### IDAHO DEMURS AT FARM DRAFT

BOISE, Jan. 10 (AP)—Idaho farm leaders tonight doubt relaxation of the draft of farm workers but emphasized they were making no plan for defense of "squatters or shirkers."

Telegrams by R. E. Young, state agriculture commissioner, and W. L. Hendricks, president Idaho Dairy-men's association, asked federal officials to grant continued deferment from military service of men "known to local draft boards as bonafide Republicans on Idaho farms."

"Idaho has increased food production enormously during the war," the telegrams said. "In my opinion production will be greatly increased through necessity if the present draft program is carried through."

"No men dismissed from the service are taking farm jobs but are taking easier jobs at higher pay and shorter hours. Mexicans or Japanese or prisoners of war cannot care for dairy herds or irrigate or handle complicated machinery."

"If these farm boys are necessary to victory and are more essential in military service than in food production we understand they cannot be replaced on farms."

### GOODING STAYS IN WOOL OFFICE

POCATELLO, Jan. 10 (AP)—T. H. Gooding, Edmund, president, and John H. Breckenridge, Twin Falls, vice-president, were re-elected by the Idaho Woolgrowers' association at the concluding session of the annual convention yesterday.

Mr. C. Glass, executive secretary, said resolutions were adopted after a lengthy discussion of vital problems. A resolution opposing Secretary Tolson's proposed increase in grazing fees on the public domain and asked a senate investigation of the proposal, which Glass said "dangerously threatens the wool industry."

Clear said "it seems entirely logical that one federal bureau freeze our income on wool and lambs at 1944 levels; then another bureau proposes such exorbitant increases in operating costs."

Another resolution advocated elimination of nation points on lamb and mutton.

Opposition to proposed ceilings on live lambs was voiced.

The motion suggested that a permit system to limit importation of wool from foreign countries be set up in the United States.

Opposition to withdrawal of large areas of grazing land and establishment of monuments and parks was expressed by several speakers.

Cliff Bolvard, erstwhile manager of Jerome flying field and currently awaiting a lap from Uncle Sam, can hardly take 10 steps around one flat, these days, without a solicitous fellow flyer asking him for news of his brother-in-law, Fritz Beaman, who was seriously injured in a plane accident at Burley recently, is well past the crisis, says Cliff.

Bob Bailey is back with the local flying fraternity after many rounds "in his draft board and the merchant marine. Bob, you recall, joined up for Uncle Sam's aviation corps, was retained for color blindness and the merchant marine was assigned by his local draft board who'd already designated him for his immediate quota, and was finally classified as 4-F. Now back in Twin Falls for three years—until the board, he admits the first civilian item he unpacked was his log book so he could get back in a cockpit.

## ¡Qué gran vida, amigos! ... Have a Coke

(WHAT A LIFE, PAL!)

... or being ambassadors of good will in Panama

Your American savior gets around. In Panama, Pearl Harbor, Port Moresby or Providence, you'll find him always being himself—a friendly, good-natured American. *Have a Coke* is his easy-going invitation to share some fun or a song and refreshment with all comers. It's his way of saying, *Relax, let's take it easy.* And that's just what it means when you offer ice-cold *Coca-Cola* in your own home. Yes, in many lands, *Coca-Cola* and the *pass* that refreshes stand for friendliness with a good old American accent.
