

DEWEY ASSERTS
CANDIDACY OUT
OF HIS CONTROL

By The Associated Press
To the long-standing fact that Gov. Thomas E. Dewey has not come out for a public presidential nomination was added today the news that he is willing to "express my views" on platform matters and in doing exactly "nothing" to discourage talk of his long pre-convention lead.

The new developments came in a press conference on the eve of a national conference of governors at Albany, N. Y., where Dewey took questions that whether he would accept the nomination, if tendered, is "a hypothetical question."

The pre-convention delegate ratings show that Dewey to date has at least 36 pledged and claimed delegate votes to 4 for Gov. John W. Bricker, Ohio, his nearest rival.

But if Dewey wants to take up the matter, he has another opportunity tonight when he can make a program at Albany for a speech broadcasted "primarily to the state for the future."

Other scheduled speeches include today by Gov. Earl Warren of California, who has released his name 30 delegates from their pledge to Dewey in the event of a presidential nomination, and one by Gov. Charles McNary of Oregon on "tax and fiscal policy."

Indiana Republicans held their annual convention yesterday in Indianapolis to select 20 delegates to the national convention and also selecting nominees for a senator and governor.

Alabama Republicans held their annual convention yesterday in Montgomery to select 20 delegates to the national convention and also selecting nominees for a senator and governor.

Washington, May 29 (AP)—The war labor board, virtually riddled by the dispute about the right of workers to join unions, appeared today to be facing another long contest with the United Mine Workers.

In order to settle Wednesday afternoon's strike, the board set up a committee of five to study the company's Chicago machinery, the board set up a committee of five to study the company's Chicago machinery, the board set up a committee of five to study the company's Chicago machinery.

Issues involved in the case may be raised for months, but the board set up a committee of five to study the company's Chicago machinery, the board set up a committee of five to study the company's Chicago machinery.

"This Is Fine," Says General Clark

Early MacArthur Invasion Of Philippines Predicted

By J. R. KUEHLER
Associated Press War Editor
China's armies fought desperately on four fronts today to thwart the most ambitious Japanese offensives in seven years of warring against the Chinese.

The Asiatic fighting overshadowed all other Pacific war fronts, including the progressing American invasion of the Solomons, because it was the most ominous. Chungking authorities felt that China, best in the north and east, may be entering its most critical period of the conflict.

Japanese troops pushed down the Hainan-Guangxi railroad to within 80 miles of Changsha, a city the Chinese have seen fit to defend with great effort on their previous occasions. The enemy objective could be to seal off all of eastern China—the richest part of the country—against Japanese troops pushed down the Hainan-Guangxi railroad to within 80 miles of Changsha, a city the Chinese have seen fit to defend with great effort on their previous occasions.

Coupled with Japanese drives to win control of the Hainan-Guangxi or northern section of the railway, today charged the two agencies with the "most shameful disregard for human safety at sea" by failing to make greater use of a new type of non-inflammable steel life raft.

He said the steel raft, "cheaper and far superior to any other life raft now in existence" was received enthusiastically at first but that it had not been used because of the advantage being taken of the fact that it "would inevitably destroy the business of companies who had been building and selling old type wooden rafts."

This discrimination, he said in a speech on the house floor, is threatening the Globe American corporation, Kokomo, Ind., its home city, which has been the market for the raft and "perfected a safe, foolproof" system of launching them from disused vessels.

It could the all-steel rafts could save the lives of countless sailors and merchant seamen but that Globe was having difficulty getting the raft with four banks of six cylinders was continuing to order the wooden raft, "referred to by senators as 'cheap' and 'inferior' life rafts." The steel raft, he said, cost \$1,100 a unit while the wooden ones cost from \$1,200 to \$1,400.

The new engine was described as the most powerful aircraft engine in the world, a new liquid-cooled 24-cylinder power plant which generates 3,000 horsepower and is adaptable to both single and multi-engine aircraft. It is being developed by the Army Air Corps, E. H. R. Nevill, general manager of the Allison Division of General Motors.

American Tanks Strike to Alban Hills 16 Miles From Eternal City's Skirts

ALLIED HEADQUARTERS, May 29 (AP)—American tanks have struck to the slopes of the Alban hills less than 16 miles from Rome's outskirts, and are attacking German mobile strongpoints of armor, artillery and infantry, a front dispatch said today.

Overwhelming April, once bitterly-contested beachhead fortress, the fifth punched north within a mile of Capua, the town of the ancient Roman Empire. To the south, fifth army advanced within 2,000 yards of Valmontone, on the shell-torn Via Cassilia, despite flame-throwing German counter-assaults.

Despite a general sharp German counter-attack, the Americans are advancing slowly in the direction of the Via Cassilia, main escape route for eight German divisions being forced back on the front to the south.

In between on the Camporeale line, other forces fought in the mountains of Veltri on the Apennine, and closed upon Lano and the town of Cerveteri, where the Alban hills begin to rise from the Pontine plain.

On the night of May 29, German broadcasts reflected increased tension in the German front. The German front line was under attack from the north, and the German front line was under attack from the north.

37,000 American Planes Hit Enemy in Win Attacks

LONDON, May 29 (AP)—Two great American air forces totaling perhaps 37,000 heavy bombers and fighters struck synchrotron show from Britain and Italy today at eight Nazi aircraft factories and two airbases in eastern Germany, Poland and Austria.

A new record fleet of more than 2,200 bombers and fighters flew up to 1,300 miles to hammer six factories on a half-moon arc, swinging wide around Berlin and into Poland.

Up to 750 Flying Fortress bombers and fighters were escorted by a comparable number of fighters swarmed up from Italy and smashed at two airbases and two aircraft plants in the Wiener Neustadt area below Vienna.

While the U. S. eighth and 15th air forces clustered over the German front, the German front line was under attack from the north, and the German front line was under attack from the north.

HORSE ROUND-UP PLANS CHANGED

JORDAN VALLEY, Ore., May 29.—Analyzing last week's wild horse roundups, District Grazing Arthur Seale said today a new strategy will be employed in the next attempt.

He said the riders will attempt to run the wild mustangs of the Owyhee river country into blind canyons and hold them there instead of driving them across the long flats to Bonne Ore.

Seale expressed appreciation to the 100 ranchers and cowboys who aided in last week's drive. He said 10 or 12 came from as far away as Clendenen, Ore., and two from Blackfoot, Ore., approximately 500 miles.

Last Thursday the riders rounded up from 1,500 to 2,000 wild-eyed-browns from the rocky canyon in the Owyhee river breaks. They moved this bunch 12 miles before they started back. "We just couldn't hold them," Seale said.

They would soon run straight for a mounted rider as they there, he said.

"After they broke away we spent the night at Idaho gulch and the following day attempted to close a few weeks in the Steamboat ridge area. We rounded up about 500 near Three Finger mountain and had them moving when 40 of them cut into our reserve saddle horses and then attempted the others, taking with them 15 of our horses. Riders finally cut 11 of the 14 horses away from the wild ones.

Seale's own saddle horse was among the tame horses not released. Seale said the wild horses are an inferior type and that their present rate of increase there is 3,000 head within three years. "It just happens they will crowd sheep and cattle out of the area," he declared.

Consolidation Is Subject of Meet

BURLEY, May 29.—A hearing on the consolidation of seven school districts in south Cassia county will be held Wednesday, May 31, at a meeting of the county commissioners.

Three town districts petitioned for consolidation at the March meeting of the board, and the move was approved. However, in an election held April 18 the vote for consolidation was turned down by one district, although the other six were overwhelmingly in favor of the union.

Now the petition will be again presented and the commissioners may declare a consolidation without another election.

Districts involved are: South Oakley, Bush, Island, Island, Marion, Oakley independent grade and Oakley rural high school.

Jerome Selected For Osteos' Meet

Jerome was chosen for the November meeting of the Idaho Osteopathic association as that organization concluded its 39th annual convention here Sunday.

The date for the next spring meeting will be set at Jerome, it was said by Dr. W. H. Rice, Twin Falls member of the association.

Dr. Susan Kerr, Caldwell, who resigned from the office of president of the association in Saturday's election of officers, will take office in June, Dr. Rice said.

Approximately 25 members of the association attended the convention which was held at the Park hotel.

CORKY CARLSON AND TWIN FALLS BARBERSHOPS Take Advantage Of Holidays-Go Fishing

Val Toolson Second; Pairings Announced

Five golfers—Val Toolson, Glenn Trail, Charlie Pullman and Shelley McClain, Twin Falls, and Dr. H. L. Shadle, Burley—shot into the championship flight of the Idaho best-ball tournament at the Twin Falls municipal course this morning. The ex-Cowboy first sacker, the medal winner with a 76 made on the opening day.

Toolson, one of Course Master Fred Stone's first proteges, gave Carlson a score as he negotiated the 18 qualifying holes in 77 after being held to no better than 40 in the outgoing nine. A five on the par three fifth hole after paring the first three and getting a birdie on the fourth really cost him the medal. After parring the sixth.

Big Golf Play
Twin Falls municipal links set a play Sunday. Course Master Fred Stone reported that 80 or more registrations and quite a few players more than one round. Carlson, who had been playing during the week, was not there but not in many.

The excellent weather was the main reason for the big play. In four, he still had a chance but went one over on the par fourth and then finished with a par five and four. Toolson's 27 tied the best medal nine holes, that figure having been shot by Jimmy Russell.

The 77 was Toolson second place, just two strokes ahead of Glenn Trail who was out 28 and came back in 40.

Russell fourth. They were the only two to break into leading group, which also includes Russell who previously had 80 and 78.

Pullman came up with 41-43 to tie with Carlson. Carlson's 42-43, 44-45, 46-47, 48-49, 50-51, 52-53, 54-55, 56-57, 58-59, 60-61, 62-63, 64-65, 66-67, 68-69, 70-71, 72-73, 74-75, 76-77, 78-79, 80-81, 82-83, 84-85, 86-87, 88-89, 90-91, 92-93, 94-95, 96-97, 98-99, 100-101, 102-103, 104-105, 106-107, 108-109, 110-111, 112-113, 114-115, 116-117, 118-119, 120-121, 122-123, 124-125, 126-127, 128-129, 130-131, 132-133, 134-135, 136-137, 138-139, YOUR HELP IS URGENTLY NEEDED IN THE TWIN FALLS COUNTY DRIVE FOR WASTE PAPER

As paper serves vital needs on every fighting front the need is urgent . . . the shortage is critical. Boy Scouts, Campfire and other girls' organizations are staging a county-wide drive to salvage waste paper. They need your co-operation.

REMEMBER THE DATES...

JUNE 6-7-8

WHAT TO DO WITH YOUR WASTE PAPER

On the dates of the drive, Tuesday, Wednesday and Thursday, June 6, 7, and 8, place your salvaged paper on the curbing in front of your home where it will be promptly picked up by the boys and girls.

Why You Should Save Paper

Critical manpower shortage in the pulpwood industry and in the paper mills has caused a very serious shortage of paper of all kinds. Your waste paper can get back into the fight if you will cooperate in this present drive. It not only serves by providing packing material to ship supplies to the front but it can be re-made into paper suitable for printing your newspapers and magazines. Every kind of waste paper is useful.

START SAVING YOUR WASTE PAPER NOW!

OUT-OF-TOWN CONTRIBUTORS

Paper that is brought into town can be unloaded at TIMMONS HOME and AUTO SUPPLY STORE at 405 Main Avenue East.

Prizes to Winning Organizations

\$5.00 to the highest boy's group

\$5.00 to the highest girl's group

FREE SHOW AND TREATS
to the 2 winning groups,
low winners to serve the
the high winners

The prizes and free show will be provided through the courtesy of Joe K. Koehler, proprietor of the Roxy Theater.

How to Prepare Your Waste Paper for SALVAGE

1. Segregate magazines & paper
2. Tie securely in bundles of approximately 25 pounds
3. Knock down and tie up all paper cartons
4. Bundle and tie craft wrapping paper and large cement and chemical bags

Your help in properly preparing for pick-up will greatly facilitate handling, packing and shipping your waste paper back to the mills for conversion.
