**BILLIAM LEAVES FOR WAR BOARDS**

WASHINGTON, July 1 (AP)—A long list of money bills in congress led President Roosevelt without a hitch to emergency funds today for the first time in three years and forced many war activities to operate temporarily on the spot.

Although both senate and house were barred, the executive should start off the new fiscal year with at least \$40,000,000 for emergency purposes. The budget, one without additions of three billion dollars, was passed in the last session of the session.

Bills introduced

The measure was one of a half a dozen major bills left stranded when congress adjourned overnight after a bill attempt. The bill was introduced before the 1942-43 fiscal year ended at midnight. The bill was introduced on July 1, 1942, and was passed by the war supply measure.

**Devastating Raids Slash Sicily From End to End**

By REYNOLDS FACHARD

ALLIED HEADQUARTERS, TUNIS, July 1 (AP)—The northwest Africa air forces, continuing an offensive to soften up Italy's outer defenses, blasted Sicily from end to end in 24 hours of devastating night and day raids, a communique announced today.

The RAF Wellington bombers launched the latest series of raids with the fifth allied assault in six days today. The first raid was launched at 10:30 p.m. and lasted for 15 minutes.

The Wellingtons hit Messina Tuesday night and covered the railway yards and ferry terminal with bombs. Italy moved most of the supplies and reinforcements for Sicily to the port of Messina.

**Yanks Battle Japs on Two Islands; Others Fail to U. S.**

By BRAYDON G. TAYES

ALLIED HEADQUARTERS, Australia, July 1 (UP)—Combined American land, sea, and air forces were believed to have achieved preliminary objectives today in a new south Pacific offensive operation against the island stepping stones to the key Japanese base at Rabaul. (The Melbourne radio said the attacks were made through stormy weather and high seas.)

The United States assault forces, supported by naval and air units, seized the Trobriand islands and Woodlark island without opposition and were fighting Japanese troops on New Georgia and Rendova in the Solomon Islands.

Official information as to later progress was lacking, but indications were that the operations were proceeding according to plans laid down by Gen. Douglas MacArthur, who is in supreme command, following establishment of bridgeheads, Martini, and Rendova.

CROP INSURANCE RAISE REFUSED

WASHINGTON, July 1.—The house stood firm late yesterday in its demand for sharp curtailment and eventual abolition of the administrative four-year-old crop insurance program...

By a rollcall vote of 223 to 195, the house refused to boost the funds for crop insurance from \$2,000,000 to the Senate figure of \$7,818,748...

The action came after Representative Carter D. Cox, in charge of the bill, told the house after a conference committee attempt...

The action left only the crop insurance program in dispute between the two branches.

TEST OF LIQUOR SEIZURES FILED

BOISE, July 1 (AP)—Attorney General Bert H. Miller announced that he and Leiland W. Hanson, superintendent of the state liquor dispensary, are filing a suit in eighth district (Bonnema county) court at Coeur d'Alene to test the state's power to confiscate liquor which enters the state illegally.

Named as defendants in the suit are Sheriff Harry M. Jones, Bonanza county, and William Countryman, proprietor of a club at Sandpoint in Blaine county. The suit seeks to quiet title to 29 cases of liquor seized by Sheriff Jones, a case already owned by a Countyman.

"This is what might be termed a first impression case," Miller explained. "Idaho law seems to be particularly vague as to just what powers the state has to seize liquor in this way, and we want to find out."

He added that he is prepared to take the case to the supreme court if necessary.

Miller said his had been advised by Prosecuting Attorney William F. Hawkins at Coeur d'Alene that charges of unlawful possession and transportation of liquor were being filed against Countryman.

The case was an outgrowth, Miller said, of orders by Sheriff Hester June 15 of the 29 cases of liquor in a car being driven westward towards Coeur d'Alene from the Bonanza border. The liquor bore U. S. federal excise stamps and Montana state revenue stamps, but no Idaho stamps.

Under the law, no one may import liquor of any kind into Idaho

Stove Rationing Start Postponed

WASHINGTON, July 1 (AP)—The office of price administration has announced that nationwide rationing of heating and cooking stoves will begin by mid-August instead of at the end of this month as previously scheduled.

The additional time is necessary to take account of suggestions and recommendations prepared by the stove industry. It was said.

Hot-making is a home industry in South America, usually a side line to Indian farmers.

except the state liquor dispensary, and it is a misdemeanor for others to have liquor in possession or transport liquor in the state. But the law seems to make no provision for confiscation of the liquor.

Miller said the Coeur d'Alene case was the first of its kind in recent years in Idaho.

PENNEY'S FOR THE 4th and for Fall Summer!

The 4th of July is the birthday of our homeland... it is the symbol of all we are fighting for—all we are and all we hope to be!

NEW SHOES FOR THE 4th. This American for children and grown-ups as well—new shoes for the Fourth of July celebration.

With confidence from brand new stocks at Penney's.

One of Your 3 Pairs Should Look Like This. If you have one good, substantial pair for all hand wear, you won't have to expect so much of your lighter-weight dress shoes.

That's one way of meeting the challenge of rationing. Another way is to look for qualities whose service is not limited. Shoes that will keep their shape because they're sturdy built... shoes that will stand re-sooling, because their materials are good. In two words: Penney Shoes!

STAMP 18 GOOD NOW For a Pair of Penney's Shoes! High in quality. Low in price. Buy Penney shoes. No need to look twice! Penney's has what you're looking for—now! Come see!

Girls' and Women's Service-Sport Shoes. When a limit is set on what we buy of anything, we decide at once to use our present ration tickets for the BEST we can buy. But the best does not mean the most expensive. In shoes, for instance, there's no need to pay more than Penney shoe prices. Penney shoe quality has proved itself, regardless of price, over many, many years, with millions of customers.

No Need to Spend More For Shoes, Just Because They're Rationed. Take our men's dress shoes, for instance. The leathers are selected with the painstaking care you would expect in shoes costing much more. We use the same construction as you find in expensive shoes. And the workmanship, down to the last stitch, is superb!

Is there any reason, then, to pay more for your shoes than you pay for Penney's? Men's Dress Shoes 3.79 and 4.79

# ALLIES INSIST ON GIRAUD CONTROL

LONDON, July 1 (AP)—Prime Minister Churchill declared today that both the American and British governments had asked General de Gaulle and Giraud June 19 for assurances that there would be no important changes in the French command in north Africa at present.

The prime minister also declared that the two French leaders had been asked to submit General de Gaulle's views on the military command in that area, Gen. Giraud, had affected control of the French forces there.

Reasons were requested. The assurance was requested. The assurance was requested. The assurance was requested.

The representation to the French committee of the United Nations, the prime minister said, was made on military grounds and implied no decision on the political or organizational situation.

Laborer Emmanuel Bihnevil asked whether Churchill would make a statement on a reported attempt to force full control in General Eisenhower over the French political situation. He asked whether the British government is a party to this decision.

It has never been the British government's policy to support any member of the command, he said, but to support the United States and British governments that their armies upon whom the burden of the war rests.

# BAND MAN FACES ONE TO SIX YEARS

SAF FRANCISCO, July 1 (AP)—Dennis Krupa, 34-year-old idol of the jitterbugs, returns to court tomorrow to be sentenced to court to be sentenced to a term of one to six years for using a minor to transport narcotics.

Under the curly-haired Krupa is granted a new trial, it will be mandatory upon Krupa. The policy of the juvenile court to send him to prison for not less than one year or more than two years.

Krupa's attorney, J. W. Ehrlich, said he would appeal the sentence to a new trial when Krupa comes back to court to hear his sentence pronounced. Krupa is charged with a 90-day jail sentence on a misdemeanor charge of contributing to the delinquency of a minor.

A jury of nine men and three women deliberating only two hours, convicted Krupa late yesterday. The usually debonair band leader turned pale as the jury foreman read the verdict to the court.

Without comment, he stepped quickly from the courtroom and returned to his cell.

Krupa allegedly sent his 20-year-old valet, John Patekos, to his hotel room for marijuana cigarettes. The band leader was accused of asking the youth to bring the cigarettes back to the theater where he was performing. Patekos had arrested with marijuana cigarettes in his pocket and told officers he had gone after them for his employer.

# Food Experts Study Plans to Avert Spud Shortage in 1944

WASHINGTON, July 1 (AP)—Plans to avert a potato shortage early in 1944, which otherwise might be more severe than the one early this year, were under study today by government food experts.

One plan, it was understood, is a modified version of the subsidy program used in Great Britain. The government would purchase the entire potato crop and sell it to shippers, wholesalers and retailers. In each step the government would fix the maximum prices which could be charged up to the time the potatoes reach the consumer.

The distance between what the grower was assured, plus the margin of profit allowance, and the wholesaler and retailer, and the final price charged consumers would represent the amount to be shared by the government.

Government quarters agreed that a new program must be set up and functioning before the bulk of the potato crop comes on the market this fall. The market is glutted now with early potatoes and the war food administration is campaigning to encourage increased consumption.

An administration source said several tentative plans are under consideration, and added that final decision will be influenced by the results of the current session between President Roosevelt and congress on the use of government subsidies to hold prices stable.

Similar plans, it was said, could be applied to the 1943 onion crop. Several sections of the nation already are reporting a paucity of onions.

Could Fit Legislation Officials said that the purchase program could be operated within the new limitations of legislation extending the life of the Commodore Cofit corporation. The bill bans subsidies to processors to finance take-backs in the form of foods, but continues authorization

# Hijackers Steal Oregon's Liquor

PORTLAND, Ore., July 1 (AP)—The Oregon Liquor control commission today blamed hijackers for part of the shortage of the Oregon liquor control commission's supply.

Union Pacific officials reported theft of 61 cases of pint bottles of whiskey from a box car en route from Lawrenceburg, Ind.

The theft occurred between Portcattelo, Ida., and Portland, railroad reports said. Reports also disclosed several cases of liquor en route to Seattle had been stolen last week.

# LEAP OF 40,200 FEET RECORDED

BY WILLIAM F. FAYE  
WASHINGTON, July 1 (AP)—The colonel comes from Missouri and laboratory tests left him skeptical—he had to see it to believe it.

So Lieut. Col. William Randolph Lovelace, surgeon and air force expert on high altitude equipment, made a parachute jump from 40,200 feet—the highest on record in this country—to convince himself and everybody else that the emergency oxygen equipment furnished to army aviators is all that laboratory tests indicate.

It was his first jump, and he said today at a press conference that it would be his last for a while, although his only injury was the freeing of his left hand. The jerk of his opening chute flipped off his heavy glove in 80 below weather.

Otherwise, Lovelace reported, he suffered no discomforts—the heavy regulation clothing, including oxygen mask, goggles and helmet, protected even his face from the cold.

Lovelace jumped from an army bomber near Ephraim, Wash., last Thursday. His parachute opened automatically, and the shock "blacked out" the colonel. He regained consciousness 85 about 20,000 feet, and by the time his gut got down to 8,000 feet was fully recovered.

It took him 23 minutes and 41 seconds to float down, he said, adding with a grin that this time "was almost exactly what laboratory calculations said it would be."

Lovelace jumped from an airplane for the office of army air force air surgeon.

Lovelace, whose home is at Troutville, Miss., was born 33 years ago at Springfield, Mo.

# RENDOVA ISLAND 20 MILES LONG

WASHINGTON, July 1 (AP)—Rendova island, which American troops attacked in their invasion of the central Solomon chain, is shaped like a lopsided T-bone steak with its long axis running north and south.

The island is about 10 miles long and at its widest point about 10 miles wide. From this point it tapers to a rocky hooked tail that makes up about a third of its total length.

Of volcanic formation, Rendova is characterized by black sand beaches which run steeply down to the water, although at many points its heavy woods blanket the coast as well as the interior. A description put out by the navy indicates that the island is without a good harbor, it has a lagoon but that was described as shallow and made dangerous by shoals.

The high point of the island is a volcano cone, topped by a stunted crater, which is 4,485 feet high and situated four miles from the northern end. The peak, frequently obscured by clouds, can be seen from many miles at sea.

# Auto Group Still Opposes Use Tax

BOISE, July 1 (AP)—Despite the fact that it secured no remedial action this year, the American Automobile association will continue to oppose the 43 auto use tax, H. C. Coir, manager of the Boise office of the A.A.A., said.

Coir termed the tax "a nuisance."

### RISE IN FREIGHT RATES BLOCKED

**BOISE, July 1**—Representatives of five railroad carriers last night signed with public utilities regulatory agency representatives from five eastern states an agreement to foretell proposed increases in freight rates for fresh vegetables.

P. F. Purvis, Idaho public utilities communication rate expert, said the changes agreed upon eliminated several portions of a highly restrictive tariff schedule published in December, 1944, by the railroad commission and other fresh vegetable from eastern Oregon, Idaho, and Colorado to southeastern and eastern states.

These provisions would have regulated increases to shippers, Purvis said. The tariff schedule has been in effect since the time of its publication until now after its suspension by the interstate commerce commission pending an investigation of protests filed by Idaho, Utah and Oregon shippers.

Purvis said the new agreement, reached after a series of conferences, would eliminate increases in charges and would result in savings of seven to ten percent annually. The proposed changes were not different rate increases, he pointed out, but rather, the application of a different method of determining charges to a sliding scale.

Attending the conference and signing the agreement were President R. H. Young, Commodore James Bess and J. C. Conroy, Purvis of the Idaho P. U. C. Edw. Moore, Idaho Falls, secretary-manager of Idaho Traffic Association, also attended.

### U. S. FELL SHORT OF FARMS' GOAL

**NEW YORK, July 1**—Lieut. Gen. Breton Sorenson, commanding general of the army service forces, said in an address today that the army was now short of weapons and material that equipment was trained soldiers were being sent abroad for combat use.

General Sorenson, speaking at a factory, a trade publication for industrial management, asserted that the army's goal for the year was \$106,750,000 under the mobilization act of 1940. He attributed the drop to a number of factors including food, labor shortages and turnover on the home front.

"One of the most important causes for our shortfalls is the part of some segments of the army and the public industry, food and armaments industry, that we got the war won, that we can let up on the industry of our efforts and that we can now begin planning for early resumption of production of civilian goods," he said.

### BIG NAZI PLANE'S RE TAILS REVEALED

**LONDON, July 1**—The air ministry today disclosed new details of Germany's six-engine bomber carrying 22,000 lbs of bombs which fell on the African campaign.

Thrown into the last phases of the battle for Tunisia, the plane carried 22,000 lbs of bombs and 100 men. It was a four-engine plane, the plane is a four-engine plane, the plane is a four-engine plane.

The plane has a "scalloped" landing gear arrangement of six main wheels and four smaller front wheels along each side of the fuselage to facilitate landing on rough terrain.

The military said the type of production seemed to be a main factor for it is made chiefly of steel, rubber and plywood and is covered with fabric.

Maximum speed is estimated at 350 M. P. H. with power from 250-H. P. Gnome-Rhone air-cooled radial engines of 14 cylinders in two rows.

### Writer on Tour Finds Little Interest in Recall Movement

**BOISE, July 1**—The great majority of Idaho's rank and file seem to be only curious as to whether the threat of Harold Howell and the Independent Voters League to recall Gov. C. A. Bottolfsen is being consummated at the polls.

Exceptions, of course, are those directly interested in pushing the movement. He added that astute politicians who have expressed their views in the press to be several months ago opposed to the recall attempt and forecast it will be dismal fiasco.

Howell, the prime mover, secretary of the Independent Voters League, said that on that day in the past he had no objection in its opposition to the recall movement.

Howell has said, however, that the southwestern Idaho clubs are the only active ones in the state and that Scott now has no organization.

### Traitor Stephan Will Die Friday

**DETROIT, July 1**—Unless President Roosevelt intervenes, 32-year-old Mike Stephan, convicted of treason for aiding the flight of a German flying officer from a Canadian prison camp, will die on the gallows before dawn tomorrow at the Michigan (Mich.) federal correctional institution.

Twice granted stays of execution by the United States supreme court order that he might utilize all avenues of appeal. The German-born former Detroit restaurateur was held nearly eight months beyond the Nov. 13 date first set for the hanging.

Three times the supreme court has refused to review the case, but Stephan's attorney, Nicholas Fallick, expressed belief yet today that presidential reprieve would again postpone the execution.

Hope for clemency waned today, however, as witnesses prepared the path for the nation's first convicted traitor of the century. Plans provide for completion of the hanging in time for evidences of the regular prison routine starts at 6 a. m. Friday.

Sawlich insisted "I still think the president will commute the death sentence."

Stephan had boasted shortly after his conviction last summer that "Germany will never let me hang."

Overseer of the prison, Peter Ruz, the man officer whose flight from Canada Stephan was accused of assisting in San Antonio, Tex., and returned to Canada.

**U. S. FLEET NOW WORLD BIGGEST**

HOLLYWOOD, July 1 (AP)—Secretary Knox told a crowd in Hollywood last night that America in the short space of time since Pearl Harbor has built the most powerful fleet in the world in actual composition.

By the end of 1943, the navy secretary declared, the American fleet will have been increased by 100 per cent in tonnage and 100 per cent in the event of 1945.

"The sweep of Japanese arms, said Knox, has been halted, and the navy has been the defensive for months and are digging in. In a frantic effort to procure and hold the fruits of early victories.

Initiative Seized

"In this war we have now seized the initiative," Knox told the crowd participating in a campaign to fund the cruiser Los Angeles to the fleet, "but possession of the initiative does not mean that the war has been won and that victory is just around the corner. There is nothing that would warrant any such optimism. The enemy, both east and west, is still in possession of the bulk of its strength.

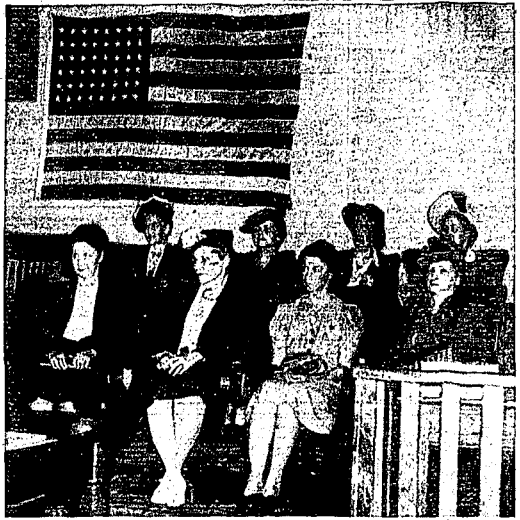

The road ahead is long and hard, Knox warned, but he promised that from now on we can pick the time and place where the battle will be waged, and he said that in military affairs this means more.

Knox said that in close cooperation with the British fleet, American sailormen and American flyers are successfully challenging Hitler's underwater fleet.

Ship Lease Decrease

"Victory is not yet won," he said, "but instead of mounting the destroyer, ship leases have decreased steadily. June shows a score or so good of these vessels, and it is expected only in the insignificant size of our fleet, we have been able to mount ships of enemy submarines sunk. And no submarine is counted as sunk, by either the British or ourselves, if there lacks afloat in the Atlantic."

**First Idaho All-Woman Jury Convicts Woman**

If Probate Judge Willard Lund of Pocatello has his way, scenes similar to this will be repeated often in his court. The first all-woman jury in Idaho called under terms of a law passed by the 1943 legislature was impaneled in Judge Lund's court and convicted a feminine defendant of disturbing the peace. "You never saw a more attentive or serious jury," said the judge. It was made up of six members and two alternates. Left to right, back row: Mrs. W. B. Hubble, Mrs. C. Edmondson, Mrs. E. M. Smith and Mrs. J. K. Davis. Front row: Mrs. L. Adamsen, Mrs. R. B. Carter, Mrs. James H. Myers and Mrs. Charles Zweigart, all of Pocatello. All have children. (Associated Press photo.)

The secretary said that fighting the sub in the Atlantic would continue as long as the war lasted and that the situation there warrants the hope that we "our worst enemy" on our part of the world as worried over our part move as we are of his."

**RATE ON WHEAT LOANS INCREASED**

WASHINGTON, July 1 (AP)—The war food administration last night increased its loan rate on 1943 grown wheat, from \$1.22 to \$1.23 a bushel, effective at 5 p.m.

The increase was made to bring the rate in line with the June 31 parity price of wheat. When the loan rate was announced several weeks ago it was based on an estimate of parity. Official determination of the parity price made upward adjustments were made necessary.

Eligible farm loans are farmers who are cooperating with the 1943 food program.

The WFA also announced that the commodity credit corporation will buy wheat from farmers producing the 1943 loan rate, where producers are unable to ship to their normal markets, where local storage is not available and where the CCC owns bins in which the purchased wheat may be stored. Purchases will be limited to wheat produced by farmers cooperating in the food program.

**SENATORS WILL INSPECT ARMIES**

WASHINGTON, July 1 (AP)—Amid predictions that "they won't see Hitler or stick in their eye," five senators got unofficial clearance from the state department for a trip around the globe in army bombers to visit American fighting forces in the battle zones and inspect their equipment.

Ending a three-months backlogs controversy over the personnel of the inspection group, Democratic Leader Hawley, Kentucky, told the senate he had reluctantly picked the members after conferring with Gen. George Marshall chief of staff, Secretary of War Stimson and Minor Leader McNary, Oregon.

Barkley named Senator Russell, D. Okla., a dark horse, as chairman of the committee and split the other four places between the Truman war investigative committee and the senate military affairs committee.

There has been bottling with boyish enthusiasm for three months to carry off the coveted assignment.

Russell was named as a representative of the appropriations committee, with some senators suggesting that of amplit between the other groups. Other members are Senators Chandler, D. Ky., and Lodge, R. Mass., representing the military group, and Senators Mead, D. N. Y., and Brewster, R. Me., for the Truman committee. Brewster and Russell also are members of the naval affairs committee.

**July 28 Tentatively Set for Opening Community Cannery**

Surplus foods which cannot be converted into feed for at home use will be brought to the community canning kitchen when it opens July 28.

"In all likelihood we will be ready to go before then, but July 28 is tentatively set for our opening," Dean Broadhead, cannery supervisor, said those attending the community canning meeting Wednesday.

Across From Elks

The cannery is to be located in the buildings originally occupied by the Bowling company, 207 Stephens street east, across from the Elks building.

Probably between 2,000 and 3,000 cans a day could be handled in the canning kitchen. A first choice would be made to cover the cost of the cans and the salary of a man to be hired to handle the boiler and other equipment.

Broadhead explained that the project is a training program similar to many operating in other states and communities. Through the food administration, cannery equipment will be made available.

Twin Falls had its order in early enough to be sure of necessary equipment. The government will also provide funds for fuel, light and salary for the cannery instructor.

Only One Fee

"The program makes no charge for use of the kitchen—just for the cans," Broadhead said. "It is understood, however, that persons bringing their own fruits or vegetables and do their own work."

Work will be done under supervision of Mrs. Jennie Harrell, instructor who served in a similar capacity when the WPA operated a cannery here.

Mrs. Harrell said that any who had doubts in their minds about canning projects, there has not been one case of spoilage," she said.

School Lunch Donations

Donations were made concerning donations to the school-lunch program. Mrs. Roy Evans, chairman of the school lunch program, said that the school lunch program is now being operated on a spot cash basis.

**MEAT PRODUCERS TO MEET FRIDAY**

BOISE, July 1 (AP)—Producers and processors of meat products in Idaho will be represented at 10 a. m. Friday, at a meeting at the Boise chamber of commerce to study the national meat shortage. E. O. Harlow, secretary of the Boise chamber of commerce, said yesterday.

The meeting will draft a statement of suggested policy to be followed in meeting the meat crisis. Harlow said, and will be forwarded at once to the office of price administration at Washington.

"The Idaho Cattlemen's association, Idaho Wool Growers' association, hog producers groups, packers, retail retailers, the chamber of commerce, and the Gowen field quartermaster corps will be represented. The meeting will not be open to the public, he said.

Boise stores have had little fresh meat in them for several days, with packers protesting they cannot continue to sell meat at ceiling prices established by the OPA without the subsidies which have been eliminated by congressional action. Only token deliveries of meat have been made in recent days.

**IDAHO REGISTERS 5,557 LESS CARS**

BOISE, July 1 (AP)—Idaho had 24,837 had 24,837 fewer motor vehicles registered in the first five months of 1943 than in the same period of 1942, Roy M. Clark, chief auditor for the department of law enforcement, has reported.

The state lost \$42,780.50 in revenue from registration fees as a result, he said.

Passenger car registration fell off from 110,646 to 102,232; private trucks from 7,981 to 7,070; motorcycles from 415 to 316; and non-commercial trailers from 14,609 to 11,943.

The revenue for the 1942 period was \$1,027,202 and for 1943, \$571,510.

E. W. O. registration revenue increased for the same period, however, with \$35,733 for 1942 and \$47,748. Registrations included 700 trucks, down 51 from 1942, 131 trailers, down 55 and 105 buses, an increase of 20.

Although buses rarely was founded in 1936, its spectacular modern growth did not come until three centuries later.

The Nation Needs MASON TOP JARS AND CAPS Save Walley's

Save the caps as well as the Jars and use them this summer to preserve next winter's vegetables and fruits. The following method is recommended.

1. Remove glass liners; wash and dry the jars. 2. Buy Mason top jars.

3. Apply disk to top of jar. 4. Use original cap, with paper liner removed, to hold disk in place.

NOTE: The above method of using original caps to seal jars and other Mason top jars is approved by the U. S. Food and Drug Administration.

BAR ASSOCIATION GATHERS JULY 26

BOISE, July 1 (AP)—The annual convention of the Idaho State Bar Association will be held here July 25, 26 and 27. Orrin, secretary, said only one name is expected to attend.

Due to travel difficulties, Orrin explained, the convention this year has been postponed, but under the constitution of the organization, a convention date and site must be announced.

In place of the convention, members of the state bar committee will meet here Friday, and legal papers will be published during the coming year and mailed to members.

Selection of a bar committee for the eastern Idaho division will be conducted by mail, he said. The terms of E. C. Clement, of Pocatello, president of the association, expires and an heir must be named only one submitted for the office.

Other members of the committee are Paul Hight, of Lewiston, and E. B. Smith of Boise.

### LABOR RELATIONS BREAKDOWN SEEN

WASHINGTON, July 1 (AP)—The war labor board foresees the breakdown of all collective bargaining unless labor and industry settle binding ampler procedure into their contracts and stop the tendency of turning to the board with every grievance.

Implying that the board might find it necessary to order such procedure, Vice-Chairman George W. Taylor remarked at a press conference, "It would be much better for the parties to do that than for the board to do it."

Board members emphasized they were not talking about the prohibition of contracts, but about the interpretation and application of contracts after they are made.

**Collective Bargaining.** Dr. Taylor said, "As a tendency to break down occurs too often the parties say, 'when a grievance arises, take it to the war labor board.' The board can't handle the vast number of grievances. It can't do it with the limited facilities, and shouldn't do it if it could. One of our jobs is to preserve as much collective bargaining as possible."

Chairman William H. Davis said he recognized that the inclination to say "let the war labor board do it" every time a grievance arises "is a very human reaction, but it won't help to win the war."

Dr. Frank P. Graham also a public member of the W.L.B. expressed the view that "the labor leaders of America have re-asserted their no-strike pledge and that should not be taken advantage of. The board did not otherwise indicate which party to labor agreements it favored for taking grievances to the board."

**Basic Agreement.** A statement issued by the board said "the basis for the national war labor policy in America today is still the voluntary agreement between the responsible leaders of labor and industry that there be no strikes or lockouts."

The board called on all parties to accept this present responsibility and render this patriotic service.

1. To install adequate procedures for prompt, just and final settlement of the day-to-day grievances involving the interpretation and application of the contract.
2. To make the full functioning of the grievance procedure a major responsibility under the strike, no lockout agreement for maximum production to win the war."

### Dancer Receives Term in Prison

WASHINGTON, July 1 (AP)—Federal Judge Matthew F. McGuire, commenting that "those who play the game must pay the price," sentenced Carmen Beach Martin, 29-year-old Spanish-born dancer, to one to three years in prison for violation of the white slave act. He fined her \$5,000.

Mrs. Martin was convicted on a charge of taking 22-year-old Dorothy Smyly to a hotel, where they entertained an army officer and a civilian. The government had contended that Mrs. Martin operated one of the capital's leading "call houses" and that she catered especially to Latin American diplomats.

For government witnesses, who are attempting to break what they describe as a flourishing prostitution business here, went ahead with their case against Eldon B. Powell, 30, in another federal courtroom. Powell is charged with violating the white slave act.

The government alleges that he brought Sunny Gray, 24-year-old blond who once played major roles in movies, from New York to Washington to work in the Hopkins Hotel, allegedly one of the better "call houses" which posed as a massage parlor.

An FBI agent testified that the FBI had obtained a statement from Powell confessing that he brought Miss Gray here to work for the Hopkins institute. Powell contended that he brought Miss Gray here to help her escape from a Negro who had been in support him by prostitution. Miss Gray admitted being with the Negro in New York's Harlem.

## PRECISION BOMBING: Leghorn Gets a Dose of Deadly Accuracy

Here is a sample of the high precision bombing that American planes are using with deadly accuracy in their daily bombings of Italy. Eight 500-pound bombs, released by the steady hand of a Flying Fortress bombardier, plummet down on Leghorn, Italy, right in a raid on oil refineries there. Black smoke and flames above, signal a direct hit on the target. Bombardier aimed not at oil tanks in sight of explosion, but at the cracking and refining plant enveloped by the blast, thus destroying a source of Italian oil production. Arrows in each picture mark the target area.

### JAPAN TREATING CAPTIVES FAIRLY

BOISE, July 1 (AP)—The Japanese are treating American prisoners in a "fair" manner, Mark Streater, Lewiston, held in a Shanghai war prisoner camp, has written Rep. Compton I. White, D., here.

The letter said, "I have been in this internment camp for the past five months. Although our treatment has been fair, with three meals a day, consisting of rice, vegetable stew, bread and occasionally meat, we greatly miss the good old nutritious Idaho farm products."

"We are allowed to play outdoor games, such as baseball, soccer, etc. Our work is comparatively easy, consisting of farming, building and sheet piling. We have a few radios but get only canned music."

"Now that the summer months are here we expect some more favorable oriental sanitary conditions do not compare with ours here at home. I am telling these things in the request of the Japanese authorities."

"I feel sorry for the Japanese civilian interests at home like we civilians here, and I sincerely hope that the treatment that they receive there is as good, if not better, than it is here."

The letter added that Idaho was "well represented" among the 1,000 captives here, and asked that efforts be made to repatriate the civilians. Military personnel also are quarantined at the camp.

### SERIES E BUYING LIMITS EXPANDED

Amendments to the \$5,000 holding limitation on series E war savings bonds make it possible for a great many more people to buy, track and chased, according to word received by Claude H. Detweiler, Twin Falls county war savings chairman, from C. George Pugmire, deputy state administrator.

Under the amended regulations, a married man may purchase \$10,000 maturity value series E bonds in any one year, with his wife designated as co-owner. If the husband is chargeable to either husband or wife.

"In addition," said Detweiler, "if the man has several children and desires to have them designated as co-owners, he can buy another \$5,000 maturity value of series E bonds in any one year, with his wife designated as co-owner. The purchase would be charged to the child designated as co-owner, and no child could have more than \$5,000 maturity value purchased in his name in any one year."

The new regulations also apply to a single person, as long as he designates a co-owner. For each additional \$5,000 purchased in any one year, Detweiler said.

**Utah War Work  
Tops Rocky Area**

SALT LAKE CITY, July 1 (AP)—War savings and facility contributions in Utah, cumulative through March of this year, were the highest in the Rocky mountain area.

The total for the state was \$52,235,000, according to an analysis of war production board figures released by the office of war information.

Colorado was next with \$48,075,000 in war supply and facility contributions, followed by Nevada with \$212,605,000, Idaho with \$127,515,000, Minnesota \$50,203,000, and Wyoming \$52,000.

The Utah figure tops the entire western part of the country after that of the last year, 1940, when valuation was \$537,732,255.

### Evening Slipper, Riding Boots Go Off Ration List

WASHINGTON, July 1 (AP)—Gold and silver evening slippers, domestic riding boots and handball, track and football shoes will be released from rationing July 7.

The office of price administration said in respect to evening slippers: "Manufacture of gold and silver of real or imitation leather that there has been little public demand for these items and production of the leathers has already been stopped by the war production board."

The athletic shoes released from rationing, OPA said, are not suitable for general wear and their production is limited, making rationing unnecessary.

Manufacture of riding boots has been stopped entirely. While boots in process of manufacture may be purchased without a ration coupon beginning July 7, boots imported into this country after that date still will require a coupon.

### Man Slain, Woman Hurt in Wyoming

LARAMIE, Wyo., July 1 (AP)—Wyoming police today sought a man who shot and killed Mrs. Kate A. Cheyenne, and hit Mrs. O. W. Larson, Laramie, on the head with a pistol.

Katmo and Mrs. Larson had stopped at the intersection of Highway 10 miles east of here to gather flowers. Mrs. Larson told officers that when she saw the man and demanded that he stop, she refused and was shot four times. The gunman then hit Mrs. Larson on the head and drove away, heading east.

Mrs. Larson was brought to a hospital here by ranchers. She suffered a severe scalp wound and shock.

# LAUNDRIES WILL GET AID OF WACO

WASHINGTON, July 1 (AP)—The nation's laundries were promised aid today by the War Relocation Authority in overcoming their critical shortages of supplies, services and "eliminate" their "unhappy" conditions.

To get specific help in hiring workers, the WACO said, the laundries must do such things as:

- 1. Close their doors.
- 2. Net laundry to householders more rapidly than they are doing.
- 3. Eliminate overlapping delivery routes and cut out local-basis "redundant" routes.
- 4. Eliminate all special-type and emergency work.
- 5. Eliminate all special-type and emergency work.
- 6. Eliminate all special-type and emergency work.

**Selling Barred**

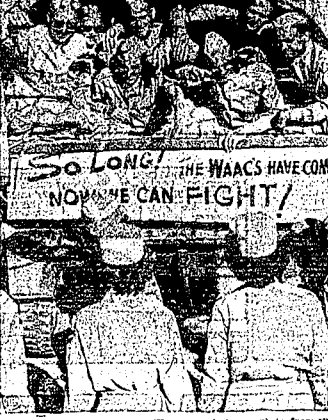

Accept but not solicit new accounts and work with other laundries to reduce overlapping territories to a minimum by interchanging customers.

Extend hours of operation or institute a multiple shift of workers without increasing territory.

Use out of present equipment.

Eliminate hand ironing or finishing of finished flat work, and discontinue folding of any portion of damp or wet work bundles. Discontinue including blankets, towels, etc. in laundry where it is necessary to preserve the life of the goods.

# Signal Corps Communications Work Opened to Idaho WACS

Women of the Twin Falls area are being accepted into the regular army code as the present time to be trained for service in signal corps military communications in the WACO unit which will receive the customary basic training, after which they will be assigned to duty with the signal corps.

**Radio Code Work**

Many of the recruits will be trained in the vital radio work of the signal corps operation, handling the military messages passing through the battlefronts of the world. Others will receive training in radio repair, teleprinter operation, switchboard installation, and other signal corps duties.

Applicants must meet the WACO enrollment requirements and the civil service and signal corps specifications.

The signal corps training is only one of many specialties available to women in the WACO. Corporal Dorius declared. In addition to the communications work, women are being used in the air corps for non-combat duties and in nearly 100 other jobs. For the first three months, and \$1,400 a year for the succeeding three months. During the last six months they will receive \$1,600 a year.

# REDS PENETRATE ENEMY TRENCHES

NOBORSKY, July 1 (AP)—A Soviet attack on the German front lines penetrated and penetrated German defenses on the Somme front today, the military newspaper said.

It said that the German advance was their reconnaissance through a breach in the enemy defenses.

Following an artillery exchange, a detachment of German troops tried to enter the line through a gap in the German defenses. The attack was repulsed and the German troops were killed or captured in great numbers. The German soldiers were blasted with hand grenades. The advance took place over a wide front.

A Moscow radio broadcast to Soviet troops told them to follow up carefully all artillery barrages during the day.

It said that the German advance was their reconnaissance through a breach in the enemy defenses.

# How'd you like to carry home 500 pounds of candles?

YOU: How'd you like to carry home 500 pounds of candles?  
 YOU: I couldn't afford that. It would cost you about \$200.  
 YOU: Well, that's just about average. But remember that only about 85¢ of it goes for light. The rest runs your radio sets and refrigerators.  
 YOU: Say, electricity's pretty cheap when you come to think of it.  
 YOU: Yes, but you didn't have it, you'd need a quarter-ton of candles to do the same job.  
 YOU: I'd a quarter-ton? That's a lot of candles!

But think of the electric appliances you've added. Fifteen years ago, did you have an electric refrigerator?  
 YOU: No.  
 Radio? Electric mixer? Electric clock?  
 YOU: No...  
 That's easy. Experience—efficiency—sound business methods—  
 YOU: I don't get it.  
 It's simple. The electric companies under business management know their job.

WOMEN WON'T TALK

BY RENE RYERSON MART

It was Kathy's great moment and she was magnificent. She reached out and held her eyes flashing scornfully at him. "You've built a perfect case out of Gram and it was anyone but Gram who you got away with! I killed you for a climax—but I killed her for a climax too! No one seemed able to say anything...

Kathy's lips opened but no sound came from them, and there was a queer look in her eyes. She waited a moment, and when he saw that Kathy wasn't going to speak, he said, "What did he do? Threaten you with physical harm?" Kathy told her pocket. "No, he—he saw my ring, and he wanted it—and I said I couldn't give it to him. It was my engagement ring, and then he took it from me. He—he hurt me. She swallowed once, "I had the gun in the pocket of my coat—I had gotten it for him, out of the Gram's room and...

*We respectfully call your attention to . . .*

This week-end we celebrate Independence Day . . . Thousands of men have fought and died for freedom of these United States. In this present conflict we find many of our friends, relatives or acquaintances who have made the supreme sacrifice that we might enjoy the benefits of the freedoms which they held as an ideal. In keeping with this thought we are proud to direct your attention to our display of the medals, citations and correspondence in connection with

a Magic Valley man—Sgt. Raymond R. Joslin who was killed in action and for whom our airport is named. The Distinguished Flying Cross, the Purple Heart—are medals which will be formally presented at a later date. We urge you to view them to give you a clearer, more concrete idea of the fact that we are at war—that our own men are giving their lives daily. And that Independence Day should have the deepest meaning possible for all of us.
