

SOUTH IDAHOANS ON MISSING LIST

Sixteen Idaho men, including four from the Magic Valley, today were listed as missing in action in the fifth casualty list of the war released by the navy department.

The four men from this section listed as missing come from Buhl, Wendell, Castelford and Twin Falls. No dead or wounded from Idaho were on the report. Next in line of the Magic Valley men have been informed that they are missing. The navy reports the quartet as follows:

Herbert LaVerne Phelps, Twin Falls, fireman third class with the navy. His parents are Mr. and Mrs. Clarence Richard Phelps, who formerly resided at 1067 Ash street but who now live in Ogden, Utah. The father was employed by the city before moving to Utah only recently.

GOVERNOR FILES FOR REELECTION

BOISE, June 24 (AP)—Governor Chas. A. Clark became a candidate for a second term as Idaho's chief executive today.

The former Idaho Falls mayor, who defeated C. A. Bottolfson, Arvo, for the governorship in the general election two years ago, filed his candidacy petitions with Secretary of State George H. Curtis and issued this statement:

"I am filing for reelection today. My heart is in the work that I am doing. I have no other ambition but to continue with my work. I am not unmindful of the responsibilities of the position I am filling and I am doing the best I can to serve the people of my state. I will be very happy if they decide to continue me in my work for another two years."

This far Clark has no announced opponent in the Democratic primary Aug. 11. Three Republicans—former Governor Bottolfson, State Rep. William DeWeller, Hazelton, and Thomas McDougall, Boise—have announced for that party's nomination.

Governor Clark—an attorney—is a brother of former Governor Barzilla W. Clark and an uncle of United

States Senator D. Worth Clark of Idaho.

His filing for reelection indicated he no longer seeks the Idaho federal judgeship vacated last February by Judge C. C. Cavanaugh. Cavanaugh retired officially then, but has been acting on the bench pending appointment of a successor.

RAF LAYS MINES IN ENEMY SEAS

LONDON, June 24 (AP)—British bomber command planes, flying in weather which prevented raids on Germany proper, laid mines in enemy waters during the night and fighter command planes attacked enemy airbases and railroads in Holland and northern France.

Two bombers are missing. The fighter planes destroyed two enemy planes.

In their operations yesterday, the air ministry announced, British Spitfires escorted by American built Douglas light bombers made a most successful raid on Dunkirk, on the French invasion coast. The crews saw their bombs burst among docks, dock buildings and railroads and

HOUSE SPLIT ON CONTRACT PROBE

WASHINGTON, June 24 (AP)—A sharply split house military committee was put on record by its chairman today as determined to continue an investigation which it reported already had revealed "a sordid picture" of extravagant waste in war department contracts.

Whether the investigation would continue to be conducted by three sub-committees remained to be seen, but Chairman May, D. Ky., intimated he was considering consolidating the inquiry into a single unit.

Minority Report Seer

His intimation followed disclosure that a minority report would be filed soon by Rep. Thompson, D. Tex., chairman of one of the sub-committees.

The minority report, members who planned to sign it said, would not disagree so much with the committee's findings as made public yesterday, as with the manner in which it was considered.

Approval at a session marked by sharp clashes between May and Thompson, the majority report made these recommendations:

Eliminate Red Tape

That war agencies eliminate "top-heavy organization" and "endless red tape"; that the war department tighten its supervision over accounting and auditing, strengthen its contract policies, enforce prohibitions against the payment of excessive commissions on cost-plus-a-fixed-fee contracts, readjust management fees, and require employees of contractors retained in connection with procurement of contracts to file monthly expense and compensation statements.

"Citizens of this country cannot be expected to be faced intermittently with indifference in spending on the part of the officials of their government after the period of initial necessity has passed and continue buying bonds with enthusiasm overlooking the extension of bureaucratic domination and suffering deprivations with a complacent attitude," the report said.

PELLEY LOSTEN APPEAL

RALEIGH, N. C., June 24 (AP)—The North Carolina supreme court today rejected the appeal of William Dudley Pelley, one-time leader of the fascist Silver Shirts of America, from a state prison term imposed for violating conditions of a prior suspended sentence.

JUDGES: Will the witness please take the stand? You swear to tell the truth?

WITNESS: I do, Your Honor.

JUDGES: Where were you about a year ago?

WITNESS: In Death Valley.

JUDGES: What were you doing in Death Valley?

WITNESS: I was observing a test of six high grade motor oils, including Conoco Nth oil.

JUDGES: How was the test conducted?

WITNESS: A five-quart fill of some one brand was sealed in the crankcase of each identical car and no more oil was added.

JUDGES: Then what?

WITNESS: The cars were driven until the engines were wrecked.

JUDGES: What happened?

WITNESS: Conoco Nth oil carried its motor for 13,038 miles.

JUDGES: How far did the other oils go?

WITNESS: They didn't average half the mileage of Conoco Nth.

JUDGES: Why would Conoco Nth oil perform in this fashion?

WITNESS: Because of two synthetic. One gives it the oil-lubricating effect. The other helps keep oil and motor clean.

JUDGES: Would you recommend my driving this far on a crankcase of oil?

WITNESS: No, your honor! That mileage was for test purposes. You want to preserve your car and should drain at recommended periods and OIL-PLATE with Conoco Nth.

JUDGES: Thank you! Witness dismissed!

SITUATION SERIOUS BUT WAR NOT LOST, MCKENZIE SAYS

NAZI AIR FORCE DANGER TO SUEZ

By DE WITT MCKENZIE
 World War Analyst
 Somewhere the censor will permit this reference to his private weather forecast which is so accurate in the old song—and if all of us could remember this we shouldn't be sitting around in a daze, waiting for a storm that's thick enough to cut with a knife.

After all, while these are trying times, we haven't lost the war, but on the contrary are just getting set to win it. True, we are facing what looks like a spell of unmitigated hell, but even that won't lead to bad if you will read the Associated Press story out of Australia about the Venetian fighter pilot who was forced to land in a crocodile swamp and lived three days on crocodores and raw cow hearts. He made the grade all right, and so will we.

Faction Is Critical
 With victorious nazis Field Marshal Rommel mashing his troops on the Egyptian border for a quick drive into the land of the Pharaohs the position there is critical. Still, it strikes me that the real danger does not lie in the east, but in the west, and that the real danger to the defense of Alexandria and the Suez canal lies in the great air force which Hitler may be expected to bring into his battle, and also may employ in an attempt to invade Syria and thus advance on Egypt from the east while Rommel rushes in from the west.

However, London states that reinforcements are arriving in the middle east and that the presumption is that the essential war planes, meanwhile United States heavy bombers are in action with the British in against Rommel's positions, and the British navy is getting into the act to blast the enemy's line of communication along the wholly exposed military highway through the Mediterranean.

That long supply line upon which Rommel must depend is one of his great weaknesses and one which is likely to cost him dear.

Spurs Nazis
 Rommel's success has spurred the nazis efforts to smash the Russian. South of Kharkov the nazis have pushed to within a few miles of Moscow, and the local successes of this sort cannot be decisive.

Every day that the red line holds in a big battle toward the Volga, Moscow claims that Hitler's forces have been weakened to the point where he is incapable of undertaking a wholesale offensive. This will show how accurate that is, but continue we cannot doubt that the further can at least develop in individual sectors a striking power which will be bound to move some lining.

The axis position being favorable at the moment, it is not surprising the Germans undertaking a hot propaganda campaign to precipitate the British, Japanese and Russian. I've remarked before, the indications are that the Japs don't want to fight Russia now, because they already have more on their hands than they can take care of.

HENDERSON ASKS PRICE SUBSIDIES

WASHINGTON, June 24 (AP)—Price Administrator Leon Henderson believes it will be impossible to hold price ceilings at March levels during the coming winter unless government subsidies totaling some \$500,000,000 are made available to hard-hit industries, his associates revealed today.

Henderson was said to feel that eventually it would be imperative to have funds to back up the price levels if the cost of living to Americans was to remain stable. Without subsidies, Henderson's associates explained, the best they could do was to let a deflationary spiral gain momentum and hope for an early end of the war.

Congress is expected to provide the subsidy proposal shortly. How much money will be needed is still a matter of opinion, although C. P. A. officials generally agreed that \$500,000,000 should be enough for the first year. The British are expected to spend about \$1,000,000,000 a year, and the Canadians between \$100,000,000 and \$150,000,000 to keep prices down.

Chief benefactor of subsidies is absorbing additional costs for transporting sugar and coal into the northern states, made necessary by abandoning water transportation in favor of rail movement.

Reimbursements are expected to be made shortly to gasoline dealers in the Atlantic coast areas, whose transportation costs also have mounted. Henderson said \$28,000,000 in subsidies would make it possible to maintain gasoline prices at March levels.

In pointing out the need for subsidies, Henderson's aides said many industries and merchants were coming closer to financial ruin because of higher raw materials prices, production costs and transportation. Already a large amount of "fat" representing extensive services to customers, has been cut out to assure continued operation while staying in line with the price ceilings.

Opponents of the subsidy system believe it will be too expensive and that one started will be almost impossible to stop.

Escape Injury

UNITY, June 24—Mr. and Mrs. D. L. Pace and Mr. and Mrs. Wade Fisher escaped without serious injury when a car crashed into them near Jerome Friday. Mr. Fisher's new car was almost demolished.

SHIBBOYGAN SETS RECORD

SHIBBOYGAN, Wis. June 24 (AP)—Shibboyan set an all-time scoring record in the Wisconsin high school football league last night by walloping Oshkosh—36 to 19—and there wasn't a single run in. Shibboyan was credited with 34 carried runs on 31 hits, including two triples and seven doublings.

The bar had horizontal before it had been, horizontally before a species of plant.

CALIFORNIA HAS LABOR SHORTAGE

SAN FRANCISCO, June 24 (AP)—California farmers, engaged in a losing race with maturing crops, today that the dump grounds which he has been using west of the hospital near highway 30 is now permanently closed.

Prescott said the holes which he maintained on property at that point have been moved. New locations will be one and one-half miles east of the north end of the rim-to-rim bridge. The grounds there are plainly marked by signs.

Among proposals being considered to bring relief to one for a "standing army" of agricultural workers that could be moved as needed to meet labor needs in various sections of the state and nation, the plan involves creation of a federal farm labor authority.

Such a plan was discussed yesterday at a hearing of the labor subcommittee of the state agricultural planning committee.

Situation Getting Worse

Ray Wiser, president of the California farm bureau, said the situation was already serious and getting worse.

"We were short 15,000 workers in May," he said, "and while we are facing even greater shortage now, the real harvest problem will come in July and August when the peaks are normally reached in the majority of our orchard crops."

A survey is being made, Wiser said, to determine actual losses, far due to labor shortages.

"Our preliminary studies," Wiser said, "reveal that losses and average plowed under owing to labor shortage have been substantial, increasing rate of duty cows points toward a serious danger of milk shortages."

Milk Cows Slaughtered
 "Where normally there are no such sales, during the past few months more than 6,000 milk cows have been slaughtered owing to the lack of milkers."

Crops already affected by the labor shortage include sugar beets, peas, alfalfa, and other crops. The shortage is so acute that some farmers are plowing under crops to labor shortage have been substantial, increasing rate of duty cows points toward a serious danger of milk shortages.

TO AID HOUSING PROGRAM STATE ATTORNEY

TO AID HOUSING PROGRAM

SUN VALLEY, June 23 (AP)—Declaring his belief the Idaho unfair sales act is "superior to Federal price regulations," Attorney B. H. Miller was on record today as saying his office would lend assistance to any merchant contesting legality of OPA-fixed price ceiling.

Addressing 150 Idaho retail food dealers in convention, Miller criticized existing OPA regulations and stated he would not consider that OPA rules suppressed the Idaho sales act until Idaho "has been put under martial law, so to speak."

An earlier speaker was Adam B. Bennett of Salt Lake City, assistant to the president of the Utah Power and Light company, who counseled the retailers that in the war the government's requests should be met.

No Issue Taken

R. B. Heffebauer, representative of the OPA in Idaho, said Miller on the program but did not directly take issue with him, although urging immediate cooperation from the merchants.

The convention, which began yesterday evening and closed today with election of officers.

"I don't believe it would be proper for my office to take action because it would be purely a civil case between individuals," Miller commented in phrasing aid to merchants who might bring suit against the OPA.

OPA, Miller said, was the reverse of the unfair sales act inasmuch as it prevents prices from dropping below a certain mark-up.

Declaring he was "very apprehensive if this thing continues as it is," he said that the attorney general said OPA objectives were presently being met, but they should have been accomplished a long time ago.

OPA Will Not Succeed

OPA, he said, will not succeed "to the extent that it even could be enforced because of its unworkability and difficulty to enforce."

Bennett assured the convention that his organization's men and women would solve the personnel problem created by the loss of younger men in the armed services.

"Proper training and the will to win can meet the problem," he said, "almost every boy in the army has a younger brother or sister who can be trained to do his work."

Bennett pointed out 200 other women in Salt Lake City have been organized to return to the jobs they once held and accept a 25 per cent. of good men over 45.

He recommended that after the war business should again ask the right to "succeed freely, free from any man-made price ceiling, but that he would defend his interests that during the war the government should have anything it wanted.

Boys now at the fighting fronts should have the first shot at jobs when they come home," he advised.

"MAIDS" TO HELP STAR'S BUSY DAY

Six lovely "Minute Maids," from Boise will assist Twin Electric John, by Sheffield in selling war bonds and stamps in Twin Falls Friday of this week, commencing in charge of the sale celebration for the young movie actor announced this afternoon.

This time the Minute Maids will be Mrs. Marion Clifton Park's group, a different set than the six girls who appeared here June 16.

Will Be in Parade

The girls will "work" the street crowds and the throngs expected to surround the army and the army 15½-ton tank at each stop downtown. They will also take part in the 11:30 parade Friday morning and will be present at the noon luncheon arranged by all civic and service groups at the Park hotel.

Meanwhile word was received today that young Johnny and his mother, Mrs. Reginald Sheffield, will arrive in Twin Falls quietly Thursday night for the busy Friday program. They were at Boise today for an equally strenuous schedule of bond and stamp selling for the three auctions planned during Johnny's visit, said this afternoon that merchant donations "are being given a generous sale."

Cook and his associates, James Harmon and Elliot Bingham, reported they already have "everything from hats to cigars to traveling bags."

Stores Can Volunteer

Any outlying store which has not been contacted may phone the Chamber of Commerce and donated merchandise will be picked up. Boy Scouts started today on the collection task. The merchandise will be stored in the Dewetter building on Spokane street east until time of the three auctions Friday.

Mr. Cook explained today that bidders who purchase the merchandise at the three downtown auctions are really securing the articles for nothing. "What actually will take place," he said, "is that the tuffer bids stamps or bonds with the money he offers—the sets the auctioneer article absolutely free... and has made a bond or stamp investment

which will return to him with interest."

It was announced this afternoon that R. S. Toffmire has been chosen to assist in the combined Friday luncheon at the Park hotel. Presidents of the various civic organizations will be at the speakers' table, as will the young film star, his mother, members of their party and Gov. Chase A. Clark if he is able to be here.

Twin Falls merchants will offer special bargain Friday, as advertised in today's issue of the Times-News. Stores will remain open this day until 9 p. m. They will operate special stamp booths.

Wage for Ranch Hands Increases

BOISE, June 24 (AP)—Ranch hands says the U. S. department of agriculture, are worth \$7.25 a day with overtime and \$10 a month with board, on the basis of current reports.

The straight pay is 15 cents a day greater than in April and monthly wages are nearly 30 better. The department's report says that competition for this type of manpower still is keen from logging, mining and defense projects along mountain and coast states.

Having surrounded the best working jobs with the help of city workers, school children and small numbers of unemployed laborers, farmers now are concerned with ways to help for having and harvesting grain. Department says that some are being forced to use the tractors for milking and field work, thus delaying the harvest. The following text for the following crop, the department says.

NAVY TOLL RISES TO OVER 10,000

WASHINGTON, June 24 (AP)—The navy's total of dead, wounded and missing announced in the past 48 days rose to more than 10,000 today with the release of casualty list No. 5.

Declaring that the "preponderant share" of the casualties resulted from direct action with the enemy while the rest occurred in the line of duty in the sea or in the air, the navy announced the number of dead in the new list as 98, with eight wounded and 101 missing. The casualties included personnel of the navy, marine corps and coast guard.

The list covered casualties reported in the past 48 days from May 11-June 6.

"The large percentage of names under the 'missing' classification is due to the fact that many of them were sent to the Manila bay area when it capitulated to the enemy and likely are prisoners of war, the navy said.

"The bureau of naval personnel in notifying next of kin has pointed out that it is likely that several months before definite information can be obtained on each case; also that next of kin will be notified when definite word is received.

"Some of those under the 'missing' classification may have been rescued at sea and landed at isolated spots from which they have had no opportunity to communicate with the United States naval authorities.

BRITISH BLOW UP DOCKS IN TOBRUK

WITH THE BRITISH FORCES NEAR THE EGYPTIAN FRONTIER, Wednesday, June 24—The British army and navy men who escaped from Tobruk aboard the South African minesweeper, Fraktion said two anonymous heroes deprived the Germans of valuable supplies by blowing up the docks and themselves.

From far out in Tobruk harbor, they saw the air-landing ship on the opposite end of the docks loaded with munitions and oil. Together they pulled down plungers set off five tons of explosives under the wharves.

"There was a blinding flash, the loud roar I ever heard and everything around the harbor went up in bits, including the two boys," one soldier said.

He added that the concussion rocked the ship and must have leveled what was left of the town. After the British surrender at 7:45 a. m. Sunday, Italian infantry were ordered to march through German lines but usually there was only one to 20 because "they were too busy looting and eating food and water," the escaped men said.

A captain who led a group of 10 to safety related:

"We got the Italian sentry drunk, put him in the front seat of a truck and drove south through a minefield toward El Adem."

OLSEN LIMITS CARDS TO FOUR HITS BUT COWBOYS LOSE, 6-5

Twin Falls Rings up Nine Safeties but Makes Six Miscues

POCAHELLO, June 24 (P)—Six errors by the Twin Falls Cowboys gave the league-leading Pocahellico Cardinals a 6 to 5 victory last night in the opening game of a three-game series. Jim Olsen, Puncner twirler, allowed the Cards only four hits and one earned run. The visitors reached Manuel Vargas for nine hits.

The Cards came to bat in the last of the eighth with the score knotted at 6-6. Boby Joratz walked and Steve Andrade sacrificed him to second. He came in on Earl Peterson's single to right for the winners' only earned run and the tally that gave the home club the contest.

Russets Best Bees, 11-10, In Slugfest

SALT LAKE CITY, June 24 (P)—The Idaho Falls Russets and Salt Lake Bees, 11 to 10, last night and hand the locals their eighth straight Pioneer league defeat.

The visitors attacked out to hits of three in the first and four in the second. Jack Hatched walked and Nick Sturtser batted out another double, this one a right-center and both Hatched and Olsen home.

In the fourth, Joratz and Andrade hit for Pete Peterson and both Peterson doubled to score them both. Doug Williams smacked a double to go to third and Olsen, George Valle was safe on an error in the fifth. Second baseman Sturtser walked to fill the bases and Williams scored after Joratz' foul was caught for an out. Joe Hatched, Pete Peterson, Olsen, Valle and Olsen scored in the seventh.

The Pioneer final run came in the eighth when Ross singled, Harold Burton sacrificed and Third Base Martin walked to send Ross home.

Pilots Split Double Bill With Ogden
OGDEN, June 24 (P)—The Boise Pilots and Ogden Reds split a double-header Pioneer league contest here last night, the visitors winning the first game, 6 to 2, and Ogden taking the night-cap, 7 to 6.

In the first game the Pilots attacked to break a tie that was knotted in the second. Ogden scored twice in the seventh to win the final game.

Martin Stops Worrying Sacs on Top
SEATTLE, June 24 (P)—Pepper Martin, having shed his baby teeth from the LA team as a coach manager, has learned to quit worrying—and his Sacramento ball club has three top safeties.

It's no novelty for the Pepper-baby team to lead the Pacific Coast League. It had a 15-game margin over the field in mid-season last year, the first for the former St. Louis Cardinal star as a manager since he was a player.

Yanks Get 14 Hits To Nip Browns in Night Ball Game
ST. LOUIS, June 24 (P)—Even the slight of heart-hitting Don Coker, hitting in the first inning, was a homer, his first of the year, as the St. Louis Browns nothing hit the New York Yankees unleashed a 14-hit attack for a 6 to 5 victory.

Sport Squibs

By Bob Leeright, Pinch-Hitting for Hal Wood

The University of Idaho now is scouting around the country for opponents for three games and a place preferably in southern Idaho—to play one. Since Gonzaga university dropped football the Vandals have had a vacant spot on their schedule.

Idaho Falls scored three each in the first two innings, two more to each of the fourth and seventh, and won in the eighth. The Bees started off with four runs in the first, and three each in the third and seventh.

Homers
Nampa is pleased with the showing the Vandals made last fall in rallying over an outcasted opponent in Idaho next fall. George Green, Vandal athletic director, isn't enthusiastic about the prospect of a Vandal game because in past years the university has been unable to get a guarantee.

Pilots Split Double Bill With Ogden
Nampa is so close to Boise that the refusal to play in Nampa is a blow to the "pilots." If another southern Idaho city, say Twin Falls, was to put in the bid for a Vandal game and agreed to underwrite the expense, it is a good possibility that the deal can be swung.

SPORTING BLOOD

BY HARRY HARRISON KROLL

COPYRIGHT, 1942, NEA SERVICE, INC.

OUT ON MAIL

HUNTER DENT gaped at Sheriff Anderson. "What do you mean, Sheriff—burn out the seat of my pants? What is all this, anyway?"

Anderson, grinning, unlocked the cell door. "Come along. You'll know all in good time."

Hunter followed the officer a block along the side street to the court house. In a few moments they were with Judge Elkins.

"Young man," Judge Elkins said, "you are free. Go your way."

"But—what do you mean?" Judge Elkins? Hunter still was dazed.

"Your bondsmen wisher to re-demain anonymous. You are dismissed."

"Well, what do you know?" Hunter said wonderingly as he went out into the free, open sunshine. He stared all about, at the sky, the trees, the busy little city.

From the newspaper Hunter had the place where the girl, Sally Kiker, lived. He was remembering something about Sally, too. When he had first read the name it was doubly familiar to him.

He remembered, Sally Kiker was Sam Doolittle's girl. Sam was the son of Squire Doolittle, the constable and owner of the little store out Hunter's way.

Hunter made his way there. Once past the bad corner the street became somewhat better and Hunter knocked at the door of Sam Doolittle's place.

"Good morning. This is Hunter Dent, son of the Ballard Estates. You are Miss Kiker? May I come in a few moments?"

"Well, Mr. Dent?" she smiled. She had read about him in the paper, as he had about her. They talked of the Doolittles, father and son.

"If you'll call Mr. Doolittle and ask about me I am sure you will feel free to help me. What I wanted was for you to tell me exactly what you saw the other night; better still, go with me and let us go over the ground together."

"As soon as I can change my dress," she said. He heard her telephoning Doolittle's store. When she reappeared

she was cordial. Hunter found her one of those people you seem always to have known. They walked up the street to the corner. Crossing to the east side, they stopped at a dark doorway which led into a side rooming to the top of the unpainted frame went down here.

"If I tell you who was with me you won't give me away," she asked.

"I've already guessed it was Sam. Go ahead—I don't know, so you're safe."

"Well, the other night we were coming from the picture show uptown. This is a pretty bad part of town—you know that. We heard somebody coming along. Sam pulled me in the door here. He has a milk route and he knows what a vilest spot it is. We saw a young fellow come past. He was walking fast. He carried something under his arm. His hat was pulled down over his face, so we couldn't tell anything about him much. He had dark clothes and maybe a colored shirt. He looked like Sam, though he had brown hair in his coat pocket as if on a gun. You know how they keep their ready. I couldn't tell, myself."

"Just as we were about to come out and start off again, here came somebody running like everything. We jerked back in here. This time I saw a good-looking young man all dressed up. Had on a silk hat and tails, and I saw the pistol in his hand. He was yelling at the one ahead to halt and stick 'em up—you know how they do these things. Then it just happened so fast you couldn't make heads or tails of it. Shooting and yelling and when I looked out, like this—from right here, and she stood as she peered around the edge of the door facing, at an angle across the street; I saw two other men. They seemed to come from around the corner of the grocery shop there, or maybe they were hiding in that stairway yard."

"You know, though, there were two?" Hunter said.

"I'm sure," she said. "What did they look like?"

"Well, the street light here it

so sorry I couldn't tell, very well. Besides, they were under the awning there, and you couldn't see them."

"Would you say they were just about of a size, and kind of sleek like, and maybe a little under average height?"

"She nodded, adding, 'And dressed dark, too. They looked almost dirty.' But they were hot. They were fixing the street, there—putting down fresh tar and gravel. There was a loud bang on barrels across the street, and these kerosene flares. Well, the shooting started and I was so scared I didn't know which way was straight up. All I seem to remember was the dress-up young man running out of sight that way."

"He must have had a car down somewhere. I heard it when it went off with a big roar. And that's all I can remember. Sam and I ran. We saw the man lying in the street, where he had been shot and killed. I lost my purse in the door here, or they'd never have known I was about. Well, that's the way of it."

HUNTER took her home, and went back uptown. He took a taxi to the hospital and was allowed to visit Junior a moment. The boy grinned at him wanly. He was still too weak to talk. "He went out in the street, Red came up in her car. She was the very person Hunter wanted to see, though he just then thought of it. 'Did you go my ball, Red?' he demanded."

"If you must know, and I suppose you must, it was Hank Temple's father, at the bank."

"Red. I've been over that ground down there, and I have a theory. Junior was in that crazy stick-up, all right. He was the young man in talk who started it on a bet. Just the parties who changed the joke into a tragedy were not feeling. They saw a chance to pick up seventeen thousand bucks. Only they didn't get the money."

"No, Hunter, Red said. 'But I know who did, and who has it now!'"

JAPS HELD AFTER SECRET SESSIONS

LOS ANGELES, June 24 (AP)—Six Japanese aliens faced internment for the duration of the war because they allegedly held secret meetings to discuss Japanese language at Santa Anita assembly center.

The aliens were arrested by the federal bureau of investigation and removed from the center, the war-revenue control commission was announced. Five Japanese-Americans also were being questioned by the FBI and may be prosecuted in federal court.

The arrests were the first made in secret meetings since the start of the evacuation program on the west coast. The WCCA said, however, that it is not sure whether any had gone in an attempt to reach safety.

A plane found him, dropped food and sent word which brought another plane to rescue him. "The plane circled several times and dropped me some food. I threw the rest of the owl to crocodile and started in on the tin of pineapples. It stung my mouth at first but I drank the juice in small sips.

"About an hour and a half later another plane made a successful landing on a small beach and picked me up. "I was down to my last swallow of water. If the plane hadn't found me things would have been pretty desperate."

JURY SELECTED IN MURDER HEARING

AMERICAN FALLS, Idaho, June 24 (AP)—Gust Becker, 41, today watched the completion of a jury impaneled to try him on a charge of murder, based on the shooting of Loren McMurder, 20.

McMurder, sitting with Becker's 17-year-old bride of a month, in a tavern, was shot and killed April 18. One of three shots fired at him from a .22 caliber pistol entered his brain.

At the time of the shooting, sheriff W. J. Hoehnen reported that Becker and his wife, Neva, quarreled on the night of the shooting and that Mrs. Becker then went to the tavern. Two shots were fired at her, one of them struck her in the neck but was not fatal.

Lost Pilot Eats Grasshopper, Raw Owl, Roots in Australia

By BRYNDON C. TAYLOR
MELBOURNE, June 24 (AP)—A 24-year-old paratrooper pilot from Columbia, S. C., returned to his homeland today after being lost in the wild bush country and reported that "fresh-killed grasshoppers taste like crab meat."

Raw owl is tough but edible. Lily roots make possible salad. "I was rescued because when I landed, he had the foresight to cut off a part of his parachute and leave it near his plane, pointing the way he had gone in an attempt to reach safety."

A plane found him, dropped food and sent word which brought another plane to rescue him. "The plane circled several times and dropped me some food. I threw the rest of the owl to crocodile and started in on the tin of pineapples. It stung my mouth at first but I drank the juice in small sips.

"About an hour and a half later another plane made a successful landing on a small beach and picked me up. "I was down to my last swallow of water. If the plane hadn't found me things would have been pretty desperate."

Steadily I became weaker. I could walk only 200 or 300 yards. Then I would have to lie down and rest for half an hour.

"I was rescued because when I landed, he had the foresight to cut off a part of his parachute and leave it near his plane, pointing the way he had gone in an attempt to reach safety."
