JOBS FROZEN IN CALIFORNIA AREA

LOS ANGELES, Feb. 22.—Up to 150,000 southern California construction industry workers were frozen today under the war major construction industry mobilization plan.

Announcement by H. R. Harshbarger, executive vice president of the War Relocation Authority, that construction workers would be brought under the plan increased to 30 the number of industries covered.

Carpenters, roofers, electricians and others in building trades will be frozen under the plan, which is the conclusion of each job.

Harshbarger said the plan was necessary to halt planning of labor and that under the plan, no one would be hired without a certificate of availability from his previous job.

The plan for the construction industry will permit workers to transfer to new jobs as current ones are completed, but will make it possible to stop excessive turnover due to pinning by employers or need for new workers.

4 Cage Quints Are Point-a-Minute Clubs

NEW YORK, Feb. 22 (AP)—There isn't a major unbeaten college basketball team. Four quints are traveling at breakneck speed in the best defensive unit and Rhode Island State the most prolific scorers.

These facts were uncovered today by the national collegiate basketball poll, which ranked the national basketball power for the office of the National Collegiate Athletic Association.

The poll, which is the most authoritative in the college basketball world, was compiled by the National Collegiate Athletic Association.

COACHES AND LEAD NADY DECISION

By PAUL SCHEFFEL
United Press Staff Correspondent

The ruling that the training program students could participate in intercollegiate sports served as a shot in the arm for football, other college sports today.

College and conference athletic officials from coast to coast expressed satisfaction and encouragement which the navy issued Saturday night. It followed by a week and was in direct contrast to the ruling that future athletes taking the college training course could not participate in school athletics.

Gratifying Course
The navy warned, however, that the course would be grueling. It placed the gold on a conclusive, year-around basis with the boys permitted to play if they can find the necessary time and energy.

The ruling said:
"Any student who is able to meet the requirements of the curriculum, which includes compulsory physical drill, swimming and setting-up exercises, is able to do so in addition to participation in college athletics and other extracurricular activities, will be permitted to do so."

Encouraged
Throughout the nation officials of the major universities and conferences hailed the ruling and said they were "generally" encouraged. Stated to receive large numbers of athletes from Notre Dame and Northwestern officials announced they were "extremely" well satisfied.

John J. Cavanaugh, Notre Dame sports head, explained that the order would have "greatly" helped the school's basketball team. He said the school had been "in a bad way" and that the ruling would "help" the team.

Rickey Spins Tales About Pepper Martin

By DAN MCGUIRE
SAN FRANCISCO, Feb. 22 (AP)—Branch Rickey, deposed boss man of the Brooklyn Dodgers, may have journeyed all the way to the west coast to confer with Dolph Camilli, the reluctant first baseman and lesser Dodger luminary, but it appears that Rickey's favorite indoor sport is spinning yarns about John (Pepper) Martin of Oklahoma, St. Louis.

Sacramento and war profits. Rickey was front-office assistant of the St. Louis Cardinals when Martin was the fastest of the "gas house gang" and they developed a deep admiration for each other.

Impulsive Gent
Martin, a St. Louis native, is the Rochester club in the International League. He is a rather impulsive gent, according to Rickey, who said he has been told that Martin is a "hot" player and that he is a "hot" player.

LOS ANGELES, Feb. 22 (AP)—That resounding thud heard up and down the Pacific coast last Saturday night was not a baseball bat striking a ball, but a baseball bat striking a ball.

That was just the small but powerful Pepperdine cage team beating the USC cage team, 18 to 10, in the final game of the Pepperdine cage team's season.

Sponsored by Twin Falls C. of C. and U.S.D.A. War Board

Here's a project that's as important as the milling of giant guns! Here's a project that's as important as the induction of 12,000 men a day into our armed forces—for it's a project that will help to feed those men and the men in the factories and men and their families in our nation's industries! That's what food for victory is! But before there can be food for victory—there must be tools and implements to produce that food. And that's where YOU come in—help redistribute idle, usable tools by offering them at Public Auction in Twin Falls for Magic Valley's Machinery Market Day—February 26. Read these details and do your part.
