U. S. Economy TO BE DEFENDED IN REVOLVING BATTLE

WASHINGTON, Nov. 2 (AP)—Unprecedented controls over government spending caught the eye of congressional tax framers today as they continued their struggle to make ends meet in the treasury.

After chopping down the administration's request for new revenue from \$100,000,000 to a tentative \$10,000,000, the house ways and means committee took up a proposal by Rep. Ewing D. Clegg, that a congressional budget committee be created to act as watchdog on federal spending.

Opposition here, however, the proposal—which is supported by both Democrats and Republicans—probably will meet little opposition in the house.

Yanks Occupy Part of Nazi Defense Area

ALLIED HEADQUARTERS, ALGIERS, Nov. 2 (AP)—Allied fifth army troops battling against fierce enemy opposition have pushed forward to occupy large parts of Massico ridge and Matese mountain, two lofty anchor points of the German line in Italy.

Along the Mediterranean coast, British elements of the First Army, Mark W. Clark's army advanced 18 miles, seizing the town of Cassino, high on the slope of Monte Cassino.

American troops farther inland won a good part of Matese, which dominates the upper Volturno valley.

The eighth army on the Adriatic also maintained steady pressure against the German line and gained some ground at the southern end of the front.
