

AUSTRALIAN JAWA OCCUPATION

Australians Get Ready for Blow From Jap Troops

MELBOURNE, Australia, March 9 (UP)—Australians counting heavily on American and other allied aid—mobilized maximum fighting strength and battered Japanese invaders of New Guinea with bombs today in expectation of an imminent enemy offensive from the north.

The Japanese sweep of Java island and arrival of Dutch Netherlands East Indies officials, including Lt. Gov. Hubertus J. van Mook, in Australia was regarded here as a final warning that an emergency meeting of Prime Minister John Curtin's cabinet hurried plans for counter measures.

The Australian air attacks on Japanese invasion fleet at Salamaua and Lae, on the north coast of New Guinea, were unexpected, but it was understood that heavy casualties were inflicted on the enemy forces that seized a foothold on the gulf of Wau.

Japanese bombers also were reported to have renewed raids on Port Moresby.

Counted on resistance of a strongly allied resistance in the Java mountains, Dutch officials arriving here emphasized that the battle was going on in the interior despite Japanese claims that the stronghold of Hollandia had fallen and that the entire island had been surrendered.

Van Mook, indicating that a refugee government would be set up in Australia, said that the battle would be carried on to the last man although it was acknowledged that loss of important Bandung positions increased vastly the difficulties of the Dutch forces.

The most vigorous military measures were directed at the main Australia and orders have been given to evacuate the Dutch in New Guinea to the interior, especially in the sparsely settled northern areas that include the Broome and Wyndham air bases and Port Darwin.

The first aim of Australian defense strategy is to concentrate the maximum concentration of power in the interior, and to prevent the Japs from taking any offensive action which would stop the Japanese.

For such action the Australians are counting on allied aid on a big scale.

An important factor, authorities said, will be the network of air fields that will be available to carry planes in Australia to operate at short range against any threatened air force.

In the last few weeks many thousands of additional troops have been released to reinforce the regular army.

In addition, thousands of civilians (Continued on Page 2, Column 7)

LAWS TIGHTENED ON INSTALLMENT BUYING IN U. S.

WASHINGTON, March 9 (UP)—The federal reserve bank today tightened its anti-inflation restrictions on installment buying, and added bicycles, lawn mowers, clocks, watches, photographic equipment, silverware and floor covering to the list of articles covered by the regulations.

New regulations will become effective March 23.

The permissible maturity period for installment buying under the regulations will be reduced from 18 to 12 months, except for residential real estate, plumbing, furniture, water heaters, water pumps and radios. The period on these was left at 18 months.

The required down payment will be increased from 20 to 33 1/3 per cent on such items as radios, vacuum cleaners, electric dishwashers, room air conditioning systems, and attic ventilating fans, and from 15 to 20 per cent on watches, water heaters, water pumps and plumbing.

A down payment of 33 1/3 per cent will be required on bicycles, lawn mowers, silverware and photographic equipment; and 20 per cent on clocks, watches and floor coverings.

Auto Sales Federal reserve officials said the installment buying regulations which became effective last September, had had a desired "dampening" effect on installment buying in the automobile market. The volume of installment credit has fluctuated since last September, when the first regulations became effective, but generally has been downward.

The new regulations provided that "after April 1, the credit value of a used automobile, instead of being based on its original retail price, is to be based either upon the purchase price of upon the average price for such automobiles as determined by the board, whichever is lower."

Add War Worry: Shortage Looms For Easter Lily

SALT LAKE CITY, March 9 (UP)—The shortage of Easter lilies this year, delegates to the zone 5 convention of the Florist Telegraph Delivery association were told today.

William E. Joy of Columbus, Ga., national president, explained that in the past a large part of the supply came from Japan. Since Dec. 7 they haven't sent us any.

Hynchik, Lilies of the Valley and tulips also will be scarce, he said, for the bulbs of those flowers formerly were obtained chiefly from Holland and Germany.

The Nazis, Joy declared, have seized the Dutch hyacinth bulb supply to be made into flour—instead of flowers.

Below Parity Crop Selling Stirs Battle

WASHINGTON, March 9 (UP)—Administration opposition to a rider barring sales of surplus crops at below parity prices faced a test today as the house plunged into its sixth day of debate on the 460-000,000 agriculture appropriations bill.

Congressional sources predicted that President Roosevelt, Vice President Wallace and Secretary of Agriculture Wickard would back up the administration's position in radio talks tonight. The White House would not confirm or deny this report.

BRAZILIAN CRAFT SUNK IN ATLANTIC

NORFOLK, Va., March 9 (UP)—The Brazilian consulate announced today that the Brazilian freighter Arbutan was sunk by enemy action off the Atlantic coast Saturday night that 54 men aboard were rescued.

One man was missing and was believed to have been killed when the Arbutan was torpedoed.

The crew took to four lifeboats after the ship was hit by a single daylight attack. After spending 20 hours at sea, the 54 men were rescued by the British merchant hospital here. All except two were in reasonably good condition.

The Arbutan was built in Alameda, Calif., in 1917. It was formerly the United States coast, the S. 1122 and was later purchased and incorporated into the Brazilian merchant marine.

BRITISH PLANES RENEW ATTACKS ON NAZI PLANTS

LONDON, March 9 (UP)—British planes made their heaviest attack on western Germany in many weeks during the night after bombing a French war factory at Polesy yesterday in their second raid since a week on the Paris suburb last Saturday.

The British planes in their German raid concentrated on Essen, which had been the principal target through-out the day.

Reports being compiled by the air ministry indicated that the attack was most successful.

Authoritative informants said that Essen was much on the same scale as that last week on the Paris war industry suburbs, when the British bombers used incendiary and tank plane was almost wiped out.

Because of persistent unfavorable weather conditions, Essen had not been raided since last Nov. 8, when the Krupp plant was heavily bombed.

A German broadcast heard here said British planes attacked several German factories in Germany and caused "casualties among the civilian population" but no military damage.

The Dutch military operations in the Netherlands East Indies, said a Dutch general, were "not any general success" in the Netherlands East Indies authorities there, whether military or civil, and that the Dutch military operations.

FAIR CONTRACTS CREMER'S RODEO

Stock J. Cremer, Shawmut, Mont., leader, will again "put on" the rodeo at the Twin Falls fairgrounds on March 10. Thomas C. Parks, secretary-manager, said this afternoon.

Cremer, who has staged rodeos at the fair at Filer for the past two years, contracted with the fair to stage a rodeo on the fairgrounds and signed a contract to show here this year.

The fairman's stock this year will come to Twin Falls after showing at the Colorado state fair at Fort Collins, where he will show his stock.

As a result, Parks pointed out that "all Cremer's stock, reckoned to have been lost in the war, will be on deck for the Filer fair."

Idaho Farm Unit Protests Aliens Moving to State

POCAHELLO, Idaho, March 9 (UP)—The Idaho Farm Bureau Federation in Pampa, Pa., province, about 25 miles northwest of the Bataan battles and 19 miles north of Manila, has established his field headquarters at San Fernando in Pampa, Pa., province, about 25 miles northwest of the Bataan battles and 19 miles north of Manila.

The new Japanese commander-in-chief in the Philippines is 57, three years older than Gen. Douglas MacArthur's reports of the supposed suicide of Homma presumably caused by the explosion system which is functioning behind the enemy lines.

According to these reports, which lack complete verification, the Japanese general's suicide was motivated by the fact that his materially superior forces had been un-

TUCKER'S NATIONAL WHIRLIGIG

HONOR—The question of publishing American casualty lists has become a live one at the army and navy departments. Some higher grade officers in favor of the theory that a daily roll will give the people a more realistic view of the war more emotionally than headline chats. Others contend that identity of the dead will give the foe the position of our combat units.

Hitherto unwritten stories of military deaths may be revealed in secret conferences in which this problem was discussed. In opposing any such roll, one of the highest army officers recalled an incident which occurred during the Franco-Belgian campaign. The German correspondent wrote for his paper a story about the "brilliant Sedan advance" which was the first success of the French troops. The Germans knew that the only polks who wore metal hats were the body guard of the emperor, and it was this group of the press which precipitated the attack on Sedan and the capture of Napoleon III. In World War I the British of certain German newspapers were given the allies an advance tip on the March, 1918, offensive.

For the present neither the army nor navy can afford to advertise in this manner. It would give the foe their country. Such announcements, in view of our minor participation on all fronts, would furnish important information to the enemy. It is true that several million men fighting in various sectors, and warships splitting five of the seven seas, Washington will report the soldiers and sailors who have gone to Valhalla.

WAGE—Henry L. Morgenstern's new tax proposals stunned the members of the house ways and means committee. His rates mean, roughly, that almost every American will pay more taxes. The bill is known as Uncle Sam. Men in the top brackets and corporations will fork over a payment ranging from 75 to 90 per cent.

But a dose-of-and-dem New York member of the committee dramatized and personalized the 1942 revenue measure in so far as it will affect the average citizen. This Manhattanite has no comprehension of the intricacies and complexities of the levy structure, but he has had a hearing. So, when the secretary of the treasury led the stand, he took some of his colleagues aside and said:

"Don't panic," said Henry, "I'm talking about you. It reminds me of the time when Luis Firpo came up from South America and cleaned up a lot of money by knocking Jack Dempsey out of the ring and the Polo grounds. When it came time for Luis to leave the country and pay his income tax, his three managers advised him to get out of town as fast as he could, for the three men owned 133 per cent of Firpo. Well, if this revenue bill passes, Uncle Sam will own 100 per cent of every wage earner."

HONEY—Thomas G. Corcoran, brain-truster, White House lobbyist and lobbyist-in-chief, has been viewed from a few months ago after his money-making activities were exposed by several congressional committees. He has been accused of having been flattered out by adverse criticism. But he has responded in a field where, if history repeats, there has been no precedent.

Justice and wealthiest item of controversy at the moment is the custodianship of seven billion dollars worth of alien property. F. D. R. has given the proposed guardianship of this fortune to Secretary Morgenthau. But his administration has been entrusted to Corcoran. The late Secretary of the Treasury, W. C. C. Crowley, Treasury Council "Ed" Foley and Assistant Secretary of State Dean Acheson. They will need a great deal of money for the score. The actual management of foreign possessions now held in escrow.

Mr. Morgenthau detests "Tommy," so the young man has no chance there. As an ally of Jocks, who has frequently opposed and reviled Secretary Hull, Mr. Corcoran has a good chance of getting the job. But "the Cok" and Leo are old political and financial friends and Mr. Crowley may be able to sneak the young lawyer into the job. He has developed a money pot. Otherwise the free lunches Corcoran has been buying for the Wisconsin politician (Mr. Crowley) will be wasted on the wrong man, what "Tommy" could do if turned loose in this field.

HISK—A seemingly unimportant bill recently introduced in the house by Rep. John M. Costello of California measures the airplane aid we have given to the Axis. It is the first time since the war started that the far east. It suggests that at least 10,000 U. S. planes are now fighting for democracy in foreign skies. Here is the gist of it:

When an American maker of aircraft sends a shipment abroad, he dispatches skilled mechanics to service the planes. These mechanics are given the same pay as the far east. It suggests that at least 10,000 U. S. planes are now fighting for democracy in foreign skies. Here is the gist of it:

THE HUNGRY FIGHTER

One of the axioms of the sports department is that the fighter who is hungry is a hard man to beat. It is the other way, too—wealth and easy living softens up the champion that it is not too hard for the underdog to knock him out.

Doesn't that apply to Japan and the United States? Surely Japan has been hungry ever since 1932 at least. And we are not still being the wealthiest country in the world?

Before Japan entered the ring against us, we were told pretty generally that Japan did not have the ability to withstand a rigid blockade, and Japan's navy was no match for our fleet. Japan could not produce the arms. And as to economics, well, Japan was starving. Citizens were being tossed into jail for bootlegging rice!

Were we duped? No, those statements still stand up pretty well, though the first three months of the war have resulted in victory after victory for the Nipponese. Japan, facing the enemy alone, and it is up to us to survive or die.

When President Roosevelt, in his message back in January, outlined the tremendous job we planned in the way of producing tanks, guns and ships, there was a general tendency to puff out our chests. This was America, after all, bigger and better than any other land. We would show them.

We are in the ring now, face to face with an opponent who has the spirit of conquest in his heart. Our bank account is not much help when the bell rings and we leave our corner to trade blows with a desperate man.

How soon shall we realize that here, at this hour, we are fighting with the might of our nation, who is crafty and well prepared, who has the advantage of fighting in and near his home town?

We will have to battle now with every physical resource. We can't win this one by physical resources. We can't win this one by physical resources. We can't win this one by physical resources. We can't win this one by physical resources.

It is in the words of the sports room, let's hit Mr. Moto with everything but the kitchen stove.

GLASS BURNS 'EM

Senator Carter Glass of Lynchburg, Va., president pro tem of the senate and a member of congress since the 57th session. Is a good bit like a great and venerable grandfather. He is a little old, but he is not unperturbed by what goes on about him, and then on the hour, wheels whir and he strikes.

At hearings of the joint committee on reduction of nonessential federal expenditures the other day, Senator Glass, president pro tem of the Office of Civilian Defense Director James M. Landis, a speech which Philadelphia John B. Kelly of OGD's physical fitness department delivered, calling on the American people "to be a lot stiffer and a little dumber."

Glass hadn't said a word all morning, but when he heard that his wheels whirled and he struck, exclaiming, "Could they be any dumber than they have been!"

A "SOFT DOG-HOUSE"

If you want to get a nice trip to London at government expense there seems to be one sure formula—get a high government administrative job, do it in a way which subjects you to widespread criticism, become unpopular with your associates, and as a reward for trying you'll be sent abroad on a special mission. That happened when John D. Biggers was eased out of the job of production boss at OGD. It happened recently when Charles F. Palmer was removed of his position as federal housing co-ordinator.

The gag in Washington is that London should be re-named "the dog house."

SAY IT ISN'T SO

Just as though we didn't have enough worries, along comes a bad blow at the solar plexus of our morale. We object. We protest. We cry out for relief. In fact, we are yelling out these things about the famed "Frankie and Johnny" team, testifying in a St. Louis court that she shot her unfaithful lover with a "small caliber pistol," not the .44 of song.

Next they will be telling us that Steve Breyer, ex-Brooklyn star, who was shot by Mrs. O'Leary's cow didn't start the Chicago fire, and that Adolf Schickelgruber wasn't Vienna's greatest paragoner.

OTHER POINTS OF VIEW

EYE VERSUS EAR

President Roosevelt's repeated references to the map of the world as he is pointing to the spot where the White House request that all listeners equip themselves with such a visual aid, confirms what all agree is the fact. The eye is the most important sense that the ear, unaided by the eye, cannot give the mind a clear and accurate impression of important facts. The eye is the most important sense that the ear, unaided by the eye, cannot give the mind a clear and accurate impression of important facts.

EVERYBODY WANT TO CLEAR THIS UP?

Dear Folks: For what office is the Chamber of Commerce running Claude Dewey?

We understood it was Bill who was to run for governor.

VERSE, MORE OR LESS

Dear Folks: ORIGINAL

If there's no charge of plagiarism in the following verse you might like to know that the allusion is capable of putting out some new ideas at least. This was cooked up on the way back from Miss Maud's.

Ask Bob Wildman for further ideas.

He glides down the slopes with the greatest ease. Schussing (apt?) the fell line and missing the trees.

His christies are graceful, his turns are smooth and his feet are light. The darling young man on the hickory skis.

WAR IS LOUD ON WILLIAMS. — Just in passing, we thought we'd inform you constituents that were worried about Claude Pratt. Sure, you keep this on the Q. L. We don't want to alarm Mr. P., but our dirt says that Mr. P. who used to up the scales this time, he tipped 'em over' at 30. He only weighs a skimpy 305 pounds now.

(By the way, he got a letter from an old acquaintance down in Alexandria, Va., wondering if he intended to form a regiment of guys his own size to repel the Japs. We should try to think of uniforms for a regiment of times like that would do it at the high wages too!

DEAR SERIAL STORY

Pat Spots extends thanks to the Hoops for the good cent or two which he mailed him copy No. 10 of that to do in case of an air raid.

These memos are getting to be practically a serial story, but we do go to the trouble of what to do is funny; our favorite is No. 10, which, thereabout the whole world; but we're not using the whole works on so we're not sending stamps money.

Thanks in advance to all generous contributors who may spot the instructions for the position containing the serial story.

PROVING LIFE IS TURBULE FOR THE LADIES

We give you constituents here with the latest scene from the Times-News gallery.

One of the two girls in the social life of the Twin Falls is in a large bag. She and the other girl in the position containing the serial story are getting back very secretly so they could try on the hat without anyone else's assistance.

CARE OF YOUR CHILDREN

By ANGELO PATRI

PUPILS DO NOT FAIL

We were stunned to learn Sonny had been left back. What shall we do about it?

The agriculturists plan to work themselves and their families together, to arrange for the exchange of labor, and to pool their experience and labor, and to pool their machinery, and to pool their planning. Already many schools are so that the children will be out of school for a few days.

Parents are urged to get their children to school early in the morning, to get them to school early in the morning, to get them to school early in the morning.

That was the time, at the first report, to do something about it. He could have had his coaching lessons; he could have had a program that allowed him to strengthen his mind and his body. He could have had another teacher; he could have been moved up or down the line so that he was placed where he could fit into the scheme of the schoolroom.

What was left at the end of the term to do something when there were sixty school days or more for the doing.

Schools kept informed.

Parents do not surprise parents at promotion time. The school should be kept informed about their children. Good schools do not surprise children to go to school day after day. They should be kept informed about their children. Good schools do not surprise children to go to school day after day.

ANALYZING CURRENT NEWS FROM NEW YORK

TAPP—News from south Africa has been muzzled by censorship, hence it will startle most people to know that a sensational battle on the land of the Boers have resulted and only swift military action put down a mutiny. Boer and British troops from Victoria Falls to the south of the Orange River were smashed in explosions set by Boer saboteurs. The Boer saboteurs were arrested and the British troops were found in their homes. They have a list of names of the Boer saboteurs implicating several hundred other officers.

"B" CHAMPION CROWNED TONIGHT; "A" PLAY STARTS TUESDAY

Heyburn Meets Hagerman on Wendell Floor

Peak of the 1942 basketball season starts tonight as champions will be crowned in both Class B and Class A tournaments at Wendell and Twin Falls.

Championship of the "B" schools will be settled tonight when Heyburn and Hagerman tangle on the Wendell floor for the right to represent this district in the state tournament.

Three top clubs waded through opposition from six other schools of the region last week and came up to tonight's play in fine defeat each on their records.

Both clubs were well-balanced teams and tonight's battle is expected to be a close race from start to finish.

"A" Play Starts Tuesday

Tomorrow eight teams tee off in the Twin Falls high school gymnasium for the district "A" championship and the right to compete in the state tournament.

Where last year saw south central Idaho represented by two teams in Class B and two more in Class A tournaments, only one team per division will go to the championship tests this year.

Defending district champion is the Oakley Heron quintet, while Harry Hobart, runner-up, won the district crown at the Boise tournament.

Friday afternoon play Tuesday, Jerome and Gooding tangle in the first game at 8:30 p. m., while Twin Falls plays against Rupa at 8:45.

Most of the fireworks for the first day's play in Class A is expected to be furnished in the home gymnasium featuring Burley and Oakley at 7:30 and Rupa and Rupert at 8:20. Three games are finished by 12:30 in the Big Seven standings, with Oakley claiming the championship on percentage.

Brulins Favored

Some closer officiating that many of the teams have been used to may shift the odds on chances of some of the clubs winning the championship. Twin Falls has had many victories at least once every game encountered in this district, and the Brulins are expected to win the four from the Big Seven are just a notch behind.

Defending champion has a strong starting five—but might be considered weak on reserves. Oakley is pretty much a one-man team, as Coach Rulon Dodge's main weakness at Burley is lack of height.

Two centers hold key positions in the teams of Rupa and Jerome. Ed Schenck and Pat Hamilton, respectively. If they are able to play as well in the state tournament as they are in the district, they are capable of taking their teams into the championship.

Gooding, Piler and Jerome are the underdogs and any victories they record in the "upset" category.

Here's How Nation's Cage Quintets Rate

NEW YORK, March 9 (AP)—How the national basketball picture looks today out of two of the major titles decided:

Big Ten—Campaign completed with regular season play in progress as the champion and heading for the national collegiate tournament which will start in all-victorious last season.

Big Six—Kansas and Oklahoma have taken the lead in the Iowa State were on top last March.

Southeast—Kentucky is the leader in the conference. Vols had best conference record during the season but lost in the final game.

Rocky Mountain—Big Seven—Wyo. leads in first place where they are on a bye.

Southwest—Arkansas, winner of the title last year, shares it this season with Utah.

Eastern—Dartmouth, winner of the title last year, shares it this season with Wake Forest. Wake can do no worse than get it. Princeton, its only remaining contender, will play Wednesday and Penn State Saturday.

Southern—Conference—Duke led in percentage for entire season, won championship tournament and retained crown it won 12 months ago.

Missouri Valley—Conference—Illinois and Oklahoma are to divide the banner that belonged undisputedly to Nebraska Bluejays last season.

Pacific Coast—Stanford repeats as champion in the southern while Oregon State repeats in the Pacific as state as first of north division.

Midwest—Three champions are at Palo Alto Friday night for all-league crown Washington State has dropped.

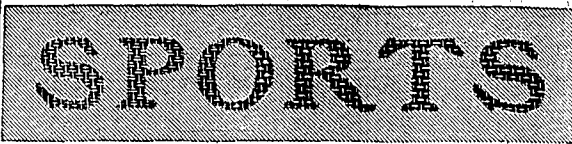

Frank Green Holds Lead in City's Billiard Tourney

Frank Green held undisputed possession of first place in the Twin Falls billiard tourney which started at the H. M. Cigar store, defeating Dr. G. T. Parkinson, 135 to 62. Green has won five out of six matches.

Green also regained the high run record this week with 37 which bested Harry Porey's run of 33 the night before. Dr. Parkinson was 90 to 26 in three games on Friday at the H. M. Cigar store.

Joe Wilson defeated B. G. Briggs, 90 to 62, with both men shooting 12.

Tonight's tournament matches, according to "Tourney Manager" G. O. Rogers, are Dr. Parkinson (80) vs. B. A. Atkinson, Kimberly (60) and Weller (41) vs. Wes Arnold, Kimberly (40).

Gun for Second Consecutive Title

Confidently putting out good basketball teams at Heyburn, Coach Dick Stevens has brought another great quintet to the finals of the Class B district championship at Wendell tonight. The club gained a pick-off position with Hagerman by eliminating Castleford Saturday night. Winner of tonight's battle goes to the state meet. Back row, left to right: Coach Stevens, Jim Towne, George Pullman, Delbert Fenton, and Dick Dilts. CORAL VALLES, Fla., March 9 (AP)—The \$5,000 Millionaire in Coral Gables is four-ball golf tournament. The second round today with Johnny Rowland of Pasadena, Ill., and Ky. Lafolton of Chicago, ranking close to the top on the favored list.

The Revolta-Laffoon tandem registered an upset when over Sam Snead of Hot Springs, Va., and Ralph Guldahl of Rancho Santa Fe, Calif., via a 40-foot putt with the 39th hole, when Hines sank an 18-foot.

Byron Nelson of Toledo, O., and Henry Finch of Oklahoma City, both in the eight-team, Penn and Chick Harbers of Battle Creek, Mich., 3 and 1. Nelson's tight performance gave his team a low score of 61.

Defending champion Ben Hagan of Hershey, Penn., and Gene Sarason scored a 1-up triumph over a host of regular players in the first round. J. and Harry Ransom of Philadelphia.

3 Clubs Accept Invitations to Gotham Tourney

NEW YORK, March 9 (AP)—Three clubs have accepted invitations to the national invitation basketball tournament opening at Madison Square Garden on March 17, were filled today by clubs which include the country's leading individual players.

Bids have been accepted by West Texas State, Rhode Island State and Toledo. Toledo and West Texas State are the only teams in their division whose tournament opponents will be hard-pressed to stop their scoring.

Price Brookfield of West Texas has scored 307 points. Bob Gerber of Toledo has scored 227. Steve Rodriguez of Rhode Island, 43. Modzelewski also holds the national first-year collegiate scoring record with 1,714 points.

"The Rhymer" Story Reads Like Fiction

By JOHN B. McDERMOTT

TROPICAL PARK, Fla., March 8 (AP)—Horsedom's hall of fame has been grace by many a surprising feat in the long history of the turf but none ever brought such a story as that of "The Rhymer." It is particularly like fiction that the story reads like a novel.

Free stables had ever heard of The Rhymer before Saturday—closed for the racing season. A sleek black horse named The Rhymer had been in the hands of the St. Petersburg and Tampa horse men. It was just a little horse entered by the Greenlee stable in the \$20,000-added, Wintertown cup classic, richest of the winter stake races.

He was accorded even less distinction by the fans who rated him just another "horse to dust of the track" but The Rhymer burst their disdain in the outlier of a sensational victory over a bulky Wintertown stable, and returned \$35,000 to the Greenlee stables.

"The Rhymer's" story begins two years ago at Belmont park when he was near death from pneumonia. Stable attendants gave up hope for him and he was sent to the Wintertown stable in a desperate hope that the young son of St. Germain and Rhythmic might be able to save him.

Even the veterinarian predicted that the colt had but an hour to live but the operation began and the transfusion did the trick and put The Rhymer on the comeback trail.

He had never been a stand-out horse in any field, much less the Wintertown cup, but he had won the post in the Wintertown and his victory earned five times the amount he had cost.

Wendell Davis, who was up on Louis Dubano's grape race favorite, "The Rhymer," said three races later never gave his horse a chance.

"That's what a horse needs is a trainer," Dubano said. "We should have scratched Market Wise Saturday morning."

Cleveland Indians Top Grapefruit Circuit

By AUSTIN BEALMEAR

NEW YORK, March 9 (AP)—The Cleveland Indians, starting line-up with Manager Lou Boudreau and pitcher Ewell Weaver, led by Bob Beckwith and half a dozen hitters trying to get their feet on the turf.

The Indians opened their spring training series yesterday by downing the Cincinnati Reds, 9-3, at Tampa, Fla.

That victory, coupled with the New York Yankees, who are expected to play the Tribe at the top of the grapefruit circuit, the only team in the district that hasn't suffered defeat.

Half of the teams in each major league haven't worked enough yet to get their muscles yet to take on serious opposition.

Cleveland manager Weaver has played, with the Brooklyn Dodgers and the Philadelphia Athletics the best baseball in any of the grapefruit circuit.

Play Opens in Collegiate Cage Tourney

By CHARLES CHAMBERLAIN

KANSAS CITY, March 9 (AP)—Basketball usually stays away from posing anything that resembles odds on the 52 teams in the nation's first collegiate cage tourney.

The season is simple. Virtually every school is a conference champion. Looking for the ultimate winner in the state-matched league is like searching for a needle in a haystack.

But the season is more interesting in the interim as many schools have participated frequently in this fifth annual tournament opened today with the best balanced field in its history.

Evansville, Ind., college is highly regarded because of Wilfred Gus Doerner, this scoring tabulator has pitched in 407 points in 11 games and averages 11.6 points a game.

Kentucky State of Murray, last year's runner-up, looks good with the return of center Bob Simmons in the lineup. Hamline university of St. Paul, possessing a sensation in John Standley.

Play Opens in Collegiate Cage Tourney

Wesleyan of Fort Worth, Texas, led by a towering sophomore center, Wayman Cotton, and Texas Tech's center, John Burroughs, are expected to be the favorites.

The defending champ, San Diego, Cal., is also a favorite, not because of its record this season, but of its spirited, half-running work on the field.

OSU's biggest name first round has been named Kansas state.

OSC Fires up For Try at Cage Crown

CORVALLIS, Ore., March 9 (AP)—Oregon State college, one of the best in the nation to enter this year, is fired up in quest of its second major championship.

The OSC basketball team defeated the expert by winning the Coast conference football title last fall. The club is now in for the title on Jan. 1. Now OSC sends its basketball team against Stanford for the Pacific Coast title at Palo Alto, Calif., on Friday, Saturday and (maybe) Monday night.

SPORT Spooks

Well, they've signed Tony Robello to a contract—and the signing pilot was promised \$750 a month and good baseball team—I mean such as you fans were able to watch back in 1939.

Oh, course, promises don't mean a thing.

We all heard the same sound-off last year from Andy Harrington and the Cowboys that they were headed in there that year finished some 25 games below the second-to-last place of the league.

Accomplishments will be the only first answer that south central Idaho fans want to the baseball question.

But I've some kind of a hunch that Robello is a man that can turn the trick with the Wranglers if anybody at all will be able to do it.

For years now the fans at Jayce Park have been boating the former Robello and the Wranglers not because they disliked his personality but rather because of this general dislike for the player who is to play against Twin Falls pitching.

This year the local boys will be able to see some more of Robello when he comes to the batter's box—and all the other side do the work.

A little fantasizing but with Robello on his short visit there reminds one that Tony is faced with possible trouble in his new team.

The "enemy" is Nick Cullup—a gent I have seen swell the pill for a long time in many major league years as one of the greatest home-run hitters in the minor leagues and he still packs a powerful punch, although he must surely be nearing the 40-year mark—compared with Tony's 20.

Several years back, when Robello was a youngster, he had a powerful wing to go with his tremendous batting punch. Tony and Cullup were on a possible material sale in Ohio team in the double-A American Association.

Famed Skiers Vie for Title On Alta Run

SALT LAKE CITY, March 9 (AP)—There are 11 men who are vying for the title of best skier in the world on the world's best ski resort, Alta, Utah.

The "enemy" is Nick Cullup—a gent I have seen swell the pill for a long time in many major league years as one of the greatest home-run hitters in the minor leagues and he still packs a powerful punch, although he must surely be nearing the 40-year mark—compared with Tony's 20.

There's one thing Robello is going to do here that I have contented with in my professional career.

Play the game of baseball for the crowd—not for the development of youth with a possible material sale.

The only way to make the local club financially sound is to have a good season at the gate.

So it will be the new Cowboy manager's aim to pick up youngsters who can play in the major leagues, although they may have some boys that would keep them from going into the majors.

Along this line Tony is apt to have a surprise one of these days with a pitcher he is conferring with. A first-and-a-half southpaw, this hurler has won in Class C and has a good record. He is expected to be a big boon to the local hurling corps.

Robello tells me that he visited Rogers Hornsby's baseball school at Fort Worth and in the district that Tony Hornsby had little or no talent that he could see on the ground. Only two National League pitchers and there wasn't a Class C prospect on the list.

Woe! Robello leaves for the west coast Tuesday he will have a free hand to pick up anything he can get his hands on in talent—the only restriction being that he can't be wasting money on something that will be in bloom in 1946 or three years.

Tony knows—just as well as the rest of us—that if baseball is to survive in Twin Falls it must make good in 1942.

WATCH PLEDGE TO FIGHT AGAINST JAPS "UNTIL DEATH"

ALL ARMED UNITS REMAIN ON JAWA

LONDON, March 9 (AP)—Highly placed Netherlands authorities declared today that the Dutch forces still remaining on Java could not surrender, although the island is largely overrun by the Japanese, but would fight on to the death.

None of the armed forces has left the Indies for Australia, the news agency article said.

(A Domei dispatch from Shanghai, heard by Reuters, said "It is widely reported but not confirmed that the entire Dutch force ceased resistance after receiving Japanese demands for unconditional surrender." There was no confirmation to such a claim, first circulated yesterday.

"Never Hopeless"

Aneta quoted an authoritative Netherlands source as saying: "We Dutchmen are never hopeless. As long as there is life, there is hope. We will defend the Indies until the death."

Col. Peter de Birk, of the Netherlands East Indies army, said he did not know whether United States troops had been in action in Java, indicating the only Americans fighting there had been air force pilots.

"The situation is serious but not hopeless," he replied to a question about whether Java now was cut off from the allies.

He said three Dutch generals—Bakkers of the general staff; Maurer, chief of artillery and Vice Chief of the air force—still were in Java.

Col. de Birk gave little hope for prolonged Dutch resistance. He said the positions around Tangkuban Prahara which were abandoned February 26 were not very strong. He indicated that Japanese superiority in this war and in the main the total subjection of the island a matter of days.

Nat. Enough Help

"We expected reinforcements in the air," he said, "they came, but they were not enough."

Lieut. Governor-General Hubertus J. von Mook and 14 members of the island's governing council arrived in Australia, after an airplane flight from Java. Gov. Gen. Tjarda van Starkenborgh Scholten remained on the island.

The Netherlands government-in-exile was emphatic in its denial of a radio report—none of them official—that the East Indies' last citadel had fallen.

He said claims were varied and indirect but that the Dutch had asked for terms and cessation of hostilities.

The spokesman called these reports, bouncing from one axis radio broadcast to another, an effort to cause confusion since the enemy controls all communications channels from the NEI and declared that "no credence should be attached to them."

SIX MORE ENTER U. S. NAVY RANKS

Six Magic Valley men—including four from Gooding—today were inducted into the U. S. Navy. They were: Marvin Eaton Graves, 21, Gooding, two years, apprentice seaman; Merlyn Eaton Rogers, 21, 142 Second avenue west, Twin Falls, two years, apprentice seaman; Gerald Arthur Reed, 24, Gooding, two years, construction recruit; Lee Raymond Martin, 18, CCC Camp Wood River, two years, apprentice seaman.

Phillip Follow Hayward, 23, Gooding, two years, apprentice seaman; Phillip Douglas Morris, 23, Gooding, two years, apprentice seaman. Four men were sent to Salt Lake City today where they will take tests for the Navy. They were: Graves and Rogers; Floyd Albert Latt, 18, and John Aescena, Gooding.

The enlistment of four additional men, bringing to nine the total of men inducted, was announced by Lt. Col. Arthur C. Edmanson, 30, Gooding; Howard L. Edmanson, 17, 18th and Arthur C. Shirley, 18, including 110,000 to the Bruneau hotel.

The old structure was known as the "Surgeon House" because of its custom of always having fresh surgeons from the Snake river on its menu.

MacArthur Included on List Of World's 10 Top Generals

BY EDWARD W. BEATTIE

General Douglas MacArthur, observed today nominated a war time list of "10 best"—the 10 best generals produced in 20 months of conflict throughout the world.

The list was notable for its singularity of military leaders who have improved and adapted their technique of fighting to a conflict in which machinery rather than men have been dominant.

The 10 best included one American—General Douglas MacArthur, whose three months stand on the Philippines while all the other battles of the United Nations in the southwest Pacific have been falling to the Japanese was regarded as the most notable single exploit of leadership since Japan started hostilities Dec. 7.

The German generals, two Russians, one British, one Chinese, one Japanese, one Dutch and one Yugoslav commander completed the list. They were:

American—MacArthur.
German—Marshall Erwin Rommel, commander of the Africa corps; Field Marshal Karl Rudolf Gerd von Rundstedt, commander of the southern German armies in Russia.
Russian—Marshal Semyon Timoshenko, now of the southern front.
Yugoslav—Gen. Breda, commander of the Masov front.
British—Gen. Sir Archibald Wavell.
Chinese—Gen. Chiang Kai-shek.
Japanese—Lieut. Gen. Tomoyuki Yamashita, commander of the Malayan campaign.
Dutch—Gen. Hein Ter Poorten, Dutch commander in the East Indies.
Yugoslav—Gen. Draza Mihailovich, leader of Serb forces still fighting in the mountains of Jugoslavia.
The admiration of British military experts for MacArthur's stand in the Pacific was made plain by a "blinking blankety-blank" two of the British military experts in the circle of the top 10. The first was his success in reconnoitering the Philippines and his defense forces, evading a Japanese pincer drive and assembling his troops with only slight losses on Bataan peninsula.

The second has been his highly aggressive stand on Ithaca in which he has discarded static defense tactics to carry on a highly and original and effective battle against Japanese forces which probably outnumber him 10 to 1.

Motor Licenses BRING IN \$13,853

In February, 1942, licenses were issued for 1,200 private cars; 112 private trailers; 208 farm trucks; 20 private trailers; 172 trailers and five farm trailers.

USB Talent at Heyburn Program

Musical talent from the University of Idaho, southern branch, Pocatello, will present a program Tuesday, March 10, at 8:30 p. m. in connection with the 10th annual art exhibit at the Heyburn high school.

The program will be presented by Miss Melba Holmes, violinist; daughter of Mr. and Mrs. H. H. Holmes, Twin Falls, will be one of the soloists. Selections will be presented by Miss Holmes, a male quartet, a woman's sextet and two other soloists.

In spite of limitations on transportation, the attendance has been highly satisfactory since the show opened March 1, according to William Edinger, superintendent of schools at Heyburn.

Yesterday's spectators came from such distant points as Clarkston, Utah; Gooding, Jerome, Twin Falls, Piler and Caldwell, as well as localities in the vicinity of Heyburn. Supt. Edinger said today.

The show will close at 5 p. m. next Sunday, March 15.

Onetime Texas Cowboy Passes

James A. Newsum, 81, who took pride in being "a native Texan," died at 11:50 p. m. Sunday at his home, 110 Ramona street, in a hospital here.

Mr. Newsum was 11 for the past four years. He came to Idaho from Concho county, Texas, where he lived for 15 years before coming to the Piler cemetery.

Surviving her his wife, Mrs. James A. Newsum, Twin Falls; three sons, Maggie Myers, Pocatello; Rev. H. O. McCallister, pastor of the Methodist church in Concho county of the services, and interment was in charge of the Reynolds funeral home.

Board Gives out Serial Numbers

Twin Falls county selective service board No. 1 met this afternoon to assign serial numbers for the cards of an estimated 1,200 men who registered in the first draft.

Third national lottery will be held March 17, and order numbers will be assigned by the board. Men are ordered to report for induction are not expected to affect men between the ages of 20 and 44 who registered in the third draft until June.

STATE TAX AGENT OFFERS AID HERE

It's the "home stretch" for income taxpayers this week, and a state deputy returned to Twin Falls to offer assistance until deadline March 15.

The deputy is L. A. Wheel who set up headquarters at the offices of the county auditor in the court house. He has just completed a nine-county swing through Magic Valley.

State Return

Whether paid out that Idahoans who are subject to income tax must file a state return in addition to that for the federal government. An Idaho state income tax return, he said, must be filed by every resident and every taxpayer receiving income from sources within Idaho whose gross income for the taxable year 1941 reached \$5,000 or whose net income amounted to \$1,000.

Only one, perhaps two of the attacking planes escaped.

(The navy announced the engagement last Tuesday, saying it occurred west of the Gilbert Islands. Actually, it is almost certain the plane was shot down on the "Japanese side" of the Pacific. Two United States planes were lost, but the crash site is almost certain. One of the two survivors was downed as it fled, in addition, before the main attack, two great four-motored patrol planes were shot down.

New Hero

This complete and inspiring victory over on Japan's side of the Pacific, added to the proud pages of American naval history, the name of a new hero.

We aboard this ship could see as we watched our navy fighter plane diving into the Japanese through a rain or our own airplane, that one pilot was fighting like mad, as he raced and dived and zoomed and circled from kill to kill.

We found out later that he was Lt. Col. Edward Henry O'Hare, 27, of St. Louis, Mo., a 1921 Annapolis minor children, if any, is \$1,500 or over, or if their combined gross income is \$5,000 or over, all such minor children, if any, are \$1,000 or over, or on separate returns of husband and wife.

CRASH OF PLANE KILLS 8 FLIERS

SEATTLE, Wash., March 9 (AP)—Naval officers today investigated the crash of a navy patrol plane in which eight men were killed.

The 13th naval district announced that the plane crashed as it took off on a routine patrol flight yesterday from the Tongue Point, Ore., naval air station.

Ensign J. H. Garrett, Port Worth, Tex., was the only crew member to escape from the crash, which sank in the sea.

The dead were:

Lieut. Charles J. Reimann, pilot and commanding officer, Shelbyville, Ind.; Robert H. Bryant, San Jose, Calif.; Marvin E. Crump, El Reno, Okla.; Raymond S. Campbell, Portland, Ore.; Anthony Leszynski, Jr., Chicago; Henry W. Strickland, Jr., Kenwood, La.; Leonard S. Buck, aerographer, 1st class, Adams, Mass.; and James B. Davis, Jr., El Reno, Okla.

COUNTY FINANCES IN "GOOD" SHAPE

Twin Falls county—a \$100,000-a-year business—is in good financial condition, according to the annual audit conducted by Middleton, Bickel & Co., certified public accountants, Boise.

Receipts for the year ending Jan. 31, 1942, were \$1,512,857. While disbursements totaled \$1,525,826, balance on Jan. 31, was \$197,438. In 1941, receipts were \$1,450,000 and disbursements \$1,450,000.
