By HENRY C. CASSIDY

MOSCOW, Jan. 14 (AP)—The army's cone-like drive through the Caucasus was reported turning wider on both sides of the Rostov-Baku trunk line as separate spearheads of the assault stabbed on through towns more than 20 miles west and 50 miles north of recaptured Mineralnye Vody.

Despite German attempts at a stand, the Russians were widening their front in fighting unchecked by steady rains and wet snow which bogged the fertile valley fields with mud and water.

A dawn fog was on the march in the continuing drive, officials announced.

German reports that the Russians had launched new offensives against the Leningrad area line on the Voronezh front, recaptured early this week.

# Lafayette Group Blasts Foe From 2 Africa Heights

By The Associated Press

French troops aided by the new P-40 equipped Lafayette escadrille blasted the Germans from two strategic heights in the mountains about 16 miles northwest of Kairouan, in Algeria, yesterday, it was announced today.

The attack marked the first offensive operation by Lafayette escadrille fliers in the Tunisian theater. The first acquisition of the modern organization, composed of French aces who shot down an average of seven to eight planes each in the brief battle of France, arrived at U. S. fighter base Monday.

A French spokesman said the gain is important. He said the captured heights were held by about 100 German troops, only 100 from the desert northward from Pichon.

# BILL INTRODUCED ASKING LEVY ON SLOT MACHINES

By JOHN COLLIER

BOISE, Idaho, Jan. 14 (AP)—The bill to raise the tax on slot machines, for revenue to aid in financing public assistance, was introduced in the house today by Rep. Arthur P. Murphy, D. Shoshone, and Rep. James Vetter, D. Kootenai.

The bill recites that incentive machines will be licensed as such as to whether such operation is legitimate as a business or as a means of collecting the tax.

The measure proposes, as does the one in Washington state, to tax pin ball machines at the rate of 10 per cent, and slot machines at the rate of 20 per cent.

Unemployment Compensation. One would set up experience rating to reduce the unemployment compensation tax of industries whose employment turnover is high, but it would not increase the rate 2.7 per cent to employers whose turnover is heavy.

# P-T Boats Torpedoed, Two Jap Destroyers

By SANDOR S. KLEIN

WASHINGTON, Jan. 14 (AP)—Lightning swift motor torpedo boats have damaged Japanese destroyers that apparently were attempting again to reinforce or supply enemy troops on Guadalcanal. They scored torpedo hits on at least two of the invading warships.

The action took place Sunday night in the western part of the Guadalcanal area, where the enemy fleet withdrew to the north.

The U. S. navy did not disclose the size of the Japanese force nor whether it succeeded in landing troops on the island, but it is reported that one destroyer was sunk and another was damaged.

### COLLEGES DURING MANY FROM HUNT

HUNT, Jan. 14.—With the opening of a new semester not far off at a most college, more students are leaving the Minidoka relocation center on indefinite leave to resume their studies.

In the past three weeks 11 students have left the center, going the total to 58. They are attending schools in 15 states: Utah, 10; Colorado, 2; New York, 7; Illinois, 4; Michigan, 1; Texas, 1; Ohio, 2; Pennsylvania, 2; Nebraska, 1; Washington, 5; Montana, 2; Indiana, 2; Iowa, 2; Missouri, 1; and Wyoming, 2.

Sixteen young American soldiers of Japanese ancestry from the center are enrolled in the army intelligence language school at Camp Savage, Minn., to become interpreters for the army in Pacific battles areas. Twelve of these young men are teaching Japanese at the navy language school, Boulder, Colo.

More than 40 Japanese-Americans from this center have obtained indefinite leave to work outside. To obtain indefinite leave an evacuee must be cleared by the FBI, must have community acceptance where he is going, and it is an employment letter, he must have a job waiting for him.

With nearly all of the workers returning from harvest furloughs the center's population has climbed back to approximately 2,200. At one time during the harvest season 2,300 workers were out of the center.

### Mrs. Meserole's Funeral Services Held in Gooding

GOODING, Jan. 14.—Funeral services were conducted for Mrs. Alma L. Meserole, wife of Edwin D. Meserole, at the Thompson chapel with Rev. C. H. Northrup officiating.

The background music was provided by Mrs. Lloyd Snively, and a vocal quartet.

Mrs. Meserole died at her home in Gooding following an illness of two months. She was born at Union, Ill., Dec. 26, 1889, and was married to Edwin D. Meserole at Mountain Home, Jan. 1910.

She came to Gooding with her husband and family in 1920 and had lived here since. Mrs. Meserole had been active in civic affairs and was well known to all.

Besides her husband she leaves three daughters, Mrs. Ruth Crook, Gooding; Mrs. Eva Butler, Lewiston; Mrs. Margaret Johnson, San Francisco; two sons, Corp. Frank Meserole, with the army air corps, Fresno, and Charles Meserole, with the air corps at Ogiver field, Spokane; her mother, Mrs. F. C. Clifton, and a sister, Mrs. Della Smith, and a brother, Harry Smith, all of San Diego, Calif.; another sister, Mrs. O. J. Housh, Salt Lake City and a brother, Bert Smith, Boise. There are three grandchildren.

The children were home with the exception of Mrs. Tynan. Also present to attend the service were Mrs. Langston and Mr. Smith.

Funeral services were held at Gooding, Idaho, at the home of Mrs. Meserole, on Jan. 13, 1943, at 2:30 p.m. Burial was in Elmwood cemetery here.

### England Reveals Secret of How Bombers Removed Mines

LONDON, Jan. 14 (AP)—The air ministry released a three-year-old secret today in telling how Wellington bombers helped clear the seas around Britain's coasts of the deadly German magnetic mines which were Hitler's "secret weapon" and which threatened the supply lines of three islands in the last three months of 1939.

The story of the "hazardous and unappreciated work" was told for the first time in "coastal command," a new booklet in the series on the British air force, the first of which was "Battle of Britain."

The mine sweepers of the air were equipped with a "hoop-shaped cone" extending all around them and secured to their nose, wings and tail.

The equipment was designed to set up a magnetic current which would set off the then new type of mine.

"Coastal command" said that "when the mines exploded the Wellingtons were severely jolted and their crews had no warning to brace themselves, for they could not know the moment when they would pass over a mine."

### ARNOLD SLATED FOR JUDGESHIP

WASHINGTON, Jan. 14 (AP)—Informed sources said today that Thurman W. Arnold has been selected for a place on the United States courts of appeal for the District of Columbia when and if the senate confirms Wiley B. Rutledge, Jr. as a member of the supreme court.

Arnold is assistant attorney general in charge of the audit-trust division. Under his direction the division's activities have been greatly expanded.

Talk of Arnold's selection for a judgeship began around mid-December and interested in the class immediately preceding President Roosevelt's nomination of Justice Rutledge on Monday. Today responsible sources which could be further identified said he has definitely been selected.

Arnold is known to have been approached on previous occasions for places on the bench but had avoided actual offers of such nominations, since he preferred the more active life of an assistant attorney general. He is reported to be ready to accept a place on the appeals court here, however, since it would permit him to remain in Washington.

TUCKER'S NATIONAL WHIRLIGIG

SHOES—High army officials have become extremely nervous regarding American war correspondents' handling of the shoe situation.

In an early cable from Britain, Clark Lee, the brilliant war correspondent, has written a special commendation, described the Japanese invaders as "immature youths."

THE TUCKER—If the pipe were so young and inexperienced that it could not understand why our troops were being pushed around and defeated in that area.

When this message reached Washington, a friend telephoned Major General "Alex" Barker, the able and noble leader of the military section.

"Well, Clark came through all right this time, didn't he?" He pointed the toe as last-ditch stragglers and killed.

"Yes," growled Alex, "but he didn't have to lug in the shoes." That was putting it on a bit too thick.

"The major is working on it," said the newspaperman, even when he tries to be accommodating.

CAPITALISM—American businessmen, under the auspices of conservative cabinet members Jesse H. Jones, have launched a program of domestic postbellum reconstruction and reemployment for strictly military reasons.

These are the considerations which lie behind the ex-officio creation of the committee for economic development. The survey committee, headed by Mr. Jones, has launched a program of domestic postbellum reconstruction and reemployment for strictly military reasons.

FOILED—The Republicans' lack of sufficient funds to hire a political publicity man with the impish reputation of "Charley" has caused the defeat of their presidential election. They have their best chance to get to the White House in a generation, but they may go soomph for want of a few thousand dollars.

The most anti-New Deal incident in a decade occurred in the district of Columbia when the House of Representatives voted to strip the title of "Honorable" from the name of the late Senator Charles McNary.

REBELS—C.O.P. representatives have played one of their most brilliant moves in the last few months. Now that the Democrats have been permitted to organize the lower chambers and elect their own speaker, they have elected a member of the party to the House of Representatives.

INSULT TO A MARINE—Dear Pat Shooter: I have the county general hospital here in Twin Falls. I have a nurse named Larry, a handsome fellow, and the recruiter doesn't like it a bit.

TROUBLE—The war will cause as much relative damage to industry in the near future as if American stores and factories had been subjected to block-busting attacks on a Cologne scale.

The French are divided into several political and economic circles. The dominant one is the "rightist" circle, headed by the late Marshal Lyautey.

FLUIDITY OF WAR

The current war industries conversion program is a head-on collision with the economy. It involves more or less shutdown temporarily, which in turn means unemployment, a slowdown in the flow of wage dollars, an upset in the normal routine.

When the need for a shift in production emphasis first was announced, boards of directors and commerce sent delegations to Washington to protest. These protests did not get far.

Mr. Gen. Levin H. Campbell, chief of ordinance, recently explained the inevitability of such changes in direction with unusual clarity. He illustrated it understandably.

In the British Isles for some time, as we can hardly forget, there was an enormous use of anti-aircraft ammunition against Nazi bombers. American industry had to be geared up to supply the shells.

Then recently there was a period of almost three weeks during which not a single anti-aircraft gun was fired for any purpose. Our production, geared to heavy use, piled up a big reserve.

So long as United Nations industry and materials cannot possibly supply all of everything we need, it would be criminal to keep on turning out millions of unnecessary anti-aircraft guns when the need for them has passed.

Also, there is need now for changeover from the weapons of defense to those of offense. This means more ships to transport and more planes to carry bombs. We must concentrate on getting them where they are needed for use.

# RAF, AMERICAN BOMBER UNITS MAKE CONTINENTAL RAIDS

## ESSEN AND LILLE MAJOR TARGETS

LONDON, Jan. 14 (AP)—Essex, the most famous of the first Group's operations, was battered by 100 tons of explosives and incendiaries in a night raid on the RAF's third consecutive night attack on the industrial Ruhr valley, it was announced officially today.

The air ministry said four of the bombers which carried out the destruction on the repeatedly-raided industrial center were test.

Other parts of the Ruhr also were hit, but Essen was the main target, a communique declared.

It was the RAF's eighth attack on Germany in 11 nights.

The communique announced the loss of one fighter aircraft on operations over France and Holland, and said "Hudsons of the first command, without loss, attacked an enemy convoy off the Dutch coast. Two enemy supply ships were hit."

Obtained from young western plains equines, the meat is pronounced "tender as butter and as good as beef" by packers who say it will sell at 35 cents a pound. Boston is only other major city to have sampled shipments of horse meat so far.

## Japs Join Axis on Allied Music Ban

LONDON, Jan. 14 (AP)—Japan has adhered to the axis on the musical front, a German broadcast disclosed from Tokyo today.

The Japanese government followed Germany's and Italy's leads in banning the playing of American and British music, the dispatch said.

Foreshores of American and British gramophone records were ordered to hand them over to the authorities, it was said.

Ladies aid donated \$5 to buy material and have offered to make up the material along with its regular quota of work. Hattie Grange has donated \$10 to help buy materials for filling dirty bags and sewing kits.

## DWORSHAK GETS HIGH HOUSE POST

WASHINGTON, Jan. 14 (AP)—Assignment of Representative Dworshak to Idaho, to the house appropriations committee gives recognition to his key committee to the northwest and the intermountain country.

Available records do not show that Idaho has had representation on this committee since Burton L. French retired several years ago.

The post is considered of special importance at this time because of the economy trend indicated in connection with newly-elected congressmen and others. It has been predicted the committee not only will make an effort to curtail drastically non-war expenditures but will scrutinize war and navy department expenditures in an effort to effect greater efficiency.

Dworshak is beginning his third term as representative from Idaho's second district. He relinquished places on the irrigation and public lands committees to take the post on appropriations.

## Ranch's Foreman Discovered Dead

HAGERMAN, Jan. 14—Antonio Artillo, foreman at the Charles Abbott ranch for a number of years, was found dead in bed Jan. 12. Death was caused by a heart attack.

Mrs. Artillo was born in Spain and is survived by his wife and two daughters at Mountain Home and one daughter with the armed forces in Africa.

**FIT**  
CAMPBELLSPORT, Wis. Jan. 14 (AP)—Edward M. Bauer, a Campbellsport bartender, had a new pair of pants today measuring 40 inches in the waist, 44 inches in length and 20 inches from belt to crotch—and they fit perfectly.

The pants were offered as a gift by a Michigan City, Ind., clothing manufacturer to anyone they would fit and Bauer claimed them. He weighs 630 pounds.

## Autos Collide on Jerome Highway

JEROME, Jan. 14—Damage estimated at \$100 resulted in two automobiles which collided a half mile west and a mile south of Jerome on a country road.

The machines were driven by Henry W. Handy, and Ernest N. Mayburt. Officers reported that the accident was caused from the extremely "ratty" condition of the roads.

About 350,000 board feet of lumber, lying in scaffolding, are required to build a steel lighthouse.

## DRIVING TO FDR BALL IS BANNED

WASHINGTON, Jan. 14 (AP)—The office of price administration today had specifically banned driving to the President's birthday ball this month in an interpretation of the ban on pleasure driving in the eastern gasoline shortage area.

OPA said driving to any place of amusement, even though the affair was for charity, was pleasure driving, and gave the President's balls

### GERMANS SPEED LABOR PROGRAM

**By GLENN HARR**  
*(Wide World War Analyst)*

Hitter is carrying on a scientific campaign to mobilize the economic resources of the German economy. Including labor, as part of his preparations for fighting the forthcoming struggle against the anticipated allied blows of 1943.

Only if Germany were content that the Soviet of the Molotov-Goring pact who are hungry—wondering to eat alone but to all wealth and the means of producing wealth. Hitter will stop at nothing to win European; he will organize all Europe if need be to get what he requires for his war machine.

**Desperate Search**

Hitters search for labor is made more desperate by the claims of his army on German manpower. A Stockholm dispatch reports today that a military committee is studying the reach to round out perhaps one or two million men. Hitter is expected to order military conscription.

Heavy losses in Russia must be replaced, the demands of the second front already opened in the Mediterranean area and of the preparations against a third front in the west must be met. At the same time war industry must be expanded and accelerated to an unprecedented degree in the attempt to match the production of the United States, the British Empire and Russia.

So Fritz Sauckel, the fuhrer's commissar for the handling of labor, through his agents over all Europe. All the available and conscripted hands are being increased pressure to supply men, either as soldiers or workers. Sauckel, it has been said, is working toward the goal of 6,000,000 men working in Germany and he is already approaching that goal.

**Output Hitter**

It would be folly for the United States not to anticipate a greater German war output this year than ever before. U-Boats still are being produced faster than a rail train; Germany's aircraft industry continues to give the allies a real contest in the race for more better types; testimony from many fronts is that the German forces receive a steady flow of new powerful, constantly improved weapons.

Hitter's war machine no longer enjoys the terrible physical advantage of trained manpower and weapons. It held over all adversaries in 1940-41 but that is because of the timing, might of those adversaries.

### This Sailor Aided Marines in First Landing on Guadalcanal

\*\*\*\*\*  
**Lots of Action**

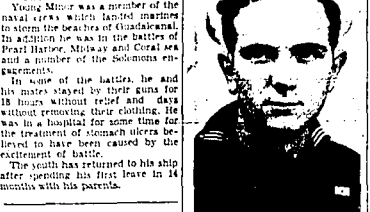

Junior county sailors along with those of other Magic Valley areas, have seen the largest kind of action. He was in the first American landing on the Pacific, the landing on Guadalcanal.

He is Roy O. Minor, of 301 N. 1st, and Mr. C. O. Miller, farmers in the Park City district.

Young Minor was a member of the naval crew which landed marines to stem the beaches of Guadalcanal. His action was in the battles in Pearl Harbor, Midway and Coral sea and a number of the Solomon's engagements.

In some of the battles, he and his mates stayed by their guns for days without resting their clothing. He was in a hospital for some time because of the treatment of stomach ulcers believed to have been caused by the excitement of battle.

The sailor has returned to his ship after spending his first leave in 14 months with his parents.

### DECREE UPHOLDS USERS OF WATER

**HAILEY, Jan. 14**—Decree has been filed in the Upper Wood River Water Users' case.

Judge M. H. Coffin, watermaster, ruling the users formal approval for diversion and that the miners' leeches of water from upper the Wood river.

This is a "lien right" for water obtained from the flow of what is known as the Draggline ditch, which flow becomes available for diversion into canal No. 61 or below and fills big Wood river lower prairie.

The ditch will take the priorities of the big Wood river water rights, (decreed at Headgate No. 41) or below, which the primary right is the time is filling from the Draggline ditch. The right is to be deemed available in that part of the irrigation season beginning six days after the time when the flow in the river above the dry beds has diminished to a point where the capacity of the case line by-pass is sufficient to carry the entire flow of the river. The lien right is "not to be deemed appurtenant to any particular land but is an independent right subject to rental, sale and use by patent upon lands in the upper big Wood river valley.

Last summer no Draggline water was available for sale because the watermasters refused to deliver it until a decree was obtained. It will now be possible again to purchase this water.

### Blaine County's Red Cross Ships 3,000 War Units

**HAILEY, Jan. 14**—Miss Myrtle Friedman, chairman of the production committee of Blaine county's Red Cross chapter, has reported the chapter has shipped approximately 3,000 garments and hospital supplies.

Of this number, 740 were sent directly to an armed forces training camp. During December, shipments were made to the navy depot at Oakland, and the national hospital of the army air forces, Kearns, Utah; the Panettello air base; special orders ordered through the Red Cross chapter at San Francisco. This month a shipment of 240 shirts and knitted garments and hospital supplies has been sent to the holding depot at the chapter.

The chapter has just received an emergency quota to be made up of 125 utility kits, 125 sewing kits and 125 hospital supplies. These must be made up and sent in before the regular 1943 quota is undertaken. The regular 1943 quota of parage has been reduced to 1,175 yards of material, the largest part of which will go into the making of hospital garments. At present there are 338 hospital sleeping garments and 94 hospital blankets in the course of construction, and 330 city duds and sewing kits ready to be filled.

With the combined world-wide news gathering facilities of the Associated Press and the United Press, the Times-News leads the field in keeping Magic Valley posted up-to-the-minute on latest developments in the war.

Published right here in south central Idaho, the Times-News naturally has a decided advantage from the standpoint of distribution. Consequently it can go to press just that much later with important last-minute news dispatches that can be found in no other newspaper in the territory.

With special correspondents on duty in every town in the area, and its entire news gathering organization concentrating on coverage of south central Idaho, the Times-News is FIRST in every respect when it comes to serving the people on the "home front" with ALL THE NEWS in which they are interested.

Outstanding in the Times-News are its sports, social, editorial and market pages, all of which are edited solely for the people of this vicinity. As for columnists, commentators, cartoons, comics and special features, those in the Times-News are second to none.

To round out its service to this area, and so all of its readers may be given the latest possible news coverage, the Times-News publishes both day and night—a late afternoon edition for those who receive their paper by carrier in the evening, and a final mail edition that goes to press after midnight for those who get their paper by mail in the morning.

In spite of present wartime conditions, the Times-News has maintained all of these many services—which have made it an outstanding newspaper. Although this has been difficult at times under the circumstances, it is evidence of our policy to give our readers the best newspaper it is possible for us to produce.

You be the judge. Compare the Times-News with any newspaper available in Magic Valley. Notice the number of last-minute news stories and the many exclusive items pertaining particularly to this area.

You'll be convinced that it's the one newspaper for the people of Magic Valley.
