

BERLIN, July 11 (AP)—The Inter-Allied command staff announced today all Soviet regulations will be enforced in force. Announcement came after red ambassadors in Moscow had control of 12 of Berlin's 20 boroughs to American and British officials.

ROCKET FIRE PROOF

Rockets Rip Into Japan And Islands

GUAM, July 12 (AP)—Bombing and rocket-firing planes ripped southern Japan and its island sprawl Wednesday in a fiery followup to the big carrier and land-based air assault on Honshu and a Japanese military commentator told his people that adequate defense of the homeland from invasion required the proving challenge he met.

The federal communications commission, meanwhile, recorded a Tokyo broadcast that a British carrier task force sent more than 200 planes from two flatlands Wednesday morning against Sabang island off the northern tip of Sumatra, 700 miles northwest of Singapore.

Adm. Chester W. Nimitz announced today that "strong forces of Corsair fighters and Avengers torpedo bombers" raided Kyushu and the northern Ryukyus Wednesday.

They bombed, rocketed and strafed hangars, shops and buildings at Miyazaki airfield on southern Kyushu, the first attack on a Japanese island both north and south of the main group, northern Honshu.

The fleet admiral, however, had nothing further to report on the operations Tuesday more than 10,000 carrier planes of Vice-Adm. John S. McCain's force from the fleet's base of more than 70 fighters in the Tokyo area. He only "preliminary reports" on the action, making an incomplete assessment of results through Tuesday morning.

He said 14 enemy planes were shot down, all but one on the ground. Tokyo radio said the carrier assault continued for a 12-hour period ending Wednesday.

He said 100 American fighters were sent to the island, intensifying air assault cannot be ignored, a Japanese military commentator said over Tokyo radio to his people.

He said attacks from the air undoubtedly will be in aid of the decisive battle on the mainland.

Mussolini's Widow Tells Final Talk

BRITISH INTERNATIONAL CAMPAIGN, July 11 (AP)—"I was never closer to him than when he was lying in his bed, and I was with him when he died."

Widow of the Italian dictator, Mrs. Mussolini, said today in a final talk with the flamboyant gray-haired British war correspondent who helped her escape from the Nazis.

For the first time, Mrs. Mussolini said she had seen her husband's face and she had a final satisfaction that she was dead.

"You're free well to hang her," she almost shouted.

"Mussolini never had anything to do with me," she said. "I never let them have any influence over him. That was provided for in my contract."

"Mussolini at the end of his life was a man who had no friends, but he would leave his."

3,000 Haven't Signed up for Rent Control

More than 14,000 property owners in Twin Falls county, and 2,000 in the Cozala-Middlaka area, have not registered under the OPA rent control program, although deadline July 15, C. W. Witham, attorney-director, said Thursday.

Estimating the figure as close to 50 per cent of property owners, on the basis of figures now available, Director Witham said that after July 15 deadline the OPA plans a complete physical survey.

"We will make a house to house canvass of the entire rent control territory," he said, "we will go directly to the tenants to secure information as to ownership, present rents and the rent so of the base date."

Although he did not announce procedure following the survey, it was indicated that evasion action would be taken against those landlords who do not register.

Procedure already instituted by the rent office was revealed by several tenants who have received questionnaires from the state office.

Signup headquarters for property owners are located in the Normandy building, 127 Main avenue west.

Casualty Total: 15 Faint by 12:30 in Fire Sale Throng

Casualty total: 15 by 12:30. That's the score at a Twin Falls fire sale to big H jumped into the news of the day.

It got there by way of an unprecedented throng of women shoppers (with few helpers) and mixed in, by reason of the women and girl "casualties," and by virtue of the fact that the Red Cross itself and the police department were called in to help.

The 15 were women, both old and young, overcome by the July heat at the C. Anderson company fire sale which opened at 9 a. m. in the Horro building.

They were relieved by Mrs. Marlow Glenn, nurse's aide, in the Red Cross first aid station, set up by the rear of the building.

Mrs. Glenn was swamped during two forenoon periods by patients, but carried on with the efficiency which is characteristic of the Red Cross nurse's aide.

Most of the patients, victims of the heat and the "push" of getting into the hospital, were more concerned over the fact that they hadn't got any stopping food, but by the fact that they had "passed out" they told the nurse's aide.

Nampa Jammed To See Finish 100-Mile Race

NAMPA, July 12 (AP)—Racers crowded this western Idaho city today to await the arrival of the first of 50-odd riders in the 100-mile company race staged by the Snake River Stampede Association.

The hard-riding men and four women who were to have the X-1 return lap of the race had tortuous mountain trails and dusty desert land to cross before they neared the finish line.

Glister of hooves echoed last night through Silver City, a ghost town once the metropolis of Idaho, as the cyclists pedaled the streets under the last few miles of the first half of the race.

Civilians Go on Their Own August 1; Governments to Begin Purchases Then

WASHINGTON, July 12 (AP)—The U. S. army will stop supplying food to civilians in liberated Europe Aug. 31. The action will save millions of dollars for American taxpayers.

The United States, contrary to earlier announcements, will continue lend-lease shipments of meat to Russia during July, August and September.

Newly approved food allocations for the Soviet include 25,000,000 pounds of meat in the form of tushonka, a canned pork and beef combination. No other U. S. meat will go abroad during the three-month period except to the armed forces.

The scheduled Russian shipments are 25,000,000 pounds of flour, 5,000,000 pounds of butter, 10,000,000 pounds of cheese, 4,000,000 pounds of dry peas, 2,000,000 pounds of dehydrated vegetables and 2,000,000 pounds of dried milk.

The Russians requested 430,000 tons of food for the last six months of 1946. The approved three-month allocations amount to less than 30,000 tons.

The U. S. army has handled approximately half of all food shipped from this country for European civilians but has been gradually relinquishing the relief job since early spring. The army estimates that it has distributed 100,000 tons.

Wide Range Blaze Halted In Eden Area

A brush fire that raged for 15 hours before it was finally extinguished at 2 a. m. today, burned over 1,500 acres of range land north and east of Eden, Jack Keith, Shoshone district ranger, announced.

He said the blaze occurred in an area that has been frequented lately by rabbit hunters and he warned them to be careful of starting fires from carelessly tossed matches.

Ignited by a "devil wind" blowing from the southwest, the blaze raced over many acres of grazing land before crews were organized and sent into the area, Keith said.

The fire was spotted by Guy Wenden, lookout on Klumpen hill, and Julius Ingard and Max Guy, lookouts at Nolen. Keith said.

Keith said he would not "hazard a guess as to the exact spot where the fire originated because it is impossible for lookouts to pinpoint a fire 200 to 300 miles away."

"We sent a crew from Hunt under the leadership of Fred Munk to the blaze, Keith said.

"As far as we can gather, the fire spread through thick brush, grasses, and other brush, Keith said.

"A better way of describing the fire is that it started near the Jerome north side canal, north of Wilson lake," Keith said.

More Bombs Before Real Blow Begins

AF Foreign Affairs Analyst
The fierce aerial bombardment which Admiral Halsey's carrier-based warplanes has administered to Japan has led the Tokyo radio commentators to believe that this is the curtain-raiser for invasion.

Well, it could be, but the signs are that (barring some unexpected developments) the miko's motherland is under an awful seething of our troops before we send our gallant flyers up into the beaches of Japan's strongly defended coast. Undoubtedly the little men of nippon would like to see their new, better bombs have anesthetized their homeland.

However, the allied command is under no enemy pressure in the Pacific and may be expected to proceed in carrying out its program. That contemplates the blasting of the Japanese air force with raids until it is thoroughly of balance and numbered. Then we shall invade. It is, of course, to be understood that the miko's government is smart enough to surrender before the death and destruction.

How long it will take to reduce the main islands to the point where we can carry out amphibious invasions is a matter of pure speculation, of course, but it's safe to say we can do more and more of them in the case of Germany, and we have the testimony of German field marshals and generals that the chief factor in the collapse of the German army was the bombing.

There are military experts here who believe we could knock Japan completely by bombing Japan, but that remains to be seen and can't be assumed at this juncture by any means.

Infantryman, 19, Thrice Wounded

BUILD, July 12.—Pfc. Donald V. Lee, Melon Valley district, received three wounds on Okinawa, according to word received by his parents, Mr. and Mrs. Victor Lee.

Having been wounded previously in the Philippines, Pfc. Lee has been awarded the Purple Heart, the Infantryman's Medal and a Presidential Citation. He is with the 10th Army and helped man one of the big mortars.

Private Lee told his parents that he was hospitalized because of shrapnel wounds received during the last week of the battle. The shrapnel was all removed after two operations and the youth sent home in a letter to his parents. He stated that he was getting along fine and would be ready for battle soon.

Landing with the first infantry troops on Okinawa, Private Lee participated throughout the entire battle. He commented that the Japs "were really fighting for their lives." "Being wounded three times in the battle," he writes, "I'm lucky to be here."

A graduate of Lohi high school in 1941, Private Lee joined the army July, 1941. He received basic training at Fort Belvoir, Tex., and Ft. Ord, Calif. He volunteered in December, 1944, and went overseas in January shortly before his 19th birthday.

Captives to Attend Slain Nazi Rites

PORT DOUGLAS, Utah, July 12.—A mourning group of German prisoners of war was chosen today to attend burial services for eight comrades killed by machine gun fire at the hands of a U. S. army private.

The services were set for late today in the Port Douglas cemetery. The Germans were killed and 20 wounded at the Italian prison camp Sunday when 200 built from a machine gun on a guard tower overlooking the camp.

Meanwhile, Pvt. Clarence V. Bertucci, 21, of New Orleans, named by Col. James H. Hays as the machine gunner, was transferred to Brigham general hospital at Brigham City after a week of treatment. This may take 10 days to two weeks, army authorities said.

In addition 10 to 15 prisoners from the Salina camp, a chieftain of 20 Germans was sent from the Ogden, Utah, camp was assigned to sing at the funeral.

A prayer and sermon by Protestant chaplain Frank B. Edwards of Port Douglas and a volley from the down U. S. army fife band will complete the service.

LEAGUE HOLDS SOCIAL

JEROME, July 12.—Fifteen members of the Waikua League of St. Paul's Lutheran church enjoyed a social time at the city park here.

Chinese Take Luchai, Push To Northeast

CHUNGKING, July 12.—Chinese forces advancing north along the Yunan-Kwangsi railway are battling their way toward Yunnan, 80 miles northeast of Luchow and 24 miles southwest of the former U. S. air base at Kweilin.

This column recaptured Luchai, 21 miles northeast of Luchow, and drove beyond. Offsetting the Chinese gains in Kwangsi province, the high command said that the Japanese had captured Tsinan on the south Chih-tung coast 107 miles southwest of Canton.

It was not immediately clear whether this drive represented an attempt by the Japanese to gain their way from the Luchow peninsula to Canton or to strengthen Japanese overland communications between Canton and Hainan Island, which lies off the southern tip of the peninsula.

Twin Falls delegates were Mrs. Robert Haller, Mrs. Stella Philmyre, Mrs. Maude McRoberts and Mrs. Mrs. Margaret Watt read from the USO hostess handbook and general discussion of USO problems. A report also was given on the door count which showed that 1,568 had come to the USO in June, 1943; 1,218 for June, 1944, and 2,000 for June, 1945. Mrs. Robert Haller, co-chairman of the USO committee, presided at the meeting. Smiling through club will meet July 13, at Friday at the home of Mrs. May Pierce.

Care of Your Children

By ANGELO PATRI
The war has made changes in the homes, changes that have upset lifelong habits, attitudes and plans for the future. For one thing, we have a goodly number of young mothers who must live in the homes of the young folk parents. One side or the other of the new combination is a guest for the duration. Guests are fine of course. Every household should have them but there are few of us who do not agree with the waghin person who says they were made as glad three times when they came, twice when they went. It takes a lot of adjusting, a lot of sacrifice to make room for a second family in the home even when that family is related closely. The young wife with a baby living in her mother-in-law's home is in a hard spot. She is in dread of troubling the older people. She is in constant fear of their criticism which she feels through their attitudes and in their indirect speeches. If the baby cries at night she is in a panic. Maybe the baby is going to die—and certainly he is keeping the old folks awake. In her agitation both these thoughts loom as catastrophes. Old Folks Must Adjust Themselves There is just one way to make that is for the old folk to go all out for the young mother and her baby. The soldier is giving all he has. He gave up his home, his old comforts, his routine of work and play and took over the serviceman's life of hardship and grim sacrifice. It is little enough that we make

Stocks

NEW YORK, July 12 (AP)——The stock market today was a market of mixed fortunes. The market opened with a slight advance in the Dow Jones industrial average, but it soon turned to a decline as a result of a sharp drop in the price of oil.

The Dow Jones industrial average closed at 117.12, up 0.12 from 117.00. The S&P 500 index closed at 42.12, up 0.12 from 42.00.

The market was characterized by a sharp decline in the price of oil, which fell 1.00 to 11.00. This decline was the result of a report that the government was considering a price ceiling on oil.

Other notable movements included a decline in the price of steel, which fell 0.12 to 11.00, and a decline in the price of copper, which fell 0.12 to 11.00.

PSST—THAT'S YOU!

When you ever started by a fleeting glimpse of a face in a public mirror... Then you looked again and sheepishly recognized your own reflection! It was the unfamiliar setting that fooled you.

Same way, you may not recognize yourself at first as having a financial stake in this company. But you probably do—directly or indirectly.

Directly if you hold some of our stock, like 1864 other folks around the state—folks from all walks of life.

Indirectly if you have a savings bank account or life insurance policy as most Americans do.

Banks and insurance companies like to reinvest your savings in sound, business-managed electric companies. Some of your money is almost surely working for you here.

You'll be even more pleased with this new view of yourself as a part owner as well as a customer when you remember that your electric company has fought a winning fight throughout the war—to keep the price of your service down and the quality of your service up.
