LATE BULLETIN

LONDON, July 20 (AP)—United States Navy bombers made surprise daylight raid on the main sea supply base of Tobruk on Sunday, starting three fires in the dock area.

U.S. House Votes War Time Taxing Bill of 6 Billion

WASHINGTON, July 20 (AP)—A \$6,143,900,000 wartime revenue bill was passed by the House today in a vote of 320 to 160 to floor a bill which would raise a 90 per cent excess profits tax and a combined normal and surtax of 45 per cent on corporations.

The measure was passed on the negative votes were cast by Representatives Oliver, R., and Moore, D., of Missouri. The ways and means committee sought to have the excess profits tax raised from 75 to 90 per cent and the normal and surtax raised to 40 per cent.

Vote Voted
On the excess profits tax increase, the committee was sustained on a vote of 280 to 160 to retain the provision of 45 per cent.

But on the surtax revising the house decided, by a teller vote of 220 to 160 to retain the provision of 45 per cent. Chairman Douglas, D., N. C., of the committee, urged the revised corporate rates in the interest of the small corporations which were being benefited from the war program. But Rep. McLean, R., N. J., said the changes would "help those corporations that are being hurt by this war effort."

The legislation would raise rates to 90 per cent on taxes from corporations and almost \$2,000,000,000 from individuals, primarily through newly graduated dividends, interest rates and reduced personal exemptions.

Made Change
Shortly before the \$6,143,900,000 revenue bill was passed the house for final passage, Chairman Douglas, D., N. C., of the committee announced that he had changed the previous schedule of 87 1/2 per cent on excess profits and 45 per cent on normal and surtax for corporations.

Rep. Knutson, R., Minn., a committee member, said the change would obtain the 80 and 40 per cent on excess profits and 45 per cent on normal and surtax for corporations. The new rates were satisfactory to him.

The committee took no action on the question of post-war credits for corporations based on their excess profits. The committee also reported the new rates were satisfactory to him.

Douglas expressed the opinion that the excess profits tax bill would make little difference in the total revenue, but that it would increase revenue because they will be more willing to pay the tax during the day and speedily transmission to the senate, where Chairman Douglas said the committee has arranged to open hearings Thursday.

The measure would take \$10 of each \$100 of taxable income of individuals in the lowest brackets and \$40 of each \$100 of the taxable income of corporations, plus 90 per cent of their so-called "excess profits."

HUSBAND BLAMED FOR WIFE'S DEATH
BLACKFOOT, Ida., July 20 (AP)—A first degree murder charge was filed today against a man named Marcus E. Cox for the slaying of his wife after an argument over a fishing boat.

William Furner, Blingham county prosecutor, announced he had charged Cox with the slaying of the Shelley farmer who was arrested in connection with the shotgun slaying of his wife, Mrs. Nettie Melvina Russell Cox.

Deputy Sheriff W. J. Jones, said that Cox told him shooting followed an argument over a fishing boat. The couple had been fishing about 40 miles north of here, the deputy related.

Start Argument
Cox told me they had been arguing about moving from one fishing spot to another further down stream. He said he saw the fishing boat when they were but his wife objected, the deputy related.

The body of Mrs. Cox was found in the Danakin irrigation canal north of here. The body of G. G. Bowers, said, was found about 18 miles south of here. The body of a woman had several other arguments recently. He said Cox had been fishing about 40 miles north of here, the deputy related.

Evidence Taken
The work was done by a kind and a light pickup truck assembled from the parts of two boats.

Witness
A coroner's report said the shot was fired from the boat on the right ear. Sandberg believed the body had been dumped in the Snake river. The body was found in the canal. Lack of water in the lungs dispelled an earlier theory she had been thrown overboard.

Purcher said Cox made a statement to officers, which he signed, but which could not be classified as a confession. The statement included information that Cox had been fishing with the boat.

Japs Did This in Dutch Harbor Attack

In one of the first pictures showing damage wrought by Japanese attackers at our (Dutch Harbor) outpost, this photo shows the station ship U. S. Northwest, still tied to pier, in smoking ruins after Jap bombs put her out of action. Official U. S. navy photo.

U. S. Planes Attack Jap Bases in China

United States bombing planes blasted a Japanese airfield at Canton, while Chinese armies were reported today to have retaken two cities from the Japanese invaders.

Bombing reports said the Americans raided Canton Saturday, planting bombs among 50 to 60 planes on the ground and leaving six great fires blazing.

The information was released by Lt. Gen. Joseph W. Stilwell's headquarters.

In a second attack the American planes yesterday bombed Linchow, Japanese base in Kwang province, All the planes returned safely from both raids.

The "conquest" of Japanese bases was reported by Stilwell's headquarters. Canton last was attacked by U. S. bombers on July 4 when the White Cloud mountains and broken the city was the target. Today's official announcement that an airfield was attacked, without identifying it, indicated a second field of the enemy had been broken.

Chinese forces, inflicting major setbacks to the Japanese drive aimed at the heart of China, have captured the sea ports of Yenchow and Jui in Chekiang province and broken the invaders' hold on a 15-mile strip of the Chekiang-Kiang railway by the Yangtze river.

The official announcement said the enemy lost heavily in casualties and that large stores of booty fell into Chinese hands.

Both Yenchow and Jui, 13 miles to the south of Hangchow, were reported captured. Yenchow, less than six days after the capture of Yenchow, was a thrust which extended across the length of Chekiang from Hangchow in the north.

After losing the two towns and with their domination of the Yangtze river, the Japanese attempted an attempt in Kwangtung, in southern China.

In still another victory, the Chinese said their troops captured Yenchow in the southern part of the day battle and that an attack was in progress on the nearby Japanese base at Yenchow.

Both Yenchow and Jui, 13 miles to the south of Hangchow, were reported captured. Yenchow, less than six days after the capture of Yenchow, was a thrust which extended across the length of Chekiang from Hangchow in the north.

Rostov Threatens Axis Drive to Southern Areas

Rostov, whose armed citizenry helped the Russian army drive out the Germans eight months ago, was menaced anew today as Hitler's 1942 offensive, repulsed at Voronezh and checked momentarily toward the east, veered south in a tremendous onslaught which forced the Russians back toward the gateway to the Caucasus.

Driving through Voroshilovgrad, 100 miles north of Rostov, and Millerovo, on the Rostov-Moscow rail line, the German advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

Exceeding even Berlin's accounts of the German gains, the Paris radio said this advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

He was drawing upon the strong armor guarding the northern front. The German advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

Although the Russians had wrested back the initiative at Voronezh, the German advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

The attack, which was made near D. Daba close behind the front, was described as the heaviest assault carried out by the RAP against an enemy desert airfield. A large number of aircraft were destroyed.

Four of the planes shot down as they were attempting to land were destroyed by German fighters. The German advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

Heavy bombers of the United States army air forces made a daylight attack on Tobruk yesterday, the U. S. middle east news service reported.

Dust storms which hampered operations in the air also apparently kept land activity to a minimum, for the German advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

The German high command, still clinging to the hope of a breakthrough to the capture of Voronezh, the German advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

Early Jap Attack On Reds Predicted

DEVONPORT, England, July 20 (AP)—The former war secretary, Leslie Hore-Lighthorn, said today that Russia might face an attack from Japan "at any moment."

Albania Guerrillas Damage Oilfields

LONDON, July 20 (AP)—Albanian guerrillas have engaged Italian troops in a series of attacks on oil fields at least three towns and caused considerable damage in the oil fields where they started disastrous fires, radio Moscow said today.

CHURCHILL MAY OFFER WAR POST TO BEALIEBROOK

LONDON, July 20 (AP)—Prime Minister Churchill has offered Lord Beaverbrook a war cabinet post which may be linked with the problem of raising a new front this year, will inform political quarters reported today.

The report from London, confirmed officially, lent emphasis to the current British-American talks here which are expected to continue whether the allied armies will attempt to invade the continent before winter.

Russia is believed to be exerting considerable pressure on Britain to offer from Churchill but that he will have to wait until the end of the summer before the possible dangers if German success comes.

Further, some allied quarters fear that Japan will soon attack Siberia. Information was reported that Beaverbrook said that that Beaverbrook was considering an offer from Churchill but that he will have to wait until the end of the summer before the possible dangers if German success comes.

A complication now, it was said, was that Deputy Minister Clement Attlee, who is expected to be in Berlin, London leaders in the war cabinet, opposed Beaverbrook's inclusion in the war cabinet.

There were some suggestions, however, that Churchill, soon might give up his post of defense minister, and that the war cabinet would be re-examined in the light of the Japanese attack.

Speakers at the afternoon session were C. O. Youngstrom, Moscow, and Francis Gallatin, Boise, clothing manufacturer and publisher, Idaho Free Press at Nampa, and James Miller, Treadwell, General executive, Presbyterian board of Christian education.

Men and women were throughout the world. They are expected to attend in large numbers.

5-Year Sentence For Robert Noble

LOS ANGELES, July 20 (AP)—Robert Noble, 32, was sentenced to five years in federal prison.

George Alley, Bancroft, Harold Woodall, and Homer W. Woodall, Soda Springs.

Huge Flying Boats Proposed In Place of Sea Freighters

PORTLAND, Ore., July 20 (AP)—Henry J. Kaiser, president of the shipbuilding industry, today advocated immediate conversion of nine major shipyards into aircraft plants for the construction of a giant fleet of 70-ton flying boats that would make the world "our front yard."

Kaiser, speaking at the launching of the Oregon Shipbuilding corporation's 55th ship, said the

BRITISH REPORT TAKING OF 4,000 AXIS PRISONERS

CAIRO, July 20 (AP)—Capture of 4,000 axis prisoners in the hard fighting of the past week was announced by British headquarters today as the army of the Nile tightened its grip on newly won territory west of El Alamein and the RAF swept through swarming dust storms.

At least six tanks were knocked out by British fighters. Bombers on the southern sector of the 40-mile front and many enemy aircraft were smashed by a heavy bombing on a German army communication line of the battle area, a communiqué said.

Five enemy aircraft, attempting to penetrate the raid, were reported shot down by British fighters escorting a strong force of light bombers which carried out the assault.

The attack, which was made near D. Daba close behind the front, was described as the heaviest assault carried out by the RAP against an enemy desert airfield.

Four of the planes shot down as they were attempting to land were destroyed by German fighters. The German advance forces reached Shikhty, coal mining and railroad town 40 miles north of Rostov. Russian dispatches said Marshal Gromov's troops in order to withdraw to a new defense standstill where north of Rostov at the confluence of the Don and Donets rivers.

GUARD KILLS TWO SALT LAKE MEN

SALT LAKE CITY, July 20 (AP)—Two men who drove to Salt Lake City to a restricted parking area are dead because they accentedly attacked a guard.

The dead: Glenn Louis Simpson, 37, and William Anderson, 33, both of Salt Lake City. They were shot early yesterday by William R. Reid, 23, a guard for the Gardner Water company. The shooting occurred in a military area that includes the water system and copper smelters in the Garfield area, 20 miles southwest of Utah's capital.

Deputy Sheriff William Heywood said Reid reported he fired after being beaten and his life threatened. Patrolling him. Reid was investigating offenders he was patrolling the water conduit line in a light truck when two women, later identified as Mrs. Afion Hargrey Ward, 18, and Miss Lucille Hargrey, 18, both of Salt Lake City, hailed him and reported the two men were molesting them. He told the young women he could not help them and that he would be on duty. When they went up to the car containing the two men and told them they were in a restricted area and asked them to move on, Reid was quoted.

Attacked Him. The men then attacked him, Reid said, knocking him to the ground and breaking his glasses. He said he broke away and attempted to get in his truck but they dragged him out. "We will kill you just before we through with you," Reid declared, one of the men shouted, "Go I pulled my gun and fired." Three of the bullets struck Simpson and one hit Anderson in the stomach. The guard said Anderson stepped into the highway and was struck by an oncoming automobile which knocked him down and ran over him.

Reid Released. Sheriff Alma White released Reid and announced the investigation would be continued. White said the young women reported they were introduced to Simpson and Anderson at an inn and accepted their offer to take them home. Instead, they declared, the men drove to the military area and attempted to molest them. They left the car and were walking toward Salt Lake City when they saw Reid's truck, White was informed. Both men are survived by widows and children.

Gooding Planning Red Cross Survey

GOODING, July 20 (AP)—The chairman of Gooding county Red Cross chapter, received a telegram asking immediate information as to the number of beds, cots, first aid mobile kitchens, feeding centers, blankets and capacity of sleeping shelters, blankets, stoves, and garments for men, women and children on hand or immediately available. The information within the next few days will be forwarded to the commanding general of the western defense command. Painter urged that every family head in the county make known to the county defense committee, located in the sheriff's office, the exact number of needed items available in their homes.

Rites Honor Former Sheriff of Elmore

MOUNTAIN HOME, June 20 (AP)—Funeral services were held yesterday for George C. Hendricks, former Elmore county sheriff, who died in a hospital after a long illness. He came to Mountain Home 40 years ago and was a miner for about 30 years.

A Real Hero

It's real heroes like Marine Edwin H. Henderson, above, of Garfield, who help win battles like Midway. Major Henderson was killed in action, his life being sacrificed in the line of duty after he'd been hit by enemy fire.

Chained Boy Not Expected to Live; Parents Are Held

PARSONS, W. Va., July 20 (AP)—Doctors and nurses sought today to save the choking life of a small boy who "acted like a little scared animal" after he was found chained in the attic of his mountain home. A physician reported the boy and a half-year-old child were in critical condition at a hospital, suffering from malnutrition and body sores, and expressed belief the toll could not survive. However, he said the baby was taking a little nourishment and appeared "a little brighter." State Police Corporal G. W. Busch said there was no indication how long the child, son of Mr. and Mrs. John Lougray of Millersville, had been punished, or for what reason he was chained. The boy, weighing only 15 pounds, was found with a large rope about his neck and shoulders. Busch said the parents had been arrested on a warrant charging cruelty.

BOY INJURED BY MOWER

HAYLEY, July 20 (AP)—Dale, six-year-old son of Mr. and Mrs. Victor Cunningham, suffered severe injuries to his legs when he was run over by a mowing machine. An uncle driving the machine, failed to see the child in time to avoid the accident.

Enjoy These Thrifty Features: HOTPOINT HI-SPEED CALOR—Safe, because it's flameless. Calor's Measured Heat gives you the "waterless" method of cooking. Reserves vitamins and minerals without special aluminum utensils.

MANY OTHER FEATURES INCLUDE: Flavorless, Salt-Overs with Balance Heat; Automatic Electric Timer-Cook; Third-Cooker; All-Purpose Electric Dinner Plates; Dishwasher-Friendly Oven Light; Hi-Speed Broiler and others.

Persistent Youth Wins Chance To Avenge His Sailor Brother

Buhl Youth Who Escaped Japs at Bataan Is Home

BHUL, July 20—Russell Smalley, son of Mr. and Mrs. Frank Smalley, of Buhl but now of Coocade, who is a petty officer on the U. S. S. March, escaped Monday evening at the home of Mr. and Mrs. Joseph Kuera while en route from Coocade to New York. He enjoyed a turlough at home while his ship was undergoing repair. Smalley, a graduate of the Buhl high school, has been with the navy four and one-half years. He saw service on the Bataan peninsula, and was on the "shoot ship" which escaped from the Philippines to an allied port. Smalley's sister, Carol, has enlisted in nurses' corps and will go to Boise in August to begin her training at St. Albans hospital. She will visit Mr. and Mrs. Kuera and Lydia prior to enrolling as a nurse.

FIREMEN PLAN SALVAGE KORK

WENDLE, July 20—Wendell fire department Wednesday night held a general discussion on the coming salvage drive in Wendell which the firemen will sponsor.

UNITED STATES WAR PRODUCTION BOARD

How can you help? The answer is on this page. I hope every American citizen will read it and act on it.

W. H. Nelson
U. S. A. NELSON, CHAIRMAN, WAR PRODUCTION BOARD

A crisis exists in our war production program which can be solved only by the patriotic cooperation of the American people. We are faced with a serious shortage of steel scrap, rubber and other vital materials. This shortage must be filled. By "scrap" we mean the ordinary Junk which today is lying in the barnyards and in the gullies of farms; in the basements, attics and garages of homes and stores throughout the country.

The steel industry operates on the basis of half-and-half—about 50 per cent metal from pig iron and 50 per cent remelted scrap metal. Therefore, about 50 per cent of every tank, every ship, every submarine and every gun is made of scrap iron and steel.

The steel industry has been rapidly stepping up its production—from 67,000,000 tons in 1940 to a record-breaking 83,000,000 tons in 1941. Production in 1942 is already ahead of 1941, but we need to get production up to the industry's full capacity of 90,000,000 tons—a total equal to the output of the rest of the world combined.

This volume of production cannot be attained or increased unless an additional 6,000,000 tons of scrap iron and steel is obtained promptly.

We are faced with the fact that some steel furnaces have been allowed to cool down and that many of them are operating from day to day and hand to mouth, due only to the lack of scrap.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber.

We are collecting every possible pound of scrap from the factories, arsenals and shipyards; we are speeding up the flow of material from automobile graveyards; we are tearing up abandoned railroad tracks and bridges; but unless we dig out an additional 6,000,000 tons of steel and great quantities of rubber, copper, brass, zinc and tin, our boys may not get all the fighting weapons they need in time.

Fortunately, the material exists in America's great "mine above the ground."

HOLD EVERYTHING

Can I see you alone for a minute?

SUGAR DEADLINE SET

GOODING, July 20—Thursday has been set as the deadline by the rationing office for the registration for eating sugar. For the registration Mrs. Gladys Korb, secretary of the rationing board, has been assisted by volunteer workers.

When Hayden symphonies that were introduced in New York, and vegetables greeted the musicians.

Here's List Clarifying All Those Draft Classifications

Do you know all the draft classifications? You're unusual if you do. There are probably only three persons in all the county area No. 1 who do. Capt. H. Weaver, the clerk of selective service No. 1, and his two assistants, Mrs. Harriet Jones and Mrs. Mary Sillmon. There are 18 different classifications. And in three there never has been found a man among the thousands who have registered who fitted in them. They are class 1-B-O, available for non-combatant limited military service when found acceptable to the land or naval forces (conscientious objector); class 4-E-L, available for limited service in civilian work of national importance (conscientious objector); class 4-E-H, man formerly placed in class 4-E or class 4-E-L, but since deferred by reason of age. There are no registrants here in class 1-A-O, available for non-combatant general military service when found acceptable to the land or naval forces (conscientious objector). Capt. Weaver said, although he has had several in the past. And there are only two in 4-B officials deferred by law. Here is the complete list of classifications as compiled by Mrs. Jones: Class 1-A—Available for general military service when found acceptable to the land or naval forces. Class 1-A-O—Available for non-combatant general military service when found acceptable to the land or naval forces. Class 1-B—Available for limited military service when found acceptable to the land or naval forces. Class 1-B-O—Available for non-combatant limited military service when found acceptable to the land or naval forces (conscientious objector). Class 1-C—Member of land or naval forces of United States. Class 2—Man deferred by reason of age. Class 2-A—Man necessary in his civilian activity. Class 2-B—Man necessary to the war production program. Class 2-C—Man deferred by reason of dependency. Class 3—Man deferred both by reason of dependency and activity. Class 4—Man who has completed service. (In time of war, no registrant shall be placed in this class and all registrants previously placed in this class shall be reclassified.) Class 4-B—Official deferred by law. Class 4-C—Neutral aliens requesting relief from training and service and aliens not acceptable to the armed forces. Class 4-D—Minister of religion or

William Johnson, Buhl Infant, Dies

BHUL, July 20—William George Johnson, infant son of Mr. and Mrs. G. W. Johnson of Hagerman, died a few minutes after birth at the St. Valentine's hospital, Wendell, on Tuesday. The body was taken to Boise Wednesday afternoon, where burial services were held Thursday. The Evans and Johnson funeral home, Buhl, was in charge. The father is employed by the Idaho Power company at its Upper Salmon Falls plant. Mrs. Johnson's parents reside in Boise.

divinity student. Class 4-E—Available for general service in civilian work of national importance (conscientious objector). Class 4-E-L—Available for limited service in civilian work of national importance (conscientious objector). Class 4-E-H—Man formerly classified in class 4-E-E or class 4-E-L, since deferred by reason of age. Class 4-F—Physically, mentally, or morally unfit.

An Emergency Statement to the People of the United States

There is enough iron and steel on farms alone, if used with other materials, to make: **Twice as many battleships as there are in the whole world today, or Enough 2000-pound bombs to drop three per minute from big bombers incessantly for more than three years.**

Locating and collecting this scrap is going to require a canvass of every house and every farm. Even one old shovel will help make 4 hand grenades.

We have set up the machinery for this, but it is not perfect. It is a problem that can be licked only by American resourcefulness, American organization ability, American muscle and American will to win.

We now have in every state a State Salvage Committee of volunteers working directly under the governor. Under these state committees we have county committees and local committees. We have special industrial committees working with executives of plants in 421 industrial centers.

In rural communities we have the County War Boards. These committees can tell you the quickest way to get your junk into action.

In behalf of the governor and the state committee we urge every committee to organize itself into a band of "Salvage Commandos."

You can either sell your scrap to a Junk dealer or you can give it to a charity, which in turn will sell it to a Junk dealer who performs an important function by sorting it, grading it, packing it and shipping it to the right place.

We urge local charities and civic organizations to cooperate with the Local Salvage Committee and devise a plan of action and collection.

We urge industrial executives to appoint Salvage Managers who have both the responsibility and authority to salvage obsolete machinery, tools and dies.

We urge every farmer and every householder in America to act at once.

Go over your premises with a fine tooth comb. If you have already turned in your scrap, look again—you'll probably find more.

If you do not have enough of your own to warrant someone coming after it, form a neighborhood pool, or take it yourself to the nearest collection point.

If there is an old heater or boiler in your basement too heavy for you to move, get your neighbors to help you.

This is a People's job. It is something you can do without interfering with other war work or personal duties. It is not enough to pile up a little stuff and expect somebody to come and get it. Most of the work is being done by patriotic volunteers with inadequate facilities. They need your help in collecting scrap material in the largest possible amounts and in getting it to the right place.

It is a direct and personal obligation to all of our boys on all fronts.

You may think, "My little bit" won't help, but your "little bit" multiplied thousands and millions of times can create a mountain of raw material which can actually turn the tide.

The situation is serious. Your help is needed now.

JUNK needed for War

Scrap Iron and Steel

Needed for tanks, ships, guns—all machines and arms of war.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed to make bombs, fuses, bladders, planes, tires for Jeeps, gas masks, burst balloons, parachute flares, sandbags.

HOW TO TURN IT IN

Sell to a Junk dealer... Give to a charity... Take it yourself to nearest collection point... or contact your Local Salvage Committee.

PHONE: TWIN FALLS, 405

If you live on a farm, phone or write your County War Board or contact your farm implement dealer.

WASTE PAPER—After they have served maximum cooking use, strain into a large tin can and sell to your meat dealer after you have collected a pound or more.

THE GIBB—Wanted only in areas close to distilling plants, in unopened bottles. WASTE PAPER—Should only be accepted by local commission.

TUCKER'S NATIONAL WHIRLIGIG

PROTEST—The dispute regarding the methods to police prices has flared into a combat between the Hendersonians and the housewives of America. In committee conference and in public demonstration, the Hendersonians maintain that the housewives can do a better job and at less cost to the harassed taxpayers.

The price administrator bases his demand for a 90,000 appropriation on the ground that he needs 90,000 dollars to pay for the expenses of his office. He wants at least one Washington agent in every city and county of any size, and a fairly large staff in each county. His capitol hill office insists that such an "army of inspectors," as they characterize his proposed organization, is wholly unnecessary. They argue that furnishing three to five inspectors in each city can be depended on to make the butcher, the baker, the candlestick maker, better.

RAY TUCKER Businessmen in both chambers seem out that as per cent of this nation's shipping is done by women. According to the domestic goods bloc, they know values not quality better than any collection of men and nations that Len could make. And it remains unconvicted that he requires a legion which will make the prohibition enforcement establishment look like a boy's band. He will probably get a slight increase on the scant amount granted him by the house, but it will be given to him over the sharp resistance of the Senate. They have more faith in the little lady than in Len.

UPRISING—A small professional clique of diplomats in the state department has come under heavy fire from prominent American citizens for its attitude to recognize the puppet government of Vichy France. The principles of the Roosevelt-Giroullis-Atlantic charter, the inner circle's resistance to a practical program of building a better world for the people in Japan's back yard puzzles the protesters.

HEADLINES OR VICTORY? Sufficient time has elapsed since the capture of eight submarine-borne saboteurs was announced to permit calm consideration of such acts as have developed publicly.

On the basis of what is ascertainable, we believe that this episode is the best illustration to date of the need for unification of all war publicity under intelligent direction.

Frequently we have criticized Washington for withholding information to which the public is entitled and which could do the enemy no good.

Here is a sensational instance of information which we believe should not have been given publicly, for several reasons of which this will suffice to make the point.

Both the British and our navy make a point of refusing to publicize submarine sinkings, on the ground that it is good strategy to keep the Germans in ignorance, to the last possible moment, as to the fate of these agencies of destruction.

How much more, then, should Hitler have been left to worry about his saboteurs; to wonder why their scheduled sabotage did not come off; to waver whether to wait or send substitutes—who might not get caught; to hesitate to promote his resident propagandists, expanded to help immigrant saboteurs, were at large in custody.

Again, one of the earliest psychological lessons learned by a cub newspaper reporter is the power of suggestion. Let the papers in London and in the United States know of a wave of such deaths with the same poison often follows. Let it be reported that so-and-so killed himself by jumping from such a skyscraper, and that building seems to be empty. Let it be reported that a Metca for those who have lived of living.

Millions never had heard of the Horsehoe Curve at Altona, or had no conception of its military importance.

Out of these there undoubtedly are a few Hitler who are a constant reminder of the named maniacs who—to serve Hitler or to injure the United States or merely to do something sensational—now know where to turn their attention.

If these don't like Altona, or live too far away or find the curio too well guarded, they can turn to John Edgar Hoover's official list and choose another vital spot at which to strike.

In organizing and directing the federal bureau of investigation's current setup, Mr. Hoover has done, and is doing a marvellous job. No criticism of his very real achievements.

But this is war to preserve democracy, not to make headlines for anybody.

A BIT TOO FAR We can sympathize with the indignation that prompts Congressman Pfeiffer of New York to ask a mandatory death penalty for any alien or citizen who gives aid and comfort to the enemy. But we fear Mr. Pfeiffer has not given enough consideration to the way such a measure might work out.

How, for example, would he define "giving aid and comfort" to the enemy? Secretary of War Stimson's answer would be reported on what happened at Pearl Harbor. G-Man Hoover gave the Germans aid when he disclosed the arrest of eight saboteurs and listed the places they were told to destroy. Would Mr. Pfeiffer have these officials mandatorily sentenced to death?

Also, it is well known that mandatory strict sentences often result in acquittals where guilt is unquestionable but where jurists believe the inevitable punishment exceeds the crime.

Other Points of View

THEY OUGHT TO BE DEDUCTIBLE There is a strong movement behind the scenes in financial circles to conjoin Washington that life insurance premiums should be deductible for income tax purposes. The time of the proposal may not be auspicious because treasury officials are even shaking old piggy banks to gather loose pennies for permanent income tax relief.

The argument advanced is that 60 per cent of Americans leave only the proceeds of their policies to their heirs. The rest goes to the children. The children build up their little estates as genuine savings and disappear from purchasing power and hence have no effect on the economy. The deduction would be cumulative funds to buy victory bonds, but for federal and state tax increases and the outlay for living and maintenance of the individual. The deduction would either their taxes or their premiums. Cancellations would be helpful purpose and might eventually force people to live.

The hitch is to write a law which will prevent wealthy families from ducking the responsibility of bearing their share of the cost of the war. The deduction would be placed Aug. 6. Quizzes included members of the OPA. It is a serious of which Miss O'Connell is secretary of the OPA.

The OPA has ruled that dead animals are exempt from price regulation. We didn't know that anything could be dead enough to escape regulation and taxation. —Wallace Miner.

DUCK'S AFTERMATH

This is a follow-up on that famous WPB cotton duck limitation order, in which a young lawyer inserted a paragraph about the love life of Donald Duck. It got by some 18 or more officials before it was caught.

Right after this event, which got a big laugh in Washington, somebody in the Army wrote a memo to WPB saying there should be a limitation order on goose feathers. The WPB man who got the memo thought this was a good joke, but they weren't going to make a sap of him on a gag like that Donald Duck thing. He put the memo in the waste basket.

A couple of weeks later, the Army called up, screaming. Where was the goose feather limitation order? The memo was bought out and Army procurement officers were having a terrible time finding enough goose feathers to stuff the pillows for soldiers to lay their weary heads on at night.

Shamefacedly, the WPB officials began to grind out the order, restricting civilian purchases of down feathers under three inches long.

Word has been received that Miss Orpha Markie, Twin Falls, and Mrs. Thelma, son of Mr. and Mrs. Shoulte, Twin Falls, were married Saturday at Schenck.

Believing that the time is ripe for a permanent county fair association, the Board of Commissioners met last week because what is believed to be the proper name for the fair is being discussed. The county board is asking the number of farmers taking the fair to be determined. The secretary of the Commercial club is discussing the matter.

The Idaho theater has been sold by Cass Pige to B. W. Nagel, formerly of Oklahoma City, Okla. Mr. Nagel is the son of Conrad Magel and the brother of Frank and Glenn Magel.

COWBOYS DROP FINAL GAME OF HOME SERIES TO CARDINALS

Visitors Cop, 4-1, to End Win Streak

All good things must come to an end—so last night the Pocatello Cardinals snatched the six-game winning streak of the Twin Falls cowboys. The final game of a three game series by a 4-1 score.

The loss was the first of a six-day home stand that saw ladder from last place to second. However, the defeat dropped them down to third again.

Tony Jell, who pitched a no-hitter in his last game earlier in the season, was the losing pitcher—because he took up a couple of bad innings to George Valine and Earl Peterson.

However, the Twin Falls hitting team did anything but surrender and the lone run that did score off the offering of Lefty Dave Christie was earned.

Cards Score First

The Cards got their first run in the opening inning when Valine's right-handed hitter swung low and the ball dropped over the right field fence for a home run. The fourth after two were down when Peterson connected for a four-run homer.

The final two came in the ninth stanza. Bobby Jorant singled, was driven to second and scored from there on Peterson's double. Peterson scored a moment later after two were down on Peterson's double.

The long Twin Falls run came in the seventh frame. Lane Shanks led off with a single and Earl Peterson followed with a scratch hit. Nick Sauerel laid out down and was held for the play, filling the bases—with none out.

Jack Lohrke, next up, skied out to the left field.

Harrieman, pitcher playing the out-fied, hit to third and a run scored. Earl Hill, who had been tagged between second and third, Ernie Sierra drove a walk to lead the home team, and the inning out to first to end the third.

Cowboys Threaten

The big Twin Falls threat came in the ninth stanza. After Lohrke had whiffed, Jeannine, batting for Lohrke, drove a home run to tie the game. However, he was whiffed on a home run or nothing and famed as he swung hard on each ball. Rex Ceell, hitting for Burton, grounded out to end the game.

The victory laid the Twin Falls club one out from second place in the standings.

Today the team rears and tomorrow will be in the field again, where the rising young Wranglers tackle the Bees in a three-game series. Following that they move to Pocatello for three tilts and then July 27, to take on Andy Harrieman's club here for three games.

Bees score for last night's encounter:

POCATELLO	AB	R	H	PA	A

"HEAVEN" MOVED BY NEGRO LEADER

NEW YORK, July 20 (AP)—Father Divine has moved his "heaven" from the city of New York to Philadelphia, where his followers purchased five years ago for \$240,000. Two weeks ago, he moved it to Philadelphia, where his followers there have been holding for three years.

Father Divine broke the news yesterday at a banquet and dedication ceremony at the City Mission, Inc., which combines a home for the aged and a church and community center. The banquet started at noon and 150 followers spent several hours over 20 kinds of meat, including turkey, soups and rolls, 16 vegetables, five salads, 11 relishes, 15 kinds of bread, six desserts and six other delicacies.

The banquet was open only to special guests. Lunch lights paid 19 cents. Father Divine served beef, two potatoes, tomatoes, bread and butter and coffee.

LEAHY PREDICTED AS COORDINATOR

WASHINGTON, July 20 (AP)—President Roosevelt is expected to name Admiral William D. Leahy soon to be coordinator of military operations, according to a commander-in-chief.

Leahy, recently returned from France, has been the American ambassador, may be recalled to active duty and may be provided with sufficient rank to carry out his duties. He is understood to have already submitted his resignation as ambassador.

Both the army and the navy were said to be in agreement on the need of a coordinating head, responsible only to the President, for global military operations. Leahy is an intimate friend and long-time military advisor to Mr. Roosevelt, is widely respected as being satisfactory to both services.

Since his retirement as chief of naval operations in 1939, Leahy has acted as presidential "trouble-shooter" both as governor of Puerto Rico in 1940 and as ambassador to Italy.

Leahy is generally credited with having laid down the basis for the great naval expansion program, and most of the President's military actions involving both army and navy.

Leahy would work closely with the chief of the military organization recently established by President Roosevelt and British Prime Minister Winston Churchill.

FLASH FLOODS KILL TEN IN NEW YORK AND PENNSYLVANIA

DAMAGES HEAVY IN WIDE AREAS

HIDOWAY, Penn., July 20 (AP)—Violent flash floods, rolling through north-central Pennsylvania and New York today took at least 10 lives and damaged or destroyed hundreds of homes, business establishments and industrial plants.

The flood waters swirled from the upper tributaries of the Susquehanna, Clarion and Allegheny rivers in Pennsylvania.

Hardest hit were Port Allegheny, Austin, Whiston, Hidoway, Emporium and Johnstown in Pennsylvania and Olean, Portville and Salamanca in New York.

At Port Allegheny, where six persons were reported drowned, the Allegheny swamped into the First Methodist church while 150 persons were attending a conference. They clung to trees, trunks and floating wreckage until rescued. Fire broke out later and destroyed the church and a nearby parking lot, a garage and an old mill.

L. N. Lukerhart of Alexandria, Va., general field representative of the Red Cross, took charge of relief operations. He reported the flood was so swift "huge chunks of timber" were torn out.

An earthen dam broke at Austin, sweeping away several houses and knocking offiers from their foundations.

Other Destruction
Water mains, electric and telephone lines were destroyed.

At Whiston, the floods were followed by a fire which badly damaged a chemical company plant.

At Whiston, mountainous hills were all marooned. Rescue squads with food were attempting to reach the community.

Boys' State Talk Before Auxiliary

GOODING, July 20 (AP)—Members of the Perry Boyan unit of the American Legion auxiliary meeting at the home of Mrs. Fred Cross, heard a report on the third annual Boys' State in Pocatello.

Members reported having done 155 hours of Red Cross work during the past month, along with articles of clothing and 24 magazines. The receipt of a box of old clothes, which the members will sell, was announced.

It was announced that the national president, Mrs. Mary Murray, would be in Sun Valley on Monday evening, July 27, speaking at a banquet.

The unit voted to cooperate in the Legion's campaign to collect old newspaper records. Mrs. Mary Murray was appointed to receive telephone calls from anyone having old newspaper records to be taken to the modern barber shop named as the place where records could be taken.

The hostesses were Mrs. Gertrude Mrs. Troy Cox and Mrs. Wayne Plack.

Clemency Sought By Jerome Killer

BOISE, July 20 (AP)—The Idaho parole board has taken under advisement the application for clemency of James J. Robertson, elderly Jerome resident serving a two-to-10-year sentence in the state prison for manslaughter.

Petitions signed by many of Robertson's friends and acquaintances in Jerome, including six members of the jury which convicted him, recommended that the board grant him a full pardon.

Robertson, who pleaded not guilty, was convicted of shooting another man to death in an altercation at his home in Jerome.

He was received at the prison July 10, 1941, at the age of 69.

Camas Purchases \$8,887 in Bonds

FAIRFIELD, July 20 (AP)—The anticipation of the purchase of \$8,887.50 in U. S. bonds by the county commissioner, Camas county, which has been behind its quota for the past three months, now on top.

The quota for May, June and July was approximately \$14,500. The first sum was made available due to the fact that the county has been unable to use the hospital funds because of a lack of building material.

Visits Daughter

RUPERT, July 20 (AP)—Mrs. Mattie Smith, Whittier, Calif., who was seriously ill at Salt Lake City by the death of her brother, Owen, is being visited briefly here by her mother, Mrs. Charles Easton, before returning to Utah.

From Salt Lake City she returned home to California, accompanied by another brother, Norman Ooch, Atlanta, Ga., who had been called to Salt Lake by his brother's illness. Owen Ooch and Mrs. Smith are former residents of Rupert.

14 DRAPPEES LEAVE

HALLEY, July 20 (AP)—Fourteen selectees from Carey, Sun Valley and Halley left last week for Boise for final examinations and induction into the army. A large number of relatives and friends were at the stage depot to see the boys leave.

HIT'S PARKED AUTO

Slight damage was done Saturday afternoon when a machine driven by James E. Zaker, 222 Second avenue south, struck an auto belonging to Lyle Worthington, 433 Main avenue north. The Worthington car was parked in front of his home when the accident happened.

Property damage caused by forest fires annually is estimated by experts to be \$40,000,000 in the United States.

Baseball Retrieving Note: Use Trained Dog

Grant Gillette, 10-year-old son of Police Chief Howard Gillette, has very neatly solved the problem of retrieving over-the-fence balls when the Cowboys are at home in Jayce Park. He is using his method for more than a month. Too, Grant's dog, "Frolics," guards the ball until his young master arrives to pick it up and claim the reward. Above, Rodger Coulter, 11 (kneeling), Billy Cummins, 10, and young Gillette, just starting to walk toward the ball. (Staff Photo-Engraving)

JEFFERS EXTENDS SPUD ROT STUDY

W. M. Jeffers, president of the Union Pacific railroad, announced today he will continue for another year the research fellowship established by him in 1939 to study the causes, control and eradication of the bacterial ring rot disease in potatoes.

Word of the research continuance, regarded as an important move for Idaho spud growers, was received by Fred C. Farmer and J. L. Fuller, freight and passenger agents, respectively, in Twin Falls.

Since the inception of the fellowship, which was established in cooperation with the University of Idaho college of agriculture experiment station, an intensive study of this disease of potatoes has been carried on at the college of agriculture and at the experiment station at Idaho Falls.

Kirkpatrick, who conducted the study in 1941-42 school year, has accepted the position of research assistant in plant pathology at Cornell University. The new research assistant is Jerome J. Smith, who is working in plant pathology at the college of agriculture this fall. The work is being carried on this summer by Dr. Albert Braun of the University of Idaho.

4 Tires Stolen From Northside Ranch Combine

JEROME, July 20 (AP)—Four tires and wheels from a combine owned by E. J. Martin, East Perrine district, have been reported stolen from the combine's authorities here.

The combine was parked in a field adjacent to the residence of the owner at the time, did not notice the theft.

If the wheels, which are painted yellow, or the tires are located recently, the owner will be notified. The combine is being used because of the loss.

Los Angeles Police Firearms Expert Lauds Sweeley Plan

Everett M. Sweeley's new missile load will change the way the military thinks about great distances, today has received the praise of Los Angeles police firearms expert and director of training, department of police, Los Angeles.

Praise of the load invented by Sweeley, a nationally noted gun expert, came after exhaustive comparative tests between the new load and the regulation buckshot load. The tests were staged at Elysian park police academy range, Los Angeles, and findings of the tests were reported by Capt. C. G. Taylor, California state guard headquarters.

Many Advantages
In his report, Capt. Dircks wrote that the new load has many advantages over the standard buckshot, namely: it can be fired in any type of shotgun, has greater penetration, shoots a closer pattern, and due to the smaller weight of the individual pellet maintains its velocity for a much longer range.

The new load was invented by Mr. Sweeley after months of study and announcement and explanation of the process was first made in an exclusive article published in the Times-News. Since that time the story of the invention has been published in a national magazine and the process has been adopted in many places. As a result of these tests the new load may become standard in guard's guns in all plants and even in the army where shotguns are often employed.

The tests made by Capt. Dircks at Los Angeles a complete record was kept of action with the standard load and the new load. The latter featuring six lead pellets in each shell instead of the numerous pieces of buckshot.

The Results
Following are the test results as reported by the Los Angeles police expert:

Buckshot in two and three-quarter inch shells, new missile in

Reporter Gets Stiff Neck as Nazi Dive Bombers Raid Ship

By United Press
Twenty-four hours aboard a British warship of a Mediterranean convoy under attack by six planes provided Henry T. Correll with more half-raising action than anything in his 20 years of newspaper writing. The reporter's career covering world news began.

Correll once was threatened with execution in Spain by a Moorish firing squad; he was with the British during their last ditch stand in Greece. But Correll, in a letter to colleagues on the United Press cable, said he was not a seaman and his adventures were paid by the sea while he watched from the deck of a British cruiser.

Correll was the only correspondent with the allied convoy which ran the gauntlet of German planes, Italian motor torpedo boats, Italian warships and six submarines, June 13 to 16, to carry vital supplies to Malta.

Unlabeled Maltese
"I accept an opportunity for that assignment with a naval unit because of an unlabeled mission," Correll said in describing his experience. "and soon learned that I was to see even more action than had been expected."

Correll was assigned to Admiral W. G. Tennant's cruiser and was informed that the "battle station" would be the flag deck of the vessel. "It was a little anti-fish hook—a little extra care to protect me against flames from explosion or incendiary fire—proceeding gauntlets and helmet and one of the members' boat containing life preservers as well as a small motor to sailors as 'Mae West'."

Warned of Danger
"The first nature of the assignment was revealed the following day when the ship's captain, a veteran of the battle of Jutland, spoke and informed us: 'We may face the entire strength of the German fleet, and if they understand craft, but we shall hit him hard. We are out to help Malta.'"

Two and three-quarter inch shell, shot charge in buckshot was nine pellets of 40 grains each, while in the new missile it was six cylinders of 40 grains each.

In the buckshot shell eight pellets hit the target and two pellets broke through two coats of seafoam fire plank; in the missile shell, all cylinders hit the target with five penetrating through the two coats of plank and embedding themselves from one-quarter inch to one inch in the second coat of fire plank.

Terrific at 90 Yards
At 90-yards the buckshot made a 12-to-16 inch hole in the target. The distance the new missile load made a 48-inch pattern.

The report Capt. Dircks noted that the report Capt. Dircks noted that the buckshot "it should be shot in a straight line, but the new missile load that there is always the possibility of the buck load crowding the choke barrel and blowing off the game."

Regarding the load invented by Sweeley, he said: "I was surprised to find that the new load was so effective. It was so effective that it was used to the use of choke barrel shotguns."

SPLIT WIDENS ON RUBBER DEMANDS

WASHINGTON, July 20 (AP)—The administration of Wendell Willkie, D-R., has centralized control of the synthetic rubber program against a Senate proposal to strengthen the agricultural group strengthened by Republican support.

Democratic Leader Barkley of Kentucky said he would fight a motion by senators Thomas, D., Ohio, and Gillette, E. Ia., to bring before the senate tomorrow a measure to establish an independent rubber supply agency whose director would be given wide authority to facilitate the production of the synthetic product from great Britain.

Republican Leader McNary of Oregon said he would support the bill. Nelson has opposed the measure because it would divide responsibility for the success of the synthetic rubber production program. As production chief, he has assumed full responsibility himself.

He, however, intends to do everything he can to speed the output of synthetic rubber from all sources. He also intends to speed the construction of new grain alcohol production plants on the ground that they would take vital materials needed in the manufacture of guns, ships, planes and tanks.

Gooding Rotary To Visit Airport

GOODING, July 20 (AP)—Rotary club members will hold a brief meeting next Friday afternoon at the airport to visit the Gooding airport now under construction southwest of the town.

At last Friday's meeting, Welliver Miller, Rotary group scoutmaster, told of plans for an opening of the Miller cabin on Henderson creek. Don Humphrey told of his recent trip to Vancouver.

Francis Breuhm, vice-president, presided in the absence of July Firminger, president. Other members were Cliff Butten, Boise, and Wedell Miller, Gooding. Mrs. Adelaide Stubbart won the war stamp.

Last Rites Held For Buhl Pioneer

BOISE, July 20 (AP)—Funeral services for Francis Norman Wagoner, 81, pioneer resident of Buhl who died Sunday at the Twin Falls county farm, were held at 2 p. m. Wednesday at the Evans and Johnson funeral home chapel, Rev. J. P. Penn, pastor of the Buhl New Hope church, officiated.

Mrs. Ballard Hughes and Mrs. Lowell Daughman sang at the service. Everett Martin accompanying at the piano.

Survivors were Frank Schooner, John Mills, P. O. Franko, Clint Palmer, Timm Toole and J. S. Fox. John Brooks was in charge of floral tributes.

Burial was in the Buhl cemetery.

Army Life of WAAC Opens At Old Fort

By GEORGE S. MILLS
PORT DES MOINES, Ia., July 20 (AP)—This old army post, long a hell-for-leather home of United States cavalry, resumed today with the shrill voices of the first women soldiers in the nation's history.

By night, approximately 800 members of the women's army auxiliary corps were to be housed in the red brick barracks, started on their way to military careers.

Nearly 200 who reported last night got their first real taste of army life at 8:30 a. m. today in the young cavalry, resumed today with the shrill voices of the first women soldiers in the nation's history.

At last Friday's meeting, Welliver Miller, Rotary group scoutmaster, told of plans for an opening of the Miller cabin on Henderson creek. Don Humphrey told of his recent trip to Vancouver.
