PEARL HARBOR, T. H., Feb. 2 (UP)—Upwards of 30,000 U. S. marines and army troops, in a 500-mile amphibious jump along the invasion route to Tokyo, have seized 10 islet beachheads in the Marshalls and begun major assaults on the main strongholds of Kwajalein, Roi and Namur islands, front dispatches revealed today.

Swarming ashore under the protective fire of the largest naval striking force ever assembled, assault troops quickly established their footholds in the Kwajalein at light or non-existent resistance. More than 40 Japanese were slain and a number captured, while American casualties were extremely light.

The Japanese, stunned and decimated by a record 14,495-ton aerial and naval bombardment, rallied all available forces and began a desperate defense, however, as the Americans turned their full might against the Kwajalein island naval base at the southern end of the 66-mile-long island and the Roi-Namur air-base at the northern end.

(A Japanese communiqué broadcast by the Tokyo radio and recorded by CBS said Japanese troops had counter-attacked and "furious fighting is now in progress" at the Roi-Namur air-base at the northern end.)

Scores of guns hauled onto the newly-established islet beachheads joined the 16-inch rifles of America's newest battleships, other naval artillery and swarms of bombers in blasting at Kwajalein, Roi and Namur islands.

Philip T. Reed, representing the combined United States press aboard the fleet expeditionary flagship, said the furious bombardment churned up clouds of dust and sand waving plumes of smoke 1,000 feet high.

Trumbull, reported that Roi and adjacent Namur island, which stood army of 10,000 men, was "under a very heavy bombardment" and "very seriously damaged and burning."

The 4th Marine Division, under Maj.-Gen. Harry Smith, swept ashore on five islets flanking Roi, and "furious fighting is now in progress" at the Roi-Namur air-base at the northern end.

Senators Ban Soldier Vote OK by States

WASHINGTON, Feb. 2 (UP)—The Senate today rejected a bill which would have provided that the validity of service ballots should be determined "in accordance with the first vote of the ballot" since the Senate passed debating it in 1940.

The Overton amendment would have required that the validity of service ballots be determined "in accordance with the first vote of the ballot" since the Senate passed debating it in 1940.

Overton's third and last amendment was defeated 16 to 0. He said the Senate would not pass the bill until the situation was cleared up.

SERIES "E" BOND BUYERS LEADING DRIVE TO GOAL

Series E bond buyers were carrying the major share of the load in the fourth year loan drive in Twin Falls county Wednesday. It was reported by J. Schwendman, chairman, that the total stood at \$1,029,484.25, or nearly 80 per cent of the quota, which is \$1,269,000.

Schwendman pointed out that Wednesday's increase of about \$72,000 over Tuesday's report included \$40,000 in series E bonds, which, he said, meant that purchasers of smaller bonds were rising to the emergency in the latter part of the drive.

"I am gratified at the way the series E bonds are going," declared the chairman. "Happily most of these bonds mean that individuals are making an honest effort to carry their share of the load. The primary is particularly concentrating on the sale of this type of bond, in this county, and Twin Falls county."

Fremont First

BOISE, Feb. 2 (UP)—Fremont county became the first in Idaho today to reach its E bond quota, and at the same time achieved its general quota winning a purchased bull calf from Bond Chairman George R. Jones of Owyhee county.

to want to meet its quota of \$500,000.

The chairman estimated that the county's series E quota would require reaching of the \$500,000 goal.

Schwendman estimated that Tuesday night's bond drive had produced approximately \$150,000 worth of bond sale.

"The series E drive are now meeting smoothly as far as the bondmen are concerned," he said, "and the chairman, and that remains to be the individual bondmen's responsibility in purchasing bonds."

Schwendman said reports of good response from those solicited are coming in from over the county, as well as from the rural areas.

"There is fine cooperation from the smaller places and the rural areas," he said.

Half-Way Mark Seen by Jerome

JEROME, Feb. 2 A sum of only \$25,000 was the rounded amount of money invested in war bonds here for Jerome county's fourth war loan drive, according to latest totals given out Tuesday evening by J. W. Tolson, county chairman of the fourth war loan drive campaign.

Mr. Tolson reported that in some areas collectors are just beginning their work and that there is a probability that more persons will invest when contacted.

"To date, this sum represents only slightly more than half of the county's quota, which was set at \$423,000. The third war loan drive's quota, which was far exceeded, was set at \$450,000."
