terrible force and parts of the rim struck Mr. McNew on the head, inflicting several wounds and fracturing the skull. He was taken at once to the nearest farm house, which was two miles distant, and a physician called from Jerome. After giving the unconscious man hasty first-aid treatment, the physician urged the party to take the injured man with all speed to a hospital in Twin Falls. Some men from Jerome, including Mr. McClair, who overtook the party at the time Mr. McNew was injured, and who hurriedly took them to the farmhouse in their machine, brought the injured man and the other members of the party to Twin Falls with all haste, and Mr. McNew was taken to the Physicians and Surgeons' hospital, where an operation was performed that evening. Pressure of the broken skull upon the brain was relieved, but the injured man remains unconscious and his condition is regarded as critical. Mr. McNew is employed in the grocery department of the Idaho Department Store and resides at 942 Fourth avenue east.

C. W. B. M. Luncheon.—The annual luncheon of the auxiliary to the C. W. B. M. of the First Christian church will be held next Friday at noon in the parlors of the church. All members of the auxiliary and also the circle gifts are requested to be present, if at all possible. The program for the month will be given in the afternoon, at which time reports for the year will be read and the new plans for the coming year made known. Members are requested to invite any interested friends whom they may desire to become members.

Utah Wants Hay.—County Agent Birch was in receipt of a telegram yesterday morning from the Utah Agricultural college asking if the Twin Falls country could supply them with 150 tons of alfalfa in the car. This would mean about 15 cars of baled hay and Mr. Birch immediately got into communication with local dealers and was able to send out prices by return mail.

BOISE FIRM BUYS PERRINE'S RAILS

OREGON SHORT LINE OFFICIALS
CONCLUDE SALE FOR \$18,400

Shipment of Twelve Carsloads for Electric Road Extension Goes to Boise-Payette Lumber Company

Negotiations carried on by a party of Oregon Short Line officials, Saturday, resulted in the sale of the steel rails which have been piled up in the freight yards here since 1912, awaiting redemption for freight charges. This bunch of steel, comprising about 12 carloads in all, will be loaded up very soon and shipped by their new owners, the Boise-Payette Lumber company, to their mills above Boise, to be used in building more track for their lumber trains. The purchase price was \$18,400, and the party of officials in charge of the sale was composed of A. H. McNitt, claim agent; A. E. Hutchinson, purchasing agent, and Storekeeper Benjamin.

This deal marks the close for the present of the proposed extension of the Perrine street railway. Purchased in 1912 for the purpose of building an additional loop to the electric road to Shoshone falls by way of Blue Lake, financial difficulties interfered with any further building, and the rails were held by the Oregon Short Line company for freight charges.

DETROIT'S IMPRESSIONS OF A MAN

Governor Hughes' visit to Detroit opened the presidential campaign of 1916 and if we may forecast the events that are to follow by the omens of Monday we would prognosticate an intensely warm, vivid and humanly interesting period in the next few months.

Setting aside the auspicious meteorological conditions in this provision of the future—although they are approved by numerous professional augurs and by a host of commonality as well—we base this prophecy on the characteristics of the candidate whose too brief stay with us has been enjoyed by all with whom he came into contact.

The misguided individuals who have been expecting Charles E. Hughes would prove to be a cold proposition and therefore easy to beat are in for a shock that will make them think they have been hit by an uninsulated trolley wire. There is nothing cold about Mr. Hughes, Detroit has learned. He is about as intensely human a piece of humanity as ever captured the hearts of a crowd, and the more people in the United States he meets between now and November the more victory will be cast for him. As a campaigner he is a revelation. He likes his fellow beings, and they like him because they see he likes them.

And what his personality begins his remarkable powers of intellect and utterance finish. He drives his points home with tremendous force. What he says sticks. There are thousands of Americans today who can recall every step in the arguments he made eight years ago on the Bryan trust policy, yet in 1908 Mr. Hughes was not especially a prominent figure and there was no particular reason why his address more than others should have remained clearly in the memory except the gift of the man to send his own thoughts so deep into the brains of others. They are clear in his own mind first, undoubtedly. He knows precisely what he wants to say because he has reasoned it out before he speaks it out. Probably that has something to do with the ease with which he conveys his meaning. But it is a very rare quality he possesses in his ability to master subjects so thoroughly as to make the most abstruse, simple to himself and his hearers. It is a quality eminently desirable in a political candidate; it is infinitely more to be desired in the president of a great country like the United States.

Detroit's impression of Charles E. Hughes is all favorable. The thousands of people who have studied him at close range are convinced that if he is elected president next November he will be a great president, one of the greatest this nation has known, worthy to stand in history with George Washington and Abraham Lincoln, a custodian of the republic's fate to whom that fate may confidently be intrusted. If that conviction is shared by the people of other states whom he is still to meet, the outcome of his swing around the great American circle cannot fail to be propitious for him.—Detroit Free Press.

WOULD ADVOCATE SUMMER PRUNING

Experiments at the University of Idaho Prove Value of This Practice in Yield Increase

Recent experiments conducted at the University of Idaho experiment station, conducted by C. C. Vincent, furnish strong proof of the value of careful and systematic summer pruning under certain conditions.

Mr. Vincent summarizes the results of his experiments as follows:

"The best time to summer prune is about 10 days after the terminal buds have set. This year it will be from the middle to the 25th of August. When the terminal buds have set, the trees have finished growing for the year. If the pruning is done too early in the season, or before the trees have ceased growing, secondary shoots will develop. By delaying the pruning un-

til rather late in the season and then cutting back some of the growing leaders, and opening up the trees, fruit buds will be developed. This leaves the starch and sugar in the cells to produce the fruit buds.

"The results of the experimental work at the university over a four-year period show an increased yield in favor of the summer pruned trees as follows:

"Wagners—Increase in yield, 121 per cent.

"Grimes Golden—Increase in yield, 52.8 per cent.

"Jonathans—Increase in yield, 2.4 per cent.

"Rome Beauty—Increase in yield, 16 per cent.

"Higher-colored fruit can also be secured by summer pruning. Where summer pruning was practiced on Jonathans, 63 per cent of the apples were extra fancy, and 32 per cent fancy, while from the winter pruned trees only 13 per cent were extra fancy and 43 per cent fancy."

DUNK BOTTS, Regular Correspondent.
(George Bingham.)

(Copyright, 1916, Adams Syndicate.) Jefferson Potlocks, who has been having dumb chills all along, had one out loud the other night.

The Deputy Constable has come to the conclusion to make the race for re-election again. He will make the race on his past record and his horse.

One of the hardest windstorms of the season passed over this section Tuesday night. Tobe Mosely's patch of broom corn was blown away and swept everything as it went.

Isaac Hollwanger was seen at church with his hair combed last Sunday. He should be encouraged in this, as it saves the people behind him the trouble of having to stand up to see the preacher.

A strange man was in our midst yesterday. He was as dead as a post, but the postmaster did not find it out until he had talked with him for an hour, as he did not have on his specs.

Miss Fuzio Allsop, who keeps up with all the latest movements of Dame Fashion, was out riding on her tall yellow horse Sunday afternoon. She has heard that light lacing will be in style this fall, and has already begun to tighten up the saddle girth.

The Excelsior Fiddling Band sprung from ambush at the Dog Hill church Sunday and surrounded the congregation while it slept.

It is believed that a robbery was committed at the postoffice night before last, but as nothing is missing and the doors and windows were not bothered and no tracks of any kind were seen around the building, it can be possible that nothing of the kind occurred.

Poke Easley is reporting a lively encounter he had a few days ago with a mud turtle. He says he was sitting on the banks of the pond fishing away, and attending to his own affairs, when a turtle reached up out of the water without any warning noise whatever and snatched him by the pants leg. Before he could regain his usual composure he was dragged into the water and struggled for half an hour before

he got the best of the turtle by out-running him.

The Dog Hill Preacher declares that there would not be near so much poverty in this country if barbed wire entanglements were placed in the bottoms of all chaires that set around in shady places during the summer.

Dock Hooks is now sporting a new shaving mug. It is adjustable and when company comes can be used to drink buttermilk out of.

The Mail Carrier has put a large cow bell on the mule he drives, and now the inquisitive public cannot hear his buggy wheels squeak.

Ammunition is getting so high Ras Barlow has announced that he will not shoot anybody unless he is absolutely compelled to.

Frisby Hancock is back home from a sojourn at Thunderation. He says he had a pleasant time, considering the fact that he visited his wife's kinfolks.

Luke Mathewsia is moving his house over about two feet, as his roof has been leaking on his cookstove.

The Wild Onion school teacher will deliver a very learned lecture at the school building some Friday night as soon as he can find something his audience does not know anything about.

Footwashing services will be held at Gander Creek next Fourth Sunday. The public is cordially invited, especially those who are delinquent in their observation of this part of the natural laws.

Since everything else has gone so high, Poke Easley went down to see if there had been any change in the creek.

The Hog Ford Preacher got off a great many truthful things last Sunday. We are glad to see him improving so.

March 3, 1879.

OVER THE STATE

OVER the State, a good many surprises developed in the way of election returns, but as far as the Republican party is concerned the results, on the whole, are gratifying. Some nominations there were which are not exactly as altogether satisfactory as some others might have been, but the reasons are not free from personal considerations, and majority rule in matters political in America has received too many endorsements to require any brief at this juncture.

There will probably be few persons, Republicans or Democrats, who will find fault with the tickets nominated, and this is quite as it should be. There is greater incentive towards party regularity this year than for a long time past, and harmony in the ranks is essential to success.

THE PRIMARY

NOW that the Primary is a thing of the past, suppose all hands proceed to forget it throughout Twin Falls County. In that the people are always right, the best men have won. The two tickets should be satisfactory to the members of their respective parties; if they are not, they can be corrected with a lead pencil on the day of election.

Many of our best people saw fit to vote in the school election. Wonderful are the ways of elections!

"SETTLED"

TEMPORARILY, at least, the railroad strike is a thing of the past. The victory is with the railroad men, but it is to be regretted that this was not gained in a more settled and substantial way. The settlement reached is exactly typical of the Wilson way of settling anything and everything. It patches up the trouble and settles virtually nothing. In the last analysis it will be found that the Congress has descended to a mere subterfuge, an act of placating in the interests of temporary peace.

No one pretends to believe that the general rules of organized labor governing railroad men should be any different from those under which other occupations operate. Railroad men should not be and are not expected to stand a monthly fine over all similar classes of labor as a penalty for being railroad men. In this the public is as one with the railroad men, but whether the public as a whole is prepared to accept the Congressional action as offering any solution whatever of the real problem is a very grave question.

WE WANT THE AMERICAN
FLAG UNSULLIED.

"Now, my friends, we want not only American efficiency in business, in efficiency in the organization of business, in the protection of the factors of human industry and commerce, we want the American flag unsullied and the American name honored throughout the world."
—From Mr. Hughes' speech at Chicago.

CUSTOMS OFFICIALS
HOLD UP MAXWELL

Famous Little Touring Car is Held at
Vancouver, British Columbia,
for \$500 Duty

VANCOUVER, B. C.—Canadian customs officials here are holding the famous Maxwell "25" touring car, which established a new world's motor-non-stop record last winter, for approximately \$500 duty. Unless the owners of the car pay that amount over to the Dominion government before a certain time, the car will be placed on public sale. If it does not bring the required amount at the public sale, the car will be destroyed, according to the collector of customs at this place.

There is little chance, however, that the car will be thrown into Puget sound, as the British Columbia Maxwell distributor is anxious to get the car for his personal use, and now that it is so well known, Maxwell dealers in all parts of the United States will try to get it from the Canadian government, and the Maxwell factory at Windsor, Canada, will also have a hand in the fight for the famous old machine. If the Maxwell attorneys do not succeed in getting it out of the king's warehouse before the time set for the public sale.

FIRE CAUSES LOSS IN NEARBY TOWN

SEVERAL FRAME BUSINESS HOUSES IN FILER ARE DESTROYED

Fire Company Does Splendid Work—Quick Action of Mrs. Tanner Prevents Further Disaster—Buildings Partially Insured

Four frame business buildings in Filer were totally destroyed by fire at about 1:30 o'clock Tuesday morning. The fire started from an unknown cause in the E. M. Stoughton store building, owned by E. M. Stoughton, a clerk in the store, who slept in a rear room, and had gained much headway that the fire could not be checked. He evidently was awakened by an explosion in the store, which was caused by other fire in the vicinity. Mrs. J. W. Tanner, living near by, was awakened by the explosion. She dressed hastily, ran out into the street and met Reinbolt, who was rushing away to give the alarm.

The fire company responded promptly, but found the building a mass of flames that could not be checked. Scores of volunteer firemen from town and from nearby ranches worked desperately, but were unable to prevent the spread of the flames to the adjoining building, also owned by Mr. Stoughton, and occupied by him and housing the office of Case & Anderson, real estate dealers. This building was pretty well emptied of its contents before it fell in ruins. A building owned by J. F. Finney, residing in California, was the next object of the destructive flames. One side of the building, which was occupied by Finney's barber shop and the other by Dr. F. A. Dwight, physician, and Dr. Burke, dentist, James McDuffey's tailoring shop, the Pastime pool hall and the grocery store conducted by C. C. and L. A. Smith, were saved. The loss of their stocks so far as possible and considerable loss was sustained in breakage.

The brick building on the other side of the fire, occupied by C. A. Love, was saved by men fighting the fire from the roof of the building. Several plate glass windows in stores and offices across the street were cracked by the heat.

Mrs. Tanner's Commandable Work

The quick thought and action of Mrs. J. W. Tanner prevented what surely would have been added disaster. In a building at the rear of the Stoughton and near the Tanner home, was a tank containing a large quantity of oil. This was threatened by the flames and one who would approach the building, until Mrs. Tanner, seeing the danger, rushed into the water, which she slipped into water, and these she used to protect the tank.

The loss sustained by Mr. Stoughton is estimated at \$21,000, on which was \$10,000 insurance. The two other buildings were valued at \$3500 and insured for \$2000. The small buildings owned by Mr. Finney were valued at about \$1000.

Mr. Stoughton states that he expects to erect brick buildings on his lots occupied by the buildings which were destroyed.

In recognition of the splendid work of the fire department, the business men of Filer made up a purse of some \$300, which they presented to the firemen.

ELECTION RUNS CLOSE

(Continued from page one.)

ness of the results is not generally disputed.

The following is the list of successful candidates of the present election, according to all available returns at hand.

Republican

Congress—Addison T. Smith, Burton L. French.
Governor—D. W. Davis.
Lieutenant Governor—L. V. Patch, Payette.
Secretary of State—George R. Barker.
Auditor—George W. Wilcox.
Treasurer—John W. Hagelund.
Attorney General—M. J. Swedlow.
Superintendent of Education—Miss Ethel E. Redfield, Moscow.
Inspector of Mines—Robert M. Nell.
State Senate—P. A. Aberton.
Representatives—W. F. McKee, Fred Nihart, Norman Barker.
County Commissioner—First District—T. E. Moore, Filer.
County Commissioner—Second District—Ed E. Williams.
County Commissioner—Third District—E. T. Newby.
Sheriff—P. O. Herriman.
Assessor—George W. Wilcox.
Treasurer—George D. Schwilger.
County Prosecutor—Frank L. Stephan.
Superintendent of Instruction—Miss Britton, Wolfe.
Probate Judge—O. P. Duvall.
Surveyor—J. H. Burkitt.
Coroner—C. A. Elmes.

Democratic

Congress—Marion J. Kerr, John V. Stahler.
Governor—M. Alexander.
Lieutenant Governor—Ernest L. Parker.
Secretary of State—Joseph Hancock.
Auditor—Clarence Van Dusen.
Treasurer—S. P. Worthington.
Attorney General—A. A. Walters.
Inspector of Mines—Thomas D. Frye.
State Senate—W. F. Allworth.
Representatives—H. Lawrence, Harold M. Sims, James Fitzgerald.

POLIOMYELITIS APPEARS IN FILER

SLIGHT CASE OF INFANTILE PARALYSIS IS REPORTED

Schools Are Closed Temporarily—Physicians Not Alarmed Over the Matter—Knowledge of Disease Lessens Fear

A slight case of poliomyelitis, or infantile paralysis, it is alleged, has been recognized in the illness of Glenn, 6-year-old son of Mr. and Mrs. L. O. Hughes, living near Filer. As a matter of precaution and to allay possible fears of parents in the vicinity, the schools of Filer, which opened Monday, were closed on Tuesday. Dr. D. Weaver, acting county physician, and other doctors of the community have visited the child to study the trouble.

One physician in Twin Falls has called attention to an article appearing in a recent number of the Saturday Evening Post. This article, the doctor stated, although written by a layman, is considered clear and logical in many points. This article, in common with the information being disseminated throughout the country by government scientists and physicians, tends to somewhat allay the fears of the people, in that it takes the mystery out of the trouble and shows its curable extent. Physicians and scientists generally have agreed upon the belief that it is a childhood disease, like measles and other well-known ailments, and that far more cases go undetected than are ever recognized. It is sometimes infantile paralysis only in most severe cases.

Germ Said to Be Cause

The source or cause of the disease is more doubtful than scarlet fever, but it is carried through the nose and mouth into the body. A government bulletin just recently issued on the subject says:

"Poliomyelitis is, even in the light of our admittedly imperfect statistics, known to be practically a world-wide distribution. As to climatic conditions, the bulletin also states that the disease is usually more prevalent in summer and early fall than at other seasons."

A local physician, in speaking of poliomyelitis, stated that "a great fear has spread over some parts of the country regarding this disease, which, however, is not so prevalent, nor does it have as many victims, as many of the common diseases, to the prevention of which many people are giving little thought, while they keep their eyes turned toward New York, where many cases of poliomyelitis have been reported recently."

The physician then called attention to an editorial appearing in the current issue of the Saturday Evening Post, which is quoted as follows:

Real Dangers Ignored

"Measles and whooping cough each cause more deaths than scarlet fever, but not nearly so much fear. There is a general opinion that modern science has virtually disarmed diphtheria, while group has long been popularly regarded as harmless; yet diphtheria and croup together kill as many people yearly as diphtheria alone. Smallpox, ever the registration area of the United States has, in fact, become almost negligible as a cause of death. Out of 100,000 deaths in 1914, only 212 were from that disease; but its power to inspire fear is great."

"The whole country has been startled by some hundreds of deaths from infantile paralysis. Quarantine regulations were put into effect in many places. By taking any particular disease in the calendar and printing details of the deaths from it for three successive weeks, people generally can be brought into a quite sane state of mind regarding it, preserving meantime a cheerful indifference to the ailments that are actually going to kill them."

WHEAT MAKES 69 BUSHELS

George Watt, who lives one and a half miles east of Buhl, had his wheat threshed last week and his total acreage of 56 acres averaged 69 bushels to the acre, says the Buhl Herald. He had one field of 16 acres that averaged 69 bushels and one of 12 that averaged 61 bushels to the acre. The average of the smaller field is railroad survey. It was set aside last year after the wheat was in the shock by the first engine, and the O. B. L. claim adjuster measured the field. Mr. Watt contracted his wheat before it reached the highest price and received \$1.56 per hundred pounds.

Riley's Millinery Opening

QUEEN GAGE

Monday Even'g September 11
7:45 to 9:30

Hats will be shown on models New York designs as well as Gage and Fisk patterns personally selected while in the market. Newest ideas and latest colorings. You are cordially invited to see them.

CATTLE LOWER AT KANSAS CITY YARDS

Pleasant Supply Keeps Prices Down—Sheep and Lambs Remain Fairly Steady

KANSAS CITY STOCKYARDS.—Two thousand cattle came in the first of the week, killing cattle unevenly lower under the influence of a heavy run at Chicago and a break there, stockers and feeders about steady. Beef steers are around a quarter lower than Wednesday, cows steady to 25c lower. A rather light run is expected the first of next week and there should be a good market.

Beef Cattle

Killers seemed anxious for cattle Wednesday and Thursday, when the strike seemed sure to come, and prices were strong those days. Today there is some weakness, most of the packers well supplied, and the shipping outlet on killing grades closed. Order buyers may see some killers give them good orders since Wednesday, and they will be strong bidders the first of the week, if the traders do not strike. Best fed steers this week brought \$11, and Kansas pasture steers reached \$9.50, bulk of the grass beef steers at \$7.25 to \$8.50. Lighter Oklahoma grass steers \$6.50 to \$7.25. Oklahoma wintered steers up to \$8.25. Colorado beef steers, weighing around 1050, sold this week at \$6.75 to \$7.25, and some Oregon steers brought \$7.25 to \$7.45.

Stockers and Feeders

Stockers and feeders declined 15 to 30 cents after Tuesday, but a good many buyers came in and raised prices. Demand first of the week was strong, and the market would doubtless have held up, except for apprehension about railroad service. Good red feeders sold up to \$7.50 today, and there is a fair demand for black cattle, everything desirable in the yards being pretty well cleared. Shipments out of stockers and feeders in August were 114,000 head as compared with 64,000 in August last year.

Hogs

A fair Friday run came in, 5000 head, and the market hit its low edge of yesterday, most of the order buyers being temporarily out of the market, because of railroad strike. The top was \$10.90, 20 cents under top yesterday, and bulk of sales ranged from \$10.50 to \$10.85, heavy hogs, up to \$10.85. The situation has a few undertones, and when order buyers get into action again doubtless this strength will assert itself. For the moment the market is uneven with a weak tendency.

Sheep and Lambs

Sales yesterday were 700 higher than the previous day, but the support given the market was taken away today and sales are off 25 to 50 cents. Utah lambs at \$10.25. Thursday the Gemmill Idaho lambs brought \$10.75, Utah making the same price. Feeding lambs this week sold up to \$10.10. The market is quiet today, but the strength of yesterday, though it is partly gone, was a hopeful sign. Weathers are worth \$7 or better. Sellers \$7.80.

WAIVE PRELIMINARY TRIAL

Harold and Lynn Lovelace, whose preliminary trial on the charge of kidnaping Professor F. T. Hamill was to have been held this morning, through their attorneys, Guthrie & Bowen, waived preliminary trial and were bound over to the October term of the district court.
