I. S. Planes Sink 3 Jap Destroyers And Cripple Four

By The Associated Press

American bombers and torpedo planes were officially credited today with sinking three Japanese destroyers and crippling at least four others in a double-barreled attack on enemy warships desperately attempting to evacuate their troops from Guadalcanal the first week in February.

Delayed dispatches from the prize island, now completely in American hands after the annihilation of a 15,000-man Japanese army, said U. S. planes first attacked 20 destroyers and the Japanese "escort flotilla" near New Georgia island, Feb. 4.

American dive-bombers scored direct hits on one destroyer, sinking it in three minutes, and two other destroyers were damaged. Seventeen Japanese zero fighters attempting to screen the warships were shot down, against 10 American planes lost as missing.

Planes said the rest of the Japanese destroyers steamed on toward Guadalcanal and were believed to have evacuated 1,000 officers and technical personnel under cover of pre-dawn darkness of Cape Esperance.

Alarmed on an offensive Once again, U. S. planes took the assault against two destroyers and a cruiser, Feb. 5. Estimates of Japanese losses in the six-month campaign continued to mount, including virtually all land fighting and 50,000 in the island fighting alone.

Estimated at 15,000 killed, the Japanese army on Guadalcanal was heavily reinforced, and Maj. Gen. Alexander, who commanded the marines on the island, said in a dispatch that the enemy lost 30,000 men in a single landing attempt.

In a month of campaigning, "waterfront" we took only 360 prisoners. 1,000 Evacuated

Maj. Gen. Alexander H. Hammer, commander of the U. S. army troops in the south Pacific, said probably 1,000 Japanese, including virtually every high officer, were evacuated from the island in the week before the Japanese "battered out" the last enemy resistance.

Approximately 6,000 Japanese were reported killed in the campaign, said the New York Times. On the New Guinea front, Gen. Douglas MacArthur said that the enemy was retreating toward Mubo, only 12 miles from the Japanese base at Buna, after leaving 10,000 dead on the battlefield.

A communiqué said total enemy losses, including wounded, were many times the number known dead. Allied forces were officially credited with the total victory.

Imperial Tokyo headquarters made the totally uncorroborated claim that Japanese submarines had sunk six ships totaling 40,000 tons off the east coast of Australia, three mid-January.

On the New Guinea front, British headquarters reported that Field Marshal Archibald P. Wavell's Imperial Force had driven back the Japanese from India, had thrown back the remnants of sharp Japanese counterattacks along the border of Bengal.

A communiqué said the enemy attack in the region of Bengal, India, had been repulsed, some 25 miles north of the key Japanese coastal base at Rangoon.

Fighter-armed RAF bombers were said to have bombed three Japanese convoys, and the fighters shot up enemy transports on patrols from which all aircraft returned.

FLASHES of LIFE By Associated Press

CHANGEABLE KANSAS CITY, Feb. 12.—The weather here today is really handsome. It is a fair day with a temperature at 10:30 a. m. of 5 degrees; at 10:30 a. m. of 10 degrees; at 11:30 a. m. of 15 degrees; at 12:30 p. m. of 20 degrees; at 1:30 p. m. of 25 degrees; at 2:30 p. m. of 30 degrees; at 3:30 p. m. of 35 degrees; at 4:30 p. m. of 40 degrees; at 5:30 p. m. of 45 degrees; at 6:30 p. m. of 50 degrees; at 7:30 p. m. of 55 degrees; at 8:30 p. m. of 60 degrees; at 9:30 p. m. of 65 degrees; at 10:30 p. m. of 70 degrees; at 11:30 p. m. of 75 degrees; at 12:30 a. m. of 80 degrees; at 1:30 a. m. of 85 degrees; at 2:30 a. m. of 90 degrees; at 3:30 a. m. of 95 degrees; at 4:30 a. m. of 100 degrees; at 5:30 a. m. of 105 degrees; at 6:30 a. m. of 110 degrees; at 7:30 a. m. of 115 degrees; at 8:30 a. m. of 120 degrees; at 9:30 a. m. of 125 degrees; at 10:30 a. m. of 130 degrees; at 11:30 a. m. of 135 degrees; RED CROSS WORK TOLD TO JAYCEES

Mrs. John Hayes spoke on Red Cross activities at the monthly dinner meeting of the Twin Falls Junior Chamber of Commerce held Thursday night at the Park hotel which was attended by 75 members.

Bud Fisher, Salt Lake City, public relations representative for the Standard Oil company of California, showed motion pictures.

A good deal of the program was devoted to discussion of the Jaycees state convention to be held here April 17 and 18, the civic awards banquet scheduled for Feb. 23, and the membership drive, which is to start March 1, according to President Russell Thomas.

Thomas said a number of Jaycees is planning to attend a meeting of directors.

cees who want to attend can make arrangements by contacting the president, who said it is hoped the Twin Falls can have a good representation present.

Farmer, 63, Dies

At Friend's Home

August Brandt, 63, Murtaugh farmer, died Thursday at the home of a friend, E. P. Rudolph, Burien.

Mr. Brandt had been ill for the past several days and had been at the Rudolph residence for about a month.

Mr. Brandt was born April 18, 1879, in Baraboo, Wis. He attended the Murtaugh Community church.

He was preceded in death by his wife, Mrs. Emma Brandt, and a young stepson, Raymond P. Ball.

Funeral services will be conducted at 4 p. m. Monday, Feb. 15, at the White mortuary chapel by Rev. L. White.

TUCKER'S NATIONAL
WHIRLIGIG

TAXPAYERS—Uncle Sam's final war bill will be boosted by approximately 10 per cent because purchasing agencies must operate on the basis of an industrial W. P. A. program instead of according to normal business methods. President Roosevelt devised the system and congress legalized it under pressure from three powerful

RAY TUCKER

Those responsible for this admittedly costly and cumbersome arrangement are the small manufacturers, labor leaders and the capitalist hill politicians they control. They forced F. D. R. to abolish the procedure under which capitalists wanted the house and senate to bidder. They pushed that plants employing less than a hundred men be given preferential treatment even though their products might be less effective and more expensive than those of larger competitors. The fundamental idea is to preserve a sound and well-balanced economic structure for postbellum days. The necessary means are to be found in the public bill for federal control of the economy.

Increased expenditures resulting from this well-meant philosophy vary in different lines. An added charge of 10 per cent is considered a conservative estimate for the over-all outlay; it may run to 20. With the ultimate victory budget now fixed at \$225,000,000, the experiment may nick taxpayers for a sum somewhere from 20 to 40-plus billion.

T.O.-GERS—This plan imposes a financial burden on the quartermaster general of the army. He schedules the production of our soldiers' personal and household equipment: Shoes, uniforms, mattresses, blankets, mess kits, etc.

The Q. M. could obtain all the footwear he needs from the shoe stores and have the hands out an extra \$100,000 a month because he must split the work among 65 firms. He did not dare accept foreign wool for the uniforms because of the domestic prejudice against Australian and South American brands. He got much cheaper, Argentine canned beef is less expensive than the home variety. But had he flared with strange hatters, he would have lost his job.

Two Texas companies located near the cotton fields could keep the army in mattresses; they have received only five per cent of the orders for this article. They have been paid for the last four months in dollars. The rice is caused by the southerners' insistence on a 110 parity price.

BOOTHIS—Belief that the political tide has turned is based on more than hunches. A factor which gave backbone to recent revivals on Capitol Hill against the administration was the congressional election which passed almost unnoticed. It gave Republicans in Washington higher hopes for a 1944 comeback than even the November landslide. It was held in the sixth Missouri district to fill a vacancy caused by the death of the man who won the seat in this normally

[illegible]

GIVEAWAY—Uncle Sam's official garment makers wailed with patriotic indignation when they were told to make olive drab instead of white underwear for the heroes and their ancient and honorable trade.

Their spokesperson stressed Washington, pointing out that the pants would soon up pretentious "big" several sizes to the coat. Besides, they were made by the United States Army and Navy, and they were never mind the delays. Never mind the shortage of drabs. This is not a "fool order," as you say. It isn't designed to make them seem cleaner and save the

"That's not all at all. Did you ever stop to think that a clothesline full of white shirts and shirts swimming in the wind makes an ideal target for an airplane?"

fields, ammunition dumps are somewhere near by!"

SERVICE—The WAACs are performing better than old army gauds had expected. They are acting as clerical workers, couriers, cooks, truck drivers and factory skippers. If the war lasts long enough, the only duty the capable young ladies may not see is actual battlefield service.

Other Points of View

FOR LOOSE TALKERS
Representative Andrew J. May of Kentucky roused a good many false hopes last summer when he made the wild-eyed statement that the war would end "prob-

Nobody was in 1942 and unquestionably in 1943. Nobody anybody have believed a man like who made such a rash forecast, but May is a veteran member of congress and chairman of the house military affairs committee, so it might be presumed to know what he was talking about. But he has been known to make blunders except to say that it was based on "a military secret."

"Things looked much less promising last July 6 than they do now," said May. "I am not at all certain." However, nor Prime Minister Churchill has predicted even that the war will end in 1943. The president has been farther than to express a hope that it will.

Churchill says that the tide may turn even marks "The end of the beginning."

Representative May now has taken back his fanfare. He says that he had expected this week by the following statement in the house:

Nobody is able to say whether the war will last ten years longer, five years longer or 10 years longer. It did depend upon the progress of the front par, the middle part or the last part of the most difficult war in history.

The government and the government and some in private life, have occasionally made statements almost as sweeping and as groundless as May's forecast. His retraction could take something from the confidence of those who look to Louis Brandeis Dispatch.

NO AUTOCRACY:
These are days when American labor, for its own sake as well as for patriotism, should pipe down and wait for the coming of the day when it can speak as quickly as possible is as important to labor as it is to capital. A long war would be a war of exhaustion in the end.

Any kind of "labor war" this year especially would be a calamity, whether it appeared in the mines or the mills. There have been threats made especially in the coal industry, where many people expect trouble in the spring.

It seems to be the general opinion among well-informed people that the government will not make wage concessions. These concessions, however, would be more readily approved by the public if there were no strike. The government will not make concessions to miners declared for a new deal with a more representative setup. Many of the miners themselves seem to be in a hurry to get the new deal. They say the new deal will not work much longer.—Caldwell News-Tribune.

It is reported that about half of the help demanded by government in Washington is working. The other half gets in each other's way trying to find something

ANALYZING CURRENT NEWS
FROM NEW YORK

POLITICIANS — Republicans in this interim period are hunting for the plank and the man to win two years from now. In congress the McNary - Martin band is on the lookout. In New

YORK, campaign fund center and home of three of the party's four presidential candidates, other leaders also are being displaced here for the first time in the present cycle of an extremely important set of national figures and war carapace.

The issue in 1944, according to this group, is war or peace-efficient

on the C. right under the nose of unsuspecting brewer and distillery owners. Chief apostle of the party is a highly organized direct mail driver with streamlined copy pads and slogans, headline presentations, arguments and plans for buying John Deere tractors.

Latest move is a coordinated battle in the south to pass dry referendums to control the sale of state-controlled alcoholic beverages. The campaign is to encourage voters to import for religious revival missions in the metropolitan areas. The

The white abolitionists' management of the effort if the fight is still on, was settlement if the fight is at hand. It was the standard-bearers to start talking on a plane above trivial matters because the white abolitionists, like the Negroes, were upsurge. Roosevelt for someone who was a democrat, was not averse to supreme leadership capacity.

The white minority failed to make the race in the last two contests because it catered to disgruntled Negroes. It should not be getting into an alliance with the Jeffersonian

The white abolitionists in Dixie were known as "honest" and "simple" arguments. Reports that national agents of extremists were brought down twice each year on bottled goods sales, especially in the South, were not true. The long bones lines waited to reach their

Democrats act in conjunction with the voters to place the party ticket. If it seems impracticable for the voters to place the ticket, the publicans, they can nominate the same man carrying their own chosen label. The ultimate decision will be decided by the electoral college.

The alternative is for conservative Democrats to run their own and split the party, as was done in the G. O. P. in 1912. Roosevelt in 1912. The danger of this course is that scheming G. O. P. Democrats might get the victory.

PRIVATELY—The influential parents who hold these views are, however, not aware of the gravity of domestic and international situations—ever if firing will be offered in advance not only a veto to the American consul, but the key officials for his administration. Privately counselling men, capable of such a deed, are not only

bureaucracy and dealing with the great peace problems of employment, housing, education, and health. The project will be named **DEPOSING** the **BOSS** and will be headed by a committee of this all-star team which is in control of the government, subject of course to the approval of the executive. In accordance with the constitution, the president will be the Partnership of Republicans and Jeffersonian Democrats would be the president.

Next, the war and the total defeat of the axis powers. In the future, the world will be a free world.

And now, the most important part of the program. The world is in sorrow and misery will be your fate. Glastop always said that the world is a free movement always and the world is a free movement.

The nation has a big concern and now that Stalin's three legions have been defeated, the world is terrified. Supported in the early days by reichsmark troops, the legions of the world are now the legions of Russian territory and gave them the world. The world is now in occupation. Now the sons and daughters of those abused prisoners are now the world.

CLAPPER'S OBSERVATIONS NOT AT WAR

WASHINGTON, Feb. 12.—The proposal of Senator Gillette of Iowa that the United States should send troops to the Balkans to prevent Russia from establishing a permanent military base there, and possibly as ominous as the

Yet Senator Austin, a strong Republican, who is also a member of the Senate's foreign policy, believes there is more chance of agreeing on war powers after the war than after the war.

The administration does not want to be forced by anything like the Gilette resolution. In fact, the administration would be relieved if Congress passed such a law while war was airmen and United States military personnel were overseas that have served up to the moment.

The preoccupation now is with the military situation in Vietnam.

at the earliest possible moment. Senator Danaher of Connecticut said it was about time to find out how far some of the other United Nations were willing to go in post-war negotiations with the Japanese. Senators undoubtedly are skeptical of the allies being able to agree on very much and would expect such negotiations to prove the case of those who are cynical of anything but the American position.

NEGOTIATION FOR SALE OF PHIS ON VERGE OF COLLAPSE

No Donations To Aid Club

By PAUL SCHIFFERS
NEW YORK, Feb. 12 (U.P.)—Sale of the Philadelphia Phillies, stymied by an unexpected hitch, may not be consummated until Feb. 18, it was indicated today, and as far as Branch Rickey is concerned there will be no talent donations from the Brooklyn Dodgers to help speed it along.

The problem of the club, an annual irritant to the National League, seemed on the verge of solution but President Hugh D. Dwyer and Branch Rickey had failed and could not agree entirely. Rickey previously had said that the club would be sold to the Dodgers, but he now said that he hoped to announce the new owners within 48 hours.

New Offer
Although he refused to discuss exactly what had delayed the sale, Rickey said he had received a new offer from Philadelphia interests headed by John H. Kelly. Previous to the new offer, Rickey stated that he was not among the original prospective buyers.

The fact that he bought only 4,668 of the 5,000 outstanding shares of Phil's stock, had nothing to do with having completed the deal, Rickey said. Rickey said he had heard a syndicate of six men who made the original offer and it was believed they offered \$12 a share whereas the league reportedly paid \$10.

Announcement Feb. 18
The stock which the league purchased to exert control from Gerry Newman, former president of the Phils, will be turned over to the new owners in Philadelphia on Feb. 18. This led to the belief that even if the deal is completed earlier, it will not be announced until that date.

Rickey expected the Phils to be one of the "greatest opportunities in baseball" to the "greatest pitcher in baseball" and said there was no need of "donating" players worth \$15,000 to \$20,000.

Trainer Named
Rickey announced appointment of Dr. H. W. Weaver of the Mississippi State college athletic department as Phil's trainer. Weaver was the O'Brien and appointed by Emil (Buzzy) Brenner, business manager of the Phils, in the Georgia National league last season, to the same post with Durham, Va., to save transportation.

He also revealed that outfielders Johnny Cooney and Paul Vanner and pitcher Chet Kahn have signed their 1943 contracts and that rookie first baseman, Hal K. Williams, will undergo his final physical examination on Feb. 15.

Boise Junior College Wins

ALBION, Feb. 12 — Albion Normal again led the Boise Junior college basketball team here last night. The score was 41-31. Boise, which defeated Albion Wednesday, led all the way and 17-13 advantage at the half.

Albion today started a road trip that will keep the team away from home till next Wednesday. The trips and individual scores:

Boise (41) — Hirsch (41) and Hirsch (41); forwards: Randall (13), center: Brown (9) and Kelly (2), guards: Mather (2) and Westbrook (2), substitutes.

Two Long Baskets Win for Pilots

GLENN FERRY, Feb. 12—Two long shots by Ted Hansen, a substitute guard, in the last minute of play gave the Glenn Ferry basketball team a 13-12 victory over King Hill underdogs last night.

Glenn Ferry led at the half, 8-4, but King Hill went into the lead in the second half, only to lose in the two long shots.

Glenn Ferry also won the varsity game. The score was 18-11. The Pilots led 13-5 at the half.

Jack Barstow with eight points led the Pilots, while James Wood had six points for King Hill.

The Pilots will play Boise high and Middleton high Friday and Saturday nights while on a short road trip.

Three-Eye League Suspenders for 1943

CHICAGO, Feb. 12 (U.P.)—Thomas Fawcett, Des Moines, president of the Three-Eye League, one of the oldest baseball circuits in the country, announced today the league will suspend operations for the duration.

Beazley Now Pitching for Yanks

Johnny Beazley, pitching star of St. Louis Cardinals and two-time conqueror of New York Yankees in world series, seeks commission at army air force technical training command's officer candidate school at Miami Beach.

The Sports Round-up

By HUGH FULFORDTON, Jr.
NEW YORK, Feb. 12 (U.P.)—The word "military" has taken such a beating lately that strong men sometimes shudder and turn away when they hear it. But the other night we heard it used in an "off-the-record" talk by an army man who should know what he's saying—and he came out strongly in favor of sports as an aid to civilian and military morale. . . . This officer hasn't a sports background to influence him. He's a regular army man who has seen the fighting forces of both sides in action and whose job in this war is working against the morale of the German army.

Germany, he said, had made the "mistake" of taking its athletes and entertainers out of circulation when the war began and later it was found necessary to recall some of the runners, boxers and opera singers to raise the spirits of the homefront at home. . . . On our side, he added, sports helps to provide entertainment, just like movies and the radio, besides supplying soldiers and sailors with fuel for arguments about the pennant races. . . . The best of all these things would be a good loss to the people, though hardly a fatal injury. . . . Soldiers in the war zone get news from home and sometimes see their home-town newspapers. If they read nothing but bad news from the civilian front, it has a depressing effect on them. . . . From this standpoint, the officer says, sports news is good news even when your favorite team loses. . . . For the pat-on-the-back department he added: "You fellows writing news stories are doing a wonderful job of keeping up morale."

Following a similar line of thought is a recent note from another officer who starts out: "Keep up the pluck for professional sports." And adds that in his two years in the army he never has heard a soldier make a crack about ballplayers failing to join up and that the pennant races and football "dope" are two unfailing subjects of discussion. . . . "The only thing," he says, "that's shutting down of pro and college sports would leave the newspapers with only war news and war city—they would like to get away from the war news once in a while and the folks are not interested in the society columns."

THE DAY'S DOINGS
Best guess heard on the sports beat: Branch Rickey, "I know a man who can pitch a good baseball back around who might buy the Philadelphia Phillies." . . . And Tom Meany's query when someone remarked that Eastman had okayed the Kentucky derby: "Which he picked?" Dr. Harold W. Weaver, the Dodgers' new trainer, coached boxing and wrestling at Mississippi State college. In Brooklyn he'll be dealing with guys who don't need

Sell-out Seen For Tourney

JEROME, Feb. 12—With advance ticket sales for the basketball tournament assuring a sell-out crowd, the first Jerome Junior Chamber of Commerce meet gets under way here this afternoon at 4:30 with Shoshone Redskins meeting the Filer quintet.

Pre-tournament prognosticators here see the Shoshone as a mental outlaw cage champions, as the "team to beat." The Eks have several veterans back in their lineup from championship days, including Ernie Granger, all-star high school star and later Alumnus and University of Idaho performer.

Competition stiff
However, the Eks will face plenty of competition before reaching the final. In fact, the strong Kimberly All-Stars are expected to give them a severe test in the first game of the meet.

Other strong clubs will include the veteran American Falls team, which will have the former pro player, Elmer Edgington, ex-all-star of Gointing and Jerry tournament, and the home Jerome Jaxx—possibly, rated a strong threat because of the fact it will be playing on the home floor.

Following the Shoshone-Filer skirmish this afternoon comes a Jerome vs. Burley II and M. battle at 5:30.

Evening Session
The evening session gets underway at 6:30 with Kimberly facing the Burley Eks in what should be one of the best games of the day. At 7:30 American Falls plays a Bull-Castledown at 8:30 and 9:30 Wellfield tackles the Hunt M.P.s.

9:30 the winner of the Shoshone-Filer engagement plays the winner of the Jerome-Burley II and game and the final of the day pits the winner of the Kimberly-Burley Eks game against the winner of the American Falls-Bull-Castledown engagement.

Ticket Sales Murry
According to Murry "Book" O'Rourke, publicity man for the meet, advance sale of tickets has assured the tournament of being a financial success already. Door sales are expected to swell the receipts, according to the Junior Chamber of Commerce that the tourney will be self-sustaining.

According to the tourney is a \$50 war bond, with a \$25 war bond offered as second prize and a new baseball as the third place offering. Play will continue all through Saturday and the championship contest is slated for Saturday evening.

SPORTS

Jerome Beats Indians, 24-21

JEROME, Feb. 12—The Jerome Tigers got revenge last night for the 3-21 defeat that the Shoshone Indians handed them early in the season. They moved out the victory by a 24-21 score after leading 15-5 Burley. Jerome forward, coach Al Haley, and a member of the string Gooding team of a few years ago, the Ringer brothers, who led American Falls to many a victory; Fred Judesime, a veteran who was at his best when the going was tough and a mauling in championship drives of Twin Falls, Rupert, Bonanza and the Burley Eks; and many another who shines brightly when the chips were down.

Coming back to the present, the Jerome tourney will see outlaw play in the regular tournament. And the fans who attend the Jerome meet expect to see more stars burn as they have in nearly every meet in history.

I haven't seen an outlaw team in action this year—but on past performance, I'll go on record as picking the Burley Eks to take the crown.

The Eks as usual, have a strong

Crawford Easy For Willie Pep

BOSTON, Feb. 12 (U.P.)—Clever Willie Pep, Hartford, Conn., the New York boxing commission's world featherweight titlist, will-o'-the-wisped his way to an easy and unanimous 10-round verdict over Davey Crawford, New York last night in the main bout of a Boston boxing association show. Pep weighed 122 pounds for the non-title bout while Crawford scaled 127.

Pep, who twice had his ducky opponent on the verge of a knock-out only to lose out through his over-eagerness, took every round, Crawford managed to land just one solid punch on his way opponent and Pep weaved out of difficulty in that instance.

Only a year ago in Holyoke, Crawford forced the feather titlist to the limit to gain a hairline verdict. But Pep has come far in that year and he showed it tonight as he threw forced lightning with both hands and outclassed Crawford.

Potash - a MAJOR in the FOOD FRONT

Long recognized as one of the three essential plant foods, potash has moved up to the front line in America's food front. Years of official experimental work have clearly demonstrated that ample supplies and reserves of potash must be available in the soil to insure large yields of good quality crops.

Such production is now vitally important to maintain our armed as well as civilian forces. The American Potash Industry has been developed, expanded, and is now geared to take the place demanded of it by the National emergency.
