Corregidor Gunners Sink Jap Boats, Keep Enemy Aircraft High

WASHINGTON, April 13 (AP)—The war department reported today that Corregidor's gunners sank a number of small Japanese boats and kept enemy air raiders so high over the Philippine island that they did little damage in a series of new raids caused only minor loss.

A communication said the Japanese boats were in the harbor of the fishing village of Mariveles at the tip of the abandoned Bataan peninsula. Several were set afire in addition to those sunk.

Meanwhile, communication between Corregidor and Cebu was cut off for the first time since Gen. Jonathan M. Wainwright's retreat of an invasion of the central Philippine island more than 300 miles south of Corregidor.

Two freighters lost. The communication reported being hit by enemy action of two army freight ships, the Liberty and the Melus, both of which went down in the southwest Pacific. The Liberty was torpedoed twice by an enemy submarine Jan. 11 when it sailed from the Netherlands East Indies island of Bali. No lives were lost. The vessel was heavily damaged and was towed to Manila by a crew of 15 men and one passenger were rescued by Dutch planes.

Some Casualties. The war department said there were some casualties but military installations sustained only minor damage.

The war department reported that defending marksmen compelled the Japanese to fly at altitudes above the target that damage was slight and only a few casualties were sustained.

Artillery assaults were reported from Cebu, Batavia, where at least 200 Japanese planes were shot down, and from Manila, where two Japanese planes were shot down.

Japanese radio reports said heavy fighting had been going on since early on the southern tip of Bataan, and these reports were the principal basis for the war department's report.

MARTINE CHEER URGES "FREEZEZ" PLAN

ASKS PLANS TO STOP BICKERING

WASHINGTON, April 13—(AP)—Federal Civil Control Administration, announced today "some form of a labor and management relationship to do away with all this daily bickering."

She called the house naval committee he believed open agreements, closed shop agreements, and all other agreements between labor and management should be frozen in their present status "for the duration of the war."

"That, he added, would be "the simplest, the easiest and the quickest solution that will lead to labor, to capital and to the people of the United States."

Land said he could not evaluate the merits of the various proposals for shipbuilding. This, he asserted, is a need for a "natural war labor policy."

"If we can get it voluntarily, so much the better; failing that, by statute," he added.

Land withheld his views on suspension of 40-hour work legislation until he had had time to study it to double-time pay during the war. "This is not a time for proliferating new laws," he commented.

Advocates of restrictive labor legislation, meanwhile, have urged that only an agreement by unions and owners to limit work to a 40-hour week in war industries will avert them from efforts to force an increase in congress next week on the question.

Senator Connally, D. Tex., paved the way for such a move by inviting those of different mind to argue their case if he is successful in legislation before the senate to permit the government to take over strike-bound war plants, freewheeling contracts and labor relations in such plants.

Connally predicted a majority of his colleagues would be opposed to the measure when the question comes up next Monday.

Leaders Map War Savings Pledge Drive

PLUG FOR ONE
Eight counties and every person, woman or child—with a regular income will have an opportunity to sign one of the pledges. The individual will be asked to pledge him or herself to purchase one of the war stamps or bonds for the duration.

"We will be voluntary with the pledge, as to the amount and at what regular intervals he wishes to make his purchases. The complete and whole-hearted acceptance of universal pledge by the American people is the greatest contribution to national unity and determination on the part of the American people to win the war in all respects."

It is urged that every income earner make this contribution. A courteous attention to the defense savings stamp canvassers and to inquiries will have an important effect on the success of the drive.

RUSSIANS RAP JAPANESE "BLABBERING" ABOUT INVASION

PLAN TO SMASH NAZIS THIS YEAR

By The Associated Press
In apparently growing conviction that the fed army holds the whip hand on Russia's European front, the leading Moscow subject of Russian policy declared sharply today that Japanese blabbering about invasion in the Russian east "might damage, first of all and most of all, Japan herself."

Thus, Pravda, newspaper organ of the Communist party, today observed the first anniversary of the signing of the Japanese-Russian neutrality pact, the basis of the uneasy peace between the two powers, and striking in similarity to the Russian-German non-aggression pact which Germany voided by invasion of the Soviet Union last June.

Repeating readiness of the Red army for offensive action, a roundabout report credited to the Moscow radio said that the Russians had crossed the Dnieper river near Krymsk, virtually encircling that city, 200 miles southeast of Kiev.

May Damn It Himself
"It is necessary," the editorial declared, that the Japanese military and Fascist cliques who are dizzy on military successes should understand that their blabbering about war and invasion in the north might damage first of all and most of all Japan herself.

The anniversary and the editorial came while the new Japanese ambassador, Naotake Sato, and the new United States ambassador, Admiral William H. Standley, were in Moscow to present their credentials.

Giving expression to the height of confidence, the editorial, Kalinin, nominal head of Russia, said:

"Russia is stronger even than we sometimes think."
The Soviet president said that Germany's attack on the Soviet Union in the air, that the Russians gradually are becoming the equal of the Germans in the air, that the German army has passed the climax of its strength.

Hopkins Conference
Harry Hopkins, personal adviser to President Roosevelt, who is in England with the United States army chief of staff, George C. Marshall, had a long conference with the Russian ambassador to London, Ilya Malysky, and probably will present the results of the interview at a conference with Prime Minister Churchill.

Marshall, who told reporters last week explicitly of a drive to expand our operations here, took no part in the talk with Malysky.

Neutral advice from Berlin via Switzerland said that German fears of an allied offensive against Germany-occupied western Europe that prompted German renewal of negotiations for French collaboration.

Marshall Peain and Former Vice Premier Pierre Laval have conference in London, it was reported.

The RAF smashed at axis aerobics in Germany and Italy during the night.

Not a bomber was reported lost on the 1,500-mile roundtrip foray against Tunis, a munitions-making center of northern Italy, but at least 10 bombers and one lighter were lost in the air over the Soviet's Krivoye, docks at Le Havre, France, and airmen in France and the low countries.

A Nails Rip Up Face
The German air force increased its pace on the Russian front in support of light counter-attacks by its armor and tanks in a general attempt to feel out the depth of the Red army's position. Warm weather and slush prevailed in the principal fighting areas.

Russians at one point were reported to have diverted the course of a flood from the spring thaws, washing the enemy out of a fortified village. Russian soldiers believe that the next offensive would be their own, that the German army would be smashed on Russian soil this year or, if the worst came, that the Red army would continue the fight in the Urals or Siberia.

Army Skiers Win In Washington
PARADES VALLEY, RAINDER NATIONAL PARK, Wash., April 13 (AP)—Uncle Sam's mountain troops gotched four of the first six places in the eighth running of the alpine skis open Sunday, but it remained for a Seattle fireman to take first place.

Matt Brown of the Seattle ski club, who had to switch skis with a fellow fireman in order to get to the mountain, set a fire of his own on the perilous 3.6 mile downhill course in the time of four minutes, 51 seconds.

He was only a few seconds over the course record of 4:54 set by Peter Radacher of Austria in 1939. He had it not been for the only spill he took on the way, he might have equaled or bettered the present mark.

Army skiers stationed with a mountain battalion took second, fourth, fifth and sixth places.

Walker Prager, former Dartmouth ski coach, was the only other racer besides Brown to bold down the course under five minutes. His time was 4:42.

Mine Firm Takes Lease on Claims
Three-year lease on several claims in the Black Pine mining district in extreme southeastern Cassia county has been obtained by Highland Mines, Inc.

Officers listed are H. L. Walker, Twin Falls, president; Olin Bannison, Hansen, vice-president; and C. R. Shipman, Twin Falls, secretary-treasurer.

Large ore body containing quicksilver and small bodies of antimony and silver are open and due for production as soon as snow conditions permit, or within one month.

When the road to mine is reopened, equipment which will be moved in includes a compressor, diesel pump, plant, steeper and jackhammer, and a 30-ton crusher.

Completed development consists of 200 feet of tunnel, 80 feet of open cut, six and one-half miles of road, ore bins and a cabin.

PRISONERS RELAX AFTER EXCHANGE

CAIRO, Egypt, April 13 (AP)—Expectedly free after months of captivity in enemy jails, some of the wounded British just exchanged for British-held Italian prisoners languishing today on the broad terrace of a five military-hotel overlooking the Nile and the city.

They told how they waited, pined for months with waning patience and hope while the details of the swap—the first of the war—were worked out.

The Italian waterworks, they decided, was "tomorrow."

They told of their rehabilitation when, finally, they were back in British hands. Most of them had been prisoners since the big Nazi push in Libya last year.

"We were like kids at a Christmas when we boarded the Landing Force, Cairo," one tough sergeant described the scene aboard the British transfer ship. "There were booze, cigarettes, beer and food everywhere. We didn't know what to go for first."

Although some of the men were hesitant about talking of their experience because of possible repercussions, they gave the general impression of relief and joy.

And despite the fact that they were brought up from scattered camps, they gave the general impression of humane treatment.

Judging Awards to Agriculture Majors

UNIVERSITY OF IDAHO, April 13—Six southern Idaho agriculture majors this week were given judging awards for university agricultural judging teams.

Dairy cattle judging awards were approved by the ASUJ executive board, student governing body, for Reid Merrill, Paul and Ray Chambliss, Jerome Floyd Brinkman, Turner, Jerome, given a dairy products judging award and Don Beals, Gooding, given a judging award.

Annual laboratory judging awards were approved for Shelby Williams, Buhl, and Howard Morrison, Murtaugh.

April Upsurge in World War Tests United Nation Strategy

BY KIRKE L. SIMPSON
Wide World War Analyst
The expected April upsurge in the war on all fronts is in full swing, marked by events everywhere which are putting the United Nations' grand strategy to an acid test.

That strategy, by every indication, rests on the conclusion that the crux of the war this summer will come in Russia. If that is true, much has been raked and laid across the Pacific and the Mediterranean in grim allied determination not to be diverted from the job of bolstering Russia.

War cargoes for Russia are going through despite Nazi battleships, submarines and planes striking at convoys from close-up bases in Norway and a swarm of axis submarines.

It is not that the British are withdrawing to other danger points of the British-American pattern, but that they are being pulled back.

Lacking knowledge of present British strength in the bay of Bengal, it is much to indicate, however, that impressive British naval and air forces may have been ordered to Indian waters to protect the flank of the Burma defense front and to deal with any ambitious Japanese under-taking against India. It is wholly possible the greatest aerial fight of this war may be taking up there.

It is more than possible that axis maneuvering in the Mediterranean and in Libya, implying major offensive operations against Egypt, and near eastern oil resources, is in part centered off Beirut to lessen the sea and air support in the oil might divert from that front to meet the Japanese challenge in the Indian Ocean. The British have studied Italian fleet strength to almost half of its former power.

Funeral Services Honor E. Ziegler

Funeral services were held Saturday afternoon at the First Baptist church for Edward A. Ziegler, Piler, Idaho Power company employee who was accidentally electrocuted earlier in the week.

Mrs. Ethel Travis and Mrs. John Parger, accompanied by Mrs. Ed Harrison, sang "Beautiful Isle of Somewhere" and "Sometime We'll Understand."

pallbearers were Clyde Welch, T. A. Mattier, V. A. Allison, Jesse Small, Harry Stirk and S. G. Cree. Interment was in Piler Old Pelton cemetery under the direction of the White mortuary.

Chapter Receives \$361 Polio Funds

Can L. Thompson, Buhl, chairman of the committee in charge of the recent celebration of the President's birthday, Saturday night turned over \$361 to the Twin Falls county chapter of the Prevention of Infantile Paralysis.

The money represents 90 per cent of all proceeds from the Friday celebration and will be used by the county chapter in its work.

Saturday night's session was held in the library basement with Mrs. Frankie K. Alworth, chapter chairman, presiding. Directors of the organization were present at the session.

Defense Men Scan Rural Fire Setup

Continuation of rural fire protection facilities in Twin Falls county will be the topic of discussion at a meeting of civilian defense men Tuesday afternoon in the office of County Agent Bert Holmboe.

Tentative plans outlined at a meeting here Friday afternoon call for organizing the rural areas into units of approximately 50 families when no "protection" services are available.

Rural fire warden, it was indicated, will be given instruction in firefighting by the city fire department in order to meet any damage that may be caused by sabotage or enemy attack.

TUCKER'S NATIONAL WHIRLIGIG

ENCAPE—One of those blessed events which have so frequently "saved the democracies" occurred here when the British discovered that Hitler had perfected an amazing form of rocket armament which might have turned the tide of the war. Military experts believe the incident to be one of the most important in the history of the world.

His majestic naval forces crippled a Nazi submarine in the North sea, but they were lucky to have almost intact. It proved to be the most important feature of the invention. The inspectors found that, although the steel covering of the rocket was made of the same size and thickness of the older types, it had twice as much strength for warding off depth charges as the older types. Further investigation revealed that the same kind of metal has been incorporated in used in modern aircraft engines.

HAVY TUCKER newest tanks. The protective coating is impervious to artillery ordinarily fired at these land monitors. The disclosure has created a quick splash in the sort of guns used against this device, but locally the United States were warned in time. Depth charges are now the key weapon against these "whirligigs."

The conclusion among allied engineers is that Hitler planned to spring this surprise in his forthcoming offensives in Russia, the Caucasus and Libya. Had it been for this important miracle, the invaders would have gained him easy victories, disheartened the allies and influenced the few remaining neutrals. It was a narrow escape.

CLASHED—Navy friends of Vice-Admiral J. K. Tamm cannot understand why he has not been assigned to sea duty. In view of the need for experienced leaders in Frank Knox's department, Admiral Tamm's command for his own command in three conflicts, he has not been placed on active duty. Meanwhile, every flag officer who quit before his time is considered a deserter and a traitor.

Naval interest in the "Tamm case" has been renewed because of the recent reforms in the fleet's organization. The reorganization has created a new command-in-chief of the establishment and he also created a new command-in-chief of the fleet. The bureau was consolidated under the C. N. O. rather than the secretary of the navy. He predicted disaster unless Admiral Tamm was retained in his position.

President Roosevelt ordered these changes a few weeks ago.

Misfortune has dogged Admiral Tamm's steps for years. His friends blame his plight on the fact that he was not a member of the "Tamm club" which included the navy's top brass. When he was assistant secretary of the navy, the two clashed again in 1940, when the retired admiral was named to head the navy's operations. He predicted the enemy would attack the Philippines, Indo-China, Malay and the Dutch East Indies. For such a prediction he was considered a deserter and a traitor.

SKELTER—An elaborate plan for smashing the most serious obstacle to stopping our overseas forces and our allies—the shipping bottleneck—has finally been evolved by Defense Transportation Secretary Joseph H. Eastman and the various agencies charged with setting weapons and food to places where they will do the most good.

Despite earlier preparations to avoid the blunders of 25 years ago, when freight trains were used as storehouses for military supplies, the new plan calls for more efficient handling and distribution of supplies. It calls for more efficient handling and distribution of supplies.

Under the new scheme, consignments will be kept at strategic points in the country where space is available. A better timing arrangement will extend forwarding priorities to cargoes destined for the front lines. The plan also calls for more efficient handling and distribution of supplies.

What to do? The medical examiner—a sympathetic fellow with a merry gleam in his eye—suggested that our hero eat and eat some bananas and drink some water and come back in about two hours to try again.

His hero promptly went out and purchased six bananas. He devoured them and ate some banana time drinking gosh only knows how much water.

Now I rented my hero to Japs but I got them between the stier's home and the court house.

MORE FROM SHOSHONE Dear Pat: By your issue of April 9 I learned that you had in Shoshone some rather wonderful up over leas-ber to be vaccinated. I am a native of Shoshone and I am sure you will find an empty grave pit or sabotage house near the court house.

Now I rented my hero to Japs but I got them between the stier's home and the court house.

Speaking of initials, as nobody was and why should they, Pat Shoshone is the name of the organization that is the SCHICFLD.

The SCHICFLD was formed by three guys who clipped in to subscribe to the Times-News. Now they are a fourth—Oto Schid, Jr., from Gooding. It seems the SCHICFLD is reported to be for a new club in black type "Japan, Germany surrender." (Our estimate, not copyright, 1946).

Other Points of View APOLOGY TO A RAT Charges of sedition and criminal libel have been filed against two Californians, Robert Noble and Ellis Jones, who are alleged to have published a magazine in New York the other day after watching part of our Army parade, for almost four hours.

"It is my belief," said Robert Helferty, "that we gather all those who are able to stand up and see it crushed rather than fight for it, with or beside the Russians against Germany. But we're just as unalterably opposed to Communism in this country as we were before Hitler invaded Russia."

WILL TO WIN Robert Helferty is 65 years old. He is a Civil War veteran. He has his ideas about how we should win this war. He expressed them in New York the other day after watching part of our Army parade, for almost four hours.

"It is my belief," said Robert Helferty, "that we gather all those who are able to stand up and see it crushed rather than fight for it, with or beside the Russians against Germany. But we're just as unalterably opposed to Communism in this country as we were before Hitler invaded Russia."

MEMO TO LAZY PEOPLE Production of lawn mowers ended June 30. If you haven't stocked up on this item—and hoarding is unpatric—your will just have to let the grass grow.

Also, gadgets won't be wrapped in cellophane. Hours saved opening things should be devoted to the war effort.

THE Russian and German armies must be in a pretty bad way. The Russians claim to have killed or captured most of the German soldiers and the Germans claim they have practically no more soldiers left. The North sea seems to stay dead very long—Wallace Miller.

China has been 50 years degree in the same fix as India, except that India has been dominated by a number of powers. There has been a growing pressure for years to throw the yoke of the British in China feels that further strengthening her claim to free trade.

China's present formidable difficulties in obtaining supplies have been accentuated by the war. The industry hereafter, and to insist on the status of a fully free nation.

ANALYZING CURRENT NEWS FROM NEW YORK

FOGH—Although the administration has frowned down the proposal of a unified command for our armed forces, it will support many of the more aggressive officers. They have indicated their views to prominent military leaders who are expected to arrive in the near future.

Such rumors, claim the wearers of a few levers and eagles, regard the rule of a high-ranking staff—contrary to all experience in such a trust—tells our field generals what to do—or rather, because of their own inexperience, they do nothing. The reverse should be the procedure, says the "let go" school, could be a disaster. The trust produced their own plans and then ordered their aides. "There is my idea. Now you work out the details. By the time either brilliant strategy or routine behavior in response, are C. I. O., it is covered with cobwebs."

GOATS—The war is having strange effects on animals, according to a New York man who has collected a vast amount of information from the various zones. In the British Isles cattlemen are reporting that their flocks are under attack and that they have been crawling out during the night to find sheep nibbling and gnawing at their necks. In the United States, farmers are reporting that their flocks are under attack and that they have been crawling out during the night to find sheep nibbling and gnawing at their necks.

CHUNGKING, April 13—India is over the economic life of China to include state monopolies of salt, iron, steel and sugar. It is also adding many other controlled things, to the list of state-controlled commodities. It is looking toward the United States for an economically strong government.

Although the textile industry in India and large parts of China and other countries are suffering from a shortage of raw materials, they are determined to industrialize. In order to do this, they must have a full place in the community. This does not mean any lack of control by the government. It means, rather, a free market in the slow rise of a modern, free nation.

China's present formidable difficulties in obtaining supplies have been accentuated by the war. The industry hereafter, and to insist on the status of a fully free nation.

Food Sought by P.T.A. for Hot Lunch Projects

"Plant a row of health in your victory garden for the school children of America" is the request that is being sent to 2,500 Idaho Victory boules this week from the Twin Falls school.

This project was discussed at a meeting of 13 local P.T.A. unit presidents and hot lunch chairman at the home of Mrs. Glenn Chung, welfare chairman of the Parent-Teacher association, Tuesday, Mrs. F. G. Kieffer, P.T.A. council president, presiding.

Also present were Mrs. Floyd Lathin, council secretary; Mrs. Earl Johnson, Junior-Senior P.T.A. president; Mrs. Harry Batsch, past president of the Washington P.T.A.; Mrs. Charles Young, Hekel president; Mrs. Ralph Ellett, Lincoln president; Mrs. D. G. Gray, Mrs. Paul Howard, Mrs. A. C. Martin, Mrs. N. Bankhead and Mrs. Alfred Pugh, hot lunch chairman.

Mrs. Chung reported that approximately 4000 hot lunches were given in the Twin Falls area in April this year.

She commented on the drive for food and vegetables for the hot lunches at the WPA kitchen for next year's hot lunches.

Need source
In the face of the coming shortage of commodities, it is estimated that the hot lunch projects, three in number, will be in need of supply at the hot lunch program next year. To be a success, it was decided to make a drive.

Anyone wishing to donate fruit, vegetables, or meat may call Mrs. Chung, telephone 716.

"A few seeds planted now may mean the difference between victory or defeat in the hot lunch project for next year," officials observed.

Credit Meet Hears Banker Refute Bugaboo Of Wartime Migration out of South Idaho

BUSINESS 'GOOD,' PERRY DECLARES

Bugaboo tales on the wartime exodus of families from Twin Falls and Magic Valley expanded last night by facts and figures presented by Loyal I. Perry, speaking at the regional conference of the Retail Credit Men's National association. He addressed the conference here in the Park hotel on "The War Comes to Southern Idaho."

Perry, who stated that business on the whole had been "good," said that "we are set for the biggest inflation in history," and recommended three steps for the retention of private enterprise in the post-war period.

At Regional Credit Conference in Twin Falls

Talking things over at the registration desk of the regional credit conference are, left to right, Thomas McCormick, Falk Mercantile company, Ltd., Boise; Mrs. Louise Hughes, Twin Falls Credit association, conference secretary; Leon Fisher, Falk's-Sears, Twin Falls; chairman of breakfast activities; J. G. Roth, Central Bank, Boise; Arthur S. Bookwitz, Idaho Department store, general conference secretary; and Walter A. Jensen, Portland, Ore., executive secretary of the Associated Credit Bureau of the Pacific Northwest.

Steps Laid of Money

"I conclude that there is going to be a lot of money here this fall," declared Perry, assistant cashier of the Peavey National bank, after pointing out that farm prices are the highest in years.

Stating that farming is the leading business of Twin Falls, he said that with minimum investment, business combines to give Idaho three important occupational pursuits in the war.

He stated that "2,000 or more persons have left the city of Twin Falls since the highly paid war industry," were discussed by Perry.

Cities Moderate Decline

On the basis of a survey conducted by the Peavey National bank, the city of Twin Falls has lost an estimated 700 to 1,000 persons, while the entire Magic Valley has lost a total population of only 2,500 to 3,000 persons.

To help put up the statistics, Perry examined Idaho Power company statistics indicating a decrease in 1941 houses, March, 1941, 16,500, the peak, in December, 1941, and 15,567 in March, 1942.

75 Vacant Houses

Perry said there are 75 vacant houses in the city, on the basis of newspaper carriers' figures, and 124 homes have been cancelled, according to the city waterworks department.

"Attendance at school has decreased 146," said Perry, stating that in Twin Falls Independent district No. 1, average daily attendance in March, 1941, was 3,252; while last month it was 2,166.

Men in Service

On a second point, he said, to be noted: That of men serving in the army and men absent to be included in the military forces.

"A man in the service is beyond your collection power," said McCormick. "Write him a letter to express your appreciation of what he is doing. State that you will lend to help him work out a solution to liquidate his debt, too, or in the future."

Business Good

"Business in our community is very good," asserted Perry, admitting there had been immediate curtailment of the automobile and allied industries since outbreak of the war.

Bank closings here are up 20 per cent as of the first three months of 1942 as compared with the first quarter of 1941. He disclosed. One local department store characterized the last quarter as "the best March in history."

Butterfat Gains

"Butterfat is up 16 per cent from 32 to 37 cents per pound. Eggs (extra) are up 50 per cent from 20 to 30 cents a dozen.

"No. 1 grade corn is up 200 per cent from 50 cents to \$1.50. While beans are up 27 per cent from \$2.70 to \$3.20. Wheat is up 40 per cent from 20 cents to 80 cents. Perry stated, examining farmers' own records of expected incomes in 1942, he said that farmers who earned \$2,000 last year anticipated \$3,750 in 1942; \$1,500 last year, \$1,200 this year, and \$1,472 last year, \$2,270 this year.

Money to Loan

McCormick announced that "The inevitable dislocations of business are here. But, we Americans are dedicated to victory. Consequently, all private and personal interests will have to be adjusted and subordinated until that goal alone is achieved."

'SKIPPING' CALLED CREDIT PROBLEM

"Credit managers today are facing situations which require them to dig into the bag and bring out not only bank loans, but also the credit of the regional credit conference yesterday morning at the Park hotel here, said that the patience of the credit managers to get out of their "skip" problem.

McCormick, credit manager of Falk Mercantile Co., Ltd., urged credit managers to get out of their "skip" problem.

"Never in the history of inland credit circuits have there been so many requests for locating customers who have moved away and failed to advise their creditors," he disclosed.

Recent Public Demand

"Many of our men in public life in Washington are so responsible that they cannot conceal their bitterness," said McCormick.

He asserted the imperative need of America today is national unity. To bring order out of chaos, he urged the immediate stoppage of all vituperative and dangerous rumors and news.

Can't Turn Back

Urging the retail credit profession to stand itself to the challenge, McCormick reminded: "The check of history never turns back. The world has changed. Business practices have changed. Consumer credit has changed."

Nation Aroused at Bungling, Deweiler Tells Conference

"Congress and the administration are finding out that America has bungled, and that the patience of the people with their bungling has about reached its limit," in the opinion of Claude H. Deweiler, Twin Falls.

He spoke yesterday afternoon at the regional credit conference in the Park hotel. His subject was "The Responsibility of Business in Our Immediate Emergency."

Unlucky Alliance

"An unlucky alliance exists between many capitalists war contractors and labor unions," which Deweiler said tends to form a vicious cycle that paralyzes the cost of war materials.

He urged business men to assume the responsibility of politics.

"Our national government is the largest business on earth," he commented, "yet we have a bunch of crack-brains, idiots, lame-brains and throttlers running this vast business for us."

Recent Public Demand

"Many of our men in public life in Washington are so responsible that they cannot conceal their bitterness," said McCormick.

He asserted the imperative need of America today is national unity. To bring order out of chaos, he urged the immediate stoppage of all vituperative and dangerous rumors and news.

ARE YOU GRINDING AWAY YOUR WHEEL BEARINGS?

Sand and silt washed in by winter rains grind away on vital wheel bearings. Don't neglect them. They need inspection now!

1. Under the grinding wear of sand and abrasive grit, your wheel bearings can cause trouble. Once they are loose and worn they can make wheels shimmy and wear out irreparable tires. Bearings are expensive, too. Depending on your car, they cost from \$10 to \$30 installed.

2. You see, the full weight of your car rests on these bearings—on surfaces as tiny as a pin-point, or as thin as razor blade. That's why car manufacturers recommend that wheel bearings be properly packed and sealed every 3,000 miles, and particularly at this time of year.

AT ALL UNION OIL STATIONS. **REPACK FRONT WHEELS 60¢ PER WHEEL**

FOR Chevrolet, Ford, Plymouth, Studebaker, Chrysler, Willys, Hudson in 1941, 1942, Oldsmobile, Buick, Acura, Buick, Cord, etc. ALL OTHER PASSENGER CARS 75¢ PER WHEEL

3. The Union Minute Men have special tools for this vital service. They remove the front wheels and carefully wash the bearings with solvent. Then they force in under extreme pressure an especially compounded lubricant. This lubricant (exclusive at Union Oil stations) not only seals the bearings from dirt, abrasives and water, but it will also withstand heat as high as 360°.

4. Since practically all cars require repacking of front wheels only, the total charge for wheel bearing service is \$1.20 or \$1.50, depending on the car. This special service gives you absolute protection for 5,000 miles. It should be done right now. So drive in and have the Union Minute Men check your bearings today.
