NUMBER 42

BIDS FOR NEW POSTOFFICE TO BE CALLED FOR

**MR. SMITH BRINGS GOOD
NEWS AS TO PROPOSED
FEDERAL BUILDING**

CONGRESSMAN SMITH IS GIVEN ASSUR-
ANCES THAT ADVERTISEMENTS
FOR BIDS FOR THE CONSTRUCTION
WORK WILL BE CALLED
FOR BY THE 15TH OF OCTOBER
DELAY IN ARCHITECT'S OFFICE

Congressman Smith brings good news with reference to the proposed federal building, the construction of which has been so long delayed.

"If assurances given me just before leaving Washington by the supervising architect are confirmed," remarked Mr. Smith, "advertisements for bids for the construction of the new federal building will be called for by the 15th of October."

"I have been making monthly visits to the department for the last two years, urging the expedition of the work, but because of the congested condition of work in the office of the supervising architect, no definite assurances as to the time of commencing the building could be given. The committee on appropriations has steadily refused to increase the force in the office of the supervising architect, notwithstanding the fact that each succeeding session of Congress authorized an increasing number of federal buildings. As a result, the work has been gradually accumulating."

Will Be Attractive Building

In addition, there has been such a drain on the federal treasury, occasioned by increasing appropriations, that the secretary of the treasury has not been inclined to hasten the construction of buildings, except in cases where their need was imperative, notwithstanding the appropriations by Congress. In many instances he has authorized buildings costing considerably less than the amount appropriated. In the case of our city \$85,000 was appropriated for a building, and it was only by persistent protest against the construction of a building for a much less amount—that the expenditure of the entire amount for the building was directed. The building, as planned, is much less pretentious than was originally contemplated, but the plan finally adopted will make an attractive and commodious building, which, it is believed, will meet the needs of the post-office for many years to come.

"If the advertisements for bids issues on the 15th, and a contract is let, the result of such bids, I think it is safe to assume that construction work will begin by the first of March next."

CASSIA'S CANDIDATE VISITS FILER FAIR

Worthington Says Neighboring County
Always Supports All Twin Falls
Men Running for State Offices

That in the recent primaries Cassia county gave Senator Sweney 62 votes out of a possible 100, that both parties are preparing to give him their full support in the coming election, and that he counts on the aid of the whole vote to win Twin Falls candidate for state office was the declaration of S. Worthington, Democratic candidate for state treasurer, who was in town last Friday in attendance at the Filer fair, shaking hands with his many old friends and making new ones. Accompanying him were C. W. Wilburn of the Twin Falls-Oakley Lead & Water company, Mr. Wilburn well known in Twin Falls, having been in times past a resident here several times in the year. His business now keeps him in Oakley, and while he is not a candidate for any office, he, like Mr. Worthington, is a strong believer in reciprocity.

LOCAL GIRLS JOIN COLLEGE SORORITIES

Rushing week at the University of Idaho, at Moscow, closed Sunday morning with a large number of freshman girls from the dormitory to the respective sorority houses selected by them for the remainder of their college life. Two popular Twin Falls girls were chosen to cast their lot among the "Greeks."

Miss Gladys Dwight, daughter of Dr. and Mrs. W. H. Dwight, was pledged Gamma Phi Beta, and Miss Pauline Field, daughter of Mr. and Mrs. Frank Field, was pledged Delta Gamma. Both girls were members of the national organizations as well as good chapters at Moscow.

RECEPTION FOR TEACHERS

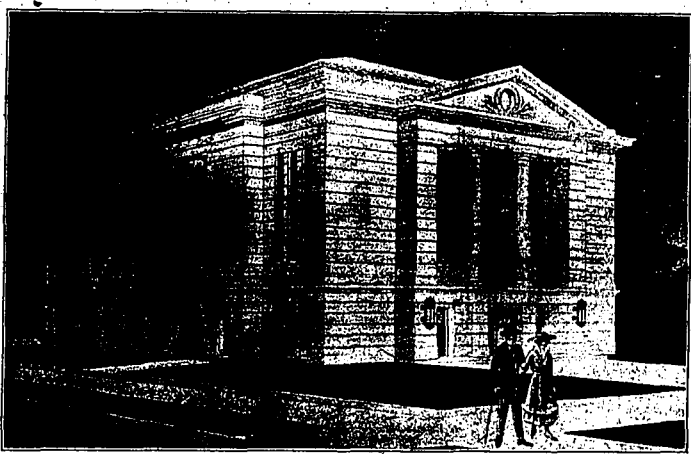

Members of the Methodist Church entertained teachers of public schools. On Friday evening of last week the people of the Methodist church held an informal reception for all the teachers who were in the city for the Twin Falls. Over a hundred people were in attendance during the evening. Brief talks were given by Dr. H. W. Parker, Dr. C. L. Bent and Dr. W. Parker by Mrs. Cora M. Biggs and Miss Katharine Pittman. Refreshments were served at the close of the evening.

SOMETHING DIFFERENT IN THE WAY OF A CHURCH DESIGN—FROM A SKETCH BY THE ARCHITECT, JOHN VIBBER

TWO AUTOS MEET IN HEAD-ON COLLISION

HEAVY CLOUD OF DUST BETWEEN
CARS OBSTRUCTS DRIVERS'
VIEW OF EACH OTHER

Mrs. C. S. Miller Taken to Twin Falls Hospital—Her Baby Thrown Through Windshield Escapes With a Few Scratches—Miss Ruth Muscell Becomes Painful Injuries—All Parties More or Less Bruised

An automobile accident, exceedingly unfortunate to all concerned, occurred about 2 o'clock Saturday afternoon on the "pole-line" road to Filer. Professor C. S. Miller, principal of the Twin Falls school, with his wife and 19-month-old son, were on their way to Twin Falls, and Ralph B. Smith of this city, accompanied by Mrs. C. M. Biggs and her sister, Ruth and Ethel Muscell, was on his way to the fair at Filer.

The cars met in head-on collision and all occupants were thrown from their seats. Mrs. Miller received severe cuts about the face and injuries about the head that for a time were thought to be serious. Her baby was thrown through the windshield and onto the hood of the engine, but sustained only slight cuts on one hand and one foot. Mrs. Biggs hurried to Mrs. C. M. Miller's hospital, where her injuries were attended to. Stitches were taken in four different places on her face to close the wounds.

Miss Ruth Muscell, who occupied the front seat of the other car, beside Mr. Smith, was painfully injured. One eye was badly bruised, both knees cut and bruised and she also received injuries to her head. The other occupants escaped with lesser bruises and cuts. Mrs. Biggs hurried to Mrs. C. M. Miller's hospital, where her injuries were attended to. Stitches were taken in four different places on her face to close the wounds.

DEATH TAKES BABE FROM MOTHER'S ARMS

Death came, some time between 10 and 11 o'clock last night, to Jack, the little 6-month-old son of Mr. and Mrs. Harry Calkins as the child lay in his mother's arms while they drove to their home.

Mr. and Mrs. Calkins had spent the evening with the latter's parents, Mr. and Mrs. George W. Farr, on Fifth avenue east. The baby seemed to be in perfect health and laughed and played as usual. The parents left Farr's about 10 o'clock to drive to their home at Shoshone Falls, where the mother is employed in the power plant. The child seemed to be asleep during the ride, but when the parents reached home they discovered that the baby was dead. They telephoned at once to a physician and while awaiting his arrival did everything possible to arouse the child or discover a spark of life. The physician, upon examining the baby, stated that death apparently was due to an infant heart affection, and that the child evidently had passed away before the parents reached their home.

Funeral services will be held from the Grossman-Emes chapel Friday afternoon, the Rev. H. W. Parker of the Methodist church officiating.

FOOTBALL BEGINS HERE TOMORROW

FIRST GAME OF SEASON WILL BE
PLAYED WITH SHOSHONE HIGH
SCHOOL—VISITORS ARE GOOD

Local Boys Have Been Practicing Daily Since School Began—Games Scheduled With Buhl and Rupert, and an Effort Is Being Made to Secure a Game With the Salt Lake City High School for November

On Friday of this week the high school football team will play its first game of the season with the Shoshone high school.

Every effort is being made to develop a winning team this season. The schedule includes the towns of Shoshone, Buhl and Rupert, two games with each. After these games are played, it is planned to play two or three games with the larger high schools west of the Rockies. The management is considering a game with the high school of Salt Lake City for November.

It is hoped that the student body and public will give the football team their loyal support in order to make the year a banner one.

RECEPTION TONIGHT FOR BUSINESS GIRLS

Parish Hall to Be Scene of Big Jolly
Informal Gathering of Business
Women of the City

Every business woman and business girl and teacher of the city is expected to be in attendance this evening at the informal reception being held under the auspices of the Business Women's club of Twin Falls. The affair will be strictly informal and in the nature of a general get-together gathering marking the opening of the club year. No special or written invitations have been sent out, but every business girl who knows of the reception is expected to be there and to tell every other business girl to be there. Business women who are visiting in the city are also given a cordial invitation to attend.

PRESBYTERIANS APPROVE PLANS FOR NEW CHURCH

CONSTRUCTION OF MAG-
NIFIENT STRUCTURE
TO BEGIN IMMEDIATELY

BUILDING TO BE ERECTED ON
THE CHURCH PROPERTY, JUST
NORTH OF JUSTAMERE INN—
COST ESTIMATED AT \$30,000—
WILL BE 60 BY 100 FEET, BRICK,
WITH WHITE ENAMEL VENEER

Standing as it will, just north of the Justamere Inn, half way between the courthouse and high school building, the new Presbyterian church building, tentative plans for which have recently been accepted by the church session, will be a splendid addition to the gradually-growing civic center of Twin Falls.

Occupying a ground space of 60 by 100 feet, constructed of brick, with exterior veneer with white enamel, the new building will stand back 20 feet from the property line at the corner of Fifth avenue and Second street north, leaving a good lawn space on both sides.

According to the plans, as prepared by Architect John Vibber, there will be a bright, airy basement, for Sunday school and social entertainments, and a big auditorium and gallery, seating, in all, nearly 500 people.

Details Not Complete

The details of the furnishing have not been worked out, but the accounts of the proposed building will favor a pipe organ, and it is the intention of the church members to make the purchase, but otherwise both the architect and the session are at present unable to give more details.

The Presbyterian church was one of the first churches organized in Twin Falls. Rev. Mr. Barton, traveling supply minister for Idaho, first conducted services here some time ago, broken intervals during 1905. As soon as he had succeeded in getting the struggling young church on its feet, Rev. John G. Gentry was called to accept the pastorate, in the spring of 1906, and it was under his ministry that their first church building was built. Following the death of Dr. Gentry, in the spring of 1912, Rev. Mr. Anderson filled the pulpit for several months until a call was extended to Rev. Dr. Shepherd, the present pastor.

WINS CHAMPIONSHIP IN FINAL SERIES

TWIN FALLS DEFEATS SHOSHONE
YESTERDAY AT JEROME BY
SCORE OF 7 TO 6

Only Two Games Necessary to Win Post-Season Series—Ten Innings Needed to Decide Yesterday's Match—Shoshone Pitcher Blows Up in the Last Few Minutes of Play—Locals Played the Game All of the Time

By defeating Shoshone yesterday to the tune of 7 to 6, the Twin Falls baseball team clinched their right to the championship of the Southern Idaho league.

Two games were necessary to win this post-season series, the Sunday game on the home grounds going to the local team by the score of 4 to 3. Both games were pitched by either of the spectators and players, the Twin Falls boys each time winning against a seemingly impossible lead.

Ten innings were necessary to decide the game at Jerome yesterday. At the close of the ninth the teams stood even at 3 to 3. Shoshone ran in three scores in the tenth inning, but the Twin Falls boys held firm, and by playing good, conservative ball, a timely placed three-base hit by Dave Graves cleverly blew running by Doran, cleanly placed singles by Charles Graves and Watson, aided by the fact that in the last few minutes of play Edman, pitcher of Shoshone, pitched to the Shoshone, blew up and walked three men, the winning run was scored and the locals brought home the bacon.

Efforts are being made to secure a game between Twin Falls and the St. Anthony aggregation, winners in the Upper Snake River Valley league.

MANY THRILLS IN "THE SMUGGLERS"

Donald Brian Appears in Famous Play-
ers' Comedy at the Idaho The-
atre Next Week

Donald Brian, famed stage star, and one of the three stellar attractions of the recent success, "Hybrid," returns to the Idaho theatre to play the comedy produced by the Famous Players Film Co. on the Paramount program, "The Smugglers."

The laugh-film will be the main attraction at Idaho theatre on October 3 and 4.

As the title of this photoplay comedy clearly indicates, it is a hilarious, hilarious and hilarious both amusing and stirring. But underneath the fabric of romance and drama that are connected with the innocent smugglers, there is a strong foundation of laughter, for the director of the production, the well-known Sidney Clcott, has used the star's own life as a support to take themselves too seriously, and the result is that the comedy of the plot is ever-present and irresistible.

HONEYMOON TRIP INTERRUPTED BY AUTO ACCIDENT

MR. AND MRS. CHARLES P.
SMITH HAVE NARROW
ESCAPE

CAR GOES OVER 75-FOOT EMBANK-
MENT AND IS BADLY WRECKED—
YOUNG COUPLE ESCAPE WITH
SLIGHT INJURIES—MARRIED AT
HOME OF BRIDE'S PARENTS,
MR. AND MRS. H. O. MILLER

When Charles P. Smith and bride, formerly Miss Mary C. Miller, started happily on their honeymoon, making trip to Boise and other points, on Saturday of last week, they had no thought of accidents or an interrupted honeymoon. Even the reports of terrible chucks, holes along the route did not discourage them, but the chucks spoiled the trip and very nearly resulted in serious or fatal injury to both.

As they reached an almost impassable place in the road, some three miles this side of Glenns Ferry, where the road runs along the face of a cliff, or high embankment, with a drop of some 75 feet to the railroad track and the river below, their car struck one of the worst of many chucks. The machine skidded and went over the embankment. Mr. Smith seized his bride by the shoulders and held her against the steering wheel until the car turned completely over and dropped them both into the top of the embankment. The machine rolled down the embankment 75 feet and landed, badly wrecked, upon the railroad track. Mrs. Smith received a slight injury to one foot, but otherwise both she and Mr. Smith escaped with scarcely a scratch. They went on in to Glenns Ferry and there sent a message to their parents in this city, and H. O. Miller, the bride's father, and Frank C. Smith, the bridegroom's father, started at once over for Glenns Ferry. The young couple reached Monday night at the Miller home, and Frank C. Smith remained in Glenns Ferry to have the damaged car repaired sufficiently to bring it home.

Wedding in Twin Falls

The wedding took place at 11 o'clock Saturday morning at last, at the home of the bride's parents, Mr. and Mrs. H. O. Miller, the Rev. L. B. Franek of the Episcopal church, officiating. Only the H. O. Miller and Frank C. Smith families and the Elliott Miller family of Buhl were present as the young couple, unattended, took their places beneath a beautiful floral arch where the Rev. Mr. Franek made the words of the ring ceremony. The bride wore a handsome mauve broadcloth traveling suit, with becoming hat and gloves and shoes of corresponding color.

The Miller home was beautiful throughout with a profusion of autumn flowers and ferns. A delicious breakfast was served at 11:30 by Mrs. Ida M. Arroll of the Hotel Bogerson. The table appointments were especially dainty and attractive in pink and white. The safe orchestra played during the serving of the breakfast.

Mr. and Mrs. Smith left in the afternoon on a motoring trip, with Boise, as their first destination, but after the accident postponed their plans and returned to Twin Falls, where they will make their home.

They will move to the Twin Falls pioneer days some ten years ago, they are well known in this community and have a host of friends, who, in extending the welcome to the young couple, expressed their gratification over the fortunate escape of Mr. and Mrs. Smith from serious injury.

JARBRIDGE

THAT the camp of Jarbridge is rapidly nearing the crest of a wave of substantial prosperity is apparent on every hand, and it does not require either an efficiency expert or a mining engineer to figure out the reason.

There is nothing of the boom air about the place. The atmosphere is one of clean, active business development. A number of the mines are working, one or two in three shifts. One or two small mills are handling ore and another will be built next Spring. Business is being fed upon real cash and is responding to the treatment.

No one looks to see Jarbridge a second Butte, and it may be some time before there is any very material change from present conditions. But the wildcat days are over, and a tendency to mine the ground rather than the general public is apparent. Probably three-fourths of all supplies shipped in go via the Twin Falls route. A large part of the goods are purchased here. There is a close bond between Jarbridge and Twin Falls, and every reasonable effort should be made to keep it intact. The mines of Jarbridge will eventually make Jarbridge a thriving, hustling, prosperous and active town, and the metamorphosis has already commenced.

BOOZE, BUNK AND BILGEWATER

THE above sounds a good deal like a 'sub title over a political speech, but it is not. It is a term made use of by the State Pure Food Department with reference to the ingredients of the average patent medicine.

The paragraph containing it follows:

"One does not have to search long through the columns of the daily or weekly papers to find how eager some people are to spend their

money for that which is not bread, nor yet medicine. There must be literally myriads of persons in various stages of physical decay, or in the mental state that leads them to imagine they are. Every newspaper, practically, carries columns of advertising extolling the virtues of nostrums for the ills that the flesh is heir to. Analyses of these nostrums prove the vast majority of them are composed of booze, bunk and bilgewater, and have no merit whatever. Yet they are eagerly bought and imbibed by those who can least afford to waste their money and risk their health."

It's good, but it isn't strictly true in that feature in which emphasis is placed upon the part played by the newspapers in spreading the bunk. Possibly there are no newspapers in the State of Idaho which decline absolutely to receive patent medicine advertising, but that the tendency of the press as a whole is steadily in that direction none can deny. Over the country there are many publications which have such a rule, and whose publishers make no exceptions.

Getting down to local conditions, has anyone ever seen a Peruna advertisement in a Twin Falls newspaper? Or read Swamp Root in an alleged news item? How many persons have been led to extol the virtues of Viavi through the printed page? Is the demand for Brain Food based upon the newspaper publicity that particular product has received? Some of the smaller newspapers over the State are, perhaps, not so particular, but if their patrons were more so, it might be altogether different.

IT PAYS

SOME interesting figures are offered by the Auditor of Spokane County as tending to shed light upon the matter of the expense of administration under the new anti-liquor law, as compared to old conditions.

On January first, nineteen-sixteen, the State of Washington, along with Idaho and Oregon, entered the prohibition column. In the first eight months of the dry regime the Auditor of Spokane County reports the County's business was conducted for fifty-four thousand, nine hundred and eighty-seven dollars less than during the first eight months of last year. To September first of last year the operating expense was four hundred and sixty-eight thousand, six hundred and twenty-two dollars. During the corresponding period this year the cost was four hundred and thirteen thousand, six hundred and thirty-five dollars.

The bulk of the saving was made in the conduct of the jail, prosecutor's office, superior court, indigent relief and sheriff's office.

There is nothing extraordinary about this. If there ever was a Simon-pure example of economic waste on the face of the earth, the saloon business surely supplies it.

THE TWO MR. WILSONS

(An editorial from the Chicago Tribune of September 17.)

Mr. Wilson's habit of thought and manner of action were not at first perceptible. It will be recalled that when he was nominated by the Democratic convention, by the joint efforts of William Jennings Bryan and Roger C. Sullivan, the wisdom of the convention was applauded.

We have an idea that a great many voters felt a sense of relief. There was Roosevelt, Progressive, and Wilson, Democrat. There seemed to be no reason to fear that Mr. Taft with his reactionary Republicans would be put again in power. Consequently the man would be either Roosevelt or Wilson and voters who were for Roosevelt felt that they could accept Wilson.

He had everything to encourage confidence in a candidate. People thought he had a trained intelligence, sturdy intellectual honesty, and high motives. When he was elected and took office the disposition of people and agencies that had been for Roosevelt was to accept Mr. Wilson.

The Tribune, just as a great many other Roosevelt agencies, resolved every doubt in Mr. Wilson's favor for nearly two years. Some things he did were perplexing, but the solution was sought in the understood character of the President. If the thing could not be clearly seen it was because the position of the observer was unfavorable. The observer did not have the full view which would have made the explanation simple.

Therefore, whenever question arose Mr. Wilson was given the advantage. The assumption was that he was right because he was President Wilson. The expressions of confidence in the President during this period, coming from people and agencies which had opposed him in favor of Roosevelt, are now ironic foot notes to current criticism.

These early expressions represent a confidence and hope which Mr. Wilson has wholly destroyed. The confidence was his and he had it from the opposition. If it has been destroyed it is wholly his own act. There is no reason now for being distrustful of Mr. Wilson unless he himself has furnished the reason. There is no reason now for opposing Mr. Wilson when he was not opposed in 1913 unless Mr. Wilson has offered the reason.

If Mr. Wilson had been a trustworthy President, criticism of him which was intended to be partisan would have been consistent and persistent, ignoring the virtues he presented and planning all ways toward the 1916 campaign. It would not have made a record of favorable comment which might now be used upon the unintelligent to prove the inconsistency of the critic.

Criticism which has ulterior motives is provident and careful. It guards itself and does not try to be fair. It is fair criticism which, finding the person it is treating has not deserved the confidence, offers a record of changed opinion.

It must be confessed that Mr. Wilson has accomplished this change in opinion.

He drove his newly-won supporters away from him. They remained with him until he made it impossible for them to remain any longer. Partisan supporters can swallow anything. It is the first business of a partisan to accept whatever fact is presented.

The Tribune supported Mr. Wilson in every policy he offered for over a year, puzzled at times, but nevertheless, as we have said, resolving every doubt in favor of the President. The Tribune even accepted and defended his Mexican policy and called it a highly moral bit of statesmanship. We had the same feelings then regarding Mexico which Mr. Wilson professes now—that Mexico offered an experiment in democracy, wretchedly conducted, but with a hope of success.

That hope has disappeared, but Mr. Wilson, with the stubbornness of a doctrinaire, to whom dogma, not consequence, is essential, refused to see that time had worn out expectation.

Mr. Wilson could be opposed as an intellectually honest opponent upon the question of Mexico. If he still thinks as he once thought, that Mexico had the germ of self-governing democracy, that might constitute a difference of opinion to be expressed with violence or restraint as occasion prompted, but still

Farm Loan

The Permanent Hog House

No Other Building on the Farm Pays For Itself So Quickly

A Government expert says that "Good hog men average about seven pigs raised to the litter. Many do better. But the general average raised on the farm does not exceed four pigs to the litter."

This big difference is largely in the housing. The question is not so much a matter of cost as the proper design of a hog house. Many hog houses cost enough to be good, but are entirely unfit because the sun cannot shine into the pens. Sunshine and ventilation are absolutely necessary.

On the other hand, inexpensive houses often give better results than more costly ones—because of the better design.

The design is what counts. Here's where we can help you.

PICTURES TAKEN BY A LOCAL MAN WIN HIGH PRAISE

SPECIAL REELS MADE BY RALPH E. WOODS ARE SHOWN IN SALT LAKE

D. S. SPENCER, OFFICIAL OF OREGON SHORT LINE, WRITES COMPLEMENTARY LETTER REGARDING PICTURES—VIEWS OF THE BEAUTIFUL SCENERY IN SAWTOOTH MOUNTAINS SHOWN

After spending some three months in the mountain fastnesses and lake regions of the Sawtooth range, and in various places in Snake River canyon, near Shoshone falls and other points, taking motion pictures of the wonderful views presented, and then struggling to secure means to finance the expense of developing and producing the pictures, the hopes of Ralph E. Woods of this city are realized in the splendid success of his work and its recognition by people of authority.

Mr. Woods worked long and hard to make his work a success and his said little about it, preferring to wait until his success was assured by the pictures themselves. The films were sent to Salt Lake to be developed and, with Mr. Woods' consent, were shown in the Empire theatre there. The Salt Lake Evening Telegram of Wednesday of last week contained the following interesting account:

"Genius, hiding his light and struggling along to gain his goal, has been unearthed in the form of a young man of Twin Falls, Idaho, who puts all his spare cash into motion pictures. 'The discovery' was made ten days ago by George E. Carpenter while visiting L. W. Clement, a local free lance camera man. Carpenter happened to pick up a typewritten list of titles and was immediately struck with their originality and wording. 'Clement said that the titles had been sent him by a young man named Ralph E. Woods of Twin Falls, together

with the request that he develop some film which was inclosed.

"To cut a long story short, the film was developed and proved to be some very remarkable photographs of scenery and backwoods incidents, around which was woven the legend of Shoshone falls, told in motion picture with the famous falls for a background.

"So dated was Carpenter with his find that after wiring Twin Falls he invited several prominent film men of this city to witness a private showing of the pictures, with the sequel that one manufacturer's agent promptly entered into correspondence with Woods with the idea of marketing his present and future output. Taking the sample film as the criterion of the balance of the negative taken by Woods, all the reels sent in by Woods are now being developed and printed."

Mr. Woods was further gratified when he received a personal letter from D. S. Spencer of Salt Lake, assistant general passenger agent of the O. S. L. Mr. Spencer inclosed the above clipping and, after calling attention to the article and stating that he had gone to see the pictures, he closed as follows:

"The pictures were a revelation to me, and I believe we could make use of one set of the film, complete with titles, in our lecture service in the East."

A representative of The News was invited to the Orpheum theatre Monday night, where a thousand feet of the film was shown. It was the opinion of all who saw them that the films were as good as the best scenic pictures ever shown here and of special beauty and interest. Only a few of those taken in the Sawtooth mountains were shown at that time. Those of Shoshone falls and other local scenes are said to be exceptionally beautiful.

The pictures are to be shown in a series at the local Orpheum theatre, beginning with Thursday of this week.

COMPUTING THE VANTAGE
"The last German will face the last Briton." And that will leave the last Russian, the last Frenchman and the last Italian to tussle single handed with the last Austrian.

There is this about having a daughter old enough to outlive a husband: it gives you a chance to work off the boyhood reminiscences your family long ago refused to listen to.

Johnny went into the school library and said, "Please, mam, I want the life of Julius Caesar."

"(Burry), I said the librarian, 'but Brutus got ahead of you.'"

SERVICES HELD FOR LATE J. A. ABRAMSON

MANY FRIENDS GATHER TO PAY FINAL TRIBUTE TO WELL-KNOWN BUSINESS MAN

Services Held at Grossman & Emes Chapel—Members of Elks' Lodge and Knights of Pythias Attend in Body—Floral Offerings Were Many and Beautiful—Interment Made in Twin Falls Cemetery

A large number of friends gathered with the wife, adopted daughter Edna and the three brothers and their families to pay final tribute to Joseph A. Abramson, funeral services for whom were held Saturday morning from the Grossman & Emes chapel.

The services of the Christian Science church were read at the chapel, followed by a solo by A. Wilton Pock. At the cemetery the Elks' lodge had charge of the last rites. The following memorial was given by H. C. Hazel, a member of the lodge:

"Brothers and Friends: The incident of death is no more mysterious than the incident of birth, and no more uncommon. We are born to die, and we die that we may live. This is the whole philosophy of human existence, and the centuries of time have not changed the decree of fate. 'The birth of man does not greatly impress us; but when death invades our ranks we are appalled. It is not life that bids us pause, but the loss of it. There is a sacred dread of death interwoven with the whole fabric of life. Likewise, a clinging faith in immortality has been a recognized attribute of man since the birth of the human intellect.

"Although a natural and inevitable event, death always comes like a blow that seems to crush the heart. It produces anguish and mourning and opens a gulf which we vainly try to bridge with strands of flowers and garlands of living green. Out of the kinship of sorrow we think gentle thoughts, we speak tender words. We halt, we wonder, we reason, we scan the heavens, and, perforce, we become reconciled.

"In this simple and reverent ceremony it is not my purpose to deliver a personal eulogy upon the brother who no longer answers when his name is called. Brother Abramson was born in the state of Iowa, 35 years ago, and leaves a widow, a mother, two sisters and three brothers. He was an American citizen and our brother, responsive to every duty of citizenship and brotherhood. He who shared our sorrows and participated in our joys took his vow beside the altar, attested his obligation upon the great book of law, and pledged his allegiance to the American flag.

"We see no tears or expression of fear upon the face of him who lies before us. Still and somber though he be, he has but joined the ranks of millions before him. The clock of his days has stopped. Upon its dial the motionless shadows mark eleven, our golden period of recollection. Whatever he may have done, whatever he may have attempted to do, all of his efforts and ambitions have vanished to that far-away land where silence and sleep like flocks of amaranth lie.

"And we are his treasures. It behooves us to cherish his good deeds, to forget his imperfections, and to inscribe his name upon the tablets of love and memory. We have announced that he was faithful in his allegiance to the fundamental principles of our order. As he was true to everyone of us, so let all of us be true to him.

"And so I say, to the surviving brothers in his lodge: Goodbye—goodbye until the hour of eleven shall regularly return to set again the bells of memory a-chiming. 'Thou art I, and I am thou, for thy name I have as a tallman upon upon my heart.'"

OUR BLOODTHIRSTY NATURES
Theatre managers are seriously considering a revival of the old-fashioned melodrama, because patrons want to see the villain get the worst of it. They want more than that. They want the villain to get all that's coming to him. A movie nowadays is a failure if the villain merely gets shot. That's too easy. They want the hero to beat him up, and the heroine to pull his hair and scratch him, and then, if he isn't thrown over a cliff, the patrons go away with the feeling that the film was only fair.

FINAL BAND CONCERT

Last Open-Air Program of the Season Will Be Given Sunday

The last open-air band concert to be given this season by the Twin Falls band will take place Sunday afternoon in the city park. Owing to the holding of the W. C. T. U. mass meeting in the afternoon of that day, the concert will begin at 2 o'clock in order that it may not conflict with the mass meeting.

The concerts given during the summer have been especially appreciated by the citizens this year, and large crowds gathered at the park on each occasion. The fact that the season has drawn to a close and that on next Sunday the last concert of the summer will be given is a source of genuine regret to the hundreds who have enjoyed the music each week.

NOT ON THE PROGRAM
The teacher had offered a prize for the largest number of flies killed by any one of her pupils. One day, after school hours, Max came into the house crying bitterly.
"What on earth is the matter?" inquired his mother.
"Why," sobbed the little fellow, "I was winning; then, and—then one of—of them was a—was a horse!"

REORGANIZATION PLANS AND ANNUAL ELECTION OF OFFICERS OCCUPIES ATTENTION OF BUHL PIONEER COW TESTING ASSOCIATION—THREE-YEAR PLAN PUT INTO EFFECT

Reorganization plans and the annual election of officers occupied the attention of the dairymen gathered at the meeting of the Huhl Pioneer Cow Testing association, held at the home of Gustav Kunze Monday evening. says the Huhl Pioneer. The meeting was one of the best ever held by the association and was marked by enthusiasm for the coming year's work. Eighty persons interested in the work of the association were present.

Gustav Kuusio, president of the association, presided over the meeting and gave some interesting talks along the line of dairy work in general and the benefits of the association. The association was reorganized on a three-year basis, the first association in the United States to adopt this plan. The plan of the association has many important advantages, as was pointed out at the meeting. It saves the expense and trouble of organizing every year, it gives the members more valuable time than many times more valuable than a one-year record, and it also gives the members a chance to make a record for a longer period, been dry but a few days, as against six or seven weeks, which is considered by most dairymen the proper rest.

W. E. Meyers, assistant with the western office of the dairy division at Salt Lake, was present at the meeting to reorganize the association. He was assisted by County Agent Birch; President Kunze and O. T. Koester, the official tester for the association. Mr. Meyers, being sick part of the time he was here, most of the work was accomplished by the above men.

Many Retain Membership

Mr. Meyers gave an interesting talk on the advantages of the new plan of organization and commended the local dairymen on the fact that 90 per cent of the old members joined again for the three-year time. Mr. Meyers stated that Eastern associations figure on a 50 per cent loss of membership at the end of the first year.

Mr. Meyers also said that the department of dairy husbandry of the state college desired the bulletin of the first year's work of the Buhl Cow Testing association to use in their work at the university. Mr. Meyers also stated that most likely Mr. Koster would be on the program at the dairymen's convention at Salt Lake, which is held some time in November, to explain the methods used in Idaho's first testing association, and that it would be an excellent plan to send him to this convention, where the Buhl country would be well advertised as a premier dairy section of the first year.

O. T. Koster, official tester of the association, gave a brief summary of the year's work. In his report he mentioned that there were 485 cows on the tester's record, and that there will be complete yearly records on 337 cows. Records of the cows of 24 of the 28 members of the association for the year are complete.

Mr. Koster stated that at the beginning of the association last October there were 19 pure-bred sires. At the present time there are 25. Ten herds were all or partly pure-bred last fall, while at the present time there are 13.

68 cows were sold for beef, most of them "star boarders." Some of the dairymen, it was found, were actually paying money for the privilege of keeping these boarders on the ranch.

The new organization now has 29 members and a prospect of more to join. There are approximately 500 cows signed, on a \$1.50 basis per cow a year, with 15 cents per month for cows that are entered after the beginning of the year. It is the plan this year to have the water keep a close record on all cream separators. Those that have proven a great saving in time. In view of the efficiency of the past year's work, Professor Ellington, in charge of state work, has decided to allow Mr. Koster to do the official testing of the pure-bred herds, and this test will be recognized by the Breed

**This is the
Stove Polish
YOU
Should Use**

IT'S different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is trial. Use it on your next stove, your parlor stove or your gas range. If you can't find it the best stove polish you ever saw, we'll refund your money. Write on blank slip.

"A Shine in Every Drop"

BY RUDYARD KIPLING

If you can keep your head when all about you
Are losing theirs and blaming it on you;
If you can trust yourself when all men doubt you,
But make allowance for their doubting too;
If you can wait and not be tired by waiting,
Or being lied about, don't deal in lies;
Or being hated don't give way to hating,
And you don't look too good, nor talk too wise;

If you can dream—and not make dreams your master;
If you can think and not make thoughts your aim;
If you can meet with Triumph and Disaster,
And treat these two impostors just the same;
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools;
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools:

If you can make one heap of all your winnings
And risk it on one turn of pith-and-toss,
And lose, and start again at your beginnings
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone,
And hold on when there is nothing in you
Except the will which says to them, "Hold on";

If you can talk with crowds and keep your virtue,
Or walk with kings—nor lose the common touch;
If neither foes nor loving friends can hurt you;
If all men count with you, but none too much;
If you can fill the unforgiving minute
With 'sixty seconds' worth of distance run,
Yours is the earth and everything that's in it,
And—what is more—you'll be a Man, my son.

association as strictly official. This is the first time this has been done in the state. It will require two days' work each month, there being two pure-bred herds in the Buhl country.

The election of officers for the new organization resulted as follows: President, Gustav Kunze; vice-president, H. H. Stiyer; secretary, George A. Childs; treasurer, M. P. Dau. These officers, together with J. H. Gott, H. H. Payne and W. S. Samuels, comprise a board of directors.

Enjoy Good Eats
After the meeting was adjourned, the well-known hospitality and generosity of the Kunze homo was displayed by the serving of delicious refreshments, and although there were many more present than had been counted upon, there was plenty to go around. Mrs. Kunze was assisted in the serving by Charlotte McQuown, Nell McQuown and Lilly Lindstrom. The next meeting will be held at the H. H. Styer homo, in November.

It was discovered during the evening that the date of the meeting was the anniversary of the wedding of Mr. and Mrs. Kunze and also that of their daughter, Mrs. Tamlar.

daughter, Mrs. Hamler.

SUNDAY IN THE CHURCHES

Methodist Episcopal

Sunday school at 10 a. m. Public worship at 11 a. m. and 7:30 p. m. Communion service at the morning service. Ex-Rabbi Joseph Goldman of Russia will speak at the evening service. THE MOST COVETED RECORD IN AMERICA HAS ALWAYS BEEN THE TRANSCONTINENTAL RECORD FIVE YEARS AGO A CAR BECAME FAMOUS BY MAKING THE TRIP FROM SAN FRANCISCO TO NEW YORK IN 10 DAYS AND 15 HOURS. LAST MAY, IN GLARING HEADLINES, THE NEWSPAPERS ANNOUNCED A SENSATIONAL RECORD OF 7 DAYS, 11 HOURS AND 53 MINUTES--MADE BY A FAMOUS EIGHT. THAT RECORD--THEN CONSIDERED UNBEATABLE--WAS LATER BEATEN BY ANOTHER CAR.

AND NOW THE HUDSON SUPER-SIX MAKES THE TRIP IN 5 DAYS, 3 HOURS AND 31 MINUTES. BREAKING LAST RECORD SET BY RECORD BY MORE THAN 2 DAYS. BEATING THE BEST RECORD MADE SINCE THEN BY 14 HOURS AND 59 MINUTES.

The Winner in Every Great Test

The Hudson Super-Six has now won every record it has sought. It has won every stock car record from one to 100

Friction Almost Nil

That is the great fact about the Hudson Super-Six. Its chiefest supremacy lies in endurance. The Super-Six invention added 20 per cent to our motor's efficiency, solely by reducing vibration. It reduced motor friction almost to nil.

It has made faster speed with a stock motor than was ever made before—102.56 miles per hour.

It has broken all records for 24 hours—1819 miles. That is 52 per cent farther than any stock motor'd car ever went in that time before.

It won the Pike's Peak Hill Climb—the greatest hill-climb in the world.

And now, as a crowning achievement, it breaks the record which means more than all the Transcontinental record.

All Due to Endurance

The Hudson Super-Six now holds all important records. All the records says those made with special

Later

The same Hudson Super-Six that made the transcontinental record returned to its starting point, San Francisco, breaking all records both ways. Making the round trip from San Francisco to New York and return in 10 days.

hours, 3 minutes.

CAST COMPLETE FOR JOLLY PLAY

"CAPT. RACKET"

CHARACTERS TAKEN BY WELL-KNOWN YOUNG PEOPLE OF THE CITY

IS GIVEN UNDER AUSPICES OF BUSINESS WOMEN'S CLUB—PLAY IS THREE-ACT COMEDY OF MANY AMUSING SITUATIONS—FRIDAY EVENING, OCTOBER 6

With the cast chosen and daily rehearsals being held, the threatened play, "Capt. Racket," will be ready to be given Friday evening, October 6, and it bids fair to be one of the best entertainments to be held in Twin Falls this season.

The story is of young Capt. Racket, who is sent by his uncle, Obadiah, to see a young woman whose picture the uncle has seen, and whom he wishes to marry, if she is as attractive as her picture. Capt. Racket falls in love with the girl, Clarice Dalroy, and marries her. He invents a series of tales to discourage the hopes of his uncle and does not tell Clarice of the deception for some time. However, the tales he tells simply escape him, until one day that is inevitable and make the situation all the more complicated when all parties meet at the home of Capt. Racket's good friend, Timothy Tolman. The joyous nature of Timothy Tolman's wife adds to the troubles and complications. The entire play is most amusing throughout.

The cast is as follows:

Capt. Racket—Morris Batley
Clarice, his wife—Miss Ada Wilkinson
Timothy Tolman—Chas. Des Buisson
Mrs. Timothy Tolman—Geneva Stafford
Uncle Obadiah—Henry Howe
Dalroy—Chas. North
Katy, the maid—Miss Florence Neer

Tickets will be on sale at Skeels-Wiley's drug store from Wednesday of next week, on and after which date tickets bought from any of the business girls may be exchanged at Skeels-Wiley's for reserved seat tickets, without extra charge. The play is given under the auspices of the Business Women's club.

IDAHO SOUTHERN NOT DEAD—YET

High Power Auto With Flange Wheels and Drawing Trailer Will Be Operated Temporarily

Evidently the Idaho Southern railroad is yet to be operated as an auto stage by rail. The service, as outlined by the Gooding Leader, looks like a very handy service and makes use of the track until finally removed.

"The Idaho Southern railway is not so entirely and hopelessly dead as was announced last week, and it will soon be possible for people to again take passage over this road between Gooding and Jerome. The resurrection is thought about the efforts of Charlie Young, who for eight years handled the passenger trains over the Idaho Southern without a single accident to passenger or employee. Mr. Young has leased the Idaho Southern track until such time as the rails may be torn up, which probably will be a year or more. He has purchased a high-powered Poppe-Horn eight-wheel auto, with a capacity for 10 passengers, which is now being fitted with flange wheels at Portland. A trailer will also be used for handling express and light freight traffic. The old train schedule will be followed, leaving Gooding at 8:30 a. m. and returning at 12:30 p. m. Mr. Young states that a similar auto rail service is maintained on the road between Hood River and Mt. Hood, a distance of about 100 miles, and it is entirely satisfactory.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

This is a medicine that every family should be provided with. Colic and diarrhoea often come on suddenly and it is of the greatest importance that they be treated promptly. Consider the suffering that must be endured until a physician arrives or medicine can be obtained. Chamberlain's Colic, Cholera and Diarrhoea Remedy has a reputation second to none for the quick relief which it affords. Obtainable everywhere.—Adv.

NEW PASTOR IS TO ARRIVE THIS WEEK

BAPTIST CHURCH REV. O. T. ANDERSON OF ILLINOIS TO PREACH HERE NEXT SUNDAY

His Wife Will Join Him Later—Is Visiting With Relatives in Kentucky—Supplied Local Pulpit During Month of August and Call Was Extended to Him at the Close of the Month and Accepted Shortly Afterward

Word was received by members of the Baptist church the first of the week from Rev. O. T. Anderson of Marley, Ill., to the effect that he and his wife were packing their household effects and would reach Twin Falls on Friday or Saturday of this week. Mrs. Anderson goes to visit relatives in Nicholasville, Ky., for a few weeks before joining Mr. Anderson here.

Rev. Mr. Anderson comes to the local church highly recommended as a constructive pastor and a minister unusually well prepared for his work. He is a native of Alabama, was educated at Howard college, the Southern Baptist Theological seminary and the University of Chicago. He has held several successful pastorates, including those at the First Baptist church at Cullman, Ala., the First Baptist church at Birmingham, W. Va., and that at Marley, Ill.

The members of the Twin Falls First Baptist church are looking forward to a splendid growth and development of every department of the church under the splendid leadership and pastorate of Rev. Mr. Anderson.

HOLD RECORD FOR QUICK LEGISLATION

Borah and Smith Put Homestead Entry Bill Through Congress in Less Than Three Weeks

Ordinarily several months are required to secure the enactment of a law, but a bill introduced by Congressman Addison T. Smith passed through the several stages in less than three weeks, says the American Falls Press. On August 9 Congressman Smith introduced a bill to permit an additional contingent homestead entry to citizens who have acquired less than 320 acres of land under the enlarged homestead act. The next day it was printed and referred to the committee on public lands. The following day it was referred to the secretary of the interior for a report. At the request of Congressman Smith the secretary directed immediate consideration of the measure by the law officials of the interior department, and on the 14th a favorable report was made to the house. The following day the bill was referred to a special session of the committee was held for the consideration of the measure, and the bill was ordered to the calendar. On the 22nd Congressman Smith secured the unanimous consent of the house for immediate consideration and passage of the bill. The bill was reported to the senate on the 23rd, he secured the unanimous consent of the senate for its immediate consideration and passage. After its engrossment it was presented to the President who referred it to the secretary of the interior, who made a favorable report to the President, whose approval immediately followed.

PATRONIZING HOME INDUSTRY

With the aid of the Ladies' Aid society of a certain Twin Falls church, a local merchant has prepared to meet the rising prices and lowering quality of goods by the manufacture of comforters. This merchant, himself thoroughly acquainted with the needs of the people in this line and the best methods of manufacture, has set out to put on the market a comforter which will eclipse anything handled by the outside world in fact to quote him directly: "For many years it has not been possible to buy comforters with the width, length and quality of materials obtained in those we are putting out."

This merchant writes when it is mentioned that he is doing a big thing for the people of Twin Falls in the industry, for he considers that it is a bigger thing to be able to furnish the people with full-size, honestly-made comforters.

Always in the market for baled alfalfa hay. Highest cash price paid at all times. John Pinke, phone 703-W.—Adv.

PUPILS TO SPEAK IN MEDAL CONTEST

SPECIAL PROGRAM TO BE GIVEN AT THE CHRISTIAN CHURCH ON TUESDAY EVENING, OCTOBER 3

Entertainment Is Under the Auspices of the Women's Christian Temperance Union—Silver Medal Will Be Awarded to the Winner—Interesting Program Is Promised, Beginning at 8 o'Clock

Pupils of the public schools of Twin Falls will hold a dividual contest on Tuesday evening at 8 o'clock at the Christian church.

The following very interesting program will be carried out: First reading—Singing by the congregation, "Onward, Christian Soldiers." Devotional—Led by Mrs. Chipp, state president of the W. C. T. U. Piano solo—"Hallelujah," Miss Goldie Pearis.

Remarks—By Mrs. Nettie R. Chipp. Announcement of decision of judges. Presentation of medal—Prof. Hal G. Blue.

Presentation of "Young Crusader"—Mrs. Grace Heartfield, superintendent of medal contest department. Offering. Singing—"America," congregation. Benediction.

PLAN NEW FRONTS FOR NORTH MAIN

Eldridge and Hart Will Both Put in Splendid New Display Windows in Their Stores

Besides the new Raugh building, excavation began Monday morning of last week, other store improvements for North Main street will be made, if the plans of W. H. Eldridge and Sam Hart are carried out.

The former plans an entirely new front in his store, with big display windows and a central door in place of the side entrance, as is now the case. The latter is at Mr. Eldridge's will outfit his whole store with new fixtures and remodel it throughout. The Eldridge store was one of the first men's furniture stores in town. Mr. Eldridge began business here in November, 1905, nearly 11 years ago. At that time his store was located in the Cartwright building, on South Main. As soon as the Moore building was completed, Mr. Eldridge moved to his present location, which was at that time considered almost outside the business district. The changes at Hart's will be just as complete. Besides changes in the front windows, the whole back end of the store will be taken out and new lights put in. In his front windows Mr. Hart will have a total of 48 linear feet of plate glass, giving him some of the largest display windows in town.

MR. J. A. SINGLAIER has secured the services of Mr. O. C. Vaughn, who has been with the May Co. of Denver for the last four years. Mr. Vaughn, having had a wide experience and being an expert fitter, enables this store to give the public the best of service.—Adv.

Marble Pudding

Steamed puddings will not be heavy if made with K C Baking Powder and cooked slowly to give the pudding time to rise before the dough is cooked through. Have a low blaze under the water for at least the first fifteen minutes.

K C Marble Pudding

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

2 cups sifted pastry flour; 2 level teaspoons K C Baking Powder; 1/2 cup brown sugar; 1/2 cup cinnamon; 1/2 cup salt; 1/2 cup eggs, beaten light; 1 cup sugar; 1 tablespoon melted butter; 1 cup cold water; whites of 2 eggs, beaten dry; 1/2 cup raisins; 1/2 cup currants.

Sift together, three times, the flour, baking powder, salt and cinnamon. To the sifted mix add sugar, butter and water, and stir into the dry ingredients. Add the whites of the eggs. Divide the mixture into two parts and add the chocolate to one part. Disperse the two parts in a buttered mold to give a marbled appearance. Steam forty-five minutes.

Vanilla Sauce

Boil 2 cups of sugar and a cup of water six minutes; add 2 tablespoons of butter and a teaspoonful of vanilla extract.

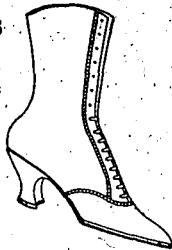

The K C Cook's Book containing this and 90 other delicious, successful, recipes sent free upon receipt of the colored certificate and 10c K C Baking Powder. Write your name and address plainly. James M. Co., Chicago.

Vanilla Sauce

Boil 2 cups of sugar and a cup of water six minutes; add 2 tablespoons of butter and a teaspoonful of vanilla extract.

Extra Good Shoe Values Read this Advertisement

Last week this reduction sale was started and so many responded that we have added new attractions to the list of cut-price shoes—every shoe in this sale marked at prices that will mean rapid selling.

New Shoe Reductions for This Week's Selling

Read the following items. You will find that these shoes are real reasonable styles—not the regular summer stock that most stores are selling at reduced prices, but good Fall Shoes at the lowest prices in town.

The Greater Idaho Department Store

WOMEN'S \$4.00 AND \$5.00 SHOES \$2.95

A big assortment of women's good dress shoes, in patent and gummetal leathers, with straight Cuban heels and medium toe, regular values \$4.00 to \$5.00, and the sizes are fairly good yet. Don't delay too long. These values are too good to last long at \$2.95.

WOMEN'S SHOES AT \$3.20

Another lot of the country's best make, in fine kid and some patent leathers; real good looking styles and with new Louis Cuban heels. The sizes are somewhat broken in this lot, but look them over; most likely you'll find just what will please you. Choice \$3.20.

MISSSES' SHOES \$1.95

Wonderful values in dress and school shoes, patent and gummetal leathers, sizes good, solid leather soles and counter, at \$1.95.

WOMEN'S SHOES AT \$2.95

Women's fine kid button and lace shoes with lightweight soles and low heels—values at \$4.00; all sizes and widths to select from. A real bargain at \$2.95.

CHILDREN'S SHOES AT 95c

Children's kid and gummetal button shoes, the kind you pay \$1.25 for elsewhere, on sale this week at only 95c.

COMFORT SHOES AT \$2.25

Comfort shoes, with all kid uppers and flat heels, plain toes; the real house shoe to ease the tired feet. On special sale at only \$2.25.

Don't forget to visit the Shoe Section during this sale. We can save you dollars—"Better Shoes" at lower prices.

SOCIETY TAKES PART IN MOTION PICTURES

What is said to be the most expensive and over assembled is seen in the thrilling fox hunt scenes of the Jess L. Laaky production of "The Duke," on the Paramount program, which will be presented at the Idaho theatre on September 20 and 21, with the beautiful and captivating Blanche Sweet in the stellar role. The fox hunt scenes were taken in and around what is considered the most exclusive hunt club in the United States, and it was only by guaranteeing not to reveal the name of the club or any of its members, that the scenes were secured with the wealthiest and most fashionable of America's society took prominent parts, and in the scenes prior to the start of the chase it is said that over a million dollars were represented by the amateurs.

PEOUAR CRUELTY CASE DISCOVERED

A peculiar case of cruelty to animals was brought to the attention of their office, says the Buhl Herald, in which a man by the name of Kilburn, living between Kimberly and Twin Falls, has compelled a fine mare which he owns to stay hitched in a small stall for four years. The horse has never been allowed to leave the stall at any time. This fact is known to the mare's neighbors, but they have never acted in the matter. A vigilance committee composed of members of the humane society could do a world of good in this case.

OARD OF THANKS

We take this means to acknowledge, with heartfelt thanks, the thoughtful kindness and sympathy of our friends and neighbors in our recent bereavement.

MR. AND MRS. L. O. KIERSTED.

\$60 PER ACRE

WHY pay \$150 per acre or 8% interest? pay from \$10 to \$20 per acre rent!

When you can buy some of the best land and water rights in the state of Idaho for \$60 per acre on easy payments and 6 per cent interest. \$10 per acre at the time of purchase, then for five years you pay interest only, then eleven years in which to pay the principal. Call and investigate.

Geo. H. Smith

223 Shoshone Street South

GRAIN AND SEED STORAGE

HAVING increased our warehouse and elevator facilities, we are able to accept a limited amount of wheat and seed for storage. A charge will be made for handling and insurance, and a warehouse receipt issued, which can be used as collateral, if desired.

TWIN FALLS MILLING & ELEVATOR CO.

AND BRANCHES

TWIN SPRINGS HAS A SUNDAY SCHOOL

The Twin Springs District Sunday School association will hold its first convention at the Sleeping Springs school house on the second Sunday in October, says the American Falls Press.

Careful investigation revealed the fact that this was Twin Springs, Idaho, not Nevada.

CARD OF THANKS

To those whose kindly sympathy was so freely given, to the Elks' lodge, the Knights of Pythias, the First Church of Christ Scientist and to all others I beg to extend this assurance of my deep sense of appreciation for the many kindnesses extended in connection with the death of my husband.

MRS. JOSEPH A. ARMBRISTON.

Cash paid for clean cotton rags delivered at News office.

BOYD H. FULLER
Twin Falls, Idaho

Figure 1 is a schematic diagram of the experimental setup. It shows a subject seated at a table, looking at a video screen. A camera is positioned above the screen. A horizontal bar is placed on the table, with a vertical rod passing through its center. The rod is connected to a motor unit. The motor unit is connected to a power source. The video screen displays the position of the rod and the bar. The subject is instructed to move the bar to a target position on the screen.

HUDSON SUPER-SIX SETS NEW RECORD

OUR MAKES THE TRIP FROM SAN FRANCISCO TO NEW YORK IN 5 DAYS, 3 HOURS, 59 MINUTES

Beats Previous Transcontinental Record by Nearly 15 Hours--Carried Three and Sometimes Four Passengers on Its Wonderful Trip--Fastest Greatest Sensation in the Automobile World--Car Was a Stock Chassis

A Hudson Super-Six, stock chassis, driven by Ralph Mulford and two other well-known men in the automobile world, has broken the ocean-to-ocean transcontinental automobile record, says the Salt Lake Tribune.

The Super-Six made the trip from San Francisco to New York in five days, three hours and fifty-nine minutes, arriving in New York last Monday.

Such was the announcement flashed over the wires of the Associated Press and other news services last Monday, a few moments after the Super-Six rolled down Broadway after having beat the best previous transcontinental trip by 14 hours and 53 minutes.

That the Hudson's new feat has created a veritable sensation in the automobile world is putting the fact rather mildly, according to Frank Botterill, manager of the Tom Botterill Automobile company of Salt Lake, who yesterday received full details from the Hudson factory of the splendid record made by the Super-Six.

Car Heavily Loaded
The seven-passenger phaeton model Hudson chassis was used for the trip and the Hudson made seek to reduce its carrying capacity. In fact, at all times three and sometimes four passengers were carried, as well as baggage, which brought the weight of the car, loaded, up to approximately 5000 pounds.

Flow Through Cattle
In Iowa, Mulford came over the brow of a hill at 60 miles an hour and saw dead ahead of him a bridge on which a herd of cattle blocked his way. He had to decide quickly whether he

should go over the embankment into inevitable death or take his chances on running into the cattle. He chose the latter and killed two cows. That delayed him almost three hours. But despite this stop he made the river-to-river record across Iowa and drove on into South Bend, Ind., where Charles H. Vincent took the wheel. Vincent drove from 12 o'clock midnight Friday all the way into New York City, 510 miles, arriving in New York on Monday morning at 6:32. He had to pass through more towns than the other drivers and still maintained 34 miles an hour.

Endurance Is Feature
The Hudson company has maintained all along that the Super-Six, because of the absence of vibration, has more endurance than is possible with any other type of car, and this trip was made to demonstrate that fact.

Now the Hudson holds the transcontinental record, the 24-hour record, the world's greatest hill climb, the record for having traveled the greatest distance with fully equipped seven-passenger car carrying five passengers, and the fastest miles over a measured course with a stock chassis.

UNCERTAIN HUMANITY

"Briefly stated," he explained, "the story of Enoch Arden was about as follows: He went to sea and was shipwrecked on an uninhabited island, where he remained for several years. When at last he was rescued, Mr. Arden put out for home with considerable rapidity, only to find that during his absence Mrs. Arden had married again. What do you suppose was his subsequent action?"

"Hard to figure!" replied Mr. Gap Johnson of Rumpus Ridge, Ark., who had been listening with deep interest to the recital. "You can't tell which way a toad will jump when you poke him, and folks is just as peculiar. Prob'ly he either took a shot at his wife's second husband or else borrowed enough money off 'm him to get back to his uninhabited island, and I wouldn't bet a nickel on either horn of the what-d'ye-call-it?"

Teacher--Now you have in front of you the north, on your right the east, on your left the west. What have you behind you?

Small Boy--A patch on my pants. I told mother you'd see it.

FOR COUNTY PROSECUTOR

FRANK L. STEPHAN
Republican Candidate for County Prosecutor

I am a candidate for election as County Prosecutor. I am prepared to give my full time and attention to the duties of the position and I earnestly solicit the support of the voters of Twin Falls County.--Adv.

NEXT BEST

When the guard was called to the border one officer asked his 3-year-old son to take good care of mother, which he promised to do. A short time after he behaved as all lively boys of that age do, and his mother said: "Son, you have not minded your mother very well since father went away," and he replied: "No, I haven't; but I've taken awful good care of you, just the same."
