## April Estimates Of Tax Due 15th

(From Tax One)

or before April 15, June 15, Sept. 15 and Dec. 15. New or revised estimates may be filed on those dates.

to cover such things as change of income or marital status, either by those who have already filed estimates, or by those who become liable later in the year. Next year's regular income tax return will allow the taxpayer to determine his exact tax liability.

Single taxpayers who will receive less than \$2,000 and married ones who expect less than \$3,000 need no tax collector, as they are expected to be covered by the regular withholding tax.

Persons with taxable income not covered by withholding tax, and who must file estimated taxes on April 15, include such as investors, small business owners, doctors, lawyers, stockholders, domestic and agricultural workers, fishermen, and members of the armed forces who may receive the first \$1,500 on their pay.

The earned income credit is estimated this year, and basic exemptions are changed to \$50 for single taxpayers, and \$100 for married ones, with \$250 allowed for each dependent.

**Air Patrol Will Sign Boys, Girls**

Enlistment of civil air patrol cadets—boys and girls 16 and 17 years of age—will be continued at a meeting to be held at 2:30 p. m. Sunday at the Twin Falls municipal airport. It was said by Arthur, Shovel, Twin Falls CAP squadron commander.

The army liaison plane flown by the CAP will be available for free rides all day for boys and girls joining the organization, Shovel said.

## 2,500 Japanese To Aid Harvest

PORTLAND, Ore., April 13 (AP)—Japanese relocation camps will supply 2,500 workers for the farm harvest in Oregon, Idaho and Utah, according to war food administration plans.

The WPA office of labor at Portland, Ore., said the Japanese at Tule lake center in northern California would not be among the centers supplying labor. Japanese held at Tule lake are not to be released until late this fall.

Utah Professor Coming to Hunt

BALT LAKE CITY, April 13 (AP)—Ernest R. Smith, assistant professor of sociology and anthropology at the University of Utah, said he would leave next week to accept a position at the Hunt relocation center near Jerome, Idaho.

He will serve with the war relocation authority as community analyst. Smith has been with the university faculty since 1937.

The first J. C. Penney store in Kemmerer, Wyo., was called the "Golden Rule," a name which still describes the Penney way of doing business.

YOUR GOOD NEIGHBOR

*For 42 Years*

WHAT we like best to hear people say of us is "Penney's is a neighborly store." And that's what we do hear... often!

For at Penney's we have never outgrown the simple, friendly way of doing business that makes people feel welcome and at home.

We've never outgrown it—in all our 42 years. Back in April 1902, Mr. Penney opened his first store in Kemmerer, Wyoming—a store devoted to friendly service and thrifty prices. And the spirit of that first store has spread to every one of our stores, in over 1600 American communities.

The people who work here at Penney's are neighbors of yours and they try to act as good neighbors should. They sympathize with your likes and dislikes. They belong to this town!

And so does the store where they work! That's why shopping here is so easy, so pleasant!

In time of peace, each passing Penney anniversary was a time for celebration and ceremony.

But this year, upon our 42nd Anniversary, we celebrate simply with a reaffirmation of the Penney spirit—a determination to remain as homelike and neighborly as our many friends expect us to be.

# Penney's Anniversary

1902-1944

A STORE gives its best service when it is also a good friend and neighbor to its customers.

It was in this spirit that Mr. Penney started his first little store in Kemmerer, Wyoming, 42 years ago this month.

All these years, we have steadily tried to be good neighbors, and, in turn, our customers have shown us the warm friendly regard that neighbors bestow on those they like and trust. All these years, their confidence and good-will has remained undisturbed.

The thrifty homemakers who shop at Penney's know they can depend on us for the things they need, in the dependable qualities they must have, at prices that are right.

# TINY NEW STOVE WILL HEAT HOME

By RICHARD TOMKINS  
New York, April 13.—A "great pocket" furnace that can be hung from a rafter in the attic and generate enough energy to heat a 10-room house now awaits its turn on the postwar assembly line.

In the winter, it is used to dry soldiers' laundry to heat hospital tents, to its patients, to say nothing of soldiers' huts. In the summer, it is used to heat the huts of the army.

In an arrangement in which a clock mechanism might turn on the heater in your car during the breakfast hour so that when you go to the kitchen you will find warm food, it may even be used to keep the snow off the heater.

What about the future of vacuums and other small craft, when the same principle of miniature heat is used? The answer will be applied.

And when water comes out of the faucet, it will be hot. It will be hot in the kitchen and in the bathroom. It will be hot in the laundry and in the kitchen. It will be hot in the laundry and in the kitchen. It will be hot in the laundry and in the kitchen.

# Three More Announce Candidacies

Three more Idahoans announced their candidacies yesterday. They were I. H. Masters, Boise, who will work the Democratic nomination for secretary of state; M. L. Horsley, Boise, who will work the Republican nomination for governor; and Milton L. Horsley, Boise, who will work the Republican nomination for governor.

## YANK BAGS 27TH PLANE IN COMBAT

ALLIED HEADQUARTERS, Southwest Pacific, April 13 (AP)—Capt. Richard I. Bong, Poplar, Wis., was proclaimed America's "ace of aces" today in a communique from Gen. Douglas MacArthur's headquarters for shooting down his 27th and 28th planes in aerial combat.

The P-51 Lightning pilot, who won his wings only a little more than two years ago, broke the existing record for planes destroyed in the air by bagging two Japanese planes during a raid on Hollandia, New Guinea, yesterday.

**All Air Victories**  
(Capt. Don Gentile, Plaquemine, O., was awarded the title of America's No. 1 fighter ace by the eighth air force in Britain earlier this week, but even of the 30 planes with whose destruction he was credited were downed on the ground. All 27 of these destroyed by Bong were shot down in combat.)

Bong's credit of 27 planes was disclosed in an official announcement, and broke the previous record set by Capt. Eddie Hickenbach in the first World war, and since equaled in this war by two marine pilots, Joe Foss, Sioux Falls, S. D., and Gregory Boyington, Okinawa, Wash.

The details of Wednesday's dog-fights over New Guinea were not disclosed. Bong is a recipient of 20 medals for his previous aerial victories against the Japanese in the Southwest Pacific.

**Sent to Pacific**  
Bong won his wings at Luke Field, Phoenix, Ariz., on Jan. 9, 1942, and was ordered to the Southwest Pacific on Sept. 10, the same year, when he started his string of victories, all of them in a P-38 Lightning.

All except one of the 27 enemy planes were shot down over Japanese territory, the communique said. The exception was not revealed.

Bong's biggest kill in one battle was over Lae last August, when he bagged four planes.

He was a member of the first Lightning squadron in New Guinea late in 1942. He got his first kill on Dec. 27, 1942, when he shot down a zero fighter and a dive bomber.

He has acquired the reputation of being one of the stiffest fighter pilots in New Guinea with ammunition, expending only a few dozen rounds for each Japanese plane.

## P. T. A. AT FERRY STAGES MEETING

GLENN'S FERRY, April 13—Presidenting at the Glenn Ferry P. T. A. meeting Monday evening was Mrs. George Larson, vice-president. One more meeting will be called before the end of school, May 12, for installation of officers.

H. O. Wood, high school principal, announced that the latter class play which had been planned for Friday evening, will be postponed because of illness in families of members of the cast.

No Federal Aid

Supr. J. J. Buchholz stated that there will be no federal aid for the hot lunch program another year. Funds from such sources have been available this year to purchase groceries, but this will be discontinued. One week more of hot lunches is to complete the winter's program. Mrs. William Peterson, chairman of the committee, reported 5,207 lunches sold this year and \$12 given free to pupils who were unable to pay.

Rosa count was won by Mrs. Wood's team.

Students Perform

First-grade pupils of Mrs. Wood and Mrs. Jones sang nursery songs they have learned in school this year. Vocal solos were sung by Paul Ann Moore, Barbara Johnson, Lavon Lynd, Donald Carlson.

While first graders were being treated to light refreshments, adults saw a visual education film on the control and treatment of cancer.

Mrs. Frank Clarke, Elmore county chairman, spoke on education for cancer, stressing the need for early diagnosis and treatment. The picture was presented by the U. S. public health service, under the auspices of the Women's American Field army for the control of cancer.

Election Held by Excelsior P.T.A.

HANSEN, April 13—Seventy-five plates were served at the chicken dinner arranged by the members of the Excelsior school P.T.A.

Following the dinner election of officers was held, with Mrs. Elsie Henry, who has attended every meeting during her term of office, surrendering her presidency to Mrs. Ted Staley. Mrs. Charlotte Crockett was elected vice-president. Mrs. Harold Danning, treasurer.

Installation of officers will be held in conjunction with the graduation exercises. Mrs. Hank Thamer will be installing officers, and Mrs. Beth Bradshaw, only fifth grader to graduate this year, will be special guest of honor.

Fifteen on Glenns Ferry Honor Rolls

GLENN'S FERRY, April 13—On the honor roll for the second six weeks of the second semester, appear names of 15 Glenn's Ferry high school students. Freshmen are Edward Brown and Donald Peterson, each with three "A"s and Normie Jones with four "A"s.

## BACKACHE, LEG PAINS MAY BE DANGER SIGN

Of Tired Kidneys

If backache and leg pains are making you miserable, don't look upon them as ordinary aches. Nature may be warning you that your kidneys are overworked.

The kidneys are Nature's chief waste-disposing organs. When they become clogged with acid, the waste products of metabolism build up in the blood and are carried to every part of the body. This causes backache, leg pains, and other symptoms of kidney trouble.

## AGAINST THE LAW

Had went into details, surprised at the sudden interest shown by grandfather. It would take about \$200, George could contribute no part of it, and Old Jan realized that would mean putting a mortgage on the farm.

The transaction was completed upon my grandfather's return to Colorado. We drove out to Pueblo in the morning. Throughout the trip my father was by the best of spirits. "Ann, my girl," he would say, "what a deal! We're already rich. Look, I borrow \$2500 from your father. I buy a business which will pay me from the start the very minimum of \$6,000 a year. All right, it's \$15,000. What do you say?"

My mother took a pencil and paper from the glove box and noted the figure. "Six thousand dollars," she said, her face white.

"All right," she said, "I'll give you your father's and I leave \$2500. That's what we're worth." "That was in 1929. In 1930 I saw my father would have sold out for the mere fraction of \$2,500. If anyone had offered to buy the business, which did not start off fairly well, never gained momentum. Uncle's father's depression hit me as much in the depression; but fortunately, it was wiped completely. It was of widespread nature there after."

During the fall father made a trip to Kansas City to drum up business. This trip was followed by others, and they became regular events. They seemed to help and my father became more cheerful, more optimistic of the future. He agreed Old Jan that it would be a matter of time before he would be able to make substantial inroads on the indebtedness.

I spent the summer of 1931 helping Old Jan. He was going to leave for an east coast agent. It was a gamble, he knew, but he needed the money.

Farming that summer was just plain dirty work. The slightest wind would pick up the plowed soil. You came in from the fields with your face and whole body coated with the stuff.

Old Jan and I agreed that the situation was bad. If we were going to get by we would have to have better weather the next year, along with better prices and a substantial improvement in the trucking business. But the problem of the trucking business soon solved itself. Between dark and dawn one morning, storm clouds in August, the trucks were eliminated as factors in our planning.

Old Jan and I had been in bed about three hours when we were awakened by the roar of a van lumbering into the yard. It stopped. Someone climbed down from the back.

"Pop!" the person yelled at the house. "Hey, Pop, wake up!" In a short while I heard my grandfather open the door and go out through the porch to the yard. It was not far behind.

"Who are you? What do you want?" Old Jan asked. "You're John Meerk, aren't you?"

"Yes." "Well, where can we put the trucks?"

"We could see only one, but just then another rolled in, and then another. There were five when they all arrived."

"What's the matter with you, Pop, wake up! These are George Flinn's. Right now they're plenty hot."

Then I made out the name of the Flinn Trucking company, and I recognized the trucks. "They are ours," I said.

"MOTHER, I'M GOING TO LIVE TOGETHER WITH A GIRL. I'M NOT SURE I'M NOT GOING TO LIVE TOGETHER WITH A GIRL. I'M NOT SURE I'M NOT GOING TO LIVE TOGETHER WITH A GIRL."

"All right, you say. We've got you covered. Let's not have any trouble. You're all under arrest!"

The officers closed in fast. There was no time to flee. Before we were loaded up for the trip back into town, Old Jan went over to the 7-o'clock. His face was white, his jaw stuck out.

"I don't know who you are," he said. "I don't give a damn. I hope I never see you again. But it will be a great pleasure for me to fix up so you can marry the boy."

The next afternoon the headlines in the town paper were: ALCOHOL, NARCOTICS, LARSEN PLAIN TRUCKS TAKEN ON THE MESSER FARM (To be continued)

## U. S. CASH URGED TO AID JOBLESS

WASHINGTON, April 13 (AP)—A new and controversial move was injected into administration politics today by Nationalist Director James F. Byrnes' proposal for federal government-financed direct state unemployment benefits with direct cash payments to state made idle in the transition period.

He proposed such a law last night in an address before the Academy of Political Science in New York. Congressmen were cautious in their initial reaction to the idea of direct federal payments to states, but preferred to study the plan in detail before committing themselves.

Care Urged  
Typical comment was that of Sen. Kenneth Wherry, R., Neb., who said that care must be taken to prevent the benefit payments from "turning into a handout."

Byrnes said some people have suggested that the question of transitional unemployment be handled by giving workers a dismountable wage during a plan, he said, "but it would be exceedingly difficult of fair and equitable application," but neither the government nor industry will be able to resist the demand for it unless a better alternative is offered.

Byrnes said existing state unemployment insurance laws were inadequate to deal with the problem of nationwide unemployment and that demobilization must be regarded as a national problem and its costs as part of the cost of war.

No U. S. Payments  
Under the present law, the federal government pays no part of state unemployment benefits. It sets up certain standards to be followed by the states and oversees administration of the law. Proposals offered create looking toward federalization of the unemployment benefit law have been vigorously opposed in Congress.  
Byrnes said the period over which benefits must be paid would not be restricted under the new program as they are under existing state laws. The maximum period is now between 16 and 20 weeks, but the average is lower.

## City Will Assist Recreation Group

"The city will do everything possible to cooperate and coordinate youth recreation programs for Twin Falls," City Councilman O. C. Coleman, told chairman of the committee of the new youth coordinating committee last night at the NPTF studio. Coleman is the council's representative on the committee.

Mrs. Rose M. North, chairman of the policy committee, stated that detailed plans will be formulated as needed through the joint cooperation of youth and committee members.

"The proposed council or youth center is merely a beginning of the program to provide recreational opportunities for youth," she said.  
Verl Mosier, finance committee chairman, discussed possible activities, such as dances, carnivals and musical shows, to be sponsored by various civic organizations in order to finance the center.

A report on various types of publicity was given by Mrs. Vic Goertzen, publicity chairman.  
Presiding were Chlie Crabtree and Kenneth Shook, co-chairmen of the committee, which is sponsored by the Junior Chamber of Commerce.  
A second meeting has been scheduled for Tuesday, April 18.

## Slavs Take Three Cities, Yield Two

LONDON, April 13 (AP)—Marshal Josip (Tito) Broz's headquarters announced today that partisan forces had captured three towns in eastern Yugoslavia, and admitted the loss of two other towns to the Germans in the southwestern sector of the country.

As the partisans stepped up their offensive operations to occupy Tomislav and Plavna in the Mlava-Krka sector, 115 miles east of Sarajevo, and Bolov, 60 miles to the south, the Germans brought up reinforcements, including tanks, artillery and planes, to augment their forces in Slovenia.

## Rich—For While

Andrew F. How knows what it like to be a millionaire for a minute. The 37-year-old St. Louis banker was named \$1,032,240 in Springfield, Ill., federal court, in suit against Commonwealth National Bank, Chicago, Ill. As court clerk handed him check, Judge Wright read decree appointing How receiver of bank's assets and master in chancery. With more \$1,032,240, How returned to St. Louis, to await bad news from treasury home tax authorities. Tax might be 80 per cent, leaving him but \$312,840.60 out of almost five million.

## CPO Stewart at Catalina Island

KETCHUM, April 13—Clayton Stewart, former guide who conducted excursions on Sun Valley fishing and hunting trips, is now a chief petty officer at Santa Catalina Island, Calif.

He is a partner, having 12 men on the staff, under him. He "joined" the merchant marine May 24, 1942, was stationed at Port Hueneme, Calif., six months and has been at Catalina for the past year and a half.

Nabobs who went on Sun Valley trips with Stewart included Gen. Cooper, Robert Taylor, Raymond Hooley and Ernest Hemingway.

Officer and Mrs. Stewart became parents of a daughter born April 7 in California. Mrs. Stewart, a Sun Valley beauty who was widely publicized in resort photos by the Steve Horganman agency, was Bernice Hicks, formerly of Shoshone. She was secretary to W. P. Rogers, general manager of Sun Valley, for three years and while her husband was stationed at Port Hueneme, she was secretary for the war shipping administration.

## Auto Injury Suit Amicably Settled

Damages of \$50 plus attorney fees and costs were awarded by Probate Judge C. A. Bailey to Gilda Hickman, 18-year-old Twin Falls resident, in an auto-accident settlement.

The suit was brought against the 18-year-old youth for "revere personal and bodily injuries" suffered by the girl as a result of an automobile accident in which she was thrown from the back seat of Crosley's car when two machines side-swiped.

Crosley, who was represented by Parry and Thomas, did not contest the suit and readily signed the stipulation of settlement.

Previously John E. Baker, marine stationed at Sun Valley who operated the other car, paid a \$25 reckoning driving fine in the Jerome county probate court.

## NO TRACE FOUND OF LOST STUDENT

BOMBAY, April 13 (AP)—The disappearance in New York of Miss Valma Mathai, 22-year-old daughter of a wealthy Indian economist, is as much a mystery in this part of the world as it is in the United States.

Her life as a student in Columbia university in New York was described in letters as being cheerful, and spent for most part with a few other Indian girls. Friends said she did not hint at anything that would make her unhappy. If she had a love affair, they said, she made no reference to it.

It was with a group of Indian girls that she spent an apparently cheerful evening last March 19 a few hours before she walked from the university's international house into a newsroom and left precipitated. Her father, Dr. John Mathai, 45, a widely-known economist,

## Paralysis Victim

QUINCY, Ill., April 13 (AP)—Mrs. H. C. Ruby, 52, of Quincy, was stricken with paralysis Saturday and is in iron lung. Mr. Ruby was formerly superintendent of schools at King Hill, and she is a cousin of Mrs. J. J. Buchholz.

Formerly headed the economic department of Madras university, Mrs. Ruby said today that although the exotic beauty ordinarily wore an Indian costume, she was garbed in gray flannel slacks and a tan polo coat when she was seen by an elevator operator at international house.

## Former Doctor at Gooding Is Captain

GOODING, April 13 (AP)—Dr. Murray Gage Stromberg, Salmon, has been promoted from first lieutenant to captain in the medical corps, and is curding in word received here. Captain Stromberg practiced medicine in Gooding prior to moving to Salmon. He is a brother of Mrs. Rex Painter.

## SEAMEN PROTEST WAR BONUS CUTS

WASHINGTON, April 13 (AP)—Maritime union have protested to the maritime war emergency board against its recent change in war risk bonus payments for merchant seamen and officers.

The board announced it was making no change in the rates, but submitted that it had declined to consider any information submitted on war hazards in various waters. The new rates, effective April 1, result in an overall reduction in war risk payments, although some upward shifts were permitted.

The board noted that "sources of authentic information within the government have indicated the war hazards at sea with regard to merchant seamen have decreased," that cargo insurance rates have been reduced numerous times and that submarine attacks have declined steadily.
