Some of U. S. Sub's Work

During the American submarine Wahoo's recent patrol, it sank eight Japanese ships in the enemy controlled waters of the Pacific. Photo shows, taken through periscope of the Wahoo, some of the views of a medium-sized enemy cargo ship sinking after being hit by a Walrus torpedo. As left, Lieut. Comdr. Dudley W. Morton, Miami, Fla., commanding officer of the Wahoo, sorts out a batch of similar photos snapped via periscope on the sub's successful foray.

By SHERRILL HILLMAN
WASHINGTON, April 26 (AP)—John L. Lewis snubbed the war labor board again today and the danger of a strike of 450,000 soft coal miners became more acute.

The United Mine Workers president ignored a WLB request that he submit by 9:30 a. m. today a list of nominees for a board panel to consider the stalemate soft coal wage-hour negotiations.

Study Panel Authorized
The board stepped into the case late work on the panel. It was a three-man panel would study the controversy and make recommendations to the public. Lewis demanded 42-day wage increases for the miners. Such an increase would be impossible, the board's little steel wage ceiling forbids.

U. S. Chairman William H. Davis previously had said that the board would select a labor member of the panel. If Lewis failed to submit a list of candidates, the labor member sitting with representatives of industry and the public will have evidence and make recommendations to the full board in the dispute which threatens to tie up most of the nation's soft coal mines at midnight Friday.

Severance in U.S.-Finnish Ties Nearing

STOCKHOLM, April 26 (AP)—A break in diplomatic relations between the United States and Finland appeared imminent today as Finnish officials indicated little possibility of a change in Finnish foreign policy which might ease the situation.

While the Finnish public was reported deeply disturbed by the prospect of a break, Finland's official position was summed up tersely by a source close to the government with these words:

"The Americans cannot expect us to tie a noose around our own necks."

The statement was an obvious reference to American desires that Finland settle her differences with Russia, break her ties with Germany and withdraw from the war.

Reporters were current last night that the Americans already had broken relations with Finland, but they were described as "premature" by a Finnish foreign office source in Helsinki.

This source disclosed that U. S. Secretary of State Robert H. La Follette had made an appointment of the foreign office yesterday afternoon to discuss the "important matter," but later had cancelled the appointment. McClintock declined to comment.

ALLIES ADVANCE ON ALL TUNISIAN FIGHTING FRONTS

By VIRGIL PINKLEY
ALLIED HEADQUARTERS, April 26 (AP)—American infantry attacks under strong aerial support forced a general axis withdrawal on the northern Tunisian front today.

While British tanks engaged the main enemy armored strength in a furious and still undecided battle opposite the strategic Pont Du Fahs junction on the southwestern sector.

Advances and capture of key heights on almost all sectors of the Tunisian front on Sunday were reported in today's communiqué, while front dispatches told of increasing Allied aerial bombardment of enemy positions that drew ringing cheers from our front line troops.

Twice during Sunday there were 72 Allied bombers over a single target in a short period, shattering Axis trenches and killing Axis soldiers in volcano-like onslaughts.

There was nothing to indicate where the Germans would halt their retreat, but the Axis was advancing cautiously to avoid being cut off by the British and U. S. C. McLaughlin, Tunisian correspondent at the front.

U. S. Airmen Bag Five Jap Planes
American infantry in light fighting drove axis troops from four hills and advanced four miles in the Ellice sector on Sunday to a point about 27 miles southwest of Matruh on the northern front, while in the Medjed-El-Bah sector to the east, American tanks joined in a furious engagement with the Germans near Gebek-El-Kouria, a small lake.

The Germans fought desperately in armored engagements both north and south of the Matruh hills and advanced four miles in the Ellice sector on Sunday to a point about 27 miles southwest of Matruh on the northern front, while in the Medjed-El-Bah sector to the east, American tanks joined in a furious engagement with the Germans near Gebek-El-Kouria, a small lake.

BUSINESSMAN ON TOWN HALL LIST

Carl Taylor, described as an active businessman with a business point of view, will be the Town Hall speaker here Thursday, April 22 at 8 p. m. as guest night is observed, officials announced Saturday. He will appear at the high school.

All Town Hall members will be permitted to bring either tag-of-town or local guests with them to hear Mr. Taylor who will discuss the two problems of "How to Win the War and Save the Peace" and also "The Future of American Business."

During his address the speaker, who is one of the most popular speakers ever to appear on Town Hall programs, will consider government, business, labor, agriculture, peace, present and future, in relation to the present-tense situation.

Officials point out that Mr. Taylor rates among the half dozen best business speakers in America. He was drafted by the war department to become a special staff member of its morale division because of his oratorical ability and for months has been speaking before tens of thousands of servicemen in American army camps. He was a featured speaker at the Kiwanis International convention in Minneapolis, and has addressed dozens of national conventions and hundreds of other gatherings of business and professional men. He has also served as instructor in public speaking at the University of Wisconsin.

GOODING SCHOOLS GIVE PAY BOOSTS

GOODING, April 26—All the present regular teachers in the Gooding public schools were re-elected at the April school board meeting. Several resignations were accepted and new teachers have been hired to fill all but one vacancy. An adjustment in the salary schedule has been made, giving increases in pay ranging from 14 per cent to 25 per cent.

A special clause has been inserted in new contracts to guard against resignations. There is also a clause making provision for early opening of schools in the event it becomes necessary.

New instructors elected for the coming term include: Irene Olin, Lewiston, a graduate of Lewiston Normal, to teach one fifth grade; Beatrice Simpson, Albion graduate, will teach a sixth grade. In the high school, Ruth Ellen Jackson, Bliss graduate of the University of Idaho, biology and girls' physical education; Mrs. Frances Elliott, graduate of the College of Idaho, and now an instructor at Castelford, English and some commercial subjects; Bob Child, Wendell graduate of the University of Utah, athletics coach and mathematics; and Patricia Klingler, Gooding illustration.

Resignations accepted were: Catherine Pohlman, Norma Whetzel, Mary Ward, Ruth Pleasant and Mack Saunders. Mrs. Saunders has been a substitute teacher, but will not return.

Teachers re-elected were: Florence Pluhm, Dorothy Dean, Dorothy Terpin, Pearl Carver, Mary Alice Peck, Emma Haggen, Helen Parmer, Eugene Gibbons, Opal Dickson, Mary Templeton, Paige Bled, Norma Nelson, Keith Waite and Ida Pluhm.

High school teachers re-elected are: Leigh Ingersoll, Mildred Puts, Doris Chesser, Lyle Lettice, Elizabeth Miller, and Alberta Butler. All janitors were re-elected: J. H. Lincoln, Lincoln sole; Lincoln Thompson, junior high; and Andy Robinson, high school.

Bean Plants Hum In Hazelton Area

HAZELTON, April 26—Importance of seed beans in the food production effort is emphasized in this community by the C. W. Barlow warehouse operating here. Both rooms eight hours a day and the Barlow's association warehouse operating on a half day schedule. Both warehouses are maintaining as nearly normal operations as possible, with local women employed as pickers.

A few hours in one of these plants will convince anyone that all the "home front heroes" in this war are not in the war plants. Planting time is so nearly here that urgency of having seeds cleaned and hand-picked has called for employment of many women who would otherwise be busy in the home.

The workers take pride in the knowledge that a large percentage of the beans in such great demand during these war times is produced in this section.

Chugg Relatives Arrive for Rites

RUPERT, April 26—Mr. and Mrs. D. R. Chugg, Modesto, Calif., parents of the late P. J. Chugg, have arrived to attend funeral rites for their son.

Cleanup Yields 221 Truckloads

Two hundred twenty-one truckloads of trash were piled on the city dump during the city's annual fire cleanup. It was announced by Charles P. Larsen, acting city clerk.

"The cleanup was carried out in probably record time this year," declared Larsen. "That is partly due to the policy of no callbacks, because of the necessity for conserving tires and equipment, and partly because a little less was hauled this year than ordinarily."

Larsen said trash to be hauled must now be put in containers, rather than piled along alleys.
