CONGRESS PENSIONS, DEFENSE FRILLS FACE BATTLES

PROBE DEMANDED ON SHIP BURNING

WASHINGTON, Feb. 16 (AP)—The investigation made in the House today the prompt disposal of two allegedly controversial hours of the investigation of the burning of the civilian defense program—but found a problem in the demand for legislative investigation of the Normandie disaster.

Personnel administration opposition to the move, Senator Vandenberg (R., Mich.) prepared to lay before the Senate tomorrow a resolution authorizing the senate naval affairs committee to make an independent investigation of the fire which swept the French de France liner, now known as the French ship Lafayette, in New York harbor a week ago.

Need Probe

The navy announced Saturday that a court of inquiry was being conducted, but Vandenberg said that was not the more important question should determine whether sabotage or "criminal carelessness" caused the disaster. He contended that the navy was responsible for protection of the ship and should not be allowed to determine whether its responsibility was fully discharged.

Meanwhile, the pensions and civilian defense issues moved toward a speedy conclusion. The senate agreed to take up the recently passed \$100,000,000 deficiency bill, approved by the appropriations committee in the House passed by the House previously.

The House had amended the measure to prohibit the use of office of civilian defense funds to pay for any direct, indirect, or incidental expenses of the physical fitness division. Few senators thought the amendment would be adopted, but the committee's powerful opposition to the bill.

Both senate and house committees were ready to take up measures to amend the act of the recently enacted civilian service retirement law making government pensions available to reserve members under certain conditions.

Adverse Effect

Some senators said that public relations against such pensions had had an adverse effect on the sale of defense bonds and stamps, increasing the necessity for speedy repeal.

While Democratic leaders were confident about the success of their attempt to defeat a farm bloc move to prevent any type of surplus sale of surplus crops that would keep down agricultural prices.

While they feared the senate might approve the measure, administration leaders were confident it would be passed, but even if it later passed, the House it would be vetoed by President Roosevelt.

Boise Man Bids for Senate Nomination

BOISE, Feb. 16 (AP)—Ben H. Jackson, Boise salesman, announced today he would seek the Republican nomination as candidate for United States senator next fall.

Mr. Jackson, said by observers to be unknown in Idaho politics, declared he was dissatisfied with the state's present congressional delegation.

In his program he promised, upon election, to sponsor a bill for placing locks and dams on Snake river from Lewiston to Idaho Falls.

Mr. Jackson said he favored American commanders for American troops, relief of General MacArthur's Philippine army and the senatorial investigation of labor racketeering. "We will see tremendous profits being made out of war contracts and efforts," a multiple old-age pension and preservation of the little business man's rights.

He would insist on a senator's right to personally go to every battlefield where our soldiers are involved," he said.

Quota for Cassia Raised to \$2,925

BURLEY, Feb. 16—Cassia county quota for the American Red Cross emergency drive has been raised \$2,200 to \$2,925, or 30 per cent, in accordance with the goal of that organization to reach \$5 million dollars instead of \$3 million dollars.

Wednesday the total for the county stood at \$1,500, and plans are going forward for a strong drive to raise the additional quota. Albion has donated \$125, and Blidge and Balla have both sent in large amounts. Benefit parties are being planned, according to Mrs. A. R. Dawson, production chairman.

Plans now are for residents to donate articles to be sold Saturday at the Burley Livestock Commission and other articles have already been turned over and the proceeds put into the Red Cross fund. Price is a sale chairman.

Drafted Man Wins Award for Heroism

WASHINGTON, Feb. 16 (AP)—The war department reported today that the award of the Congressional Medal of Honor to a drafted man is a select.

The recipient is Sergeant Leroy O. Anderson of the 101st Airborne Division, who distinguished himself in the fighting with General Douglas MacArthur on Bataan peninsula.

He received a ward for extraordinary heroism in action, was bestowed on Anderson for his part in the capture of the last American positions on Feb. 3.

A communique said Anderson, in contact with a small group of tanks, first made a personal reconnaissance well in front of the American fighting line. Then he led his tanks through difficult terrain and with skill and determination destroyed enemy tanks and crews.

When his own tank was put out of commission, he led his crew in a fight with rifles and hand grenades and suffered a slight wound.

Grange Auction Proceeds Will Benefit Red Cross War Funds

Name it—and you will probably be able to buy it at the four-Grange benefit auction for the Red Cross. The auction is scheduled for 1 p. m. Thursday in the old McVey building, under sponsorship of Knutt Mountain Rock, Hollister and Twin Falls Granges. O. T. Koster is general chairman. All proceeds after deduction of expenses will go to the Red Cross war relief fund of the Twin Falls chapter.

"As far as we can see now," said Chairman Koster, "there will be no expense because everything necessary has been contributed."

Lots of Farm Goods

Patrons have indicated there will be numerous boxes of apples, sacks of spuds and beans, dressed chickens, home canned fruits, jellies and jams, and perhaps a few hams and loafs of bacon. Others have indicated they have good rural farm tools that are of no further value to themselves but will be of some use to others. These will be brought in for sale at the auction.

Merchants and other business houses contacted so far have taken advantage of the advertising opportunity offered by the event since such contributions will be announced to the several hundred people expected to be present at the time of the auction.

Some firms not having merchandise for sale will be requested to contribute an order entitling the buyer to a certain amount of free service. Some institutions will be requested to provide practical for this sale have indicated they will contribute close savings stamps. With this set-up available, Mr. Koster said, a great variety of merchandise will be on hand "so that everyone present will be able to find something he or she can use and have the satisfaction of knowing that the proceeds will be their own choice of all the proceeds going to the best of causes."

First of Series

This is to be the first of a series of auctions sponsored by subordinate Granges or groups of Granges. Kimberly Grange will be requested to operate with other Granges in the east end in sponsoring a benefit auction in that part of the county and has named a committee headed by Ben Jackson.

Improvement in Western Ranges

MOSCOW, Idaho, Feb. 16 (AP)—Western ranges are improving and stockmen are welcoming and supporting the work of range management agencies. Dr. Vernon Young, University of Idaho range management professor, said here.

Dr. Young spoke at a regional range management conference attended by 24 delegates from Utah, Washington, Montana and Idaho.

"The conference feels," he said, "we should do everything in our power to get maximum production of livestock through proper use of forage and not to jeopardize the future conservation practices necessary to the protection of our valuable western ranges."

U. OF I. AWARDED TOP HERO HONOR

NEW YORK, Feb. 16—The Jersey herd owned by the dairy department of the University of Idaho at Moscow represents a superior type and has won five consecutive "constructive breeders registry" awards for its owner. The American Jersey Cattle Club, national organization, has made the award and the university is one of three five-time winners of the coveted honor. Qualification is based on strict adherence to requirements regarding herd productivity, continuation and freedom from disease.

Production testing in the university herd, made through the cattle club's herd improvement registry, has resulted in state leadership with the highest average yield per cow. In the last test, made with an entry of 26 cows, an average of 16 cows produced 10,771 pounds of milk and the average yield of 470.71 pounds of butterfat, 8,146 pounds of milk for the year. Two breeders had individual yields of more than 600 pounds of butterfat each and they are carriers of silver medals.

The university's producers also hold 15 second-class classifications in the state for butterfat and milk production among Jerseys. The individual tests have been made through the Register of Merit system of the national organization and a total of 24 medals have been awarded in the herd for high production.

Twenty-two of the cows have been placed for conformation and have the average "good plus" score of 82.04 points; five rating very good, 10 "good plus" and seven "good."

Dr. D. B. Theophilus is head of the dairy department at the University of Idaho and Prof. D. L. Fourt, instructor in dairy husbandry, has been in charge of the development of the herd, which is acclaimed one of the most outstanding college-owned Jersey herds in the country.

Army air corps cadet at Kelly field, Tex., pulls his head out of a spin after a spin in a Link tester, ground-bound unit that simulates aerial maneuvers. According to the Link's instruments, he would get a forced "landing" 165 feet below ground, and he looks it.

Colorado Bucks Influx of Japs

DENVER, Feb. 16 (AP)—Declaring they would ruin Colorado as a tourist attraction, Robert Warren, director of the state publicity and advertising committee, today opposed proposals to remove Japanese aliens from the west coast to Colorado.

He said he was seeking the support of Chambers of Commerce, patriots' associations and other groups in his campaign against the removal of 17,000 to 35,000 Japs to this state.

Warren claimed "it would be more in keeping with our good neighbor policy to bring in Mexican labor if the state needs laborers for the state's best fields and truck farming."

"If the Japs used our fields, it would ruin the tourist business because no one would eat the products they raised."

Warren said that while Colorado wanted to do everything it could to insure victory, "there are a number of questions that should be answered before the Japs are brought in the state."

Colorado should find out, he said, about the housing, the number of Japanese, the use of the alien as harvesters, their rates of pay and "what positive assurance can be given that they will be removed from Colorado after the war."

CALLS WILL USE NEW, OLD DRAFT

WASHINGTON, Feb. 16 (AP)—Selective service headquarters said that some of the 8,000,000 men registering today will be called to service simultaneously with remaining Class 1-A men among the 17,000,000 already registered.

The procedure for doing this has not been determined, it was said.

After the last registration, on July 1, 1941, registering men who had turned 21 since the first registration on Oct. 10, 1940, the 700,000 additional registrants were issued in the original order lists at intervals of approximately 10 numbers.

Officials said this may be the system used this time, or a new order list may be set up. In the latter case, men would be drawn from both lists at the same time.

Selective service headquarters has asked the war department to reach its order prohibiting publication of registration lists.

This order has been criticized as unnecessary on the grounds that any interested agent could obtain the same information from almanacs or publications of the census bureau.

OPM Cracks Down On Tire Delivery

WASHINGTON, Feb. 16 (AP)—The office of price administration announced today that Federal District Judge Luther B. Way in Norfolk, Va., had issued a temporary injunction against unauthorized delivery of passenger car and truck tires by a Norfolk dealer.

OPA said it was the first civil action it had brought under tire rationing regulations.

Bureau Swamped With Pleas for Proof of Birth

BOISE, Feb. 16 (AP)—Business is so brisk at the state bureau of vital statistics that a night shift will be added today. Mrs. Mabel F. Elder, director, reported.

She credited the nation's war effort with the steep increase in requests for birth certificates. Persons employed in defense industries and service enlistees in the armed forces require proof of birth date, so the bureau has been swamped with applications for certificates.

"The daily mail brings 500 to 500 new requests each day, besides those from persons who apply personally at the bureau. Since Jan. 1, she reported, the bureau has deposited \$5,000 received from birth certificate fees—representing 10,000 certificates issued.

Henceforth the first shift of bureau employees will work from 7 a. m. to 3 p. m. and the night shift will come on at 3 p. m. to work until 11:30 p. m.

Final Tribute Paid

Made by a mixed quartet assisted in tribute to Mrs. Ella Thomas Saturday afternoon as funeral services were held at the Kimberly Methodist church. Rev. Roy E. 40,000 IDAHOANS REGISTER TODAY

BOISE, Feb. 16 (AP)—Forty thousand Idaho residents marched to registration places today to sign their names on the new Selective Training and Service Act for prospective army service.

Men between 20 and 45 who were not included in previous selective service registrations made up the group.

Included in those appearing at the state's 48 local board headquarters were all but a few of the boys living in Idaho—the few having special exemptions—and an estimated 200 or 300 Indians.

More than 2,000 volunteer workers were aiding draft boards with the registration.

TUCKER'S NATIONAL WHIRLIGIG

SPEAK When the house barred O.G.D. expenditures for aesthetic dances and movies, it inaugurated a delicate experiment which members of the majority were due. They transformed the dispute into a domestic problem which the President alone can settle with Mrs. Roosevelt.

Even Democratic partisans have long chafed under the First Lady's interference in their affairs, especially when her well-intentioned meddling has resulted in somehow stirred social and class differences. They have often wondered why Mrs. Roosevelt should venture to do now and then, what might be forced to her to do. The present situation has not failed to adopt such measures as to curtail the first-class bill. As they know well, the funds for that the White House has been steadily blocked by Mrs. Roosevelt's interference.

RAY TUCKER carried in that appropriation. Mrs. Roosevelt's favorite arts paid from the emergency kit which Congress has for him—money for which he does not have to account because portions may be used for secret military purposes.

The law chamber's action, however, did express the sentiment that taxpayers' contributions should not be utilized for boondoggling and the unjust and unmandated unanimous support. Now, if the Lands agency continues as a fancy haven for actors, authors and musicians, it will be on the sole responsibility of the First Man and will signify that he prefers to restrict congress than speak to his wife.

L.A.P. The cavaliers on Capitol Hill would not have arranged the stage for a family drama if the President had not permitted Mrs. Roosevelt to raise government questions her business. Fact is that she has received the impression that she does not approve solely of the official condemnation of O. G. D. entertainments.

The chief executive is inordinately loyal to his family and his friends. When Son James was killed in the alleged case of "informer" to sell insurance, the father referred that the young man was "free, white and wealthy" and that he had been killed in a "harmless" way. It was not long before "Jimmy" took the highly profitable field for a public career. It is understood that the White House has been steadily blocked by an officer's commission to Joseph Leah, for whom his wife had made intervention. She, in turn, quickly obtained the same position for her brother-in-law, the ex-Communist.

The President's advisers must have informed him that Mrs. Roosevelt's meddling in the military reservation that for more serious blunders. A slight fall-off in the sale of defense bonds is attributed to the incident. Congressional mail on the subject is virulent. The First Lady's admirers here and elsewhere deplore the embarrassment the incident has placed on the President. They believe that Mrs. Roosevelt will devise a method of solving the difficult situation which a slightly mischievous congress will drop in his lap.

WEALTH. Events at Pearl harbor demonstrated that the United States is not a democracy. They still retain the advantage of surprise, but Anglo-American affairs below that they have figured out the kind of a surprise they will have during spring and summer. Our generalissimo are now frantically scrambling the design of which will soon become evident.

The fall of Singapore and the Dutch East Indies were held the United States. The Japanese, by the way, to the Indian ocean and neighboring waters. Loss of these bastions would sever the arteries through which weapons and supplies are sent to the East—flow to China. Aside from its severe effect on A. B. C. D. long-time strategy, the disaster would dislocate the United States. The Japanese, by the way, while Hitler intends to drive through the Caucasus and Turkey in a desperate effort to block the only sea route to the Indian Ocean, the British forces in Egypt in a gigantic pincer operation and win the day.

SUCCESS in these moves would be Paralyzing to the United Nations. The only two capitals which readily would be the United States. The Japanese, by the way, which can provide food, weapons, machinery, raw materials, etc. The United States, however, has no such resources. The United States, however, has no such resources. The United States, however, has no such resources.

OVERALLS. The problem of providing the farmer needed to transform the United States into a nation of farmers. The problem of providing the farmer needed to transform the United States into a nation of farmers. The problem of providing the farmer needed to transform the United States into a nation of farmers.

THE TAX AXE
 Despite all of the warning signals that have been hoisted, Idaho State Chamber of Commerce feels our citizens as a group refuse to believe the war effort will call for severe financial sacrifices.

It is so easy for us, far from the clanking and rattle of war production machinery, and with no more military demonstration in evidence than would accompany a state national guard marching to the front, that eighty million dollars is being spent every day for war supplies.

Reduced to the simplest possible terms, here is the federal tax story as it appears today.

President Roosevelt had asked that, during the 12 months beginning on July 1, "we, the people" pay national revenue taxes amounting to about 26 billion dollars.

In 19 months ending December 31, 1941 we paid through the same tax sources about 7.7 billion dollars.

In other words, there would be 18 billion dollars more taken out of the public's pockets in a 12-month period than during the other, or an increase of 240 percent.

A fairly authentic estimate of the total put into bank deposits, insurance premiums, securities, Homes, automobiles and other durable consumers goods by individuals in this country during 1941, is between 12 and 15 billion dollars, while during the same year corporate enterprises may have added one and a-half billion dollars to surplus.

Other Points of View

McARTHUR FOR PRESIDENT
 One may applaud the spirit, impromptu and enthusiastic of the proposal to elect in the house of representatives — that General Douglas MacArthur be our next president, without approving the substance. For on this, the defense of Bataan peninsula, though a military classic, scarcely proves that for another, we should be quick to elect a general as president. We should be quick to elect a general as president. We should be quick to elect a general as president.

BRITAIN REPLES
 The old propaganda story, used during the World War, used again to divide the French from the British during this war, about how the British were fighting to the last "man, woman, or child" is being repeated in the rounds again. In some cases there is reason to believe that it is being deliberately planted to divide the allies once again—the old, old tactic of sowing dissension and distrust.

The British have an answer and a solution to the story, because that they have felt called on to make it publicly. It is simply that 73 percent of the total casualties of the war thus far, have been British soldiers and sailors of the United Kingdom, that is, from England, Scotland, Wales, and Northern Ireland.

Unless and until those official figures are approved, they are surely more worthy of being than idle chatter and biased suppositions.

HOBBLES' SIMPLY DON'T WORK

We had trouble with Pat and Mike, a couple of leetlers who loved to chase cars. We knew that if we didn't do it soon, they would be a real pain in the neck. We tried to train them to let the cars go, but they just wouldn't do it. They would follow the cars all over town, and it was a real nuisance.

So we decided to try something else. We bought a pair of "Hobbles" for them. They were supposed to be a real improvement. We thought they would be a real help. We thought they would be a real help.

BORED. Although the continued light ban on the sale of liquor in the United States is intended to insure population an added measure to insure highest efficiency from every source during the war, the Chinese look upon the prohibition as a different light. They believe it is in form of a punishment for their sins. Since the Pearl Harbor disaster, the Chinese have been very bitter against our government. A slightly befuddled god might not be able to distinguish between Korean, Cantonese, Jap Nisei and other yellow residents from enemy aliens.

 "As long as we have years of fighting, the woolgrowers of the northwest succeeded in having a law enacted which provides that all articles containing wool shall state on its label whether it is virgin wool, shoddy or something else. It put a stop to the sale of shoddy (recycled wool) for virgin wool. This law will come in handy within a few months. The production board is reaching out for all the wool obtainable and it is said that "wool will be reduced to 25 per cent wool and the rest cotton. The tag will tell, however, what percentage of virgin wool is in the garment. Other opportunities for the soldiers there will be no stamping or substitutes. The Treasury Department doesn't know what to do with the stuff and advised the ways and means of getting rid of it. He would be delighted if the law was stricken from the book."

SUPPLY OF FEED LOOMS AS AMPLE

Twin Falls county's stocks of wheat from the 1941 crop are convincing evidence that food and feed will not be lacking during the next year. Walter Bowen, chairman of the county AAA committee, pointed out today.

Reserve unutilized supplies in privately financed and unfinanced storage, 73,000 bushels of 1941 wheat are stored as security for AAA loans made to producers in the county by the commodity credit corporation.

This compares with a total of 37,000 bushels under loan last year and is part of a nine million bushel total for Idaho.

A program for moving the wheat from storage into conversion to livestock feed for production of food for victory was announced last week to the department of agriculture.

The new program will make available for cattle, hog and poultry feed the wheat which has been turned over to the commodity credit corporation in liquidation of wheat loans.

The crop and feed program will be sold for 90 cents a bushel except in counties where the corporation grain is sold, where it will be sold at the local loan value of No. 1 soft white. Whole wheat will be sold for four cents per bushel less.

Buyers who take the grain in solid lots from the corporation, must certify that it will be used for livestock feed and not for human consumption. Details of the program may be obtained at the county AAA office.

The state crop totaled nearly 23 million bushels, considerably above average. Ordinarily, about half the crop is consumed in the state. The balance is marketed outside the state.

Legion Units Buy \$1,000 in Bonds

BURLEY, Feb. 16.—Burley American Legion voted Wednesday to buy 10 United States defense bonds of the \$100 denomination making a total of \$1,000.

Meeting Features Great Americans

BURLEY, Feb. 16.—A patriotic program commemorating the lives of great Americans born in February will be held Thursday by the Women's Methodist of Christian Service of the Methodist church, with Mrs. Hugh Crawford presiding and Mrs. Orville Gano in charge of the program.

The circle, directed by Mrs. Jess Parsons, is a one-act play, "Mission of Love," with five women taking part. Mrs. Raymond S. Rees read the opening prayer, and Mrs. Orville Gano in charge of the program.

A patriotic-decoration scheme was also featured, with a display of posters and red, white and blue colors complementing the motif. The decorations were centered with red carnations in a blue bowl on a white cloth. The refreshment table had a mixture of clubs with a small table fence surrounding it in one corner, with a small American flag nearby. At the other end of the table were tall red, white and blue lusters, and the centerpiece was a cluster of American flags.

On Thursday, Feb. 19, the divisions will meet with Mrs. D. J. Peckhart, Mrs. H. Henderson, and Mrs. E. C. Williams.

"Saving" Time Is Expense to USB

FOGATELEO, Feb. 16.—Dwight "Scotty" will cost the southern branch of the University of Idaho several hundred dollars in increased bills for electricity, according to Dr. John B. Nichols, executive dean, who said that the lights in classrooms, offices and shops are now going full blast every morning, whereas they were unnecessary before the change to war time.

As most classes and laboratories are conducted in the afternoon, the lights were generally not necessary that early in the afternoon under the old time basis, but the war time has actually resulted in an increase in bills for electricity.

"However, in order to keep pace with other industries on war time where savings no doubt are being made, we shall continue with the new arrangement, even though it means several hundred dollars of increased expenditure on our rather limited budget," stated the dean.

Fall of Singapore Termed as Major United Nations Setback

By DEWITT MACKENZIE

Wide World War Analyst

The fall of mighty Singapore is a major allied disaster, and we shall do well to recognize it as such and not try to shut out the wretched spectacle by crawling behind the masonry bush of excuses.

The Japanese by their capture of this tower of strength have now fought themselves into a favorable position which is calculated to enable them to multiply their gains rapidly. They are going to cut a bloody swath before they are headed off, and it's my guess that we must withstand still more heavy shocks in the immediate future.

Serious Crisis

In short, we are in the midst of a crisis which calls for all our fortitude and determination. It is a crisis we can surmount, however, if we keep in mind the one important and unchangeable fact—that the allies have the vast resources needed to win this war.

What we have to do is stand firm and labor mightily to rich those resources into action. British Premier Churchill said yesterday, "There is only one thing which can rob us of victory—surrendering to hopelessness and unity."

Then there is the point: The fall of Singapore is due to short-sightedness and unpreparedness—call it what you will. It is a disaster that main those sins were committed before the European war began. The allies were not ready for Hitler's prepared Hitler strike; since that evil day they have been preparing for their blitz, and there has been no real chance as yet to repair the damage done by pre-war bungling.

The jubilant Japs claim that in the capture of Singapore they have the key to India and Australia. Certainly the potentialities must cause

JAPS ARE TAKEN FROM 69 AREAS

SAN FRANCISCO, Feb. 16 (AP)—Hundreds of enemy aliens, the vanguard of many thousands yet to be moved, were cleared from California's key military and industrial areas over the weekend.

They were residents of 69 restricted zones for which the government had set an evacuation deadline of last midnight.

Federal authorities, searching the areas for possible strategical value, the removal was without incident. Any enemy aliens found in the areas now will be subject to internment.

Even as the first exodus was being completed, government men looked to Washington for guidance in carrying out further orders for the removal of thousands of other aliens from prohibited zones in California by Feb. 24.

The western co-ordinator of enemy alien control, left for Washington after indicating that the army and navy were not satisfied with measures taken so far. He said a modified kind of martial law, permitting the removal of scores of thousands of aliens and many American-born children, would be applied to "clear" California, Washington and Oregon coasts of areas of persons considered undesirable.

Clark estimated there were 35,000 Japanese in the United States, 100,000 Italian aliens in the prohibited areas of California.

Recruiter on Tour of Area

Sgt. Frank Morris, officer in charge of the local army recruiting station at the city hall, will make a recruiting tour of this area starting Tuesday and during the time he is away Sgt. Heber Hansen, of Salt Lake City recruiting office, will take over here.

Sgt. Hansen, whose parents reside near Filer, arrived this afternoon. He will remain here until March 1 and then will return to Salt Lake City.

Recruiting schedule for Sgt. Morris follows:

Tuesday at Burley; Wednesday at Oakley, Declo, Albion, Malta and Union-back-to-Burley; Thursday at Minidoka and Rupert; Friday at Rupert, and Saturday at Paul, Hagerman and Eden.

Monday, Feb. 23, at Jerome; Tuesday, Feb. 24, at Shoshone; Wednesday, Feb. 25, at Bluff, Carey, Pocatello, Gannett, Bellevue and Hailley; Thursday, Feb. 26, at Hailley and Keetchikan; Friday, Feb. 27, at Shoshone, Filer and Gooding; Saturday, Feb. 28, at Bliss, Hagerman, Wendell, Buhl and Filer.

53 New Students Enroll at U S B

FOGATELEO, Feb. 16.—In spite of activities, 53 new students registered for the second semester at Idaho Southern university, according to report just received by Miss Dorothy Reque, registrar. Of this total of 53, 21 are former students of Idaho Southern who have returned to complete their education, as far as possible, at the Pocatello institution.

Besides Idaho Falls, Weiser, Twin Falls, Glenn Perry, Rexburg, Emmett, and other more populous centers, new students hail from Boise, Small, Kamiah, Peck, Ida, and from Salt Lake City, Knapton and Spanish Fork, Utah, as well as from Nova Springs, Ia., and Okemunkia, Mont. The list also includes two faculty members who are studying bacteriology and Spanish, respectively.

The total of 53 new and old students returned for the second semester this year compared with 60 last year, a decrease of only seven students from the number of new students the second semester last year.

Nine Japs Voluntarily Surrender to MacArthur

By CLARK LEE

WITH GEN. MACARTHUR ON THE BATAAN PENINSULA, Feb. 15 (Delays) (AP)—The first sizable group of Japanese—totaling nine—surrendered voluntarily to Gen. MacArthur's forces today in preference to dying on the battlefield and having their spirits entranced at Yasukuni.

All previous prisoners have been either wounded, and captured or overpowered and disabled.

The nine yielded meekly enough, walking without guns to a Filipino scout machine-gun position at the western flank on the Bataan peninsula, where the leader handed over and other personal effects as a token of submission.

Deny Surrender

After finding themselves treated well, however, the nine turned obdurate, refusing to answer a majority of the questions put to them. They even denied they had surrendered, asserting they were taken while sleeping.

American officers believe, however, the nine Japanese got more than enough of fighting, and even though they had been told they would be allowed to capture, preferred the possibility of life as American prisoners to certain death in the Bataan jungle where their unit had been surrounded by American Filipino forces. Most of their officers had committed suicide.

Japanese planes had dropped orders to this group to try to swim to the Philippines, but they had rejected the orders and told them to

assemble at the shore of the China sea, apparently to await boats which would attempt to evacuate them after their failure to crack the American-Pilipino link. Copies of both MacArthur's offer and their reply were, however, still being sent to Gen. MacArthur's lines, and shore war units, thus, struck, killed many of the swimmers.

Nobling Gallant

Since the Pacific war started, the Japanese have committed many acts of cowardice and fanaticism, but the Americans say they would class as gallant or heroic.

These men of MacArthur's say the best description of the Japanese is "sturdy." They know all the tricks of jungle fighting, such as lying pads on their hands and knees to silence the sound of their creeping through brush. They drop a fountain pen on a mountain path, with a concealed firing leading to a grenade. They use firecrackers cleverly, throwing one up to the side in brush, and when a burst of gunfire goes to investigate, the Japs open fire with concealed machine-guns.

It is seldom that these tricks work more than once.

BURLEY RETAINS SCHOOL LEADERS

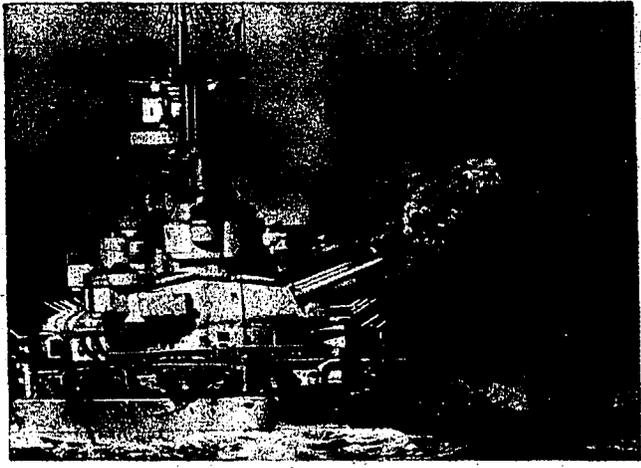

BURLEY, Feb. 16.—Supt. George E. Denham was reelected to that administrative position in the Burley school system at the February meeting of the board.

Principals reelected for the coming year were: M. W. McLaughlin, high school; Earl Carlson, junior high school; Ernest Blauer, Southeast school; John L. Holyoak, Miller school; and Ray Reid, Overland school.

The board met for a dinner session, with Mrs. Julia Kennington, of the junior high school, home economics department, directing her class in serving the dinner. After dinner, the board saw a technicolor sound film "Unfinished Rainbow."

Mark Moorman, representing residents of Milner, appeared before the trustees and presented plans whereby the Milner school building, now unused, would be taken over by that community for use as a community building and for conducting a church. The plan was accepted by the board.

The plan of enlarging the shop department of the junior and senior high schools was discussed. John U. Rencher and Virgil Coyne are now in charge of that work. Other schools have sent representatives to visit the Burley shop department to study the work being carried out in connection with training for national defense.

LID CLAMPED ON REFRIGERATORS

WASHINGTON, Feb. 16 (AP)—The war production board has "frozen" manufacturers' stocks of domestic mechanical refrigerators as a preliminary to some form of rationing and announced that all refrigerator production would be halted after April 30.

The board announced that retailers each would be allowed to sell 100 more new refrigerators, or a number equal to half of their total 1941 sales—whichever figure is larger—before the freeze order is automatically applied to retail stocks.

The \$280,000,000 domestic refrigerator industry is to be converted to full war production, officials said. War contracts already held, plus those expected, would tie up 70 per cent of the industry's plants and manpower.

Until April 30, refrigerator manufacturers will be permitted to triple present production quotas. This output, estimated at 499,000 units, plus frozen stocks, will be placed in a pool of 750,000 refrigerators which will be rationed "to meet military and highly essential civilian needs."

No rationing formula was announced, but the freezing order provided that specific authorization would be necessary before manufacturers or distributors could sell, lease, trade, lend, deliver, ship or transfer new refrigerators.

No restrictions will be placed on the manufacture of spare parts for refrigerators now in use.

GERMANS EXPECTED TO MAKE DEMANDS FOR FRENCH FLEET

NAZI CHALLENGE LOOMING ON SEA

WASHINGTON, Feb. 15 (AP)—A determined Nazi attempt to get immediate control of the French fleet was forecast today as members of congress familiar with naval matters said Germany's access to units of the French fleet in home waters portended a realignment of sea forces all over the world.

SIDE GLANCES

By Galbraith

At the beginning of the year France was reported to have available for immediate service one battleship, one aircraft carrier, 14 cruisers, 52 destroyers and 24 submarines.

Renewed uneasiness over the French fleet served only to deepen somber mood which a monotonous string of allied reserves has built up inseparably the case.

Although Japanese ultimatum fall was discounted a week ago, the feeling of the nation yesterday was black tidings, and a jubilant Tokyo radio raved in with the gallant French sea power to the "amalgam and over-confidence of the Anglo-American front" were responsible for a standstill in the Pacific.

In the face of the Pacific situation, Washington found little comfort in immediate domestic developments concerned with the long-pending prosecution of the war.

At another time there might have been special satisfaction in the fact that in the Saturday-through-Monday period the 6,000-ton cruiser Gracien was being completed for start of work on another new 6,500-ton battleship.

The same holds true for today's selective service registration, mustering some 9,000,000 men between the ages of 20 and 45 for possible military service in the nation's defense, and boosting the potential manpower pool on draft lists to over the 26,000,000 mark.

Japanese News Agency Gives Singapore Surrender Account

TOKYO, Feb. 15.—(Official broadcast)—The surrender of Singapore was concluded in a tense, one-hour conference in the factory building of the Ford Motor Company at the foot of Bukit Timah (Tin Hill), from which the burning city of Singapore could be seen.

The British officers who came to negotiate all appeared very tired and depressed, the agency said in a dispatch from Singapore.

The British made the first move for the surrender when three officers, including Maj. G. H. W. Boyd, approached Japanese forces under a white flag of truce and offered to discuss capitulation terms.

The British proposals were rejected and the officers went back to Singapore. The same hour more, Japanese guns throbbed into the burning city.

U. S. LAUNCHES BIG BATTLESHIP

PORTSMOUTH, Va., Feb. 15 (AP)—The battleship Alabama, her 67th birthday celebrated, was the worker who fashioned her from raw steel, plunged today from the Navy yard's building ways into the waters of the Elizabeth river.

Some 1,000 men who cheer the dreadnaught to completion nine months ahead schedule, the Alabama moved majestically down the heavily greased ways and into the river with the highest speed.

Navy planes threaded their way like grey ghosts through a thick near-zero cloud banking from one horizon to the other. Secretary Frank Knox hailed the launching as the end of the "deterrent era" and the beginning of a "war era."

"And ships will pour from our yards in ever increasing numbers, ships which bring us supremacy at sea, ships which will bring us victory," the secretary said.

The Alabama, the sixth battleship to be launched under the defense building program, is the largest class of four which includes the Massachusetts, the Indiana, and the South Dakota.

The use of welding and other means in the \$80,000,000 Alabama, he said, have so decreased her structural weight as to add considerably to her capacity for guns, armor and ammunition.

Knox revealed that the keel of the 6,500-ton battleship Kentucky would be laid almost immediately in the ways from which the Alabama was launched.

Britain's Ex-Envoy to Soviet May Sit in Capital Councils

WASHINGTON—London gossip has it that Sir Stafford Cripps, who has just relinquished his important post as British ambassador to Russia, and returned to England, may sit on an allied war council in Washington.

It is estimated it will bring to America one of the strangest characters in British public life. An attorney for the rich winglugs for the poor.

An ardent Church of England member who became a radical Socialist, a bookish pugnose, who became a super-super-booster.

A Socialist who was so leftist that the party fired him. An envoy to Russia so successful that the same party thinks of him as a future Labor prime minister.

Cripps, like his father, the first Baron Cripps, is a sample of the high-brows of the upper crust in England, who have in the past been known to have covered letters to "K. C." meaning "King's Counsel."

He lives annually in his "six figures. He lived the life of a country gentleman on an estate in Gloucestershire, as just as doctors sometimes treat poor patients free of charge, Cripps took the case of poor men.

Next meeting will be Feb. 27 at the home of Mrs. Marjorie Miller. Twin Falls, Mrs. W. Robertson.

TRUCK TIRE, TUBE ALLOWANCES CUT

BOISE, Feb. 16 (AP)—Truck tire and tube allowances for February have been reduced in Idaho compared with January, State Rationing Officer C. C. Anderson said today.

In the new quota trucks and buses are allotted 723 new tires, 930 retreads and 1240 tubes.

Passenger cars are apportioned 442 tires and 370 tubes. Introduction of extra rationing will aid in offsetting the truck tire reduction, it was thought.

Anderson said, some of last month's passenger car tires were unused in January but could not be applied, however, to the new quota.

Rather than gaining, he added, their state probably would have its quota cut if the entire allowance is not used.

Bomber Reported Missing in Hills

RAWLINS, Wyo., Feb. 15 (AP)—Sheriff Glenn Penland said today an army bomber, carrying at least a hundred passengers, was reported missing in the hills of the isolated Elk mountain region 40 miles east of here.

The sheriff said first word of the missing craft was telephoned by the Ogden air depot to Sheriff Ed L. Wood of Albany county at Laramie, Sheriff Wood immediately advised Penland.

Penland said he was awaiting the arrival of military planes to help in the search before starting out with a ground party.

The missing plane disappeared yesterday afternoon, in adverse weather from a flight of several other bombers, all of which landed safely at Cheyenne, the sheriff said.

Esther Lee Nichols Is Bride of Lieut. Murphy at Coast Nuptial

Two former University of Idaho students, Miss Esther Lee Nichols, Twin Falls, and Lieut. William Edward Murphy, Fayette, were united in marriage at 5:30 p. m. Friday, Feb. 6, in Sacramento, Calif.

Details of the marriage were learned from Mrs. Edmond L. Turner, aunt of the bride, upon her return to Twin Falls, after attending the ceremonies.

The double ring ceremony of the Episcopal church was read by the Very Rev. William Pearson in the chapel of Trinity Christ church, of which he is the dean.

The bride is the daughter of the late Mr. and Mrs. Coleman Lee Nichols, Humboldt, Tenn., and the niece of Mr. and Mrs. Turner and Mr. and Mrs. William Irby McFarland, Twin Falls. She has made her home here in recent years.

The bridegroom is the son of Mr. and Mrs. Edward H. Murphy, Fayette.

Distinctive Costume
For her wedding, the bride wore a light blue costume, the coat designed with a wide notched collar and open-crowned hat of light pink tulle, tipped with two large rosebuds in front and worn back of her head.

Pink gloves matched her hat; her corsage was of Pink Maiden French roses and her shoes were navy blue.

For luck, she wore a sapphire in her slipper brought from New York City by her aunt, Mrs. Turner, and as something borrowed, something blue, two blue embroidered Chiquito special rings.

Mothers' Wedding Rings
Special significance was attached to the golden circle which the bridegroom placed on her ring finger, the wedding ring of the bride's mother. The bride's ring was designed to match it.

In the role of pater of honor was Mrs. A. Monroe Hagley, a college friend of Miss Nichols, whose own marriage had taken place but six months ago.

She wore the black wool suit with champagne ornaments which she had been her bride attire. Her corsage was of yellow rosebuds.

Mrs. A. M. Harty was best man. All the men attended the wedding in military uniforms.

Mrs. Murphy wore a black suit and accessories and a jasmine corsage.

Mrs. Turner was gowned in a black Eclairer model with an imported collar and a black fur and cat. Her corsage was also jasmine.

Following the ceremony, Mrs. Turner presided as hostess at an informal wedding reception in the parlors of the home of Mrs. Mary Estima, 412 Second avenue north. First grade mothers will be in charge.

Marion Women's club will meet Wednesday afternoon at the home of Mrs. P. H. Risher.

Buxton-Johnson Nuptial Read at Henderson Home

Standing before a large picture window at the home of Mr. and Mrs. Kenneth Henderson, 229 Walnut street, Sunday at 4 p. m. Miss Mabel Johnson and Lloyd Buxton exchanged marriage vows.

Miss Johnson, former teacher at Piler and Durley, is the daughter of Mrs. George Johnson and the late Mr. Johnson. Mr. Buxton, a former Piler pharmacist, is now a sheep grower and rancher at Driggs.

Flowers and Tapers
Arrangements of pink snapdragons and lighted candles in wall sconces on either side of the picture window, figured in the setting for the ceremony, read by Rev. E. L. White, Piler Methodist minister.

Mrs. Henderson was matron of honor and Arthur Johnson, Piler, brother of the bride, was best man.

A powder blue redingote costume was worn by the bride, and her corsage was a simple oval and pulled carnations.

When the sentiment was a family heirloom necklace of gold and garnets.

Following the ceremony, Arthur Johnson was host at an informal wedding dinner at the Rogerson hotel.

To Live at Driggs
Now on a wedding trip to an unannounced destination, Mr. and Mrs. Buxton will be at home later this month at Driggs.

The bride's going away outfit was black pin plaid tailored suit, which she wore black accessories.

Mrs. Buxton is a graduate of Albion High School, where she received her pharmacy degree from the University of Idaho, southern branch, Pocatello.

Rotarians Plan 'War' Party in Honor of Women

In pace with a nation at war, and fully aware of the emergency of today, Twin Falls Rotary club members will dispense with traditional favors for their women guests, and substitute a "war party" in honor of the women of the community, when they entertain at ladies' night party Wednesday evening, Feb. 18.

The courtesy, at which Rotarians entertain for their wives and women guests, will be in the form of a dinner dance, and will take place at 7 p. m. Wednesday in the new dining room at Higley's cafe, according to Thomas C. Peavey and Bert Sweet, in general charge of arrangements.

It will be a "war party" in that funds ordinarily used for purchasing favors and decorating elaborately will be used for more timely and important purposes, Mr. Peavey explained, adding that lack of favors would put "celery" in the evening's festivities.

S. Toffenbro, club president, will preside during the dinner hour program, when musical numbers, songs arranged by Edward Rogel, Twin Falls high school principal, will be presented by vocalists and instrumentalists of the school.

Will Wright's orchestra will provide music for the affair.

School Official Urges Public to Attend PTA Meet
"This will undoubtedly be one of the most important meetings of the year; its timeliness cannot be over-emphasized," said Edward Rogel, principal of the high school, as he added his invitation to that of officials of the Junior-Senior High School P. T. A. meeting every interested taxpayer in the district to attend the P. T. A. meeting at 8 p. m. at the high school auditorium.

School finance problems will be discussed by members of the school board, with the audience to be invited to participate, according to Mr. Rogel.

Topics Considered
"Should the current cost of education be met now?" and "It is important to keep our schools on a level plan during wartime."

Opening the program tonight, a patriotic pageant, "Seven Lamps of America" and the presence of members of the P. T. A. and the high school girls' chorus, directed by Mrs. W. M. Morgan will discuss the school's plan for protection of the school during the war.

Discussion Leader
Mrs. D. P. Groves will preside at the business meeting, and Mrs. John D. Burkhalter will discuss the school finances.

Sunshine Circle Club Arranges Valentine Party
Honoring St. Valentine's day, members of the Sunshine Circle club entertained their husbands at a get-together supper and pinocchio party Sunday evening at the home of Mr. and Mrs. Ken Medford.

Mrs. Edna Wilson and Mrs. Refner were in general charge of arrangements for the party, at which 37 guests were seated for dinner prior to the pinocchio games.

Mrs. Edna and John Ripper, Mrs. Lillian Wilson and Mrs. Refner were present.

Next regular club meeting will be held Wednesday, Feb. 18, at the home of Mrs. W. V. Parish.

Mueller-Witt Vows Pledged to Taperlight Rite

Petal pink tapers in cathedral and princess lengths formed the illumination for the marriage ceremony of Miss Helen Marjorie Witt, Twin Falls, and William A. Mueller, Buhl, Sunday at 1:30 p. m. at the home of the bride's parents.

The bride is the daughter of Mr. and Mrs. Earl Witt, 651 Second avenue north, and the bridegroom is the son of Mr. and Mrs. William A. Mueller, Buhl, Rev. G. L. Clark, pastor of the Twin Falls Presbyterian church, was the officiating clergyman.

Miss Ella Emitt, Twin Falls, and Miss Leonard, Piler, were the attendants. Courted Larson, Twin Falls, was the ring bearer.

The bride wore a pink satin formal gown with a fitted bodice, flared skirt and short sleeves, and a corsage of white sweet peas centered with a single pink rose bud. Her hair was styled in a classic "finger wave" and her complexion was completed with a cluster of pink sweet peas. Her "something borrowed" was a gold necklace.

The bride's attendant was also gowned in pink, her corsage model being similar in design to that of the bride, and her flowers were also sweet peas. Her "something borrowed" was a lace-covered table.

Thirty-three guests attended the wedding and the reception which followed at the home of the bride's parents.

On Wedding Trip
Mr. and Mrs. Mueller will be at home on a ranch near Buhl, following a wedding trip to Salt Lake City. Mrs. Mueller entertained 22 friends at a party of navy blue with matching accessories, when she left for Utah.

Mrs. Mueller is a graduate of Twin Falls high school and the Specialty Beauty school. Mr. Mueller is a graduate of both high school.

Nevadans Capture Intercollegiate Skiing Tournament

RENO, Nev., Feb. 16 (AP)—In a meet that lasted so late in the evening that the sun was not seen, the Nevada team was last in the darkness, the University of Nevada accumulated 29.5 points in four events—down mountain race, jumps, slalom and cross-country—to win the 1941-42 annual intercollegiate ski meet yesterday.

GOODING'S OUTLAW MEET SIDELIGHTS ON

Mulling over the Gooding outlaw tournament, Gooding Lions, sponsors of the 17th annual meet, did not make much of any money this year—but they were satisfied.

It is our opinion the outstanding basketball performer on the floor during the whole tournament was Open Hurk-Anderson, the Shoshone athlete.

Reaching one of the finest "back-hand" shots on the court, Anderson held together an otherwise meek, but all-around team that advanced high in the meet before being eliminated.

However, this will probably be the last tournament in which the late Lino for Anderson, successor to the late Lino for Anderson, coach at Sugar City three years ago, will be remembered.

At mid-semester he left a message to the late Lino for Anderson, coach at Sugar City three years ago, who was the first to suggest that he should be remembered.

How far back can you remember when it comes to Kentucky derby winners? Frank G. Mendel, sends us a list of winners starting at 1920 with Paul Jones.

The first winner that made an impression in our mind was Zee in 1924. After that we can recall an incident or two for nearly every year up to the past season.

Went: 1924—Black Gold; 1925—Flying Ebony; 1926—Dabbling Over; 1927—Whisper; 1928—Belton Giant; 1929—Clyde Van Dusen; 1930—Giant Fox; 1931—Twenty Grand; 1932—Burple King; 1933—Bitters Tip; 1934—Cavalade; 1935—Omaha; 1936—Bent Venetian; 1937—War Admiral; 1938—Lawrin; 1939—Johnston; 1940—Ovalindale; 1941—Whirlaway.

That's about as good as I can do for you. That's about as good as I can do for you. That's about as good as I can do for you.

PHILADELPHIA, Feb. 16 (AP)—Lew Jenkins, who used to do his training in the night clubs, now goes to bed at 8 p. m.

The reason is that the former lightweight champion from Sweetwater, Tex., knows his stands at the crossroads of his boxing career, he meets Mary Servo of Schenectady, N. Y., in a 10-rounder tomorrow night at the arena.

For the last week the lean Texan, who dropped his crown to Sam Angott in Madison Square garden, has been taking his work seriously.

No more light life for him, Jenkins declares. He wants to get back into the big time.

His wife, Katie, arrived yesterday, looked Lew over and declared, "Lew is a good fighter. He's better than he has been lately. I know when he's right for a good fight and I'll be glad to see him if he doesn't knock Servo out."

WARDENS SET-UP COMPLETED SOON

Completed organization for all air raid wardens in Twin Falls county will be made within the next few days, Leonard Avant, chief air raid warden, said this afternoon.

Avant said that organization is being finished so all wardens can receive last minute instructions which are expected to arrive here in the immediate future.

Organization is practically complete at the present time," the chief warden said, "but there are a few places where closer cooperation is needed.

Every air raid warden in every block in each community, and also in each small subdivision of every district should, if he has not done so to date, call on each resident of the area for which he is responsible.

Such calls are important. The warden should learn how many persons are in each family, if there are any invalids, how many rooms there are in each home and what precautions have been taken by the residents. He should also offer suggestions for residents to follow during an alarm.

Avant said that following such a survey, the warden should report to his immediate superior, telling him that the work along this line has been finished. More details of the air raid wardens work will be published in the press as the organization proceeds.

Mainland to Get Hawaii's Aliens

HONOLULU, Feb. 15 (AP)—Several hundred enemy aliens will be sent from Hawaii to the mainland in the near future under provisions of international law, the army announced today.

Under treaty clauses, army officers pointed out, such aliens are not regarded as prisoners of war or criminals but are interned for the protection of the countries involved and for their own safety.

Aliens from other islands will be assembled here for the transfer. They will be allowed to take warm clothing and other necessities.

An army spokesman said their property in Hawaii would be placed under the care of alien custodians for the duration.

MOOSE AT BUHL PLAN FOR DANCE

BUHL, Feb. 16—The Loyal Order of the Moose and Women of the Moose held separate meetings at the I. O. O. F. hall Thursday evening. The Moose lodge elected to membership Walter Eis and Russell Lively and voted to hold a dance Feb. 20.

Twenty-one members of the Women of the Moose elected to membership two new members, Mrs. Katherine Lively and Mrs. Frances Eis. The Red Cross committee, Mrs. Mable Smith, Mrs. Blossom Kreigh, Mrs. Viola Harris and Mrs. Leola Kreigh, reported that soliciting for the Red Cross had been completed. Social service committee will give the program for the March meeting.

Mrs. Winifred Stombaugh, chairman of the hospital committee, reported receiving magazines to take to the Buhl hospital.

Mrs. Tom Smith and Mrs. Verri Kreigh joined the alumni in order to be eligible to attend the Academy of Friendship degree meeting of Pocatello Feb. 23. The next committee meeting will be held at the home of Mrs. Thelma Howard Friday, March 6, with Mrs. Eva Sedivy and Mrs. June Wington assisting hostesses.

The two groups met for a social hour following the meetings, with 45 in attendance. The entertainment committee, with Mrs. Viola Harris as chairman, presented a humorous play, "A Mock Sentence," which was well received.

Judge, Clarence Walcott; clerk, Verri Kreigh; town sheriff, Mrs. Viola Harris; Miss Gabriel, Mrs. John Hawley; Lawyer Frazzle, Frank Bett; Lawyer Lickum, Cecil Terra; Miss Doohitel, Mrs. John Prilluck; Rudolph Runkaber, Raymond Hirt; Miss Emmeline, Mrs. Winifred Stombaugh.

Child Training Talked at P-T.A.

HANSEN, Feb. 16 — Mrs. Howard Hill presided at the meeting of the Parent-Teacher association held at the Excelsior school last week in the absence of Mrs. O. Tille, president.

Mrs. Mary Zilkey, teacher in the school since the holidays, was named to assist Mrs. Hill on the program committee.

The lesson, "Training a Child As a Human Being Rather Than an Intellectual" was under the direction of Mrs. C. Prior. On the program, Leola Henry and Iverna Hill appeared in a vocal duet, followed by a group singing of "God Bless America," "Star Spangled Banner," and "Safety Zone."

'Abe' Lives Again At Novel Program In Burley Church

BURLEY, Feb. 16—Abe Lincoln lived again at the Burley Methodist church on the eve of his birthday anniversary.

The church held family night dinner and Hugh Crawford, dressed as the great emancipator, depicted the Lincoln of Gettysburg address, Washington, too, "revived" for the church gathering when Mr. and Mrs. Ed Schroeder presented a stunt representing George and Martha Washington.

Included in an old-fashioned style show was a bathing suit 75 years old. A large valentine formed the frame for the style parade. Mrs. George McGonigal was in charge of the program.

UNEMPLOYMENT AT 12-YEAR LOW

NEW YORK, Feb. 16 (AP)—Unemployment in the United States is at the lowest level since 1920, the economics division of the national industrial conference board reported.

"The average number of unemployed is estimated at slightly less than 2,000,000, or fully 50 per cent below the comparable 1940 total of 3,800,000," the board said.

"During the past year, 937 of every 1,000 gainful workers in the labor force were employed, in contrast to only 669 per 1,000 in 1931, to 834 in 1929 and 857 in 1940.

"Almost 5,000,000 more persons found jobs during 1941 than in 1940. About 3,700,000 of these were added to civilian industries, while an additional 1,100,000 were brought into the armed forces."

Fisher Rites Set

BURLEY, Feb. 16—Funeral services for Fredrick Thomas Fisher, 65, pioneer rancher here, will be held Tuesday at 2 p. m. at the Burley Odd Fellows hall, with Rev. Alvin L. Kleinsteig, of the Christian church, in charge of the services. Burial will be made in the Burley cemetery, under direction of the Payne mortuary.
