30-40 Men Killed As Quarry Blast Rocks East Area

EASTON, Pa., March 26 (UP)—A terrific explosion in a powder magazine at a cement quarry rocked a 100-mile area today—and was reported to have killed between 30 and 40 workmen.

Officials of the Portland Cement company, which operates the quarry five miles north of here, said there were 20 tons of dynamite in the magazine.

The men were sitting around eating a light lunch, a spokesman said, "before getting ready to blast."

Bodies of the victims were strewn about the immediate scene of the blast, police said, and a number of workers' homes bordering the quarry were leveled.

"Arms and legs of the men caught in the explosion were blown as far as a mile away," one investigator reported to Sgt. Arthur Harty of Easton police.

"Good" Worker

Load of Explosive

The explosion apparently occurred in a powder magazine at the quarry, Sgt. Harty said. "A truck had unloaded a quantity of explosives in the quarry this morning and had just left a short time before the blast went off."

"As far as we can find out, something went off near the magazine and blew up."

An ambulance driver at Beth's hospital reported that he had seen between 30 and 40 bodies, which he recalled the scene of the explosion at the quarry of the Lehigh Portland Cement company.

Company officials said they were only able to report that 28 persons, including three of their powder experts, were missing.

The explosion which occurred at 10 a. m. shocked almost the entire eastern Pennsylvania area, the concussion reaching as far south as Camden, N. J., 60 miles away.

Children Injured

A number of school children in the lower Merion, Pa., district were injured by flying glass as the explosion shattered windows and hurled debris several miles from the scene.

Dr. C. C. Cecil M. Wilhelm, deputy superintendent of Pennsylvania motor police, said there was "no indication of sabotage," but that the possibility was under investigation.

Federal bureau of investigation agents were sent from Philadelphia, but officials would not comment.

Company officials said the equipment at Beth had demolished all details at the quarry.

Taken to Hospital

Two of the injured school children were taken to Rockton hospital with severe scalp lacerations from flying glass.

Persons who reacted the scene soon after the explosion found parts of bodies scattered about the ground for a radius of several hundred yards.

Police authorities sent soldiers stationed at the Aston army to the scene and state motor police blockaded the area, leaving hundreds of persons, many of them relatives of the missing men, formed behind the police lines.

Kelland Says U. S. Tired of War Bungling

WASHINGTON, March 26 (UP)—Clarence D. Kelland, new executive assistant of the Republican national committee, said today the American people were "resentful and humiliated" at being kicked around in this world and felt that "someone is to blame."

Kelland, who has just arrived here to take over the duties of executive and publicity director at the Republican national headquarters, declared he had no doubts that the feeling would be reflected in coming election primaries because "a great victory for this country might come that feeling overnight."

Summing up a survey he made in a cross-country lecture tour here, the noted author and lecturer said he found the people thinking mostly about the conduct of the war, production, labor and related questions, and non-essential spending.

Blagaming with those who contend the people in many sections are apathetic about the war, Kelland said that they could be "wakened" and found 100 per cent "out of the war," and willing to "suffer and sacrifice" for the cause.

"They want to be assured, however," he continued, "that the leadership is intelligent and is doing all that can be done. The people seem to feel there is a certain amount of confusion both in the direction of the war effort and in the program being manufactured and delivered to the people in front of the things they must have."

Boise Newspaper Strike Is Settled

BOISE, March 26 (UP)—Boise daily newspapers announced resumption of publication today after a strike which had ended without newspaper service for two days.

It was understood pressmen returned to work at the wage scale offered by management of the Boise Courier-Idaho, the military said in the Idaho Daily Statesman, morning daily. Other points regarding working conditions are to be arbitrated.

30 German Planes Hit in Malta Raid

LONDON, March 26 (UP)—Thirty German dive-bombers were destroyed or damaged yesterday in one of the greatest air battles ever fought over embattled Malta, the air ministry reported tonight.

The RAF's Spitfires and Hurricanes worked such havoc among the Germans that they were unable to return home or be landed, and were shot down by the splinters of cannon shells.

Churchill Says Atlantic Fight Favors Enemies

By EDWARD W. BEATTIE

LONDON, March 26 (UP)—Prime Minister Winston Churchill warned today that the "military tide" of allied reverses had taken a turn for the worse in the battle of the Atlantic, and that the United Nations must throw their combined strength into winning the war.

The prime minister said:

"It now seems that we and our allies—the United Nations—can not lose the war except through our own fault or our own failure. To us our combined overwhelming strength and our the multiplying opportunities that will present themselves as the war progresses."

Speaking at the annual meeting of the Central Council of Unions in London, Churchill said that the battle of the Atlantic after turning markedly in our favor for five or six months ago, has since then been steadily turning against us for the time being.

Greatest Disaster

"Sinister," Churchill said, "has been the result of the greatest disaster to the British arms which our history has known."

Churchill said that since he addressed the council a year ago there had been a steady and unbroken series of military misfortunes.

"Can you wonder that such a melancholy case, which I do not fear to tell or face, should cause widespread distress and anxiety through our country and empire?" he asked.

Churchill said he could not guarantee that the tide would be turned.

"It would be foolish for us not to prepare for a further heavy blow," he said, "but just as last year I warned you we could not have success unless we were ready, so in 1942 we need not expect to have reverses unrelieved by success."

Detailing military misfortunes since a year ago Churchill listed 120 British ships and 100 British aircraft, many of which were lost or damaged.

"We have since been attacked by a new, fresh and most formidable foe," he said.

"Hankow has fallen, the Malay peninsula and the possessions of our brave Dutch allies in the East Indies have been invaded, and Burma has been invaded and Rangoon has fallen."

"The allied squadrons in the Netherlands East Indies were virtually destroyed, and the Japanese in Burma has been invaded and Rangoon has fallen."

107 CONVICTS TO ASK FOR RELEASE

BOISE, Idaho, March 26 (UP)—Clemency plans of 107 Idaho prison convicts, including Duane McDuff, former Boise Police chief, convicted of murder, will be reviewed by the Idaho state parole board at a session starting April 1, the board announced today.

The board announced the cases were new and 14 were continued from the January calendar for further action.

The board announced no plans had been made to interview Johnston at this session. However, it was expected Mr. and Mrs. C. D. Merrill, Fairfield, who have been investigating the case privately, would appear before the board.

Daniel Williams, youthful ally of a Twin Falls police officer, also was on the list of prisoners.

Michael J. Conroy, a former murderer serving pardons were Mike Donnelly, Bonner county; Darby, Elmore; and William H. Elmore, and Ora W. Sprone, Cerm.

Freezing Order Sets Price of Newsprint

WASHINGTON, March 26 (UP)—Acting Price Administrator John E. Hamm today issued a temporary order freezing the price of newsprint at 50 cents a ton for the next 60 days.

The order will go into effect April 1 and will expire May 30. Hamm explained that on or before the expiration date a permanent price ceiling would be issued.

The price listed is that which has prevailed since April 1, 1941.

The definition of standard newsprint conforms to that used by the Federal Reserve Board, and may be brought into the United States duty free.

GRANT TO SPEAK

SALT LAKE CITY, March 26 (UP)—President Herbert H. Grant of the Latter Day Saints church will speak at the curtailed conference of church leaders April 4, 5 and 6, he announced.

Teachers to Name Little Freighter Ranks, Sinks Axis Submarine in Gulf Water

The action took place early this year less than 100 miles from Colon at the Gulf entrance to the Panama canal, but news of it did not leak out until today. The ship put in dry dock here for repairs which were completed last week.

The freighter, sailing forward under full speed, struck the sub with the bow.

Germany—probably on the deck of the U-boat—was heard screaming as it floundered into the water. At almost the instant of the collision there was a loud explosion.

The water of the freighter which "dove" near stood in her head" the captain said it was sheer luck that it was one of the torpedoes that had missed the ship.

The explosion failed to damage the ship but the collision did. She lay to until dawn, her port small-boat was holed, her bow "took" water. At daylight, a U. S. destroyer came alongside and received the ship in preparation to shelling.

YREKA, Calif., March 26 (UP)—Cyrus Crawford's old job is at hand, patriotic Crawford, a Cliver Creek rancher, announced his son had given him a nine page letter, three blue and three red.

The University of California's agricultural extension division, informed of the phenomenon, recommended Crawford must have been open in preparation to shelling.

Supply Ship Wrecked off Newfoundland Coast

Here is the wreckage of the navy supply ship U. S. S. Pollux, which went aground off a storm off the Newfoundland coast Feb. 18 with heavy loss of life. The destroyer U. S. S. Truxton was wrecked near the same place.

Gigantic Battle Rages On Northern Red Front

MOSCOW, March 26 (UP)—A Soviet officer said today that a gigantic battle was raging between Leningrad and Novgorod on the northern front, and the beleaguered German 16th army's tenure of Staraya Russa was nearing a bloody end.

Soviet fliers shot down 11 German planes and damaged two yesterday in a great battle over Murmansk, Russian far northern port. It was ruled by three waves of bombers, escorted by fighters, and at one time more than 100 planes were fighting over the city.

The first wave of 18 bombers escorted by 11 fighters was followed by 12 bombers and six fighters. Finally, 21 German planes arrived over the city. Russian aircraft destroyed two late-attack, single-engine fighters, and shot down a pursuit plane sent up and dispersed the bomber formations. The raiders harmlessly unloaded their tanks and other troops of Marshal Semion Timoshenko's army were blasting their way through the southeastern suburbs of Shlino, on the coast of the Gulf of Finland. The city began some days ago, and the Russian air force was forced to retreat after they reached its outskirts.

German paratroopers were caught between the fire of the Red army and Russian guerrillas in the district, which was later buried when the Germans took it full fall, the dispatches said.

U. S. CUTTER SUNK BY ENEMY "SUB"

WASHINGTON, March 26 (UP)—The coast guard cutter Arcia was recently shelled and sunk in the Caribbean area, probably by an enemy submarine, and that all aboard were rescued.

The barkhulk was described in a communiqué reporting the sinking as a small unpowered motor launch carrying a number of men to provide services to units in navigation. The cutter was carrying a light service as a light tender prior to being taken into the coast guard base.

Built in 1919, she displaced 1120 tons and was 172 feet long with 25-foot beam.

The cutter became the 22nd ship in naval service to be announced as lost or destroyed. The cutter, destroyer Reuben James had been sunk by a submarine on Oct. 3, 1941.

Other officers have been accounted for by storm, demolition or collision.

Teachers to Name New Empire Chief

SPOKANE, March 26 (UP)—The selection of a president of the Inland Empire Teachers association will be one of the big items at the group's annual convention here April 8-10.

Ernest E. Wilson, superintendent of the Multnomah, Idaho, schools and vice-president of the association, announced the list of nominees for army duty as a second lieutenant, and expected not be a candidate for the post.

Approximately 3000 teachers of the four northwest states are expected to attend.

PATRIOT

YREKA, Calif., March 26 (UP)—Cyrus Crawford's old job is at hand, patriotic Crawford, a Cliver Creek rancher, announced his son had given him a nine page letter, three blue and three red.

"We Shall Win or Die," Commander Tells Australians

By ROGER D. GREENE
Associated Press War Editor

Gen. Douglas MacArthur, dramatically underlining his pledge of an allied counter-offensive against Japan, told leaders of Australia today that "there can be no compromise in the fight to drive Emperor Hirohito's invasion armies out of the southwest Pacific."

"And to this end I pledge you the full resources of all the mighty power of my country, and all the blood of my countrymen," Gen. MacArthur said, speaking at a dinner in Parliament house, in Canberra.

"I have come as a soldier in a great crusade of personal liberty, no compromise in the fight to drive Emperor Hirohito's invasion armies out of the southwest Pacific."

Officers to Take JAP CONTRABAND

Local police and sheriff's officers this afternoon announced they are ready to accept shore ward radios, cameras and other contraband which Japanese-American citizens cannot have in their possession after the end of this month.

Under the new "restriction on contraband" which has just been issued by Lieut. Gen. J. L. DeWitt, chief of the western defense command, "no person of Japanese ancestry may have in his possession any firearms, war materials, short wave radio receiver and transmission sets, cameras or any other contraband."

No Widened

A previous order, issued in January, prohibited only Japanese alien residents from having in their possession or available to them but the new order prohibits even American citizens and their families from possessing such objects.

The new restrictions cover all of the military areas one and two embrace Washington, Oregon, California and Arizona areas number three, Idaho, number four, Montana; number five, Nevada and number six, Utah.

Police and sheriff's officials said they would follow the same steps they took when the Japanese-alien order was issued in January.

Give Receipts

When a Japanese brings guns, cameras, radio or other equipment to the police station or the sheriff's office he will receive a receipt for it. The receipt will be turned over to the U. S. marshal for the duration of the war.

In the Snake Valley there are scores of American Japanese who have been ordered to turn in their contraband as listed. The material will be accepted in any police station, sheriff's office or any duly appointed or elected police officer.

CORREGIDOR FORT SURVIVES ATTACK

WASHINGTON, March 26 (UP)—The fortress of Corregidor survived the entrance to Manila bay after surviving "slight damage" in a five-hour bombardment by a fleet of 54 heavy Japanese bombers, the war department said today.

Four of the Japanese planes were shot down, a U. S. Tuesday, Frank Hewlett, United Press correspondent with Gen. Wainwright's army, reported that the fortress had survived the most ferocious bombing of Corregidor in two months. He reported that the bombing caused only minor damage.

It was the third straight day that the Japanese apparently attempted to knock out the rock fort before launching an offensive against the American-Pilipino defense of Corregidor to heavy aerial assault.

The two-month-long island of Corregidor with its battleship-size guns is the backbone of the American-Pilipino defense of Manila bay. It is the only island of Corregidor in the Philippines.

Along the 18-mile Batavia highway from the Chinese sea of the Abucay region on Manila bay north of Corregidor the Japanese stabbed at the fortress in lines in apparent "feeler" attacks.

HUNDREDS OF BRITISH BOMBERS RAID GERMAN RUHR VALLEY

AXIS FACTORIES BLASTED BY RAF

By RIDNEY J. WILLIAMS
LONDON, March 26.—Hundreds of glim British bombers rained hundreds of tons of bombs during the night on the Ruhr, heart of German war industry in probably the greatest raid of the new British spring aerial offensive.

For hours, the British planes, reported to number at least 300, hurled bombs on picket targets in key industrial areas, including incendiary with heaviest type explosive bombs, by the light of a spring moon.

Early reports were well informed that the raid was a most successful one and the British planes, which included the heaviest bombers, took a body blow to the areas attacked.

"We watched them in July, heart fashion and in the Ruhr."

Priority Claims
There is some alarm here because the army and navy and other government agencies which have perfectly sound priority claims on the services of American men, each may be absorbing vital manpower without thinking of the necessities of other vital services.

There is, of course, a limit on the man and woman power of even so populous a nation as this one and when demand exceeds or nears supply there will have to be rationing of men and women just as there must be of sugar, gasoline, rubber and steel.

Grange Cleanings

By A. HARVESTER

The Twin Falls county Pomona Grange voted to meet at Kimberly for the initiation of the fifth degree members, many said that they couldn't get anybody to go that far to a Pomona meeting with the Pomona on, but there are no less than 104 Grangers met last Saturday night in the Kimberly Grange home and took the fifth degree. I believe is the largest class ever to be initiated into Pomona Grange in this county since its organization in 1922.

I believe that our Pomona Grange is the first one in the United States that meet regularly in the same place, the general idea being that the Pomona should go from Grange to Grange within the jurisdiction, in order that all may have access to the Pomona. When Pomona were first organized there were no cars and it was not so easy to get to and from each other, so the Pomona was taken to the subordinate Granges instead of the subordinate Granges going to Pomona. And we may soon come to the same condition if we do not loosen the hold that the Japanese have on our rubber supply.

They Do Come

Of course the crowds are more or less local when Pomona meets in such a manner, but they do come many who would not otherwise attend Pomona. At any rate 104 is a pretty good attendance at a Pomona meeting on Saturday night after six Granges have held meetings on the evening before. The Grange had 17 in the group and they have not been so good at going to Pomona, except the 17 joining the Pomona Saturday night.

The officers were seated in marching formation led by Carl Leonard and Helen Baxter as assistant stewards. Then a beautiful drill was executed by the Kimberly degree team and the class of 48 initiates was given the fifth degree by the Pomona officers, acting as a degree team.

Varied Program

A splendid and varied program was offered by Mrs. J. M. Pierce, Pomona lecturer, and it was much enjoyed by the crowd. An announcement that the Excelsior Grange had been organized and had elected officers was received with genuine pleasure by the other Granges and several from Excelsior Grange received the fifth degree. This Grange has been in the Grange and we are all glad that they are getting ready to go again. Our best wishes attend you, the Excelsior.

It announced that twice is available at the old price as long as the supply is good, but the price is higher, so Grangers were expected to buy now. Also it was announced that one member from each Grange is requested to attend a meeting at the Piler fairgrounds, Tuesday night, to assist from Parks, fair secretary, to rearrange the premium list for the fair in the community exhibits, resolution to discontinue the fair for the duration of the Grange and no such action is contemplated.

Refreshments were served at the close of the meeting and a social time followed, which is one of the best things about the Grange. May be seeing you all at Piler, May 9 for an evening meeting.

NORTHVIEW

Northview Grange met last Friday night with a good turnout but my regular scribbler did so I have not a very complete report. Three resolutions were considered by the Grange and other routine business was transacted. In the absence of the lecturer, Mrs. Charles Hest had charge of the recreation or lecture hour. Bingo was the diversion and candy prizes were at the home.

Six members from this Grange attended Pomona at Kimberly the next night, five of whom took the fifth degree. Refreshments were served at the close of the meeting.

HANSEN

This news from Hansen came too late for my last column. The highlight of the last meeting was a father and son banquet, the fourth annual offering of this important community project.

The banquet was held in the Hansen Grange home, under supervision of Mrs. J. L. Baratta and Mrs. Hans Taylor, chairman. The community responded in their usual gracious manner and the Grange ladies served a delicious chicken (yum yum) supper to more than 100 guests. Eric Jensen, that much respected and hard worked master of the Twin Falls county Pomona Grange, acted as toastmaster and was introduced by J. R. Hill, general chairman for the evening. Donald Dietz, master of the Hansen Grange, welcomed the guests in a friendly manner and Bruce Walker, son of Clyde Walker, graciously responded for the sons and daughters.

Coulter furnished music throughout the evening and accompanied group of the Hansen Grange, including Mrs. E. Swann, local high school music instructor.

Fraternal Colors

The hall and tables were tastefully and profusely decorated in fraternal colors and flags marked at each place. To add a touch of approaching spring (we hope) and to carry out the seasonal theme, the table bouquets were pussy willows. Mrs. Alice Hoffstad had charge of the dining room and its decorations and was assisted by Mrs. Frank Trunkley.

Rev. Ernest L. Ikenberry, pastor of the Church of the Brethren, Twin Falls, who has spent much of his time and effort in trying to arm the message of surrounding China, very gladly (Dr. Ikenberry feels that the trade union Japanese aggression and Chinese reaction to that aggression are vitally important for us to understand the East to situation), and graciously consented to speak to the fathers and sons.

He gave many vivid accounts of life in China during the Japanese invasion rule; told of the effectiveness of guerrilla warfare, its tactics and counter; how the Chinese have gained ground in their defense from a loss of 4 to 1 in the early stages of the war and to an even break at this time. He held his listeners in rapt attention as he contrasted the life of the Chinese with attention to the responsibility of America in their struggle.

And again, the Hansen Grange has reason to be proud of this contribution to community good will and is to be congratulated that they can be of such service to the community while raising a small amount for the next night, five of whom took the fifth degree. Refreshments were served at the close of the meeting.

ANALYZING CURRENT NEWS FROM NEW YORK

SLAY—If Hitler's panzers crawl like swarms of steel beetles across Turkey or the Ukraine to the Caucasus oil districts, they will be bled to red by the Soviet army with material fresh from our factories. At least a life line is operating from the Persian Gulf to Russia. The Iranian area too swift to be taken by the Germans. General R. A. Wheeler, U. S. Army, says that the British are keeping Pennsylvania and Michigan trucks and planes in the field. Plans are being made to send a large force to the Middle East. FREE PRESS AND PUBLIC REACTION
Newspapers during times of national stress, have a great responsibility and it affords them a real opportunity to demonstrate to the American people what free speech and a free press mean to our country.

SCRIMP—Householders who must scrape through the winter months or live on a bare minimum derive some slight comfort from realization that the next congress of the United States is in the same predicament. The Japanese are too swift to be taken by the defenders to destroy completely.

OHIO—The Ohio concern which holds \$58,000,000 in contracts to build airplane parts for the government, and which was found to be paying staggering salaries and bonuses, quickly announced voluntary limitation of profits to 6 per cent. The Japanese are too swift to be taken by the defenders to destroy completely.

AUSTRALIA AT WAR
Here is a thumbnail picture of the land MacArthur will defend:
At the end of 1939, Australia's total population was 6,962,000, not quite as much as that of New York City. Upward of three quarters of all the people reside in the southeastern corner where the natural resources are located. The country is self-sufficient in iron and coal, and produces almost two million tons of steel.

OFF TO MACEDONIA
President Roosevelt, quoting the verbal speaking admitted to armaments, has taken the Roman consul, Lucius Aemilius, in 188 B. C. suggests an intriguing letter for speculation.

OTHER POINTS OF VIEW
The dictator asked to allow the mistake to stand, but he let discretion get the better of his sense of humor.

C. D. W. was been debating as to when their agency will appoint coordinators to provide diapers for lightning bugs during blackouts.

TUCKER'S NATIONAL HIGH RIGG

STRIKES—Assistant Navy Secretary Ralph A. Bard inadvertently revealed the existence of a sharp disagreement within administrative ranks over the labor problem in an appearance before the naval affairs committee. Some congressmen are not convinced that the disclosure of the rift was entirely a mistake.

RAY TUCKER "personally" favored raising the minimum to 48 hours before bonuses became effective. Subsequently it developed that he had brought along the original copy. The committee for the first time passed out without objection. In short the navy wanted to tip off congress and the public that it did not intend to back out of its contract for the production of short hours and high pay. It's an old trick there.

VICTORY—The Australian censor's liberal attitude toward newspaper dispatches emanating from that continent has aroused some concern in army and navy circles. The censor's liberal attitude involves their passing stories which described the methods of Douglas A. MacArthur's escape from Batavia.

Canberra also has permitted severe criticism of the military operations. The Japanese are too swift to be taken by the defenders to destroy completely.

POT SHOTS CHILDREN

GENTLEMAN IN THE THIRD ROW
Dear Pot Shooter:
I am a member of the Junior Red Cross. That is the very first thing you become. The leader will soon hand you a job that needs doing. They need you badly in that many other boys and girls are doing their best in the Red Cross Service. Don't skip your duty and attend to your job.

TO "DIZZY AND DAFFY"
Why echo the bluffs of the other twigs?
Can't you think of something new?
If anyone has a fault to find
It's with the unions just like you.
"Make 'em work," all the cry.
Now listen, Diz, and also Daf,
You wouldn't mind me telling
For other folks too.
If you worked as hard by hair.

HEY, THE GOVERNMENT—NOT WE—SAYS BOY
Dear Pot Shooter:
I understand you to be a member of the Junior Red Cross. That is the very first thing you become. The leader will soon hand you a job that needs doing. They need you badly in that many other boys and girls are doing their best in the Red Cross Service. Don't skip your duty and attend to your job.

WHAT ABOUT THE EXCITIST?
The Back Shop Operate says a peddler in the city who sells the motorists who causes the pedestrian.

AMONG THE LATEST LINE
Listen, Junior, that's a victory flag on the seal of your government. It's a symbol of our country's strength and unity. It's a symbol of our country's strength and unity. It's a symbol of our country's strength and unity.

HISTORY OF TWIN FALLS

AS GLEANED FROM THE FILES OF THE TIMES-NEWS
27 YEARS AGO—MARCH 26, 1915
Speaking about fishing, how would you feel if you hooked a fish eleven feet long that weighed 35 pounds? That was the experience of two Hagerman boys, Lloyd and Silas, caught at Lower Salmon Falls last Monday. The monster fish was a sturgeon, caught on a hook fastened to a set line and baited with white fish.

Mr. Mrs. Dick Stearns and son, Benny, Mountain Home, are visiting their parents, Mr. and Mrs. A. Stearns.

WAGE LEVEL SET FOR BEE LABOR

Minimum wage rates for early season sugar beet labor were announced today by L. E. Zetter, member of the Twin Falls county AAA committee.

Minimum rate of \$0.50 per acre or 40 cents per hour has been established for blocking and thinning. Rate of 20 per acre or 15 cents per hour has been set for second and subsequent hoeings of weeds.

Rates for harvesting are expected to be determined soon. The rates are established annually as a result of the condition of federal minimum benefit payments to growers.

"Reports indicate the supply of labor will be adequate to handle this year's increased crop," said Wilson, noting efforts by sugar beet growers' employment agencies and the U. S. employment service in this field.

"If special machine methods reduce the amount of labor necessary, a minimum wage rate is to be made by agreement of the producer and laborer and must be approved by a AAA committee as being the equivalent of the specified piece rate for blocking and thinning and second hoeing."

M'ARTHUR TELLS AUSTRALIANS HIS FAITH IS "INVINCIBLE"

GENERAL VISITS ANZAC CONGRESS

By FRANCIS L. MCCARTHY
CANNBERA, March 26 (AP)—Gen. Douglas MacArthur tonight told Australian troops that he takes up his sword as a soldier in a great crusade for liberty.

MacArthur spoke at a dinner in parliament house after conferring with the Australian war council on the tactics and strategy to be employed in carrying the war back to Japan.

"My faith in our ultimate victory," said MacArthur, "is invincible." He said that you tonight the unbreakable spirit of free men as opposed to despotic slavery.

"We fight for the things that are right and condemn the things that are wrong. Under this banner the free men of the world are united to death. There will be no compromise. We shall win or we shall die."

MacArthur pledged to Australia the full backing of the United States and her country and all the blood of his heart.

He said the spirit of the United Nations would stand the test of war. He said the spirit of the United Nations would stand the test of war.

MacArthur said the bond between Australia and America "does not depend on protocols, treaties or alliance of diplomacy."

He said the two countries "have the same aspirations, the same hopes and desires, the same destinies and the same destiny of future destinies."

Premier John Curtin revealed that MacArthur had been in the company of the Australian war council. In a brief visit to the Australian war council, MacArthur told the speaker: "If the men of Australia fight as well as they argue we are certain of victory."

Curtin declared after the war that MacArthur was "the greatest of what we have done and not of what we intend to do will be the greatest of what we have done."

He said the spirit of the United Nations would stand the test of war.

MacArthur said that it might be characteristic of MacArthur that instead of flying to Canberra from Melbourne he rose before dawn in order to drive the long distance and thus inspect the terrain of part of the country which he must defend.

As the government honored MacArthur, allied and air-staff members and fighter pilots awaited resumption of Japanese attacks on New Guinea, Buna, Buna and Buna. Reconnaissance planes watched for signs of a Japanese invasion fleet in the Coral sea off the Australian east coast.

The most recent Japanese plane attacks on Buna, Buna and Buna were weak and ineffective.

The Japanese invasion force which had set out from Buna, Buna and Buna on the north New Guinea coast to march to Buna, Buna and Buna valley was reported to have halted at Buna, Buna and Buna 30 miles from Buna, where there is a good airbase.

Germans Still Strong in Russia After 9 Months

At the end of nine months of war with Russia, the last three spent on the defensive, Germany still holds potential jumping off points for winter gains against the Nazis and sums up three-quarters of a year of fighting.

TRIAL HELD ON FRENCH LEADERS

NEW YORK, March 26 (AP)—The Vichy French government was reported today to have decided to interrupt the war guilt trial of five former French leaders in Paris because of the critical attitude taken in a recent speech by Adolf Hitler.

Public advisers charging that the United Press said that it was unofficially reported that the trial would be interrupted permanently as a result of Hitler's speech, which assailed the trial as a political matter.

The Nazi-controlled Paris press echoed Hitler's remarks later by demanding that the Vichy government take action to end the "political" outbursts at the trial.

Former premier Edouard Daladier and Leon Blum have scored important points at the trial by hammering at Marshal Petain's role in the Pétain's acts and words in the previous days and by attacking the group which now are active in favor of collaboration with the Nazis.

GIVEN FIVE DUTIES WELL WORTH Pondering

Editor, Times-News: Five duties of the American citizen to win this war:

1. It is the duty of every American citizen to do his part in the war for everyone who would or could get a profit from war.
2. It is every American citizen's duty as an American citizen in time of war to give of himself in various forms and services in order to win this war.
3. It is every American citizen's duty to do any service or services to win this war, even if it is to give his life.
4. It is every American citizen's duty to see that our boys' graves in France and other places are respected. They fought and died to protect every American citizen. Now it is our turn to do our bit for them.
5. Now it is time for every American to put everything he has into this war to win—tomorrow has today.

"OX IS IN THE DITCH"—JAIS AGGRESSORS

Editor, Times-News: We are writing in regard to Mrs. Howard Miller's letter of March 20. We want firmly to disagree with her opinion. It is citizens such as Florence Thompson and Mrs. Mills that could cause the downfall of our nation. However, we must admit that Mrs. Miller's quotations from the Bible are absolutely correct, but it is interesting to see them in the right way? We hardly think of our Bible as being in the ditch. This is one case that the ox is in the ditch, and war is necessary.

No, the Americans did not want war but now that it is here, are we going to sit idly by and let the conqueror sue? To suppose Tokyo was bombed in the night, killing civilians and our men around there is Pearl Harbor and the sacrifice of our American blood. Do you realize that?

Mrs. Mills and Florence, do you realize the position of the Christians of America today? Do you realize that if our barbarous aggressors are allowed to read your Bible, even for the sake of argument and still you say to lose the yellow heathens!

It seems that we had given the Japs a fair enough chance for while we stood with our arms around their necks they stabbed us in the back. And you call it misunderstanding and intolerance on our part. Maybe it is just you!

It is true that Christ did pre-ach-

BRIGGS TO HEAD IDAHO PRIORITIES

BOISE, Id., March 26 (AP)—Raymond J. Briggs, well-known Idaho engineer, today took over the Gen state war production board of Idaho as production and inventory analyst and announced that his office would service all of Idaho except the purchase on war production matters in the future.

Briggs said he would immediately start setting up the new priority system based on a specific requirements approach to the control and distribution of scarce materials needed in the war effort.

Under the changeover, scheduled between April 1 and June 30, most blanket priority ratings will be revoked or altered to expire, he said, and companies which have been operating under blanket ratings will be required to apply for priority assistance under the production requirements plan. Briggs said, however, that some "B" ratings for repair and maintenance of essential production machinery would be maintained.

Congress Medal of Honor Goes To Gen. MacArthur for Deeds

By EVERETT R. HOLLES WASHINGTON, March 26 (UP)—Gen. Douglas MacArthur, hero of the Philippines, received the Congressional Medal of Honor in the Pacific, today held his country's highest military honor in the United States.

The President last night Franklin D. Roosevelt.

The award for "conspicuous gallantry and intrepidity above and beyond the call of duty" carried with it the President's tribute to the defenders of Bataan, trained and led by MacArthur until Mr. Roosevelt sent him to Australia to become United Nations generalissimo.

MacArthur, the President said in his citation, mobilized, trained and led the army of the Philippines in their defense against a tremendous superiority of enemy forces in March 1942.

Led now by Lieut. Gen. Jonathan W. Wainwright, the American forces were prepared to live up to the President's tribute in new form.

The citation said MacArthur "after repeated and aerial bombardment, his calm judgment in each hour inspired his troops, galvanized the spirit of resistance of the Philippine people and confirmed the faith of the American people in their armed forces."

MacArthur already was the most decorated officer in the U. S. army but none of his many medals is more than a shadow of his fame. He was cited seven times for bravery and holds decorations from many foreign nations including France, Belgium, Mexico, Ecuador, Italy, Jugoslavia, Poland, Czechoslovakia, Hungary and Rumania.

The only other recipients of the congressional medal this far in this war have been three men of MacArthur's force in the Philippines—2nd Lieut. Alexander R. Nininger, 1st Lt. Paul Lauritzen, 1st Lt. John F. Pavey and 1st Lt. Joseph F. Barjinger, who was awarded it posthumously. Serg. Joe Cullinan, a Filipino, and 1st Lieut. William C. Blum of New Ulm, Minn.,

Soldier Dies in CYO Boxing Bout

SALINAS, Calif., March 26 (UP)—Pt. John Franklin Barringer, 21, Anaheim, Tex., attached to Hamilton post, died in a boxing bout Saturday night. He was killed in a heavyweight semi-windup of a CYO fight held here last night.

Barringer, authorities said, was knocked out in the fourth round of a bout with Otto Dutton, Ford Ordnance soldier, and died in the dressing room without regaining consciousness.

Boys were participating in a fight club between Hamilton field and Ford Ordnance boxes. Barringer was downed by two hard rights to the jaw.

Laundry, Sewing Facilities at Camp

Twin Falls farm labor camp, located south of the city, this season will play an important part in supplying farm labor to ranches of this section. In the above picture one of the camp's many facilities is shown...

1. The increasing flow of supplies to General Douglas MacArthur's command... 2. The accelerated preparations for the defense of India... 3. The unbroken line of material reinforcements moving to China...

The sewing room is one of the most popular places at the camp. Here camp women residents make over clothing and other materials as they have time to spare. Many of the women living in the camp in season are expert sewers. The sewing room is under the direction of Mrs. Dorothy McNeil, WPA sewing supervisor...

Miller will reside in Ogden and supervise the work at the camp. Art Detweiler is project engineer and George Pederson, Jerome, will be assistant.

Uncle Ef

There's no way of telling whether it was due to queer communique writing or faulty reports, but news of the early part of that long sea battle certainly was in the United Nations when they wiped the face of the earth, and bentish, transported, all of a sudden Java falls, and we seem to have lost the sea fight. Sort of like a spot's announcer getting the name of fighters confused and telling how one was mauling the daylight out of the other because of announcing the mauling one as scoring a knockout.

SERIAL STORY KINGS ROW

NEW FRIENDS CHAPTER XXXIV "GOOD afternoon, air." Parris jumped. "Oh, I didn't mean to frighten you!" The girl was young, and slight. He saw that her hair was a very pale silver-gold, that her eyes were smoky blue, that her mouth was singularly red, her complexion strangely golden.

the executors, you found you were in over your head? Then sell out." "I've used a lot of money that the St. Georges let me have for improvements. Used it—different ways." "Peyton!" "Yes, I did. I'm in a terrible fix."

HOLD EVERYTHING "I was a dunderhead." "I don't believe it." "How could you know? He said you were a genius."

**OFFICIALS TARDY,
TREASURER SAYS**

Declaring she could not make her year-end settlement of accounts by legal deadline because the assessor, commissioners and probate judge were late with their reports, Mrs. Cora E. Stevens, county treasurer, has filed district court answer to the county's suit asking \$300 penalty from her.

Mrs. Stevens denied neglect of duty, and that she and her predecessors in office have never made settlement by the first Tuesday after the first Monday in January, and termed such settlement a "physical impossibility." Her answer cited the cases of Hancock and Ada counties, both comparable to Twin Falls in volume of business. Neither the Hancock nor Ada treasurer manages to complete settlement by the statutory deadline.

Others Must File First

Mrs. Stevens advised the court that in order to permit the treasurer to settle her accounts of public revenue with the county auditor by the first Monday of each month, and by the first Tuesday after the first Monday of January, the various other county offices must file their reports with the auditor as to collection, care and disbursements of public revenue. Without this the auditor cannot give the treasurer the certificate of transfer of public revenue.

She claims the assessor, George A. Childs, did not make his report until Jan. 17; the commissioners did not make the audit report until Jan. 23, and the probate judge's report was not filed until Jan. 19. The first Tuesday after the first Monday, date for the treasurer's year-end settlement, was Jan. 6.

Worked Overtime

The treasurer asserts she and her staff worked overtime.

The county's suit, filed in January, asked the \$300 judgment as the forfeiture penalty provided by state law for each tract of settlement. Judgment was also asked for costs of the litigation. Mrs. Stevens' answer requests that the county take nothing and that she be given judgment for costs. Her attorneys are Chapman and Chapman, James T. Murphy and Frank L. Stephen.

**WPA MEN GO TO
DEFENSE SCHOOL**

One hundred and eighty-three WPA workers have been sent to school from south central Idaho recently for training in defense industries. R. W. Hampton, district manager of the Duhi WPA office, stated in Twin Falls today. Eighty of these workers have completed their training and are now engaged in the various defense industries on the Pacific coast.

Schools are located in Nampa, Boise, Weiler and Seattle. The popular courses are arc welding, aircraft sheet metal, machinist, radio, pattern making and dress mechanics, according to Mr. Hampton.

Men from these schools are now employed by some of the largest firms along the Pacific coast, such as Boeing Aircraft company, Seattle; Washington Iron Works, Seattle; Oregon Ship Building, Portland; and Lockheed Aircraft, Burbank, Calif.

Local officials are now making arrangements to send 30 more WPA workers to school in Seattle April 5. It is anticipated that men leaving April 5 will have received their training and be ready for jobs in defense industries within a few weeks.
