WAR-BULLETIN

ALLIED HEADQUARTERS, ALGIERS, Jan. 24 (AP)—Gen. Sir Henry Haskins, British commander of the Western Desert, has today said the allies have taken 12 miles south of the front line, and the new headquarter of Rome for new news at the enemy as quickly as possible.

PRICE 5 CENTS

NEW ASSAULT ON VITUL RAIL LINES

MOSCOW, Jan. 24 (AP)—Sweeping along both banks of the Volkhov river and wiping out a German bridgehead on the east bank, the red army was today in 10 miles of Chudovo today in a drive which threatened to cut still another vital enemy rail line below Leningrad.

The Germans, who communicated by being systematically chopped up in various parts of the Leningrad front, will hold a narrow stretch of this line—the main Moscow-Leningrad line—between Chudovo and Totsko. Chudovo is about 75 miles southeast of Leningrad on the west side of the Volkhov river.

Towns Menaced
Russian troops directly against the key rail junction at Chudovo, advancing through Pushtka, 10 miles southeast of Mga, and a Soviet communiqué said the Germans were retreating in disorder from the tip of the Totsko salient.

The bulletin also said of continuing Russian successes in lower Volga. Russian troops were driving through the Pripyet marshes in the Polesie region, 50 miles west of Minsk.

Swedish troops from Berlin were ordered to the front line, surprise offensive on the far-northern Finnish front about 100 miles northeast of Petsamo. The German communiqué, however, reported only routine patrol activity.

Another unverified report, a Berlin broadcast, said German troops were on the move in the Crimea after Russian forces had landed and drove inland.

The Russian communiqué said Soviet forces advancing southeast of Leningrad in the Plesetsk area drove the Germans out of several localities, including the town of Nizhny, 10 miles west of Krasnaya Gorka, and only five miles from a rail line running to Narva in Estonia.

Swedish troops from Berlin were ordered to the front line, surprise offensive on the far-northern Finnish front about 100 miles northeast of Petsamo. The German communiqué, however, reported only routine patrol activity.

New Push at Japs Looms in Pacific

By SANDOR K. KLEIN
WASHINGTON, Jan. 24 (AP)—A new American thrust into Japan's mid-Pacific defense "cushion" was believed imminent today following two more air blows against the formidable enemy naval and air base at Paramushiro, 1,300 miles north of Tokyo.

The raids, made by Albatross-type bombers, were made on Sunday—the third and fourth in three days against the Kurile Islands stronghold.

Military observers believed the sudden flurry of air activity on the northern extremity of Japan's defense area might be a prelude in character, designed to mask a blow to be delivered elsewhere.

Any sustained aerial offensive against Paramushiro would force the Japanese to divert air strength to that area. And the Japanese already have heavy air commitments elsewhere, notably in the central and southwest Pacific.

Enemy installations on the south and west coasts of Paramushiro were the targets of the latest American raids. The two groups of naval bombers, which flew across more than 700 miles of the equally foggy north Pacific 100 miles from their bases, were met by the opposition over the targets. No enemy fighter interception was reported. Anti-aircraft fire failed to damage any of the American planes.

HEAVY AIR RAIDS BLAST AT FRENCH INVASION COAST

Way Toward City of Rome

LONDON, Jan. 24 (AP)—Strong American and British bombing fleets struck at the French invasion coast again today after a series of night attacks by the RAF's speedy Mustang fighters on targets in western Germany.

The U. S. eighth air force's Mustangs and British medium bombers struck the invasion coast in a series of attacks today, according to a communiqué issued by the RAF.

A communiqué said only that military objectives in western France were bombed, but observers along the British coast reported that the Mustangs were the main force in the attacks, and that a 200-ton attack by hundreds of American and British warplanes occurred.

No Losses
The British air ministry said the Mustangs on the night were carried out without loss.

The RAF's four-motor bombers also were over the continent in great strength after the Mustangs, and radio stations from Vichy to Budapest fell silent, but there was no official word on the heavy mission.

Observers speculated that the Mustangs' tactics were being changed in "invasion" maneuvers over the continent. Several times the Mustangs were seen in the RAF's night bombers have been reported in the vicinity of the Atlantic coast.

Radio Silence
Radio Budapest fell silent at 9:30 p. m. (about 10 p. m. after calling the city's military authorities to stand by, but early reports said no bombs were dropped on the Hungarian capital.

Watchers on the British coast reported that swarms of bombers attacked the invasion coast after dark, and that a powerful RAF fighter escort, apparently striking at targets between Bordeaux and Calais.

The women's club had not yet selected the site for Wilkie's address Monday but it was indicated that the largest available gathering place will be needed. Headquarters of the G. O. P. nomination campaign of 1944, will come to Twin Falls Tuesday, Feb. 8.

Wilkie will speak at a public meeting at 7 p. m. that day, delivering the only talk scheduled on a swift trip through Idaho on route to give the Lincoln day address at a public meeting at 7 p. m. that day.

Announcement of Wilkie's visit to Twin Falls was made by Mrs. Emma Clouche, Idaho Republican national committee woman. Mrs. Clouche said arrangements for the public meeting are under the Women's Republican Study club of Twin Falls county, of which Miss M. Isella McJoy is chairman.

ALLIED ADVANCES MOVING ON ROME

not been able to give a battle over the bridgehead and only four enemy planes were sighted there by allied patrols all day yesterday. But American Spitfires intercepted 50 to 60 Junkers, Heinkels and Messerschmitts which attempted to bomb ships off the beaches and shot down six Nazi bombers near Elba.

The first men to swim ashore were heavily laden with yellow grenades, bazookas and 81 millimeter shells, and they soon were followed

Depends on Yanks

Much depends on the sturdy fifth army troops along the land front to the south. If they hold against the furious German counter-attack and have enough offensive

The Germans attempt to disengage what they could prevent them from throwing their full power into the attack on the beachhead. The Germans aimed their thrusts at the British and French as well as the Americans all along the coast.

Allied air forces kept up their communications throughout yesterday's steady pounding of German command and fighters in great strength maintained a constant patrol of the battle zone.

destroyed. Three allied planes were missing.

SOVIET IGNORED

WASHINGTON, Jan. 24.—The Democratic national committee records show today that the committee has not yet received a resolution committee which proposed at the meeting here a surprise proposal that President Roosevelt seek a fourth term.

The national committee adopted the resolution unanimously.

Composition of the resolution committee is being analyzed with some interest. There is no Democratic party rule that the committee be recognized in allocating such positions of responsibility as committee members, but it uniformly has been the practice to include southerners as well as group authorized to propose party policy.

Will Cause Friction

Exclusion of southerners from the resolution committee probably will aggravate further the feeling between the old line and the new line and the persons among Mr. Roosevelt's associates whom they fear most.

Whatever may have been the circumstances of the selection of the committee members, the group of six men and one woman was heavily weighted with fourth term sentiment.

Of the national states and not only the Democratic members of the committee, but also the members of the House of Representatives, the Senate and the Supreme Court, the group of six men and one woman was heavily weighted with fourth term sentiment.

Guiffy has been the most active advocate of the fourth term and all of these leaders were important factors in arranging for Mr. Roosevelt's presidential campaign.

Mr. Guiffy is a Pennsylvania lawyer and a member of the Pennsylvania organization which represented the fourth term at the national convention.

Mr. Guiffy is a Pennsylvania lawyer and a member of the Pennsylvania organization which represented the fourth term at the national convention.

Member of Faction

The other members were Kelly, boss of the Illinois Democratic party, and a member of the Kentucky, who is a member of the Roosevelt faction of the Democratic party in that state, and O. S. Warden, national committee member from Missouri.

The national committee adopted the fourth term resolution with neither dissent nor objection. Political observers judged the action as an indication of the strength of the Roosevelt sentiment and as a sacrifice in part to the belief expressed by the Roosevelt faction of the Democratic party that the fourth term is the only Democratic way to win even one more year of being elected this year.

HANNEGAN WEEKS FARLEY SUPPORT

WASHINGTON, Jan. 24.—The political whereabouts of James A. Farley became one of the questions confronting Roosevelt's administration today. Farley, who was national chairman during Mr. Roosevelt's first term, was reported to have moved into Democratic headquarters in a downtown hotel with the expressed determination to carry out every effort to bring Farley back into the Roosevelt camp.

Farley, who was national chairman during Mr. Roosevelt's first term, was reported to have moved into Democratic headquarters in a downtown hotel with the expressed determination to carry out every effort to bring Farley back into the Roosevelt camp.

To Lay Groundwork

The new chairman had no intention to carry out his duties to lay the groundwork for President Roosevelt's re-election and one of his first self-imposed tasks was to bring to Roosevelt's attention the political situation in the national committee. Farley, who was national chairman during Mr. Roosevelt's first term, was reported to have moved into Democratic headquarters in a downtown hotel with the expressed determination to carry out every effort to bring Farley back into the Roosevelt camp.

Ho, Hum!

NEW YORK, Jan. 24.—Today's news was not very new. The headline in the Times was "Ho, Hum!" and the headline in the New York Herald Tribune was "Ho, Hum!" and the headline in the New York Herald Tribune was "Ho, Hum!"

Ace Combat Correspondent Finds Plenty of Thrills With Marines

(The following story was written by Staff Sgt. Fred Feldkamp, Hollywood, Calif., marine corps combat correspondent.)

SOMEWHERE IN THE SOUTH-WEST PACIFIC (Delayed)—At the current war correspondent's field as fighting members of the U. S. marine corps, Fred Feldkamp, of the United States since Aug. 31, 1942, and was one of the first correspondents to arrive on Guadalcanal when the American attack on the Japanese forces began.

War Reporter Coming Here

His duties, as defined by the command of the marine corps, are threefold: To discharge regular marine duties, to get material on the activities of the war, and to act as a historical record, and to write stories for publication in the United States.

It was decided that they should be enlisted men, so that they would be able to get the material they needed. The first group of correspondents to arrive on Guadalcanal was a group of six men and one woman, heavily weighted with fourth term sentiment.

Mr. Guiffy has been the most active advocate of the fourth term and all of these leaders were important factors in arranging for Mr. Roosevelt's presidential campaign.

There's no way of knowing the outcome of a dangerous and costly amphibious invasion, while it still is in its early stages, it is like betting on a horse race before the horses have even started.

Recruiting Chief

PEARL HARBOR, T. H. Jan. 21.—A new era of long-range aerial attacks against Japan's island outposts was foreshadowed today by the arrival here of the flying boat, Albatross, which is to be used in its incorporation into the U. S. navy's steadily-expanding Pacific air fleet.

"The Mars will help fill a hole that has existed for a long time," said Adm. Chester W. Nimitz, commander of the Pacific fleet, said, "every plane sent here will be working full tilt."

His four giant Wright Cyclone engines putting smoothly, the big flying boat hit the water here after an evasive Pacific Island flight from San Francisco with a load of 12,000 pounds of bombs and vital war materials, his 15-man crew and 20 passengers. I was one of the passengers.

It took as a sealer for all her bulk, the Albatross had the size of a Clipper. The Mars, however, is 10 times and threw up a great spray of water when she took the water. Mr. Nimitz, however, said, "It is a hole that has existed for a long time."

"The old lady made it again" grinned an old crew member.

At her takeoff, the Mars weighed 141,000 pounds—the equivalent of 100 tons. She had a range of over 2,000 miles and a cruising speed of 150 miles an hour. It was her first long-range mission. She was first flown in December, when she carried a 32-pound cargo.

Although she is called a "flying boat," the Mars flies easier than a P-51. Officers explained that the ship's 200-foot wingspan and balance prevented the Mars from being a P-51. The Mars flies easier than a P-51.

His identity and age were disclosed during an investigation which followed an infraction of regulations. The Mars flies easier than a P-51.

WE BOUGHT EXTRA WAR BONDS

4TH WAR LOAN

Every patriotic home in America will want to display this emblem. Place it on your front door or on a window to show that you have done your part in the 4th War Loan.

Display your colors

Every patriotic home in America will want to put up this emblem!

This emblem is a symbol of your patriotism. It tells the world that you have done your full share in the 4th War Loan. Every true American will be proud to display it at home.

Our valiant fighting men...soldiers, sailors and marines...on every far-flung battlefield are on the attack...forging ahead steadily, relentlessly. Nothing on earth can stop them...IF WE BACK THEM UP!

Backing them up means throwing every dollar we can possibly spare into the fight *right now*...even if it takes sacrifice on our part.

That's the purpose of this 4th War Loan Drive.

To earn the right to display the 4th War Loan Emblem you must invest in at least one EXTRA hundred dollar Bond (at a cost of only \$75)...over and above your reg-

ular War Bond subscription. But don't stop with one! Invest in all the extra Bonds you think you can afford...then invest in some more!

Remember, every dollar you put into War Bonds does double duty. It helps to win the war...and at the same time it insures your own financial security.

Here, too, is a chance to help your company meet its quota in this 4th War Loan.

Maybe this will mean sacrifice on your part. Maybe it will mean doing without something you want. But don't forget...while you are only *lending* a few spare dollars...thousands of our gallant fighting men are *giving* their lives for you! Show that you're backing them up 100%. Invest in extra War Bonds to the limit of your ability. And display the 4th War Loan Emblem at home!

BUILD YOUR FUTURE WITH THE WORLD'S SAFEST INVESTMENT

All over the country men and women look to the future with confidence. They are the ones who have put part of their extra wartime earnings into the world's safest investment—U. S. Government War Bonds.

Yes, they are helping their country in its grimmest struggle. But they are helping themselves, too! They are helping to secure their future, to weather any troubled days that may lie ahead.

What about you? Are you letting the dollars slip through your fingers—dollars that should be put safely away in War Bonds?

There are War Bonds to fit your needs... Bonds backed up by the strongest "company" in the world. Build that home you have always dreamed about. Send your child to college. Buy the wonderful things that are coming after the war. YOU CAN DO IT WITH YOUR WAR BOND SAVINGS.

Let's All BACK THE ATTACK!

AP FIGHTERS SLOW TO BATTLE JAPANESE

By HAROLD STREETEN
Associated Press Wire Service

The strange war among the Pacific islands currently has cast Japan in the role of the reluctant dragon—capable of fighting back, but so unrelenting.

All along, the Pacific war has contrasted with the European war as a tactical war with the rule of a campaign; but during the last seven days the Pacific war has become a tactical war. The new tactical fact about this is that the Japanese allowed it to be so.

Rabaul proves the point. Since New Year's day, the American air force in the Solomons has missed only one day in hitting that topographically natural fortress on the volcanic northeastern end of New Britain. Time after time, they have striven to bring it down, sending up more than 100 Japanese planes.

More than 200 American fighters, the bulk of them fighters, have been shot down or destroyed. The Japanese fighters have been lost and returning fighters have been the fighting quitters of the Japanese.

What was accomplished at Rabaul in these raids? The Japanese price paid. Nearly 200 enemy planes were shot down or destroyed on the ground. Thirteen cargo vessels, two cruisers, three destroyers and a tanker were hit and sunk or seriously damaged. Six destroyers, two cruisers, six destroyers and two coastal boats damaged.

The point here is the Japanese, who seized Rabaul two years ago for offensive purposes, allowed all the fighting to occur there without hitting back at the bases from which the raiders came.

The prime reason why Rabaul is taking such an aerial beating now is because the Americans have set up the "Tokodina fighter strip" 250 miles to the southeast at Empress Augusta Bay on Bougainville in the Solomon Islands. From there, American escort bombers and fighters can sweep over Rabaul from there—and do. Japanese fighters come from Rabaul to Tokodina, too—but they don't.

True of New Year's

The same thing is true of the Japanese air base of Wewak, northern New Guinea, 250 miles up the coast from the American invasion base at Gaisler. There, for example, the Japanese have not made a single enemy air strike. Just west of Salador, Japan's planes on New Guinea have been hit by American fighters.

Last Tuesday, American fighters went over Wewak for the specific purpose of drawing Japanese planes into battle—and some 60 Japanese fighters, many of them unidentifiable, fell from the sky. The Japanese were hit by a score of 12 to three but it was a real scrap.

The next day when bombers lagged over 130 tons of explosives, the Japanese planes took to the air to see and hide in the clouds. If it was a race to lure American fighters away from the base, it failed. The bombing was an uninterrupted success.

Planes on Hand

Japan's island holdings permit flying fighters regiments from factory assembly lines to Wewak and Rabaul. So the planes are on hand, and the Japanese, good pilots. Yet it has been long and long since an allied command reported any large scale offensive action on the south and southwest Pacific by the Japanese air force.

In the mid-Pacific, the story is the same. The Japanese have sent a few planes over the American-owned Gilberts but have made their greatest show of strength in defense of the Marshalls.

Idaho Aid Urged in Scrap Paper Drive

BOISE, Jan. 24 (AP)—Our nation faces a critical paper shortage," Gov. C. A. Bottelstein said in a proclamation urging organized drives in cities and towns for collection of scrap paper.

Boise opened such a drive Sunday, with a goal of two carloads for the first week. Cops dealers and milk companies have assigned trucks to the campaign and a 425 bond will be awarded the driver in bringing in the largest amount. Money from the sale will be used to operate the Red Cross canteen here.

BUHL

W. R. Frost, former editor of the Buhl Herald, went to Buhl to attend the Idaho State Editorial Association meeting.

Mrs. Calvin Harper and daughter, Lee Ann, have returned home after visiting at the home of Mr. and Mrs. W. D. Worley.

Mrs. Wiley Forrest has received word of the death of her sister, Melba, in Denver.

Mrs. Etta Harmon has returned to Buhl from an extended visit in Portland, Ore., and San Diego, Calif., and Mr. and Mrs. R. C. Craft, Babbitt, Nev., are visiting with their son, Arthur Craft, and family.

Henry Kemp, home on a leave from the aviation station at Port St. Joe, is visiting relatives and friends in Buhl.

Petty Officer and Mrs. David Staylor have returned from a two-week visit in Seattle and Tacoma. Home on a 30-day leave from his station at the North African front, he has departed for Buhl, R. I., for further orders.

Ralph Wilkins, former Buhl coach, is now stationed at Fort Belvoir, Miss., in the field artillery.

Mrs. R. C. Bullock has been called to Mt. Airy, Ia., by the serious illness of her mother.

Mrs. Everett Rutland has returned from St. Valentine's hospital, Wendell, where she submitted to a major operation.

Rev. Rambo, Vancouver, and William R. Rambo, Portland, are in the denial of the Deep Creek district, visited recently with Mr. and Mrs. Lee Day.

Clay Smith, Pine Creek, R. C., was a guest at the Robert Turnipseed home.

Vocley Hopkins, son of Mr. and Mrs. Roy Hopkins, is training to become an aviation mechanic's mate in the marine air corps, has been transferred from San Diego to Memphis, Tenn.

How Tokens Will Work

At the end of February, Mrs. Consumer will begin receiving tokens as change for ration stamps. A special purse, or separate compartments in a purse, will be convenient for keeping track of the red and blue figure. These tokens will have no expiration date.

MEATS and FATS	BUTTER	CANNED GOODS
10 Points = ●●●●●	16 Points = ●●●●●●●●	8 Points = ●●●●●
PROCESSED FOODS	2 Stamps = ●●●●●	1 Stamp = ●●●●●
10 Points = ●●●●●	4 TOKENS = ●●●●●	2 TOKENS = ●●●●●

Each of the new ration tokens will be worth one point. Each of the food-stamp stamps then valid will be worth 10 points. Repeatedly the numerical printed on them. Thus a 10-point purchase would call for two stamps, and you would get four tokens in change.

Time, Money Saving Tokens to Replace Ration Stamp Bother

By GAYNOR MADDOX
NEA Food and Markets Editor

Tonight in Cincinnati, two million ration tokens are being made from tough vulcanized fiber. That's quite a bit of change. It will be worth using across food counters into housewives' purses on Feb. 27. It will make life easier for grocers and simpler for housewives, and will save the government money.

It costs the government nearly \$1,500,000 to produce a ration book for the nation. With these new tokens to supplement ration stamps, the government can save \$1,500,000. Each ration book can last 96 weeks. At least three ration books, at a total cost of about \$4,500,000 would be required to carry through this same period for the nation. With these new tokens, the two billion tokens ordered will last at least a year, may last longer, and will save more than \$2,000,000.

Tokens Save Time

The tokens will reduce the headaches of neighborhood grocers. Under the present system of coupon only, they have been obliged to count and sort and deposit over four million separate ration stamps sent by consumers each month. The new system will reduce their work by about 10 percent because only 11 stamps (red and blue) will be validated for buying rationed food during each ration period, roughly a month, as against 28 under the present arrangement.

Furthermore, tokens will take the threat of nervous breakdown out of the grocer's job of making ration coupons change for shoppers. Before the new tokens, the food dealer had to wait for the average customer. Now it takes, they complain, about 15 minutes. But the tokens are expected to reduce that time.

For the housewife, the system is easier, too. Each ration stamp will be worth 10 points, regardless of how long it takes to get the stamp in her book. She will get change in tokens, and each token will be worth one point and will have no time limit on it.

Here's the way it works: If you buy a pound of butter, it will cost you, under present conditions, 16 red points. But as each ration stamp is worth 10 points, you will have to give your grocer 2 stamps and ask for change. You will give back 4 red tokens.

Valid Any Time

Remember this: Each token has

RACE DRIVER 1ST TO 'SHOCK' BENITO

NEW YORK, Jan. 24 (AP)—Ralph DePalma, for 27 years one of the world's greatest automobile racers, says he was the first to give Mussolini a shock and that he now is busy preparing a larger surprise for the former Italian dictator and his friends.

DePalma has been busy the past two years testing motors for the Ranger Aircraft Engine company at Long Beach and in preparation of the second and final shock for Mussolini and his pals.

Don H. Baker

The first was couched when DePalma returned to his native Italy about a quarter of a century ago and won an important race. It came at a time when Mussolini expected the usual words of praise. Instead, Mussolini launched forth in a tirade because an Italian-born driver had won an Italian race in a foreign country. Mussolini leaped on the machine to put his jaw closer to DePalma's face and one of the driver's helpers sent a charge of electricity through the wire which had been attached to the car to protect it from souvenir hunters.

DePalma, who was grasping the wire, took the full charge before he could let go.

DePalma, who was a rival of such drivers as Louis Chevrolet and Barney Oldfield, and who dragged down 1,000,000 in purses with one car, was no inconspicuous figure in the dare-devil acts of his racing days.

All motors are built with three essentials in mind—durability, light-

ness and horsepower. Many things first tried out on the racing cars years ago now are found on the high horsepower aircraft engines of today," he explains.

Born 41 years ago in Trian, Italy, DePalma still is spry enough to wrestle with co-workers in the Ranger office. He has been a devotee of speed all his life. He started "with out a bit of success" as a sprinter, graduated to bicycles and motorcycles before switching to motorboats, automobiles and airplanes in that order.

RUPERT

Miss Myrtle Quinn, daughter of Mr. and Mrs. Russell Quinn, is a patient at Rupert general hospital for medical treatment.

Mr. and Mrs. Joe Moncher left for Rochester, Minn., where Mr. Moncher will enter the Mayo clinic. From there they will visit several weeks in the east with relatives.

Mr. and Mrs. N. K. Jensen have returned from a two-week vacation spent with relatives in California. They made the trip by train.

W. S. Nutting left the first of the week to visit his daughter, Mrs. Lois Jensen at Oxford, Ida. From there he will go to California to visit his son, D. E. Nutting and his daughter, Mrs. C. C. Page. He will be gone a month.

Leo Kessler, who has been employed with the Diamond Engineering company for several months, is spending a short vacation here at his home.

Mr. N. K. Jensen has gone to Seattle, Wash., for a visit with their daughter-in-law, Mrs. Earl C. Jensen and children.

Donna's Car, son of Mr. and Mrs. Daniel Car, will leave for Fremont, Nev., tomorrow from Prager, naval station.

All motors are built with three essentials in mind—durability, light-

BOYS DRIVE NAIL IN SHELL; 1 DEAD

PASADENA, Calif., Jan. 24 (AP)—One boy was dead today and three others in the hospital in critical condition from injuries received when one of them tried to drive a nail into the base cap of a 20 millimeter shell they found near their trailer camp here.

Duane L. Key, 8, died as doctors tried to remove 13 pieces of shrapnel from his abdomen. The three other boys were being kept alive with transfusions, but doctors said they feared one of them might not live.

Investigators said Donald Hickel had a nail against the base cap and pounded it with a wrench while Duane held the shell. The other two boys were watching the experiment.

SHOSHONE

Miss Ruth Kelley left for New York City to visit a brother for two months.

Mrs. Fred Walker is a patient in the Twin Falls county general hospital.

Frank Baylis returned from the Gooding hospital.

Buhl Rites Held For Mrs. Johnson

BOISE, Jan. 24—Buhl was held the memory of Charlotte McQueen Johnson in final rites held at the Buhl Presbyterian church with the Rev. Max T. Greenlee officiating.

Mrs. C. M. Pickett and Mrs. William W. Pickett, two daughters, accompanied by Mrs. D. S. Campbell, Mrs. Campbell also played the piano and the postlude. Members of the Business and Professional Women's club, of which Mrs. Johnson was a charter member, attended in a body. Floral offerings were many and the church was crowded.

Casketbearers were Stanley Weiler, Charles O. Hering, J. H. Hering, James Shields, Arnold Tanner, and Roy Logan, all of Twin Falls. Buhl was in the Buhl cemetery under the direction of the Twin Falls mortuary.

R. T. Nyblad Talks To Rupert Rotary

RUPERT, Jan. 24—Ralph T. Nyblad of the Rupert school district spoke at the regular Rotary club meeting.

He had recently attended a meeting of the National Schoolmasters' association in Seattle, Wash., and said in part that only four teachers in Washington, Oregon, California and Arizona are paying their teachers an average of \$1,200 for the school year. Idaho is about 500 teachers, he said.

H. V. Crasnow spoke on the fourth new bond drive. Clarks were Lyman Lundy, Eldora I., Lieut. Matthews, Rupert prisoner of war camp, and several principals of the Boise Payette company.

GLENN'S FERRY

Set. John R. Kellogg is at Camp Roberts, Calif., where he will receive advanced training.

Alfred Jones Robertson is now at Victory field, Vernon, Tex., starting his primary flying.

Clair Hough, stationed at Davisville, R. I., visited here on leave this week.

Frank McCreary, postmaster at Hummett, is in the veterans' hospital, Boise, for treatment.

Mrs. Charles Rice, Hammett, expects to move to Boise to make her home there next month.

Mrs. Albrecht has an interesting bracelet sent by her son, Claude, from somewhere in the southwest Pacific. It is made of an aluminum strip cut from a Jap zero, on which the word "JAPANESE" is stamped. Claude is a baker in the armed forces.

G. A. Duncan heard his herd of dairy cows and equipment to C. O. from, who he expects to see in dairy and delivery route. Nicholson had previously rented the farm land between in Dunham, and now, Duncan, will leave soon for Los Angeles to make their home.

Mr. G. A. Duncan, recently worded from the Red Cross office, has been moved to Opa, Okla.

Mr. and Mrs. King III, underwent a sinus operation in a Boise hospital recently.

Mr. A. J. Tull arrived recently from Hobbs, N. M., to visit his husband's parents, Mr. and Mrs. William King, King Hill.

Mr. J. T. Nichols' mother, Mrs. Nichols, arrived from Wadena, Okla. Mrs. Nichols lives in Pasadena valley, and but recently came home from the medical hospital where she had been treated for pneumonia.
