

TWIN FALLS FOR COAST GUARDS

JAP SHIPS WERE CAUGHT TRAPPING IN CORAL FIGHT

By Walter B. Clausen
PHILADELPHIA, June 12 (AP)—American flyers, many of them bomber planes, today sank five Japanese warships, sank nine and possibly 11 Japanese warships at sea, and a third transport, as well as several smaller boats.

Aircraft squadrons delivered the furious assault and all returned without a scratch to their personnel.

Revealing as the blow was to the enemy, it was but a sample of what was to come. One of the officers in the engagement said: "We gave them a larger dose of the same stuff" in the ensuing battle of the Coral sea, which lasted a week.

Describe Attack
Lt. Com. Joseph Taylor, Danville, Ill., and William Burch, Panama, Ky., were in the lead during the blistering attack on the enemy base 1,000 miles northeast of Australia on Florida in the Coral sea.

Burch said: "About the carrier we did not hear anything about the little harbor of Tulagi until late one night when we were in the area. It was the loudspeaker. 'Prepare all squadrons for attack on ships in the harbor at Tulagi at 11:30 p. m. This is a complete surprise. Our task force has been hunting the enemy in the Coral sea.'"

"Long before dawn, we were ready and anxious for the attack," Burch said. "At 10:30 a. m. the following day, we were carrying a full load of torpedoes and bombs. We were in the area of the Coral sea, and we were ready to launch our attack."

"We were in the area of the Coral sea, and we were ready to launch our attack. We were in the area of the Coral sea, and we were ready to launch our attack. We were in the area of the Coral sea, and we were ready to launch our attack."

ALLIED GENERAL STAFFS STUDYING INVASION PLANS

LONDON, June 12 (AP)—Allied general staffs are in contact on the urgent problem of creating a second front in Europe in 1942, it was understood today.

Only a few men in Washington, London and Moscow know when, even how, the blow will fall under the agreements reached by Great Britain and the United States with Russia.

The British man in the street, and the Russian, interpreted the identical second front announcements here and at Washington at their face value. It is expected an actual land fighting front in western Europe this summer by an invasion of the continent.

More conservative quarters, especially those who knew the Dremont, British, the United States and Russian general staffs, have expressed their doubts. They have already stated that the formation of such a front, untried, is impossible; that the allied contingents would be limited to bombing attacks of growing ferocity and communications raids on an increasing scale along 2,000 miles of the Atlantic coast.

Not Enough Time
This is the view largely held by well informed, if unofficial, opinion in London. This opinion is that it is almost impossible to expect British and American armies to invade the continent within the brief time left for a campaign this summer.

But there is already a second front in the air. It is expected that the German and Italian resistance by the heroic patriots of all occupied countries is growing in scale. Commando raids in which carrier, superbly equipped American troops will soon take place on the allied sea; the United States army air corps is soon to go on the offensive against the Luftwaffe, which will put over the 1,000-plane night raids of Britain.

The general staffs reached here at Washington by Prime Minister Winston Churchill and President Roosevelt today. The Pacific Commissioner Vincent Massey means that now it is going to be a matter of time before the initiative in the war at the time they see fit, well informed sources say.

Germany has over-extended itself, they say; but as they may, they are going to strike in their own way.

Bases Urged for Planes to Bomb Japanese Cities

With Japanese forces bearing down on several fronts, war-torn China today urged Russia to strike at Japan in the far east.

The Chinese press declared the United States had helped Russia, adding that now was the time to open Russian bases for American bombing raids upon the Japanese islands.

On the actual battle fronts, American and Australian flyers hammered at Japanese bases on the approaches to the "down under" continent and the battles in China raged on.

The allies cheered as participants in the battle of the Coral sea arrived at Honolulu to tell of a brilliant attack on a Japanese fleet in the Solomon islands. Just east of the sea battle which crippled Japan's invasion force aimed at Australia, the allies said, possibly 11 Japanese warships and transports.

Call for Help
The Chinese press called bluntly on Soviet Russia to strike at Japan in the far east. It urged an attack on Midway and the Aleutians and the Russian-American-British unit in the Pacific to strike at a second front in Europe in 1942.

The newspaper Tsing Pao asserted: "America has done her part in helping Russia. Now that American troops are higher were being by Japanese attacks, isn't it time for Russia to help America in the Pacific?"

"Can Russia stand aside and watch the wildfire spread to her very doors which attempted to do it quickly, even if only for her own safety?"

"Russia would make the timely decision to help the allies in the Pacific by going to war against Japan."

"Soviet participation in the Pacific war would be a most important allied victory but will give her greater security in the east as she fighting Germany in the west," it said.

Time for Change
It is time for a change in the Soviet-American relations.

"A four-motored Japanese flying boat was higher were being by allied flyers yesterday and another bombing of Rabaul, New Britain, which has been a major air base, was announced at all headquarters in Australia."

"The flying boat was shot down at Rabaul, said a communiqué. The fighter planes destroyed were one of the most advanced in the world. It is reported a reconnaissance flight over New Guinea. No allied losses were mentioned."

"From an advanced operational base" came word that six survivors of the Chekiang province have been rescued from the sea. The survivors were rescued from the sea after more than two weeks ago had returned aloft, bringing with them much-needed supplies.

Sweep Forward
Japanese forces have swept from western Kiangsi province into Kiangsi province after capturing two western Chekiang cities, Domesi and Kiangsi, and capturing the city of Kiangsi province from the north have taken the walled city of Nanchang.

The crossing of the Chekiang-Kiangsi border was made last night by the Chinese troops. They have now crossed 30 miles wide, it said.

HAILEY, June 12 (AP)—Ogilvie Condit, 32, who was elected Blaine county probate judge at the age of 22 and is past president of the Idaho State Young Republican club, died at 8 p. m. yesterday at the Hailey clinical hospital where he was admitted two days before. In 1910 he was named Blaine county prosecuting attorney and served in that capacity until he became ill about 10 days ago. He was a member of the Elks lodge.

Mr. Condit was married to Miss Margaret Cameron, Carey, in 1935.

He was born May 19, 1910, in Carey, and was graduated from Logan, Utah, high school and took his law course at Utah State college, Salt Lake City.

Jap Coral Sea Loss "More Than 15 Ships" For Tributes

WASHINGTON, June 12 (AP)—The navy in a final accounting of the two weeks' Coral sea campaign revealed today that more than 15 Japanese ships were sunk, including an aircraft carrier, while the United States lost three naval vessels, including the big aircraft carrier Lexington, two destroyers.

Besides the Lexington, the U. S. lost the tanker Neosho and the destroyer USS Greer.

The Japanese casualties, in addition to the ships sunk, included a loss of more than 100 aircraft, the probable sinking of two other warships and severe damage to more than 20 ships.

The navy's summary, which included attacks by air forces from Salamaua and Lae on the island of New Guinea and the actual battle of the Coral sea, the following Japanese ships were sunk: the aircraft carrier, three heavy cruisers, one light cruiser, two destroyers; several transports and small vessels.

The campaign covered in the navy's communiqué began early in March when the Japanese were discovered to be concentrating transports and combat ships in Salamaua and Lae, New Guinea, apparently for an assault on Port Moresby on the south coast of the same island.

Port Moresby is strategically important because it was the base for Japanese a vital advance base for further attacks on northern Australia.

Two attempts to advance to the southward of New Guinea.

Our attacks on Salamaua and Lae, and the battle of the Coral sea, which was fought in May, prevented a large scale Japanese advance against Australia itself, the navy said.

The first real engagement of the Coral sea campaign came on March 26, when the Japanese were discovered to be concentrating transports and combat ships in Salamaua and Lae, New Guinea, apparently for an assault on Port Moresby on the south coast of the same island.

City All Set To M'Arthur

Twin Falls tomorrow will celebrate "Gen. MacArthur day" just as the hero of the Philippines probably would have a city celebrate it today.

The Junior Chamber of Commerce will set up two booths at which citizens will be able to purchase stamps and bonds in return which will be presented with a Gen. MacArthur "souvenir" by the city.

The booths will be manned by the assistant managers and petty girls from the Orpheum and Idaho theaters.

Mayor Joe Koehler has issued a proclamation setting aside the day for observance.

He will personally open the day by sending the police and fire department vehicles up and down the main streets at 5:30 a. m. with their sirens open to arouse the citizens to the fact that another contingent of selectees is leaving in 30 minutes for their final examination and induction into the army.

He wants the citizens to be on hand to see them off.

At least 40 and not more than 45 selectees will leave for induction, it is estimated.

June 15 Set For Start of Rubber Drive

WASHINGTON, June 12 (AP)—President Roosevelt today ordered a 15-day nationwide scrap rubber drive to begin on June 15.

The scrap rubber will be collected, he said, in a press conference, by 400,000 filling stations which will serve as scrap collection points.

The drive will pay 40 cents a pound for the scrap.

The campaign was ordered by Mr. Roosevelt to maintain the exact size of the nation's scrap rubber stockpile in order to determine whether it is sufficient to meet the nation's needs for a five-month radio allocation to the nation today at 6:45 p. m. ET.

Intensive Drive
He held a press conference that he would be driving to the intensive, extending into homes, office, factories and farms. The campaign will start at midnight, Tuesday, June 15.

"The rubber collection in the nation will be a very intensive rubber recovery operation, a new government unit under Secretary of Commerce, Harold Ickes."

Discussing the rubber situation in general, the President emphasized the need for people to do their part of the country to exercise utmost conservation of their present three million tons of rubber.

President said, he should reduce his mileage and drive as slowly as possible. He also recommended that no idea when new tires will be available.

He said that a very long time before tires are available for any large segment of the civilian population, the President said.

He urged the people to search their attics, cellars and garages for any articles of worn rubber.

Army, Navy Cut
Commenting on the seriousness of the situation, the President said the army and navy would be forced to cut their use of rubber 25 percent, placing solid tires on many types of military vehicles. THREAT SEEN OF FARM BILL VETO

WASHINGTON, June 12 (AP)—Reliable senate sources said today that President Roosevelt might veto the farm bill approved by the House in a Senate-House conference committee found some of the provisions for compensating the differences.

These sources said they expected a White House veto on either or both of these grounds:

House rejection of a compromise package calling for the purchase of 600,000 bushels of surplus government wheat for livestock feed at a price of about 10 cents a bushel.

Similar house opposition to a provision requiring inclusion of some 200,000 bushels of surplus peanuts.

The senate met administration officials on these points three weeks ago when it passed the bill, but the house rejected both senate provisions in a vote of 219 to 197.

House Speaker Charles McNary instructed its conferees to stand fast in their negotiations with representatives from the house.

Can't Beat Butter-Krust

Here's What Another Housewife Has to Say About BUTTER-KRUST Bread—

"My husband's in business and he insists on patronizing home industry. He derives a lot of pleasure from talking about the superiority of Idaho potatoes, beans, etc. Just recently, while eating BUTTER-KRUST Bread, he said, 'Now here's an example for you. I call this bread, and it's baked right here at home.' The funny part of it is, I agree with him. I don't care what anyone says, or where it is baked. You can't beat BUTTER-KRUST."

Bride of 1942—Give Her Bonds As Nuptial Gift

The bride of 1942 is a brave woman. She faces the uncertain future in the history of modern times. Her husband, perhaps, is serving in our armed forces. Her first child may be born while its father is fighting "somewhere overseas."

Economic uncertainty, too, shadows her future. After the war there will be monetary adjustments for her to face.

Wedding gifts of war savings bonds will insure her security in days to come, while they pave the way for her country's victory.

Not only will the appreciate this gift now, but on her tenth wedding anniversary, when the bonds mature, she will thank you again for your wise and patriotic thoughtfulness.

COCHRANE ASKS 23 PLAYERS ON SERVICE TEAM

WASHINGTON, June 12 (AP)—There are few if any obvious weaknesses in the ball club picked by Larry Mickey Cochrane to represent the Army's military in the benefit game at Cleveland July 7 against the winner of the National Amateur League all-star contest at the previous day.

Out of the 23 players he has asked for, Mickey will be able to field a starting line-up that any major league manager would be tickled to see playing for him every day of the week.

With such pitchers as Bobby Feller, Johnny Ring and Mickey Harris to buzz them past the opposition, the infield shapes up as a corker.

Cochrane will start Greenberg as first, Benny McCoy for second, and Al Simmons for third.

Cochrane will have a top National league flinger in Hugh Mulock, Phils, as well as John Grodzicki, Chicago, p.

SPORTS SPOOLS by Hal Wood FOR IDAHO

CHUCK THOMAS, former Twin Falls school all-star athlete, is back from the University of Idaho with plans already being laid for returning to school in the fall and playing with Coach Francis A. Schmidt's Vandul football gridiron.

Chuck, along with young Graden, planning of Jerome, will probably be one of the boys calling signals for the complicated Schmidt system when fall rolls around and the boys hope that the 1942 Idaho grid season will be at least on a par with the best of the school's ever offered before.

PASSEAU GAINS NINTH VICTORY LICKING PHILS

CHICAGO, June 12 (AP)—Claude Passeau pitched a five-hitter yesterday and won his ninth victory of the season as the Chicago Cubs whipped the Phillies, 7 to 1, in the series final.

The only run Philadelphia was able to score resulted from a fumble by Nicholson in the second inning after Rick Eichen had singled.

After that the Phils made only two hits off Passeau, one by Bragan in the fifth and another by Glossop in the sixth.

It was the 11th straight complete game of the season for Passeau, who only Sunday was released from the hospital after his injury suffered an attack of appendicitis.

On June 3 he pitched against and beat the Giants while in the throes of the appendicitis attack. Today's triumph was Passeau's seventh in a row.

The Cubs made 11 hits in all against Hugh Melton and Sam Navin, including three by Louis Novotny, who had his best day of the season at the plate. Novotny doubled once and singled twice and scored three runs.

Terry Outlines Make-up of Farm System

BY WHITNEY MARTIN Wide World NEW YORK, June 12 — What makes a good baseball farm system?

Offhand the obvious answer would seem to be good farms, but there is more to it than that. The classification of the various clubs, for example.

Bill Terry thinks the lineup of his minor league system is just about right, although he admits it's more or less on a miniature scale.

"We own or have working agreements with seven club systems," he says. "And I own two club systems—Natchez, Miss., and Milford, Del.—but their leagues have folded."

"This is Terry's first year in developing his full time to farm club operation, and he picked a hot time for the debut, what with the war and all its varied repercussions making it a very difficult time for a literary proposition."

However, he's sure that, barring strikes, the Giants' club system still operating will finish the season. And what's more, make money.

"The game and the money," he said, "and this undoubtedly will help me to get on my feet."

"Explaining what he considered a good classification, Terry said that he had several class D clubs, including some of the best in the league."

"There are good class D leagues and bad class D leagues," he said. "You can use the poorer class D clubs to give the kids a tryout."

"The class D leagues are the proving grounds, and if the boys make good we have clubs in every high classification group to take care of them."

By HUGH FULLERTON, Jr. Wide World Sports Columnist

NEW YORK, June 12 — Squire Gene Sarazano, who probably is the best golfer in the world, has had a time has come to cut down on war relief exhibitions because "they're beginning to defect from the cause."

Gene's idea is to concentrate on the big events like the American and the Ryder cup matches that will bring out a lot of bucks, and instead of a lot of exhibitions have each golfer buy one \$25 war bond, besides those he's buying anyway, and use it to goit credit to defect from the cause.

A's Shortstop in Army Air Force

PHILADELPHIA, N. J., June 12 (AP)—Jack Wallinga, Philadelphia Athletics 21-year-old rookie shortstop, was in the army air force today.

Originally deferred because of a preexisting condition, Wallinga was reclassified as I-1, and enlisted in the ground service of the air force. He passed his physical examination yesterday.

Wallinga, who is unmarried, played baseball with the A's until he was "benched" with a pitched ball, last week.

ARMIES IN OCCUPIED TERRITORIES READY TO STRIKE

AWAIT START OF 2ND FRONT FIGHT

By JOHN A. FARRIS
(Copyright 1942 by United Press)
LONDON, June 12 (U.P.)—Col. V. Britton, the mystery man who for months has organized and directed the Intrepid patriots resistance to the Axis in occupied territory, said today that a vast underground army was now capable of carrying out a full-scale uprising if and when the United Nations established a second front.

"Millions of persons in occupied countries who form the 'V' army are ready to strike," he said. "They await only my call, which I hope will not be long. Europe is beginning to realize that deliverance is at hand."

Affects War Effort
Throughout Europe, he continued, in the next interview he ever has given, the V army is already affecting Hitler's war effort by blowing up munitions dumps, wrecking troop and supply columns and harassing occupation troops.

"Right now Germany is facing a major crisis in man power, and production," he said, "and the V army's contribution has been absolutely vital. In fact, the V army creates crisis."

Royal air force raids and German commando thrusts, and Germany's full-scale invasion of the Russians, has eliminated the V army.

"But we do not rely on that," he said. "A more important fact is that the growing allied aggression is increasing the V army not only in occupied countries but in Germany and Italy."

"The murmur of the people is now in Germany. The Nazis are trying to drown it with their rifle squads. But it will get louder until even Hitler can hear it. And that will be the end."

Opposite Effect
Would regard it as those which followed the killing of Hansman Reinhard Heydrich damped the V army's enthusiasm.

"No," he replied, "they will have the opposite effect. They will only increase the determination of the V army to win this war and end a regime so atrocious."

"The Nazis are going in a vicious circle. They use terror to destroy resistance because it is the only way they know. But in fact their terror only increases resistance and this the Nazis meet with more ferocity. So it goes. There is but one end to this frightful progression. That is the destruction of the man who began it. Nazi terrorism is not based on strength. It is based on fear, weakness and spiritual bankruptcy. Such terrorism always fails."

Ensign Gay was rescued and returned to Honolulu.

EXPERT ADVISES MORE-SPUD ADS

Asserting that the per capita consumption of potatoes in the United States is but 134 pounds a year, whereas it normally should be 230 pounds, C. G. Rice of the Idaho state advertising committee directed the need for advertising Idaho potatoes in an address before the Kiwanis club at its luncheon yesterday.

Rice told of visiting 71 cities in 29 states in the interest of furthering the sale of Idaho potatoes and satisfying results obtained. Through his work as the commissioner the south had become one of the chief markets for the Idaho potato, although much of the potatoes are raised there, he said.

Rice was the guest of E. S. Harter, chairman of the club's program committee.

O. P. Davall, chairman of the education committee, outlined the program for "All-Kiwanis week" to be held at the regular meeting next Thursday noon. He announced that brief talks would be made by the following committee chairmen: J. E. White, agriculture; Claude DeWelder, boys' and girls' work; John Garrett, civil defense; Cecil Jones, finance; Elmer Hollingsworth, education; Gerald Wallace, milk trucks; Wilbur Hill, interclub relations; Robert Walton, program; Roy Painter, Kiwanis' work; Ray Holmes, public affairs; Art Cedergquist, reception; and A. W. Young, safety.

President U. N. Terry announced that the interclub luncheon would be held at the Mitch Hunt ranch between Bull and Filer on Wednesday night, July 8, and appointed the following as chairman of committees for the party: Elmer Hollingsworth, honor; R. J. Schweitzer, entertainment; and W. C. Smith, transportation. The members of the "Minute Maids" would attend the luncheon at the Filer club and their wives will attend.

Mr. Holmes announced that the "Minute Maids" would attend the luncheon at the Filer club on the night of June 16 in the interest of the war bond selling campaign. Only three bands also will participate, he said.

NATIONWIDE GAS RATION OPPOSED

CHICAGO, June 12 (U.P.)—Jerkson Coordinator Harold L. Decker asserted last night that the government would do everything "humanly possible" to avoid national oil rationing but that the whole problem hinged upon what may be done to save rubber.

He predicted, however, that oil rationing would continue "indefinitely" in the east and other territories where transportation facilities have ceased an oil shortage.

"Regardless of what may happen in the interior of the country," he told members of the General Motor Freight association, "restrictions upon the ordinary use of petroleum products will continue indefinitely in those areas which are dependent upon ocean shipping for their normal supplies."

In other areas, he said the answer to the oil rationing question "depends upon what may be done in the way of rationing to save rubber."

Jokes said the railroads now are moving 70,000 barrels of oil daily into the storage areas of the east by use of 32,000 tank cars, half of all available in the country. Most of the tank cars formerly were used to carry oil to the west coast and replaced by tank trucks.

Jokes promised the truckers that he would see to it that the government was doing what it could to coordinate local wartime laws governing sale of trucks and the weight of loads.

Pat Day to Attend Boys' Convention

The need for labor on the farms is being met with Twin Falls' representation at the American Legion boys' state which will open Saturday at Pocatello, W. W. Franck, commander of the local post, said today.

Whereas 11 boys, each sponsored by a different Twin Falls organization, attended last year, individuals that are only one will attend this year. He is Pat Day, son of Mr. and Mrs. J. P. Day, 209 Fourth avenue east.

Commander Franck said that 20 boys were recommended by the high school for attendance at the Boys' state but an investigation revealed that most of them were working in the beet fields or doing other farm work and were not available.

RUPERT, June 12—A cubmaster received Monday from Gunnery Sgt. Robert Reynolds, a letter from Midway by his parents, Mr. and Mrs. H. B. Reynolds, said "Okay, love." Sgt. Reynolds has been stationed on Midway for several months.

"GOOD-SENSE" IS URGED ON ACTORS

HOLLYWOOD, June 12 (U.P.)—Women of Hollywood were urged today to take the lead in replacing silent pictures with talking pictures. An article in the June issue of Screen and Stage magazine, written by the Screen Actors' guild, said that "it is within the power of Hollywood's actors to make self-discipline popular in America—to make new economic fashionable, rigid restrictions acceptable."

"How you wear your hair and whether you serve your dinner guests and where you drive your car is no longer, strictly speaking, your own business. The elaborate machinery of publicity has made it everybody's business—the 'everybody' the government wants to reach through you."

It is within Hollywood's power to make the standardized fashion silhouettes popular with the women of America... to divert them from nylon stockings so that the chemicals that go into nylon can be used for explosives... to have them accept cotton wearing apparel, so that it is not used for uniforms and blankets for men in service... to discourage the use of hairpins, zippers, metal buttons, and other accessories.

Drinking Charges Fled Against Four

JEROME, June 12—Charles M. Uphouse, Morrison-Knudsen construction worker, this week was accused of a fine of \$20 on charges of ascertained drunkenness. He appeared Monday morning before Justice of the Peace Clark T. Stanton, and pleaded guilty to the offense.

Others appearing to admit guilt to charges of drunkenness, included John Conrad, who promised to pay the \$20 fine by July 1. He was allowed parole until the amount is paid; William Isbell, paid \$20; Thomas Barrett, committed to jail in default of \$20 fine.

Old-age payments accounted for most of the increase, payments going to 9,872 recipients totaling \$231,217. Aid to dependent children went to 5,052 families and totaled \$98,224. Aid to needy blind totaled \$6,622 with 274 receiving payments.

Forty copies paid 1,107 direct relief cases \$16,226, a decrease of 78 cases and \$1,255.
