# STUDENTS FAVOR 21 AS VOTE AGE

In a high school poll conducted here by the Institute of Student Opinion it was revealed that 74 students believe the voting age should be kept at 21, as compared with 53 who would lower it to 18.

Answering the question, "If you were to prepare a list of possible careers for yourself, would you include a career in politics?" 100 students said "no," while 18 voted "yes."

Then were of no opinion.

When asked the following question, "The attitude of the American people toward their public officials ranges from admiration down to distrust. Which of the following statements most nearly expresses your personal attitude toward men and women in politics?" 62 students rated public officials as "the percentage of men and women in politics who have integrity, ability, and good character is just as high as the percentage of men and women in any other career."

"This one vote for 'men and women in politics' is given once over by all of them and voted for by all of them and they compare with their convictions more often than men and women in other careers," Public officials were rated by 17 as "serving the public, promoting the welfare of society, and, on the whole, have been favorable, unselfish and being engaged in an unselfish career."

# Idaho Boy Spots Japanese-Yank Patrol Bags 41

By MURLIN SPENCER  
WITH FIRST CAVALRY DIVISION, Nov. 15 (Delayed)—Forty-one Japanese soldiers fell to the intense fire of a 15-man patrol to a unit on the left that routed one of the heaviest formations of the enemy.

From the second that Pfc. Wayne W. Palmer, Grandview, Ind., mounted his platoon leader, LeRoy Monroe O. Wain of St. Louis, that the Japanese were asleep along the trail ahead until the enemy patrol fell in disorder, the action took barely two minutes.

"My scout picked up the enemy trail, said Wain, who had waiting for a possible ambush in the Japanese. "We came upon small fire, grains of rice and a bloody bandage."

"After a short distance my point man signaled 'enemy in sight' and I went to reconnoiter. The point man was standing over three sleeping bags."

"The Japanese ran around like crazy people," Palmer said, "and made no effort to defend themselves. They just wanted to get out of there. Everyone was three like mad and every one was hit by at least one or more."

# Looking Things Over With J. R. CRAWFORD

The other day a man asked me how we were going to pay the huge war debt. Another man volunteered the information that we would have to make it in a national income of about one hundred and twenty-five billion dollars (that's about 20 percent taken for taxes). This would leave about 125 billion to apply on principal, at 4 percent, and paying interest.

Of course, should the income fall below that figure, J. R. Crawford said, the principal would be correspondingly less.

Now the other question is, how to maintain a national income of the above amount. Simple? And sure one who asked him why pay the debt. The answer is all of it. The consumer will pay all that can be taken on his grocery and dry goods bills, his new car, or anything else that he may buy. Contrary to Pegler's statement, that the tax laws are confiscatory, the fact is that taxes still fall heaviest on those least able to pay them, the man with a large family, and small income.

The Little Man  
Some worry about the man with only \$100,000 left out of a million income, but I have more concern for the man with a family of from six to 10, and an income of under \$200 per month. In most cases his boys are fighting this war. I know a local war veteran who has two boys killed in action, and I'll venture that he would be content to pay quite a bit more taxes to get the boys back. We often place too much stress on the money side of a thing and not enough on the personal side.

Not everyone who is a small taxpayer, is exempt from his share of the national welfare. Many a boy who has never had enough to eat until he has joined the armed forces, is out there fighting his part for some intangible thing he cannot understand, but he fights on, while we sit at home and count our dollars, or worry about how long our job will last. He has a job, and I may end at any moment and for all time.

A lady with three sons in the service, called me on the telephone to register a protest concerning a statement in a local column that Roosevelt was elected by leeches. Buhi lady said that she and another lady had just seen him in the service! took exception to the statement. Neither they nor their sons feel that they are leeches, yet all voted for the President, feeling that the war could be won more quickly and more easily with the present phony, than the one with inexperienced hands. I have a son in training in the navy, and I feel the same way.

Privilege of Free Men  
Certainly that was our privilege under our party system, a system under which the Republican party has named the President for 50 years since the election of Abraham Lincoln in 1860. The Democrats have named a President for 29 years up to the last election.

In this time we have had five presidents, 1871, 1891, 1901, 1921 and the eleven year period from then on. Three of these the Republicans got the credit for, and the other two were attributed to Democratic influence. Each followed an inflationary period, except the last one.

Most of these periods were softened by the tax, wretched to the lands where fortunes were retrieved to some extent, and new wealth was turned into the channels of finance. Following the bursting of the 1929 bubble the industrial situation got so out of hand that prices fell to the point where the poor heard of loss. So poor like your choice and vote as you see fit, and you can still be good American citizens, with no one having the right to challenge your intentions, your loyalty or your intelligence.

Changing America  
Just as the industrial-agricultural ratio has changed in America, so has the problem of living become more and more complex. The machinery of early America has changed so radically from the early days of the republic that the machinery of the present is so great, that our social structure must undergo many changes to keep up with the changing America.

Persons who feel this way are not radicals or a communist in fact. If America can successfully weather the war reconstruction, better times emerge with a sound social and industrial sort of laws. Only in the social and economic changes can the seeds of the future be sown and grow.

# RECORD LOW SET FOR FIRE LOSSES

Never before equaled in the history of the Minidoka national forest, is the 1944 fire-season record just released by John T. Mathews, forest supervisor.

"Although an increase in manufactured fires was noted, Mathews said, 'the alertness and quick response of fire minutemen and the patrolmen kept the total average burned to under one acre.'

Serious fire emergencies periods occurred twice during the summer, necessitating the placement of fire patrolmen in strategic locations.

"The two Minidoka deer hunts, bringing a total of over 3,000 deer in the forest, constituted the greatest hazard of the entire season," Mathews said. "Of the nine fires occurring, five were caused by hunters by mistake, one by a hunter's gun, and one by a stockman's gun."

These man-caused fires were three times as many as in 1943. He said, "Minidoka forest rangers are concerned over the increase in the man-caused fires as these are all due to carelessness on the part of hunters and stockmen. The forest supervisor said that the number of man-caused fires was due to carelessness on the part of hunters and stockmen."

# IDAHO LABOR LAW GOING INTO COURT

# Man, 90, Honored

Celebration of the 90th birthday of R. F. Nicholson, pioneer resident of Twin Falls, was held Thursday night despite inclement weather which prevented his appearance at the Old Pioneers hall which was for the very first a large party in his honor.

A committee of four lodge members presented him with presents and cards at his home here. They said he was in high spirits although he had been ill earlier in the week. On the committee were William Thiermer, Perry Alfred, Frank Cogswell and J. W. Gerrish.

Secretary of State George H. Cuyler completed the compilation and it was reported in official canvasses in the 44 counties. The totals followed closely those compiled by the Associated Press from unofficial reports.

# VILLE SEAL START MADE BY A DANE

Two events which have had a profound effect upon the health and welfare of Idaho are being commemorated this holiday season. Both took place in 1904—one here in the United States and the other in a distant land now under the shadow of Nazi domination—Denmark.

Forty years ago this Christmas season, a postal clerk in Denmark saw the realization of a year-old dream. Day after day he sat at his desk, his thoughts turned to the poor children of his country suffering from tuberculosis. One day, in the midst of the Christmas rush, it occurred to him to issue a special stamp, so useful to friends in communicating with each other, could also be useful in alleviating the suffering of the sick and suffering.

Permitting for the sale of a stamp which had no value in converting a letter but was of infinite value in saving lives.

Thus in the winter of 1904, the first Christmas seals were put on sale in Denmark and the funds raised were used to aid tuberculous children.

It is difficult if Einar Holboell, the Danish postal clerk, knew that his idea that same year an organization had been formed in the United States called the National Tuberculosis Association. The purpose of the organization, however, was fundamentally the same as Holboell's—to combat the white plague.

The tuberculosis association proposed to do this by studying the disease, discovering its causes and devising an educational campaign to prevent its spread. Eventually, it adopted Holboell's idea to issue Christmas seals.

Mailing of the 1944 seals to prospective buyers in the United States was begun in the Twin Falls. School sales will be inaugurated soon.

In addition to United States citizens interested in the Philippines, arrangements have been made whereby residents of the United States may also send messages to the Red Cross chapter office in the Philippines.

Arrangements have also been completed for the Red Cross to accept messages or replies from liberated United States prisoners of war and civilian internees, through establishment of regular communication facilities.

The messages to internees in the Philippines are to be written on message form 116, available at the Red Cross chapter office in the basement of the Twin Falls public library.

Senders of messages are limited to the space on both sides of the message form, and are not restricted to the 25-word limit formerly applied to prisoners and internees. Friends may send relatives and friends a message and send them to the Red Cross chapter office, to be forwarded to the internee.

Many messages have been received in Washington, D. C., and the words, the senders being erroneously of the opinion that they are limited to the 25-word limit. The message form, which is not the case, is being sent to the internee. They may be returned to the Red Cross chapter office, to be forwarded to the internee.

# BACK ALIMENTS SHOW INCREASE

ST. LOUIS, Mo., (AP)—Winning a war in "back breaking" business. That back ailments are fast becoming a major health problem because of the war and its attendant arduous labor was reported here recently by Dr. C. Madison Boden of the Philadelphia College of Osteopathic Physicians and Surgeons.

Most seriously affected, Dr. Boden said, are servicemen and industrial workers engaged in heavy lifting while in cramped positions. Any activity subjecting the spinal column to severe strain might result in injury to the "intervertebral discs," the "cushions" between the vertebrae, the speaker asserted.

Such injuries, he added, bring about chronic paralysis to spinal cord or spinal nerves.

Drivers of trucks and jeep men, he said, are particularly susceptible to back ailments. The speaker said that the "intervertebral discs," the "cushions" between the vertebrae, the speaker asserted.

# PUSHOVER?

**DON'T TELL PRIVATE JONES  
THE JAPS ARE EASY**

## THE JOB IN THE PACIFIC IS STILL TERRIFIC!

**THERE ARE STILL MILLIONS OF  
TOUGH, BRUTAL JAPS TO LICK.  
EVERY JAP WE KILL MAKES  
MY CHANCES OF GETTING HOME  
BETTER, AND IT COSTS PLENTY  
TO KILL A JAP**

**I**f you think Japan is a pushover—you're fooling yourself, mister. Millions of fanatical Japanese are prepared to die for their country. Every American soldier, marine and sailor in the Pacific knows that he has a tough fight on his hands. You can't tell them *their* war is over! Even as you read these words, American men are dying in the fight against Japan.

Look into your heart and ask yourself honestly: "Have I stopped fighting? Have I stopped buying War Bonds because I think the war is about over?" You're not a quitter; your answer is "No!"

**It costs billions of dollars a month to fight Japan**

The fight in the Pacific calls for a highly specialized type of equipment. B-29 bombers that cost \$600,000 in war bonds; M-4 tanks with bulldozer blades that cost \$67,417; "alligators" that cost \$30,000; millions of gallons of gas. We need more and costlier equipment than any war has ever called for. And that's the reason for the 6th War Loan Drive. Just as long as a single Japanese aims a gun at our men—we must continue to buy War Bonds!

Once again you are asked to **buy at least one extra \$100 War Bond**. Buy more if you possibly can. Not only is it for the final Victory—it's for your future. Sign up for extra War Bonds on the Payroll Plan. Welcome the Victory Volunteer when he or she calls at your home. Remember—the job in the Pacific is still terrific. **We're out to get Japan in the 6th War Loan Drive!**
