NAZI "BIG PUSH" FLARES AT LAST

By DE WITT MACKENZIE
Wide World Staff Writer

The great and probably decisive struggle between the European Axis and the Allies will under way, after many costly battles, false hopes and setbacks, will be fought chiefly in the air, and the Russian have been warring.

The Nazi chief hasn't wanted to see the outcome of his heretofore offensive strategy, except before clashing again with great weight at the red front in the Kuruk-Kuruk action. His main strategy, however, seems to be the capture of the railway junction of Voronezh, to use as the main base for the attack to crash through the Ukrainian gateway into the Caucasus.

Water ballet girls, who appear to be falling out of Los Angeles' famed Town House pool, actually are seen from spectators' under-water gallery.

The Caucasus, the middle east and Egypt are the heart of a vast, crescent-shaped front which must be broken by the Allies before they can begin their drive for the Middle East. The capture of the Caucasus, the middle east and Egypt are the heart of a vast, crescent-shaped front which must be broken by the Allies before they can begin their drive for the Middle East.

Nothing decisive has happened on the Egyptian front since the British and the Allies have hammered their way through the battle in the far from off and it would be unwise thinking to assume that the resolute British command is beaten.

Over on the other extreme-point of the front line and reached the river Don on a broad front.

It is worthy of note that the Hitlerites thus far have lacked, or at least haven't shown, the same power which they displayed a year ago in their assault on the Soviet. In Russia they have lost at least heavily in men and materiel in the past 12 months that it is incapable of staging an all-out offensive.

That may be a correct estimate, but I think we want to see the German in action for a while before coming to a conclusion. As this column has pointed out before, both sides have taken heavy casualties that may be a fresh test, such as now is under way, can determine the relative striking power of these giant armies. It will be surprising if Hitler isn't holding considerable strength in reserve, and we may expect some bitter fighting, and many dark days for the Allies, before the day is decided.

WORK OF WPA, NEA AND CCC NECESSARY

Editor, Times-News:

There are said to be three sides to all questions; your side, my side, and the right side. What is the right side of this question of bringing WPA, NEA and CCC to a complete stop? Papers the country over and the John Thomases of congress are trying to do this. It is not clear that this expenditure that has and is holding thousands of our fellow Americans to a better life.

Our local paper has started a fight to keep the beautiful new highway to the rim-towns bridge free of garbage. This is a beautiful piece of road work but it is not yet complete. There are a sufficient and curbside to be built if WPA is continued. The city, the county, or state cannot and will not build these curbside.

Do you have a job for any man or woman who is working on WPA? If you do you can get him or her by merely asking the director of WPA here at Boise. Should a man take a job from another unless he has other work to offer?

Many persons have grazing lands and forest reserves of any state in the nation. Fire is the common enemy to the continued usefulness of this land. To control fire, roads are needed into these areas. The roads of the roads the CCC boys have built in Idaho. Ranged now can take fire fighting equipment, fuel, and tools up to extinguish fires. While building roads the boys are doing into strong men who are helping man the guns on our far-flung battle lines.

Who do you think is doing more for this country, the NYA graduates with army plans manning these ships or the editorial writers and the congressmen who criticize the NYA?

It is a little thought that smart men have so wrapped their lives in gold bills that they can not see the beauty in doing to make a world a better place to live in and in their happiness could be a good thing. No man can be happy without a job.

Who are the best yielding labor sources? We have managed to get men to man the army and navy, and war plants. They do you do not have much confidence in your strength. If you think you will not continue to put this war program over your heads.

WAGE STANDARD PLAN FORESEEN

WASHINGTON, July 6 (AP)—In shaping its policy of labor priorities, the war manpower commission appeared today to have forged a powerful ally in being about to standardize in war production plants.

Communication Chairman Paul V. McNutt advised the U. S. employment service that it may deny labor priorities to industries where wages and conditions of work are not at least as advantageous to a worker referred to a job opening therein as those prevailing for similar establishments in the industrial area.

Government sources said they expected this would force management to standardize and possibly stabilize wages in various production areas.

One of the toughest problems of the employment administration for production has been the variance of wages paid for men of similar skills.

Many instances have been reported of plants bidding up wages to attract skilled workers from other plants. This has been denounced by McNutt as "labor piracy" and to combat this practice the manpower commission announced in May it intended to make the U. S. employment service the sole hiring agency for critical production areas.

This step is met with resistance by a considerable number of workers, who object to being frozen to their jobs. So far, the method is being applied only on a limited test basis.

NAZIS CLAIM DOON RIVER CROSSINGS

BERLIN, July 6 (From German broadcast)—German troops have crossed the Don river in Russia at several places, the Nazi high command announced today.

Although the German radio attributed the announcement of the Don-crossing to the high command, there was no mention in the broadcast text of the high command commander-in-chief. At the same time, the high command reported that the number of Soviet prisoners captured in the last 24 hours of the Don was 97,000. Crossings of the Don were said to have been accompanied by bitter fierce fighting on a broad front.

Heavy battles were reported raging in other sectors of the eastern front. The high command said that 127 Russian planes had been shot down yesterday in accompanying air combats.

Only three German planes were lost in this action, it was said.

The Germans reported that the Russians have started an offensive of their own in the forest above Orel, southwest of Moscow. Many Russian tanks were declared destroyed in this still-raging battle between Kharkov and Kursk.

"Brigades already have been set up on the eastern side of the Don, and are being moved to the front lines which drove to the river after smashing through Soviet defenses between Kharkov and Kursk."

The Germans declared that a number of red army units had been encircled and possibly annihilated. They claimed Soviet tank cogner-attacks as of no consequence.

German military informants described the operations along the Don as "a quite big and broad offensive." The Nazi press yesterday proclaimed it "the beginning of the 'big push'."

Magic Valley Youths Leave for Payette Lakes Episcopal Camp

Fourth of July festivities are over for most south Idahoans, but vacation fun has just begun for many youths who left Sunday for Payette lakes to attend the annual Idaho summer conference of Episcopal church members. The camp, which officially opened today, will be conducted for 10 days, with most of the Twin Falls group to return here about July 17.

Several youths from Rupert, Jerome and Shoshone joined the Twin Falls group here yesterday, for the trip to Boise and on to the lakes. Present at camp Rev. E. Leslie Rolle, vicar of Twin Falls Ascension Episcopal church, who with Mrs. Rolle has been at camp the past week making preparations for the state conference, returning to Twin Falls yesterday morning and left again in the afternoon for the lake site. He was accompanied by Miss Joan Wilson, Miss Bobbie Jean Douglas, Miss Margaret Hyman and a number of out-of-town girls.

Others attending Mrs. Elizabeth Smith also took a carload of girls for the camp, including Miss Marjorie Gaudin, Miss Gene Ostrander, Miss Jane Douglas and Miss Barbara Seymer. The girls were met, Boise by Bishop and Mrs. Frank Rhee, who took them on to camp and Mrs. Smith returned to Twin Falls Sunday evening.

Rev. and Mrs. Rolle will remain at camp the entire time, both having a part in conference administration. Many officials of the church from Idaho, and one from California, are present to conduct the week and well-balanced recreation program. The conference program this year is stressing the youth of the church and attendance there is primarily high school and college age youths of the state.

We The Women

By RUTH MILLETT While men are getting together and having rides to and from their jobs, women in some communities are sharing the responsibility for keeping the house clean and happy. In some places it works this way. The mothers of a neighborhood who have children young enough to play with other children but not old enough to take care of themselves, have joined forces and divided up the job of looking out for the small fry.

On Monday all the kids play in the front yard, going home in time for lunch and afternoon nap. On Tuesday they are sent to Mrs. Paul's yard, bright and early. On Wednesday someone else takes them—and so on every day but Sunday, when they are home.

That leaves all the mothers but one free to get their work done, and to get the house in order and get the children out of trouble. It gives them time off to do their marketing, to go to the beauty parlor, to do war work—or whatever else is included in their busy schedules.

The mother whose job it is to take care of the young ones doesn't try to do anything else. She leaves her work until afternoon and concentrates on the small fry.

It is her job to supervise their play, to keep them from getting into other people's brains out, and to keep them out of the street.

A day-long, versatile style—this Marian Martin shirtfront, Pattern 9001. The U-shaped front yoke, well-cut collar and shirred waist. See the yoked action-back! Pattern 9001 may be ordered only in sizes 34, 36, 38, 40, 42, 44 and 46. Size 36 requires 4 yards 33 inch fabric.

Jean Nelson and Robert Crooker Wed at Emmett

GOODING, July 6—A wedding of interest to the Gooding community was that of Miss Jean Nelson, daughter of Mr. and Mrs. Ed Nelson, Gooding, and Robert E. Crooker, also of Gooding. The ceremony was performed at the Methodist church. The bride's parents were attendants.

The bride was given in marriage by her father. She wore an afternoon frock of navy blue lace, with white accessories, and a corsage of white roses. The room was filled with pink and white roses and other seasonal flowers.

Fulfilling the ceremony a wedding supper was served at a place covered table, centered with a bowl of pink and white roses. A wedding cake, topped with the traditional white-turquoise and bridegroom's cut by the pastor.

We're all Telephone Neighbors

...Uniting the Country in Spirit and Speed

For the duration, it will be necessary to share the telephone equipment now available so that vital materials like copper, zinc, rubber and others can go into war production. On party lines a "good neighbor" policy gives better service to all persons using the telephone. You can help by remembering the following:

- Hold the line only as long as reasonable. Long conversations may needlessly delay urgent messages. Telephone lines to war industries, army camps, government offices, and to your home are all part of one great interconnecting system.
- Answer as promptly as possible.
- Be sure of the number before you call.

Your cooperation helps speed up the biggest job the country has ever faced

Pennant Races Remain Same as Williams Climbs to Hit Lead

By AUSTIN BEALMAR Associated Press Writer Major league baseball teams put aside their pennant struggles today after the straight-wound of double headers and sent their stars to the inter-league classic at New York.

The three-day ball caused by this evening's all-star tilt and the Cleveland clash between the winner and the loser were not in the main part, by about the same margin.

The New York Yankees split with the Boston Red Sox Saturday and the Philadelphia Athletics yesterday to retain their four-game lead in the American league. The Red Sox yesterday split with Washington.

The Brooklyn Dodgers beat the Philadelphia Phillies twice Saturday while the St. Louis Cardinals were breaking even with the Chicago Cubs, but the Cards outdistanced the Cubs twice yesterday and the Dodgers split with the Boston Braves and returned to their lead of eight and a half games over St. Louis in the National league.

A notable week-end development, however, was the rise of Ted Williams, Boston's American league batting champion of 1941, to lead the circuit hitters for the first time this year. Williams is hitting .349, best in his league for 150 or more times at bat but somewhat behind Pete Reiser of the Dodgers, who won the National league crown last year and is slugging .361 at present.

Walt Brainerd pitched the Athletics to a 5-4 decision over the Yankees in yesterday's first game but Roger Wolff pitched the best game of the season for the Yankees, who won 5-1. The Cleveland Indians and Detroit Tigers continued their squabble over first place, which the Tribe held by winning 5-1 behind Mel Harder's three-hit pitching effort.

DECREASE NOTED IN AUTO DEATHS

BOISE, July 6 (AP)—The lowest, six-month traffic death toll in many years is Idaho's answer to the war effort, state law enforcement commissioner J. L. Engstrom said today.

A total of 44 traffic fatalities have been recorded through the first half of 1942—lowest in the past similar periods seven years back.

"The toll was 46 during the first half of 1935, but this was jumped to 72 the following year to set an all-time high for that period," Engstrom said.

The toll in other years was: 64 in 1936, 61 in 1937, 70 in 1938 and 65 in 1939.

"The decrease for the first half of this year was 22 per cent or 22 lives saved," he commented.

The toll was said to be continuing in January this year, six in February, four in March, five in April, six in May and 14 in June.

SABOTAGE TRIAL WILL OPEN SOON

WASHINGTON, July 6 (AP)—The trial before a military commission of the eight Nazi saboteurs landed on American shores from submarines on charges of conspiracy to assassinate Abraham Lincoln.

The military prosecutor and defense counsel, the accused and witnesses will be permitted to pass. Instances that concern the case will be made public during the course of the proceedings wiped out possibilities of making any advance to the press a daily digest as was done in the trial of Mary Beurt and other women on charges of espionage on charges of conspiracy to assassinate Abraham Lincoln.

The prisoners are being held in district jail under heavy military guard. They were brought here from New York during the week-end.

Pew knew of their arrival and neither the federal bureau of investigation nor the army would admit that they were here. It was understood, however, that the eight men have been isolated in one portion of the jail—away from other prisoners and from each other. Soldiers and FBI men were said to be guarding all doors and corridors of the jail.

Death Awaits Suspects
 Death before a firing squad awaits the six Germans and two naturalized Americans on conviction of any of the specific charges of espionage, sabotage and conspiracy. Officials said they were certain nothing would be made public on the progress of the trial which would precedings until the hearing and verdict have been reviewed by President Roosevelt.

The scene of the trial has not been disclosed, apparently in an effort to keep the curious from congregating. It was expected that as soon as the trial begins a heavy cordon of military police will establish lines through which only the defense counsel, the prosecutor and defense counsel, the accused and witnesses will be permitted to pass.

The military prosecutor and defense counsel, the accused and witnesses will be permitted to pass. Instances that concern the case will be made public during the course of the proceedings wiped out possibilities of making any advance to the press a daily digest as was done in the trial of Mary Beurt and other women on charges of espionage on charges of conspiracy to assassinate Abraham Lincoln.

First, Sines Lincoln
 The military commission, first to be named since the Lincoln conspiracy trial, may see further action before the trial opens this week-end. Any cases similar to that of the saboteurs would be dealt with in like manner, according to Attorney General Biddle, who will prosecute the saboteurs together with Maj. Gen. William Cramer, judge advocate general, disclosed that the civil courts have convicted 2000 Americans for espionage, sabotage and disloyal activities since Pearl Harbor.

Two persons were convicted of espionage, but Biddle said these had included "no aggravated cases of espionage of war materials and premises." Instead, he stated, they stemmed from acts of spite and malicious mischief.
