# BRITISH THROWS IN HEAVY RESERVES TO CHECK RED DRIVE

## BRITISH PREPARE FOR NAZI THROUST

By The Associated Press  
Reichsfuehrer Adolf Hitler, desperately seeking to check Russia's weak winter offensive, was reported today to have thrown massive reserves into the long battlefront from regions as far away as Norway, and Norway, while Britons were of officially warned again of a possible German attempt to invade the British Isles this spring.

In London, Sir John Anderson, lord-in-chief of the council and member of parliament disclosed that "invasion committees" had been set up in many parts of the kingdom to combat any Nazi cross-channel thrust, and laid the nation on its guard for a possible drive out and destroy the enemy.

At sea, Premier Churchill's high command is preparing to meet any possible plans to land, damaged or hit 10 British warships and merchant vessels in the sea, ranging from the north Africa into the eastern Mediterranean towards Malin.

Italian planes  
The Pacific high command said that Italian planes sank a cruiser, and that German bombers were attacking a 10,000-ton merchant ship, and that German bombers joining in the attack on the convoy, another merchant ship to the bottom.

Three destroyers, a destroyer and five merchant ships were damaged in aerial attacks; Italian warships were crashing, possibly hitting an cruiser, two destroyers and a naval unit.

German submarines commencing declared that these blows were delivered in the Gulf of Sirte, off the Libyan coast, and that they were attacking a British naval squadron "probably returning from the battle in the Mediterranean." The British with two torpedoes and hit a large destroyer.

The British high command, describing the British convoy as sailing toward Malin, said three merchant ships were damaged, three other merchantmen, a cruiser and a destroyer damaged.

Some British ships had been hit, but declared none had been sunk.

On the Russian front, Soviet dispatches reported heavy scattered fighting in the Caucasus, where Soviet sectors, with 2,500 Germans killed, and said that the trapped German 14th army, in the Caucasus, was burning its dead and wounded, and retreating.

A bulletin from Hitler's field headquarters reported that the Russians were unleashing powerful attacks in the Donets river basin of the Ukraine, and that the Germans are battling to recapture Kharkov, but asserted they were broken off.

Some German units were reported in combat zones were recaptured in the Caucasus, and that the Germans were heavily and in inhabited locations were liberated in the Caucasus.

"Units operating on one of the sectors of the Kalinin front annihilated 1,000 German soldiers, 100 officers and men," a communique said. "Seventeen enemy tanks were put out of action."

Stockholm dispatches to London indicated Norwegian, German and British troops were being surrounded. He said also that the Russian-Vladimir front in the center had been broken by Soviet occupation of Sychewka, a midway point.

The RAF's bombing squadrons, after ranging deep in occupied France and Germany in a winter offensive, were kept grounded for the 10th successive night. Bad weather was the official explanation. The Germans only last Saturday claimed that two U. S. coastal patrol warships and 11 freighters totaling 76,000 tons had been sunk off the U. S. Atlantic coast, in the previous week. The British declared that a total of 14 allied merchant ships totaling 12,000 tons were sunk during that period.

The high command's report today said that the 13 ships included seven tankers. It added that another tanker of 11,000 tons had been hit by torpedoes and damaged so severely that it is sinking. It said that Italian fighter planes were credited by the Rome high command with having shot down five United States-built Curtiss planes and bombing machines over the Mediterranean in action against British convoys in the Maruba area of Libya. The British reported that the face of enemy artillery fire captured a number of axis transport vehicles in the Libyan desert, and that British headquarters communique reported.

## 30 DAY DELAY IS ASKED ON LABOR

(From Page One)  
and holidays, Burnham said tersely: "I think that ought to be out."

Whether Burnham's pronouncements indicated a change of position by the administration was a matter of much speculation. Only a week ago President Roosevelt spoke out strongly against any wage-hike or change at this time, and there have been no hints that he has altered his view.

Daniel J. Tobin, president of the International Brotherhood of Teamsters (IBT), declared in a radio speech last night that the 40-hour week controversy was "just a smokescreen" to divert the attention of the public from the real issue of the need for a difference of opinion between ourselves and Mr. Jones, and I understood that Mr. Jones, supported by the President, had double as a program at that time," he said.

Sen. Ralph O. Brewster, R., Me., pressed Tobin to find out whether the primary opposition came from the President or from Jones.

"His (Jones) recent statements tend to lead me to believe that the President's doorstop and I think that was rather unfortunate," Brewster said. "The President has enough troubles at that time."

Batt replied that Jones was a "primary official of long standing and long service" and that he realized his opposition would lessen the chance of any proposal to be adopted.

"Our powers were purely advisory," Batt said, adding that the actual construction of the synthetic plants had to be undertaken with IBT funds.

## Scrapping of Non-War Set-ups Urged by Sen. John Sanborn

Non-war agencies of the government such as the W.P.A., the C.C.O., the N.Y.A. and the A.A.A. should be abolished, and some other means, such as pension, be employed to help the men and women on military service, Sen. J. C. Sanborn, Hagerman, Republican floor leader in the Idaho state senate, declared yesterday at Buhl.

He was the principal speaker at a meeting of the Twin Falls county Women's Republican club at the home of Mrs. C. L. Busmann, near Buhl. Sixty women heard his address, in which he outlined the attitude of Republicans toward non-war agencies and other phases of government.

## Two-Wheeling Days Are Definitely Here

Is Miss Rosemary Sinclair looking back on the days when people rode to work in automobiles—perhaps? Twin Falls isn't exactly Paris in the spring—bank goodness—but we've taken up the custom of the French and more and more people are biking it these days. (Times-News Photo and Engraving)

## Bicyclers Move off Side Roads Onto Main Streets Everywhere These Days

The bicycles have moved from the side roads to Main avenue and Shoshone street. No more do the femmes of Twin Falls and community surreptitiously "walk a bike" to the city limits, and then pedal countryward.

It's a "city" fashion now. They ride to club meetings, to Red Cross classes, to work and to town shopping.

Bicycle riding is no longer done just "pour le sport" or as a reducing exercise.

Smart and speedy

The era of the two-wheeler is at hand, and this newest mode of conveyance is definitely smart. And speedy, too. You should see the way the ladies get over the ground.

Bicycling has gained tremendous momentum in the past several days—as the contraptions became harder to buy—and OPA put a ceiling on them, speaking words were pedaled side by side in the bicycle rack out front.

Today the red one was missing. Mrs. Molony thinks it takes more than one bicycle ride to make a spring.

Asked if any women at the court house were riding bicycles, to work yet, Mrs. Corn Stevens, the county treasurer, said "no."

"You wouldn't be riding a bike to work, being just across the street," she suggested.

Jack Wadell, Gen'l.

And corrected: "Well, I learned to drive a car last year, and I'll probably learn to ride a bicycle this year."

She probably will, too.

Miss Jeanne Schwanstrom, of the city waterworks department, threatens to "bike" to work—once she saves enough money for a "Godlike model."

Miss Mabel Porterfield, who returned last summer from Moscow, predicts that "The whole town will be riding bicycles by spring—just like they do in New England," now makes another prediction.

"Houses will be the next thing, I'll bet." And bicycle riders who want to know more about, houses, can ask the Biked school teacher. While she never stayed at home herself, she seems to know all about the way they operate in the east.

A hotel—in case you don't know—is an over-night stopping place. You

The average housewife may have skeptical confidence in her baking ability to rely on a "pinch of this" or a "pinch of that." But the bakers of BUTTER-KRUST Bread have too much at stake to take any such chances. To maintain the recognized excellence of BUTTER-KRUST, every operation must be exact, every ingredient must be added in correct amount. That's why all ingredients in BUTTER-KRUST Bread are scaled to a fraction of an ounce! Another reason for BUTTER-KRUST superiority.

### TIRE DEALER TO FIGHT SALES BAN

LOS ANGELES, March 23 (UP)—A dealer charged with selling 423,000 worth of tires since stocks were frozen by government order today challenged constitutionality of the tire freezing and rationing program in a federal suit.

Guy O. Bryan, leading southern California tire retailer, challenged the government order, saying that if he stopped selling tires he would be in breach of contract. He said the order violated the process of a "free" section of the constitution.

Tires are charged with and admitted, selling tires, but was enjoined from making further sales. In his suit to determine legality of the order and dissolve the injunction, he said:

"The office of price administration does not supply tires for the armed forces and will take them out of your hands. It simply says you can sell as long as you can't dispose of your property."

"Maybe you'd look like something if you'd quit reading all night and get some sleep!"

SERIAL STORY

KINGS ROW

BY HENRY BELLAMANN

UNKNOWN ENEMIES CHAPTER XXXII

DR. NOLAN leaned back in the creaking swivel chair and knocked the ashes from his pipe. "I'm firing you for six months, Dr. Mitchell. Don't argue. You're too useful around here to take chances with."

"You mean I was?" "Are you taking things too hard. You've let this Henry Singer thing flatter you out."

"I think I'll go to Europe," Dr. Nolan said. "More work? Well, if that's what you want. Right away?"

"Yes." "It is as that?" Dr. Nolan smiled, but he looked gravely after Parris as the door closed. He had been struck from the beginning by the peculiarities of this hard-working young man.

Parris decided he'd look up Anna in Dusseldorf. Maybe Herr Heyerford in Berlin would do exactly as he pleased because it didn't make any difference to anyone.

Tonight the asylum sounds, sudden screams and shouts that thrust through the murmurous buildings, flicked his nerves on edge. He walked slowly down to see Drake and Handy.

Drake had a lapboard across the bed and the wicker table beside it was covered with papers.

"Business this time of night?" "We're starting a building and loan association, Parris. Handy was excited. "We're putting you in as silent partner. You don't have to do anything, but we want it fixed up properly."

"Still talking about that Tower money?" "Yes, Parris—" Handy's expression was intent. His eyes were telling him that he must consent, that this was final compensation, to Drake, for the money Parris had given them.

"All right. Fix it any way you want to. I don't know the first thing about business of any kind." He told them that Dr. Nolan had insisted on a vacation.

"Are you going to be away long?" Drake's voice came hesitatingly.

"Dr. Nolan says six months." "Yes, I'm glad for you." Parris looked curiously at Drake, and then at Handy. He wanted very much to know if it mattered to them whether he went or stayed.

Back at the hospital gate, he circled the grounds and came out on Carter street. In the second story room of a house at the end of the block there was a bright light. Vera Lachinsky sat at the window, her arms resting on the sill. Moonlight fell full on her face and whitened it to a stoney pallor. She was staring fixedly at the huge building facing her—the gloomy building that seemed even to Parris to crawl among the tall trees, and to wall.

PARRIS returned just in time to meet an early, disagreeable winter. The town was dark and shabby-looking. He shuddered with distaste as he viewed it.

His work at the hospital was winding, the entire relieving over the state's appropriation for extensive new buildings. A huge tract of land had been bought for a farm and vegetable garden. Dr. Nolan was full of plans.

He was dressing one evening when his Negro houseboy came in and laid a copy of The Evening Chronicle on the table. Parris glanced at it and saw a heavy, black headline—Asylum, Doctor Plans Fortune Out of Asylum Deal.

The second headline, scarcely smaller than the first, said, It Pays to Be on the Inside.

"Dr. Parris Mitchell, staff physician at the State Hospital for the Insane, and the silent partner of Drake McHugh, real estate dealer, realized a cool one hundred thousand dollars on the purchase of old St. George tract recently acquired by the state for the improvement of hospital facilities. It appears that this plan for expansion of the hospital has been approved for some time."

"Mr. Fulmer Green, elected this past November to the legislature, has announced that an investigation will be made."

Parris laid the paper before Dr. Nolan. "Have you seen this, sir?" "Yes, I have."

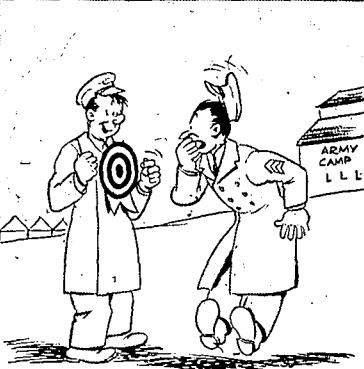

"There's no truth in this, Dr. Nolan. I mean—if Drake McHugh goes through it, it's entirely without my knowledge."

Parris related in detail the story of his friendship with Drake, the gift on loan of the Tower money, the slow rehabilitation of Drake through being made to feel important and successful, and then the conversation with Drake and Handy just before Parris left for Europe.

"I signed some sort of papers, power of attorney among them. I had never heard of the proposed purchase of this land before I left, and I know that they suppose I have to say 'yes'—that we didn't own it when I left."

"Here's the story, Dr. Mitchell. The suggestion that we attempt this purchase and expansion was made by Senator Depass. You were already in Europe—had been there for a month or more. It inquired right away about this property. We had actually talked once or twice to the St. George brothers long ago about this purchase, but they wanted the money before after the state has been settled.

### CITY CAN'T QUIT INSURANCE FUND

Mayor Joe Koehler today had told members of the city council that it would be "impossible" for Twin Falls to withdraw from the state insurance fund.

Koehler made the announcement at regular session of the city council last night. He had conferred in Boise late last week with Attorney General Bert Miller and also with John O'Neare, state insurance fund manager.

Can't Quit Legally  
"It was stated by Mr. Miller that under the law it will be impossible for Twin Falls to withdraw from the fund," Mayor Koehler said.

The city had petitioned for withdrawal after the general rule changed the city had shown an increase of approximately 30 per cent over last year.

During the discussion the mayor said "it looks as if employees of Twin Falls have been making the fund."

City Clerk W. E. Erickson took exception to this statement, pointing out that he had filled out and attached to the bill all claims and that all were bonafide.

There has been no case here of milking the fund, Erickson said.

It was shown that mayor claims here have been as a result of deaths and that medical treatment in cases where this was necessary has not been extremely high for the years the city has been in the fund.

Among other things last night the councilmen approved the application of A. E. Owens, for water service outside the city limits. Building permits were approved and various reports were accepted and filed.

### OLD-AGE GRANTS PETITION STARTS

Circulation of a petition asking grants for old-age citizens of Idaho was underway in Twin Falls county today with Albert Zetting as county director for the Townsend club, sponsoring organization.

The petition, which asks \$40 monthly plus other expense money for the aged, is already appearing in other parts of the state, according to Orland A. Scott, Couer d'Alene, national representative for Townsend clubs in Idaho.

To get the petition on the fall election ballot, it is necessary to have 24,000 signatures and the petition filed by the middle of June, according to Mr. Scott. The 24,000 signatures could be approximately 10 per cent of the number of ballots cast for governor in the last state election.

The petition is entitled "Senior Citizens' Grants act" and asks a minimum of \$40 monthly and medical, dental, surgical, optical, lunatic, nursing care, artificial limbs, eyes, hearing aids and other appliances to senior citizens over age of 65 years. It also provides for funeral expenses and other care, with all records confidential.

### Schools' Levy Ranks Among Idaho Lowest

Total levy of 112 mills for the next school year "would still be one of the lowest in Idaho schools of comparable size," it was stated today by C. P. Morgan, Twin Falls superintendent.

He spoke in reference to the five-mill equal levy election which will be held from 1 to 7 p. m. Thursday, March 25, at Lincoln and Dickel schools.

"The board of education of independent school district No. 1 again has found it necessary, as in the past several years, to call upon the voters to vote upon a special levy for the improvement of schools in Twin Falls."

"This, he said, was due to rising costs in maintenance and education of supplies, and in the cost of living. It is necessary, however, to increase taxes only one mill to 113 mills, he added.

"At this time our best schools are second in importance to the national fighting forces of America," declared Morgan. "Intelligent Americans will vote to support the school district."

Any qualified voter of the state of Idaho who resides in the school district is eligible to vote, provided he meets one of the following requirements:

1. He is the parent or guardian of a child less than 21 years of age who resides in the school district.

2. He pays taxes within the district, or is married to a person who pays such taxes.

Persons living west of Blue Lakes boulevard north, Shoshone street, and the highway running south of South Park will vote at Lincoln school. Other persons will vote at Dickel.

### PRODUCTION AIDE WILL GO TO U. S.

LONDON, March 24 (AP)—A British government representative possibly of ministerial rank, will be sent to Washington to "prelude over various bodies" set up to coordinate United States-British supplies production, an official spokesman said today.

Lord Beaverbrook, former British minister of production, now is in the United States advising on the organization of an international organization, the spokesman said.

The government representative will be sent as soon as the organization is completed.

The war cabinet has approved creation of a "general staff of war production," to cooperate with the minister of production.

The spokesman said the staff, as suggested by Minister of Production Oliver Lyttelton, would be composed of Sir Walter Layton, Lyttelton's chief adviser on programs and planning; the assistant chief of staff of the three services, and the highest technical officers of the three production ministries.

The aim of the organization, he said, will be to "ensure that production is directed closely and coordinated only to strategic requirements."

### Couple of Giant City Workers to Pedal Bikes Now

When Truman Greenbush, city street commissioner, sets out to save automobile rubber in his department he stops at the bicycle shop.

Result: Two bicycles today had been purchased for use by Charles Greenbush, city streets superintendent, and Carl Hawkins, street foreman.

The city department cars will only be used for emergency work and for longer trips, Greenbush explained today.

"And incidentally, I purchased good, serviceable bicycles," the street commissioner said. "Anybody knowing Larsen and Hawkins is the reason for this precaution."

Larsen's weight is 215 pounds while Hawkins tips the beam at an even 200.

### Clark Won't Ask Special Session On Jap Problem

Gov. Chase A. Clark does not intend to call a special session of the state legislature to deal with the Japanese problem, Mayor Joe Koehler said today.

The mayor said that in a recent conference with the governor he had been informed that no special session is contemplated.

The mayor told me that it would be useless to call a special session and adopt laws which would punish Japanese, especially those American born, from purchasing or leasing land in this state," Koehler said.

The governor said that such a law would only be declared unconstitutional by the supreme court.

The mayor quoted the governor as saying that Japanese have attempted only recently to purchase land in and near Idaho Falls and Boise.

Hated into court, Bloomquist blushed, told Judge Clem he'd been unable to concentrate for two days and on the third day had decided with romantic audacity to get married. That's why he was absent.

Judge Clem reflected. After all, it was spring. He ordered Bloomquist to \$25 in damages as well as a wedding present for the bride.

Before the tenth Chinese unit, under command of Lieutenant General Joseph Stilwell, went into action along the Tink Mandaly highway and held off a new attack the enemy was even closer to his objective.

By itself changed hands twice in 48 hours but the drive was halted and the Chinese now are entrenched in the Burmese jungles, bare brown paddies and fire-blackened ruins of Burmese houses, ready with machine guns and mortars for the next Japanese thrust.

### Bomb Sand Ready For Elks Building

Dry sand today was placed strategically on and in the local Elks building for use in case an incendiary bomb ever strikes the structure, O. H. Coleman, labor member and county fire warden, announced this afternoon.

Coleman said that the sand was obtained from the pile which has been placed along the new city garage at Second and Sixth streets.

At the same time the county warden said that block and other wares, both fire and air raid, have been "back in stock" that all building owners and home owners have stored sand on their premises.

"It is important that this be done at once," Coleman said. "The sand cost nothing and the city has had it into the city barn so people will not have to go far to get it. It will be given to anyone at no cost and they can carry it away in sacks."

Coleman pointed out that in addition to the sand, officials of the Elks club have also provided several hundred shovels and other firefighting equipment for the structure.
