CALM MAY POINT TO ALLIED BLOWS

(From Page One)
In the south Pacific or on the Marshall Islands east of Truk and the Carolines where the Japanese have built up an interlocking chain of strong outposts flanking the communications lines between Hawaii and the south Pacific.

North of the Carolines another possible target is Wake, where the enemy has already been bombed several times. But the island is so small and its uses are so limited by land and terrain that some experts here have suggested purely military considerations might not dictate its recapture.

Flare Bomb Base
ALLIED HEADQUARTERS IN AUSTRALIA, March 26 (AP)—Japanese bases 1,700 miles apart in the land area above Australia were blasted by Gen. Douglas MacArthur's heavy bombers yesterday. The bombers hit directly on the island of New Guinea, where they dropped two enemy cargo vessels, one of 8,000 tons and one of 6,000 tons, in Ambon harbor, and "beat flames" shot up from wharf areas.

Ambon formerly was a Dutch naval base and one of the Japanese strongholds menacing Australia.

For two hours before dawn yesterday, the war bulletin said, allied heavy bombers ranged over the enemy's northern island base, starting fires and causing heavy destruction with bombs weighing up to a ton.

After last Tuesday's raid on Ambon, in which 34 tons of bombs were dropped on three airfields where more than 250 planes were parked, allied headquarters expressed belief a substantial proportion of the enemy's aircraft had been destroyed or disabled.

Six hours after yesterday's attack, one of our reconnaissance planes over the area observed smoke and flames from waterfront fires rising to 3,000 feet, today's war bulletin said.

WAR BOND SALES DIP TO \$48,000

War bond sales in Twin Falls county dropped to their lowest level in many weeks, during the week ending March 20, it was revealed in the Times-News survey, with only \$48,000 worth of bonds being sold by agencies over the county.

This is the first time this month that weekly sales have fallen below the average of \$50,000 required to meet Twin Falls county's quota of \$200,000 for March. But average sales for the first three weeks of the month are well up to the quota.

Although this week's report of Series E bonds is down, the survey was marked by reports of the largest sale of Series B bonds by a Twin Falls agency—an institution selling \$271,200 in Series E bonds during the week.

Institutions reporting in the Times-News survey were: The Twin Falls National bank, the Farmers National bank and the postoffice, all of Dubi; the Fidelity National bank, Pinar; and postoffices at Kimberly and Rogerson.

UNANIMOUS Verdict Affirmed

With an extremely light vote shown at both polling places, the Twin Falls school district's special levy election Thursday showed a unanimous "yes" result.

There were 84 votes in favor of the usual special levy. Forty-nine were cast at Dinkel and 35 at Hootch.

The special levy is necessary each year in all major districts to permit the school district to pay the cost of a semi-annual general fund limit. Total aggregate levy here for 1948, including this 6-mill special, will be 11.9 mills, an increase of only one mill over last year.

The Southern Idaho Production Credit association, the Twin Falls county National Farm Loan association, the postoffice, the Oregonian theater and the Times-News, all of Twin Falls; the Idaho First National bank, the Farmers National bank and the postoffice, all of Dubi; the Fidelity National bank, Pinar; and postoffices at Kimberly and Rogerson.

Dawson Accident Verdict Affirmed

BOISE, March 26 (AP)—The state supreme court Thursday affirmed down three opinions, among them one affirming the decision of the 11th district (Twin Falls county) court denying the family of Temple Dawson a judgment for her death in an automobile accident.

Mrs. Dawson died of injuries received Oct. 31, 1941, in a collision between a car in which she was riding, driven by Mrs. Mabel M. Belleville, and one driven by Stephen Lynch, salesman for a Salt Lake City hardware company. Frank C. Dawson, husband of the woman killed, was the driver of the latter car and their three children, asking damages from Mrs. Belleville, Lynch and the hardware firm.

The opinion was written by Chief Justice Edwin M. Holden and Justice James F. Alford-Raymond L. Olvens and S. Ben Dunlap concurred.

Jurymen Swiftly Clear Defendant

Deliberating approximately five minutes, district court jurymen Thursday afternoon found Ernie Criss, 40, not guilty of grand larceny. The jury was out of the courtroom only 10 minutes in all, leaving a 4 p. m. and returning to the jury box by 4:10.

Criss had been accused of taking 24 sacks of beans from the Trinité warehouse, where he was in charge of the warehouse at the time. His actual defense instructions from Judge J. W. Porter advising the jury to acquit Criss because the court required evidence was insufficient for conviction, inadequate to prove that the beans in question were feloniously taken by the defendant, and insufficient to prove the beans were not the property of Criss himself.

Under questioning of H. L. Rayburn, defense counsel, Ernie Criss, Trinité's branch manager, said in effect that no beans were actually stolen and that if beans were taken they could have been Criss's own property.

The only witnesses called in the case were Hopedale Police Chief Howard Gillette, Patrolman T. J. McCoy and Roy Cedarburg.

Judge Porter dismissed the jury until 10 a. m. Monday, March 29.

SOUTHERN FARM WORKERS ARRIVE

(From Page One)

The delegation meeting the party was headed by Roy C. Lane, manager of the farm, and a group of workers where the migrants will stay until located on Magic Valley farms, and other PWA officials.

One of the most interested members of the welcoming group was Howard Staples, manager of the U. S. employment service office, who has his verdict can be expected to interest farmers who will be interviewing the Mississippians as prospective help for the coming crop season.

They Look Good

"They look like a fine bunch of workers," declared Staples, "and I think they're going to be a big help in farm work in this area. I wish we had a larger group of them."

According to Lane, the workers in the group will be taken on a tour of Magic Valley farms in the near future for the purpose of acquainting them with agricultural practices and procedures. They will vary from those to which the newcomers are accustomed. After that, they will be assigned to farms through the employment service.

Arrival of the Mississippians in Twin Falls is a general plan for moving workers from sub-marginal lands to more productive farms, where they will be able to work for more in the war effort. Twenty-five workers were taken to Caldwell.

Experienced Farmers

Although from sub-marginal Mississippi farms, the newcomers are experienced farmers. It is pointed out that two of the families in the group own their own farms in Mississippi. However, they explained to others on the train, the farms didn't pay for themselves, and that's why the owners joined the party going to Idaho. They left renters in charge.

One of the owners bought his farm by working as a migrant, and the other by working in a war plant.

The units in the party ranged from large families to youngsters barely out of high school, and most of their experience seemed to be in cotton and corn. Some had done dairying, however, and there were a number who considered themselves at home on a tractor.

One of the larger families, it is not the largest, is that of the Thoresen family—Mr. and Mrs. Thoresen and six children, ranging in age from nine to two years. They are from Louisville, Miss., where they rented 60 acres. Five acres of this was in cotton. In corn, and the rest in pasture and woodland.

Mr. Thoresen's farming experience has been confined mostly to cotton and corn, but he has had two years experience in dairying.

High School Graduate

Another member of the group is Curtis Martin Vance, 18, whose mind is occupied alternately by the thought of a job, the thrill of new country and considerations of selective service. He was particularly interested in the latter, calling that he must notify his draft board of his new location. Vance received his diploma at the Sebastian, Miss., high school Thursday night of his trip. He boarded the train at Meridian, Miss., Monday night.

The Mississippians made their trip of 2,000 odd miles to Twin Falls in two coaches which have been built in the days when the novelty of riding on a railroad made up for cinders, dust and hard cushions. In the opinion of PWA officials who accompanied the party, Alkinson said Pullman had been promoted for the trip, but that that antiquated day coaches were substituted at the last moment for three full days and nights on the road.

Transportation of the workers and their families was paid by the PWA, which also will pay return transportation for those who want to return to Mississippi at the end of the crop season. However, the workers will hire out on a full-time basis, and it was indicated that at least part of them probably would remain here for year-around employment.

On account of its broad streets lined with shade trees, Cleveland, O., is often called the Forest City.

Missing in Action

STAFF SGT. DICK DAYLEY

U. S. ARTILLERY MOWS NAZI UNIT

WITH UNITED STATES FORCES IN SOUTHERN TUNISIA, March 24 (delayed) (AP)—It was an artilleryman's dream—those 300 to 400 German infantrymen approaching in a body across the plains of El Guetir valley toward the American-held heights.

When hidden United States artillerymen got through with them, they were blasted and scattered with direct hits which, observers said, left only a fraction of them alive and unscathed.

Pvt. Agostino Galita, 23, infantryman, Bethesda, Md., watching the spectacle from a grandstand seat in a foxhole, overlooking the valley.

Tried to Divert Attention

"The Germans tried to divert our attention with bombing and attack," he said.

"But our infantry and tanks started up the valley, hoping to get close to our positions before being seen."

"But our infantry was more stubborn and kept on coming. Then our artillery got the range and began dropping them in. The Germans started to run but it was too late by then to separate."

"You could see them try to run; they started to dig the ground as they were being hit. That was the end of those Jerries. They stopped in the open."

Only Four or Five Escaped

"I only saw four or five myself get up and escape. We tried to pick them off with our rifles but they were too far away."

Artillery Maj. Donald A. Smith, 28, Wellesley, Mass., said: "It always has been an artilleryman's dream to catch a group of infantrymen in the open."

We also used those shells on German tanks, catching them with their turrets open.

Those we didn't get we forced to put down their turrets down so they couldn't see much when they tried to attack."

H.S. Victory Week Boosts Stamp Sales

In order to increase the sale of war bonds and stamps Twin Falls high school will hold a victory week starting Monday, March 23, and continuing April 2. Sponsor is the Bruhn school paper.

The week will start off with an assembly at which Sgt. Edward R. Wagon, hero of the Marines' Makin Island raid, will speak. Sergeant Wagon recently returned from Guadalcanal, and will tell of his experiences there and about the Makin raid. Admission to the assembly will be a war stamp.

Wednesday afternoon a matinee dance will be held and a war stamp will be required as admission. Friday morning an auction will be held at which a "precious lock" of Principal John D. Platt's hair will be auctioned.

During the week a victory queen will be elected by purchase of stamps. Each 25-cent stamp or three 10-cent stamps entitles a person to vote and there is no limit to the number of votes that one person can cast. Two girls from each class were nominated for queen and the one receiving the highest number of votes will be crowned at the victory ball which will wind up the week. Admission to the ball will be 25-cent stamps per person or a 50-cent one per couple.

Patton Flouts Germans' Fire

WITH U. S. FORCES IN TUNISIA, March 24 (delayed) (AP)—Lieut. Gen. George S. An Announcement of Vital Importance to Every Young American Who Wants to Fly for His Country

*This announcement is made with the approval of the Joint Army-Navy Personnel Board.

OUR Army Air Forces, swiftly and steadily expanding, are striking terror in the hearts of Axis leaders: No nation on earth has developed air power so vast, or so deadly in its effectiveness. The fighting fliers who man those thousands of sleek new planes will play a mighty part in the final victory. And the opportunity to be one of them is still open to you!

Here is how you can become a U. S. Army Aviation Cadet

1. If you are 18 to 26 years old, inclusive, and have not yet been called for induction under Selective Service, you may apply at once at the nearest Aviation Cadet Examining Board to take your physical and mental examinations. No school or college credits are required. If you pass the examinations and are found acceptable, you will be given a letter to the Armed Forces Induction Station requesting your assignment to the Army Air Forces upon induction. You may then volunteer for induction through your local Selective Service Board. After induction you will be assigned for preparatory training, upon completion of which you will receive

your appointment as an Aviation Cadet and have an opportunity to become a Bombardier, Navigator or Pilot—one of the "Three Musketeers of the Air!"

2. If you have already been called for induction, you cannot apply direct for Aviation Cadet training. But upon induction, if you are assigned to the Army, you have the same opportunity open to every soldier, 18 to 26 years old, inclusive, to apply for Aviation Cadet training after you are in the ranks.

If you are 17 but not yet 18

3. If you are 17 but not yet 18, you can go now to your Aviation Cadet Examining Board and volunteer for enlistment in the Air Corps Enlisted Reserve. If you pass the physical and mental examinations and are accepted, after you become 18 you will be assigned for preparatory training, leading to appointment as an Aviation Cadet. Enlistment under the age of 18 requires parents' or guardians' consent.

You may apply at the nearest Aviation Cadet Examining Board or write to The Adjutant General, Washington, D. C.

Glider Girl

By OREN ARNOLD NEA Service, Inc.

PILOT
CHAPTER XXI
"You're still my secretary, Private Friday," Capt. James Carr was saying, pompously. "Now you rustle up the local touring club officials. Tell them we'll need—"

"Why don't we call the Army soaring field?"

"No, Pat. And I'll tell you why," she and Jimmy were alone in Major Hale's office, there at Sky Harbor. Jimmy walked about the room, looking at the pictures on the wall, looking down at the desk, looking out the window. "The reason is, we want civilians to do this, in spite of the danger on a test trip."

"Do we?"

"Well, don't we? Think, Private Pat!"

"Army pilots will be better trained, Jimmy. And if we want to really demonstrate a glider train—"

"The public knows the Army can fly gliders. What we have to do is to sell civilians on civilian aviation. We have a hard, even dangerous route for demonstration."

"Oh, yes, I do see."

"You and I know that the average college boy or girl, or even kids high school age, can learn to operate airplanes in just a few days' training. But do you think the public realizes that yet?"

"No, Jimmy. That farmer who took offense—he made that point. He had never seen or heard of a glider train before, and figured there couldn't be such a thing."

"Exactly! So, Pat, stick here and do the demonstrating, huh?"

"I want a train of 10 ships and a power plant to tow them. It's going to make a grand show. And, uh—look, Pat, you be sure and make sure I want to be the one who runs that locomotive in the sky!"

"Pat laughed. "Yes, sonny! Sister will let you be the engineer. You can't lose the whole and ring the bell!"

"No joking, Pat," he wheeled. "You arrange it. Just sit, just sit, and take it for granted. You see, it was you who suggested this train idea, and the big-shot officers all fell for you."

"Oh?"

"Sure, they did. You looked cute as pie. Turned the old charm on them, whether you realized it or not. So, you can get anything you want. Mr. I'm licking your boots. I want to run that tow plane."

Pat felt a sudden tenderness for him, a surge of love for this boyish man. Her eyes were misty when she spoke again. She whirled knowingly and said, "I'll do it, Jim. I'll use all the influence I can."

"Thanks, Pat." Then he added, mischievously, "But as soon as I get the time, I aim to court-martial you. Imagine, a captain making factors of a buck private!"

"He was putting on his dress cap and moving toward the door. Pat winked her nose at him."

"Where can I locate you if I need you?"

"I'll check in. Right now," he lifted his wrist watch. "I'm going to meet Lorraine."

"Oh—Jimmy, is she—I tried to take to her this morning and—"

"She still got the sulks," said he. "Not that I blame her, I guess."

"No, No, of course not."

"And another thing, Pat," he was ever so serious now. "I want you to know I appreciate your part in all this. The—uh—unconquering you're having to do. Every time I hear people speak of you as Miss Stuart, I jump."

Pat smiled a little. "Don't mind it."

A few days later the Japanese were heavily strafed by American

planes. Apparently they thought that Father Duhamel, an American, was giving away their positions. They seized both priests and nuns. A third nun, Sister Edmee, escaped into the jungle, taking with her a little orphaned native girl.

Later natives found the bodies of the four. The remains indicated the missionaries had been maltreated and then bayoneted through the throat. The natives brought the
