# CLOSETS EMPTY; DRIVE SUCCEEDS

Moths by the thousands are dying in Twin Falls. They're starving to death and all because their feeding ground is gone. Closets and attics have been emptied of all clothing—and hundreds of persons somewhere—somewhere—will give thanks to Twin Falls residents who gave so bountifully to the clothing drive which ended officially here Saturday afternoon. The final tabulation was more than 25 tons.

Everyone who gave to the drive did so because they wanted someone to have clothing which would cover his body—and lift up his spirits with the gay colors of some of the donations. Twin Falls residents "did themselves proud" in the way they gave to the drive. There was a very small percentage of really "cast-off clothing," most of it was immediately wearable—and probably some Russian, or Pole, or even German, will shake a pointed head when he sees what we Americans "throw away."

### A Big Job

Workers were busy every day in the basement of the library, where all the clothing was taken by truck from the various depot points, sorting and packing the clothing for shipment to Boise.

The work of sorting was under the personal supervision of Mrs. B. L. Reed, secretary of the Y.W.C.A. Some of the groups who participated in the sorting and packing include the Presbyterian and Methodist women; the Baptist and Brethren women; and the women of the P. O. A. and the 20th Century club.

Shipment was under the management of Mitchell W. Hunt, general shipping chairman, assisted by C. J. Green, co-chairman.

During the period the drive was in progress, the more than 25 tons of clothing was handled piece by piece by the various workers, each day's head-high pile of coats, suits, dresses—you name it— dwindling from near window-high piles to near the sill before the day ended.

Good Apparel

There were many "O.K." and A.K.A. by workers as they "mashed" through the piles, as they held up wearable overcoats that did not show wear; as they found whole pairs of shoes "with the shine still on."

"Someone somewhere is going to think all Americans are crazy when they see some of these things," said one woman worker, holding up a black-and-white sports coat that did not seem the least bit worn. "It even has all its buttons," she said.

# Destined for Overseas "Duty"

Workers in the Twin Falls library basement sort and prepare for shipment a part of the clothing which was collected in the United National clothing drive, which closed officially Saturday, shown getting the head-high collection ready for shipment to Boise are Mrs. Vera Silvey and her small daughter, Virginia; Mrs. W. L. Hayward and Mrs. C. H. Fryer. Holding garments in the background are Mrs. A. E. Francis and Mrs. Ray Truesdell, president of the auxiliary of the local post of the American Legion. (Staff photo-grammer)

Hunt said that all the clothing will be sent to the state office of the collection drive, Boise, "where it will be repacked for shipment overseas."

"With Twin Falls residents giving 25 tons to the drive, think what the national tonnage of the drive will produce," Green said. "I can't even comprehend such a figure."

The drive, known officially as the United National clothing collection for overseas relief, was under the direction locally of Elmore, Brown, chairman, Rotary, Kiwanis, and Lions were official sponsors but sponsorship actually was citywide.

Black-eyed persons can see better in dim light than can persons with hazel, gray or other light-colored eyes.

# Most Lost Bikes Are "Borrowed"

"Lost" bicycles are becoming "more and more of a problem every day," according to Police Chief Howard Gillette.

"In nearly all cases of bicycles being reported as either lost or stolen, the property involved usually turned up when the one who had 'borrowed' the bike returns it, leaves it where the ride ended," Chief Gillette said.

"During the present year, for instance, we received 62 reports of bicycles stolen," he said. "Of this number only nine have not been recovered—and in nearly all cases the owners themselves recovered their 'borrowed' bikes."

Parked bicycles should be locked, Chief Gillette said. "That would save us a lot of bother and it certainly would save the owners of the bikes from being without transportation."

By HARRY GUNNING

When you're "sent to war-torn Germany and France, you get a different perspective on things—including the enormous value of things which we in America take for granted.

That has been the experience of Pvt. Richard Salladay, 21, son of Mrs. Biva Salladay, Colonial apartment, Twin Falls.

Private Salladay was wounded in Germany last Jan. 4. He was with the seventh army. Last Jan. 4 was a black day for Private Salladay, not entirely because he was wounded but because he and his buddies were "pushed" back out of Germany by the enemy.

Private Salladay's wounds still show, although there are no scars. The injury, in his left arm, makes it impossible for him to raise the arm from beside his body.

But this is no handicap for him. He came to the basement of the library and offered to help pack some of the clothing which had been collected in the local clothing drive.

"I guess maybe I know the value of clothing to the people of war-torn Europe," Private Salladay told Mrs. B. L. Reed, Y.W.C.A. secretary, who was in charge of the sorting of the clothing.

"You can't imagine what even a coat would mean to a small child in France next winter. And a pair of shoes—well, they just dress up things like that over there."

Private Salladay has not been discharged from the army. He's home on a one-month sick leave and is "stationed" at the Dexter general hospital, Spokane, Wash. He was overseas on active duty for eight months.

# Posse Will Act On Memberships

Members of the sheriff's mounted posse will meet at the county house at 8:30 p.m. today for a brief business session. A number of applications for membership will be acted upon.

The posse held a drill from 7 until 8 p.m. Sunday on the 60-acre tract just north of the city that they share with the Frontier Riding club. Sunday afternoon members of the riding club rode to Blue lakes look-out where they ate lunch before returning to the riding grounds.

# Buhl Seaman on Extended Leave

DUILL, May 7 — MM 1/6 Ken Smith, and his alter, Mrs. Alma Smith, left for Port Collins, Wyo., where they will visit for about a week with relatives and friends.

Seaman Smith has been on leave from his base at Olmho, Kan. From Fort Collins he will return to the Olmho base, and from there will go on to Norman, Okla., to attend gunnery school there.

Smith is a veteran of 10 months of overseas service, most of it spent in the New Hebrides. He has been in the service for three years, and owned and operated a milk truck here for 10 years before entering

# OVER 3 TONS IN GOODING'S DRIVE

GOODING, May 7 — More than three tons of clothing were collected from Gooding and surrounding vicinity for the United National clothing collection for the relief of people of liberated countries, according to the report released by the chairman, Otto Schindl. The response to the call for clothing was "most gratifying," said Mr. Schindl. Contributions also came from Bill, Tuttle, Shearling and Wendell.

A committee from the Lions club arranged for the use of the building which was donated by E. L. Bilson and Charles W. Flynn, Cool and team were donated by the Gooding Mill and Elevator company. Miss Nola Gollings had charge of the packing and labeling assisted by a group of 20 women from the Gooding and Professional Women's club and members of the Rebekah.

Stell Warrington and F. O. Regula and committees from the Modern Woodmen, assisted by other men of the community, tied and weighed 122 boxes.

Mrs. R. W. Day and Mrs. W. A. Bandolph organized the women from 27 organizations of the community into groups which sorted, mended, sewed on buttons and prepared articles to be packed. Women of the Christian church tied and donated three comfort quilts and the North Star Community club gave a comfort.

Other women's groups deserving special credit, said Mr. Schindl, are: Boronia May Mothers, P.T.A., Eastern Star, W.S.C.S., Baptist auxiliary, Episcopal club, Relief society, Nat'l arena church, A.A.U.W., American Legion auxiliary, P.F.C. and Hospital.

One hundred women assisted with the work at the clothing center during the three weeks' drive.

Harley Grippen used his truck to collect boxes from the local stores and Harry Edgerton used the shop in the display window at the clothing center. The Idaho Power company furnished electricity. The Gooding Leader and the Times-News were generous in their publicity, said Mr. Schindl.

A total of 2833 pounds of clothing were sorted, mended and weighed. Infant's garments amounted to 324 pounds; children's, 499; men's and boys', 1941; women's and girl's, 2500; shoes, 927 or approximately 700 pair and bedding, 300 pounds and several packages of miscellaneous articles.

The clothing will go out by Garrett truck line to the state headquarters at Boise.

**WE HAVE PLENTY OF HOT WATER Electrically**

"With an electric water heater," you can be lucky too. No bother about waiting for water to heat! No worry about burns from steam or scalding water! An automatic electric water heater provides abundant hot water instantly, and at just the right temperature.

Once installed, your electric water heater can be forgotten completely, for it's entirely automatic. And because it is automatic, operation is economical, for automatic thermostats control the amount of electricity used. For laundry, kitchen, bath or sick room, hot water is a number one necessity.

"If you don't have an electric water heater now, make it a 'must' for after the war."

**Protect Your Plumbing Equipment**

If you detect leaks in drainage or plumbing equipment, have repairs made at once. Leaks cause damage to water and water waste. To prevent moisture damage—don't let your money go to the land—have them fixed without delay.

Don't put medicine, kerosene or drain pipe into the drain—these may contain chemicals harmful to plumbing and will cause clogs. Don't let hot water, hot oil, etc., go down the sink or lavatory drain. Better to have it will stop up the plumbing.

RUSSIAN-OCCUPIED GERMANY, May 7 (AP)—Uncle Joe Stalin's unscathed red army, cheered up another victory—won with its fatness, costliness and vodka—when it completed envelopment of an all-out assault of allied war correspondents.

Oui, Oui, American Boys Are Ultra, Ultra, Says Yank Gal

HAILEY, May 7—Miss Harriet J. Klingler, daughter of Mr. and Mrs. T. J. Klingler, Boise, formerly of Hailey, was the following sister to her parents from somewhere in France, where she is a recreational director of the Red Cross.

MISS HARRIET KLINGLER (Staff engraving)

"Life in the Red Cross is just one summer after another. Some are good, some are bad; but I had a very pleasant time this week. A darling every American soldier is a darling compared to all the other men in the world, believe you me! fellow came up to me one evening and said, 'Hey, Miss America, go a minute to spare? Haven't talked to an American girl for a long time. Can't say I go for the 'oui, oui' and 'ouais'."
"Naturally I stopped, not because I thought I should, but because you always want to talk to the fellows. He told me how a very strange feeling came over him every time he entered the club.

Petition Entered To Handle Estate

Ada Rayborn filed a petition in probate court here Friday asking letters of administration for the estate of the late Lewis Clare Gillman, Twin Falls county resident who died Feb. 11 in Wasco county, Ore.

The estate consists of real estate in Filer valued at \$4,850.

His heirs are listed as his widow, Mrs. Harriette Gillman, a son, Richard C. Gillman, stationed with U. S. Army forces at Santa Ana, Calif., and a daughter, June M. Harbert, The Dalles, Ore.

Judge C. A. Dabney set the matter for hearing May 16.

Rayborn and Rayborn are attorneys for the petitioner.

The walls, most popular of the 19th century dances, came from Germany though several other countries claim it.

Grand Soldiers

"The building now is every bit as large as the Bone Junior college addition. We have two floors completely enclosed now, and a third one almost finished. Our grand soldiers have eaten, binged and coped, via the 'monthlight' grand olden days, and the wood that has made our club a really nice building."

"We have brewed with some hundred odd doughnut different orange drinks to give us the assets out of wrecked command cars and ambulances and make them into quite comfortable vans."

"We didn't have enough tables for magazines, coffee and games, so we cut off our doughnut flour barrels about 12 inches, painted them, and behold, very sturdy and practical tables."

Military Insalga "The boys talk upon writing on them, so we furnish them with paint to decorate the white tops with their initials or names. German helmets painted to match the helmets, that they had in a long time, even

Very charming haughty baskets

Wouldn't Mr. Kraut love this? "Old powder cans now serve as flower baskets. We have also constructed a few of these very attractive baskets, and really they look like Sun Day or Callenite pottery vase."

"Right now, they are full of white thorn apple blossoms. Indirectly, except for the mountains, this part of France is very much like Idaho. There are quite a few large farms near here and lovely scenery, but they still need a few Idaho tomatoes."

"Our first orchestra consisted of a drum, bass fiddle and guitar. The drum was a square power can, a copper screen and an old pipe. A paratrooper actually made music with it, too."

Fiddle a Drum "The bass fiddle was an oil drum, pieces of telephone wire and a two-by-two. The fiddle—actually played until fingers were just too cold to hit the right chord."

"The audience sitting on the half-completed walls while the December and January winds played old melodies through the building, would scream for more. Guess they were too cold to want to move."

"But it had been the most fun that they had in a long time, even

though it has been tough at times. "Every day we say, 'nothing can happen but it always does. But we get payment beyond our dreams—the checks we get every two weeks, but tangible things, like a dozen fresh eggs, some dry wood, an old mirror or powder can, or the cake I got, hat night a ranger brought me, baked himself in the battalion bakery."

"The cake was wet in white and brown and sat on the top was 'To Harriet Klingler'."

"When you get a handkerchief in an Easter card from someone's mother, that is payment for the cold night you listened to a boy's story of lovebreak and disillusionment."

"But it had been the most fun that they had in a long time, even

### THE AMERICAN HOUSE

By the middle of July five or six automobiles drive to the American House every Sunday. My father was jubilant on the very beginning to take a little "Why don't you take the girls and go to Boston for a while?" he suggested to my mother.

Her feet were still on the ground. "We aren't out of the woods yet," she reminded him. "Besides, if there is a trip to be taken, it will be yours." It was his custom to get away for a week each year so that he could keep himself posted on new developments in medicine. He usually spent a day watching operations in the clinic at Bangor and another at Bowdoin college, talking to the dean of the medical college, who had been one of his teachers. Then he went on to Augusta, staying the remainder of the time at the State Hospital for the Insane, where he was a lecturer. Coming back, he stopped reluctantly—to see his father at his home, Bangor.

That day he had seen the accident soon heard about it. It was a wonder, people said, that someone had been killed. They weren't safe any more. You were taking your life in your hands when you crossed one. You couldn't even be secure about your property. People were afraid. By this time the car was going the rounds for a special town meeting to pass a decision on the new measure.

My mother was distressed, for she hated to see people fly off the handle. Although she didn't care much for automobiles herself, she knew what they meant to our business. Yet she could do nothing. Actually my father himself could have done nothing in the face of such hysteria. The meeting was held. Mr. Taylor made a speech. Some damage was done two or three times a year by runaway heaves. He reasoned, but he had little support. He died by visions of death and destruction, the voters passed a law banning automobiles from within one mile of the village, at which point, by a convenient coincidence, they might pass that day marked the end of our progress.

against automobiles in those days, especially in rural areas. Recognizing this, the legislature had, in 1905, passed the automobile exclusion act, allowing any municipality the right to prohibit them within certain limits. Nothing had been done in our village because of differences in opinion. About a quarter of the people, including my father, were enthusiastic about them, feeling that they would eventually benefit to its business. Those who were not, however, saw them as instruments of the devil. Some wanted to see them ban from certain roads on certain hours and days. Most people had been willing enough to let things drift, but now...

### Paul Woman Told Grandson Missing

PAUL, May 7—Mrs. Alice McGroves received word that a grandson, Sgt. Harley Gill, has been missing over Italy since April 12. He was a gunner on a bomber, having been in overseas service since October, 1918.

The last letter written to his grandmother, he said he probably would cross the border and nearly completed his notebook.

He is a son of Mr. and Mrs. George Gill, Denver.

Eden: Allen Peir went to the University of Virginia for his doctorate later was a cadet at West Point for three months.

People on the steps began to shout all at the same time. "Watch step!" "Watch step!" "Watch step!" "Turn out, turn out, the woman shrieked, half-rising.

The driver lost his head and made straight for the steps of the post office. People scattered left and right, all screaming. The woman stood up and raised her arms. Her mouth was moving but no sound came.

The automobile struck the steps with a crash, throwing her over the wheels and upon a pile of mail bags. She closed her eyes to see if she was still living.

She was alive all right and groaning loudly. Her eyes had closed in her good stead, and if she had had bruises, they were not as politically visible. The driver left his name and promised to pay for all the damage. Someone called the automobile for him, and he drove away with the woman in the front seat, leaving Harley's suitcase behind. No one breathed easily until they were out of sight. Then, forgetting all about the mail, people scattered to tell the news.

There was a good deal of feeling

# MIGHTY 7<sup>th</sup> WAR LOAN

HELP YOUR COMMUNITY TO MAKE ITS  
QUOTA BY MEETING YOUR PERSONAL QUOTA

FIND YOUR QUOTA... AND MAKE IT!

YOUR AVERAGE INCOME PER MONTH	YOUR PERSONAL WAR BOND QUOTA IS (CASH VALUE)	MATURITY VALUE OF 7 <sup>th</sup> WAR LOAN BONDS BOUGHT
\$250	\$167.50	\$250
225-250	150.00	200
200-225	131.25	175
175-200	112.50	150
150-175	93.75	125
125-150	75.00	100
100-125	37.50	50
Under \$100	18.75	25

BY this time last year Victory Volunteers in this community had made the rounds twice to get out fighting dollars for War Bonds. So if you've wondered why no one has called on you yet in 1945, here's the reason... The Mighty 7th War Loan (starting May 14) will be TWO GREAT DRIVES COMBINED IN ONE!

And think what that means. All the old rules of buying you set for yourself in the past are out. America's growing battle might is costing five dollars every hour. Only by your purchase of MORE BONDS AND BIGGER ONES in this double drive will you be doing right by the men who fight.

Remember that your community has a quota it will be proud to make. It's made up of all the *personal* quotas of you... your neighbor next door... the people up and down your street... EVERYBODY in this vicinity. So it's EVERYBODY ALL OUT... buy bigger bonds and more of them when the Victory Volunteer calls. Our fighting men are watching what you do!
