

# MOTHER LOSES FOUR CHILDREN

Three Pass Over  
Twin Falls, Dec. 15.—Mrs. M. J. Brown, who took charge of the children of the late Mrs. M. J. Brown, who died last week, said that she really didn't have room for the children and told her that she didn't like it. It was a sad day for the children and she said that she was crying for the children and she said, "I know it," testified Mrs. Brown. She said that she was crying for the children and she said, "I know it," testified Mrs. Brown. She said that she was crying for the children and she said, "I know it," testified Mrs. Brown.

## PARROT PROBLEM OF 2 COUNTRIES

WASHINGTON, Dec. 15 (AP)—A Vermont lady whose house stands right smack on an international boundary—half in Canada and half in this country—has a problem over her pet parrot.

If it is okay, she asked the U. S. public health service today, to move Polly from the kitchen, which is in Canada, into the living room, which is in the United States—without violating quarantine regulations.

Children a parrot can be brought into this country, it must be examined to see if it is free of diseases. A bird disease which is communicable to man.

Polly's been living in the Canadian side kitchen for years and years without getting a look at the rest of the country in her international disguise, the conscientious housewife told the doctors in a letter.

The public health officers declined to tell the name of the woman or her home town in Vermont. They were too busy looking up the regulations to see if they could bend them a wee bit for Polly.

Janitor Who Became  
Doctor Given Honor

NEW YORK, Dec. 15 (AP)—Edgar B. Burchell, 73, one-time porter who, with no college or medical background, educated himself to become an expert on eye and ear diseases in the hospital in which he once swept floors, was honored by fellow staff members of the New York eye and ear hospital last night.

## Rugged Outfit

When you see the insignia pictured above you know the guy who wears it is a rough, tough, first-class man. It's the symbol of the new sixth marine division, formed in the field. Division includes elements of the 22nd marine regiment, which conquered Eniwetok; the first marine brigade, which fought on Guam; and the fourth marine regiment, famed for its marine raider battalions which have fought throughout most Pacific sectors.

## Thorpe Says War Cause of GOP Defeat

WEISER, Dec. 15 (AP)—The Republican party was defeated in November primarily because of the war, state G.O.P. Chairman S. L. Thorpe told county workers last night.

The fear in the minds of voters and fathers over the nation that any change administration might extend the length of the war was the dominant factor in deciding the election for Roosevelt, he asserted.

## POTATO PERMIT OFFICE TO OPEN

Opening in Twin Falls Monday, an office for the issuance of potato shipping permits, required under the army freeze order, will be under the management of Earl Black, formerly with the federal-state agricultural inspection office here. Donald E. Wilcox, WFA head from San Francisco, announced here last night.

Offices will be located by the inspection station at 431 Shoshone street south and will be the sole permit-issuing station for southern Idaho. Shipments made between now and Monday must still be cleared through the Idaho Falls office, under the direction of Sherman Pabst, WFA head of vegetables division in the west, Wilcox remarked.

During the next few days Wilcox will establish the offices in Twin Falls and Idaho Falls, located at the quartermaster's market center, on more permanent basis before returning to San Francisco. Pabst will be relieved of the Idaho Falls post as soon as a replacement is found. He will also return to San Francisco.

A previous report that inspecting sergeants will issue permits in the outlying sections of Idaho will not apply except in the Boise area, Wilcox pointed out. William P. Howley, WFA state head at Boise, will be relieved of that program.

A third office in the potato-growing northwest, to which the army freeze applied, will be set up in Klamath Falls, Ore., Wilcox disclosed.

Beginning Pabst's previous assignment to the Times-News that the program was going forward successfully, Wilcox disclosed that the

## GOP HAS SURPLUS FOR FIRST TIME

CHICAGO, Dec. 15 (AP)—For the first time in Republican party history, there is a post-presidential election surplus, according to James H. Kemper, chairman of the GOP finance committee, who credits the party with \$300,000 in surplus campaign funds.

Kemper's report was read last night to members of the Illinois finance committee who heard national Republican Chairman Herbert Brownell pledge use of the funds for the development of an organization to keep the party functioning on a "year-round basis."

Brownell, attending a meeting of the American Hotel association, for which he is counsel, revealed that he does not contemplate resigning the party post, but rather intends to "work with solid determination for the next congressional election and the campaign of 1948."

## HOUSE VOTES PAY RAISE TO POSTMEN

By FREDERICK C. OTTMAN  
WASHINGTON, Dec. 15 (AP)—The courier who is not delayed by snow, rain, and gloom of night in the swift delivery of his mail, said he'd appreciate it if it'd drop around the house of representatives and see what happened to his rate in a year.

He added that \$100 extra a year meant 27 cents a day, Sunday included, and he could use it.

He almost didn't get it. The boys in congress were unamiable, aside from Rep. W. R. Pogue, Waco, Tex., that he deserved it. They spent almost a solid day congratulating themselves on their own generosity.

As for Rep. Pogue, he's better not ask his mailman for any favors.

Rep. E. R. Cox of Georgia, explained the bill, which would give postal workers an added 27 cents a year. The other congressman arched their brows, beamed, and looked like Santa Claus. Congress didn't stream from Republican to Democrat, and back again, and Rep. Hamilton Fish of New York made a speech in which he said snow, rain, heat, etc., never delayed the mailman.

The vote: 123 to one. Merry Christmas, mailmen—if the senate agrees.

## GREECE SEEN AS PERIL TO WORLD

By DEWITT MACKENZIE

Associated Press War Analyst  
The Greeks, contrivance, as constituting one of the powers in the formation of spheres of influence by major European powers, constitute to be the greatest danger of the moment—a danger which grows greater as fighting continues in Athens.

It is widely recognized in both hemispheres that the question of political, social and administrative union must be thrust out at—and thrashed out fast. The world's eyes are growing out of this situation.

There has been created a widespread fear that the Atlantic charter has been challenged, or repudiated in part, and this charter represents aims for which men are dying in battle.

Any formation of power blocs in Europe must eventually lead to a potential threat to peace and equilibrium which we hope to see established to maintain global order, by force if necessary.

**Hopes Flashed**  
Take first the matter of the Atlantic charter. Not only does it cover a large area of 20 countries, covering through to China, but it is the only one of the major powers that has agreed to the Atlantic charter. It is the only one of the major powers that has agreed to the Atlantic charter. It is the only one of the major powers that has agreed to the Atlantic charter.

It is believed it is not going too far to say that failure of the western powers to substantiate the charter might easily alienate the orient from the western powers. The result would be a great and terrible struggle ultimately between east and west, one of the nightmares of mankind.

What of the threat to the new United Nations security organization? The United Nations is the only one of the major powers that has agreed to the Atlantic charter. It is the only one of the major powers that has agreed to the Atlantic charter. It is the only one of the major powers that has agreed to the Atlantic charter.

**Solid Unit**  
For one thing this bloc of nations, banded together under the influence of a major power, will represent a solid unit. It will represent a solid unit. It will represent a solid unit. It will represent a solid unit. It will represent a solid unit.

The possible complications of such a situation are obvious. A major power which didn't have a sufficiently large bloc of small nations might find itself voted out of an impossible position.

The United States doesn't believe in power blocs. It believes in the League of Nations. It believes in the League of Nations. It believes in the League of Nations. It believes in the League of Nations. It believes in the League of Nations.

That may seem far-fetched, but the League of Nations was the victim of power politics. That's one of the main causes of the League's failure.

**Corcoran Denies White House Aid**  
WASHINGTON, Dec. 15 (AP)—A White House aide, a former close associate of President Roosevelt, has denied that they used White House influence in the case of radio station WQMG, New York.

The witness, before the committee investigating the federal communications commission, was Thomas G. Corcoran, son of the late Senator Charles McNamara, and a former law partner of the late Senator Charles McNamara.

Corcoran, who was a member of the Senate Judiciary Committee, was asked if he had any recollection of the case of WQMG, New York. He said he had no recollection of the case.

**Hansen Sergeant Receives Medal**  
HANSSEN, Dec. 15 (AP)—Sgt. Arthur H. Hansen, son of Mr. and Mrs. F. C. Hansen, has been awarded the Bronze Star medal for distinguished service while serving in the army medical department in France, according to word received by his parents.

Sergeant Kopp graduated from the Hansen high school and attended the Long Beach junior college before entering the army. His wife, Mrs. Lena Kopp, lives in Twin Falls.

**"Smokeless Capital" Has Coal Shortage**  
TWIN FALLS, W. Va., Dec. 15 (AP)—This city, sometimes referred to as the "smokeless coal capital of the world," is having its own particular storm-produced trouble tonight—shortage of coal.

Retail dealers reported that because secondary roads were blocked they were not getting stocks from small mines from which supplies are brought in by trucks.

A flood of orders from private residences, buildings and even hospitals which were caught short by the inclement weather rapidly depleted what supplies were on hand.

Wholesale sale of all passenger cars and trucks produced in 1944 is \$2,500,000,000.

**Satisfactory**  
COALBURY, Dec. 15 (AP)—The potato dehydration plant at the Burley, Idaho, factory was highly satisfactory with an operational and financial standpoint.

The Amalgamated Sugar company's annual report said today.

"During the fiscal year, 2,604,000 pounds of dehydrated potatoes were produced, all purchased by the government. The second year's operation of this plant began Sept. 1 and will continue until about April 1, 1945."

## Reconversion Comes to California

With cancellation of some war contracts, many small plants in California have started partial reconversion to manufacture of postwar civilian products. At left, above, first full-scale reconversion of the first aluminum items ordered by the War Relocation Authority. At right, above, first full-scale reconversion of the first aluminum items ordered by the War Relocation Authority.

## Pianist Explains Technique as He Presents Recital

When an expert in any profession takes the time to explain some of the techniques of his trade, it is a language understandable by the average layman, that professional musician, a friend and an interested spectator.

Such is the talent of Frederic Dixon, American concert pianist, who was presented last night in a recital in the high school auditorium under the sponsorship of the Lions club.

Nationally known as a pianist in his intimate profession, Dixon added to his program which was counter-balanced by some so-called "chamber" music by the simple process of telling his audience what the composer had in mind, and what he expected when the key was struck in the way the composer expected them to be.

Dixon's willing and anxious to play not only for the musically educated but also for those whose musical education did not fit them to understand some compositions, devoted his comments with sincerity that his heaviest numbers became interesting for the layman.

Composers, whose best works were played including the following: Beethoven's Ninth, Brahms' Second, Liszt's Grandioso, and Chopin's Ballade.

Dixon, whose home is in San Jose City, was guest of honor at a dinner given by members of the Lions club in the Park hotel at 6:30 p. m.

## Court Blow at Teacher Wage Law Challenge to Legislature

With legislation permitting an increase in teacher salaries in Idaho declared unconstitutional by the district court at Caldwell, C. T. Whitaker, superintendent of the Idaho Teachers' Association and also of the Idaho Educational Council, said "inquiry in Twin Falls: 'We now hope that the legislature will take a greater interest in educational matters.'"

Whitaker pointed out that a bill sponsored by the organizations of teachers is presently being turned down by the legislature, and the one which has been termed unconstitutional was adopted.

"Making this bill invalid has created a very serious and complex situation," Whitaker said. "We are defending the bill the legislature passed, not on its merits, constitutionally or otherwise, but only because we felt and knew that the people of Idaho were deserving of it."

He pointed out that the bill adopted provided for maximum salary increases per year up to \$200, but that even with this increase, Idaho was paying less for teachers than any of the other western states.

"Last year we lost some 1300 teachers to the industrial and service work, and also to teacher positions in Washington and Oregon," he said. "Better than 700 teachers here are now working in the state. Even Idaho is losing teachers to other states because of low salary. That's not the way we are going to do."

**Youth Will Suffer**  
"I hope that the people of Idaho become aware of the seriousness of the educational situation in this state," the speaker of Idaho declared is now at the lowest it has been since the state started. Something must be done immediately to correct this situation. It will be for the good of the youth of the state—these are the ones who will suffer if we don't do it."

**Admiral Nimitz Doctor of Laws**  
HONOLULU, Dec. 15 (AP)—Admiral Chester W. Nimitz has been awarded an honorary doctor of law degree by the University of Hawaii. He is the first Hawaiian to receive this honor.

Most Rev. Bishop James J. Sweeney of the Catholic diocese of Hawaii, in the presence of Nimitz' staff, Bishop Sweeney paid tribute to the commander in chief of the Pacific fleet for commanding "the greatest navy in the world" after lifting it from "the darkest hour in our naval annals."

Nimitz, crediting the men of the fleet, answered that "it was not the work of one man but teamwork, and it still is."

## LUPE PUT BLAME ON MOVIE ACTOR

HOLLYWOOD, Dec. 15 (AP)—Lupe Velez, the professional hell-cat of the movies, wanted a home with the man she loved and the baby she was to bear, and chose death to compromise, friends of the fiery but lovable Mexican actress said today.

"My my baby," she told Estelle Taylor, former wife of Jack Dempsey, "I could have done away with it. I just couldn't commit murder and still live. I would rather kill myself."

Thirty minutes later, at 4 a. m. yesterday, the 34-year-old "Mexican actress" said she was satisfied. "I just couldn't commit murder and still live. I would rather kill myself."

She tucked a pair of notes—one to her secretary and to her sweetheart, Harold Hamann—under the nearly-empty bottle and slipped into the hammock and died.

A little over five hours later, shortly before she was to see her manager about an upcoming picture, a doctor, the secretary found her body.

Hamann, 31, an Austrian born, French actor, said he was astonished. "I can't understand why she broke up with me," he said. "She had told me we were going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy."

He said he was very happy. Then she said she was going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy.

He said he was very happy. Then she said she was going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy.

He said he was very happy. Then she said she was going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy. Then she said she was going to have a child, and I was very happy.

## Rockets Coming

Gigantic rockets of "unprecedented accuracy and destructive force" will be used by the navy to help knock out both the Axis and the Japanese, according to a spokesman of the navy's bureau of ordnance, revealed in New York. He said use of rockets had reduced casualties and pulverized enemy beach defenses in many amphibious landings.

The resignation of Price D. Sears, former clerk of the district court, was accepted. He resigned to become city clerk.

**W. S. Elton New Mimodoka Clerk**  
REPUTED, Dec. 15 (The appointment of W. S. Elton, Rupert, as clerk of the district court and executive auditor and recorder, was announced at the regular meeting of the county commissioners of Mimodoka county.)

The resignation of Price D. Sears, former clerk of the district court, was accepted. He resigned to become city clerk.

Mrs. Charlotte Donnelly, deputy in the office of the county auditor, was asked by the new official to remain in her present position.

Other business at the meeting included auditing and paying of warrants in payment of bills and the approval of minutes of last meeting.

The appointment of the new auditor and clerk of the district court becomes effective Jan. 1, 1945.

**OPEN SATURDAY, 9 A. M.**  
JEROME, Dec. 15—Saturday afternoon of Dec. 16 and Dec. 17, the Jerome postoffice here will remain open all day.

**Dear Friends:**  
With just 7 shopping days remaining before Christmas here are some helpful suggestions for last minute gifts to help you clean up that shopping list. We have a good supply of lightweight, good quality air minis in 50c and \$1.00 boxes and they are a dandy gift for friends.

For the service men you can give service stationers and we have it all for you for all services branches. White-Blites have popular gifts from this year and we still have a supply of three at \$1.00 each.

There are still some adult books left but you had better hurry for these for they are moving out fast. We still have a good supply of children's books though, and do the kids love 'em.

We'll conclude for today with a reminder that we always have on hand a good stock of greeting cards for all occasions. They are a good quality card and sell for 5c and 10c each.

Sincerely,  
**J. HILL**

## STATE LIVESTOCK IN FINE CONDITION

BOISE, Dec. 15—In a bulletin today the bureau of agricultural economics of the federal department of agriculture says:

"Eastern Idaho ranges received considerable snowfall in early November. Even on the lower areas snowfall was from a few inches to a foot deep. Weather has remained good, necessitating early feeding of livestock. Hay supplies were generally good in all areas except in north Idaho where winter kill had cut the alfalfa and clover acreage. Livestock on Dec. 1 was reported in good condition with some cattle showing shrink because of the storms."

"The supply of winter range feed in the west is fair to good with a higher reported condition than a year ago. East of the Rockies there is generally a good crop of mature range feed, with limited snow covering from November storms."

"Cattle have generally maintained their good condition and are going into the winter in good flesh. There was only a little shrink in the northern and central plains from the November storms. Marketings of cattle were fairly heavy during November from the northwest and in Idaho along the mountains, and in the states west of the main range. In the central plains sections the November movement was smaller than last November, due to cattle being held on the large supply of feed. Marketings of calves continued heavy. Direct exports of calves have been larger than last fall. The movement of cattle into western Kansas and the plains and pastures of Texas has been much larger than last fall."

"There are generally in good condition and are going into winter in better condition than a year ago in the north, east of the Rockies and in the southwest. West of the main range the sheep are in better condition than last fall, except in California and Arizona."

**RICHFIELD**  
Mr. and Mrs. Newton Crawford have returned from attending the state dairyman's convention in Boise. Mr. Crawford had served as vice-president of the American Association for several years but did not seek reelection this year.

Orin Capes is a patient at St. Valentine's hospital after undergoing a major operation Tuesday.

Harry Lockey is seriously ill at the Gooding hospital.

8 Sgt. Ervin Armstrong is now serving as guard of Italian prisoners at the Hill field, Twin Falls.
