Reds Near Ploesti Oil Area, Bucharest in Two Offensives in Romania

MOSCOW, Aug. 29 (AP)—Swift Russian drives through Romania approached the great oil center of Ploesti and Bucharest today as one army poured across a 75-mile stretch on the Danube and another knifed 15 miles inside Hungarian-held Transylvania.

Hungarian and German troops were reported massing in Transylvania, the 16,642 square mile section of Romania which litters gave to Hungary in 1940. The sudden Russian push through passes in the Carpathians gave the red army the good base town of Bretscu on a railroad and highway.

(The German radio said the Russians had driven into Buzau, 40 miles northwest of Ploesti and 60 miles from Bucharest. Buzau is a rail and road junction 60 miles west of Bucharest and the large Danube port and the road leading to Bucharest from the east and northeast.)

Already the Ploesti oil field, one of the world's largest, is under attack. The Ploesti oil field, one of the world's largest, is under attack. The Ploesti oil field, one of the world's largest, is under attack.

Scouts Advance
The red army was moving forward on a 200-mile front from the Ploesti area to the Danube and the Black Sea coast.

Disputed reports told repeated stories of fighting between Romanians and Germans, causing capture of both nations.

The evacuation of German troops from Bulgaria, another preliminary to the attack on the Balkans, was underway and will be completed within a few days.

Reconnited to Loss
Through apparently successful attacks in Bulgaria, the red army is reported exerting pressure on Romania to remain in the war as a buffer between Germany and the Soviet Union.

Japs Urge Added Air Power to Halt Yanks

Japanese war lords appealed to industrialists and workers today to produce more planes and more munitions to stem the American air offensive pounding along the northern and southern island highways to Japan.

Tokyo radio warned that Japan's reputedly steel-tight innermost defense line would be impragnable only so long as planes were available to furnish air support.

Patton Racing Over Aisne River I Battlefields

Supreme Headquarters, AEF, Aug. 29 (UP)—A rampaging American tank army swept triumphantly across the battlefields of World War I today, broke through the Marne and Aisne river lines and captured historic Soissons and Chateau-Thierry in a mile-an-hour drive on Belgium and the German frontier.

Racing more than 40 miles east and northeast across fields and farmlands where the AEF of 1918 fought and won the bloodiest battles in American military history, Lieut. Gen. George S. Patton's U. S. third army troops collapsed the entire Marne line almost without opposition and plunged on across the Aisne at Soissons.

The enemy fought hard for the Aisne river crossing but was ridden down and dispersed by Patton's wild-riding armor.

Soissons, where the Americans launched their great counter-offensive in July, 1918, fell to a fast moving tank and infantry column that burst across the Marne west of Chateau-Thierry, drove through Belleau Wood and Chateau-Thierry, and then swung 22 miles north to the Aisne.

Berlin commentators said Patton had thrown three army corps, totaling 30 divisions, plus 150,000 men into the breakthrough north of the Marne, with another three divisions leading eastward from Troyes toward Aisne-Lorraine and the Meuse.

As the American third army struck, British, Canadian, and American units of Paris advanced across the Seine bridgehead, under the command of General Sir Bernard Montgomery, and moved north to the Aisne, where they were to meet the American tanks.

Patton's tanks, moving northward for the second time, had taken the city of Soissons, and were now racing toward the Aisne.

BULGARIA MOVES NEARER TO PEACE

LONDON, Aug. 29 (UP)—Bulgaria has taken another step toward peace with the United States and Britain by allowing American and British troops to enter the country.

The evacuation of German troops from Bulgaria, another preliminary to the attack on the Balkans, was underway and will be completed within a few days.

Big 3 Reveal Accord On Postwar Security

WASHINGTON, Aug. 29 (UP)—The chairman of the American, British and Soviet delegations at the Dumbarton Oaks conference announced today they have reached general agreement on three broad principles for a proposed international organization for peace.

At a special press conference in the mansion of the Dumbarton Oaks estate, they announced that a future world organization should provide for:

1. An assembly composed of representatives of all peace-loving nations, based on the principle of sovereign equality.

2. A council composed of a smaller number of members in which the principal states will be joined by a number of other states to be elected periodically.

3. Effective means for the peaceful settlement of disputes, including an international court of justice for the adjudication of justiciable questions, and also the application of such other means as may be necessary for maintenance of peace and security.

The general outline of a future world organization was almost identical with that proposed by President Roosevelt on June 15, Sir Alexander Cadogan, the British chairman, announced upon his arrival here two weeks ago that there was nothing in the Roosevelt statement to which his government would take exception.

Quoted by Russia
Today's statement in effect added the approval of the Russian government, represented at this conference by a delegation headed by Andrei A. Gromyko.

In a separate statement, the American chairman, Edward R. Stettin, Jr., declared the reason for the American attack on the Philippines was the loss of air power.

French Form Line to Trap Foe Near Rhone

ROME, Aug. 29 (AP)—French troops of the seventh army, in sweeps west of the Rhone in southern France, reached Uzès and drove through Nîmes today, forming a solid southern buffer to help wipe out the last German 19th army already cut off by an American surprise thrust to the river far to the north.

From Nîmes, a city of 93,758 population 11 miles north of the Rhone, a French column turned and swept westward to drive toward the French-Spanish border.

Other French columns extending west and northwest of Avignon for at least 24 miles to the Aisne river were part of a triangular region north of which the French Germans are being pressed against the American line.

City to Estimate Runway Cost; Council Penalizes Cab Speeder

Transportation, on land and in the air, became a featured topic of last night's council meeting with Mayor Bert A. Sweet's request that City Engineer John E. Hayes submit an estimate on the cost of any line at 2,500 feet above

grading a 3,500-foot highway on the new airport site, and his criticism of the driving habits of city cab drivers.

Swert stated that the future of the airport could be shattered by the project. Eventually the strip could be lengthened to become either one of the 5,300-foot run-

The prisoners were employed to supplement the camp's fire-fighting force, the major said, and succeeded in bringing the blaze under control with only "negligible damage."

Achievement Tests

HAILEY, Aug. 29—County Supt. Mark T. Patterson received a report on the state-wide achievement test given in Blaine county schools this spring. The average score of

Blaine county eighth grade students was 74, while that made by the same grade over the state was 69. In the Idaho history and civic tests Blaine county ranked 27 in line with the rest of the counties in the state. In the health test of the seventh grade Blaine county tied with two other counties for 18th place.

HOW THINGS APPEAR FROM PEGLER'S ANGLE

NEW YORK—The subtle nature of the executive order defining, but not specifying, the duties of the Roberts commission has caused some NA investigators to believe that the Pearl Harbor disaster, which killed more than 2,000 Americans, may have escaped

most of the time at the time when the report was published only 16 days after the attack. The whole country was still stunned

at 6:30 in the morning of Dec. 7, 1941, Honolulu time, was not delivered until after the attack, which came at 7:55, one hour and 25 minutes later.

The delay is attributed to conditions beyond control of anyone concerned, but the warning is evaluated

The people of the Philippines, who were not informed of the details of the attack, but were willing to concede that many details could not be related just then without advantage to the Japanese.

The limitation of the Roberts commission's field of inquiry so as to exclude examination of official conduct in Washington obviously blocked access to historic facts which are an important part of the whole story, and should be the property of the people.

the purpose of the required investigation and report are to provide basis for sound decisions whether any violations of duty or errors of judgment on the part of United States personnel are involved. Although the commission had no right to pass judgment on Kimmel and Short, considering that it was instructed only to provide a basis for sound decisions, it nevertheless went beyond that limitation in convicting these two men of dereliction.

The preamble does not say who was to make those "sound decisions" after it had provided the basis for them. Possibly the public was to make the "sound decisions." But in that case the commission's decision

The report says the secretaries of war and the navy fulfilled their obligations by conferring privately with the secretary of state with each other and by keeping the chief of staff and the chief of naval operations informed of the

of the negotiations with Truman and the significant implications thereof.

Our report does not fully demonstrate that this actually was so, and

it has been introduced into the campaign by Senator Truman, the running mate, on the Democratic ticket, of the President who might be shown by history to have had a share of the responsibility.

Latest speculation over the nature of this weapon credits it with being a high-angle rocket against which there would be practically no defense.

SUICIDE VERDICT IN BUHL SHOOTING

BUHL, Aug. 29.—Robert E. Shady, 58, died early Saturday morning of a self-inflicted gunshot wound, according to C. E. Rudy, acting coroner, Buhl, who reported the verdict of the nine-man jury which heard testimony yesterday in the fatal shooting.

Shady took his own life with a .24 caliber revolver of Spanish manufacture following an argument with William Graffie, Graffie's wife, Marie, and Lyle Woods.

John McDermitt, who testified at the hearing that he occupied a cabin next to the Graffie cabin, said he was able to look through a window in his cabin directly into the interior of the Graffie cabin.

Hearing an argument, McDermitt testified he saw both Mr. and Mrs. Graffie and Shady sitting in a bed. A moment later a shot was fired.

Threatened to Shoot Himself

Mr. and Mrs. Graffie testified that Shady threatened to shoot himself. Mrs. Graffie said she and her husband returned to the cabin with Lyle Woods and that Shady was waiting for her. Following an argument, Woods left immediately for Twin Falls.

The two Buhl men, Graffie, in whose cabin Shady died, and Woods, were held on open charges pending the outcome of Monday's hearing. Graffie was held in the county jail in Twin Falls and Woods was detained in the city jail here.

Both were released upon the completion of the testimony.

The court's jury consisted of Kenneth Hyde, Henry Jess, William Hawkins, Roy Hopkins, George Heister, Carl Quist, Henry Thumser, Earl Quigley and Oral Heister.

Death Report Delayed

Rudy said the shooting, which took place at approximately 1:30 a. m. Saturday, was not reported to J. E. Jensen, deputy clerk at the Buhl hotel, for more than an hour following Shady's death. Jensen called Deputy Sheriff Kai Hall to Clyde Pryor, Buhl night marshal, who in Twin Falls on public business at the time of the shooting. Deputy Hall said.

The meeting is open to the public and women are especially invited. Muzzy said. Reservations for the dinner may be made with Muzzy, Rogers hotel, or C. C. Butler, Advance reservations, however, are not necessary.

Gideons from Boise, Nampa, Caldwell and Pocatello will be present. E. E. Corr, Caldwell, vice president; Earl Mills, Buhl, state vice president; and Everett L. Ansin, Boise, president of the local camp, will be among the officials attending.

Robert Argue, Pocatello, will be song leader.

Filer Army Man Wins Promotion

WITH THE 32D DIVISION IN NEW GUINEA—No California man was ever brighter than the smile of Wesley L. Smith, 25-year-old Filer, Ida, man when his regimental commander planned the gold bar of a second lieutenant on his fencer staff sergeant's shirt lapel.

To gain the honor, a man must not only possess all the necessary qualifications, but must have distinguished himself on the field of battle. The former Staff Sgt. Smith met all these qualifications and as was told by his colonel commander "Lieutenant Smith, you can be justly proud. There is but one opening in the regiment for a direct commission and five candidates. You are the best. Your recommendations and the record offered no difficulty in making the selection and I am here today to be the first to congratulate you upon your success."

Lieutenant Smith is a member of the regular army having enlisted in January, 1937. As an enlisted man he experienced two years at Schofield barracks, T. F. in 1939, having returned to the states, recruited to help train the increasing Japanese army. In February, 1942, he volunteered for overseas duty and upon arrival in Australia was assigned to the 32d Infantry division.

He has experienced combat in the New Guinea and is now actively engaged here in leading his rifle platoon against the Japanese in the "mopping-up" operations.

In addition to his campaign ribbon, Lieutenant Smith is authorized to wear the silver star medal recently awarded him for heroism.
