LOST

Some figures for Ostriches!

Page Eight

In the Sicilian campaign, part of our losses in the material employed were as follows:

• We lost 8% of our medium tanks.

50%

LOST

- We lost nearly half of our 57-mm. guns.
- We lost 331/3% of our 75-mm. gun carriages.
- We lost 22% of our 105-mm. howitzer carriages.
- We lost 54% of our 37-mm. gun carriages.
- We lost an undisclosed number of ships, landing barges, airplanes.
- We lost a vast quantity of collateral-material like food, clothing, things like 1,100 miles of copper telephone wire.
- We lost all this in a month-long minor campaign that was in every sense of the word a complete victory for us.

There's just no use in trying to dodge this fact:

Somebody's got to pay for that stuff we lost. Somebody's got to pay for the new stuff that replaced it. Somebody's got to pay for the infinitely larger amount of stuff that's going to be used-and part of it lost-in Italy, in France, in the Balkans, in Norway, in India, in a lot of places.

It's no use kidding ourselves. That "somebody" is Uncle Sam-and we've got to lend him the money to do it by buying War Bonds. There's no cheap way out - no casy way out-there's just nothing we can do except to keep on working and buying more and more Bonds till this War is won.

And the harder we pitch in right now-and the more Bonds we buy-the quicker that will be.

KEEP ON BACKING THE ATTACK!
