

GERMANS BURST FOUR MILES INTO FLAMING CITY, SAY GERMANS

285 Prisoners on Bread, Water at Rupert; 'Other Methods' if Needed

RUPERT, April 21—Bread and water diet continued here tonight for 285 German prisoners of war at the Rupert camp who refused to work on farm lands in southern Idaho, and Lieut.-Col. Dott E. Smith, commanding officer, said bluntly: "Other methods will be used if the inmates wish to continue their strike."

Colonel Smith said that 35 of the group involved were in the guardhouse, some of them in solitary confinement, as described there by the more dazed-in-the-wood type of men who still retain their ideas of the superiority of Hitler and the third reich.

From the guardhouse are sleeping on flooring with one blanket, their coats having been removed.

The other 250 who walked have been placed behind barbed wire and are sleeping on the ground, like their fellow prisoners in the guardhouse they have one blanket each.

Action against the prisoners was taken Thursday after some 250 private refused to work alongside non-commissioned officers.

They are given all the water they wish but not bread. The bread they receive has been reduced from the normal amount to one-third of the normal amount.

Night Colonel Smith reported that the prisoners had made several attempts through private messengers to return to their barracks.

Unconditional Surrender
 The commanding officer indicated that he would accept only unconditional surrender from the Germans and those who were regarded as the real leaders of the movement.

He said, however, that the picture was changing rapidly and that it was possible that the Germans would be back in the fields Monday.

Colonel Smith and sixth sergeant commandant here at the camp said the fact that the strike occurred on Hiller's birthday and on the days before and after it was "just coincidence."

Dwarsak Achsarak Frydask asked the prison marshal at Washington to investigate the camp and receiving a telegram from Grant Kunkle, Twin Falls farmer, and William H. Jewell of Hazelton, Republican candidate for governor in the upcoming election.

Kunkle, who owns a 300-acre farm, reported that none of the prisoners assigned to plant onion sets on his place showed up, and Sets were left in the field and rotted.

Kunkle said he was disgusted with the whole program of war farm work and that he would not have any more of it.

As a result of the strike, he said, he has lost 75 to 80 per cent growth out of his spring plants and that means a loss of the most valuable crop of his business in his area here.

THRONG OF 2,000 AT SCOUT CIRCUS

Termed by the Rev. E. Leslie Roll, Snake River Area council president, the show which could only happen in a free nation, an estimated 600 Boy Scouts and Cubs from over the Magic Valley Saturday night participated in the annual Boy Scout circus at the downtown high school gymnasium here. Fifty 1,600 to 2,000 saw the show.

The Rev. Roll opened the circus which featured the accomplishments of Scouts and Out Scouts in which they had taken part when war started the Scout movement in Germany and in Japan.

A free group of boys such as a Scout troop could only happen in a free country, he said. "A nation that has such a thing is the mark of a free nation."

Swinging into the arena introduced after the council president conducted the show. The Scouts and Cubs brought applause from the crowd although all groups performed in a manner which was a credit to Scoutdom. The clown acts brought gasps of laughter from the crowd. Also coming in for their share of the laughs were the youths who did the heavy work in the dancing stippling part of the show.

Features during the show were the Boy Scout band, made up of Scouts and Cubs, and the band of Charles L. Balfanz as director, and the drum and bugle corps, with Frank W. Johnson as conductor of the group.

The feature during the evening was the "The Boy Scout Band" exercises with G. E. Young as conductor. The band was given the prohibition of wall scaling with O. J. Bolms as ringmaster; a demonstration of the "The Boy Scout Band" exercises with Kent Thayer as ringmaster; an exhibit of types of the steps in the development of Scoutdom.

SHOES

"If you can get any good out of these shoes you can have them. That's what Ralph Turner, Jr., of the American shoe repair business has been periodically since he established his shoe repair business here six years ago.

A stock pile of more than 100 pairs of shoes has accumulated in the store since the city has been turned over to the Allied national government before the end of the war.

All of the shoes will be in good condition.

"We feel that the people in war-ravaged Europe can get more good from them than any one else," Turner said Saturday.

No Coat Needed Where He Goes

NEW YORK, April 21 (AP)—Olivier Lork, 23, was condemned to death by a German court for concern with recovery of his overcoat.

Lork had been taken by police. It was worth \$10 and he wanted it back, he said.

The court said Lork was an overcoat who you are going. Judge Lork said he had a coat in his possession a death sentence for murder.

GLOTHING, 4 TONS OF IT, COLLECTED

Cast-off clothing came into its own here yesterday — nearly four tons of it when the packages collected by local Boy Scouts was finally tabulated in the basement of the library.

The drive on this one-day drive by 75 Boy Scouts and Cubs were positively astounding. Arnold Cross, chairman of the town collection committee, stated late yesterday.

The Scouts and the younger Cubs met at 10 a. m. yesterday at the town hall in the city park before starting their collection drive. They went down nearly every street in the downtown area, collecting clothing and the city, followed each group.

The trucks started coming back to the library with their loads. All of us knew that someone was going to be very busy with the cast-off clothing in Twin Falls had previously been turned in to the town collection depot. Cross declared.

Twelve trucks, four supplied by the city, were transporting clothing to the library.

The regular collection depots throughout the city were overflowing with "filled up." Cross said. "All of us think this Boy Scout drive was a very successful one. It was well."

Prisoner Rescued

MURTAUGH, April 21 — Mrs. Henry Tomlin, Murtaugh, late co-owner of the "The Wounded Warrior" under direction of the Wounded Warrior, formerly an aid to the Methodist church and a local church woman. Donations in the amount of \$100 were made by Mrs. Tomlin at her store, Mrs. Tomlin said.

WON'T ACCEPT IF WINNER-BABCOCK

Edward Babcock will not accept the nomination of mayor even though by some remote chance, he should be elected when voters of Twin Falls go to the polls here Tuesday night. Babcock said.

Babcock was runner-up to Mayor Bert A. Swer in the primary three weeks ago and the day following the election declared he did not desire to serve in a non-official capacity as the city's mayor.

Swer backed to votes of accepting a clean municipal government and another opponent, O. J. Bolms.

A "big named Statesman" announced Babcock dispatched a letter to the city clerk, Charles E. L. Balfanz, in which he declared that he wished to withdraw from the race.

Balfanz law requires, however, that when a candidate's name is on the ballot, he must appear on the ballot Tuesday.

Asked what action he would follow, Balfanz said he would follow the law. He said he would have withdrawn as a candidate and therefore not on the ballot.

Wednesday's news "While I do not believe there is any chance that I would be elected as mayor, I am not making any withdrawal from the race. I will say that I do not desire the nomination of mayor and that I will not serve as mayor."

Balfanz said he viewed the possibility of Babcock's election as remote and very improbable, but should it occur, this, he said, would happen.

He would be official nominee for two years after the election.

If he refused to serve he would have to submit his resignation.

The election would have to be called.

All of which, he said, added up to extra expense for the taxpayers who foot the bill.

Judge Tries out Car in Case of Speeder

MASSELON, O., April 21 (AP)—Judge took a drive and truck driver was fined \$100 for speeding 50 miles an hour through town.

Kunkle told Judge Robert O. Hoffman the vehicle top speed was 45 miles an hour when he was out. Judge Hoffman took him up. The truck made 105, Kunkle said.

GOSSETT BOOSTS BIG RECLAMATION PLAN AT PARLEY

RENO, Nev., April 21 (AP)—Gov. Charles Gossett, Idaho, today urged unified western backing of the federal bureau of reclamation's \$1-billion dollar postwar program as a method of bolstering/reemployment of veterans, and expanding farm income to insure postwar prosperity.

In a speech before the conference of governors of 11 western states the Idaho executive declared: "Failure to maintain proper farm prices or to expand our farm production will bring a depression which will destroy the hopes and the ambitions of our people. We need more agriculture, not more land, to feed the growing United States of the future."

Gossett said there is sufficient land in the west to irrigate an additional 22,000,000 acres of land—enough to feed a greater number than the present irrigated area—in addition to providing supplemental water for the San Francisco Bay area.

"The postwar program is an outstanding need for new purchasing power totaling one billion dollars—mostly for the products of non-ferrous metals and minerals," Gossett said in emphasizing the nationwide importance of the plan.

Approval Urged

He urged the western governors to "declare our approval of additional reclamation development as the solution to our postwar adjustment problem."

"We can pledge to do our utmost in harmoniously working out differences over the utilization of the water, and to return to our respective states, we can extend our fullest cooperation to the federal government in working out the many and complex problems involved in carrying out a program of this vast scope."

Tanks Burst Four Miles Into Flaming City, Say Germans

LONDON, Sunday, April 22 (AP)—The Germans announced Saturday night that red tanks had burst four miles inside the flaming rubble-strewn streets of Berlin in an overwhelming 16-army assault on the three-quarters encircled Nazi capital. Moscow, whose official reports were running 24 hours behind German announcements, did not immediately confirm the dramatic flash from doomed Berlin. But a Russian dispatch filed hours before said a red army entry into the Nazi capital was "imminent."

The Soviet high command said that veteran Russian forces, who have marched 1,000 miles from the gates of Moscow in one of the greatest military comebacks in history, were "engaged in fighting at Berlin's outskirts" and had captured Ebnker on the city's eastern limits and seven other fortress suburbs to 16 miles from the capital.

Raining was wending blow on the beaten foe, the Russians were believed to have cut off the greater or Berlin into two completely-isolated areas in a development as momentous as the red army's entry into the capital.

The left, the terror-stricken and bomb-pocked city without any communication link with the American troops. Unconfirmed reports from Paris said American and Soviet patrols already had joined.

YANKS STILL GAIN ON IOKINAWA

WASHINGTON, April 21 (AP)—Some of the bitterest fighting of the Pacific war was under way as American gains through heavy ground forces in the southern island of Okinawa.

The American gain was huge to the bitter end of the island of Okinawa's west coast. Doughboys planted the stars and stripes atop the island's highest peak, Mt. Tenmei. The tiny island is being pushed into the hands of the U. S. forces.

On southern Okinawa, high ground in the hill 176 crest changed hands several times in the course of the battle, with gains from side-to-side.

The hard-won Yank ground forces were heavily supported by navy guns, army and marine artillery and carrier-based planes.

Japanese night air raids hit two central American-held airfields on the island, but damage was minor.

In the southern Philippines, Moros joined Yank fighters on Mindanao island in the fight against the Japanese. The 100th Airborne division, one of four divisions fighting in the wild Mindanao campaign.

The Yanks gained on the three fronts on Mindanao, seized Iloilo, the Philippines, secured a road hub 32 miles inland from their beachhead, and captured a Japanese force in a marsh area and fanned out in Lanao province.

New Bomb Travels Faster Than Sound

LONDON, April 21 (AP)—A new rocket-propelled bomb which is faster than sound was announced today.

communicate by the U. S. strategic air forces and the British air force.

"Rocket-propelled bomb, conceived by the admiralty, were used by the Royal Air Force in the attack on the German city of Cologne on May 27, 1942.

"The bomb was designed to penetrate thick layers of concrete and masonry known that several hit and pierced the massive roof of the pens and were believed to have caused considerable damage to facilities inside."

Gloria Vanderbilt Marries Stokowski

NEW YORK, April 21 (AP)—Gloria Vanderbilt of Glisco and orchestra conductor Leopold Stokowski were married today in Mexico.

The announcement was made by the U. S. State department. Mrs. Stokowski, formerly Mrs. Dwight, Harris, Kogel and Caskey, is 31 years old. Stokowski is 50.

Mrs. Regina Vanderbilt announced that her daughter, Gloria Vanderbilt, married Leopold Stokowski in Mexico yesterday.

Gloria was divorced from Pasquale Stokowski, her first husband, in 1943.

CAT IN STORY OF MUMMIFIED BODY

WILKINSBURG, Pa., April 21 (AP)—After being laid to rest, Woodward kept her mother's mummified body for 32 years at her home in Washington, where the 29-year-old woman today revealed the 1912 episode of his life—the story of a woman's cat and a casket.

On March 30, 1912, Eaton received the body of Mrs. Woodward's 9-year-old mother from a funeral home in St. Louis. A few hours later, Mrs. Woodward arrived, accompanied by a cat.

Every day for nearly five months, the woman and the cat came to the funeral home, and sat beside the casket.

Asked why, Mrs. Woodward said she did not have enough money for a mausoleum to keep her mother's body above ground.

Where the woman and the cat stayed at night, Eaton never learned. He knew merely they came each morning and went away each night.

In August, the woman died. Her mother's body received or buried. Mrs. Woodward asked that it be shipped to Washington, where she planned burial.

Eaton was particularly impressed by the report of a stuffed animal brought in Mrs. Woodward's trunk. He believes that the cat she brought to the funeral home.

A Look Into "Bagology"

Here's a composite of the contents of the average Twin Falls woman's handbag—a mirror of the American way of life in wartime. How many of the things common to the "care and feeding" of purses are typical of your own? Count 'em and see. (Photo by O. K. Kiser—staff engraving)

Take a Look Into Milady's Handbag: It Mirrors Life in Wartime Nation

BY JEAN DINKELACHER

The world is so full of a number of things—and so is a woman's handbag. Particularly is this true in wartime America, what with rationing; augmented overseas correspondence; identification cards of various sorts; the "return of the handkerchief"; due to cleaning tissue shortages, and so forth.

Since the handbag is the base of her supplies, providing for her immediate needs, and preparing her for eventual, unexpected needs, it must be large.

If she loses or misplaces anything smaller than the bottom portable radio, she looks for it first in her handbag. Nine times out of ten she finds what she's lost.

Men—Is This True?

Nothing gives a man more satisfaction than to look into a woman's handbag. It makes him feel so superior, his what-if's all impertinence.

But what of all the impedimenta he carries in his numerous compartments? There are an estimated 20 of varying size in a man's vest and overcoat. He would he always has a place for everything.

Fifteen women submitted willingly and otherwise—the contents of their "handbags for this article. It proved that the typical handbag of the typical woman contains a certain number of fundamental things, plus her own individual touch.

Among individual touches were a note with the small bell attached to a key ring—"so I don't have to dig out my keys"; the girl explained. Night-owl take notice.

Out of another young woman's handbag spilled four lipsticks in many shades, plus two combs, and other items in the same ratio.

A business woman was carrying a tin bond in her handbag when several newspaper cuttings slipped together, a small pair of manicure scissors and other paraphernalia.

There was a \$20 bill "on the loose" in the bottom of still another woman's bag, although she carried a small purse and a billfold, in which it could have been enclosed.

One older woman, wearing June jewelry under her neck and wrist, showed us a ring and other trinkets in a channels pouch carried in her handbag.

Here's what you'll find in the average handbag (including the expired ones) in a ration book holder.

One checkbook.

One savings deposit book.

One purse holding little cash or currency.

Comics in small all-strap bag.

One or two extra lipsticks.

One comb, usually half-open and spilling a sifting of powder.

Assortment of extra bobby pins and hairpins.

One fresh linen handkerchief, more often colored than white.

Two or three crumpled paper cleaning tissues.

One instant pen.

One parcel of Y-mail or atom-mail, covers several months, held by a rubber band.

One box of aspirin or one bottle of vitamin pills.

One religious medal, crucifix or Rosary. Or as an alternative, a good luck charm.

One partially full package of cleaning tissues. Fewer cigarette cases than formerly.

Two or three packs of matches from different manufacturers, in tall lounges. Occasionally, a cigarette lighter of the cephaline variety.

One small spool of darning cotton.

One package of needles for darning those elastic rayon hose.

One bottle of clear nail polish to give a new shine to those same black hose.

One bottle of nail polish for "quick clean" to a manicurist after business hours.

One billfold, containing gas company, electric security card, membership in Red Cross, various clubs, and various identification cards and what-nots.

Two or three receipted bills.

One or two keys.

Slip of paper with telephone numbers but no names.

Book of current statistics. More rarely book of three-cent stamps.

Glasses and case. In summer, add sun-goggles.

BIG MEAT STORE TAKEN BY YANKS

NUERNBERG, April 21 (AP)—When this city was occupied by the Americans Friday there was a brief flag-raising ceremony at which Maj. John W. O'Neil, third division commander, said his men smashed 40 heavy anti-aircraft guns and captured 4000 prisoners during the fighting.

What must be one of the biggest stores of meat and food the allies have captured in Germany was uncovered by company G, commanded by Lieut. Pete Dougherty, Nuernberg.

Dougherty and his men went inside a six-story building to drive out six antlers. They discovered that the building, covering about a square city block, was a frozen food store. It was packed with sides of beef, pork, barrels of butter, frozen vegetables, fruit juices, ducks, chickens, steaks, eggs and ice cream.

Cigarette Sellers Must Pay a Dollar

BOISE, April 21 (AP)—Every person selling cigarettes in Idaho must obtain a registration certificate, costing \$1, from the state tax commission to conform with the state's new law effective May 8.

The regulation was included among others enumerated by the commission in letters to dealers.

"A purse is any receptacle for money, carried on the person," (thereby the "coin" in coin-purse is superfluous) . . . but cash is something it better contain.

"A pocketbook is a small, usually flat case with compartments for carrying papers, money, anything to do with finances." (Such as a copy of income tax return, Mr. Webster?)

Wounds Reported As Being Trivial

JEROME, April 21—G.P. Victor E. Lynch, son-in-law of Mrs. Anna Mueller, Jerome, was wounded in Germany last month, by shrapnel which struck him in his left arm, side and back. It has been learned here by relatives.

Lynch sustained the injuries in battle in Germany, and is now recovering in a hospital here, the former Lillian Mueller, is now residing in Los Angeles.

Mrs. Anna Mueller had received only meager information recently, which stated that her son-in-law, was "seriously injured" before receiving the last information.

THE WORLD MAY BE SURE

The world may be sure that we will prosecute to the end all the vigor we possess to a successful conclusion. In his first public statement after taking office, President Harry S. Truman gave to the world of friends and foe alike an assurance of confidence and national unity that is profoundly true.

It will not turn aside if only because the momentum of our national strength and nationhood is impossible. Our power, our arms are not impaired, nor is the world's effort toward lasting peace essentially weakened, even though one of the most powerful and most patriotic voices spoke and planned for peace is now silent.

But while our momentum carries us forward, we must redouble our effort in preparation for the time when the peace program and present plans have been completed. The first and most obvious contributions must be a loyal and untied support of the new President by the people, and active and immediate help from official and unofficial government leaders.

Much of President Roosevelt's most important work was of a personal and secret character. He has been surrounded by a circle of them unofficial advisers, shared fully with him all the momentous plans of war and peace. It is most unlikely that Mr. Truman, in the comparatively obscure role of vice president, could have been adequately informed.

It goes without saying that President Truman's task, and the best possible assistance, would be a quiet and difficult one. It would be difficult for anyone. The new President has inherited not only the leadership of the United States in the world, but also the burden of the world's peace program.

THE END OF KRUPP "Pulverized" was the word used to describe the condition in which the ninth army found the Krupp munitions works when it entered Essen. But the description applies to more than a group of factories. For a name and an institution and an empire have also been blasted to dust.

For more than a century Krupp was the arm and sinew of German militarism. Its guns had ringed the world with terror. Its "Big Bertha" was the bomb of World War I, firing at targets from the incredible distance of 70 miles and more.

MRS. ROOSEVELT The death of the President will probably remove from the scene of the world's most controversial but intensely honest woman of the age, Mrs. Eleanor Roosevelt. She undoubtedly will continue to serve the many who are interested in her not only as "Dowager Queen."

DIFFERENCES—President Harry S. Truman has been in agreement on general principles, but he has the Roosevelt foreign and domestic program upon his regime. There cannot be any major break during the transition of the state from Roosevelt to Truman.

But realist friends of the two are not in agreement on the details because of their different views on the details of the transition. Roosevelt's friends are of the opinion that the new administration should continue the Roosevelt program, while Truman's friends are of the opinion that the new administration should start with a new program.

Roosevelt's friends are of the opinion that the new administration should continue the Roosevelt program, while Truman's friends are of the opinion that the new administration should start with a new program.

RE-EXAMINE—President Truman's deeply ingrained and his main street neighborhood naturally incline him toward American contribution to any peace program that will bring about the end of the war and the restoration of peace. He has an unusual opportunity to re-examine the details of the transition.

Without any delay to his great chieftain or to the latter's friends, it is probable that he will re-examine some of the Roosevelt program's details. He will do this in a way that will be fair to both sides of the transition.

REFORMS—President Truman is also expected to devote more attention to eliminating the confusion and duplication of the agencies that direct and control the federal government. He will do this in a way that will be fair to both sides of the transition.

MECHANIC—In the opinion of his closest friends and of capitol hill, it will be to make the Roosevelt end legislation and establishment more workable and more efficient. He will do this in a way that will be fair to both sides of the transition.

HEALTH—Roosevelt's friends and medical aids first became really concerned about his health after the news of his illness was made public. He will do this in a way that will be fair to both sides of the transition.

WHAT OUR GUNSIGHT DOES Why has the American fight been able to withstand terrific enemy plane attacks, while Japanese ships and submarines have been sunk? The answer is simple: the superior quality of our fighting men.

NO ROOM FOR NEUTRALS The announcement of Secretary Stettinius that there will be no room for neutrals at the San Francisco conference is a significant statement. It shows that the United States is determined to win the war.

REACHING DOWN TO BEATLIE. Patton's third army this weekend overran Gen. Jans' front, Hertz's army. This is the town where, in 1900, Napoleon defeated the British. It is a significant victory for the United States.

Go Back and Start Over Again

"WASHINGTON CALLING" BY MARQUIS CHILDS

WASHINGTON—President Truman has made a good beginning. His speech to congress was confident, clear, and direct. It was a good start for a new President.

It is a tribute to those who screamed dictatorship, and yet who are those who smiled and yapped about the danger of a second world war. Here is an example for the world of the way in which democracy can be maintained.

Of course, the real test has not yet come. We are still living in the transition. It is in a chastened and a saddened mood that we begin our new era of cooperation with our successor.

That, it seems to me, is a handicap. It is a handicap that we must overcome. It is a handicap that we must overcome.

It is a handicap that we must overcome. It is a handicap that we must overcome. It is a handicap that we must overcome.

TANKER UPSETS; AAF GAS SPILLS

JEROME, April 21—Overturning of a heavily loaded gasoline tanker near here Thursday afternoon proved costly in damages and nearly cost the life of the truck operator.

The driver of the truck, Harley Addison, Twin Falls, escaped probable death by burning or explosion when the tanker and truck were driving rolled over twice what the wheels of the heavy equipment left the pavement on a curve in highway No. 25, two miles east and two miles south of Wendell. He was not hurt.

The tanker, filled with more than 7000 gallons of high octane gasoline consigned for the Mountain Home airbase, split open and more than 4000 gallons of the fuel were lost.

Because of the dangerous nature of the fuel in the tanks, residents in the area refused to work as replicating the tanker in an upright position.

Some of the fuel was saved by other tankers brought from the Mountain Home airbase. The damaged tanker was owned by C. Canby and Larzou, Los Angeles. It was brought to Twin Falls by the Blaine Motor company, where mechanics worked on it all Thursday night and all day Friday. It was taken to Dale Lake City late today.

HUGE OCCUPATION ARMY FORESEEN

MAGDEBURG, Germany, April 21—(AP)—The army of occupation may be necessary in Germany and other areas in the wake of the problems experienced to date.

Even with the vast number of allied troops now in Germany, the job of administering the territory is a heavy one. It is many times more difficult than anticipated. Germany now is a hotbed of activity in the heart of Europe, housing a mass of military and political forces.

No one knows better than Hitler, and he has the organization ready to make the most of the situation, as he has done in the past.

There are not nearly enough military government troops at hand. Civil law broke down in most towns when the Nazis departed, for they had no jobs. The Germans behind them try to solve the problem of the unemployed. They are the predecessors—by force—unless allied troops are present to keep them in line.

Jobs cannot be spared for the job. Besides, few doughboys speak German. It is a heavy task. It is usually a pre-requisite if administration is to be handled intelligently.

Latest Word of Missing Airman

GLENNIS FERRY, April 21—Mr. and Mrs. Frank Redford parents of missing airman, Redford, reported in action March 22, have received more news concerning the whereabouts of the new commanding officer of the unit which his plane crashed in Germany.

The plane was said to be in heavy fog and crashed in a radio communication to be trying for a Russian airfield. It was left without a pilot.

FILER

ET/John Darger, who has been home on leave, left for his 32nd Army division in Germany, where he is serving as a sergeant. His wife, Mrs. Darger, and daughter accompanied him to the airport.

Jerry Ginterich has returned from Iowa City where he studied for his commission as a pilot. He is now serving with his father, G. J. Ginterich, who has been assigned to the 32nd Army division.

Mr. and Mrs. Robert Darger, who are serving with the 32nd Army division, accompanied by their children, who will spend a week with them. Mrs. Darger has returned to her home at 814 Leander, Caldwell, after a visit to her daughter, Mrs. Robert Darger.

Prisoner Now

PFC DELBERT W. PRICE
Missing since Dec. 17 in the German breakthrough, is now held as prisoner of war in Germany. (Staff engraving)

WENDELL, April 21—Missing in action since Dec. 17 after the breakthrough by the German army in Italy, he was captured in the hands of the German army. PFC Delbert W. Price is now listed as a prisoner of war in Germany, according to a telegram from the war department to his parents, Mr. and Mrs. Delbert Price.

Overseas since last July, Private Price was assigned to the 10th Army Air Corps, where he was a graduate of the armored infantry school at Fort Rucker, Ala.

From Land and Sea Mother Has News of Family

PAUL, April 21—Alma Stewart, who is in the service, has received word from her three sons who are in the service. They are Frank, a private in the 2nd Army command in Germany, Roy, pharmacist mate second class, somewhere in the south Pacific area, and Russell, a corporal stationed in Yuma, Ariz.

Private Stewart wrote that he received several Christmas packages on his birthday, March 16. He also reported meeting Emmett Cole of the Emmett district.

"It surely was grand to see some one from home," his letter said. Seaman Stewart also is somewhere in the south Pacific, and Russell, a corporal, is in the 30-day leave with his mother here in January.

Soldier's Bride Bids Him Adieu

JEROME, April 21—Mrs. Ray R. Brown, the former Margaret Wallace, has returned here from Hays, Kan., where she has been with her husband, Capt. Ray R. Brown, member of the U.S.A.R., who has been sent overseas.

Capt. and Mrs. Brown were married a few weeks ago in Kansas where Corporal Brown was stationed.

NAZIS BRUTALITY MADDENS YANKS

By THIBURN WYANT
U. S. THIRD ARMY, Germany, April 21—(AP)—Third Army troops are increasing in number as they sweep German territory and liberate prisoners.

Lieut. Gen. George B. Patton's divisions already have liberated several divisions containing thousands of Americans. The situation was about the same in every group. The Americans had been forced to walk 100 or more miles to camps and were assigned to filthy quarters which were unheated in cold weather. They were fed barely enough to keep alive.

Army censors have warned against passing stories about conditions in the camps. Everything including reports on the situation has been stopped until recently. The censors have contained that unfounded exaggerations might be printed, providing the Germans to retaliate. They are now being released.

The policy now has been relaxed. Correspondents may report what they see, but still cannot write what liberated Americans told them, if severe cruelty is involved.

Liberated prisoners in several camps unanimously told this correspondent that the conditions were as bad as those in any of the camps. "The Germans could not treat us as well as they could," one said. "The Germans could not treat us as well as they could," one said. "The Germans could not treat us as well as they could," one said.

Oakley Private To Go Overseas

HARKLEY, April 21—Private Jay L. Harkley entered the service in June, 1944, following his graduation from Oakley high school.

The 16-year-old school in Wisconsin and Illinois after completing an advanced course in the army corps.

After spending two weeks with his parents, Mr. and Mrs. Mayo Harkley, Private Harkley reported to Shipyard Field, Tex., to await an overseas assignment.

He is one of three sons in service. Private Almond K. Harkley, stationed at Camp Stokes, Tex., and 17-year-old Craig H. Harkley, somewhere in Belgium, are the other sons.

15-DAY FUBROLOGER
FILER, April 21—Pvt. Walter D. Thomas, who recently completed radio training at Fort Bliss, Tex., is spending a day furlough with his parents, Mr. and Mrs. Raymond Thomas, here.

Mother Returns; Visited Family

PAUL, April 21—Mrs. Allen Har-din returned home from Des Moines, Ia., where she visited her son-in-law and daughter, Mr. and Mrs. King Clark.

Mrs. Har-din spent at this time to visit her son, P/O Robert Har-din, who was stationed at their field post, Fort Wayne, Ind.

Since her field was closed to civilians, Flight Officer Har-din met his mother and sister, Mrs. Craig, in Chicago while he was on a 24-hour leave.

A letter written a few days later by Har-din stated he was once where in the United States. He is a glider pilot.

Former Residents Will Live in Paul

PAUL, April 21—Mr. and Mrs. George DeLong and their children, Carl and Delores, arrived here from Paul, Calif.

Mr. DeLong has been a carpenter foreman at the government hospital in San Pedro for the last year, and a half. He and Mrs. DeLong returned to Paul to reside. They have purchased a home, Mr. DeLong will operate the father's farm northwest of town.

250 AT SCHOOL DINNER

FILER, April 21—Two hundred and fifty grade school children and their parents enjoyed a chicken dinner with ice cream at the grade school cafeteria on the afternoon of the 21st.

In charge of the cafeteria during the past season were Mrs. E. H. Harding, Mrs. Homer Schnell and Mrs. V. A. Allison.

STUDENT ACTORS SCORE NEW HIT

By VIRGINIA BARRON
She's done it again. Friday night Miss Florence Reed, expressing her feeling about a through a talented group of Theater Guild student actors, scored a new hit at "Smilin' Through" something to remember.

These who never seen "Smilin' Through" were given an unexpected treat, and all persons familiar with the play were amazed at the performance. The play is a comedy in both the teen-agers and their parents and grandparents.

The Friday night cast was as follows: John C. Gentry, "Tom"; Owen Harkley, "Bud"; Mervyn Moore, "Clare"; Elaine Glick, Kathleen Dunsmuir, "Pat"; Kenneth Wayne, "Roy"; King Jeremiah Wayne, "Bob"; William Arley, "Bill"; Bruce D. Gentry, "Sam"; Wayne, "Barbara"; Mary Clark, "Barbara"; and "Dorothy".

Their excellent portrayal of heart-break and happiness has earned for them a reputation for the honor of being Thespians.

Minidoka Stake Pays FDR Honor

RUPERT, April 21—Largely attended memorial services were held at the Rupert L.D.S. tabernacle for Franklin Delano Roosevelt, sponsored by the Minidoka Stake of the U.S. Church.

Stake President J. Melvin Young was in charge. The opening prayer was offered by Pastarch Henry Caldwell and the bishop of the Aetolia ward pronounced the benediction.

Other speakers were Bishop John Merrill, Paul Ward, President Charles N. Campbell, Rupert second ward; President Davis Green, Paul Ward, and President J. Melvin Young.

Musical was provided by the girls' chorus of the Minidoka ward in two numbers and by Frank Watson in a solo, "Goin' Home" and a solo solo, "In the Garden".

PLANETS AND STARS ON NINTH OF JULY

By J. HUGH FRUENT
Astronomer, General Extension Division, University of Oregon

A few questions received from correspondents are answered here.

Q—A magazine states the west will have a total solar eclipse July 9. Will it be visible over all of western Oregon?

A—Not as a total eclipse. The sun will be completely hidden for a short time over only a relative narrow strip extending from near Smith's River, through Butte to Coquille, Mont., across Canada, Hudson Bay, Greenland and on into Europe. All the rest of Oregon will see it as a partial eclipse. At Seattle the sun will be 81 per cent covered, at Portland, 71 per cent; at Salt Lake City, 50 per cent; at Denver, 31 per cent; at St. Louis, 12 per cent; at New York, 2 per cent.

LEAVE CONCLUDED

GLENNIS FERRY, April 21—S/Lt Dean Redford, is home on leave, visiting with his parents, Mr. and Mrs. Frank Redford. He will report at Shoemaker, Calif., for assignment. Redford completed his boot training and schooling at Paul.

COMMUNICATION LINES ARE GROWING "WHERE NONE EVER GREW BEFORE"

War has taken our fighting men to strange places and every mile they advance lengthens lines of communications.

That's why there's a waiting line for home telephone service here but Germany and Japan have to be whipped before we can get back to large scale civilian production.

Even after we make the new equipment we'll still have a big job to fit it into the present arrangement of wire, cable, switchboard or dial equipment in the telephone office. That must be done without disturbing present service—an intricate job. But you can be sure we'll move full-speed ahead—we don't like to keep people waiting for telephone service.
