

# DEMONSTRATIONS RAGE THROUGH EUROPE DURING BASTILLE DAYS

## CZECHS MURDER GESTAPO AGENT

**By JOHN A. PARISH**  
LONDON, July 14 (AP)—The anniversary of France's Bastille day was a signal for demonstrations throughout Europe today, and in Yugoslavia, the chief of the German military mission in Belgrade, was reported shot and killed as he walked along Zagreb's main square.

Yugoslav officials here reported the shooting and said other Gestapo agents were wounded and killed in a pincer attack from the window from which they believed the shot which killed him had been fired. They reported that patriots in Zagreb, Gradiak and Podgrad, throwing hand grenades, had killed and wounded about 700 of the enemy.

A French underground army, working in the north, is reported to have received and revenge on its oppressors, were delaying the Germans on an increasingly large scale.

**Bombs Explode**  
Bombs had exploded in the office of the French Tricolor legion and Jacques Doriot's People's (fascist) party in Paris, but no damage was admitted, but there were no immediate reports of casualties.

## GERMANY STABS RUSSIAN RED LINES

(From Page One)  
All Russian casualties were placed at 100,000 killed and wounded and 3,000 missing.

The Germans lost over 10,000 officers and men killed alone, the Soviet information bureau declared. The Soviet army has reported several reported setbacks in the south.

It seemed more than ever that only a great and bold stroke could curb or halt Hitler's all-out effort. By comparison with the threatening danger in the battle of Russia, outstanding developments in other war zones, such as the repulse of another eastward lunge by the forces in Egypt and an overnight RAF raid in the customary strong fashion on the industrial objectives of Germany's Ruhr valley, verged on the inconsequential.

**Nazi Hot Initiative**  
The Russians, once successful in counter-offensive drives that re-created the vast battles to their advantage, seemed unable to seize the initiative save in isolated sectors, as illustrated by their position north of Kalinin front, northward toward the white the Germans ploughed through the Volga and the Caucasus on the south.

Russian reports said that a German attempt at "vertical envelopment" of the main position north of Kalinin front, northward toward the white the Germans ploughed through the Volga and the Caucasus on the south.

### MINERS HEAR OF NEED FOR METAL

BLACKFOOT, July 14 (AP)—Importance of the metal mining industry to the nation's war program was emphasized by speakers at a meeting of the East Central Idaho Mining association.

C. A. Dye of Salmon, association president, told the conference yesterday that metals will win the war. A J. Governor Clark assured mining men the state would cooperate in constructing needed mine to market roads.

Frank Ely, Spokane, Wash., mining man, criticized federal regulations, asserting the "whole mining situation in the United States is torn in a miserable muddle and a mess."

The metal shortages now existing are the most serious this country has ever seen," he said, adding: "The whole trouble goes back to blue sky and SEC law. They costed financing of mines. Consequently, fewer mines are in a state of development and bed worked than for years past."

He proposed that the federal government "use its profit on increasing the price of gold to put money back into development of new mines."

State Mine Inspector Arthur Campbell said a severe shortage of manpower was hampering Idaho's production. He criticized state agencies maintaining on government projects, asserting they attracted miners from the mining industry.

Campbell predicted rapid development in southeastern Idaho, explaining: "A billion tons of Toconite, which contains from 12 to 13 percent uranium, is available within 20 miles of Blackfoot. There is plenty of coal available in the Teton country, plenty of electric power and oil obtainable from refineries at Poozello and Salt Lake City, all factors necessary for magnesium plants."

### 4 KILLED, 8 HURT IN PLANT BLAST

WAYNESVILLE, N. C., July 14 (AP)—A thunderous explosion Friday at the distributing plant of the Standard Oil company of New Jersey killed at least four persons and hospitalized eight others.

The plant and nearby houses were destroyed and three other houses damaged.

The explosion was heard for miles and giant tongues of flame licked the sky.

J. Lee Crawford, chief of police in this little mountain town, said the explosion occurred at 3:30 a. m. It was about midnight some 40,000 gallons of gasoline.

Mrs. Andrew Caldwell and her two children were hurled into the air in their home adjacent to the plant, and an unidentified oil transport truck driver was missing.

### HOLD EVERYTHING REEDED SELECTED AS AIRPORT HEAD

Charles Reeder, who has been instructing fliers at the local airport, had been appointed temporary superintendent of the municipal airport today to succeed Raymond Craig, who resigned. Reeder holds an instructor's license and is qualified to teach flying here.

Lionel Dean, councilman, pointed out at last night's council session that though an AE mechanic was needed to service the planes, that they would be permitted to fly according to FAA regulations. Dean passed his vote on the airport problem.

Raymond E. Koehler, in whose department the airport jurisdiction falls, claimed that an AE mechanic was not necessary at the local field in order to maintain the sanction of the civil aeronautics authority.

Three resolutions were accepted by the council. Mr. Craig's resignation as airport superintendent was accepted. William Schell, son of Hatcher, was appointed as clearance officer and registry at the municipal airport.

According to George Ford, a city guard at the municipal swimming pool was accepted.

A report from Fire Chief L. Z. "Zack" Bartlett showed that the city fire department had answered five calls during June, none of which resulted in extensive damage. All municipal buildings were inspected and found satisfactory.

Men's inspection reports for May and June were approved by the council. The reports showed that 1,325 animals were killed in May and 1,611 in June, with several condemned in May and two in June.

**MUST DISCARD A 'NORMAL' LIFE JUST NOW**

Editor, Times-News: After me I usually duck but this time I am going to talk back. My friends and I, Mrs. Mills, seem to like baseball and so do I, so we will not quarrel about that. Her line of reasoning is that "people will go somewhere else if all money is like I travel as well as other folks that are not of my lineage register will show that some attention has been given to the recruiting of the first army concerning rubber."

If we are at the point where the rubber from a medicine bottle is of so much importance, that which is used up in unnecessary driving makes the difference between winning and losing the fight. Who can tell how many of those little tires are required in equipping all the two wheeled trailers in the country used only to haul fishing boats? HUR and his men are not fishing just now nor playing baseball.

If Mrs. Mills insists on living that "normal life of recreation" which she claims to be "entitled" to, she is living straight toward the kind of life that German women are now living under Nazi rule. If she has read in the Saturday Evening Post of July 11 "The Girls Did Well by Hitler," she will know what that means.

It takes something more than a alarm-clock or radio report of distant cannon to awaken some people.

The men will be subject to call immediately, one of the army air course primary flight training schools, although some of them may be deferred to finish their college education.

## Why You Should Take Your In-laws For a Ride

Don't get me wrong! What I mean is that it's now the patriotic thing to fill your car full of in-laws, neighbors, or fellow workers before you drive anywhere.

That may seem like strange advice coming from a man who sells gasoline—but we Standard fellows expect to be in the business for a long time. In the long run, whatever is best for you motorists, is best for us.

That's why we're strong for everything that saves your tires, and why we hope you will "double up and share the wear" whenever you can. We may sell you less of that Standard Gasoline, but that's a small sacrifice if it makes Victory come a day sooner.

Twin Falls Gets Into Bolster's Newest Book

By JEAN BINKLACKER "Twin Falls is much too good a town to let the old time atmosphere with its quaint streets and its old buildings start out in pride but a book which they fell off to one story and in the process of history. "Young men were very scarce in Twin Falls. Only the odds straggled into it. They had to go through school."

One of the women who is written up in the book along with many of her relatives is Milvone in her home of the author's time. The brilliant characterization; its "touch of the soil."

"I don't know how she got all those facts into the book, not having time for so many years. But most of the things happened, although she's changed the continuity of the material to make it more of a novel, when in reality they stretched over a long period of time."

Everyone who has wanted to live on a farm and who has had no opportunity; everyone who has lived on a farm, and hated the daily living, should read "Bolster's Newest Book."

## Williams Now Tops Batters By 6 Points

CHICAGO, July 14 (AP)—I took Ted Williams, the 1941 American league batting champion, a long time to get over the lead this year. Once there, however, he seems to have secured his opposition into backing away and giving him room to run.

The Red Sox batter had only a scant six-point lead at the end of the week. But through Sunday's games, although Ted dropped down three points to 344, Gordon fell nine to 338 and gave the champion six-point working margin.

As Gordon fell, so did Bobby Doerr, Boston's second baseman who was crowding the lead with a .340 mark last week. Doerr dropped two points to hold the No. 3 spot at 336.

Williams held the leadership in the matter of most home runs, with 18, and remained in the van of the run scorers, with 73 to his credit.

## Gordon Makes Four of Yanks' Six Safeties

NEW YORK, July 14 (AP)—The Yankees captured a strange sort of a game from the Tigers today to increase their lead over the idle Red Sox to five full games.

The world champions had only six hits and four of these were produced by Joe (Flash) Gordon, who had a perfect day at the plate, made two doubles and drove in two runs. New York's other markers came on the first home run of the season for Red Rolfe.

On the other hand, made only four safeties off Vernon (Duke) Gonzalez and not one of the Tigers' runs crossed over a base.

In the first inning Gomez hit a batter, made a wild pitch and walked three men, forcing in a Detroit run. Then he settled down and allowed but one hit until the seventh when the Tigers loaded the bases on three consecutive singles by Birde Tobeles, Ned Harris and Billy Hiteles.

This proved to be a violent uprising, but all the Tigers could do during the run home on a foreword and another on the long.

Gomez went the route, fanning seven and walking five, to make his record for the year four victories and the same number of defeats.

Paul (Dizzy) Trout started on the mound for Detroit and was tagged for a run in the second when Joe D'Amadio singled, reached second on a sacrifice bunt by Cal Grech and scored on a double by Gordon.

Trout was removed for a pinch-hitter in the seventh and Gordon finished.

## Wranglers Tip Ogden Club In Finale, 4-3

Back on the home lot after just concluding a triumph in the Ogden series, Twin Falls Cowboys tangle with the Idaho Falls Ruffels here tonight in the first battle of a six-day home stand.

The game is slated to commence at 8:30 p. m., and Manager Lou Corbett of the victors has picked Ferrar as his starting pitcher, while Tony Jeli or one of the new Cowboy moundsmen may get the Twin Falls call from Manager Bob Rolfe.

Last night the Wranglers clinched the Ogden series in the Utah city by winning the finale, 4-3, after the Pioneers had won the first game, 4-0 and lost the second, 4-3.

The victory for Twin Falls pit the home club only three games out of the first four in a Detroit run, which in turn left a grand total of 74 cents to apply on the \$100 per cent return on government bonds.

Ernie Stene, youthful shortstop who returned to play a few weeks ago after an appendicitis, was injured in a mix-up at second base last night's encounter and it was not known if he would be able to hold his side at John Attkirk park in Ogden.

Just as most of their games have been high scoring, last night's battle was another nip-and-tuck affair, with the Twin Falls boys rallying for part of runs in the final stanza.

In the sixth, Manager Tony Jeli led off with a fly ticket to first base. Earl Harriman, new line second sacker, got a bopper double back of first base to put two men on and home down. Nick Sinton, center fielder, reached second on a sacrifice bunt by Cal Grech and scored on a double by Gordon.

Trout was removed for a pinch-hitter in the seventh and Gordon finished.

### CUTTING DOWN EXPENSES OF COWBOY TEAM

Fred Stone, new business manager of the Twin Falls Cowboys, takes his first active step in handling the front office of the club for a new stand tonight and will say right now that there are any expense curbers to be cut, Fred is the man to do it.

There will be no waste labor or waste money seeping through the cracks of laborers and helpers with Mr. Stone on the job, and there won't be employees around for just to decorate the stands.

For example: "The first investigation by Mr. Stone disclosed that the left field brothers were drawing an average of \$100 a month, which was high for the season. That brought in a total of \$600 of which 10 per cent went to the government for taxes, making a gross of \$540.

Of this amount 40 per cent went to the sitting club—about \$216, the other \$126. That left the Twin Falls club \$324 of which \$250 went to pay the ticket, and \$74 went to the club.

Such a procedure is not what you would expect to see in a business and would not be commensated by any merchant in town. So Mr. Stone has decided to cut the ticket, and fans who have been sitting in that section may buy their tickets at the first of the season—where they can get more comfortable seats for the same price.

This item is just a little one, but it is the less of tickets that grow into dollars and the new season may plan in case that would have saved the club hundreds of dollars over the year if it had been effected at the beginning.

Another innovation that Stone will be introducing will be the "hot-hole bang" night—now used in most of the baseball parks in this country, but ignored here so far this season.

## Few Changes In NBA's Fight Rankings

NEW YORK, July 14 (AP)—The National Boxing association issued its quarterly ranking of fighters today and the recent depression in prize business left the list with few changes in line.

All the champions went through the three-month period without an upset, and the groups of logical contenders in the eight weight divisions saw only slight shifts.

The rankings: Heavyweights—Champion, Joe Louis, Detroit and U. S. Army; contender, Billy Conn, Pittsburgh and U. S. Army; contenders, Max Baer, New York; Lee Savold, Des Moines. Light-heavyweights—Champion, Gus Leuzcher, Chicago, N. J., and U. S. coast guard; contender, Jimmy Bivins, Cleveland; Billy Goetz, New York; contenders, Ezzard Charles, Cincinnati.

Welterweights—Champion, Fred (Red) Cochrane, Elizabeth, N. J., and U. S. navy; contenders, Rocky Robinson, New York; Max Baer, Schenectady, N. Y., and U. S. coast guard; contender, Tony Gentry, Los Angeles and U. S. army; Louis (Kid) Cocea, New Haven, Conn. Lightweights—Champion, Jackie Wilson, Philadelphia and U. S. army; contender, Washington, Pa.; contenders, Alie Stone, Newark, N. J.; Bob Montgomery, Philadelphia; Thippy Larkin, Newark. Featherweights—Champion, Jackie Wilson, Philadelphia and U. S. army; contender, Little Dado, Philadelphia; contender, Jackie Patterson, England.

## Valo's Single in 11th Gives A's Victory Over Sox

PHILADELPHIA, July 14 (AP)—Elmer Valo's single, scoring Phil Marshell from second base in the 11th inning, gave the Athletics a 4 to 3 overtime victory over the Chicago White Sox at Shibe park last night.

Chicago's ace pitcher, Phil Marshell, pitched a 10-inning shutout, but the Athletics' lineup was too strong for him.

## Boise Wins From Russets To Take Undisputed Lead

IDAHO FALLS, July 14 (AP)—Boise's Philip Landt multipled production of the Pioneer league's best pitcher last night, drubbing Idaho Falls 10 to 0.

The big match had two hit batters, Trailing 3-2, they scored three runs in the sixth and four in the seventh, but lost to Idaho Falls, 10 to 0.

## Pocattello Has 4 of Pioneer Top Pitchers

SALT LAKE CITY, July 14 (AP)—In the premier of baseball in the night, the pitching plus hitting explains why the Pocattello Cardinals were able to romp off with the Pioneer league first-half pennant contest.

Not only have the Red Birds been leading the league in team batting average, but they also have four of the league's six top pitchers on the basis of earned run average.

Discouraging the 1,000 average of Lou Gaudin, Idaho Falls, because he has never pitched a complete game, is the only reason he is on the mound in the league's best is Eddie Green, Cardinals, with nine wins and one loss for 300.

John Guldborg, Salt Lake, holds the next spot with four and one loss, and three for 750; and Joe Davis, six and two for 750.

## Rupert Jockey's Contract Is Sold

WARRENSVILLE, Ohio, July 14 (AP)—Leo Werth transferred the contract he held on apprentice jockey Frank Zeir to E. E. Ferguson, a public stable at Thistle Down.

Zeir is 19 years old and weighs 103 pounds. He started his riding career at New Orleans last winter, but it was at Thistle Down that he won his first race on Lucky Pamp. Since then he has booted three 14 winners, and is now the leading apprentice rider at the current meeting. Zeir hits from Rupert, Idaho, the same stable that gave us such famous riders as Ivan Parker, Burley, Mack and Willie Garner, and the great Earl Sande. At the close of the meeting Jockey Zeir will leave for Detroit where he will ride until the opening of the River Downs meeting. Agent Ralph Prince will have his book.

SERIAL STORY MURDER IN FERRY COMMAND

BY A. W. O'BRIEN

COPYRIGHT, 1942, NEA SERVICE, INC.

There was only one thing to do. Act indifferently in the hope that it would invite the killer to try again.

However, nothing unusual happened during the long day on the Overland Express snuffed through the bleak country. It was running four hours late as a result of the long fight against the blizzard.

Port-aux-Basques, a lonesome little fishing village now ten times busier than in pre-war days, was reached shortly before midnight.

The train pulled in directly onto the wharf beetle which a fleet of fishing boats, their sailless masts towering forbly above the tops of the cars, rested at anchor.

The railway company had reserved a cabin for Dawson and he went to it after hurriedly reporting to the purser. It had four bunks, two at right angles and two parallel to the door.

It took less than half an hour and Dawson found grim humor in the fact that one of those passengers was apparently a murderer.

About 1:30, Dawson wandered into the corner of the lounge where the purser was completing his endless forms for the company's records and the Canadian immigration authorities.

"ardon me, Mr. Purser," said Dawson, "I was expecting to meet up with some old fellows tonight—has anybody asked for the whereabouts of my cabin?" He gave his name.

The purser shook his head.

"No sir—nobody has asked for you, but it might not have been necessary—your pal or pal could have seen your name on this big sheet and notified the cabin number beside it."

Dawson nodded. "Oh-huh, that's probably what happened." Mr. X would hardly have done anything so risky as to ask for his victim's cabin number.

While the purser was alert, the investigator lit his pipe, walking slowly and deliberately down the passage toward his cabin.

At his cabin door, Dawson paused, opened it just enough to switch on the cabin light and pushed the door, meanwhile bending down to pick up his litter which he had purposefully dropped.

With one last movement of his head, his eyes swept through the interior of the cabin and up and down the passage-way... nobody answered.

Inside the cabin, Dawson shoved a small suit case beneath the blankets of the lower bunk, parallel to the door. It wasn't enough to form the shape of a sleeping man and he picked up the blanket rolled at the bottom of the other lower berth.

It was a human hand—hooked off at the wrist. But what left his stomach feeling troubled was the horrible realization that he recognized that hand beyond any shadow of doubt.

The one badly twisted "baseball" knuckle and the partially twisted one told Dawson that hand had belonged to the hanged Lemmy Statter.

# BUY BONDS, SAYS MOOSE EXECUTIVE

The Twin Falls Moose lodge No. 612 last night was urged to purchase as many bonds as possible by A. Kallen, deputy supreme secretary of the Loyal Order of Moose, who was here for a meeting. He speaks at 8:30 tonight.

Mr. Kallen, Mooseheart, Ill., pointed out that the supreme Moose lodge had bought \$20,000 worth of bonds already and as soon as government restrictions are removed on the amount individual groups may purchase, will immediately buy another \$20,000 in war bonds. He added that 100 per cent of the employees at Mooseheart had contributed 10 per cent of their wages for the purchase of bonds.

"There are 17,000 Moose lodges throughout the nation," Mr. Kallen said, "and very few of them have not been buying bonds."

The local Moose lodge has purchased \$200 worth of war bonds, according to Harry H. Wallace, secretary, Idaho Moose, who is participating with the war effort by controlling their state convention and urging the lodges to purchase war bonds with the money that ordinarily would have been spent for sending delegates to the state party, Wallace, president of the northern Idaho Moose association, said.

Kallen pointed out that at the end of April there were 20,000 Moose lodge members in the armed service of the country and that several had lost their lives on Bataan.

Miss Pope, governor of the local lodge, presided at the meeting held at the Wallace home.

# WAR GAMES TO START IN HAWAII

HEADQUARTERS, UNITED STATES ARMY, Hawaiian Department, July 14 (AP)—Lieut. Gen. Deane C. Emmons, commander in chief of the Hawaiian land forces, announced today that full scale operations, the largest in the history of these islands, would start Friday.

At the 10:00 hour Friday morning, the defense force built up since the Japanese attack on Pearl Harbor will start maneuvers in Oahu and other islands in a dress rehearsal for a possible last day as that island might have come under the attack of the air force won the battle of Midway Island.

Lieut. Gen. Emmons will address all officers and men of the Hawaiian area, in their camps and defense stations, by wireless.

He will discuss fully the maneuvers and the defense plan for all islands under his command.

Brig. Gen. Leonard R. Boyd, commanding general, would be speaking to the troops through the radio to contact his troops throughout the islands, said the general, in his address.

General Boyd will discuss the general plan of the defense of the islands.

"From time to time," Boyd said, "Emmons plans to use them for broadcast channels to issue general instructions and orders for the men of this department."

# Council Spars With Problem Of Dump Area; Defers Action

The Twin Falls city council last night wrestled with the "dump-ground situation" for nearly an hour and finally wound up behind the same bus from which it started.

The council decided to "sleep on the matter another week" until all members are present. In the meantime City Attorney George M. Paulson and Councilman Truman T. Prescott will go to Jerome and discuss the dumping of Twin Falls rubbish on the north side of the river with Jerome county commissioners and Jerome civic leaders.

A New Idea

I. G. Prescott, holder of the city contract for garbage disposal, made another suggestion designed to clear up the situation. He proposed that he donate the city 10 acres of land on the north side of the river in the Jerome area as a dump-ground. This would give municipal ownership.

"That won't gain anything," Paulson protested. "If there will be any soil arising out of the case, there will be no soil for the city and the city and one man's rubbish."

Prescott expressed his willingness to get the whole problem settled as soon as possible. He said:

"I'm all up in the air now, and I'm all the more sure I don't know what to do about the city garbage and rubbish."

Explains Reason

Greenhalgh said for all garbage dump was moved to the Jerome side of the river in order to aid Prescott in increasing the value of the dump from the business, in that the former city dump would be closed and all city garbage and rubbish would go to the same place.

# Range Fire Burns On 100,000 Acres

POCATELLO, July 14 (AP) — If wind conditions remain favorable a huge range fire which already has burned over 100,000 acres of grazing land, will be extinguished within a day or two, district grazer Leon R. Madecau said.

The fire on the north sector of the Minner grazing district was controlled by the combined efforts of farmers, volunteer workers and grazing service employees, Madecau said.

Another huge fire, which burned over about 200,000 acres of land west of Aberdeen, has been put out.

Grazing division officials at the Buhl tract said that a new fire broke out on prairie land 10 miles southwest of American Falls. Nearly 20,000 acres of land were burned over. It was said, and farmers joined the fire lines in an effort to keep the fire away from valuable stands of grain.
