## Japs Quiet as Reports Gain That Early Attack Nears on Vladivostok

### 100,000 TROOPS GATHERED AT SIBERIA DOOR

By The Associated Press

Japan attempted to ally suspiciously today that she might be preparing an attack on Russia's "back door," as Chinese reports said that 100,000 Japanese troops had been moved north toward Siberia in the past month and that a big Japanese fleet was massed off north Japan.

Presumably, one of the first targets of a Japanese invasion of Siberia would be an attack on the vital port of Vladivostok, 650 miles across the sea of Japan from Tokyo.

In an apparent warning, a Japanese Tokyo war cabinet's recent intention, a Domei broadcast quoted Premier Gen. Hideki Tojo as declaring that his assumption of the foreign ministry "will not result in any way in an alteration of Japan's foreign policy."

Set Up for Attack

Siberian Tojo, who negotiated the Moscow-Tokyo neutrality pact and was regarded as opposed to Japanese hostilities in the Far East, resigned the foreign ministry yesterday.

Tojo's resignation, coupled with the aggressive Tojo's decision to take over the foreign portfolio, had been cited by interpreters in Moscow as presaging a possible Japanese attack on Siberia.

Following Tojo's war-time capital, the influential newspaper "The Kung Pao" said that Tojo had been known as a pro-Russian and that his exit showed "Japan has no more need to maintain a friendly attitude toward the Japanese."

Other Chinese comment declared the Japanese "portents" and said five divisions totaling 100,000 Japs troops had been moved north after being withdrawn from the China war theater.

Tojo's Successor

Domei said Tojo's successor would be appointed simultaneously with the selection of a director for Japan's new "Greater East Asia ministry." It added that the appointment was expected soon because of Tojo's holding of the portfolio of war and foreign affairs would make it difficult for him to carry adequately his manifold war duties.

In the southwest Pacific, Gen. Douglas MacArthur's headquarters announced that Japanese troops were expected at Manila before striking with increased strength to

## Hitch-Hiking U. S. Soldier Gets Ride With Queen Mary

LONDON, Sept. 2 (U.P.)—So the queen said to the soldier: "Don't you know who I am?" And the soldier said to the queen: "You've got me beat, ma'am. Who are you?"

"That's the way it happened in the story that Pte. On A. Foster, 22, Pontifried, Mich., was telling his buddies today.

"I was walking along this country road here," Foster said, "it was last Saturday afternoon down in Wilshire. This car came along and there were some ladies in it and a colonel."

"They offered him a ride and the colonel got out of the back seat and sat with the chauffeur to Foster could ride with the women."

"I was in the car when they picked the Tokyo war cabinet's recent intention, a Domei broadcast quoted Premier Gen. Hideki Tojo as declaring that his assumption of the foreign ministry "will not result in any way in an alteration of Japan's foreign policy."

## Stabilization of Wages Reported Planned by F.R.I.

By IRVING PERLMETER

WASHINGTON, Sept. 2 (U.P.)—From usually reliable administrative sources it was learned today that President Roosevelt has said he is debating whether to include salaries as well.

Wages and salaries, along with control of farm prices were described by these sources as the major device to be made before the chief executive delivers his Labor day message on the cost of living.

Presidential advisers have divided the compensation question into three parts, as follows:

Based on living costs. Wages—primarily manual labor, especially war factories, paid on an hourly or daily basis. Unofficial guesses are that the President will ask that wage rates in this field be stabilized by permitting increases in the hourly or daily rate of pay only if the rate is in proportion to the rise in the cost of living. Apparently, there will be no interference with workers getting higher pay envelopes for working more hours.

Salaries—mostly white collar workers paid by the week, month, or year, up to \$10,000 a year. If included at all, some allowance probably will be made for pay raises accompanying bona fide promotions.

Big incomes—salaries and other forms of compensation in excess of \$10,000 a year. Suggestions have been made of discouraging large incomes by forbidding deductions as part of their operating expenses, for more than \$10,000 a year. Some sources are considering for budgeting each employer to a total payroll.

Price controls on farm products, the President was reported to be choosing between three alternatives.

First, farm prices fixed their own levels, but the government would be allowed to hold down the retail prices of food.

Second, fix price ceilings on farm products, as now permitted by law at 110 percent of parity, and use subsidies if necessary to hold down the cost of food.

Third, use power to nullify the 110 percent parity provision, and fix ceilings at whatever level the government desired.

Another issue to be decided is whether to administer the "super board" to administer the cost of living program.

## British Forces Lock With Axis in Desert

CAIRO, Sept. 2 (U.P.)—British forces were locked heavily in battle with Axis armor all day yesterday in the southern sector of the Egyptian front, the British headquarters announced today.

The war bulletin, issued jointly by the headquarters and the RAF, said United States army air force planes participated in extensive air operations over the entire area in which an allied battle line was broken, and the expected shock of Field Marshal Rommel's powerful tank forces, again trying to grind forward toward Alexandria, the Nile and the Suez canal.

The bulletin said the allies met Rommel's challenge was indicated by the commander's report that British forces had fought a bitter battle on the southern flank of the El Alamein line and brought back a batch of German prisoners.

Ground action yesterday centered between the Ruweisat ridge in the center and El Himeimat, on the southern wing near the Watawa depression, the bulletin added.

Despite swirling sand obscuring the battle zone, it said, the allies' air coverage was on a large scale and the bulk of bombs which fell on the enemy was both "intensive and accurate."

Two large Stuka formations were attacked by our fighters and the enemy was on many occasions forced to jettison his bombs, the bulletin said.

"During the day at least six enemy bombers and five fighters were destroyed in these operations. More than a dozen were damaged. Our long-range fighters successfully attacked enemy motor columns."

## HAZARD TO VOLGA CITY MOUNTS AS ENEMY ADVANCES

By HENRY SHAPIRO

MOSCOW, Sept. 2 (U.P.)—Russian dispatches reported today that Soviet forces defending the southwest approaches to Stalingrad have been forced to retreat to a new line—the fourth withdrawal in 48 hours—and that the peril to the vital Volga city was mounting by the hour.

A large tank armored force was reported to have broken through the southwest defense lines despite desperate Soviet efforts to halt its progress.

On the front northwest of Stalingrad, the Nazis were again on the move, dispatches said, and danger of a breakthrough in that region was admitted.

(The German high command claimed that Nazi troops have reached Volga River north of Stalingrad.)

Enemy Breaks Through

"Southwest of Stalingrad, Soviet troops engaged in fierce fighting with enemy tanks which have broken through," the Soviet news communiques said. "One of our units in fierce fighting destroyed 12 enemy tanks and about one company of soldiers."

"On another sector, Soviet units fortified themselves in new positions and repelled off the enemy attacks. It was believed in London that the Germans were about 15 miles from Stalingrad on the southern bank."

Near Volga River

Dispatches from the front said the tank force which broke through was large, and that the penetration was on the southern bank of the sector, or the sector nearest the Volga.

Soviet news communiques added that Soviet troops in their central front offensive opposite Moscow had captured several enemy divisions, including one company of infantry, silenced three trench mortar batteries and blew up a large ammunition dump, the communiques said.

## WESTOCK SALES DOUBLE YEAR AGO

By WILLIAM FERREIS

CHICAGO, Sept. 2 (U.P.)—A rush to buy livestock was reported today as many more meat producing animals to major markets in the first half of this year as in the corresponding period of last year, agricultural department statistics disclosed today.

Hog, cattle and sheep bins from Buffalo to Denver, and as far south as Fort Worth, have handled a huge number of meat animals for this time of year.

The expansion over 1941 amounted to 87 per cent for all animals. Sheep were up 140 per cent, hogs 89 and cattle 75 per cent. The main part of the increase occurred Monday, with a decline toward Tuesday in response to lower prices.

Factors combining to create the heavy outpouring, in the opinion of the livestock men, were:

First, the large numbers of meat producing animals on farms and ranches.

Second, the unprecedented demand for meat, which has made producers anxious to obtain as much livestock as they can handle.

Third, the threat of sellings over livestock prices has stimulated marketing earlier than usual.

Many cattle are going to market, and the cattle men are much fattened on farms for next year's season. The cattle men are much fattened on farms for next year's season. The cattle men are much fattened on farms for next year's season.

## Right to Intern Japanese Upheld

SACRAMENTO, Calif., Sept. 2 (U.P.)—A federal court order returned in which had been brought as a test case, has upheld the army's authority to intern Japanese, both alien and native-born.

The order, entered by District Judge Martin J. Walsh of Sacramento, overruled a demurrer by the American Civil Liberties union to the internment of Fred Toyosaburo Korematsu, an Oakland Japanese held at the Tanforan race-track assembly center.

The union argued that President Roosevelt had no right to intern the Japanese roundup and Lt. Gen. J. L. DeWitt to right to execute the President's order. The union attorneys contended that congress had delegated full authority to the president and DeWitt's action was no more than obeying his commander-in-chief.

## 36 DISCHARGED FOR DISLOYALTY

WASHINGTON, Sept. 2 (U.P.)—Declaring that broadside allegations of disloyalty in the government had not been proved, Attorney General Cummings today reported to congress that 36 federal employees had been discharged and 13 otherwise disciplined after investigation of 4,579 complaints charging subversive affiliation.

Biddle characterized the sweeping character of the complaints and said that "the wisdom of soliciting and investigating agents to such work in the justice department by the house committee on un-American activities headed by Rep. Dies, D. Tex."

He said that it was evident that a large proportion of the complaints were "clearly unfounded and that they should never have been submitted for investigation in the first instance."

He was conspicuously true of the list submitted by Congressman Dies, the attorney general said in his letter to congress. He referred to a list of 1,100 persons sent to the justice department by the house committee on un-American activities headed by Rep. Dies, D. Tex.

He said that at an example hundreds of federal employees were alleged to have been subversive for "better reason than the mere appearance of their names upon the mailing list of certain organizations," and that the investigation showed that many of them had not even heard of the organizations.

NEWARK, N. J., Sept. 2 (AP)—Hercy K. P. Bahr, convicted of conspiracy to serve Germany as a spy, received a 30-year prison sentence today.

The sentence was the maximum prison term possible under the espionage statutes, but the court could have ordered his execution.

Judge William E. Smith, who imposed sentence in federal district court, expressed the belief Bahr was still protecting Nazi colleagues.

"From my experience," the court told him, "I believe you have not turned over to the government all the information you have. I believe you have other names and addresses."

At no time did Bahr look at Judge Smith. He kept his eyes on the table before him.

# RIOTS AND STRIKES FLARE AT EXECUTION OF IRISH OUTLAW

## POLICEMEN CLUB WOMEN IN MOB

By JAMES KELLY

BELFAST, Sept. 2 (AP)—The hanging of Thomas Williams, 19-year-old member of the outlawed Irish republican army, at 8 a. m. today, incited a series of disorders, including anti-British demonstrations and a strike.

Rioting began immediately after Williams was executed for the murder of a constable.

Police used their batons on one unruly mob of women demonstrators, three of whom were arrested. One policeman was injured as the women resisted.

Crowds, made up mostly of women and young girls, formed in the main streets singing republican songs and booing British army officers and Ulster policemen.

A clash between republican and Ulster crowds forced police to charge.

## Shouting Battle

Some Ulster women hurled the police aside and taunted republican women kneeling and telling their recollections near the prison.

The Ulster faction tried to drown the shouts of the republicans by singing "God Save the King" and "There Will Always Be an England."

The police charged again and this time succeeded in scattering both crowds.

Republican girls returned to parade. They surrounded every British army officer and Ulster policeman they met, booing and hissing.

Some of the girls even raised their arms in an approximation of the Nazi salute.

The procession continued through the city for two miles. Police did not interfere.

## Strike Occurred at Belfast

The strike occurred at a Belfast mill where hundreds of employees refused to go to work because of Williams' execution.

Although Williams' last wish reportedly was that his death should not have a stormy aftermath, tension was heightening hourly.

It was generally felt that the IRA, which is a strong organization in North Ireland despite its being illegal, would use violence to avenge Williams' death.

## Streets Patrolled

Armored cars patrolled the streets and all Belfast was covered by special police battalions. Large police reinforcements were brought in from other parts of the country.

Belfast had been declared out of bounds for American troops in North Ireland after police discovered huge quantities of arms and explosives cached in the countryside, apparently in preparation for an uprising.

## Document Purportedly Issued by the IRA Council

The document, which was purportedly issued by the IRA council and revealed by the government, had stated that the IRA was not intended for use against American and British troops in North Ireland.

"The IRA cannot recognize the right of England or any other country to maintain forces or base troops in any part of Irish territory without the consent of the Irish people," the document stated.

"The IRA, therefore, reserves the right to use whatever measures are necessary to clear the territory of such forces."

## Sought Clemency

Nationalists throughout North Ireland and Eire had sought clemency for Williams, and numerous demonstrations as well as the discovery of the arms dumps led authorities to fear that the illegal republican army might attempt a coup.

Williams went to the gallows calmly. At 10 a. m. he received communion and a few minutes later walked from his cell to the death chamber, accompanied by the executioner.

An English hangman named Pierpont had to be imported because no Irishman could be found to spring the trap.

"I am not afraid to die—I am prepared," the convicted man said when told last night that the governor had refused his plea for clemency.

MAKE ALL DRIVERS TAKE

Editor, Times-News:

I always read your editorials with a great deal of " gusto." We all appreciate the good old country ways. If we don't we should. And there is something that is not right, it is not so much the country, it is the people of individuals.

My slogan is Carl Schurz: "My country right or wrong; if right to help keep it right. If wrong, help set it right."

Your editorial of Aug. 27, "Take care of yourself," is so pregnant with thought that it should be repeated. This brings us to elaborate further on the matter applying right here at home and any part of our good old country. What I intend to say is our auto traffic. On our highways are signs: 35 miles, yet drivers pass at 60 to 70 miles an hour. Crookings on highways are decorated with "stop" signs. Those who live near or on cross roads, see daily auto drivers cross the highways without as much as slowing down and catastrophes after catastrophes happen. I feel it is the duty of the editors of our papers to have scathing editorials for those transgressors, which should stress severe fines on those transgressors and if the law is not drastic enough, ask for more punitive laws.

P.S.—The death of Miss Thomsen, the head nurse of the Twin Falls county hospital, is received with a shock in this whole community. All those who came in contact with Miss Hansen feel that we lost a wonderful lady. We will long remember her and regret the loss to the community.

## CALDWELL JOINS IN TIME CHANGE

CALDWELL, Sept. 2 (AP)—Members of the Caldwell Merchants' bureau today had voted to adopt mountain standard time in their business next Monday.

The action followed a meeting at which approval for the plan was expressed by residents of many Canyon county communities, and messages were read from Payette, Weiser, Council, Parma, New Meadows and other communities favoring the change.

In addition, two representatives from Boise, in adjoining Ada county, reported that the change has been discussed "with favorable action" by members of the Boise Merchants' bureau, and that action swinging the Idaho capital and virtually all of Ada county into the new time belt may be expected within a week.

Payette and Weiser formerly had adopted the change, placing the new schedule into effect at midnight Monday in Washington, Payette and Adams counties.

The two Boise delegates were Melvin C. Smith, chairman of the Boise Business Bureau, and E. C. Harlan, secretary of the Boise Chamber of Commerce. The Caldwell action, if joined by Nampa merchants, would place virtually all of Canyon county in a time belt in which clocks would be set at the same hour as those in Pacific war time.

The action is favored not only by merchants, but by farmers and parents of children who otherwise would be forced to begin classes before daylight during much of the winter, reports today indicated.

Western Idaho, which is 45 minutes ahead of sun time under mountain standard time because of its position in the extreme western edge of the mountain belt, has been one hour and 45 minutes ahead under mountain war time.

## Mother Advises "Good News" Be Put on Letters

DALLAS, Tex., Sept. 2 (AP)—Mrs. W. A. Marsh, who started a campaign to collect contributions to pay Gen. Douglas MacArthur's 1941 income tax, has another campaign underway.

It would save a lot of gray hairs if the army would stamp "good news" on letters from boys in the service to their mothers—assuming the news was good, she says.

She has a son at a base in California. When she received a letter from him recently she was so frightened she had to have a neighbor open it.

She then ventured her suggestion to the commander of his base. The commander agreed to have the letters stamped with the "good news" and said as far as he was concerned the base was adopting the practice on suitable communications in the future.

**SALT LAKE CITY, Sept. 2 (AP).—**Salt Lake City's 17th major-league baseball team, the Salt Lake Bees, won their first game in the Pioneer League's second-half season.

But the Bees came back to score four runs, on Verle Persen's triple, Walt McHugh's single, Bill Chandler's double, Hugh Fife's single and an infield out by Bill Orella.

Twin Pals tied it up with one run in the third inning, then uncorked a barrage of extra-base hits which coupled with Odden misplays produced four runs.

Reci Excell walked to start the go-round. Jim Ossen scored him with a double. Jim Hatcher blasted out a triple that sent Ossen home.

Nick Sinnerer hit a ground ball to Paul Hatcher. Sinnerer's third baseman overthrew first, Sinnerer was safe on the piny and Hatcher's second baseman, Tom Rabeck then poled a three-bagger to centerfield, scoring

## INCUMBENTS WIN IN SALT LAKE

SALT LAKE CITY, Sept. 2 (AP)—Off-year primary election brought out only a small fraction of the electorate, but those who did vote favored the incumbents, an unofficial tabulation disclosed today.

The incumbents, Rep. J. H. Robinson, Provost Democrat, re-nominated in the second district, his November opponent will be Police Chief Fred E. Vetterli of Salt Lake City. Republican former Phil Smith.

Mayor J. Bracken Lee of Price, Utah, and Mrs. Arthur H. Brown, Rep. Walter K. Grainger, Cedar City Democrat, in the first district. Grainger was re-nominated without opposition.

Supreme Court Justice David W. McLeod led two opponents in the race for Democratic re-nomination, but failed to poll 50 per cent of the votes and will enter the run-off election on Oct. 8.

Republican Dwight Woolley of Salt Lake City was re-nominated in the justice nomination in the only state-wide office at stake this year.

The basis of returns from 176 of the 848 districts the total vote was calculated and the 80 per cent majority electorate was approximately 300,000.

# ALL-OUT EFFORT SEEN IN AFRICA

By DE WITT MACKENZIE  
Wide World War Analyst  
Nazi Field Marshal Rommel's attack against the British in the Egyptian desert bears the earmarks of being the big show for which he has been waiting. It is the German effort to make quick conquest of Egypt and the Suez canal.

It is the German effort to make quick conquest of Egypt and the Suez canal. It is the German effort to make quick conquest of Egypt and the Suez canal. It is the German effort to make quick conquest of Egypt and the Suez canal.

Coordination Example  
Thus we have a classic example of Nazi coordination on a big scale. Actually Rommel's forces form the right flank of Hitler's Caucasian drive. The fuhrer's plan for this operation, which encompasses many countries, is this:

Hitler's drive is inaugurated at the peak of the crisis in his master's battle in southwestern Russia. It comes at the critical moment when Stalinograd is in grave danger, and the Nazi chief is threatening to break through into the lower Caucasus.

Winter Night's Hunt  
And it's important to note that this latter phase of the plan could be carried out after winter had largely stopped fighting on the Russian front north of the Caucasus. The winter isn't over in the southern Caucasus, and military operations both there and in the middle east would be quite feasible.

There is much encouragement in the news that further American forces have gone into action, although we have few details. It is a sign that our strength in the middle east is being taken to register in a substantial way.

## Tojo Is Now Free to Attack Reds, A. P. Writer Declares

(Editor's note: The following interpretation of the resignation of Japanese Foreign Minister Tojo is by a member of the former Associated Press bureau in Tokyo who returned to the United States last week after months of internment in Japan.)

By JOE DYMAN  
NEW YORK, Sept. 2.—The sudden resignation of Japanese foreign minister, Shigenori Tojo, leaves the military clique in the pet of Premier Hiroki Tojo more than ever in control of imperial policy, free to thrust at Siberia at any moment.

Coupled with Japanese action elsewhere, on the continent and in the Aleutians, the withdrawal of a known exponent of a neutral attitude toward the Soviets certainly paves the way for Japanese attack.

Besides leaving Premier Tojo absolute and direct control of Japan's foreign relations, the shift gives the premier a formidable weapon—the threat of attack—to use in a drive to seeking to force the crossing of Siberian outposts to Japan.

Stilwell Sees Red Action  
(By New Delhi, India, Sept. 2.)—Joseph W. Stilwell declared he had just received unconfirmed reports that the Japanese seem to be taking the defensive everywhere in the Chinese-Burmese theater—which may mean preparations to attack Siberia.

(Stilwell, who is the United States commander-in-chief in India, China and Burma, said the Japanese were known to have "very strong" troop concentrations in Manchuria and had added, in answer to a question, that he thought there was a "good chance" that they would attack Siberia.

(The general, here on an inspection of the far eastern military situation, said he could not check on the information until he returned from India to his China headquarters.)

He said it referred, however, not to the well-established Chinese advances in Chekiang and Kiang provinces but to unconfirmed reports that the Japanese are building defense works along the Indo-China border and along the Chinese railway.

Territory Sought  
In Tokyo before last June there were rumors that Japan had been seeking to negotiate with Russia for

creation of certain territory from the time Ambassador Yoshitake returned from Moscow because of "illness."

These rumors said Japan was asking Russia to surrender the northern half of Sakhalin island, Kamchatka peninsula and the Siberian maritime provinces which embrace Vladivostok to Japan for "safekeeping" until the end of the war.

When he was recalled from Moscow to Tokyo last October to take the foreign portfolio in Gen. Tojo's streamlined military dictatorship cabinet, Tojo was billed by Japanese propaganda as the man who would preserve a semblance of amiable relations along the northern border.

Prepared Ground for Treaty  
An ambassador in Moscow at the time of Yonke Matsuo's junket to Europe, Tojo prepared the ground for Matsuo's treaty of neutrality with Stalin in the spring of 1941 a few weeks before Hitler's assault on the Soviets.

Correspondents who have been in Tokyo since the outbreak of the war, phrase, roughly translatable as "according to the conditions of the time which the emperor Koyhabe used a year ago to describe Japan's position on the neutrality pact."

What he meant was that Japan would observe the treaty as long as conditions prevailing when the document was signed continued to exist. The story was quickly censured.

Dayley said that every home in the area was hurriedly including 13,655 in the Twin Falls district. Price Administrator Leon Henderson and James M. Landis, chief defense head, praised the Boy Scouts for their support of the war effort in a letter received today. The Scouts distributed 25,000,000 of the pamphlets throughout the nation.

# LABOR FOR IDAHO FARMS AVAILABLE

DOIER, Sept. 2 (AP)—An expected farm labor shortage for southwestern Idaho harvests has failed to develop, George Gochinour, farm labor placement supervisor for the Idaho division of the U. S. employment service, had reported today.

Despite this development, however, the situation remains critical in other areas, he said. Gochinour said some 1,500 workers, many of them transient workers from mid-western states, are on

hand for harvest duties in the Wilder area.

The influx was due to "satisfactory wages" being paid and the relaxation of harvest work among hops, onion, potato, fruit and beet crops, to give a longer work season, Gochinour said.

He reported, however, that new reports indicate the number of Japanese available for harvest work from the Eden relocation camp will be considerably smaller than at first anticipated. Previous estimates set the number at 2,200, but opportunities for employment in other areas apparently have reduced "considerably" the number available for Idaho, he said.

Gochinour said he believes the influx of workers in southwestern Idaho is a favorable indication that the labor shortage will be relieved, although not entirely, in other areas of the state.

# Labor Available For Cassia Farms

BURLEY, Sept. 2.—Ted Hicks has started his work in Burley as Cassia county manager of the U. S. employment service. He succeeds David R. Fisher, who has left for Portland to work in the shipyards. Hicks formerly taught school in Rupert.

Hicks reports that there is now farm labor available and workers may be obtained by calling at the employment office.

# DECEMBER STATE MEETING ASKED

PAUL, Sept. 2.—A picnic dinner was held when the Rupert, Emerson, Pomeroy, Empire, Hopewell and Paul Pomona Granges met at the Paul park.

A business meeting was held with Sup. J. B. Pringley of the Paul school as a special speaker. He discussed Grange work and gave a brief account of his trip through Mexico a few years ago.

A request was sent to Gov. Clark by the Minidoka County Pomona

asking that permits be given each farmer to haul his own corn and neighbor's crops to market without buying a truck commercial license. A request also was sent the state Grange executive committee meeting at Caldwell today that the state Grange convene in December to hold the first week in December instead of November owing to the shortage of labor on the farm. About 65 members were present.

WHEZ I drop into Sam Abernethy's store, I usually come away with something worth remembering.

Sam's our town's most successful storekeeper and he's not one to do much talking, unless he figures he's really got something to say.
