

LEWIS' RETURN MAV UNITE LABOR

WASHINGTON, May 26 (AP)—The dramatic new labor circles today in that John L. Lewis' application to rejoin the United Mine Workers in the American Federation of Labor may hasten the day of a unified labor movement.

Lewis more solves none of the difficulties in the way of an AFL-CIO merger except, the optimists reason, to make the desire for such unification more compelling.

AFL people are saying, for instance, that the automobile workers and the rubber workers may be the next to apply for admittance. Both are now CIO unions. If the CIO leadership should become convinced that the prospect of such erosion of strength is real, it may be willing to make more concessions toward a unity pact.

Hereafter, CIO President Philip Murray has insisted that the AFL must meet the CIO on a basis of equality. The AFL has never felt that way about it. AFL President Lewis Green refers to the AFL consistently as the house of labor.

CIO Taunted
His publicist, Philip Pearl, has taunted the CIO for not making public its membership and treasury statistics. The addition of 600,000 members to the AFL rolls would accentuate this feeling. It is believed President Roosevelt would not expect to show a renewed interest in labor unity. The AFL, while nominally nonpartisan, has been friendly on the whole to the new deal. The ascendancy of a political party, Lewis in the federation would therefore have significant political implications.

To counteract that, administration men may be able to persuade certain leaders in the CIO to move quickly toward unity for the purpose of attacking the new deal. Lewis and his Republican ally, William L. Hutchison, president of the federation and a potent member of the AFL, executive council.

CONTROL OF RENT BY LABOR DENIED

WASHINGTON, May 26 (AP)—AFL Porter, deputy APL administrator in charge of rents, denied that his office favored or controlled the rent in its handling of rent control.

Porter made the statement to a house committee investigating APL procedures after Harry L. Allen, committee counsel, said he would show that rent control was in the hands of the owners and turned over to labor control.

Tom Tippet, chief of field operations for the APL's rent control division, denied that he had promoted a policy to control the rent in regional and area rent executives to those who are pro-labor.

In response to questions he acknowledged that candidates for the rent jobs were "cleared" by labor, explaining that labor groups in various areas were asked to make statements on applicants' qualifications.

But he said that other segments of a community, such as real estate boards, business and church groups, also were asked for opinions.

Automatic Rise For Fuel Rations

WASHINGTON, May 26 (AP)—Owners of small homes, the APL said, will get increases in their fuel oil rations for the next season automatically.

When householders return their fuel application blanks next month, their ration boards will dip up the figures on floor space and other data from last year's application, apply a new formula and grant increases accordingly without any red tape for the householders.

Plans to change the formula to grant slightly more liberal rations for small homes were announced recently by the APL.

However, the application blank will provide a line for householders to ask for less oil than would be granted under the formula, in case anyone wants to use that line.

Here's How House and Senate Plan Aims for Pay-as-You-Go

WASHINGTON, May 26 (AP)—Here's how the house and senate conferees would pay taxpayers on a pay-as-you-go basis.

Over \$10 a year for a single person with no dependents and \$12.40 for married persons with no dependents. An additional exemption of \$12 a year is allowed for each dependent in either category.

Wouldn't Cover All
The 20 per cent deduction would pay the whole tax, however, only for individuals with a net income of not more than \$2,000 after deduction of personal exemptions.

Individuals with income in excess of that figure would be required to estimate the amount of difference and pay it in quarterly installments on a current basis throughout the year.

Non-wage taxpayers, such as doctors and lawyers and those whose income is derived from investments, would not be subject to the withholding tax but would be required to file estimates in advance and pay quarterly installments on the basis of those estimates.

A final adjustment must be made March 15 of the ensuing year. If it develops that the taxpayer has overpaid, he is entitled to a refund or a credit on next year's taxes. If he has underpaid he must make up the difference. The penalty is six per cent additional tax on the difference between the estimated and actual amounts which are more than 20 per cent in error.

Farmers Granted Delay
Farmers would not be required to file an income estimate until Dec. 15 of the taxable year. They are allowed up to 33 1/3 per cent margin of error.

Farm labor, domestics, clergyman and members of the armed services would be exempted from the withholding tax, but required to file estimates of income on the same basis as all other individuals. Such estimates would be required of all single taxpayers excepting to earn \$2,000 or more, regardless of dependency status.

Members of the armed services would be allowed \$1,500 tax exemption in addition to their regular individual exemptions. Thus, an unmarried soldier has a total tax exemption of \$2,000. A married soldier with no dependents has a total exemption of \$2,700.

SHORTAGE OF 800 TEACHERS LIKELY

BOISE, May 26 (AP)—Results of a survey completed last Thursday to determine the extent of probable teacher shortage in Idaho next year are not conclusive, and no definite trends can be determined at this time, John I. Hillman, executive secretary of the Idaho Education association, reported.

The figures available, however, showed tentative indications that as many as 800 new elementary teachers and 300 high school teachers might be needed next year, he said.

A second survey is planned for the last part of June to obtain final figures.

Only 60 per cent of the larger high schools, 30 per cent of all high schools and 10 per cent of all schools with four or more teachers were able to give replies to the I. E. A. inquiry, he said, because teachers in most instances haven't yet made up their minds what they want to do.

The high schools which replied normally ran up about 25 per cent of the high school teachers in the state, reported their expected needs for next year. This included 300 vacancies in all high schools next year, which would be truly accurate if borne out, Hillman said, "but we have reason to believe that a considerable number of teachers who have not yet agreed to accept positions will do so later."

The incomplete returns from elementary schools show 88 vacancies expected, and indicating that about 500 vacancies might be expected throughout the state. No elementary, two or three-year schools usually the hardest hit by shortages, are mentioned in making the totals difficult to judge.

TWO GROUPS MAP SHARE-RIDE PLAN

Procedure for cooperation between the Twin Falls county ration board and the share-ride committee of the civilian defense council, which is headed by Erle E. Jones, was discussed at a meeting held Monday night in the Chamber of Commerce office.

Local application of the plan in the Twin Falls community is limited by the relative scarcity of large groups of employees, but that every effort will be made to stimulate adoption of the plan where feasible.

The committee decided to send letters soon to employers of groups in which it is thought a share-ride program may be put into operation.

Ration officials who met with the committee were Ralph W. Carpenter, board chairman, and Carl N. Anderson, clerk.

NEW RADIO AIDS RESCUE AT SEA

NEW YORK, May 26 (AP)—The shipper and radio operator of a United States vessel torpedoed off the coast of South America credited the rescue of 14 crewmen to new type radio equipment installed in their liferafts. It was disclosed today.

In a letter written by O. P. Havens, vice-president of the United States Lines, owner of the vessel, to Charles J. Pannell, president of the Radio-Maritime Corporation in America, Havens said the crew, adrift in two liferafts several hundred miles at sea, maintained communication with one another and contacted four potential rescue vessels in the two days that elapsed before they were picked up.

The special equipment consisted of a combination radiotelegraph-telephone unit, powered by a hand-cranked generator. Pannell said in making public the letter which RCA said was submitted by Havens.

"The captain reports that the radio sets performed perfectly," Havens said. "They were able to establish telephone communication between two liferafts which were so far separated that they were out of sight even in the daytime."

The radio operator was quoted as saying that "the beauty of our radio sets is that they can be worked by telephone or telegraph so that in case the operator is missing or injured anyone in the liferaft can work the set. Another feature—batteries have to be bothered with, and the sets can be used for a day after day without the source of power being reduced."

Elmore Salvage Chairmen Named

OLENN PERRY, May 26—Committed heads under his supervision were named this week by F. E. Pearl, local chairman for salvage of vital materials under the OGD and other appointments will be made as the need arises, he stated.

G. L. Moore, American Legion salvage chairman, will head the committee on scrap iron and steel.

Approximately 2000 pounds of fats and grease were shipped by F. K. Johnson of the Perry cold storage plant, since the drive started, he has reported. Half of the ampoules had been brought in by individuals, while the remainder came from other meat shops.

Mrs. Reichle has estimated that there are between 95 and 100 pounds of silk and nylon turned in at the Andersons, receiving station for this material.

Work Concluded By Relief Group At Victory Lunch

Concluding a season's work for the relief group, the members of these groups were special guests at a victory luncheon Tuesday afternoon.

Last fall at a similar luncheon the teachers and leaders were honored aboard a "victory ship" for the past year.

During Tuesday's luncheon President Edna M. Hyde praised the honorees for staying "above" and for their 189 per cent participation in the 75 districts victory.

The tables were arranged in the shape of a V with a model ship at the point carrying out the victory. Spring flower arrangements and blue tapers completed the decoration. The honored guests were seated on the inside of the V.

Address on the occasion was given by Mrs. Lillian Davidson followed by group singing. The teacher's prayer was given in the form of a musical reading with Mrs. Edna Walker accompanied by Mrs. Zora Thoma, with original music. Response was made by Mrs. Bertha May Hansen.

Devotion on the occasion and benediction was given by Mrs. Emma Lake assisted by Mrs. Minnie Egbert. The program closed with singing, the national anthem and benediction by Mrs. Ida Jensen.

Four Freedoms Program Adopted for Wide Use

The "Four Freedoms" council fire planned and presented in March by the local Camp Fire organizations has been adopted on a nationwide basis, according to word from Mrs. Edith M. Kemphorne, national fire secretary of the organization.

The entire script was written by Mrs. Alfred Pugliese and the council fire was planned by Mrs. W. A. Van Engelen, Mrs. R. G. Johnson and Mrs. Pugliese.

The complete presentation will be used in the 15 summer courses and institutes throughout the nation. The entire script in this case was at Portland, Ore., where the council fire will be presented in its entirety.

"I do want you to know," stated Mrs. Kemphorne in her address to the local leaders, "how very grateful we are for the committee which carried out just what we were wondering what was a fitting program to use this summer."

The four freedoms fire has been borrowed from the Twin Falls groups and will be used in connection with the council fire.

As a courtesy Mrs. Pugliese has received a poetry book compiled by the national fire department in New York.

Wins Honor WHY RAIDS HURT REIGH SEVERELY

By DeWITT MacKENZIE

It Hitler could not conquer England out by bombing, what chance have the forces of blasting Germany into submission now?

This very reasonable question has been put to me, and this looks like an appropriate time to answer it in view of the further devastating raids on Germany and Italian territory, Hitler and Mussolini couldn't have slept well last night.

Actually, of course, nobody in authority has claimed that Hitler could be beaten by air attack, although British Premier Churchill has asserted upon excellence of character, scholarship and student leadership. (Staff Engraving)

100 Per Cent of U. P. Employees Raising Gardens

Without exception every local employee of the Union Pacific railroad is raising a victory garden, stated Mrs. M. P. Ocheltree, victory garden chairman, in her report to the auxiliary of the Union Pacific railroad.

The club has developed previous gardens in the subject of gardens and has taken up the project, generally. Mrs. Ocheltree distributed pamphlets on gardening which had been received from Walter Wilson, who is director of the U. P. victory garden project.

The next spring meeting has been scheduled for Aug. 18 and J. W. Harris, Omaha, Neb., general chairman of the safety first club will be in charge. Plans were discussed for the annual U. P. picnic. All railroad and express employees and their families from surrounding towns will be guests.

The auxiliary will entertain husbands at a potluck dinner and card party at the home of Mrs. J. D. Roberts, the latter part of June. Drawing on a question was held at that time. Ben Linn, general entertainment chairman is in charge of arrangements.

The program for Tuesday's meeting was arranged by Mrs. Ocheltree. Two musical numbers were presented by Geraldine Miller and a reading was given by Mrs. Ocheltree. A kitchen quiz was conducted by Mrs. Williams. Mrs. J. L. Lark won the white elephant.

Roll call was accompanied with each member's favorite magazine. Mrs. Lloyd Hann and Miss Florence E. Cook were guests of the club. Refreshments were served by the hostesses assisted by Mrs. L. D. Roberts and Mrs. C. M. Garbon.

RUSSIAN ACTION CHANGES SECTOR

MOSCOW, June 26 (AP)—Land action moved today from the south to the north central sector of the Soviet front, where the Russians reported they had captured four German divisions, but on the whole an uneasy calm continued to prevail over the long battle lines.

The first air battles of the current fighting-up campaign were unabated, however, with red aircraft hammering again and again at German communications and supplies. On numerous occasions, Russian bombers struck behind the German lines, Novgorod, Yelnya and Spas Denakovo—central front junction through which poor supplies to the Nazi soldiers not far from Moscow—suffered damage from heavy fire.

Spas Denakovo and surrounding took place west of Rostov and at Chicharko on the Donets river. The communication also reported a sharp-up on the approaches to Leningrad, where it said eight enemy planes were shot down by red pilots.

Quartz Crystals Needed for War

BOISE, May 26 (AP)—Quantities of quartz crystals for use in building electronic circuits and in radio equipment for the armed forces are being produced by the government at once. Payment of 40 cents per crystal is being made by the government.

Separate individual crystals, perfectly clear and transparent throughout most of the crystal, and uncolored, are needed, to supplement available supplies of crystals which now come from Brazil, now found to be insufficient for war needs.

Briggs said persons knowing locations where such crystals may be found should write to the nearest military district, war production board, temporary T. building, Washington.

FILIBUSTER WILL HIT POLL TAX ACT

WASHINGTON, May 26 (AP)—Five senators from southern states said today that they would filibuster to delay a bill to amend the poll tax act.

The bill applies only to voting at elections for state and national officers. The House passed the anti-poll tax bill, 269 to 166, late yesterday after an American sailor, perched on a gallery railing denounced the house for "flouting the Civil war all over" and shouted, "Why should a man pay a tax to vote when he can fight without paying a tax?"

Broadcasters Hit At Court Verdict

WASHINGTON, May 26 (AP)—The National Association of Broadcasters charged today that the May 19 supreme court decision defining the powers of the federal communications commission over radio and television was a "blatant" act of "all the characteristics of freedom."

RUSSIAN ACTION CHANGES SECTOR

MOSCOW, June 26 (AP)—Land action moved today from the south to the north central sector of the Soviet front, where the Russians reported they had captured four German divisions, but on the whole an uneasy calm continued to prevail over the long battle lines.

DECO

Claire Wells, who is employed in Seattle, returned to her work after being a two week vacation in Deco at the home of her parents, Mr. and Mrs. J. B. Davidson.

Mrs. Roy Judd, Reno, Nev., visited relatives and friends here. Mrs. Judd is a former Twin Falls resident.

Mrs. B. L. Norton has left for Shelley where she will visit her daughter.

Mertis Curtis, who is in the army stationed at Corpus Christi, Tex., has spent several days here on a furlough visiting his uncle, K. Curtis, and family.

LADY AIR LEAPER DOING WAR WORK

ARMY AIR FIELD, Malden, Mo., May 25 (AP)—A lady air leaper and professional parachute jumper, Mary Hildell, an attractive Quinault Indian from the state of Washington, is now serving her country in another way.

She is an aluminum sheetmetal worker in the repair shop of the army air field here, one of the dozens of feminine civil service employees working here for the army air forces.

She has made no parachute jumps since 1938 and she has not flown a plane since the day of her birth in a little fishing village on the coast of Washington. The Indians screened over the water outside the house and her grandmother, hearing her first infant wailing, gave her the Indian name of "Kusadetha" or "Kingfisher."

Although she bore the name of a bird, Mary Hildell did not fly until she was 10, after she had seen a woman fly, rare in those days, crash in full view of the crowd at San Diego, Calif. She would prove to other people that women could be as capable flyers as men.

Mary went to a small flying school for her early training. From there she went to a semi-military flying school for men in Oklahoma. It took her two weeks of flying to be permitted to study at a school where she was the only woman. She studied mechanics and country flying and finally received her commercial pilot's license.

Parachute Jumping Near
Parachute jumping came next and again Mary had to buck the traditional prejudices against her sex. No flyer, at first, would consent to take her up for a jump but finally she met a young man who wanted a publicity stunt.

She opened a new flying field. And a woman parachute jumper, really an Indian, was just the thing.

Both Mary and the pilot were nervous. He had never ferried a jumper before. He put the plane into a stall just as she leaped out of the cockpit. Mary waited until she had turned over three times in the air and could see the ground overhead, then she pulled the ripcord.

A. Lish Funeral Rites Conducted

GLENN FERRY, May 25.—Alanson Norton Lish, 62, King of the Mountain, died at his home here of a heart ailment at 10:30 a. m. today. Death was attributed to ischemic poisoning. He had been ill for the past three years.

Born in Des Moines, Iowa, July 8, 1881, he came to Idaho with his parents at an early age, living most of his life in the town of Lish. He was married to Mrs. Lish in 1912. Since then he farmed there and near Lish.

Survivors include his wife, Mrs. Lish; four sons, Fred, Lash, Eugene, Ralph Lash and Fred Lash; three daughters, Mrs. Lash, Mrs. Lash, and Mrs. Lash; two daughters, Mrs. Lash, Mrs. Lash, and Mrs. Lash; and a son, Lash.

Funeral services will be held at 2 p. m. today at the Lish home. Burial will be in the Lish cemetery.

America's Four-Star Generals

Of the 15 men who have held the title of full general in the U. S. army, only four are on active duty today. They are Dwight D. Eisenhower, north Africa, Douglas MacArthur, southwest Pacific; George C. Marshall, chief of staff; Henry H. Arnold, army air forces chief; and M. G. C. Craig, head of war department's personnel selection board, and 10-year-old John A. Pershing, World War I commander, who has never been in the Revolutionary war; Grant, Sherman and Sheridan, Civil war; Childs of Staff Blue (1917-18), March (1918-21), and Sumner, (1920-30).

Priest Says Japs' Bestiality
Stopped Only at Cannibalism

ST. LOUIS, May 25 (AP)—The Japanese who created vengeance on Chinese and missionaries for aiding the U. S. army, the Japanese, said today, stopped only at cannibalism, the Rev. George Yager, American missionary who was there, said today.

Father Yager, pastor of the congregation of missions at Yu Kiang, said today that the Japanese, who were completely fanatical, had been so completely fanatical that they had managed to escape death in every town. Poor country people had to continue to work their fields, and had been tortured and put to death.

From some of the villagers who had managed to escape death, he heard stories of brute brutality and savagery to relate. Just one village he had heard—cannibalism, but outside of that, take your choice and you will find only destruction.

PROPRIETARY SERVICE CAR OR TRUCK

COMPLETE PART STOCKS

Make an Appointment

We have a complete stock of Dodge and Plymouth and Dodge truck parts in stock. While these parts are still available we suggest you have any needed mechanical work done. There are no more new trucks or cars for the duration. Act now!

We're doing our level best to serve every Dodge-Plymouth owner—but good work takes time, and that's the only kind of work we do! If your car or truck is going to need some service attention, we suggest you phone for an appointment. This will save your time, and permit us to serve you more efficiently. Don't take chances! Don't let a factory trained mechanic working under factory authorized and inspected parts/dependable service costs less in the long run—always!
