CORPORATE TAX FREEZE DELAYED

WASHINGTON, Oct. 23 (AP)—The house ways and means committee today postponed until Monday or later a decision on whether to shove the treasury's proposed \$1,000,000,000 in higher corporation income taxes.

Chairman Robert L. Doughton said after the closed meeting that as yet no formal motion had been made to freeze corporate taxes at the present level—a stand which the committee already has taken on the higher personal income tax phase of the treasury's program.

"We simply heard the ins and outs of the corporation tax data," Doughton said. The data was presented by Colin P. Blanton, tax expert of the joint committee on internal revenue taxation.

Personal Income Raise Rejected
The committee turned down the biggest part of the \$12,500,000,000 program yesterday by voting 16 to 8 against any higher personal income taxes. The treasury sought to levy taxes on \$400,000,000 in new revenues in this category.

It also voted to ease taxpayers' and employers' bookkeeping headaches by abolishing the victory tax as a separate tax and incorporating it in the regular tax, providing a \$12,000,000 increase over the present yield of both levies.

"Almost Inevitable"
Rep. Harold Knutson, R. Minn., ranking committee member, explained the \$12,000,000 would be spread over a total yield of \$17,000,000,000 and result in an "almost inevitable" increase to any individual.

In proposing abolition of the separate victory tax, the committee adopted a new exemption provision to assure that some 9,000,000 low-income earners, now exempt from income taxes but who pay the special levy, will continue to carry a share of the burden. The administration plan would have freed them from further direct levies.

Wendell Sign-up
WENDELL, Oct. 23 (AP)—A school from 10 a. m. to noon and 1 to 5 p. m. Wednesday and Thursday, Oct. 27 and 28, by a staff under the direction of Mrs. Anna Kappel.

Mont. Robert E. Williams, USNB, above, Bismarck, Wash., is not popular with Hitler & Co. The young German Avenger torpede bomber pilot recently took off from his escort aircraft carrier to sink two naval submarines, damage a third and possibly damage a fourth in Atlantic battles. He made three of the attacks in four days and he and his crew remained unscathed. (Official U.S. navy photo.)

Quartet Accepted By Marine Corps

Newly inducted into the U. S. marine corps are four "Twin Falls men, now taking 14-day furloughs before reporting for active duty.

Those joining the marines were Clarence William Gilbert, husband of Patricia Hens, 520 Fourth avenue east, Lloyd Garlen Hann, husband of Patricia Hens, 520 Fourth avenue west, Raymond Theodore Koester, son of Mr. and Mrs. Otto T. Koester, 204 Ninth avenue east, and Matthew Louis Lewandowski, husband of Kathleen Lewandowski, 239 77th avenue south.

MORE ONIONS IN U. S. DIET URGED

By FRANK GARREY
Associated Press Science Writer

FIFTYBROUGH, Oct. 23 (AP)—Onions, will have to take a stronger place in the great American diet in order to pep up relatively jaded wartime foods.

The American Dietetic association was told. Saying that this country would have to make greater use of foods requiring the least man hours and acreage to produce in relation to their nutritive value, Byron Spencer, chief of the food branch of the food-price administration, said the trend would be toward more and more "direct" foods such as vegetables as distinguished from "indirect" foods, like meats and dairy products.

"As we do," he declared at the closing session of the association's fall conference, "there will be an increasing need for condiments, spices, onions and garlic, and intelligent preparation and seasoning of basic bulk foods so they may be served in the most appealing form."

"Experience indicates," he said,

Neither war nor shortages can take away the sacred rites which Americans give their loved ones.

Some things, as you know, changed in 1943. But our professional skill, our facilities and our consideration for your desires is just the same.

WHITE MORTUARY

136 4th E. Ph. 1400

JEROME

Miss Lettice Blanche Case and Grant Trumppitt were granted a marriage license. Miss Alma Mae Greco, Jerome, has been employed as secretary to Probate Judge William C. Comstock. Miss Joyce Cooke is working as the county agent's office during the harvest vacation.

"That rich man, poor man, beggar man, thief, all alike must still have his food served appetizingly, or he will not eat a sufficient quantity of such bulk foods as bread and potatoes to furnish him a diet adequate in calories."

Spence said lend-lease beef exports totalled only one and one-fifth per cent of United States production for the first eight months of 1943, and that in the 20 months that butter has been shipped to Russia, "the quantity has amounted to two and one-half ounces per United States civilian per year."

But, he said, has not been furnished "a single pound" of butter by us but obtains it from Australia, New Zealand and Canada. The first assault on north Africa required 110 tons of maps.

Judgment Sought In Accident Case

Judgment for \$253.22 is sought in a probate court suit filed by Alvin A. Boyd, probate court agent, Herbert

L. Hoover, Kimberly, as a result of a motor car collision Wednesday at the intersection of Goodhue street and 27th avenue west.

Boyd said in his petition that he was driving his car in a northerly direction, and that the Hoover machine was traveling in the opposite

direction. Hoover, Boyd says in his petition, suddenly "hid without sign or warning" turned his car across the street in front of the Boyd machine so that it was impossible to avoid collision.

Boyd stated that a repairman had estimated the damage to his ma-

chine at the amount stated for in the petition. O. P. Duval is attorney for the plaintiff.

Total income of American farmers reached \$10,177,000,000 in 1942 for a new high record.

WELL KEPT SECRETS

Laymen were impressed once more with the marvels of modern science when they read about the flying saucers which came home safely from a bombing raid after bullets from a Messerschmitt had cut the plane almost in two and severed the pilot's manual controls.

Now we learn that this achievement was possible because of what the Minneapolis-Honeywell company, with pardonable pride, describes as "one of America's best kept military secrets."

It must be assumed that this secret, carefully kept for virtually two years (until it is reasonably certain the Nazis have learned it) from being disclosed to the Axis powers, which conceal enormous secrets that the war has brought to technology.

There seems no good reason why, if such an innocuous device as a heating control can be diverted to the business of destroying enemy war plants, it cannot be adapted to convert at least some of the unpublished new devices of war to peace uses.

This would enable us to live more comfortably and cheaply than we do now. It would also help to pay for the war in the post-war age. Also, and of prime importance, it should help to take up some of the employment slack after the war is over.

It is not surprising that the military will show the same skill, aggressiveness and ingenuity at reconverting to civilian production that it has shown at converting to war needs.

SHOE RATION CUT

Announcement of the reduction in shoe allowance, through lengthening of the ration period from four months to ten months, has drawn a chorus of boos from almost everybody, with parents of young children loudest in their condemnation.

No young children have a year with two pairs of shoes. Parents will have to keep even one 8-year-old in shoes with six coupons without any need for themselves—and what about those who have three, four, five or more youngsters to shoe?

Fortunately OPA doesn't expect that. It has promised that, once the family's coupons are used, extras can be obtained for children provided they are for utility wear and not for party use and show-off.

DON'T LOOK SOUTH

Herr Goebbels condemns the German people to talk of German defeats or even to look depressed. Why worry, the Nazi propaganda ministry says, because the Germans have evacuated more than 300,000 square miles of "debris" in Russia?

A year ago Nazi armies were battering the doors of Stalingrad. Herr Hitler proclaimed that the Volga city was about to fall. Now the Russians are surging back into White Russia. Literally millions of Germans are dead, besides those "heaps of debris" in the east.

If Goebbels can force the home front to refrain from talking about German defeats, from looking depressed, then we are wrong, and there is a stupor-race.

RATION TOKENS

These plastic tokens which the OPA plans to put out next week, making change with its new one-value ration coupons should be very convenient. They will, however, lead to certain difficulties which, presumably, OPA has considered.

To a considerable extent they will break down the barriers between ration periods. A family that has coupons left over in one period can use them in another.

Investigation showed that husbands were preventing jobs of Cleveland women from seeking war jobs. Likely still have that old-fashioned idea that woman's place is in the home.

Wartime sometimes makes us wait as long for the doctor as he has to wait for his money.

HORRIFIED—John L. Lewis just scored a technical knockout on the administration foes that attacked his leadership at the annual convention of the United Mine Workers.

L. Lewis (1) hanging up two more for a steep wage increase before the returning to the American Federation of Labor with honors accorded new deal.

He got back to his old organization, the United Mine Workers, not too difficult, but he has not decided whether it is worth while. He thinks that the new deal is not worth the trouble.

Two federal attempts to indict him and destroy his prestige in anticipation of 1944 elections. Some Mine Workers financial records, hoping to hook him on failure to pay dues.

The slanders uncovered nothing illegal and honest. He was a victim of the administration's attack.

D. of a study disclosed that the U. M. W. found that means John L. Lewis had loaned \$250,000 to the U. S. coal company of Springfield, Ohio.

RESENTMENT—Attorney General Biddle's advisers, however, maintained that the U. M. W. loan constituted collusion and they convinced their boss. They argued that the mine workers were doing the favor for losses suffered in a walkout of the Progressive Mine Workers of America.

A Maiden's Prayer AND PLEASE OH LORD SEND ME A MAN. BUT OH LORD DOES IT HAVE TO BE THAT IMPETUOUS MR. WILLKIE P.

NEW YORK—A maid just received a copy of a handout from the press agent of that sector of the city government, the National Maritime Union. The handout alleged that Willkie had been called to a "junior lieutenant" of the union during the invasion of Italy. In just what way this service was rendered, the handout did not say. It only stated that Willkie had been called to a "junior lieutenant" of the union during the invasion of Italy.

However, the union complains that the handout was a "disgraceful" attempt to discredit Willkie. The union says that Willkie had been called to a "junior lieutenant" of the union during the invasion of Italy. In just what way this service was rendered, the handout did not say. It only stated that Willkie had been called to a "junior lieutenant" of the union during the invasion of Italy.

HOW THINGS APPEAR FROM PEGLER'S ANGLE

NEW YORK—It was Sunday, "so the crew were not working and they tried to prevent our boat's crew from doing any business. That was at that time when American marines were on the beach. They had a lack of those materials which were aboard this ship. The boat was not working and they would be out of it. He did go below, which was the disappointment of the crew."

That is just a sample but if the communists want to start a comparison of notes, I am all for that. In just what way this service was rendered, the handout did not say. It only stated that Willkie had been called to a "junior lieutenant" of the union during the invasion of Italy.

ARMY UNITS TO BE REORGANIZED

WASHINGTON, Oct. 23 (AP)—A sweeping reorganization of various types of army troops, adopting the basic lessons of the war and designed to improve the fighting efficiency of the ground combat force, has been ordered by the war department.

The army and navy register, unofficial but authoritative source weekly, will publish tomorrow a partial text of the war department circular No. 256, dated Oct. 10, which discusses:

(1) The infantry division, of approximately 18,000 men, is being reduced eight per cent in strength and 14 per cent in motor vehicles, at the same time being greatly increased in fire power.

(2) The motorized division is eliminated as a separate type of unit, and all motorized units will be transported by a troop transport train, and all infantry division training will include such transportation.

Regiments Eliminated

(3) Regimental organizations are eliminated in the armored division, which is a separate type of unit, and three armored infantry battalions of the armored division are increased to four. The division's artillery and infantry strength being greatly increased in relation to tank strength.

(4) A new type of light division "is being tested" for amphibious, airborne, mountain and jungle operations. Its aggregate strength will be much less than that of an infantry division, but its firepower approximately the same in small arms and automatic weapons.

(5) The division's organic defensive weapons, such as tank destroyers, anti-aircraft, and anti-tank, are being limited, and a pool of anti-aircraft artillery and anti-tank battalions provided under corps or army control to reinforce threatened points.

Administrative Units Removed

(6) The corps will be relieved of administrative duties and will be concentrated at headquarters of the field army, so that the corps becomes purely a tactical and training organization (except when it functions as a "reserve" corps, when it is in effect a small army).

The circular notes also that the number of staff sections, even at army headquarters, is being reduced generally "to provide only sufficient personnel for control since other operations cannot be swift and effective if staffs are large and clumsy."

Barbara Solomon At Burley Field

BURLEY, Oct. 23—Miss Barbara Solomon, daughter of Mr. and Mrs. A. M. Solomon, arrived home Thursday and will work as a communications station at the civil aeronautics communication station at Burley airport.

Miss Solomon took a civil service examination for this work last year and in March went to Seattle for training. For several months she has been at the CAA station in Eastern Wash.

Drake, Buhl, president of the Buhl W.C.T.U.; Mrs. Reed Moody, Nampa, secretary, and Mrs. Addie Wilson, Idaho Falls, treasurer. (Staff Photo-Engraving)

MORALE AT HOME VITAL TO ARMY

PHILADELPHIA, Oct. 23 (AP)—The mental breakdowns of American soldiers, largest and costliest item of our present losses, are not the same as in World war one, and require a high home morale as an antidote.

This report was made to the Association of Military Surgeons of the United States here today by Dr. Edward A. Strecker, consultant in psychiatry to the secretary of the navy and the army air forces.

In World war one the common metal crack-ups were due to the hysterics. These brought on blind fear in perfectly good eyes, paralyzing in entirely healthy men. They were due to shock and fear in battle. They were not deliberate. Dr. Strecker explained, but due to the personality trying camouflage to protect itself. A man with paralytic legs, for example, couldn't march or fight.

In the present war the men are under great strain for long periods for they are fighting with complicated machinery that both puzzles them and takes more out of them to operate. The long-continued worry breaks their minds, and in the end more men may give up than in the relatively brief battle situation.

In fact, said Dr. Strecker, about 100,000 men who would not have been expected to crack in previous wars, break in this one now and then. The reason seems to be that human endurance is reaching its limit.

HANSEN

Mr. and Mrs. Ivan Muschitz and daughter, Miss Jo Ann Muschitz, Moscow, Idaho, are visiting at the home of their son and daughter-in-law, Mr. and Mrs. W. B. Muschitz.

Mrs. Charles Lavin, the former Miss Mary Ross, returned to the home of her parents, Mr. and Mrs. Hattie Ross, after several months in Webster, Ia., with the parents of her husband, Sgt. Charles Lavin, who has been in north Africa for the past year.

Mrs. Hattie Houshins has been relieved work that her son, Vernon Hall, pharmacist made first class left for overseas duty. Mrs. Hall and baby are still at San Diego.

Ted Vaux, Jr., U. S. navy, has returned to his station at Piquette, Calif., after visiting his parents, Mr. and Mrs. Ted Vaux, Jr., Radio Technician second class Cecil Johnson, son of Mr. and Mrs. Ace Johnson, Hazelton, made a brief call at his uncle and aunt, Mr. and Mrs. Mill Walker.

George Colner, son of Mr. and Mrs. W. A. Colner, and John Henry Muller, son of Mr. and Mrs. Peter Muller, took examinations at Boise for the army air corps. Also going to Boise was Charles Hume, Jr., a volunteer for the same division of the army. Charles is a son of Mr. and Mrs. Charles Hume, sr.

Bomber Training Told to Clubmen

BOISE, Oct. 23 — Rev. Brooks Moore, guest speaker at Rotary, spoke on the motto of the B-29, "Service Above Self," and gave them a simple amplification of this motto.

Mr. H. W. Webb, Castleford, who is teaching advanced flight how to handle the B-27 bombers at Roswell, N. M., talked briefly on his work.

He explained that 200 hours of ordinary flying are required before the men are given the responsibility of the B-29, and it takes 50 to 75 hours of solo work before these can be handled properly. He also told a little about the new B-29 that weigh 60 tons and are the last word in modern development.

Butch Lee Thompson sang two solos, accompanied by Barbara Samuels.

Visitors were Lieutenant Webb and Art Trimmer, Roswell, N. M. Visiting Rotarians were Tom Baker, San Diego, Calif., and Charlie Sherman, Blackfoot.

TAKES AIRCRAFT JOB

JEROME, Oct. 23 — William M. Hartwick, former Jerome county assessor, plans to leave this week for California where he has accepted a position in the Lockheed aircraft plant for the winter months. His address will be Covina, Calif.

MARY ALICE TROUT FARM

I.O.O.F. ELEGTS SOUTH IDAHOANS

WEISER, Oct. 23 (AP)—Warren T. Shoppert, Coeur d'Alene, assumed office today as the Idaho grand master of the Odd Fellows lodge succeeding George Leith, Buhl.

This election was announced at the close of the annual grand assembly held jointly with the Rebekah lodge at which Mrs. Floyd Weaver was chosen president. Mrs. Leith replaced Mrs. Lulu Waite, Pocatello.

Shoppert was chosen as the 1944 meeting place.

Meeting Grand Master Leith told the 50 delegates that contributions for support of the Odd Fellows and Rebekah lodge at Caldwell have increased during the past year. Mrs. Weaver reviewed the Grand and war relief activities of the women's organization.

Officers elected and appointed: Odd Fellows—Robert F. Johnson, Caldwell; deputy grand master, W. W. Stokessberry, New Paltz; grand warden, Fredley F. Horne, Caldwell; grand secretary, C. A. Hansen, Moscow; grand treasurer, H. K. Jensen, Rupert; marshal, N. B. Smith, Nampa; grand conductor, T. Oltroy, Kootenai; grand chaplain, W. W. Hedgesberry, Middleton; grand guardian, Fred Moore, Boise; Dr. G. B. Allen, Nampa; Leith and Rowley Bradner, Nampa, grand representatives.

Delegates—Mrs. Grace Babst, Caldwell, vice president; Mrs. Ella Martin Warner, Boise, warden; Mrs. Leith, Caldwell, Buhl, secretary; Leith Scheller, Nampa, treasurer; Mrs. Edith Florence, Emmett, marshal; Mrs. Estelle Taylor, Juliaetta, conductor; Miss Doris White, Harrison, chaplain; Margaret Waite, Twin Falls, musician. Members of the home board are Mrs. Bertha Brunton, Hazelton, and Mrs. Lucy Klumler, Nampa.

Wendell Shop Converted to Army Factory

WENDELL, Oct. 23—After several years of war jobs in all parts of the county, and most recently in Boise, Wendell McClintock has returned to Wendell and will convert his carpenter shop into a plant for making ammunition cases and warehouse pallets for the army ordnance department.

McClintock said the pallets are used to pile goods so they can be readily moved by a warehouse truck or crane. He has found adequate supplies of lumber and skilled workmen major problems.

Inciters of Riot To Be Sentenced

DETROIT, Oct. 23 (AP)—Charles Little Wilton, Lyons, 21, and Leo Tatum 25, two Negroes accused of being the principal inciters of the June 24 race riot, will be sentenced Oct. 24 for the part they played in the insurrection that cost 38 lives.

Ann, all-white jury, charged Judge John A. Maher to decide the case "on the facts alone, without hatred, animosity, fear or favor."

He found the guilty after three and one-half hours of deliberation. Lyons was identified as the man who carried the story that a Negro woman and her baby had been

thrown into the Detroit river from the Belle Isle bridge by Whites. Tatum was identified as the one who repeated the story over a public address system to a large crowd of Negroes in a dance hall. Police said it was Tatum's action that incited the Negroes to riot.

TEST CARS PROVED GENERAL'S MILEAGE

...with American-Made* Rubber!

They tell us at the General Tire factory that long before they sent us our first stock of the new General from American-Made Rubber these tires were "given the works" in grueling tests in the Mojave Desert.

Drivers, in relays... kept steadily at it through blistering daytime heat... through the freezing cold of desert nights.

It's not the way you will drive the new General... but it proved, once and for all, that this General—from American-Made rubber—delivers the kind of mileage you'd expect from a General. And, General's surplus of safety.

Today—Save the Tires You Have

The tire shortage is still acute—and will be for a long time to come. Someday everybody will be able to ride on this top-Quality General. Meanwhile, military needs come first—and you must conserve your present tires. We can help—with recapping, repairing, mileage advice. Come in!

LIVESTOCK PRICE CEILING PLANNED

WASHINGTON, Oct. 23 (AP)—An order establishing price ceilings on live cattle—long a highly controversial issue—is expected to be issued by Economic Stabilization Director Fred M. Vinson's desk today awaiting approval.

The order, drawn up by the office of price stabilization, is expected to embody a maximum price of \$110 per hundredweight on beef cows and a ceiling on live beef would establish a second major producer-consumer price ceiling on livestock. A ceiling of \$14.75 per hundredweight on live hogs is expected.

Toughly Issued

Livestock ceilings have long been a touchy issue between the OPA and the war food administration, and with congress. The OPA, believing a livestock ceiling necessary to keep its ceiling program effective, has even threatened to take the matter to the courts, has hinted at ceilings on live animals from time to time but always stood back.

Both former OPA Head Prentiss Brown and the war food Chief Chester Davis thought it might be necessary, but Davis said back in April that "the issue is not a hot one" because of the administrative headaches involved.

Fought by Stockmen

The WPA fought the move on the ground that it was unjust, inequitable and that it would be unworkable because of the different quality of livestock. One of the main arguments for the ceiling was that it would prevent a squeeze on smaller packers who were caught between uncontrolled producer prices and low consumer prices.

The latest government move to ease the price on live animals is expected to conform with consumer ceilings and to be in the packer's favor by government payments.

Stockmen approve the reports that the price ceiling will be the major remaining controversy between the two top agencies dealing with food.

Girls Work in Cassia Potato Field

Here are four members of the crew of nine women and one man who showed that they are capable of the back bending and wading that it takes to harvest 600 acres of potatoes a day. These girls, left to right, are Violet Brackenhov and Lela Haskell, Alton high school students; and Loraine Lower and Jean Lower, of the field. The potato in the foreground bears out the figures for this field, which averaged 320 sacks to the acre. (Staff Engraving)

IDAHO, U. S. TIRE SHORTAGE GROWS

BOISE, Oct. 23 (AP)—An acute tire shortage has developed in Idaho and the nation despite tremendous synthetic rubber production which has outstripped the ability of tire manufacturers to consume it. Bert Trautman, director of the southern Idaho district of the office of defense transportation, said today at a meeting at Denver, that synthetic rubber production is being expanded to meet the needs of the army and air forces in the middle west.

He explained that greatly expanded use of the tire by the army and air forces has led to a shortage of synthetic on the scale formerly attained by the civilian market.

As a result much of the synthetic output is going into stockpiles awaiting the day when processes and plants can be developed to convert it into tires.

Italian Captives Want Real "Aliy Status" — Ask to Eat

BY HAL BOYLE

AN AMERICAN AIR BASE IN ITALY, Oct. 23 (Delayed) (AP)—The first fruits of the Italian declaration of co-belligerency brought nothing but trouble for one Italian sergeant at an American airport.

Helping the sergeant prepare the meals were four Italian war prisoners. Just before the lunch hour, when preparations were the heaviest, he entered the dining room and saw all four seated happily at one of the dining tables instead of working at their meals.

"What does this mean?" he demanded.

The radio just announced that Italy had declared war on Germany and was all co-belligerents," said one of the prisoners. "Now we want to eat."

The sergeant reached for a rifle, "But right now we've got to get that meal served. Start moving."

The four Italians moved.

"When your worst enemy thinks you're a pretty tough guy, you probably are."

German troops along the Italian front are losing faith in their battered air force and the same time gaining an overwhelming respect for the allied planes which rip unceasingly at their positions.

The sentiments of one man that figured in the line on the subject are summarized in the following extracts from a diary found on his body:

"The American artillery and air bombardments are relentless, many times they bring tears to our eyes. We are afraid even to move a machine in our air trenches lest we reveal our positions away."

"When, in the night, we hear the relentless Hermann Wilhelm Goerring, chubby chief of the German air force, the diary writer, Hermann, dear Hermann, where are those planes you professed us?"

"White the boy who wrote that is dead, there are thousands of other men soldiers on the Italian battlefield who must be asking the same question. Only answer that can be given them certainly will not help their morale."

Final Rites Held For Train Victim

BOISE, Oct. 23 (AP)—Final rites for Thomas Moorhead, who was last night killed when struck by a train near Caldwell, were held at the Albern funeral home chapel here.

Max Greenlee, pastor of the Bulli Presbyterian church, officiated.

Mrs. Fay Walcott, accompanied by Mrs. John Burgess.

Funeral services were Ernst Wersel, Alvin Machacek, Wayne Blakey, Joe Dexter, Don Hipbee and Harold Shuler. Interment was in the Albern O. O. F. cemetery under the direction of the Albern funeral home.

Feeder Cattle Shipments Drop

BOISE, Oct. 23 (AP)—A sharp reduction in the number of feeder cattle moving from Idaho to the corn belt states is expected during the winter and spring and a similar situation exists with sheep and lambs, Richard O. Ross, assistant for the U. S. D. A. bureau of agriculture, said today.

In each case the number led will probably be considerably smaller than last year's total. Shortage and high prices of feed grains, high protein feeds and hay, coupled with a decline in market prices are said responsible.

Sen. Neale Talks At Knoll Grange

Discussing the senior citizen franchise act, Sen. E. W. Neale, as guest speaker at Knoll Grange booster night, explained the reasons for the act.

Grange members responded to roll call by telling what they had done in and around their homes to prevent accidents. In turn with the event, Neale discussed "Accidents Don't Just Happen" and the importance of farm accidents and how some of them might be prevented.

Included on the program were community singing and the following numbers: Two songs by Shirley and Carolyn Larson, presented by Mrs. C. E. Greive, a skit entitled "The Fire" presented by Mrs. Fay Holloway, Carol Holloway and Elmer Doozett.

Mrs. Holloway was presented with a first-aid kit for being the most cheerful person in the character contest.

C. W. Kevan, master of Knoll Grange, read a letter from the National Grange, Master A. S. Goss, Washington, D. C.

The next meeting will be held on Nov. 2; officers are to be elected at that time.

Richard F. Ryan Appointed Ensign

GOODYEN, Oct. 23 (AP)—Richard F. Ryan, son of Prosecutor M. P. Ryan, received his commission as an ensign in the U. S. Naval Reserve at the Midshipmen's school, New York City, this morning.

His training course was completed in impressive ceremonies at the Cathedral of St. John the Divine.

CIRCUS HANGING ENDS IN DEATH

ST. LOUIS, Oct. 23 (AP)—Alroy "Duke" Peters, the man who hangs himself and lives to tell the story, "the veteran performer jumped from a platform and was suspended 20 feet into the air as the "rope" stretched its length.

An ambulance rushed the performer to Deaconess hospital where he was pronounced dead.

The life-saving trick of the act, circus attendants explained, is to grab the "rope" just before it becomes taut and "take the snap with your hands instead of your neck." They said spectators seldom notice the movement in the excitement of the act.

Ernie Young, who has booked Peters for 30 years, said that his friend was trying out a new rope and was performing his act from a height of 25 feet greater than usual. Young believed that Peters grabbed the rope, but that it lacked the necessary resilience.

After being announced to the audience as "the only man who hangs himself and lives to tell the story," the veteran performer jumped from a platform and was suspended 20 feet into the air as the "rope" stretched its length.

1944 BEET PRICE GAIN DEMANDED

WASHINGTON, Oct. 23 (AP)—Congressmen from the Intermountain area have been exerting all possible pressure to induce the establishment of 1944 sugar beet prices at a level which will bring a "swing toward normalcy" in the beet growing sections.

They have appealed particularly to the war food administration and the OPA to study 1943 crop returns as a basis for next year's prices.

Meanwhile, the October crop estimates of the department of agriculture indicated that the incentive prices fixed by the government on potatoes and beans have upset the beet crop in the Intermountain area as well as in other beet-producing states.

Because of relatively higher prices for potatoes and beans and a low price for beets, farmers naturally invested in the spuds and beans, resulting in record potato and bean crops and a decline in sugar beets.

In Idaho, the beet crop dropped from 1,075,000 tons a year ago to only 620,000 tons in 1943. The potato crop, on the other hand, went to 22,500,000 to 45,355,000 bushels this year.

"Flamex" Kitchenware

- 1-qt. Double boiler
- Open Skillet
- Teakettle
- Covered Casserole
- Pie Plate

Merit Wax

Money-saving gallon size in easy-to-roll cartons. Dries quickly without rubbing. Protects floors and linoleum... keeps them new and fresh looking. Gives a finishing water-resistant gleam.

\$2.49

Beautiful cookware of "Flamex" stipled glass. Guaranteed one full year against breakage due to heat. Handsomely styled, easily cleaned. Flat, fuel-saving bottoms. Wide selection of smart pieces... buy one or all!

PIE PLATE—wide, juice-saving rim promotes flaky crusts. Sides handles. Fits easily removed. **30c**

SHALLET—to replace your worn-out metal pie. Flat bottom fits perfectly over burner, heats quickly. 7-inch size—**80c**

WHISTLING KETTLE—firm-grip glass handle. Easily removed metal whistle, densely grooved for safety. Wide, flat bottom. **\$1.85**

COVERED CASSEROLE—serves as open or covered baking dish. Use snug-fit cover separately as cake pan. **98c**

DOUBLE BOILER—uses 2 saucepans; lock-on lid fits both parts. 1 1/2-inch insert—**\$2.98**

CLOTHES BASKET—Comfortable size for carrying... 21 inches long! Strong, shaping-holding frame. Firmly woven clear, attractive lining. Bargain! **\$1.19**

WOOD WATER PAIL—Strong-as-steel wood pail with 3 welded and stapled wire-floors. War dipped... water tight. 12-quart—**\$1.59**

Many EASY ROLL CART

Fine for back-yard plods or barbecues. Remove the trays and presto! it's a laundry cart. Sturdy built! Easy rolling wood wheels.

\$3.98

WILTON Rugs

We have a few all-wool 2x12 Wiltons priced at—**\$72.50** and **\$149.50**

Also Broadloom VICTORY CARPET **\$2.75** Sq. Yd. Fine for Bedrooms

Help your family and your country. Be ready for sickness by knowing WHAT TO DO.

Polish—Dargain! Fine for furniture, woodwork, auto-mobility, floors. One pint—**39c**

Mop—Easy-wring. Oiled in all corners. For washing, dusting, Bargain! **59c**

Cleaner—All-Purpose. 5 Lbs.—**79c**

STEP-LADDER STOOL

Doubles as a ladder or as a stool. Strongly made of wood and enameled in white with red accent. 3 x 10-inch seat. Splendid value!

\$3.98

Knotty-Pine design Waste Baskets

Heavy fiberboard covered with Kraft paper in knotty pine design. Highly styled... suitable for any room! Five popular sizes. Reasonably priced!

10-inch... **39c** 13-inch... **79c**
11-inch... **59c** 14-inch... **89c**

Just a few Roasters

Limited quantity of these big, strong blue porcelain roasters! 10 to 18 lb. fowl or 15 to 16 lb. roast. Buy now!

\$3.98

17 Inch. Roasters—**\$1.49**
Roaster Rack—**59c**

Twin Falls Man Perfects Oil Powered "Auto of the Future"

By MELVIN G. SHOEMAKER

The hydraulic principle that now drives your car may be employed to make it go in "the car of the future."

The device that may substitute the smoothness of oil for the shocks of a car that gets over bumps as if he had his birth right here in Twin Falls, Idaho, is protected by a 25-claim patent as it is studied by engineers of General Motors, Chrysler Corp. and the International Harvester company, William Weber, 43-year-old Twin Falls motor mechanic and airplane pilot, for whom the issuance of a patent is expected to represent the climax to three years of perfecting an idea for a smoother, more efficient and less costly motor car transmission. As it appears now, he has conceived not only the revolutionary part needed for truly "a car of the future," but also a type of high speed transmission of power by hydraulics which seems adapted to a great many uses.

Oil Under Pressure

Tomorrow's automobile, as envisioned by the Twin Falls inventor, has a motor which operates two pumps to put oil under pressure. One of the pumps is connected to the rear of the car in incidental as far as the motor is concerned. The other is unique in that two flexible rubber tubes take the place of the fixed shafts which are now used to transmit power separately to each rear wheel through a system of gears that contribute considerably to the final cost of a car.

One of these pumps runs on the line the motor is running, furnishing the initial and low-speed impelling power for the wheels. The other is actually the various hydraulic circuits, including brakes, located inside the driving mechanism, doing away with the necessity for wheel brakes. The other pump is electrically come into operation when more power is needed, through a clutch arrangement which is one of the claims recognized in the patent.

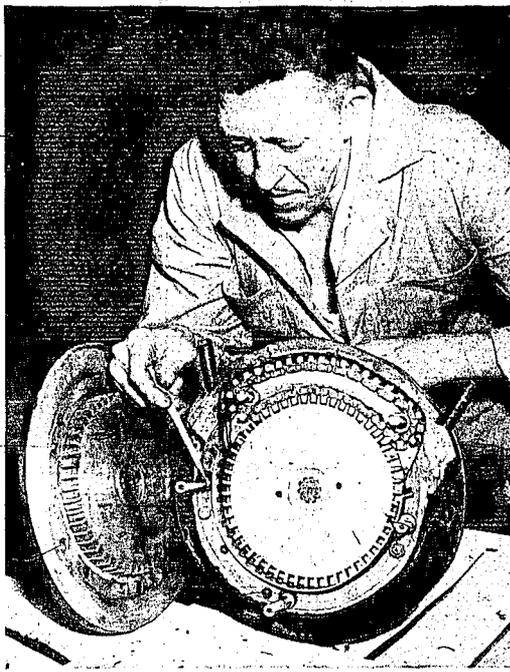

In the accompanying photograph Weber is shown with a model of his new invention built squarely in line with the observer looking at the rear end of the right rear wheel. The picture projecting upward at the viewer's left is the oil intake, and the one at the right is the oil outlet.

Oil Furnishes Power

Power is taken from the oil under pressure by the wheel shaft in the picture, which looks to the viewer as though it might be a cross between a gear and a turbine wheel. It acts like neither of these, entering the shaft in such a way that each of the square-looking "teeth" is a tiny hydraulic pump piston traveling continuously in a circle with the force of the high pressure oil behind it, rather than the low pressure oil in a cylinder as in more familiar hydraulic equipment.

The combination transmission-differential flows into the wheel shaft in the form of a triangle formed by an arc of the large wheel, an arc of the small gear at upper left and a straight piece of the casting which houses the entire mechanism. It is forced downward

Inventor Explains Hydraulic Transmission

William Weber, inventor of the hydraulic transmission system, part of which is shown in the picture, is pointing to one of the small accessories that adjust the overdrive feature of the transmission. In the "car of tomorrow" it will be operated simply by lifting the foot from the gas pedal at the proper time. (Staff Photo-Engraving)

Seventeen Taken In Navy, Seabees

Another onslaught of naval enlistments from the Twin Falls area was reported Friday by C. A. Severa, recruiter in charge of the Twin Falls navy station.

Nine men also entered the navy after expressing their preference for that branch of the service include Clyde Rasmussen, William, Erwin, Junior Lester, Earl De Board, Gibson, William Quentin Anderson, George Hordless, Carl Feuring, Morris, Lee Harrison Dean, Theodore Emanuel Triplett and Darrell Clark Desjardis.

Guard at Burley Plans Inspection

Existing and accepted by the navy seabees were five men—Henry Corral, giving a petty officer rating of storekeeper, third class; Crutley Ray Denney, machinist's mate, second class; Alva Jackson Binley, ship's cook, second class; Fred Willam Bead, chief machinist's mate, and Carl Smith Carter, fireman, first class.

Three new 17-year-old enlistments include Melvin Lee Atwood, son of Mr. and Mrs. Clayton Lee Atwood, Wendell Lester, Earl De Board, son of Mr. and Mrs. Lester Green De Board, George, and William Eugene Barth, son of Mr. and Mrs. Julius H. Barth, Detroit.

PLEIADES SAME AS DISTANT STARS

By J. HUGH FLOYD

Astronomer, University of Oregon

As the last of an Indian summer twilight fades into the October night, there faintly glows over the eastern horizon a tiny luminous cloud. Closer attention to this distant mystery shows a compact cluster of little stars, arranged in the form of a small dipper.

Known to the most ancient writers, this group, the Pleiades (Pleyades), has been an inspiration through all ages. An ancient Hebrew writer asked, "Canst thou bind the sweet influence of the Pleiades?" Milton wrote, "Dawn and the Pleiades before him danced, shedding sweet influence."

When looked at indirectly the Pleiades give far more light than can be accounted for by the few naked-eye stars making up the group. The explanation is clear when only slight optical aid is employed. These brighter stars are seen enlarged among numerous fainter ones, many just below unaided-eye visibility. Field glasses give clearer views than the eye. When set high enough to clear the horizon, they truly become a "winking starry host." Telescopes of moderate size show hundreds of stars.

Good eyes can often detect seven Pleiades, yet only six are seen by most observers. It is the seventh, the excellent was the vision of Professor William Pickering. Harvard that he could count 15. Dr. Frank P. Staff, said he could see 18. It will be recalled that these two astronomers announced seeing three telescopic details on the surface of Mars than is possible through the eyes of most telescope users.

The Pleiades is a group of stars, actually—as they seem to be—some gathered more closely together in the depths of space, and are not simply lined up from our point of observation. Link observatory assigns them

WARNING ISSUED ON ANTI-FREEZE

BOISE, Oct. 23 (AP)—Motorists in Idaho were warned today that thousands of gallons of harmful anti-freeze solutions are now being offered for sale.

Fred Trax, district manager of the office of defense transportation, said the manufacture of the destructive types of anti-freeze compounds was stopped last January by the war production board, but many men was placed on their sale.

"The office of defense transportation is charged with the responsibility of conserving the nation's present supply of vehicles," he said, "and the use of the destructive solutions has already caused widespread injury in many instances. Vehicles have been damaged almost beyond repair."

List of solutions that have proven harmful to automobiles is on file at the district ODT office, Trax added.

RECORD PRISON TERMS FOR PAIR

BOISE, Oct. 23 (AP)—Probably the longest prison sentences for nature of the crimes in Idaho's history were meted out here yesterday to two young Idahoans who broke their trust and failed to take advantage of a chance to serve their country.

Melvin Joseph Mayley, 21, Nampa, was sentenced to serve nine consecutive 3-1/2 year terms for nine separate forgery charges, and Wayne Neal Slane, 18, Boise, was sentenced to serve four consecutive 3-1/2 year terms on three charges of burglary and one of transporting a stolen automobile.

Previously, single charges of forgery and burglary had been dismissed against the two provided they join the army.

They joined the army, spent six days at Fort Douglas, went AWOL and returned to Boise in a stolen car. They were arrested by Boise police.

Mayley's total sentence runs from 27 to 126 years, and Slane's from 14 to 80 years.

Each admitted his guilt before District Judge C. E. Whitted to the many charges filed against them by Prosecutor James W. Blaine.

Mayley was accused of forging payroll checks stolen from the office of J. A. Terrell and Sons at Mountain Home. Slane was accused of theft of a used car and beer.

Lloyd George, 80, Weds Secretary

LONDON, Oct. 23 (AP)—Eighty-year-old David Lloyd George, Britain's prime minister in World War I, was married today to Miss Frances Stevenson, who has been his private secretary since 1913.

The wedding was held in the country.

Miss Stevenson became Lloyd George's secretary in 1913 after his daughter by his first marriage brought her home from school with them.

She accompanied him to the peace conference after the first world war. She was known as "the blonde bewilderment" to allied statesmen, who would not understand how such a beautiful woman could be a secretary.

Miss Stevenson, 51, was under-stand how such a beautiful woman could be a secretary.

She accompanied him to the peace conference after the first world war. She was known as "the blonde bewilderment" to allied statesmen, who would not understand how such a beautiful woman could be a secretary.

Jerome Revival

BOISE, Oct. 23—Francis J. W. King, Pittsburgh, Penn., is conducting a two-week revival campaign at the Jerome Church of the Nazarene. It was reported by Rev. Forrest Hill, pastor. Services will be held daily at 8:30 p. m., including Saturday, and at 11 a. m. and 4:30 p. m. Sunday.

Seven-Industry Voluntary Campaign to Conserve Man Power-Transportation-Fuel-Equipment

Don't Waste Electricity Just Because It Isn't Rationed!

For over 27 years, Idaho Power has provided an ample supply of electricity for all purposes. Today, under wartime conditions, there is no shortage of electricity. It is available for use—not for waste.

We are asking our customers to co-operate in the nation-wide conservation program because waste in wartime is a dangerous practice.

You would prefer voluntary conservation to compulsory rationing, we are sure. So, just because electricity isn't rationed, don't waste it. Help conserve fuel, transportation, manpower and equipment.

When allied troops of the fifth army in Italy heard that their shells had damaged a church, they took up a collection to aid in its repair.

Sergeant's Life 'One Kiss After Another by Beauties

CHICAGO, Oct. 23 (AP)—The army life for Sgt. Irving Engleman is one kiss after another from Hollywood's prettiest girls.

Several months ago when the army had been ordered to leave the United States, Engleman was getting a bum deal.

But now he is assigned to a job in the army. When a glamorous girl rushes at him with arms outstretched, he stands his ground.

Miss Snyder is home now on 15 days' furlough, visiting her parents. Mr. and Mrs. B. Snyder, Rupert, she is a granddaughter of Mrs. J. B. Schorran, Durley.

Miss Snyder, who was trained in the 318th army air force flying school, was awarded a woman ferry pilot from the Averett field, Sweetwater, Tex.

Four years ago she graduated from Rupert high school and went to Los Angeles where she was a student at Chapman college. She majored in design and later worked as an interior decorator in Los Angeles.

Miss Snyder, who is a member of the 318th army air force flying school, was awarded a woman ferry pilot from the Averett field, Sweetwater, Tex.

Grange Furrows

WENDOVER, Wash.—I read a good one the other day. In return for some of the finest food we have seen since the days of the boys in England, they are sending us liquor.

Perhaps one of the reasons that the advocates of prohibition have not been more successful in convincing the public that liquor is a poison to the system, is because they have played up the habit forming angle too strong.

Several months ago when the army had been ordered to leave the United States, Engleman was getting a bum deal.

But now he is assigned to a job in the army. When a glamorous girl rushes at him with arms outstretched, he stands his ground.

GRANGE DEBATES RURAL FIRE AREA

WENDOVER, Oct. 23—Advisability of the creation of a rural fire district was discussed by members of the Wendover Grange during a meeting at which facts were presented by Maurice Jamison, president of the Wendover fire department, and members of a committee recently appointed by the Appletton Grange.

Over a 10-year period, cost of the original investment and upkeep would amount to only about \$175 a year in taxes on a farm valued at \$5,000, he told Grange members.

Master C. J. Brock of the Grange named a committee of three to investigate the proposition.

Jamison said he and the Appletton Grange committee have been asked to appear at a meeting of the West Point Grange soon.

The office of price administration, announcing the latest addition to the ration family list, night, said supplies have been drafted to a new low level, and a threatened extension of the market control.

The great processed food, blue raters stamps "A," "B," "C" from war ration book two can be used beginning Oct. 21, and green stamps "A," "B," and "C" from book four, the following day.

Commercial eating places, bakeries, confectioners and ice cream makers are included in the freeze order.

BURLEY REGISTRY FOR BOOK 4 SET

BURLEY, Oct. 23—Registration for war ration book 4 will be held at the three elementary school buildings in Burley on Oct. 27, 28 and 29, according to George E. Green, city school superintendent who will head the sign-up campaign.

Hours for registration will be from 2 to 9 p. m. Residents of the city may register at Miller or Overland schools, while those of the Burley school district may register at the registration center.

War ration book 3 must be presented before book 4 will be issued. One person may bring books for an entire family and register for the group.

Bananas, coconuts, coffee and tobacco are the important products of Honduras.

The Public Forum

URGES PART OF RANCH AS PERRINE MEMORIAL
Editor, Times-News:
Ever since the first mention of a memorial to L. B. Perrine, I have regretted offering my name for which, to me, seems the most logical solution, and if you will permit me, one I think in complete accord with the character and aims of Mr. Perrine's noble efforts. I care not for a cold, lifeless pile of masonry however expertly carved, but would work for a living memorial, which as time goes on would increase in beauty and utility, and give endless pleasure to all.

A Picture of You This Winter

BY Haeri Osen

... of course, if you have a COAL MINE IN YOUR CELLAR

... you can skip this "ad"

... but, mister, if you haven't, you'd better pay attention. Because coal is definitely on the "short" side this season and you'd better prepare to save as much and consume as little as possible to keep away from the situation in which the gentleman in the illustration finds himself.

Best way to save coal, aside from not having a furnace fire at all, is to insulate your home or business building RIGHT NOW

with Attic-Wool. Attic-Wool saves you coal starting the day you install it—but not before! You wouldn't shovel coal out the basement window—and there's no use to create heat which only goes out the roof! Attic-Wool is easily installed and bears the lowest installed price of any similar product in Magic Valley. Attic-Wool is your best bet to save coal—and we remind you that coal is a scarce commodity this year even though it is not now rationed!

Maxdon's "Up-and-down" the thermometer

The all-year coat with detachable "CLIMAT" LINING \$39.95

Comfort insurance on cold-weather days, thanks to that extra feather-backed lining that you button in or out according to the weather. It's the MAXDON'S "Year-around", that super-spring coat you need today and every day. You'll love to see its national popularity and the choice of floor wadded fabrics... Flax, Gabardine, Broaded and Tweed. Fully lined in rayon satin. Sizes 10 to 18 to 26. MADE IN AMERICA. SHOWN IN STORES.

Eventually Yours — Leeds Coats

Smart but very practical — because it has all the warmth and comfort you'll find in any weather... wherever you may happen to be. Its national popularity — its unique LEEDS COAT makes it the Number One hit in your wardrobe.

Fashion Extra

... is this Geo. Benoit HOLLANDER dyed muskrat coat with the extra touches of warmth and style. Its smooth-lined lining — its woolly-lined body — the softly turned collar, and the wide turned back cuffs.

Remember Me?

I'M THE GUY who looked at you from a USO poster a little over a year ago.

I'm the guy you forked over \$34,000,000 for—so that, through the USO, you could let me and all my buddies know that someone home still thought about us—still cared enough not to want us to miss out on any of the things we were in uniform fighting for.

A hot cup of coffee for example, when you come in all grimy and tuckered out from a little "business" trip...

A club house with easy chairs to melt into and desks to sit at and write home and a dance floor

and some decent girls to give us out here a little reminder of what it's still like back there.

You remember, don't you?

You probably dug deep for a lot of other things that year, too...for British War Relief, United China Relief, and so on. Well, this year it's going to be simpler for you. Because this year, seventeen war relief agencies have banded together into one great big campaign—to make it easier for you to give, and easier for them to distribute the funds.

They're calling this one big campaign the National War Fund, and it includes most of the major war relief agencies. Because it does, this time you are only asked to give *one* for all seventeen.

And take it from me, as one who ought to know, that contribution you're going to make is one of the greatest things you can do to bring about victory. Not just because part of it's going to USO to do wonders for the morale of the fellows under arms, but because a good deal of it is going to help relieve distress at home through local agencies—as well as abroad, to help keep our allies in the fight.

So when you're asked to give to the united campaign of the National War Fund and our community's own war fund this month, remember me. Every dollar you give to the National War Fund helps me out in countless ways, and does its bit to bring me home sooner.

Give in a big way, will ya?

NATIONAL WAR FUND

"Give 'til you feel good!"
